Inside Door Lock. With jet black knobs. Wrought steel trimmings. Mortise Lock 3⅝x3¼ in. 1 pair Knobs. 1 steel bit key. 2 long escutcheons 5⅜x1⅜ in. With screws. **Reversible.** Very popular. The extremely low price (about one-half that of the retail price), and neat appearance of this set make it desirable for many purposes, where the jet black knobs would be suitable. The lock, front, bolts, and escutcheons are plated steel, but make a satisfactory set. Weight, 2 lbs.

We've reached almost the half century mark in business; and might be supposed to know about all there is to know about conducting our affairs—but we don't. We are constantly changing and improving. Our service, for instance, has seen some big changes the past year or two. It's a regular time-table schedule with us now; we get over nine-tenths of our orders out on a 4 or 5-hour service basis. We are perfecting other plans, too, for handling your orders to still greater satisfaction. We should like to make our service perfect. That being impossible, we are trying to be as nearly perfect as we can; and that means constant striving.

WIRE SCREEN

GUARANTEED GALVANIZED WIRE SCREEN

THREE-YEAR GUARANTEE

SPECIAL FINE MESH

180B1335—A Splendid, Guaranteed, Rust-resisting Wire Cloth for general use. Evenly galvanized after weaving, by electric process. Elegant, dull gray color. Does not intercept the vision. Special Close Mesh, 14 meshes to the inch. (All ordinary screen wire is only 12 mesh.) Excludes all insects. Guaranteed for three years, and will easily last 5 to 10 years. Needs no painting. We will replace free of charge any of our Guaranteed Galvanized Wire Cloth which may prove defective within three years from date of purchase. The best and most economical for you to buy.

BLACK PAINTED WIRE CLOTH

180B1330—Painted Black Wire Cloth for window and door screens. We handle only the very best grade of wire cloth. Will stretch evenly. Made with uniform meshes and Double selvedge. Thoroughly coated with high grade paint, which will not crack or peel off. Standard, 12 meshes to the inch. Put up in rolls containing 50 or 100 linear feet, but we supply it in any quantity. Always give size.

BRONZE WIRE CLOTH ARTISTIC—DURABLE

180B1338—Made of Copper Bronze Wire. Extra quality. Will not rust. Particularly adapted for use in the tropics and near the seashore, where the ordinary wire cloth does not give very long service. The mesh is also finer than the ordinary screen, being 14 meshes to the inch, and will thus exclude the smaller insects, as well as the ordinary house fly. Very attractive.

INTERESTING VALUES IN BARN AND STABLE HARDWARE

ROLLER-BEARING BARN DOOR HANGERS

Heavy wrought steel. Wheels are roller bearing, making the hanger anti-friction, on any length of track. (Without screws or bolts.)

85B3904 — Medium size, 1. Width, 5 in. Length, 10¾ in. Diameter of wheel, 3½ in. Weight, pair, 5½ lbs. Per pair **35c**

85B3905 — Large, size 2. Width, 6 in.; length, 10¾ in. Diameter of wheel, 4 in. Wt., pair, 8 lbs. Per pair.... **43c**
(For suitable track, see 185B3908.)

STEEL BARN DOOR HANGERS

Wrought steel black japanned. Heavy and substantial. Wheels have steel axles and run in a slot the width of the hanger, which prevents wear and makes them easy running. Covered top to protect the wheels from snow, etc. Screws or bolts not included.

85B3906—Size, 9x10¼ in. For doors having run of 6 ft. Weight, pair, 8¼ lbs. Per pair..... **45c**

85B3907 — Size, 11½x11½. For doors having run of 10 ft. Weight, pair, 10½ lbs. Per pair..... **60c**
(For suitable track, see 185B3908.)

HINGE JOINT BARN DOOR HANGERS ROLLER BEARINGS

85B3900—Heavy wrought steel. Very strong. One of our most popular barn door hangers. Many thousands in use and giving excellent satisfaction. With hinged joint and roller bearing wheels. Suitable for any size door or any length of run. The hinge joint prevents the door from binding when it is swung in or out. It cannot be thrown off the track as it has a guard that runs under the track. Will not run on ordinary track. For suitable track, see No. 185B3901. Complete with bolts. Diameter of wheel, 3¼ in. Exceptional value. Weight, pair, 6½ lbs. Per pair..... **52c**

IMPROVED TROLLEY BARN DOOR HANGER

85B3919—The latest and best hanger. Heavy wrought steel. Built for hard usage on the heaviest doors. Has a hinged joint so door will not bind when swung out. A detachable door strap makes it easy to hang the door. Lateral adjustment to fit doors 1¾ to 2½ in. thick. Easy running Roller Bearing Wheels. Heavy steel track and brackets. A pair consists of two hangers, two end brackets and one center bracket with bolts and screws. Weight, pair, 9½ lbs. Per pair..... **$1.25**

WHAT AN IDEA DID

Back in '72 we had a pretty well fixed idea that by doing business direct with the customer, there ought to be a considerable lot of profit that could be left out of the selling price. Pretty soon, people "caught on" to our idea; they have been doing that ever since—buying from our catalogues, where the saving "stays at home"—in our customers' pockets.

For Parcel Post Shipments, add sufficient postage. See Page 4 for rates

FINE VALUES IN STANDARD PADLOCKS

POPULAR LOW PRICED PADLOCKS

Wrought Steel. Width, 2 in.

85B3950—Wrought Steel case. Ivory black finish. Malleable self-locking shackle. Two flat steel keys. Width of lock, 2 in. Weight, 4 oz. Each **8c**

85B3951—Wrought brass. Same style as above. Two flat steel keys. Each **18c**

85B3952 — Large, wrought steel. Ivory black finish. Brass inside works. Two flat steel keys. Width, 2½ in. Wt., 7 oz. Each **15c**

KEYLESS COMBINATION PADLOCKS

Solid brass. Neat and very popular. Operates by turning an ingenious combination dial the proper distance in both directions. No clicks to count or springs to get out of order. No keys to carry, forget or to lose. Considered the best combination lock on the market. All locks have different combinations.

85B3992 — Diameter of body, 1¾ in. A very neat but strong little lock. Useful for wardrobes, cupboards, tool chests, etc. Wt., 4 oz. Each **65c**

85B3993 — Diameter of body, 1¾ in. A popular size. Extensively used by motorists to lock spare tires. Fine for tool sheds, barns, etc. Wt., 8 oz. Each **85c**

STRONG DURABLE STEEL PADLOCK

Excellent value. Width, 2¼ in.

85B3966—Wrought steel case and shackle. Neatly japanned black. Self-locking. Two corrugated flat steel keys. The mechanism is strong, well constructed, and will not readily get out of order. Width, 2¼ in. Wt., 7 oz. A most excellent lock for the money and enjoys a large sale. Worth at retail almost twice our price. Each **25c**

WROUGHT STEEL PADLOCK
BRASS PLATED

85B3955—Wrought steel case, brass plated. Malleable iron shackle. Width of lock, 2¼ in. With two keys that fit on the pin in key hole. A neat, serviceable lock and an excellent value for the money. Wt., 6 oz. Each **12c**

SECURE SIX LEVER PADLOCK
WROUGHT STEEL

85B3958—Wrought steel case. Width, 2 in. Black japanned. Heavy malleable shackle. Six secure levers. Two keys. Wt., 7 oz. Each **18c**

85B3959—Large size. Width, 2½ in. Same as above. Wt., 12 oz. Each **25c**

STEEL SIX LEVER LOCK
WITH CHAIN

85B3962—Wrought Steel case with steel chain. Black japanned finish. Heavy malleable self-locking shackle. Six secure levers in works. Two keys. Width, 2 in. Wt., 8 oz. Each **28c**

SECURE SIX LEVER LOCK
SOLID BRASS

85B3964—Wrought Brass case. Bright brass finish. With solid brass self-locking shackle. Six secure levers in works. Two flat steel keys. A strong, well made brass padlock. Non-rusting works. Width, of case, 2 in. Wt., 8 oz. Each **35c**

Per dozen **80c**
Each **7c**

85B3289—Aluminum periods or commas. Per dozen .... **18c** Each **2c**

GENUINE STEEL ALLOY SCHOOL AND CHURCH BELLS

OUR GUARANTEE ON STEEL ALLOY BELLS

We guarantee that every article sold will be as illustrated and described in our catalogue; will arrive in good condition; will serve its intended purpose; and will be satisfactory to you.

You may always exchange for other articles or have your money back, including, in either case, the transportation charges which you have paid.

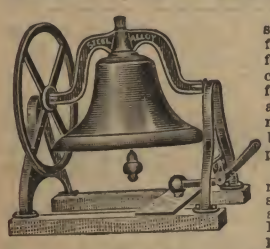
In addition we guarantee our Steel Alloy Bells against breakage for a period of five years.

We will replace, without expense to you, any Genuine Steel Alloy bell that breaks within that time after date of purchase. It is a rare thing for one of our bells to break and after the first year the chances for its breaking are very much decreased. The bell will always improve with use.

It is our desire to make trading with us so easy, so profitable, and so satisfactory, that you will be pleased not only with the goods received, but also with our service and our entire method of dealing.

WHAT PLEASED PURCHASERS SAY ABOUT OUR CHURCH BELLS

Montgomery Ward & Co.



The Steel Alloy Church Bell has been received and now is up and has been tried. I have been asked, "What did you pay for such a bell?" I would tell them and they would be greatly surprised. Everybody in the vicinity seems to be even more glad than we are and we are highly pleased with our bell. I am as ever, (name furnished on request).

Montgomery Ward & Co.

Gentlemen:—We are well pleased with the Steel Alloy Church Bell purchased from you. The church people are very well pleased and one and all unite in praising it.

It is by far the best bell in our town. Yours truly, (name furnished on request).

GENUINE STEEL ALLOY SCHOOL BELLS

Considered the best sounding and most satisfactory low priced bell for schools, small churches, fire houses, factories, etc. Made of a peculiar composition metal, much cheaper than brass, but with a fine, pleasing sound.

For large churches, we recommend the larger size steel alloy bells shown at the right. Prices are for bells complete with wood sills and iron wheel. These bells are the genuine steel alloy and are among the very best made. Must not be compared with the ordinary iron bells found on the market. Our bells give a fine volume of sound and will not become harsh with use. Will give almost as good satisfaction as the best composition copper and tin bells selling at prices many times higher. Give size.

Shipped from factory in Ohio.

FAMOUS GENUINE STEEL ALLOY CHURCH BELLS

Since our Matchless Steel Alloy Bells have been perfected, solid brass or bronze bells are no longer considered the only advisable and satisfactory kind for schools and churches. Our Steel Alloy Bells are of a peculiar composition, cheaper than brass, but with a rich, pleasing sound. The size and weight of bells control the tone, and the depth and purity of tone is increased as the weight is increased and the size enlarged. For much less money than a small brass bell would cost, you can buy a larger Steel Alloy bell, which produces a sweet, melodious, far-reaching sound.

Prices are for bells complete with wood sills, iron wheel and tolling hammer. Church bells 36 inches and larger are fitted with easy turning roller bearings.

These bells are the **Genuine Steel Alloy** and are among the very best made. Must not be compared with the ordinary iron bells that are on the market.

CRYSTAL METAL CHURCH BELLS

While our celebrated Steel Alloy Bells are sold at absolutely as low a price as is consistent with their high quality, yet, if you require a bell at a still lower cost we offer our Crystal Metal Bells. They do not possess quite the richness and volume of tone which have made our **Steel Alloy Bells** famous, but we guarantee our Crystal Metal Bells against breakage for a period of Five Years. We will replace without expense to you, any Crystal Metal Bell that breaks within that time.

IT'S all in the knowing. When business was new and methods were crude, most things went by guess-work. But today we leave nothing to chance. WE KNOW WHAT WE BUY. We have our own chemists and testers—who see that our rigid specifications to manufacturers are absolutely complied with at all times. WE KNOW WHAT WE SELL. And that's the reason we stand squarely back of our merchandise — with an insistent guarantee and a responsible reputation.

Climax Litter Carriers

DRUDGERY and hard work in your barn cut in two. See Farm Implement pages following for complete line of Automatic Raise and Lower and Adjustable Feed and Litter Carriers at surprisingly low prices.

Don't fail to look over our barn equipment. Your barn fitted with our steel Stalls, steel Stanchions, and our Climax Litter Carrier outfit insures cleanliness with the least labor.

CLIMAX is a brand of quality in our line of Farm Machinery. When you buy a Climax you are not paying excessive prices for a high sounding trade mark, but you are getting the benefit of careful and expert discrimination. The name Climax is used only on such tools and machines as have been thoroughly tried and tested in comparison with the best of their kind.

IF YOU are a Hog Raiser, Dairyman, or Poultryman, it is GOOD business to look over our excellent lines of food preparing, watering, and other devices. The improved health and thrift of your stock and poultry will pay a big return on your investment. No fads or experiments; practical time and feed saving devices —every one of them.

Our Climax Adjustable, Climax Raise and Lower, and Climax Feed Carrier Outfits and Parts are offered to you in the belief that there are no other litter or feed carriers, that can be purchased at our prices, equal to them. Our familiarity with many well known makes of carriers on the market has proven to our satisfaction that no matter what prices you pay, there is none, to our knowledge, that has more good features for the easy and convenient handling of feed, litter, silage and other materials.

Either style Climax will operate on all rod track, all steel rail track, or combination rod and steel rail track. We especially recommend steel rail track for general use in barns. It gives a solid, level bearing for carrier, eliminating sagging and allowing the car to stand at any desired point, without applying brake. Outside the barn, rod track may be used with either right or left hand splice connections to switch from the steel rail to the rod track.

THE stage-coach had to give way to the express train—BECAUSE IT WAS TOO SLOW. The old method of distributing merchandise had to give way to the new—because its slow processes failed to quickly get new ideas and creations from the places where they originate, to the places where they are needed. This catalogue gets the latest of the best styles to you—while they are still styles. IT IS THE MODERN WAY.

The Old Freight Argument

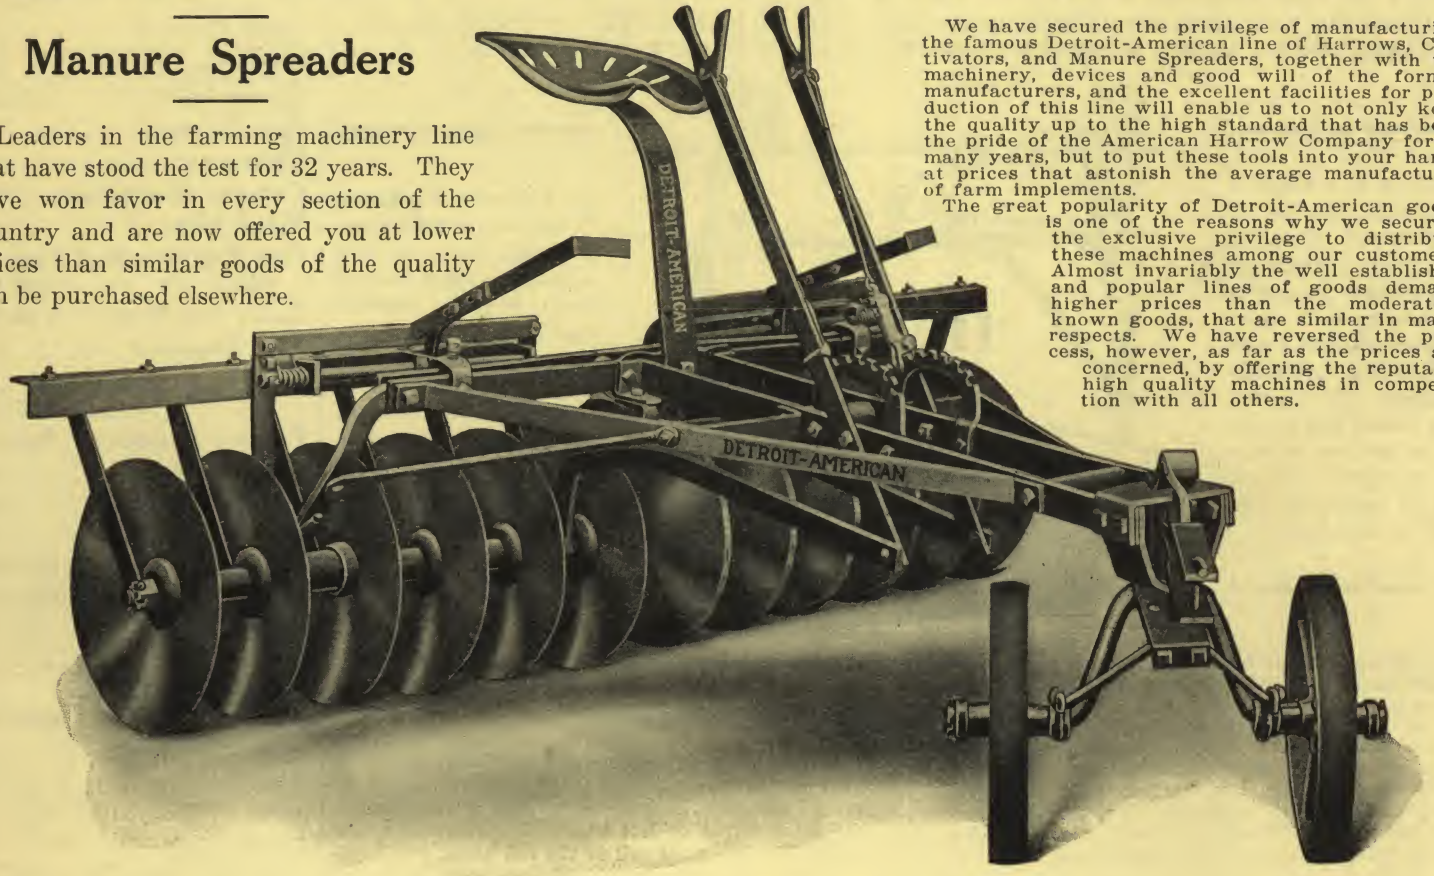
It's an old story, this freight argument. It's a bugaboo argument. When you are told that you don't save much in the long run by buying here, because you pay the freight, just keep in mind that you've got to do that when you buy anywhere, even if you live across the street from the store you buy from.

The difference is this: When you buy from us you know exactly what the freight amounts to, because you pay the bill yourself.

Buying any other way, you don't know what the freight is, to be sure, but you pay for it just the same—often you pay a profit on that, too.

A Good Top Buggy is a Handy Farm Need

We've been working hard on two or three special new designs that ought to be favorites—they're really utility models, with the price way down—around $50.00 for a standard buggy.



EVERYONE has something to sell. If it's not merchandise, it is service, or produce, or resources. WE ARE ALL SELLERS. And if we are good sellers we know that we must sell HONEST VALUE and FULL MEASURE—or we will not sell again in the same place. We do these things as a matter of self-interest. It is just common business sense—the application of the law of the survival of the fittest. YOU CAN'T BUILD UP A TRADE BY MISREPRESENTING THE THINGS YOU HAVE FOR SALE. NEITHER CAN WE.

Detroit-American

Disc Harrows — Pivot Axle and Spring Tooth Cultivators

Manure Spreaders

Leaders in the farming machinery line that have stood the test for 32 years. They have won favor in every section of the country and are now offered you at lower prices than similar goods of the quality can be purchased elsewhere.

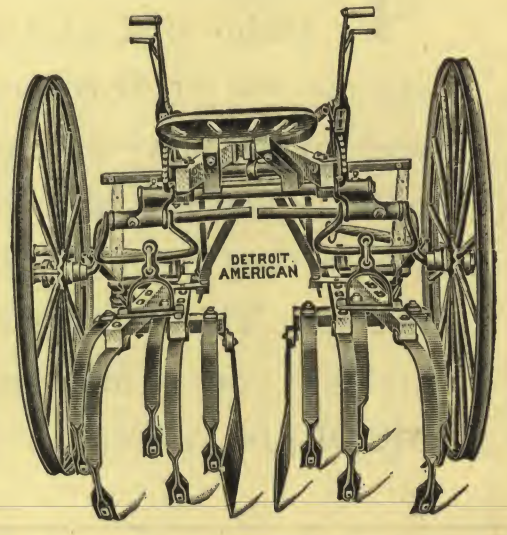
We have secured the privilege of manufacturing the famous Detroit-American line of Harrows, Cultivators, and Manure Spreaders, together with the machinery, devices and good will of the former manufacturers, and the excellent facilities for production of this line will enable us to not only keep the quality up to the high standard that has been the pride of the American Harrow Company for so many years, but to put these tools into your hands at prices that astonish the average manufacturer of farm implements.

The great popularity of Detroit-American goods is one of the reasons why we secured the exclusive privilege to distribute these machines among our customers. Almost invariably the well established and popular lines of goods demand higher prices than the moderately known goods, that are similar in many respects. We have reversed the process, however, as far as the prices are concerned, by offering the reputable high quality machines in competition with all others.

$17.95 for 4-foot cut, 8-disc harrow, complete with tongueless truck, up to $29.00 for the 8-foot cut, 16-disc harrow with truck. Compare these prices with any make of disc harrows in your home market, or any place where disc harrows are sold, and you will find they can't be beat.

We are just as anxious that you make comparison of the quality, including steel construction, the comparatively light draft, satisfactory operation with any other makes, and we feel just as convinced that the quality as well as the price will also surprise you.

Detroit-American Cultivators



Detroit-American Cultivators include a range of styles and kinds suitable for practical corn cultivation, and adaptable for cultivation of all vegetables that are planted in rows.

Pivot axle shovel gang cultivators with approved spring trip. Especially desirable for hilly or uneven land. Combination spring tooth cultivators and harrows; bean Harvester attachment to cultivators; combination spring tooth cultivator, harrow and seeder, and a large assortment of shovel gangs for every requirement of the soil you work or the crops you cultivate

To improve our lines is one of the things we are constantly striving for. In saying this, we do not want to imply that our former line of farm implements was not good, or that it was not an exceptional value for the price we asked. By taking over this new line we have standardized our Harrows, Cultivators and Spreaders and secured a uniformly higher standard of efficiency throughout. Just as, during the last two years, we have spent a great deal of time and effort and a great amount of money to make our service more satisfactory and enable us to put your orders on a time-table schedule—just so we have built up this farm implement line to a point where we feel sure that you will be pleased, not only with the goods received, but also with our service and our entire method of dealing.

We could not expect your continued patronage if we were not in position to give you as near or nearer one hundred cents in value for every dollar of price obtainable. We confidently believe that you will become a permanent customer if you buy the implements you need from our line of farming machinery. We invite side by side test and trials with other similar tools regardless of price.

The following pages of farming machinery include the Detroit-American lines; the new Climax line of Potato Machinery, second to none; a full line of seeding machinery; sprayers; haying tools; and other farming implements. It is worth your while to study these prices very carefully.

Parcel Post Wrapping Twine

Made of Hemp. Very strong. For wrapping purposes. Especially desirable for Parcel Post packages. Averages about 450 ft. per lb. Cream color.

88B10—Price, per ½ lb. ball **10c**
88B12—Price, per 10 lbs. (20 balls) **$1.80**
188B14—Price, for bale, 150 lbs. (300 balls) **$25.50**

88B24—Unfinished. Per ball **10c**
88B26 — Finished. Per ball **11c**

Pure Manila Rope

Long Graded Fibre

Strength tests have proven that there is no better Manila Rope than ours. NO DOUBTFUL MIXTURES, NO SECOND GRADE STOCK, NO INFERIOR FIBRE. OUR MANILA ROPE is the best quality we can buy. All made of strictly Pure Manila Fibre, full size, flexible, long wearing.

We make special prices on cut lengths of 100, 200 and 300-ft. pieces. The saving effected by cutting in these sizes in large quantities at one time enables us to reduce the price over the odd lengths. For any other than the three sizes quoted, the price will be based on our quotations per foot, as each odd size has to be cut to order. We can furnish single lengths up to 1200 feet.

188B94—Smooth, 6-ft. knife, 24 sections. Shipping wt., 13½ lbs. **$2.20**

MALLEABLE KNIFE GUARDS

Complete with guard plates. We carry a large stock to fit the well known machines. Odd guards can be shipped direct from factory, customer paying parcel post charge. Give name of machine and number, and letter on the old guard, otherwise we can't fill order promptly. Weight, 1 lb.

88B178—Price, with plate **18c**

GUARD PLATES

Made of high quality steel. Put up in boxes of ten plates, with 20 rivets. Give name of machine, number and letter on guards and send a paper pattern with size of plate showing the position of rivet hole. We do not break boxes. Weight, per box, 14 oz.

88B183—Price, box of ten **26c**

KNIFE HEADS

For the well known makes of Mower or Reaper. Either malleable or steel head. Give name of the machine, number and letter on the head, and if no number, a carefully penciled drawing with all description possible. Average weight, 1½ lbs.

88B188—Malleable head **19c**
88B190—Steel head, to fit Deering Mower . . . **35c**

SECTION RIVETS

No. 6 or 3/16 Inch Section Steel Rivets in one-pound boxes. Can furnish in ½ or ⅝-inch length with bung head or with countersunk head. State length and style head wanted. **Put up in one-pound boxes. We do not mix packages or sell less than a box.**

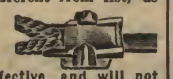
88B195—Per box, countersunk **6c**
88B197—Per box, bung head **7c**

GUARD PLATE RIVETS

No. 6 Steel Rivets for guard plates, 3/16 in., length, 1⅛ in., with countersunk heads in 1 lb. boxes.

88B202—Price, per box **8c**

Binder Conveyor Canvases



$2.55 And Up

Made to Fit Only the Machines Listed Below. Full Size and Weight.

Our conveyor canvases or aprons for harvesters are exactly the same in size, shape and construction as the ones received with your binder. Canvas is full weight and size, with sufficient flap to more than cover the buckles and straps. **Leather belt Straps, Double Riveted White Ash Slats, Riveted and Stapled (not nailed). Always on hand.**

The numbers and sizes correspond with numbers and sizes on the canvases received with your machine. When ordering, state number, size and name of machine. Do not order by number and specify a size different from list, as the standard canvases come one size to a number only. **If unable to give old number of canvas, give name of machine and length and width of canvas, measuring length from buckle at one end to the last hole in the strap at the other end.** Shipping weight, 7 to 18 lbs.

NOTE—With each order for canvases we supply a belt buckler, very strong and effective, and will not injure strap. An excellent little device that will draw up the straps in buckle with little trouble and is easily attached and detached.

Fitted Cultivator Shovels

Complete, with Backs and Bolts to Fit the Leading Makes of Cultivators

No. 2 Back — No. 3 Back

Solid and Soft Center Steel

Larger illustration shows the different styles of shovels, and smaller showing the different backs that can be furnished on either of the shovels quoted. The two styles of backs illustrated are the kinds most used and the only styles of backs we furnish.

The No. 2 backs on 3x7½ in. shovels will fit ⅞ or 1 in. shank; on all other shovels the No. 2 back will fit 1 in. or 1⅛ in. shank.

Width of our 3x7½ in. shovels, 3 in.; length, 7½ in. Regularly termed Eagle Claws, and regularly supplied in sets of 8 shovels, complete with backs, and **straight** only.

Width of the 3½x9 shovels, 3½ in.; length, 9 in. Regularly furnished in sets of 6, each set having 3 **right** and 3 **left** hand shovels. (Cannot furnish straight shovels in 3½ in.)

Width of 5x10½ in. shovels, 5 in.; length, 10½ in., four to a set, and regularly furnished one right and one left, and two straight. Two right and two left can be furnished instead of regular, when so specified on order.

Bull tongues, width, 2 in., length, 10½ in. Price quoted is for one only.

The No. 2 back is to fit round cultivator shanks. The No. 3 backs attach to slotted standards, and have long slotted hole so the shovels can be turned either side.

Be sure that you order the correct back. The No. 3 will not fit round shanks, but is intended for slotted shanks only. The No. 2 will not fit slotted shanks, but is intended for round shanks only.

(Wood) **Climax Adjustable Ice Plows** (Steel)

Wood or steel frame, four to eight teeth, simply constructed, well made, double row, ice plows that mark and cut at the same time. Made to cut cakes in five sizes—16, 19, 22, 25 and 28 inch.

Shipped set for 22-inch cakes but can readily be adjusted for other sizes. Cut from 8 to 10 inches deep. Can be used on either side of the plow. Teeth attached to frame by adjustable and removable clamps. Runners, two at each end, made of heavy 4-inch steel, carry the weight of the plow. Seat for operator. Two styles, wood and steel frames. Wood frame plows have center beam, cross gauge bars, handles and seat of wood. Steel frame plows are built entirely of steel with exception of handles and seat. Directions for setting up, operating, gauging and sharpening of teeth.

WOOD FRAME PLOWS

288B292—4 tooth plow, one horse, for small consumers of ice. Capacity, 20 to 30 tons per hour; cuts ½ inch on each side and will cut any depth from ½ to 8 inches. Weight, 115 lbs. Price **$13.45**

288B294—6 tooth plow, wood frame, of sufficient capacity for creameries, hotels and marketmen, etc. Capacity, 30 to 50 tons per hour; cuts ¾ inch on each side and will cut to 8 inches deep; weight, 135 lbs. Price **$16.75**

288B296—8 tooth wood frame plow, for ice dealers and large consumers; for two horses; capacity, 40 to 70 tons per hour; cuts 1 inch on each side and any depth from 1 to 10 inches. Weight, 160 lbs. Price **$19.95**

STEEL FRAME PLOWS

288B298—4 tooth steel plow; one horse; for consumers of ice; capacity, 20 to 30 tons per hour; cuts ½ inch on each side and from ½ to 8 inches deep. Weight, 125 lbs. Price **$15.50**

288B300—6 tooth steel plow; one horse; for large quantities of ice for creameries, hotels, marketmen, etc.; capacity, 30 to 50 tons per hour; cuts ¾ inch on each side any depth from ¾ to 9 inches. Weight, 145 lbs. Price **$19.40**

288B302—8 tooth steel plow; two horse; suitable for largest harvesters of ice; capacity, 40 to 70 tons per hour; cuts 1 inch on each side and any depth from 1 to 10 inches. Weight, 180 lbs. Price **$23.60**

Shipped from factory in Southern Wisconsin.

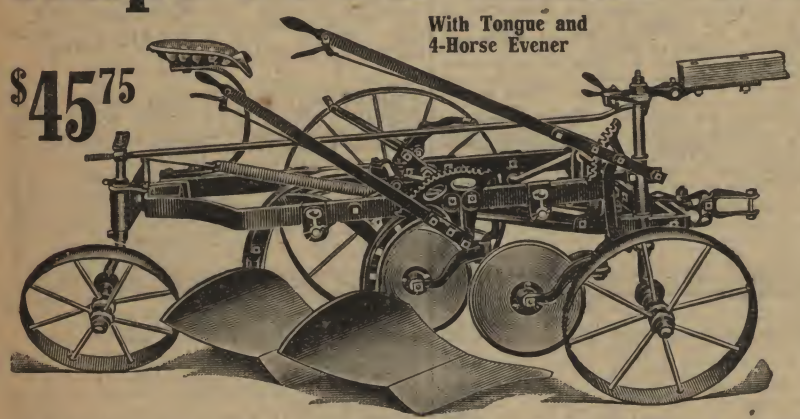
FARM MACHINERY

—Under the Supervision of Practical, Experienced Men—



Men who have devoted years of practice, study and effort to master every detail; gas engine and engineering experts capable of planning your power, pumping, lighting or irrigating plants; cream separator and dairy experts, with dairy experience from milking to butter making; field men who have spent many days behind the plow; shrewd, skilled, wide-awake buyers, constantly on the alert to give you a little more, a little better value for every dollar in price.

These men are ready and waiting to handle your orders; just as enthusiastic to answer your letters; just as willing to give you the benefit of their experience to help you decide what you need to till your land, to harvest your crops, to do your grinding, feed cutting, pumping, etc., as if your letter were accompanied by an order. We have the ability to do it, and the willingness to aid you in selecting the most suitable, economical and satisfactory implements for your requirements, and to give you prompt and efficient service.

Improved Climax Sulky and Gang Plows

With Tongue and 4-Horse Evener

$45.75

Light Draft, High Lift, Foot Lift, Spring Lift, Beam Hitch

Will Turn Completely Around in Its Own Length, While Plow is in Ground, Insuring Perfectly Square Corner. Soft Center Steel Moldboards, Landsides and Shares.

Our Improved Climax Sulky and Gang Plows represent many years of tests, experiments and trials, including the most trying operations a riding plow has ever been subjected to. They are the improved edition of our well known Blue Jay Plows, which have given satisfaction to so many thousands of our customers. Their superior plowing qualities under all conditions, their durability and easy operation and saving of wear on harness and horses, are hard to beat.

HOWEVER, WE HAVE ECLIPSED THE BLUE JAY IN OUR IMPROVED CLIMAX, BY STUDYING SMALL FEATURES, CONSIDERED BY MANY PLOW MEN AS NOT WORTH MUCH ATTENTION. The foot lift is made so easy that a boy can operate it; the lift is directly in front of the driver; the wheels set so true that at work there is no friction, thereby reducing the draft on the horses; reconstruction of the frame to avoid any chance of sagging or bending without adding weight; the latch or lever arrangement, whereby the pole can be changed or set without stopping the team; spring oil cups on sand bands, to keep out dust, and many other important though comparatively small items that place our Improved Climax where we can positively say, as we honestly believe: "You cannot buy better."

This is What Counts

$40.00 for sulky, and $60.00 for gang, are common retail prices for standard, well-known makes of riding plows. Unless you are close to their manufacturing plant, freight is added to these prices.

You pay us $29.90 for our 14-in. sulky, $47.00 for our 14-in. gang, and we give you $40.00 and $60.00 worth, as you get in the high-priced plows. We solicit comparison. We invite side-by-side tests and trials. Purchase one of our plows, take it to your neighbor who is using one of the well-known, high-priced makes. Put ours in the same field with the same team. Compare the draft on the team; the clean-cut furrow; the action of the plow in putting in and taking out of ground; in turning corners—look at it from every viewpoint.

We know the racking, trying tests our plows have been subjected to. We have given them side-by-side trials with some of the highest-grade plows on the market. In shipping you an Improved Climax we are writing the best possible insurance of making you a permanent customer by giving you, as we believe, more value for every dollar of price than your money will buy in a riding plow anywhere else.

FRAMES are made of heavy, strong steel bars so that the plow will always stay set up. No sagging or bending to cause the plow to run out of shape. The land wheel axle crosses under the frame with a box on either side of the frame and combines to support the axle and divide the strain. This feature keeps the land wheel in its proper running position and adds strength to the plow. The front furrow axle socket casting has slot holes to take up the slack after the plow has been used for some time, preventing it cutting too wide a furrow.

FOOT LIFT is the most effective and neatest ever devised. A slight push of the foot releases plow, pushes it into the ground and it reaches its proper depth within 18 in. travel. The lift is directly in front of the driver, where weight can be instantly applied. As soon as the plow gets its depth, it is automatically locked and cannot lift until foot pressure is again applied.

IN STONY GROUND the plow can be left loose in the frame, to rise when it strikes stone or root. By a turn of the set screw the locking device can be thrown off its center and the plow will rise out of the ground, saving the point of share.

LEVELING LEVERS are within easy and convenient reach of the operator. The levers are to the right of the operator, allowing free clearing space at left side for mounting and getting off the plow. Perfect leveling is assured at all times.

WHEELS are set true, so that when at work there is no slipping or friction of any kind. The plow will follow the horses as true as a wagon. This is a very important feature, as in many other plows where the wheels are not running in direct line, it means adding another horse to your plow. The line of draft in the Improved Climax Plows is so true that there is no need of setting one wheel barred against the other to line up the plow.

FRONT FURROW WHEEL has a latch, or hand lever, whereby the furrow wheel can be adjusted while the plow is working, without the necessity of loosening any bolts on the pole. This is an excellent feature, especially towards the close of the day, when a horse is tiring, and there is a tendency to crowd or lag. **The wheel can be instantly adjusted to overcome any side draft.** This improvement, not found in all other plows, allows the operator to finish up a piece of land better than most other riding plows.

THE REAR AXLE is set to positively take the friction from the landside of the plow bottom. The connecting rod is so arranged that when turning, the front furrow wheel and the rear furrow wheel work in harmony with each other, avoiding friction and giving the best results.

DUST-PROOF HUBS AND SAND BANDS on all wheels. A spring oil cup on each band enables the wheels to be properly oiled and will not let the dust in.

ROLLING COULTERS are fastened to the beams with corrugated washers and an eye-bolt through the beam. They are set at the best working point, but can readily be adjusted forward or backward, up or down.

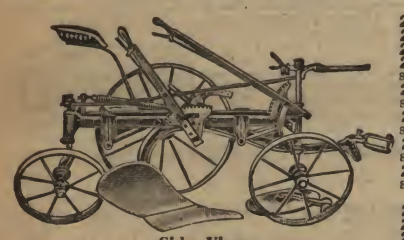
PLOW BOTTOMS are extra well braced, and of the most approved shape.

MOULDBOARD AND SHARES are constructed from the highest grade of soft center steel, and shinned on the upper side, producing double-wearing qualities where the wear comes. The share and mouldboard are bound together by solid malleable frogs and heavy braces. Shares are reinforced at point by a heavy piece of steel, thoroughly welded and highly tempered. This produces durability where the greatest wear occurs.

OUR IMPROVED CLIMAX PLOW IS CARRIED ON THE WHEELS WHILE IT IS PLOWING. THE PLOW DOES NOT CARRY THE WHEELS AS IS THE COMMON FAULT WITH MANY OTHER MAKES.

Three and four-horse eveners, made of No. 1 clear white oak.

SULKY regularly furnished with tongue, 3-horse evener, neck yoke, rolling coulter and weed hook.



GANG PLOW furnished with tongue, 4-horse evener, neck yoke, two rolling coulters and weed hook. Average weight of sulky plows, 500 lbs. Average weight of gang plows, 730 lbs.

Right Hand Only—We Cannot Furnish Left Hand.

$29.00

With Tongue and 3-Horse Eveners

Shipped from warehouse near Chicago.

Climax Two-Way Sulky Plow

For Flat Land or Hillside, Horse Lift, Tilting Seat, Foot Trip, Adjustable Tongue, Steel Frame, Malleable Connections

$39.25

For Hillside Plowing, To Throw The Furrow One Way, For Back Furrowing, This Plow Possesses Many Excellent Features and Will Do Satisfactory Work. It is indispensable on farms having hills or irregularly shaped fields or other conditions which make it desirable to plow the ground one way.

Horses do the lifting. Pressing the foot trip or handle latch of lever, the plunger engages the wheel ratchet, which revolves with the wheel until the correct position is reached, when it releases automatically. Draft is direct from the point of beam and the hitch automatically adjusts to the right position when either bottom is in the ground. High metal wheels with wide tires and removable dust-proof boxes. Seat readily tilts and is easily leveled at all times whether plowing on hillsides or on level ground. Tongue has lever adjustment which enables operator to regulate landing of plow, width of furrow, even furrow around curves and to relieve side strain on team. Regularly furnished with three-horse evener, and rolling coulters. Average weight, 600 lbs.

Plowing one way frequently saves lots of time and short sides, and horses always turn on unplowed ground.

A combination of two separate and independent steel beam plows, each one separately controlled by levers and lifting device. When in use one plow turns the furrow, while the other is carried high to avoid obstructions. At the end of the furrow the plowing bottom is raised, the turn made, and the other one lowered to plowing position.

It is economical because only one bottom is in use at a time and it will give as long service as two ordinary plows, with its many other conveniences.

288B548—Climax Two-Way Sulky, complete with 12-in. general purpose bottoms, having soft center steel mouldboards, chilled landsides and shares, rolling coulters and three-horse evener. Price $39.25

288B550—Same as above except with 14-in. bottoms. Price $39.75

288B552—Climax Two-Way Sulky Plow, complete with 12-in. all soft center steel, general purpose bottoms, including mouldboards, landsides and shares. Price .. $43.75

288B554—Same as above except with 14-in. all soft center bottoms. Price $44.50

Shipped from factory in Indiana.

Western Frameless Sulky Plow

One of the best Frameless Sulky Plows made. Will do as good work, and is as easily operated, as many of the Frame Sulky Plows on the market, except that it has no Foot Lift.

One lever operates both axles when raising plow out of ground (on most other sulkies it requires two levers to do the raising), the main spring being so arranged that a boy of 12 can raise the plow with ease. The front furrow wheel swivels when turning, same as on frame plows, and is superior to the rigid wheels on other makes of frameless sulkies. The front furrow shaft always stands straight up, no matter what depth is being plowed, or when on the road. The wheels carry the load instead of the plow carrying the wheels. The adjustment and levers allow plowing from 2 to 8 in. deep, as desired. Furrow can be opened 4 to 5 in. deep. Bottoms have mouldboards, shares and landsides made of soft center steel, the same quality as in our Improved Climax. Made in right hand only. Furnished complete with tongue, rolling coulter, 3-horse evener, neck yoke and weed hook. Average weight, 390 lbs.

$23.00

Factory Shipments

Some of the large articles of farm machinery are shipped to you direct from the factory.

Goods shipped from a factory are examined just as carefully by our inspectors as the smaller articles which are shipped from our store. You will always receive brand new goods, fresh from the finishing room, and wherever crating is necessary the work is carefully done to insure safe delivery.

It is very frequently the case that the freight from the factory to your station is less than it would be from our store, **and this saving is yours.**

We can ship some articles from two or more factories in different states, thus affording customers in widely separated states, a great saving in freight charges. For example, refer to the shipping points specified under the description of saw frames, feed cutters, corn shellers, feed mills, cider presses, etc.

Warehouse Shipments

To give Real Service and quick delivery to our customers, many articles are stocked in warehouses ready for immediate shipment. Some articles, such as Cream Separators and Gasoline Engines, can be shipped from various warehouses in different states. For a list of these warehouses, refer to Cream Separator or Engine pages.

Renewals or Repairs

We can **promptly** furnish **Renewals or Repairs,** at low prices, for any machines purchased from us. These orders will receive **special attention, as we fully realize the importance of furnishing repairs and doing it quickly.**

When ordering repairs, always give the name of the article, number and letter on the particular part desired, and if possible the year in which it was purchased; or, if number cannot be determined, describe the part wanted, sending a diagram if convenient, and give several of the casting numbers appearing on various other parts. Sometimes the number or letter on an original part cannot be seen plainly, but by wetting and scraping the surfaces of the part, the number or letter will show up clearly.

To avoid delay be careful to follow out fully the instructions as outlined; otherwise, it may be necessary for us to hold your order to write you for further particulars.

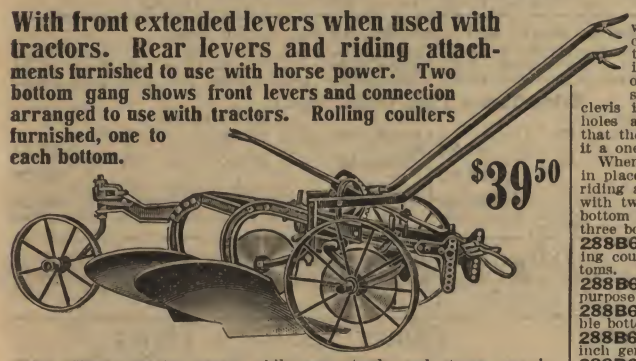
If you are in **urgent** need of any part, **telegraph us,** giving the information as requested, and shipment will be made immediately.

The time-worn argument about "Difficulty in Getting Repairs" is used just as frequently today as in the past, but don't permit anyone to mislead you on this point. **Repairs can be promptly furnished and at low prices.**

WE CAN PROMPTLY SUPPLY REPAIRS FOR THE DETROIT-AMERICAN HARROWS, CULTIVATORS, AND MANURE SPREADERS FORMERLY MADE BY THE AMERICAN HARROW CO.

Foreign Orders

We guarantee safe delivery to any port on the globe, as we have a large Foreign Department that thoroughly understands all requirements as to shipping, packing and invoicing.



Freight aboard ship is generally figured by measurement instead of weight, and the saving effected in freight due to our expert packing usually amounts to more than our charge for export boxing. We are obliged to charge the freight from factory to Chicago when goods are quoted at factory, and for the time and material used in making the heavy cases necessary for export shipment. When items quoted at factory are included in order, allowance must be made for the delay necessary to procure from factory. We explain these matters fully in the preliminary pages of our Foreign Catalogue.

Our Foreign Department will be glad to give an estimate of the charges on any of our goods to any port in the world, but it is not necessary to delay orders until you have such an estimate.

Freight to most ports must be prepaid, and if you send us cash for the goods, our Foreign Department will carefully do the necessary boxing, advance all charges and collect from you by sight draft against the bill of lading.

Climax Tractor Gang Plows

With front extended levers when used with tractors. Rear levers and riding attachments furnished to use with horse power. Two bottom gang shows front levers and connection arranged to use with tractors. Rolling coulters furnished, one to each bottom.

$39.50

Our Climax tractor gangs, while very sturdy and strong, are intended to be used with light tractors only, that usually are capable of pulling a two bottom gang or a gang with three small bottoms. Do not order a Climax to use with the big tractors, as they are not heavy enough to stand the tremendous strain put upon them by the powerful machines that handle 4, 5 and 6 bottom gangs.

14-inch soft center steel bottoms. Will plow 6 to 8 inches deep. **Bottoms can be raised 5 inches from ground. Each wheel has lever control.** Steel Wheels, Axles, Frames and Levers.

Either the two or three bottom plows, when furnished for use with light tractors, have friction break attached to the end of clevis, and between the clevis and the ring that connects the tractor. The friction break consists of a wooden plug that is intended to break if the plow bottom strikes any large stones or heavy roots. The breaking of the plug saves the plow. No special attachment other than the ring with friction break on clevis is furnished, as tractor usually has draw bar with a series of holes allowing sufficient adjustment. The levers extend forward so that they can be readily handled by the operator of the engine, making it a one man outfit.

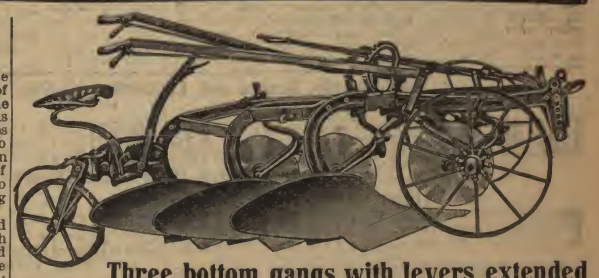
When furnished for horses the regular plow clevis only is supplied in place of the ring and friction break, also the regular short levers with riding attachment. Three horse hardwood evener is regularly furnished with two bottom plow, and a four horse hardwood evener with a three bottom plow. Average shipping weight of two bottom plow, 590 lbs.; three bottom, 725 lbs.

288B600—Two bottom plow, for use with tractor, complete with rolling coulters, friction break, and ring connections, 14 inch stubble bottoms. Price **$39.50**

288B602—Two bottom tractor, same as above except with general purpose bottoms. Price **$39.75**

288B604—Three bottom plow for use with tractor with 14 inch stubble bottoms, otherwise complete, as above. Price **$56.00**

288B605—Three bottom plow for use with tractor, complete with 14 inch general purpose bottoms. Price **$56.50**



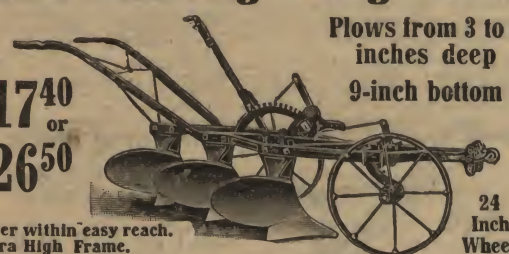
288B606—Two bottom plow, complete for use with horse power, with rolling coulters, three horse evener and 14 inch stubble bottom. Price **$34.50**

288B607—Two bottom plow, same as above except with general purpose bottom. Price **$34.75**

288B608—Three bottom plow for horse power, with rolling coulters and four horse evener, 14 inch stubble bottom. Price **$49.50**

288B609—Three bottom plow, same as above except with general purpose bottoms. Price **$39.75**

Shipped from factory in Indiana.



Three bottom gangs with levers extended in rear, and riding attachment to use with horses

Our Climax tractor gangs, when used in connection with the light tractors, will give exceptionally good service, and while they are comparatively light, adapting them to light tractors, they are exceedingly well built, the weight being properly distributed to give the greatest strength where needed. Made in one size only. Each bottom turns a 14 inch furrow, and each bottom complete with rolling coulter. High quality Soft Center Steel Bottoms throughout. These plows will scour in any soil where any of the well known plows with regular stubble or general purpose bottoms will scour.

Illustration of the two bottom plow shows construction for use with tractor. The two bottom plow can also be equipped with rear lever and riding attachment for horses only, but cannot be furnished for both horses and tractor. **The illustration of three bottom plow shows equipment for use with horses, but this plow can also be furnished with the front extended levers when ordered for tractor, at the same price.**

Climax Walking Gang Plow

Plows from 3 to 5 inches deep

9-inch bottom

$17.40 or $26.50

Lever within easy reach. Extra High Frame.

24 Inch Wheels

THE FRAME AND WHEELS ARE ALL STEEL. Turns sand and loose soil and works perfectly in any ground where a plow of the kind can be used. **Mouldboards** are shaped to make the draft exceptionally light. **Excellent materials are used throughout. Plows sod to 4 in.,** and corn, wheat, or oat stubble from 3 to 5 in. It does the work of three single plows. Equipped with 9-in. bottoms cutting 27 in., made with chilled and soft center steel bottoms. Chilled shares can be used with steel mouldboards if desired, but are only intended for use in sandy, gravelly or stony soil. Weight, 300 lbs.

288B610—With chilled mouldboards and shares **$17.40**

288B612—With soft center steel mouldboards, shares and landsides **26.50**

288B614—Extra soft center steel shares. Wt., 3½ lbs. Each **1.35**

288B616—Extra chilled shares. Wt., 4 lbs. Each ..... **.25**

Shipped from factory in Southern Michigan.

Climax Subsoil Plow

$8.25

Heavy Wood Beam. Forged Steel Shoe and Cutter. Draft Rod and Clevis.

In almost every section subsoiling is necessary. We believe the Climax will do the work better, and with less draft than any other plow built. It follows immediately after the mouldboard plow, working in the same furrow. It does not turn a furrow, but merely breaks, loosens, and lifts the subsoil beneath the furrow slice to a depth of from 10 to 14 inches, leaving the ground in the best possible condition to retain moisture and the crop to withstand drought.

Many soils have a hard, closely packed subsoil which tends to become harder and denser by continuous plowing to the same depth. A sort of artificial hardpan is formed which plant roots penetrate with difficulty and through which rain passes slowly. A subsoiler breaks through this hardpan and loosens the soil below it, so that air and water may enter. The depth of the seed bed is increased to the great benefit of the crops to be grown. The water holding capacity of some soil is practically doubled and the area in which plant roots may feed is greatly enlarged.

The Climax is substantially built, and will prove long-wearing. Wood beam, of well seasoned oak, Shoe and Cutter of forged steel. The handles are made of oak, double braced, and attached to the beam by malleable iron brackets. **Requires 3 or 4 horses. A good subsoil plow that can be used to advantage on almost every farm.**

Furnished complete with lead wheel, draft rod, clevis, and wrench.

Shipping weight, 80 pounds.

288B622—Climax Subsoil Plow. Price $8.25

Shipped from factory in Indiana.

Climax Middle Buster

Steel Beam, Steel Mouldboard

$5.95

Crucible Steel Share. Used exclusively throughout the South and very popular in the cotton growing states.

3 horse adjustable Clevis.

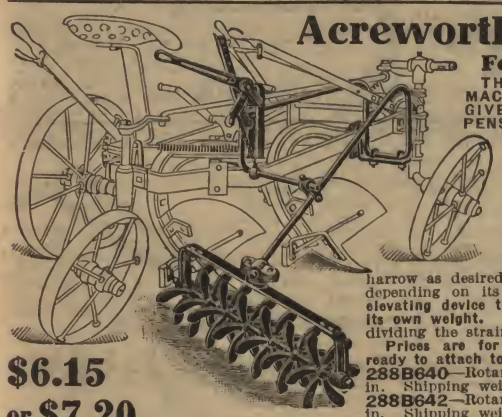
OUR MIDDLE BUSTER is an especial favorite in the cotton and tobacco sections of the Southern States, and for use in mixed, sandy and black lands. They are built with extra heavy steel beam, with a high throat, soft center steel mouldboard and crucible steel share. Furnished regularly with rudder to guide and steady the plow. Handles of well seasoned oak.

288B626—Middle Buster, 10-in. Shipping wt., 77 lbs. Price. **$5.95**

288B628—Middle Buster, 12-in. Shipping wt., 80 lbs. Price. **6.40**

288B630—Middle Buster, 14-in. Shipping wt., 87 lbs. Price. **6.85**

288B631—Extra Crucible Steel Share, 10-in. Shipping wt., 4 lbs. Price ..... **.80**



288B632—Extra Crucible Steel Share, 12-in. Shipping wt., 7 lbs. Price ..... **.95**

288B634—Extra Crucible Steel Share, 14-in. Shipping wt., 8 lbs. Price **1.10**

Shipped from factory in Ohio.

Acreworth Harrow Attachments

For Right Hand Plows only

$6.15 or $7.20

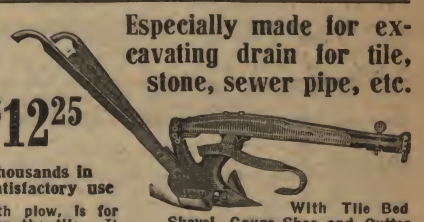
THERE PROBABLY IS NO OTHER PIECE OF MACHINERY ON THE FARM THAT WILL GIVE AS BIG RETURNS FOR SO LITTLE EXPENSE. WHEN ATTACHED TO YOUR SULKY OR GANG PLOW IT DOES AWAY WITH THE WORK OF HARROWING THAT IS HARD ON MEN AND HARD ON HORSES. THE DRAFT ADDED TO YOUR PLOW IS so slight that your team will do as much work with the harrow on as with it off.

Steel frame spring lever. Places the side pressure directly against the rear furrow wheels. No more powerful attachment of its kind made. Pressure can be thrown on the harrow as desired to suit the conditions of the soil instead of depending on its own weight. **By means of the automatic elevating device the harrow is held in an elevated position by its own weight.** Connects to the frame in two places, thereby dividing the strain. **Cannot furnish for left-hand plows.**

Prices are for harrows and attachments only. Complete, ready to attach to plow.

288B640—Rotary harrow with attachment for sulky, cuts 17 in. Shipping weight, 70 lbs **$6.15**

288B642—Rotary harrow with attachment for gang, cuts 32 in. Shipping weight, 90 lbs **$7.20**



Shipped from Warehouse near Chicago.

Larimer Ditching Plow

Especially made for excavating drain for tile, stone, sewer pipe, etc.

$12.25

Thousands in satisfactory use

With Tile Bed Shovel, Gauge Shoe and Cutter

DESIGNED to do the digging or loosening up of the earth in the ditch, after which it is shoveled out. It will work in the hardest ground to the depth of at least 3 feet. On frequent tests two men and two horses have thrown out 40 rods per day out of a ditch 16 inches wide and 3½ feet deep.

HAS ALL CHILLED BOTTOM and makes a furrow 8 inches wide. Any width of ditch from 8 inches up can be made by going back and forth with the plow.

THE TILE BED SHOVEL regularly furnished with plow, is for finishing up the bottom of the ditch ready for laying the tile. It grades and levels all uneven places so that the fall of tile is exactly uniform. This is a very important attachment for tiling, as it gives a true groove in the bottom of the ditch. It is bolted to the bottom of the standard and can readily be removed when desired.

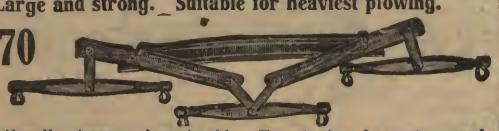
Bottom is made of hard chilled iron. Beam and handle of seasoned oak.

HAS SUB-SOIL ATTACHMENT consisting of shield or plate that attaches to side of plow converting ditcher into an excellent sub-soiler; also adjustable beam that allows setting ditcher to follow right or left hand plow.

COMPLETE DIRECTIONS explain how to operate and how to adjust the beam for shallow or deep plowing. Shipping weight of plow, with tile bed shovel, 150 lbs.

288B648—Plow complete, with tile bed shovel and sub-soil attachment **$12.25**

288B650—Extra points. Shipping weight, 10 lbs. each. Price ..... **.60**



288B652—Steel shares, extra. Shipping weight, 15 lbs. **2.50**

Shipped from factories in Illinois or Pennsylvania.

Prairie King 3-Horse Plow Set

All wood parts of thoroughly seasoned straight grained oak. Large and strong. Suitable for heaviest plowing.

$1.70

Exceptionally strong and serviceable. For plowing, harrowing, grading or for use on any implement without tongue. **All wood parts are made of thoroughly seasoned oak, full size.** Length of main evener, 44 in.; short evener, 30 in.; single-tree, 28 in. Steel hooks and clevises. Shipping weight, 30 lbs.

188B658—3 Horse Evener. Price $1.70

Four-Horse Evener — Ford's Four and Five-Horse Plow Eveners — Five-Horse Evener

$4.60

$5.95

For gang, sulky or disc plows. To work one horse in the furrow and the others on the unplowed ground.

Regularly furnished for beam clevis attachment. Frame Hitch Attachment for frame hitch plows furnished at extra charge.

Shipped set up for right hand plows, but work just as well on left hand by turning over and adjusting parts. Made for heavy work. Free from side draft. Each horse pulls its share. All woods of thoroughly seasoned, straight grained oak. Metal parts of steel and malleable iron.

288B664—Four-horse Evener. Shpg. wt., 65 lbs. Price **$4.60**

288B666—Ford's Five-horse Evener. Shpg. wt., 95 lbs. Price. **5.95**

288B668—Frame Hitch Attachment. For either Four or Five Horse Evener. Can be attached to any frame hitch plows. Made of malleable iron. Shpg. wt., 9 lbs. Price **95c**

288B670—Binder Attachment. To use Four Horse Evener on binders. Shpg. wt., 12 lbs. Price **85c**

Shipped from Warehouse near Chicago.

Six experienced buyers select the goods for our Grocery Department

Climax WALKING PLOWS

Double Shin Mouldboards, 5/16-Inch Shares

OUR Climax Plows are manufactured by two large and reliable factories, and the same plows under other names are sold by dealers throughout the country at very much higher prices.

We can furnish renewals or repairs promptly, and shall always have them ready for delivery.

We invite comparison with others of the well known makes. The 14-in. size is sold at retail at $12 to $14. We offer the same grade at $9.95. Compare the general appearance, the workmanship and construction.

Extra shares, or other parts for Climax plows, furnished promptly at all times. See Directions on another page for ordering renewals or repairs.

Mouldboards are Double Shin. Landsides are reinforced at heel. Patent welded land-bar and frog, double beaded steel beam with high bend to allow trash to clear easily. Handles are steam bent and strongly braced with wood round, iron rod, iron beam braces, and an iron set brace below; adjustable 3-horse clevises. They are of light draft, excellent pulverizers and particularly recommended to farmers who rotate their crops.

SHOWING TURF AND STUBBLE OR GENERAL PURPOSE PLOW

WHEN you buy a Climax you have a plow with a national reputation, a plow that has been in use among the farmers of this country and in foreign lands for a great many years; A PLOW THAT CAN BE DEPENDED UPON to scour easily, to turn a perfect furrow. It is well balanced in every way and can be easily handled. From the tips of the points to the tops of the handles the Climax plows are well built of first class materials, strongly braced.

Climax Turf and Stubble or General Purpose Plows

Plows of this kind are known by the long, easy turn of the mouldboard which adapts them for use in tame sod, stubble and fallow plowing. There are more of these in use than any other two styles on the market. Turf, trash and weeds are turned and covered. The shape of the mouldboard is such that the top soil is turned completely under. These plows are especially used for plowing in clover, timothy, or alfalfa, heavy stubble; also old pasture land, clay soil or for top plowing. In fact, they are for general purpose work. Average shipping weights—12 in., 100 lbs.; 14 in., 110 lbs.; 16 in., 120 lbs.

Mouldboards, Shares and Landsides, All Soft Center Steel

Climax Stubble or Old Land Plows

Our Stubble or Old Land Plows are the same in construction as our Turf and Stubble or General Purpose Plows shown in picture, the difference being in the length and shape of the mouldboard, the stubble plows having a shorter board with shorter curve, and when used on old land turns the furrow in a way that assists pulverizing. **Mouldboards, Shares and Landsides** are made of high quality, soft center steel and will scour in any soil where any other plow will. Average weights—12 in., 100 lbs.; 14 in., 110 lbs.; 16 in., 120 lbs.

Mouldboards, Shares and Landsides, All Soft Center Steel

Left Hand Plows or Shares shipped from factory near Chicago.

NOTICE—WHEN ORDERING EXTRA SHARES or parts, be sure to state the article number, name, price and style of your plow and the date of purchase. Also state the style, whether Turf and Stubble, or Stubble, and whether right or left hand. Also state the numbers and letters on the original share or part. The numbers and letters are always stamped on the backs of shares. If these numbers and letters cannot be seen at once, they will show up clearly by wetting and scraping the surface of the share or part.

Climax Prairie Breaking Plows

12 Inch
$10.30
With Gauge Wheel and Coulter

MADE TO SCOUR, BIG BEAM—WELL BRACED, SOFT CENTER STEEL MOULDBOARD. EXTRA HARDENED CRUCIBLE STEEL SHARES AND LANDSIDE. EXTRA SHARE WITH EACH PLOW.

Our Prairie Breaking Plow has a long, easy turn mouldboard and a slanting share which turns a flat, smooth furrow with very light draft. It lays up one furrow against the other without breaking the sod, which greatly assists in destroying weeds, wild grass, etc. Has a wood beam made of well seasoned hardwood and extra heavy; handles are strong and well braced; solid steel share; mouldboard of excellent soft-center steel; steel standard and landside; patented wrought frog. Clevis adjustable depth and more or less land. One of the strongest and best prairie breakers on the market. You would generally pay not less than $14.00 for 12-in. size at retail. **Prices include adjustable clevis, an extra share, gauge wheel and coulter.** Ship. wts., of extra 12, 14 or 16 in. shares; 9, 10 and 11 lbs. respectively. **Made in right hand only.**

Climax One-Horse Plows

Wood or Steel Beam. Right Hand Only. Extra Share with Each Plow. Solid Steel Bottoms.

$2.20
Steel Standard and Caps

Light Draft, especially adapted for cotton and corn lands, but suitable for all stubble and light sod plowing with one horse. Very successful for gardens, nurseries or orchard work.

Have steel mouldboard, steel share, sloping landside, solid steel frogs and an adjustable slip heel. Wood handles are strong and well made. Wood beams, selected quality of tough hardwood. Steel beams are double flange and well arched. Adjustable clevises. One extra share furnished with each plow. Weight, extra shares, Pony, 2½ lbs.; A. O., 3¼ lbs.; B. O., 3½ lbs.; C. O., 4½ lbs.

Climax Riding Attachment

For Either Wood or Steel Beam Walking Plows
For Either Right or Left Hand Plows

When Plow is properly set in ground, will go the entire length of Furrow without touching handles

Thoroughly tested and tried under all conditions of plowing and we believe there is no other riding attachment for walking plow made equal to it in adjustability and satisfactory operation. Malleable connections.

$7.45 and $8.65

Attaches to wood beams by boring holes in beam to suit the lower clamp bolts only. With this attachment on your plow you can open a furrow 6 inches or can readily adjust to plow up to 9 in. deep. By operation of the levers, plow can be set to run steady, whether with or without seat, and go the entire length of the furrow without touching the handles to guide it. 30 in. steel wheels, of the same diameter, and the furrow axle is drilled so that furrow wheel can be set in or out to suit 12, 14, 16 or 18 in. plows. **The main lever operates both axles when raising plow out of ground.** Other lever levels and sets the plow. It is not necessary to stop the team to raise the plow or to start it again. The lever spring attached to lever makes operation so easy that a boy of 12 years can operate it. Seat is separate from the attachment and mounted on its own fastenings. **Prices do not include plow but are for the attachment only.**

288B852—Attachment, complete, including spring seat. Shipping weight, 120 lbs. Price. **$8.65**
288B854—Attachment without seat or seat clamps. Shipping weight, 100 lbs. Price. **$7.45**
Shipped from Warehouse near Chicago.

Single Shovel Plows

Steel Beam with 12x14 Steel Blade

For Furrowing, Light Ditching, Etc.

$1.55

Retails at about $2.00

Made of steel, except handles. Braced hardwood handles. Furnished with hardened steel blade with oval shaped point, 12x14 inches. Shipping weight, about 30 lbs.
188B882—Price **$1.55**
188B884—Extra blade only. Shipping weight, 8 lbs. **48c**

Double and Triple Shovel Plows and Cultivators

Blades are crucible steel, have two bolts each and are 6x11 in., with oval shaped points. Adjustable clevis. Handles strong and well braced. Nice curve to the beam. A splendid tool at a very low price.

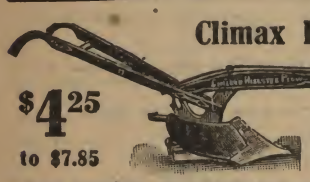
188B886—Double Shovel Plow. Shipping weight, 35 lbs. Price. . **$1.70**
188B888—Extra. 6x11 in. shovel. Shipping weight, 3¼ lbs. Each. . **24c**
188B890—Triple Shovel Plow. Made similar to above, except with three beams and shovels, 5x7½ in. Shipping weight, 45 lbs. Price **$2.40**
188B891—Extra. 5x7½ in. Shovel. Ship. wt., 2¾ lbs. Each **20c**

$1.70

Climax Vineyard Plows

AN EXCELLENT ONE-HORSE PLOW FOR USE IN NURSERIES, ORCHARDS, OR VINEYARDS, ALSO USEFUL AS A LIGHT GENERAL PURPOSE PLOW.

$5.95 and $7.65



Will turn a furrow from 8 to 12 inches wide by 3 to 8 inches deep.

The beam is adjustable, so the horse can walk in the furrow or on the land; the handles can be shifted to right or left, which enables the plowman to walk away from trees, vines, shrubs, etc. The standard is shaped so that it **cannot clog, all litter being carried to the bottom of the furrow.** The shape of the mouldboard makes the plow exceedingly light draft. **Landside and point are chilled** cast iron. The mouldboard is either chilled with ribbed back or soft center steel. **Made in right hand only. Extra share and wrench with each plow.** Coulter and wheel are extra. Shipping weight, 100 lbs.

288B842—Plow with chilled mouldboard. **$5.95**
288B844—Plow with soft center steel mouldboard. **7.65**
288B846—Knife Coulter, extra; shipping weight, 7 lbs. **1.25**
288B848—Lead Wheel, extra; shipping weight, 10 lbs. . . . . **.85**
288B850—Extra Cast Points; shipping weight, 5 lbs. . . . . **.30**
Shipped from factory in Michigan.

Climax Hillside Plows

$4.25 to $7.85

Reversible bottom for right or left side

Extra Share with each Plow

Strongly Made. Easy to Handle

Made especially for hillside work, but will do good work in level land where it is desirable to throw the ground one way. Well adapted for garden work. From a well known Plow Factory.

This is the simplest and easiest swinging hillside plow that we know of. Mouldboard, share and landside are of the very best chilled iron; beam is of special length, selected hardwood; handles are strong and well braced. **A foot lever is used to unlock the plow;** a slight pressure of the foot, with movement of the team, the mouldboard and share roll under the standard and it is clamped in position.

EXTRA SHARE WITH EACH PLOW

	Price	Size	Shipping Weight	Furrow Capacity	Extra Shares	Wt. of Shares
288B856—	$4.25	A,	75 lbs.	5 x 9 in.	26c	4½ lbs.

Wing Shovel Plow

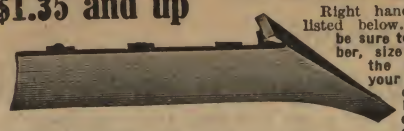
BOLTED AND WELL BRACED. SEASONED HARDWOOD HANDLES AND BEAM

Every Farmer Needs One

$1.90

Wings can be opened to 28 inches

Excellent for hilling potatoes, light ditching and doing other work of that nature. It is practically a single shovel plow with adjustable wings, which can be let out to any desired angle. It is sometimes convenient to work it with but one wing, which can readily be done, or the two wings can be worked at one time at different angles. **For covering they are almost indispensable.** Built very strong and substantial, with good, **strong material throughout.** Generally sold at retail for about $2.50 to $3.00.



188B892—Wing Plow. Ship. wt., 36 lbs. Price. **$1.90**
188B894—Blades with wings. Ship. wt., 14 lbs. Price. . . **.96**

We publish an interesting Grocery List every 60 days. Have you a copy?

Finished Fitted Plow Shares

$1.35 and up

With Bolts Ready to Attach

Right hand shares only, as listed below. When ordering, be sure to give article number, size of share wanted, the name or make of your plow, and the exact figures and letters which are on the back of the old share.

Solid crucible steel shares are made for sandy, gravelly or stony soils. Soft center steel shares are used in heavy or sticky soils, where perfect scouring and hardened wearing face are required.

Thickness of all shares, ¼ inch, unless otherwise shown in list.

Olson Tool Steel Adjustable Plow Points

45c and up

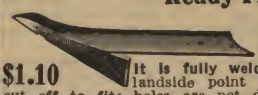
For Right Hand Plows Only

No. 3 Showing Point with Coulter

Saves blacksmith bills and loss of time. Every plow owner ought to have a supply of these points at plowing time.

When your plow becomes dull and will not stay in the ground, it takes only a few minutes' time to slip on one of these points and the plow will do as good work or better than it ever did before, even when new. Will wear as long as a drawn and sharpened share and with practically no lost time and very little expense.

Made of Swedish crucible tool steel, long wearing and long lasting, and will fit practically every make of walking or riding plow. Slips on point of share and bolts through landside. No drilling or blacksmith work required. Nearly as firm and solid as if welded on. A bolt with eccentric head is furnished with each point and a slotted end with second inner slot of sufficient adjustability to meet the bolt hole and landside point of nearly all plows. Can be adjusted for depth by turning the bolt. Made in three styles, the No. 1 specially adapted for prairie breakers and for use in the dry lands or where it is difficult to plow deep with the ordinary share; the No. 2 for stubble, and turf and stubble plows with sufficient web to lay over point of share. Either style, 1 or 2, can be furnished with coulter cutter as shown in illustration No. 3. **For right hand plows only.** Shipping weights: No. 1, 2½ lbs. each; No. 2, 3 lbs.; with coulter, 3½ lbs.



88B914—No. 1, plain, for prairie breakers or deep subsoil plowing. Price, each $0.45

Ready Plow Shares

$1.10

Fully welded, and with finished points. Can be quickly and easily fitted to different makes of plows. It is fully welded and the point finished with the landside point sufficiently long so that it can be cut off to fit; holes are not drilled. Any blacksmith can do the work. **State size and whether right or left hand is wanted.** Shipping weight, 9 to 13 lbs. each.

New Steel Boss Smoothing Harrows

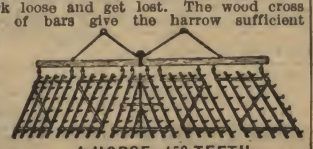
$5.40 and up

TWO-HORSE—78 TEETH

Steel Tooth Bars with Clipped Teeth

Clips Put On Hot. Teeth Cannot Get Lost

Made entirely of steel, with the exception of the top cross braces and draw bars. Will last indefinitely. The teeth cannot get loose, the bars will neither check nor slip, nor twist out of shape. The asphaltum coating protects the steel better than any paint can protect wood.



Teeth are fastened squarely against high carbon angle steel bars and are firmly clipped, making it impossible to work loose and get lost. The wood cross braces on top of bars give the harrow sufficient springiness and still hold the section in shape. The 4 and 6-horse harrows, furnished with chain equalizer as shown in smaller illustration. All smaller harrows furnished with plain hardwood draw bar only. Tooth bars are made of 1¼x1½-inch heavy angle steel. Teeth are ½-inch square, made of high carbon steel, dagger pointed; length, 9 in.

288B988—2-Horse, 60 teeth, cut 10½ ft. Shipping weight, 145 lbs. Price $5.40

288B990—2-Horse, 78 teeth, cuts 13 ft. Shipping weight, 190 lbs. Price $6.95

Shipped from factory in Southern Minnesota.

Climax All Steel Lever Harrows

Showing Our Tooth Fastener

30 teeth to each section. No loose teeth. No weak parts, 5-bar.

$8.90

Mellow and finely pulverized soil is necessary for a perfect seed bed, and to insure it—it is best to use the implement best suited for the purpose—a Spike Harrow. Our Climax Harrows have heavy 1¼x1½ U-shaped steel crossbars, five bars to each section. Frame is channel steel, of good weight and strength. The U-bars pass through main frame of the harrow and are held in position by clamps. This construction gives great strength to the harrow and at the same time allows flexibility. **THE TEETH FASTENERS ARE MALLEABLE.** The teeth are ½x½x7½ or ⅝x⅝x7½ in., and may be adjusted to make them cut deep or shallow, as desired; are of good length, forged of extra hard steel, with curved head to prevent dropping out; they can be turned, thus renewing the cutting edge, and by means of the levers can be set at any angle desired, either sliding backward, forward or horizontally. Each section has the "V" braces shown in illustration.

Hardwood draw bars furnished regularly on 2, 3, and 4 section harrows only.

Climax Closed End Lever Harrows

All Steel U Bars 25 and 30 Tooth Sections Steel Tooth Clips

$3.75 and up

Channel steel bars, attached at ends, prevent tooth bars from catching on obstructions, as sometimes happens in stony or stumpy ground with the open end harrow. U-bars, channel and oscillating bars are made of high carbon steel, and heavy enough to prevent their bending in ordinary use.

Corner braces, oscillating castings and lever castings made of malleable iron. Harrow throughout is strong, well made, and with no unnecessary weight.

Has five bars to each section; levers to set teeth at any angle desired; outer teeth on the first, third and fifth bars with extended loop ends that act as runners for transporting. Furnished with ½x½x9 in. or ⅝x⅝x10 in. steel teeth. A 25-tooth section cuts 4 ft. A 30-tooth section cuts 5 ft. Hardwood draw bars furnished with 2, 3 and 4-section harrows only. **⅝-inch tooth harrows weigh 5 per cent more than the weights for ½-inch tooth harrows given below.**

Success Spring Tooth Harrows

Light running. Easy to handle. With wheels or with runners.

$13.25 or $14.50

Cuts 6 Feet Lever Adjustment

Mounted Wheels or Runners, lessen the draft when in work and transporting. Wheels have 2½-inch rims with chilled bearings, insuring long wear. The front is a caster wheel, allowing easy turning without side strain. The frame and tooth bars are of heavy, high carbon steel; the teeth are ¼x1¾x32 inch steel, tempered to give perfect spring action and so spaced that the two sections will draw straight and the teeth will not trail one another. Each tooth in this way does its own share of work. Each section is equipped with a lever for adjusting the teeth to more or less depth. Made in one size only: 2-section, 17 teeth, cuts 6 feet, and equipped with wheels or runners.

288B1038—Price with wheels. Shipping weight, 305 lbs. .. $14.50

288B1040—Price with runners. Shipping weight, 275 lbs. .. 13.25

Shipped from warehouse near Chicago.

Climax Wood Frame Lever Harrow

Oak Draw Bars—Riveted Teeth

35 Teeth to Each Section

$9.10

Made in one, two, three or four sections, each section has 35 teeth and cuts 5 feet. By means of levers, the teeth can be set in any desired position for pulverizing, or at any desired slant for smoothing. The bars are made of selected, well seasoned white oak and are formed together in each section to keep the teeth even, thus enabling the implement to level bumps and fill out hollows. The iron braces are located above the harrow bars, so as not to collect the trash or interfere with the depth of work done by the teeth. The teeth are ½x½x9 in., securely riveted so that they cannot fall out. Drawbars furnished where more than one section is ordered. No bar is furnished with single section. Shipping weight, per section, 108 lbs.

Michigan Spring Tooth Harrows

The Kind that Usually Command $9.00 to $12.00 at Retail

The Lined Harrows Have Heavy Steel Plates on Bottom of Frame

$6.65 And Up

Beams constructed of clear, strong oak. The teeth are ¼x1½x32 in., and made of the excellent spring steel and held in position by groove cut in under side of the wood bar by a steel plate and two bolts. The sections are hinged together at three points, making the harrow perfectly flexible. The teeth are adjustable to greater or less depth. Stump guards protect the teeth at both sides. Furnished with hardwood draw-bar. Lined harrows have heavy steel plates on under part of frame and weigh 10 lbs. more than the plain.

288B1054—$6.65. 16 tooth, cuts 5 ft., unlined; shipping weight, 165 lbs.

288B1056— 7.45. 18 tooth, cuts 6 ft., unlined; shipping weight, 175 lbs.

288B1058— 7.60. same as 288B1054, but heavily lined with steel.

288B1060— 8.70. same as 288B1056, but heavily lined with steel.

288B1062— .20. extra teeth. Shipping weight, 2 lbs.

Shipped from factory in Southern Michigan.

Northwest Wood Lever Harrow

4 Sizes

$9.25 and up

Built for Hard Work. Very Popular in the Northwest

For Mulching and Weeding. 40 Teeth to Each Section.

The Frames or bars are made of well seasoned oak, 2x2¼ in., and firmly braced. **Stump Guards** prevent tooth bars from catching on obstructions. **Teeth** are 7/16x8 in., square, hard steel, not headed, with a rivet after each tooth. **Iron Braces** to set the teeth at any desired angle. **Hardwood Draw Bars** included with each harrow. Extra strong construction throughout.

Climax Harrow Cart

$4.90 With Spring Seat

Seat convenient to levers on harrow. An extremely simple method of reducing the hard work of the operator. The pivot frame foot lever and automatic lock mechanism allow the wheels to readily adapt themselves to the line of the harrow when turning corners. Extension arms are intended to attach to the draw bars of harrow with clamps and bolts without boring holes in draw bars. Extension arms are long enough to fit any of the well known makes of harrows; length, 70 in. from front of wheels to the evener bolts. Wheels are steel, diameter, 26 in., with 3-inch oval tires. Seat is mounted on spring that is sufficiently flexible to relieve most of the jar in going over the plowed ground. Ship. wt., 115 lbs.

Detroit-American Disc Harrows

Formerly Made by the American Harrow Co.—Detroit

For 32 Years the Leading Manufacturers of High Grade Disc Harrows. Originators of the Tongueless Disc Harrows

All Steel Construction
Maple Ring Bearings
Pipe Oilers
Long Blade Scrapers
Independent Gangs

$17.95 and up

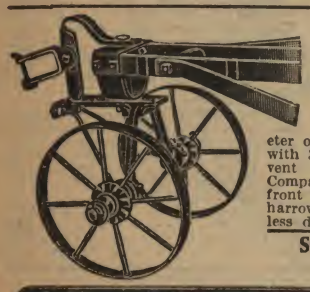
Eveners Included with Each Harrow

A real tongueless disc, built from the ground up for adaptability to the tongueless idea. Each part of the machine is designed to correspond with every other part. Superior to tongueless discs that are constructed along the old style tongue harrow lines, where the wood tongue is cut off and truck used in its place. They are patch work machines in comparison with the tongueless construction of the Detroit-American.

Frame is all steel, nothing to break, not a pound of needless weight, but has all the strength that can be put into a harrow. This construction gives an easy draft, lessens the strain and enables your horses to do more work. The frame sets high above the ground so there is plenty of room between the tongue and discs and no danger of trash catching under the frame and gathering under the disc blades. Flexible pivot attachment truck to frame allows the wheel to pass over uneven places, stones, and to turn corners without disturbing the perfect balance of the frame. The construction is such that the truck controls every movement of the harrow and keeps the frame parallel with the surface of the ground, insuring uniform depth of cutting all over the field.

The main bearings, into which the standards set, take every bit of the end thrust. The disc sections can be operated independently without bumping together at the center. The end thrust is taken up by hard maple rings boiled in oil. These rings have long wearing qualities. When they become worn after long service they can be replaced easily at trifling expense. The bearings are oiled by means of tubes or pipes projecting above bearings, out of the way of any dirt carried around by the disc blades. This insures clean, smooth bearings and convenience in oiling.

Here is one of the many testimonials received from users of Detroit-American Harrows.



Gentlemen—The Disc Harrow I bought of you has been a good one. Have disced many hundreds of acres with it and all my neighbors have borrowed it and all agree it runs much better and lighter than any other make they have ever handled or hitched to, and there are many makes and styles. I have done most of my disking with two horses, and **I am able to disk as much in a day with two horses as my neighbors with other makes do with three horses.** Should I be in the market when this one wears out, I shall want to purchase another 6-foot, 16-inch size. I remain as ever

(Name and address furnished on request.)

Announcement

We have secured the rights and privileges to have manufactured the line of well-known Disc Harrows, Cultivators and Manure Spreaders, for thirty-two years manufactured and sold by the American Harrow Company. The tools produced by them have an enviable reputation. This, as well as the high grade construction, will be kept up by us, and at greatly reduced prices.

Renewals or repairs for any of the Detroit-American Implements shipped within the last ten years can be furnished promptly by us.

Showing trucks and construction of connecting frame. Made practically entirely of steel. Has flexible pivot or kingbolt attachment to the frame. Draft is at one point, whether using 2, 3, or 4 horses. Diameter of steel wheels, 16 inches, with 3-inch oval tires that prevent cutting into the soil. Compare the truck and the front frame construction of our harrows with so-called tongueless discs.

The adjustable standards are a new and important feature. By means of slots and adjustable bolts, the standards can be let out at each side to spread the gangs and to prevent them from striking in the center. They can also be adjusted to bring them closer together.

Shifter Bars. Connected to lever. Are evenly curved along upper surface in order that they may exactly meet the lower end of the "hold-downs," so that no matter where the lever is set, they hold the section level. This insures level cultivation.

Long Blade Scrapers. Made of special tempered steel. Extend from the scraper bar to a point near the center of the disc. Are operated by a foot lever convenient to the operator and automatically released by coil springs when the foot pressure is removed.

Eveners. With the 4 ft., eight-disc harrows, we include a two-horse evener. With the 5 ft. and 6 ft. harrows, three-horse evener is furnished. With the 7 ft. and 8 ft. harrows, 4-horse evener is furnished. Weight boxes are extra at prices shown.

Steel Weight Boxes

When desired, we can furnish weight boxes for any of our Disc Harrows except the 4-foot 8-disc size. Weight boxes are not needed for Cutaway Disc Harrows, which are generally used for surface pulverizing. These boxes are strong enough to sustain a weight of several hundred pounds and are fastened to the scraper frame by two bolts each.

Prices on round blade disc harrows.

Detroit-American Transport Trucks

For Our Detroit-American Harrows Only. Complete with Foot Brakes.

Especially valuable where the tool house is located some distance from the fields, or where necessary to drive over stony or sandy roads, ridges, hills, etc. The saving on the harrow will earn the price of the trucks in a very short time. Sold only in pairs. Every owner of a Detroit-American harrow should have a pair. Easy to attach by tipping the frame backward. Shipping weight, 46 lbs.

288B1142—Per pair..... **$2.75**

Shipped alone or with D-A harrows from warehouse near Chicago.

Detroit-American Catalogue

If you are interested in the purchase of a Harrow, Cultivator or Manure Spreader, we want to send you a copy of the Detroit-American Catalogue. The Detroit-American line bears a reputation second to none in this country, and you can make no mistake if you purchase farm machinery bearing this name. If you are not already familiar with Detroit-American goods, you owe it to yourself not to purchase until you learn all about them.

The special Catalogue will be sent postpaid on request. Just drop us a postcard and say, "Send me your Detroit-American Catalogue."

Climax Reversible Disc Harrow and Cultivator

A Handy Tool for the Farm

As a Harrow it is especially desirable on small farms or truck farms, as it can readily be handled by two horses, and harrows as well as the larger sizes. **As a cultivator it is a valuable addition to your line, whether your farm is large or small.**

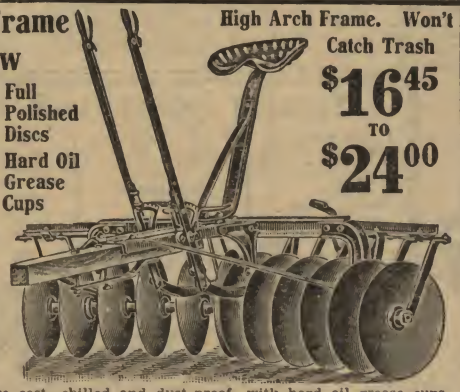
Can be used either as a harrow or cultivator, as the discs can be set at any angle and are reversible. The gangs can be set close together for harrowing or can be separated 14½ inches for cultivating corn, hilling potatoes, tobacco, etc. Discs can be arranged to throw the dirt in or out. **Has strong steel frame with malleable adjusting plates that can be set rigid and will stay in position at any angle desired.** Diameter of discs, 16 in., of high quality steel. Boxes or bearings are hard maple, oil soaked and enclosed in dust-proof boxes. **Regularly furnished complete with disc scrapers, spring seat, doubletrees and neck yoke.**

288B1148—With 6 discs. Shpg. weight, 225 lbs. Price **$13.30**

288B1150—With 8 discs. Shpg. weight, 240 lbs. Price **14.45**

Shipped from warehouse near Chicago.

Banner Arch Frame Disc Harrow



Sets high, less liability to gather cornstalks, trash, etc.

FRAME is angle steel, 2½x2½ inches, fitted with iron connecting standards.

LONG FLEXIBLE STEEL SCRAPERS: Work freely, cleaning the blades from center to outer edge of discs. Operated independently by foot pressure.

GANGS are bound together in a thoroughly substantial manner. Dividing spools, shafts, etc., are of a very heavy pattern.

Full Polished Discs
Hard Oil Grease Cups

High Arch Frame. Won't Catch Trash

$16.45 TO $24.00

JOURNAL BOXES are cast, chilled and dust-proof, with hard oil grease cups. Bumpers at inner ends of gangs prevent side pressure on journals.

EQUIPMENT: Three-horse evener furnished with 10 and 12 discs, and 4-horse evener with all larger harrows. If 4-horse is wanted with 10 or 12 sizes in place of 3-horse, allow extra $1.00. Three-horse equalizer is improved pattern, with pole in the center. This does away with the stub pole and attachment.

LEVERS are conveniently placed, one for each gang, for giving uniformity of depth in work on hillsides.

DISCS high-grade, oil-tempered steel, polished on both sides.

Shipped from warehouse near Chicago

Climax Disc Harrow Trucks

Can be used on any disc harrow by sawing off the regular tongue near the ends of the tongue braces. Your harrow, with truck, will give better service with less work on the horses. A relief to the horses and driver; prevents violent jerking and neck weight of tongue.

Our Climax Trucks are exceptionally well made, strong and durable, easily adjusted and easily attached to stub tongue. Two holes only bored in tongue are sufficient to attach them. A great relief to horses and does away with the constant worry caused by the unwieldy tongue. There is less tendency to side draft, as the harrow follows the truck. They make harrowing easier on the horses, as well as the driver, and are especially desirable where spirited horses are used.

TO USE WITH OR WITHOUT TONGUE

Constructed almost entirely of steel and have sufficient strength to stand the hardest use on our harrows. Wheels are steel, diameter, 16 in., with 3 in. wide, oval shaped tires, and dust-proof, oil-retaining boxes. Furnished with clevis to which evener is attached, the draft being directly in line with stub tongue. Regularly furnished to use without tongue; an offset with tongue plate to attach tongue furnished extra when ordered.

288B1178—Tongueless Truck. Weight, 65 lbs. Price.. **$4.40**

288B1180—Offset axle with tongue plate to attach guiding tongue when needed on hillsides or slopes. Shpg. weight, 18 lbs. Price ..... **.90**

Shipped from warehouse near Chicago

Will surprise you in the quick and thorough manner with which it improves your harrow. A small, powerful disc Sharpener.

Monarch Disc and Coulter Sharpener $2.85

Will save its cost in sharpening two harrows.

Can be bolted to bench or plank or upright post. The position of the machine makes it convenient to put on the disc. **All farmers know that discs must be kept sharp to do good work,** and especially to cut hard ground or sod land. With this sharpener, if the disc is bent or warped it can be straightened, which is not possible on a great many other machines of this kind on the market. The only proper way to sharpen blades is to take them off and really sharpen them. **The blades can be removed easily by turning disc bottom side up.** Has centering device to accurately center any disc. No clattering or jumping of the cutter. Improved roller carrier steadies discs. **Double gear makes disc revolve slowly and gives great power to the machine.** All cast working parts, steel shafts. Full directions with each machine.

188B1190—Price, shipping weight, about 42 lbs..... **$2.85**
88B1192—Extra tool steel knives. Each, weight, 4 oz..... **.22**
88B1194—10x2½ in. Pulley to use with power, weight, 10 lbs **.75**

Climax Disc and Coulter Grinder

For grinding blades 12 to 24 inches in diameter

$3.20

For Grinding Blades 12 to 24 inches in diameter. If you have a disc harrow, you need our Climax easy-working, quick-grinder. Automatically turns the disc when grinding. Especially adapted for grinding discs, but can also be used as a tool grinder. Automatic feature, whereby the disc is turned and the grinding done by turning one crank, simplifies the operation and makes easy grinding with no other labor than that of turning of the crank. It is easily and quickly adjusted to grind either 12 or 24 inch discs, or any intermediate sizes. Has machine-cut driving gears, encased in dust-proof gear case, making it very serviceable for tool grinding. Disc is held against the grinding wheel by means of a spring-controlled steel roller. Shipping weight, 19 lbs.

188B1264—Price, complete **$3.20**

Disc Harrow Blades

Concave disc blades of same quality as used on all standard makes of disc harrows. Made of high grade, oil tempered steel. Three sizes, 16, 18 and 20-inch, all have 15/16-inch square hole to fit ⅞-inch shaft. Shipping wts., 7, 9, 12 lbs. respectively.

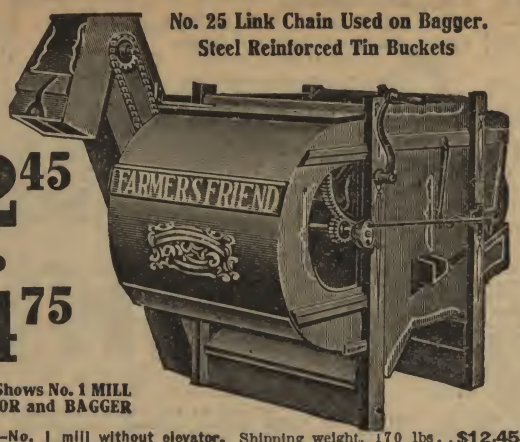
Climax Transport Trucks

For Disc Harrows

$2.80 Per Pair

A SIMPLE AND INEXPENSIVE METHOD OF TRANSPORTING YOUR DISC-HARROW FROM ONE FIELD TO ANOTHER, ACROSS ROADS, ETC., WITHOUT THE DANGER OF DAMAGING THE DISC BLADES, AND AVOIDING CUTTING UP THE ROADS.



The trucks consist of steel standard or upright, with extension arms on which the axle of disc harrow rests, and the sliding clamp that attaches to frame at top of harrow. Each one handled individually. More easy to handle than the connected trucks, as one can be put on at a time. Very easy to attach or detach. If you have a disc harrow you need a pair of these trucks. Weight, per pair, 50 lbs.

288B1184—Price, per pair..... **$2.80**

Shipped alone or with Banner or Climax Harrows from warehouse near Chicago.

Farmer's Friend Fanning Mill

No. 25 Link Chain Used on Bagger.
Steel Reinforced Tin Buckets

$12.45 To $24.75

Illustration Shows No. 1 MILL with ELEVATOR and BAGGER

One of the Best Known Cleaners and Separators. Sells at Retail at Nearly Double Our Prices. You Can't Buy a Better, Similar Mill at Any Price

The Farmer's Friend is the output of a factory that has devoted 35 years almost exclusively to the building of Fanning Mills and the manufacturer's knowledge of the requirements of first class mills, together with the improvements added as the result of experience, enables us to offer you a strictly high grade farm fanning mill at about 25 per cent less than you would pay at retail.

Thoroughly seasoned, clear, sound hardwood is used, and the construction is such that it will stand the hardest kind of usage.

The shoe is supported by spring steel strap hinge hanger, making this one of the strongest features on our mill, while it is the weakest on most mills.

The sieve frames are hardwood, mortised, tenoned and glued at the corners.

The grader regularly furnished can be adjusted to separate and deliver through the side spout a greater or less portion of the best grain.

The No. 1 or smaller size is equipped with sieves 24 in. wide and has a capacity of 40 to 60 bushels of grain per hour.

The No. 2 or larger size has sieves 30 in. wide and a capacity of 60 to 80 bushels of grain per hour.

Each mill is furnished with one 3-gang wheat hurdle with zinc, top sieve, one wheat grader, one side spout, one wheat screen, one barley sieve, one oat or corn sieve, one chess board. This outfit is sufficient for cleaning and grading the following grains: Wheat, oats, rye, barley, peas, beans, corn, cotton, buckwheat, kaffir corn, broom corn. For other work see list of extras. Frame has maple posts and hardwood sides.

Illustration shows the mill equipped with elevator and bagger. This is furnished only at extra charge as quoted. Elevator and bagger cannot be supplied to fit other mills or to fit our mill except at the time the mill is shipped. Our No. 1 Mill with Elevator and Bagger under another name, retails at $25.00 to $30.00. Weights of extra sieve or screen outfits as quoted range from 5 to 15 lbs.

288B1300—No. 1 mill without elevator. Shipping weight, 170 lbs.		$12.45

288B1340—Cleaning clover seed	1.15	1.40

Note—We can furnish a sheet steel drum in place of wood, and also use carriage bolts on hanger straps, shaft boxes and shake elbow boxes, in place of screws. These additions are especially desirable on export orders or for warm climates where wood easily warps or checks.

	For Mill No. 1	For Mill No. 2
288B1342—Extra for these changes	$1.65	$2.35

Shipped from warehouse near Chicago.

Warehouse Fanning Mills

Constructed the same as our Farmer's Friend Mills but larger, heavier, stronger, and adapted especially for power. Can also be operated by hand. Crank furnished. Bolted bearings, boxes and irons. Used and recommended for many years in the United States and foreign countries by leading millers, elevator men and grain and seed dealers. Have 6-inch diameter, 3-inch face, tight and loose pulleys, but we can furnish any size required if special size is stated in order.

No. 4 Mill has sieves, 40 in. wide, capacity 200 to 300 bushels per hour.

No. 6 Mill has sieves 48 in. wide, capacity 300 to 400 bushels per hour. Speed, 250 to 275 R. P. M. Elevators and Baggers are extra strong, built for hard work and can be attached to mills, only at factory.

Furnished with regular commercial sieve and screen outfits for cleaning and grading wheat, barley, oats and corn. When desired, mills with outfit for cleaning onion sets, rice, coffee, beans, peas or peanuts in place of the regular grain outfit can be furnished at the same prices.

New Lakeside Fanning Mill

Capacity, 30 to 50 Bushels

$10.85

Just the mill for the average farmer who uses it only occasionally and does not want to invest any more money than is necessary. While it is very low in price and does not compare with our Farmer's Friend, it is nevertheless made strong, of good material, well put together, is full size, large capacity, and will do as satisfactory work and clean as much seed, and as thoroughly, as mills that sell at retail at $4.00 to $6.00 more.

The frame is made of hardwood, securely screwed and braced. Has a very short and quick side shake for movement of shoe, and larger screening surface than ordinary mills. Shoe is held in perfect position, preventing grain from gathering to one side. Shake is obtained by an eccentric driven by a large gear wheel. Sieves are 24 in. wide.

The regular outfit consists of one gang of sieves for wheat, one wheat grader, one wheat screen, one oats sieve, one barley sieve and one chess board, adapting it for cleaning and grading wheat, oats and barley. Extra sieves for other purposes can be furnished at prices as quoted under our Farmer's Friend Fanning Mill No. 1. Shipping weight, 150 lbs.

288B1348—Lakeside Mill, complete. Price $10.85

Shipped from warehouse near Chicago.

Brown's Seed Corn Tester

A PERFECT, SIMPLE, COMPACT AND SATISFACTORY TESTER. MADE OF WOOD. OVER 35,000 FARMERS IN IOWA TESTED CORN LAST SEASON MORE CORN PER ACRE—EVERY HILL A GOOD ONE

Select at least 14 ears of corn for each acre you expect to plant the coming season. Then test each ear for germination with a Brown Tester, the best ones only, and you are practically sure of a big increase in your crop.

A card of instructions is furnished with each outfit, explaining in detail how to select your corn how to use the best after the test, how to arrange and operate the tester, and other valuable, general information.

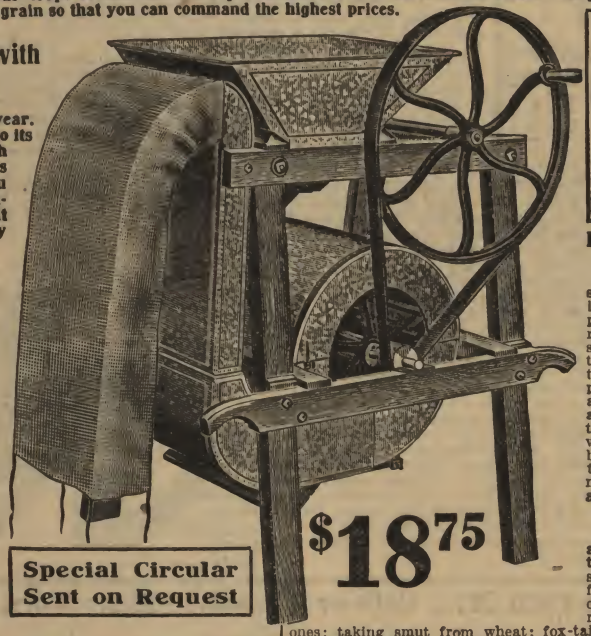
Only a small amount of space is required. It can readily be set behind the stove or to one side, out of the way.

The complete tester includes 12 racks for drying the corn. Each rack holds 24 samples from test ears. Entire set of racks will hold test samples of 288 ears.

The seed box consists of 12 separate compartments, lettered from A to L. Each compartment has a series of twenty-four 1½-in. holes to be filled with sand, in which are placed about six grains of corn taken from each ear on the rack. Two measuring strips bearing numbers are furnished with each outfit to designate the hole that corresponds with the ear from which the seed is taken.

Moisture hole in each seed chamber allows the moisture to flow from one compartment to the other. Pan is supplied at the bottom to catch all seepage. Two wire bails with wooden wedges hold the 12 compartments in one solid package.

188B1356—Complete outfit (shipping weight, boxed, 50 lbs.). Price $3.20



Climax Seed Grader and Crop Breeder

There probably is no other implement on the farm that will give as big returns for so little expense. Increase Your Crops 20 to 30 per cent on a Small Investment. You cannot do without it and get the best out of your land.

With our Climax you not only increase your crops so that the extra production of 6 to 10 acres in one season will pay for the grader, but you improve the quality of your grain so that you can command the highest prices.

Make your Crops Keep Pace with Increasing Land Values

Your land is increasing in value every year. If it does not produce crops in proportion to its increased value, it isn't making you as much money as it was before, because your taxes on it are generally higher. That is why you should use every available means of increasing your crop production. And that is why you should effect this increase by grading your seed.

$18.75

Special Circular Sent on Request

A 28% Increase was obtained by the U. S. EXPERIMENTAL STATION at Fayetteville, Ark. **on Common Rye** Selected by Grader, Yield, 1460 Lbs. Not Selected, Yield, 1140 Lbs.

A 21% Increase on Early Ripe Wheat, from Seed Selected by Grader, Yield, 1010 Lbs. Not Selected, Yield, 830 Lbs. On OATS a 50% INCREASE was obtained from Seed selected by grading

Operation

The purpose of our Climax Seed Grader and Crop Breeder is to select only the best kernels for planting. The selection or separating is done by blast, by which each kernel is weighed. A sound, live kernel, containing the germ of vegetable oil necessary to germination, is considerably heavier than the unsound kernel that will not produce. The Climax makes a fine distinction, throwing out the light or unsound, and retaining the heavy, sound seeds. There is no other method in use at the present time by which this separation can be made. Fanning mills separate the large from the small only, regardless of whether they are sound or unsound. By using the Climax, you are enabled to plant only the very best of your seed. Tests have proven that it will insure 95 per cent good seed when properly operated. Of the many tests made, principally under the direction of the agricultural colleges, it has been proven that by the careful use of our Climax Seed Grader, you not only save one-quarter to one-third of your land on which unsound seed has been planted, but you save the time wasted in planting as well. The selection of your best and heaviest seeds tends to constantly improve the quality and quantity of your crop from year to year. **You can take a quantity of grain from your bin, run it through the grader, select the largest and heaviest kernels for planting, and the balance can be put back in the bin without reducing the grade or marketable value.**

Construction

The Climax is free from any complicated mechanism that is liable to get out of order or give trouble. It is a simple arrangement by which the air blast is properly distributed, so that when the grain is fed from the hopper into the separating channel, the weighing is done by the air blast that forces out all seeds that do not come up to the weight, and retains the big, live, sound kernels. The frame is of hardwood, sufficiently heavy and strong to easily stand double the usage that is required of it. The drum, air chamber and air valves, for the regulation of air current, are constructed of sheet metal. The valves or dampers regulate the air current, the upper or lower main valve determining the force of blast for the kind of grain cleaned, and can readily be set for the kind of grain or seed that is to be cleaned. A sliding poise is attached to the valve bar that is on the outside of the machine, convenient to operator. The lower valve acts as a governor, or safety valve, by automatically opening in case the speed or draft is increased too much, thereby regulating the force of the air current. There is nothing about the machine to wear or give out, and repairs are therefore reduced to practically nothing. There is not a sieve, screen, or shaker, and no cog wheels or other parts that can get out of order, or wear out through ordinary use. With a little practice and experiment, any one can readily become familiar with its operation, and grade all kinds of seeds, from the smallest grass seed up to and including corn. **Complete printed directions for operating with each grader.**

Plant Live Seed—They are The Only Producers

By carefully noting the growth of unselected seed wheat, it is found that a large percentage of the seed sown never produces a head at all. The smaller seeds may generate and slowly send up a weakly stalk, but they don't have enough vigor to mature into grain. This means that the small seed which forms these unproductive plants is worse than thrown away, for the stalks from the sound seed are less vigorous than they would be if these little ones, which produce no grain, were out of the way. Every small stalk by the side of the strong, productive ones, takes away from the latter a part of the nutriment which it would otherwise have, and so lessens the production of the field.

A Big Variety of Uses

Numerous testimonial letters from users, also from government experimental stations, tell of the various other uses besides the sorting of the sound, live seed from the unsound, including separation of buckhorn from clover or alfalfa; separating imperfect split peas from sound ones; taking smut from wheat; fox-tail and crab grass from alfalfa; and foul matter and weed seed out of grain that is lighter than the grain itself. However, we do not recommend it especially for these purposes, or for other than actual grading of the seed, separating the large, sound seed from the unsound. The grader starts where the fanning mill leaves off. For best results the grain should be first fanned in a mill and then graded in the Climax Grader.

Let us send you our special circular, describing our seed grader and crop breeder. It explains more fully and in detail the benefit you can derive from the use of one of these valuable machines, whether your farm is large or small. The circular also contains testimonials of many farmers and government experimental stations that stand as evidence that the Climax is an investment well worth considering seriously.

Hand Power Grader

The Hand Power Grader, as shown above, is the popular type for regular farm use. Capacity of 10 to 20 bushels per hour. The outside measurements are: Length, 3 ft. 10 in. Width, 2 ft. 9 in. Height, 4 ft. 2 in. Has cast iron large fly wheel with handle that can be operated by one hand.

288B1350—Climax Hand Seed Grader and Crop Breeder. Shipping weight, 160 lbs. Price $18.75

Belt Power Grader

Our Belt Power Grader and Crop Breeder is built similar to the hand machine illustrated above, but is a little larger and heavier. Length, 3 ft. 10 in. Width, 3 ft. 3 in. Height, 4 ft. 5 in. Has capacity of 15 to 40 bushels per hour. Diameter belt pulley, 10 in., with 3-in. face. Speed of pulley, 75 revolutions. Furnished complete, with sacking elevator. Can be operated by 2 H. P.

288B1352—Climax Belt Power Grader and Crop Breeder, with 5-ft. sacking elevator. Shipping weight, 320 lbs. Price $28.50

Shipped from warehouse near Chicago.

Seed Corn Dryers

One of the Most Convenient and Economical Dryers for Taking Care of Your Corn. Capacity, 200 Ears.

Dryer consists of specially constructed galvanized steel wire chain, with large hook on one end, and 200 heavy crimped galvanized wires that go into the butt end of ears and hook on chain. Takes up very small space, and can readily be hung in buggy shed, corn crib, or elsewhere. Air space of 6 inches through center, as hooks go only half way into cobs. Will thoroughly dry corn in six weeks.

88B1360—Price, per set, to hold 200 ears. Ship. wt., 5½ lbs. 78c

Climax Seed Corn Tester

INCREASE YOUR YIELD PER ACRE WITH LITTLE TROUBLE OR EXPENSE.

A complete, convenient method of testing your seed corn or other grain. Consists of a large pan with partitions, all made of heavy galvanized steel. Partitions are removable for easy cleaning after testing. Can test samples from 105 ears at one time. Compartments are numbered, and corresponding tags are furnished with nails to attach to the ears of corn. Has all the advantages of high priced testers. Complete directions with each. Shipping weight, in carton, 4¼ lbs.

188B1364—Price, each 95c

Climax Seed Corn Dryer

Practical, Satisfactory and Economical Rack for Drying Corn.

Capacity, 600 Ears

$5.95

Requires a space only 2 ft. wide and 6 ft. long, and can be set in a hall, or in any space up to 2 ft. wide. Capacity, 600 ears of corn. The ear of corn slips over the hook. Same number of ears can be placed on either side of rack and in straight rows, up and down or straight across. This method renders it easy to count them when testing, and all ears are on the outside so that all can be seen at a glance. Hooks are made of galvanized steel. The cross bars are of stiff bar steel, and will not sag. No two ears touch. Very strong, and will last indefinitely. Shipping weight, 70 lbs.

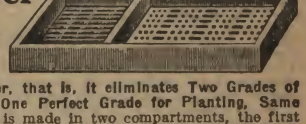
288B1368—Price, complete $5.95

Shipped knocked down from factory in Iowa.

Seed Corn Drying Racks, $1.25 PER DOZEN

Made Entirely of Steel. Better Than Any Wood Rack

Each rack holds 24 ears of corn. The sides or frame made of 16-gauge steel. Beaded in center, and formed on each side, making them rigid. The holders are heavy galvanized wire, spaced 2½ in. apart. They can easily be taken off and put on, so that for shipping, or when through using, they can all be collapsed into a flat package, taking up very little space. The frame is supported by bolt rtays with nuts, making them easily taken apart. Packed in crates of one dozen or three dozen. We cannot break crates or sell less than dozen lots at these prices. Shipping weight, one dozen crates, 17 lbs.



188B1372—Price, per crate of 3 dozen racks $3.54

188B1374—Price, per crate of 1 dozen racks 1.25

Iowa Corn Grader

Clever, Handy and Serviceable Little Corn Grader

72c

The Iowa is a 3 Grade Grader, that is, it eliminates Two Grades of Undesirable Kernels, and Gets One Perfect Grade for Planting, Same as the High Priced Graders. It is made in two compartments, the first or larger compartment permitting two grades of the smaller grains to go through. After grading out the smaller kernels and turning the movable partition in center, allows all of the balance to flow to the smaller compartment by slightly tipping. In the smaller compartment, the corrugation allows the planting grade of uniform size to go through, keeping back the extra large kernels. The screen is of galvanized steel, the frame of wood. Never clogs, as the act of emptying or transferring the corn to the other compartment automatically cleans it. No reversing, turning over or adjusting. Very simple and durable. Size, 12½x21½ in.

188B1380—Shipping weight in carton, 3½ lbs. Price 72c

Need a Grinding Mill? You can count on ours to do satisfactory work

New Climax Grain and Clover Drill

18 Disc, 4 Inches Apart. Sows Less Seed to the Furrow. Drills More Furrows.

Complete Outfit for All Kinds of Grains and Grass Seeds, with Fertilizer. Sows Seeds and Fertilizers in Rows Only 4-inches Apart

For Wheat, Oats, Barley Rye, Soy Beans, Alfalfa, Red Mammoth or Japanese Clover, Timothy, Orchard Grass, Cow Peas, Etc.

One Machine to do the Work of Many

Only one to house when not in use

$98.00

Our New Climax Combination Drill with its many important advantages, makes it one of the most desirable drills used on the farm. Its completeness, and the many uses that the average farmer has for it, makes it far more economical than the purchase of several separate drills that would be required to do the same work.

It will accurately sow the small, expensive seeds such as alfalfa, blue grass, clover, etc. You can drill clover in your winter wheat and cultivate the wheat with one operation. A fine stand of clover can be secured by drilling from 6 to 8 pounds per acre, insuring a far better yield than when the clover is broadcasted with a great amount of waste. It is estimated that in drilling clover alone, 30 acres will pay for the drill in the saving of seed and increase of crop over the usual method of broadcasting.

You increase your yield nearly double over the seven and eight inch drills by sowing with a New Climax Combination Drill in furrows four inches apart. The increased yield is obtained with the same operation. It means more plants to the square foot, and a seed saving on account of even distribution.

One hopper only is furnished with drill, but is divided into two parts: one for grain and grass seeds, and the other for fertilizer. Has agitator to force seed, insuring uniformity. Hopper is equipped with an acre measure and a quantity indicator with a large range of quantity adapting it to the requirements of most any farmer. Hopper holds approximately 2 bu. of grain, and will sow from 75 up to 600 lbs. of fertilizer per acre, as desired.

Has lever on side of hopper to raise discs. A strong lifting spring aids the lever so that a boy can easily and quickly raise discs out of ground when required.

The discs, 18 in all, are high carbon steel, self sharpening, and 10 in. diameter. Diameter of drive wheels, 36 in. with 3 in. tires.

Wheels do not extend above top of hopper and therefore prevent dirt being carried up on the hopper as happens with high wheels.

Sows about two corn rows in width, or 84 in. wide. Width of drill from out to out of wheels, 8 ft.

A timothy attachment is regularly furnished on the front of the machine so that timothy, clover, alfalfa, and other small seeds can be broadcasted in front of the discs when drilling wheat in the fall, if the operator so desires.

Can be used for cultivating crop without injury to the tender roots by throwing the clutch out of gear and using the drill as a disc cultivator.

Plenty of clearance between each disc. No trouble in trashy or corn stalk ground.

Seed or fertilizer has direct drop from the time it leaves the hopper until deposited in the furrow; no chance for clogging.

When fertilizer is not used, throwing the fertilizer lever out of gear automatically disengages all of the fertilizer parts.

The complete equipment includes combination hopper for grain, small seeds, and fertilizer: timothy attachment; pole with neck yoke and double trees; acre measure; and quantity indicator. Complete directions for operating. Shipping weight, complete, 1,020 lbs.

288B1400—New Climax Combination Drill complete. Price **$98.00**

Shipped from factory in Ohio.

Seed Drills

Built by one of the most prominent manufacturers of seeding machinery.

The Frame is built of one continuous piece of 1¼-inch steel pipe, bent at corners and securely braced. 10 disc drills have frames reinforced by single rear steel truss rod as shown. 12, 14 and 16 discs have double truss in front and single truss in rear. This construction prevents any danger of sagging in center.

The Gear Box is placed on an axle that provides for increasing or decreasing the quantity of seed sown. Dial plate in view of the operator shows the quantities to be sown in pecks. On the square shaft of the gear box are three sprocket wheels, the smaller being used to sow wheat in ordinary quantities and the larger to be used when excessive quantities are to be sown, such as long bearded oats, etc.

Discs are concave, 13-in. diameter, and hung in correct line for light draft. Extension of boot acts as scraper for disc, also as furrow opener for the seed bed. Disc pressure consists of coil oil tempered steel springs applied at rear of boot. A ratchet lever applies any desired pressure.

Drag Chains level the ground after the seed is deposited. The two end chains are automatically carried clear of the ground wheels when turning. Tubes are spring steel wire, japanned, and will last indefinitely. Diameter of wheels, 48 in.; have wood rims and spokes, and iron hubs. 8, 10 and 12 disc drills have 3-in. tires. 14 and 16 disc drills have 4-in. tires. Axle is 15/16-in. cold rolled steel on drills up to 12 disc; 1⅛-in. on 14 and 16 disc drills.

Furnished as a grain seeder only, or combination fertilizer and grain drill with grass seed attachment for sowing all kinds of grass seed. Also with alfalfa grass seeder, especially adapted for sowing alfalfa.

Grain feed is double force feed. Will sow all kinds of seeds continually, peas and beans included. A dial in view of the operator shows the number of acres sown. This dial stops when the seeder is out of gear. The fertilizer can be thrown in and out of gear independent of the grain hopper.

A Force Feed Grass Feeder fitted with deflector seed board furnished at extra charge. This enables the operator to sow either in front or behind the discs, or for broadcasting only. Alfalfa seeder attachment, for sowing alfalfa into grain hoppers with the grain or separate, furnished at extra cost.

Directions furnished with each drill. Weights of drill only, range from 1,025 to 1,750 lbs.

Illustration shows driver's seat. **Seat is furnished only when ordered, at an extra charge,** as many prefer to walk.

		Drill Only	Drill with Fertilizer

For 12, 14 and 16 disc drills; extra shipping weight, 20 lbs. **5.75**

Shipped from factory in Indiana.

Climax Disc Drill $42.75 and up

With Chain Covers. With or Without Fertilizer Attachment. Alfalfa and Grass Seeder if desired. Steel Wire Tubes.

Reliable Broadcast Seeder

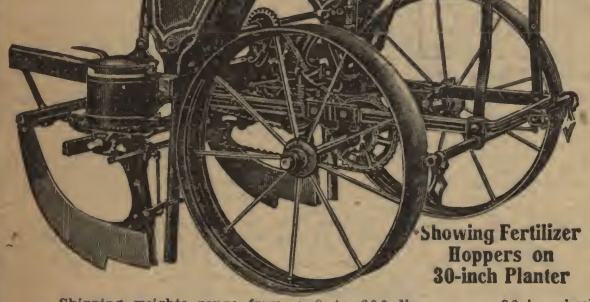
For Broadcasting Wheat, Oats, Rye, Barley, etc.

The hopper is U shaped, length, 11 ft.; thoroughly bolted together and has three partitions extending to top of box. The adjustment for the proper amount of seed to the acre is quickly made. The main shaft which bears the entire weight of seed box is 1¼-in. solid steel. 36-in. steel wheels, with 2½-in. tires.

Can ride or walk as desired. Directions with each. Doubletrees, singletrees or neck yoke not furnished. Shipping weight, 385 lbs.

AGITATOR FEED
Every one carefully fitted and tested

288B1428—Price **$15.25**
288B1432—Grass Seed attachment for either style, extra weight, 15 lbs. **$3.10**



288B1430—Reliable Broadcast Seeder. With Force Feed in place of Agitator Feed. Price **$22.00**

Shipped from factory in Indiana.

Improved King Corn Planter

Two Sizes 30 or 40-inch wheels

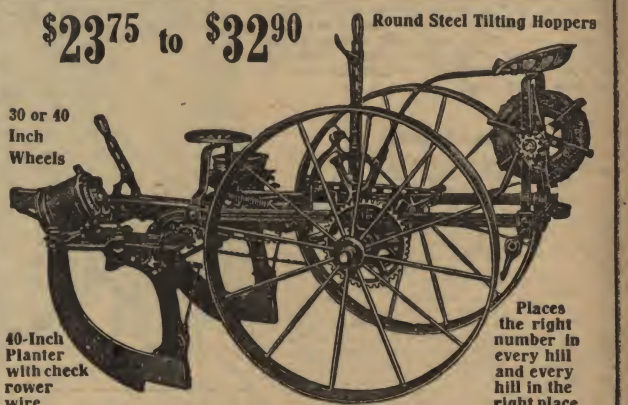
Open or Closed Wheels

Showing Fertilizer Hoppers on 30-inch Planter

Over 15,000 satisfied Users consider the Improved King Second to None

Our Improved King is what is known as an accumulative pattern and is a drill drop; or can be operated as a hill drop with the check rower attachment; or as a hand drop by putting an extra man on in front; or may be operated as a foot drop by the driver. As a drill drop it will drop the grains either 10, 12, 14, 16 or 22 in. apart, according to the seed plate. As a hill drop, the number of grains in each hill is also controlled by the seed plate. **Adjustability**—These planters are all made so that they can be narrowed up or widened out, and can be set to plant corn in rows 3 ft. 4 in., 3 ft. 6 in., 3 ft. 8 in. or 3 ft. 10 in. Planters are usually set with the runners 3 ft. 8 in. when they leave factory. Frame is all metal. Parts that are subjected to strain are of steel or malleable iron, giving it both strength and durability. It is fitted with a lever with device by which planter can be locked at any given depth to suit conditions of the soil. This can be done without stopping the team. Furnished with 30 or 40-in. wheels. The 40-in. planters have higher frame and are otherwise constructed in the same proportion. Furnished with open or concave closed wheels and five sets of plates. **We will always ship with closed wheels unless open wheels are ordered.**

Doubletrees, singletrees or neckyoke not furnished.



Shipping weights range from 400 to 600 lbs.

		30-in. wheels	40-in. wheels
288B1436—	Without check rower or wire. Otherwise complete	$23.75	$27.80

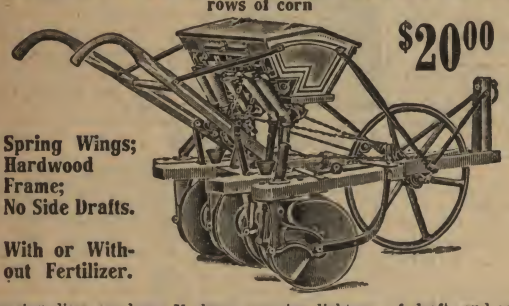
288B1442—	Price extra check rower wire with check-buttons from 3 to 4 ft. apart. (State size, otherwise will send regular 3 ft. 8 in. size.) Weight, per rod, about ½ lb. Per rod		3½c

Shipped from factory in Indiana.

$23.75 to $32.90

Round Steel Tilting Hoppers

30 or 40 Inch Wheels



40-Inch Planter with check rower wire

Places the right number in every hill and every hill in the right place.

Climax 5 Disc Grain Drill

For wheat, oats, rye and barley. Especially adapted for use between rows of corn

$20.00

Spring Wings; Hardwood Frame; No Side Drafts.

With or Without Fertilizer.

Covering discs are hung V shape, securing lightness of draft, and proper clearance of obstructions. Outer wings are bolted independently to frame in front and kept extended by pressure spring working automatically, allowing them to pass the corn hill out of line as well as other obstructions. Heavy steel yokes prevent riding out of ground, also regulate extreme width of cut. Width of cut is readily changed for any size row from 3 ft. 4 in. to 3 ft. 10 in. inclusive. Discs are concave, diameter, 13 in. The drill itself will cut from 29 to 36 inches. Boots that carry seed are bolted firmly to the frame and carry the disc in correct line. Extensions of boot act as scraper for the disc, and also acts as a furrow opener, providing a seed bed of proper width.

Furnished as a drill only or combination drill with fertilizer attachment. (Cut shows drill with fertilizer.) The grain hopper holds about one-half bushel. The grain feed is a fluted roll with the cut-off bolted securely to feed rod, assuring accurate distribution, as all rolls must sow alike, and are controlled by lever which indicates on the gauge the amount sown. Will sow small beans and any kind of smaller seed grains.

When furnished with drill, the fertilizer operates independent of the seed hopper and either one or both can be operated at one time as desired.

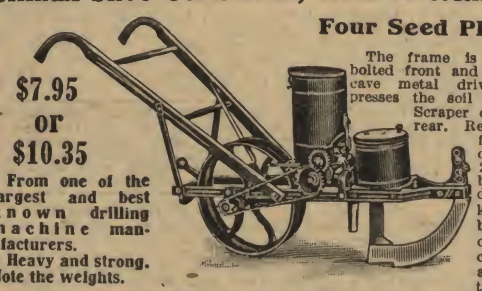
Hitch ring is set ¾ in. out of center, thus avoiding any side draft. Handles have iron fenders on hand holds.

288B1450—With grain hopper only. Shipping weight, 190 lbs. Price **$20.00**

288B1452—Complete with fertilizer. Shipping weight, 235 lbs. Price **$26.50**

288B1454—Grass Seed attachment. Extra shipping weight, 20 lbs. **2.50**

Shipped from factory in Indiana.

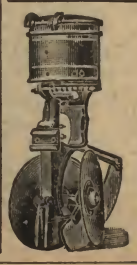


Climax Shoe Corn Drill, With or Without Fertilizer

Four Seed Plates

$7.95 or $10.35

From one of the largest and best known drilling machine manufacturers.



Heavy and strong. Note the weights.

The frame is of 1½x⅛ in. steel, bolted front and rear. The large concave metal drive wheel covers and presses the soil over the grain sown. Scraper on the drive wheel in rear. Regularly furnished with four plates, three for drilling 12, 15 and 20 in. apart, and one blank plate to be drilled to fit any other kind of seed desired to be sown. Has metal cut-off. Driven by chain direct from axles, and can be thrown in and out of gear while in motion. Shoes made of polished steel. Handles of hardwood, steam bent. Adjustable hitch for deep or shallow planting. Illustration shows drill equipped with detachable fertilizer with disc feed. Is provided with cut-off to regulate quantity, and is driven by independent chain direct from axle. Can be thrown in and out of gear while drill is in motion. **When ordered without fertilizer the large hopper and attachments are not furnished.**

288B1460—Plain, without fertilizer. Shipping weight, 110 lbs. Price.... **$7.95**
288B1462—Complete, with fertilizer. Shipping weight, 135 lbs. Price.... **$10.35**

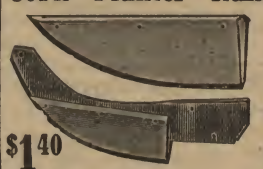
Shipped from factory in Indiana.

Disc Furrow Openers $3.75 Per Set

Intended to fit on the runner of any runner corn planter, to open up a wider and deeper furrow than the regular runner will make. Consists of two hardened steel disc blades, diameter, 11 in., that run on an axle fitted with an adjustable chilled box. The box is dustproof and carries an abundance of grease, is attached to runner by four steel set screws through a strong bracket that fits over runner. Especially desirable where dry weather is frequent, as the seed is placed deep where the soil is moist. A set consists of two complete attachments, one for each runner. Shipping weight, per set, 32 lbs. (Runner, Shoe and Seed Box shown in cut not furnished).

188B1472—Price, per set for two runners **$3.75**

Corn Planter Gauge Shoes



$1.65 Per Set

More Corn per Acre Insures Bigger Crops Saves the Seed. Every hill the Right Depth

A simple, all steel contrivance consisting of two runners with adjustable arches to attach to corn planter runners. Insures even depth, as it prevents the runners from going too deep into the ground. No matter how rough or irregular the field, the gauge insures uniform depth. Except when the soil is extremely wet, it will do satisfactory work in all kinds of soils and under all conditions. No danger of clogging with trash, as the construction of the runners is such as to throw off any rubbish it comes in contact with. The gauge is adjustable so that it can be raised or lowered for shallow or deep planting. Furnished in sets of two, one for each runner. Shipping weight, per set, 11¼ lbs.

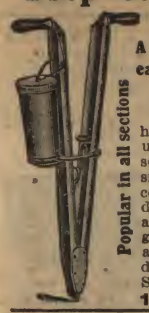
188B1466—Price, per set **$1.65**

Corn Planter Runner Repairs

$1.40

Repair your worn out corn planter runners, at small cost, thus making them practically as good as new.

Showing repair attached to worn planter runner.



Will fit any two-horse runner corn planter. Are easily attached by drilling three holes through the old runner. The wear on your runners is in one place and they therefore are usually the first parts of a corn planter to wear out. You cannot afford to discard your planter just on account of worn out runners. Get a pair of these. Make the runners as good as new, at a price away below any other method of making repairs. Made of extra hard, high carbon steel. Furnished with the rivets to attach. Shipping weight, per set, 11¼ lbs.

88B1478—Price, per set for two runners, including rivets **$1.40**

Our Circle Brand Dressing for leather preserves Harness. See Index

Seeders and Planters

New Eclipse Steel Rotary Drop Corn Planter 72c

Popular in all sections

A Steady Favorite

A most accurate, uniform, and easily operated small hand Corn Planter. Made of Steel.

Extensively used. This planter has a rotary drop, similar to that used in a horse planter, thus securing regularity. It is considered one of the best hand corn planters made. It has four discs, No. 1 to drop one grain at a time; No. 2 to drop two grains at a time, etc. Simply and well made. Full set of directions with each planter. Shipping weight, 8¼ lbs.

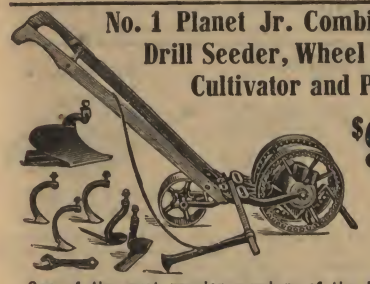
188B1500—Price **72c**

Triumph Corn Planter

60c

Reliable and Popular

Thousands Sold Each Year



An excellent Value at the Price

This planter has the slide drop. Very simple in construction. Does not clog. All working parts of iron; blades, of steel. Considered by many to be equal to higher-priced planters. It has always given satisfaction. Shipping weight, 4½ lbs.

188B1504—Price **60c**

188B1506—Price, with pumpkin seed attachment **85c**

No. 1 Planet Jr. Combined Drill Seeder, Wheel Hoe Cultivator and Plow

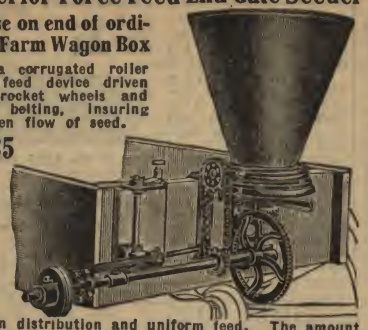
$9.00

One of the most popular members of the Planet Jr., family. As a drill, the seed is sown with great regularity in a straight and narrow line, at a uniform depth and regulated at will by a thumb nut. From a drill it is changed to a cultivator, etc., by the removal of two bolts. Is adjustable to a double wheel hoe, single wheel hoe, furrower, wheel cultivator and wheel garden plow. Furnished with parts complete, including plow, 3½ in. cut, one pair hoes with 6 in. blades, and three steel cultivator teeth. Hopper holds 3 pints. Shipping weight, boxed, 42 lbs.

188B1510—Price, complete **$9.00**

No. 25 Planet Jr., Combined Hill and Drill Seeder, Double Wheel Hoe, Cultivator and Plow

One of the excellent all purpose tools of the Planet Jr. line. A combination of the Planet Jr. No. 4 Drill and the No. 12 Double Wheel Hoe. Regularly furnished with all parts shown in illustration. Will drill any thickness or drop in hills, 4, 6, 8, 12 or 24 in. apart. Seed hopper holds 2½ quarts. Flow of seed may be stopped instantly by raising the handles; also by pushing down the index bar. Shipping weight, boxed, 64 lbs.



188B1514—Price, complete **$13.00**

Superior Force Feed End Gate Seeder

To use on end of ordinary Farm Wagon Box

Has a corrugated roller force feed device driven by sprocket wheels and chain belting, insuring an even flow of seed.

$8.35

Even distribution and uniform feed. The amount of seed can be gauged exactly and the flow will be uniform. The feed roller does not grind or crush the grain. The seeder can be thrown in or out of gear and the feed roller stops with the seeder. Two feed gauges regulate the amount of seed and swing on pivots at either side of the feed opening. They work independently, so the machine can be set to increase or decrease the cast on either side. This is a special advantage in wind. It sows the same amount per acre whether the horses walk fast or slow.

Furnished with end board to take the place of end gate; large sprocket wheel to attach to wagon wheel and all chains necessary to operate. Shipping weight, 110 lbs.

288B1516—Price **$8.35**

288B1518 — Grass Seed Attachment fitted to seeder. Shipping weight, 20 lbs. extra . . . **1.25**

Shipped from Warehouse near Chicago. . . .

Force Feed Hill and Drill Seeder

The right number of seeds in the right place. An easy and accurate worker that insures good crops.

A special favorite with onion growers. A Time and Money Saver on Garden or Truck Farms. Reversible Press Wheel for Ridge or Furrow.

$5.65

Any size seeds from Celery to Corn

A series of changeable seed cylinders with reamed holes to insure accurate, uniform drop.

Made of malleable iron and steel. Diameter of wheel, 16 inches. The push is directly on the wheel and the wheel pulls the machine. It runs easily and guides perfectly. A series of 8 seeding discs are furnished with reamed cups or cavities of different sizes to accommodate different size seeds. It will plant in hills and do perfect work with the various kinds and sizes of seeds from celery to corn. It will plant in hills from 4 to 28 inches apart in the exact quantity wanted. When changing from hill to drill there is nothing to put on or take off. The change is made in one minute. It is particularly adapted for drilling onions or beets. Furnished complete, with markers and wrench and shipped set up, crated, ready for use. Shipping weight crated, 58 lbs. Net weight, 45 lbs. Complete directions for operating with each machine.

188B1526—Price **$5.65**

Superior End Gate Seeder $5.65

A Wooden Platform furnished to take place of End Gate on Wagon.

Agitator Feed

Our Improved End Gate Seeder is of the cog-wheel, stirring pin type. Has a reliable seed indiciator by which it can be set to sow any quantity of grain desired. Is fitted with spring clutch to avoid jarring. Can sow any desired quantity full cast or half cast, right or left, and is not affected by any ordinary winds.

Will sow all kinds of grain, dry fertilizer, lime, salt, etc. The lever for throwing in and out of gear is on a clutch near the main gear wheel within easy reach. The cut-off and regulating valve are both in one, avoiding the possibility of getting out of order. With the team traveling at the rate of 2½ miles per hour, under ordinary conditions, this seeder will cast wheat from 40 to 44 feet; oats from 32 to 36 feet; barley 35 to 40 feet, and will sow 100 acres per day. Shipping weight, 95 lbs. Sprocket to attach to wagon wheel and all necessary chain regularly furnished.

288B1522—Superior End Gate Seeder. Price **$5.65**

Shipped from Warehouse near Chicago.

Body Weight Garden Tool

Reversible Press Wheel for Ridge or Furrow. Double Wheel Hill and Drill Seeder and Single and Double Wheel Hoe, Cultivator, Plow and Rake. No strain on the arms. Body does the work.

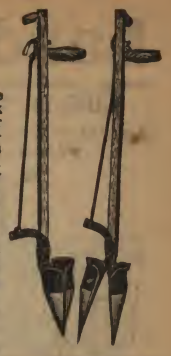
$9.10

AS A SEEDER, will drop in hills 4 in. to 24 in. apart, or in continuous drilling, all kinds of seed from celery to corn. A series of changeable seed cylinders with reamed cups or cavities to insure accurate, uniform drop. **Lever Cut-off** stops feed wheel instantly.

The Covering Wheel is a combination reversible wheel forming either ridge or furrow.

As a Cultivator the drill parts are entirely removed and a tool frame substituted. The cultivating attachments are smooth and polished steel.

Plows are for breaking, furrowing, filling or ridging. **Rakes** for first cultivation, leveling and weeding. **Cultivator Gangs** for breaking crust, fining, tearing up hard soil and for deep cultivation. **Hoes** for cleaning out between rows.

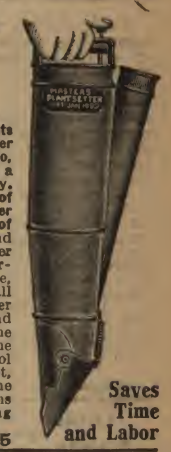


The drive wheels are steel. Diameter, 16 inch; tires, 1⅛ inch, and forged steel spokes. The breast yoke or weight bar relieves the strain on the arms and compels the weight of the body to assist in doing the work. Adjustable handles. Always shipped set up ready for use. Printed directions with each tool. Net weight, 70 lbs. Shipping weight, crated, 100 lbs.

288B1530—Price at factory in Ohio **$9.10**

188B1532—Price at our store **9.45**

Shipped either from our store or factory in Ohio.



Climax Plant Setter

Of especial value to the florist, nurseryman or truck farmer. Will do the work far better than by hand, in one-half the time, and with less than one-half the labor. Adapted for setting out or transplanting strawberries, tomato plants, cabbage, sweet potatoes, tobacco plant, shrubs, flowering plants, bulbs, etc. Can be operated by one or two hands. All metal parts are of hardened steel and handle of oak. Nothing to break or wear out easily. Will generally save its cost in one day's work. Shipping weight, packed, 4 lbs.

188B1536—Price . . **$1.45**

Masters Rapid Plant Setter $3.75

Saves Time and Labor

Will set, water and cover plants in one operation. Big time saver in setting out cabbage, tomato, tobacco and other plants. Has a capacity of 12,000 plants a day.

The conical jaws are made of heavy sheet steel and water reservoir and plant tube are of tinned plate; the water valve and plug are brass with rubber packing. It has been thoroughly tested, and sets cabbage, tomatoes, sweet potatoes, and all similar plants. It does better work than can be done by hand and several times as fast. The roots are deposited below the surface where the ground is cool and damp. The plants are set, watered and covered at one operation. Printed directions with every planter. Shipping weight, about 5 lbs.

188B1540—Price **$3.75**

Climax Hand Seeder 85c

We offer our Climax in competition with any other hand seeder that retails up to $1.50. It will distribute uniformly and operate easily. The distributor wheel is unusually large, throwing the seed very far to the round. Has double feed opening, which causes an even amount of seed to be dropped on both sides of the distributor wheel, at the same time insuring far more uniform distribution than when fed from one opening on one side. A stirring wire insures the seed being fed evenly. The gearing is especially true and close fitting. The bag holds about one-half bushel. Sows grass seed 27 to 36 ft. to the round; grain, 36 to 50 ft. to the round. Light running. Shipping weight, 3½ lbs.

88B1543—Climax Hand Seeder. Price **85c**

Cahoon Seeder $2.98

The one so much advertised. A first-class Crank Seeder

Will give long and satisfactory service.

Improved Seeder for sowing wheat, barley, oats, buckwheat, hemp, rice, grass seed, etc. Sows from 4 to 8 acres per hour at a common walking gait, throwing out wheat about 40 ft. wide. **Back and base is sheet steel; distributor brass, cast gearing, strong and durable. No parts to get out of order easily.** Shipping weight, 8½ lbs.

188B1546—Price **$2.98**

Lightning Wheelbarrow Grass Seeder

Especially Adapted For Alfalfa

A most economical and satisfactory grass seeder for limited work.

Thousands in satisfactory use.

$4.90

Has been thoroughly tried and tested in sowing clover, timothy, alfalfa, Hungarian millet, flax or crimson clover, with satisfactory results. Seed can be sown mixed or separate; any amount required per acre. The wheel is all steel, with broad tire. It is an invaluable implement for seeding when wind blows, because the wooden seed box is so close to the ground that the wind cannot affect the work. **Rope agitator regularly furnished; wire agitator if so ordered.** Full directions with each machine.

Weights 12 ft., 42 lbs.; 14 ft., 46 lbs.; 16 ft., 50 lbs.

188B1550—Price, 12 ft. At our store **$4.90**

188B1552—Price, 14 ft. At our store **5.20**

288B1554—Price, 16 ft. At Michigan factory **5.20**

288B1556—Double Hopper, to sow orchard grass and red top, extra **$1.20**

Shipped from our store or from factory in Michigan.

Climax Fertilizer and Lime Sower $26.65

8 Ft. Broadcast Screen in Hopper. 9 Bushel Capacity

Will broadcast lime, ashes, plaster, phosphates, nitrate of soda, and other commercial fertilizers. A new, improved machine, adjustable to broadcast from 300 to 3,000 lbs. lime per acre. Feed can be changed instantly while spreading. Has very light draft. Very strongly constructed. As a result, the work is rapidly and well done. All feed openings at the bottom of the box are at all times square, whether large or small feed is being used, thereby doing away with clogging trouble by small, hard particles that will stick in an oblong opening, but readily pass through a square hole.

The Climax Sower has a top that consists of a screen and hopper attached by hinges, and held closely by hooks. The screen insures against trouble from foreign substances entering the machine and mixing with lime or fertilizer. It sows evenly, has a light draft, and the quantity to be sown can be instantly changed without stopping, by simply changing the position of the feed lever at the rear and bottom of the hopper. Length of hopper, 7 ft. 7 inches.

Axle—1¼ in. diameter. Cold rolled steel and high carbon steel used exclusively.

Wheels are of steel, diameter, 30 in. Stronger and more lasting than wood. Concave tires. Width, 4 inches.

Patented Agitator is constructed by steel tubing and steel bars, formed and bolted together. Bars bolted around and not through the tubing. Furnished complete with tongue for two horses. (Extra charge for doubletrees and neckyoke.) Shipping weight, about 405 lbs.

288B1560—Without Doubletrees and Neckyoke. Price **$26.65**

288B1562—Doubletrees, singletrees, and Neckyoke for above. Ship. wt., 18 lbs. **$2.35**

Shipped from factory in Ohio.

Climax 7 or 9 Knife Stalk Cutters

For Cutting Corn and Cotton Stalks to Prepare for Plowing

Tool Steel Blades Will Cut Deep. 7 or 9 Knives.

One of the Strongest, simplest and most satisfactory stalk cutters made.

$19.45

7-Knife

Our Climax Stalk Cutter is built for cutting up corn stalks or any kind of stalks that it is desirable to chop up for fertilizing purposes. Cylinder head has adjustable chilled boxes. Diameter of wheels, 42 in.; width of tires, 2 in. Large, adjustable boxes which can readily be replaced if required. Controlling lever is long and gives considerable power, so that it is possible to readily throw the weight of the frame and the driver on the knives to make the blows more forceful. Blades or knives are of high carbon tempered steel, length 26 in.; width, 3½ in. The 7-knife cutter will cut stalks 13 in. long. The 9-knife cutter will cut stalks 10 in. long. Constructed of steel and malleable iron, and has great strength. The main arch is heavy, strong and substantial. It will not spring, break or bend in use. The forks for bringing the stalks in line for the knives can be regulated as desired, independent of the cylinder. Doubletrees or neckyoke not furnished. Average shipping weight, 395 lbs.

288B1566—7-knife cutter. Price . . **$19.45**

288B1568—9-knife cutter. Price . . **20.25**

Shipped from factory in Indiana.

Climax 8 or 10 Hoe Wheat Drills

8-Hoe $28.50

Made by one of the largest Seeding Machine Manufacturers in America.

Perfect in operation, accurate feed regulation, rubber tubes, metal Pin-Break Hoes with Steel points.

FRAME is made of heavy steel tubing. 42 in. Steel Wheels of heavy pattern, with 2½ in. tires. 1 5/16 in. axle, is cold-rolled solid steel. **Pin-Break Hoes** with spring pressure and suction points. The hoes go into the ground easily and clean themselves readily of trash. **Feeding Device is an excellent arrangement,** one side of the feeding cup being supplied with a journal or bearing on which the feed cup rotates and slides, giving an even flow of grain. Quantity of seed sown is regulated by lever on the back of the hopper. Spout connection to which the rubber tube is fastened extends well around the mouth of the feed, preventing the wind from interfering with the sowing. **Directions included.** No doubletrees or neck yokes.

We cannot furnish fertilizer attachment with this drill.

288B1572—Price, 8-hoe, plants 5½ ft. Shipping weight, 500 lbs. . . . **$28.50**

288B1574—Price, 10-hoe, plants 7 ft. Shipping weight, 550 lbs. . . . **33.00**

288B1576—Extra for detachable grass seed attachment (shipping weight, 50 lbs.) **$3.00**

Shipped from factory in Indiana.

Clipper 5-Hoe Wheat Drill

For drilling between corn rows or sowing grain with one horse.

Rear wheel depth regulator.

Can be adjusted while in operation.

Has excellent force feed, insuring even, steady flow of grain; lever to adjust from 34 to 41 in. width in operation. **Rear lift readily adjusts** to proper depth; fenders on handles protect operator from rubbing against corn stalks. Convenient lever throws machine in or out of gear. Illustration shows the drill with regular wood grain hopper; but when so desired can be furnished with additional Fertilizer Hopper at extra charge. 15 inch front, 6 in. rear wheels, iron.

288B1580—With grain hopper only, as shown above. Shipping weight, 160 lbs. Price **$11.00**

288B1582—With extra fertilizer hopper; shipping weight, 200 lbs. Price . **17.15**

288B1584—Equipment to sow long bearded, red, rust-proof oats in addition to wheat; extra wt., 6 lbs. **$1.35**

288B1586—Grass seed attachment, extra (shipping weight, 20 lbs.) **2.50**

Shipped from factory in Indiana.

You should feed your hogs Pilgrim's Medicated Salt—It's good for them

Land Rollers—Road Machinery—Scrapers—Drags

Climax Corn Roller

Heavy Steel End Hangers with One-Piece Oil-Soaked Maple Boxes.

Closed Steel Heads. Diameter Drums 24 Inches.

A comparatively new and practical combination tool that is fast becoming popular in all corn sections. Can be used as a regular land roller, length, 7 ft., or by removing the small section, will readily straddle a row of corn with 36 in. of rolling surface between each of the corn rows. The drums can be spread apart any desired width up to 12 in. A 3-section roller has two sections three feet wide, and one section one foot wide. It is customary to use the small section on one end, so that to transfer it for corn, it can readily be removed and the large sections spread apart. Special collars to hold drums apart for corn rowing regularly furnished. Heavy angle steel frame. Weight boxes easily made by using planks. Tongue made of oak and strongly braced with hitch pin underneath. Made in one size only.

288B1600—Steel Head Corn Roller. 7 ft. 3 section. Ship. wt., 540 lbs. Price **$18.50**

Shipped from factory in Ohio.

Champion Land Rollers

From one of the largest and best known manufacturers of Standard Land Rollers.

$14.60

Closed Steel Heads, and Open Cast Heads. 3x3 inch angle steel frame. 1¾ in. steel axles.

Our No. 1 Steel Head Rollers are exceptionally strong and practically unbreakable. Hangers are of heavy steel, stiff and rigid. Boxes and hangers are one-piece, oil-soaked and easy to renew. Diameter of drums, 24 in.; 12 gauge rims; 1¾ in. steel axle.

Climax Disc Pulverizer and Packer

$21.25 to $39.75

18-in. Deep V Discs. Oil-Soaked Maple Boxes 4x4x5 in. Heavy Angle Steel Frame. 1¾ Inch Steel Axle. 6 to 12 Foot Sizes.

The value of the surface packer is appreciated by the Western farmers, and is fast becoming popular in Eastern and Central States. Our Climax is the kind commonly used. It is full weight, standard in shape and design. The sharp, deep V discs are made of cast iron, diameter, 18 inches, and turn independently on heavy 1¾ in. high carbon steel axle. Hangers are equipped with oil soaked maple bearings. Heavy angles used in frame construction form a weight box, by which any kind of weights may be used by laying a plank inside. Tongue is made of oak with extra heavy braces. Made in six sizes. **Can also furnish with shallow V discs at same prices, if so specified in order.**

Climax Soil Pulverizer

Straight Teeth. 24 Inch Wheels. Removable Self-Oiling Boxes. 8 to 22 Sections.

$21.00 to $49.75

One of the most effective and popular Combination Roller and Soil Pulverizers. Besides crushing the lumps it leaves practically a smooth surface. Wheels are made of heavy cast iron, diameter, 24 in., and each wheel turns independently. Has special hitch in center, making the draft directly on the axle, also forming the center bearing and preventing axles springing. Seat adjustable to take weight from horses' necks. Frame of heavy, 2½x2½ in. steel angles, forming weight boxes. Oak tongue heavily ironed. Center pins through axle at end hangers to prevent springing.

Climax Soil Preparer

$28.00

Prepares the soil for retaining moisture. Insures quick germination, prevents blowing of seed, washing, rust and smut.

The **Climax Soil Preparer** will give you larger crops, make you more money, and can be made to pay for itself several times in one season, by saving seed from blowing; holding moisture; insuring quick germination of seed; saving delays in cultivating after rains; increasing your yield; giving your crops the full benefit of rainfall, and assisting you to obtain the full benefit of your season's efforts.

Frame is constructed of angle steel. All bolts provided with lock washers for preventing nuts from becoming loose. **Steel shaft,** diameter 1¾ inches. **Packer wheels and Mulcher wheels** of cast iron, diameter 17 inches; width, 3 inches. The Mulcher wheels work loosely between the packer wheels, and, due to the large number of spurs, some of which are always in contact with ground, causes the Mulchers to travel at a higher rate of speed, thus preventing dirt from packing between wheels.

No doubletrees, singletrees, or neck-yoke furnished. Tongue is furnished.

288B1670 — Soil Preparer, length 7 feet; shipping weight, 1,000 lbs. Price **$28.00**

288B1672 — Soil Preparer, length 8 feet; shipping weight, 1,100 lbs. Price **$29.90**

Shipped from factory in Western Illinois.

Climax Flat Board Scraper

Especially adapted to cut or fill ditches for sewer work and leveling. 48 IN. BLADE—EXTRA WELL IRONED Improved for 1916

$4.65

The wood used in its construction is seasoned oak, and handles have steam-bent holds, the same as are used on plows. The bit or cutting blade is of high carbon steel; width, 48 in.; depth, 6½ in., and thickness, No. 7 gauge. **The draw bars** are made of steel; width, 1¾ in. Heavy steel straps on the top and bottom under and above the plow handles, with bolts fastening entirely through the scraper handles and straps, makes the construction extremely rigid. **We do not know of a better scraper of the kind at any price. Shipping weight, 85 lbs.**

288B1680—Price **$4.65**

Shipped from factory in Ohio.

Climax Tongue Scraper

For Making and Leveling Roads, Cutting or Cleaning Ditches, etc.

No. 7 Gauge Steel Blade

$4.65 to $5.10

The heavy, No. 7 gauge steel blade used for cutting edge is of extra hard steel; width, 4½ in. The draw bars are made of steel, and shoes of malleable iron. **The wood work** is of well seasoned hardwood, securely banded and bolted; has hardwood tongue and cross beam, combination draw pin and wrench. Made in three sizes: 36 in., 42 in. and 48 in.

Climax Steel Drag Scrapers

With Runners

$3.50 And Up

Improved For 1916 High Sides, Deep Back

With Bottom Plate 40-Point High Carbon No. 11 Gauge Steel In Bowls

Equal to Some Scrapers that Sell at Retail at Double Our Prices

CLIMAX SCRAPERS give long and satisfactory service. The unusually low prices we ask for them do not necessarily indicate cheapness, but are the result of our sales reaching many thousands each year. By manufacturing in large quantities, the cost of production is reduced to the lowest possible point.

THE BOWL is made of No. 11-gauge high carbon steel in Size 10 and No. 10 gauge steel in Sizes No. 11 and 12. Has round back and curved bottom, therefore considerably less friction than the flat bottom scrapers. There are no bolts, nuts or clamps to encumber it. The bails on the Nos. 10 and 11 sizes are 1½x⅛ inch steel, and on the No. 12, 1½x⅜ inch steel; swivel link on each bail. Handle sockets are steel plates solidly riveted and never need renewing.

IN CLIMAX scrapers the bottom may be had three ways; without reinforcement, or with runners, or with bottom plate. When furnished with runners, scraper is fitted with two 1½x⅞ inch runners, attached to the bottom with countersunk rivets. **The bottom plate scrapers have large steel flat plates securely riveted and will give long and satisfactory wear.**

Climax Wheeled Scrapers $25.00 to $38.00

All Parts Made Heavy and Strong

From one of the pioneer road machinery manufacturers, with a reputation for quality. Wood hub or Sarven wheels. Will stand practically any strain. Bowls are made in one piece of high carbon steel, sides overlapping back, to which they are solidly riveted, making the strongest and stiffest kind of bowl.

Axles are fitted with adjustable malleable iron shields or sand bands fitting closely against the hubs, preventing sand and dirt getting in the spindle. The levers, braces, rods, chains, etc., are all made exceptionally heavy to stand the hardest kind of usage. **A special feature of our Climax Scrapers is that they have no peculiarly shaped irons or castings that disable the machine until repairs can be procured from the factory.** No parts of our Climax Scrapers that cannot be repaired in a country blacksmith shop. **Furnished regularly in four sizes,** other size furnished with wood hub or Sarven wheels. Snatch Rods furnished on sizes 2½ and 3 without extra charge.

Shipped from Factory in Ohio.

Climax Buck Scraper

The kind so largely used in the west. Will do any kind of work usually done by drag and wheel scrapers. Unsurpassed for making irrigation ditches, leveling land, building levees.

BUILT TO WEAR and stand the hardest kind of usage. High carbon steel body, wrought iron rods and fittings, hardwood drawbar, crossbrace and handle. We believe it equal to any similar scraper made, regardless of price. It has greater carrying capacity than other scrapers of this style, and its great strength and durability make it one of the handiest and most economical machines in the scraper line for the farmer or contractor. The load can be carried any distance and deposited in bulk or distributed evenly as desired. Runners can be adjusted to any angle required by the nature of the soil.

Climax Reversible Road Grader

HAS ANTI-SKIDDING DISC that can be forced into the ground by means of lever to prevent the machine from skidding towards the ditch when doing heavy work.

A One Man, Two Horse Grader. Built Entirely of Steel and Iron

$32.00

6 Foot Cutting Blade

Price Includes Steel Doubletrees

FOR LIGHT GRADING in new work, or in maintaining roads, the Climax Reversible Road Grader is preferable to the big, expensive machines that cost from two to three hundred dollars. It is also less expensive to operate, as two horses will handle it. Weight of machine, 600 lbs., and is made entirely of steel and iron. Width of front truck, 17 in. Diameter of wheels on front truck, 16 in. Main frame is made of 6-in. channel iron. Mouldboard made of steel, thickness ⅝ in.; width, 10 in.; length, 6 ft. Cutting blade is of tempered steel, thickness, ¼ in.; width, 6 in.; length, 6 ft. The rear wheels that carry the weight are exceptionally strong, with wide tires, diameter, 12 in. The hitch or main beam is angle steel and can be adjusted high or low.

Weight, 600 Lbs.

THE FRONT TRUCK has a castor or pivot action and the wheels will turn under the frame, making it possible to turn the machine in the space it occupies.

IT IS REVERSIBLE so that the earth can be thrown to the right or left. The reversing process is done by the team after the operator releases the pin that attaches the main draw bar to the [illegible] The unloosening is accomplished by a foot trip [illegible] circle frame.

CUTTING BLADE can be adjusted for [illegible] deep or shallow work, as desired, by the use of the levers convenient to the operator.

288B1740—Climax Reversible Road Grader complete. Shipping weight, 600 lbs. Price **$32.00**

Shipped from Factory in Ohio.

Steel Clad Stone Boats, $4.10 to $5.25

For moving implements, etc., without loading on a wagon.

The bent front part is made of No. 11 sheet steel, and the bottoms of hardwood, thickness 2 inches. The side rails and cross pieces are made of 2-inch hardwood and **firmly bolted to the bottoms.** Length of front steel plate, 16 inches, being bolted to the bottom.

	Size	Wt., lbs.	Price
288B1760—No. 1.	28 in. x 6 ft.	125	$4.10
288B1762—No. 2.	30 in. x 7 ft.	150	4.55
288B1764—No. 3.	34 in. x 7 ft.	175	5.25

Shipped from Factory in Michigan.

Who We Are

Our store is built on the best steel and concrete foundation engineers could design. It is built to stay. Our business is built on the best foundation the founders could think of. It also is built to stay.

Honesty, fair dealing, good values and real service to the customer are the foundation materials they selected nearly fifty years ago. The same policy carried out now and in the future will make us as many friends as it has in the past. The prices in this book are examples of the good values we offer.

Stone Boat Head $1.95

TO MAKE YOUR OWN STONE BOAT

To construct stone boat any straight plank can be used. Take three 10-in. boards and fasten with ⅝-in. bolts to the front. **The front has a shoulder for fitting the ends of the boards against.** Holes are drilled to receive the bolts for bottom boards and side strips. Cast in one piece. Shipping weight, 68 lbs.

188B1770—Price **$1.95**

Thousands of miles per year—our sales of Ajax Fencing.

New Climax Potato Machinery

Diggers, Planters, Sorters, Cutters

Climax Junior Digger

20-Inch Elevator, Steel Construction, Adjustable Shaker Screen

Steel Frame

$69.50

The **Climax Jr.** can be handled by two horses and is intended to meet the demand of small farms. It does the work equally well as larger diggers, but is built higher and not intended to stand the strain of four horses.

Main frame has channel steel sides which make it far superior to the cast frame diggers, being easier to handle, stronger and more durable.

The elevator chain is made of 7/16-in. crucible spring steel, each length being round and zigzagged, and each alternate being high and low. This method, together with the agitation produced by the agitator sprockets, keeps the elevator chain in a constant wavy motion, and loosens the soil from the potatoes before they reach the back of elevator.

Has lever at the right of operator for raising and lowering shaker screen that can be adjusted while machine is in operation. No need for the operator to change his position or to get off the machine.

We do not recommend the Climax Jr. for use with three or four horses. Where there is large acreage and it is necessary to use four horses we especially recommend the purchase of the Climax Senior digger, as it is built to stand the strain.

Width of elevator inside, 20 inches. Fork rower in the rear receives adjustment from both right and left main gears by means of rollers agitating against special shaped roller blocks. The rower or screen receives 16 jars or vibrations per revolution of the main wheel, and readily discharges potatoes, vines, etc., carried over the elevator.

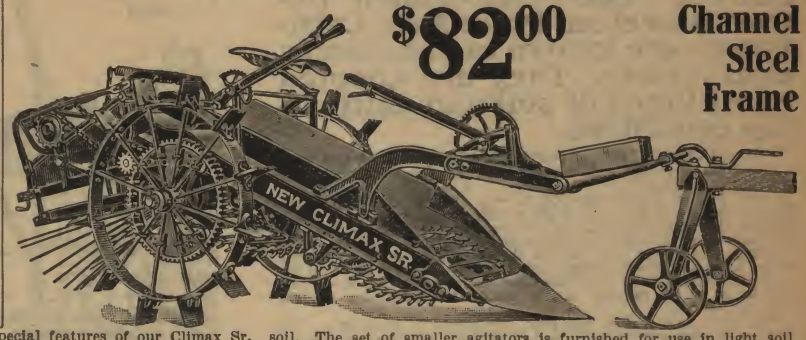
Plow Point is made of high carbon, soft center steel, thickness 5/16-inch, beveled to avoid going too deep.

Shaker Fork has spring steel tines, diameter 7/16-inch, and fastened to frame by threaded ends and nuts.

Furnished with lead tongue truck. Adjusting levers convenient to operator. 30-inch drive wheels with malleable traction arms. Shipping weight, 625 lbs.

288B1800—Climax Junior 2-Horse Digger. Price.....**$69.50**

Shipped from factory near Chicago.



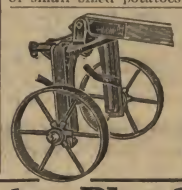
We ship our new Climax diggers to you with the understanding that they will do as good work under similar conditions as any other digger of equal size. The Climax Jr. is fully equal to any other two horse digger, and for a four horse digger, the Climax Sr., we believe, has no superior.

Test our Climax Junior alongside any other two horse digger. Try our Climax Senior beside any four horse digger made. We are confident that they will operate to your entire satisfaction.

Climax Senior Digger

$82.00

Channel Steel Frame



Lever Adjustment, Light Draft, Soft Center Steel Plow, Crucible Spring Steel Endless Carrier Chain

Steel Construction is one of the special features of our Climax Sr. It is far superior to the cast iron frame diggers that are clumsy and more difficult to handle. On the cast iron frame diggers the breakage of one piece means the renewal of practically the entire side frame, with big expense. The frame on the Climax Senior is made of channel steel, almost an insurance against breakage. As the front that connects the draft arms is of malleable iron, the danger of breakage or expense in procuring new parts is reduced to a minimum.

Lever Adjustment with special foot leverage permits the operator to easily control the machine.

Wheels, diameter 30 inches, are of steel with 1½-inch cold rolled steel axles. The main beams or draft arms are malleable iron, securely fastened to heavy, 5-inch steel channels in the frame, with the draft equally divided. Gears and pinions are interchangeable so that after becoming worn on one side they can be changed to the opposite side and are as good as new gears.

Endless Chain is of 7/16-inch round crucible spring steel, each alternate link being high and low, insuring perfect operation while in action. It passes over the special agitator sprocket and is in constant motion, causing the loosening of the soil before potatoes reach the back of the machine. Links are properly gauged to avoid the loss of small sized potatoes.

Agitators, in two complete sets, cause a constant wavy motion to the chains, practically insuring screening in the heaviest and hardest soil. The set of smaller agitators is furnished for use in light soil, reducing the amount of agitation. The change from the small to large agitators is at the option of the operator and depends upon the condition of the soil.

Plow Point is of the fin or turn-up type, of high carbon soft center steel, 5/16-inch thick. Is properly beveled and polishes easily.

Vine Carriers are governed by two large coil springs held by an adjustable rod to increase or decrease the tension. The vine carriers separate the vine from the potatoes and reduce the labor of picking materially, as the weeds and vines are thrown to one side and separated from the row of potatoes.

Pickers are arranged so that one or two teeth can be used as desired, one tooth being detachable.

Shaker Fork has tines of high carbon spring steel, 7/16-inch at base, and securely fastened to malleable side frame.

All power driving parts are key seated, avoiding weakness, lost motion, and insuring less breakage. Bearings, 4 in all, furnished with compression grease cups. **2-Horse Eveners regularly furnished.** Truck regularly furnished guides the machine and on level ground answers all requirements. For uneven or hilly ground a pivot axle truck that adjusts itself to the angle of draft or the grade of the ground can be furnished at extra charge in place of the regular truck. Width of digger inside elevator, 22 inches. Shipping weight, 975 lbs.

288B1805—Climax Sr. Four-Horse Digger. Price.....**$82.00**

Shipped from factory near Chicago.

Pivot axle truck as shown here is especially adapted for use in uneven soil, avoids the possibility of tipping or straining when turning the machine. Has a range of adjustment to meet all requirements. Diameter of wheels, 14-inch.

288B1810—Pivot Axle Truck in place of regular. Ship. wt., 95 lbs. Price...**$3.25**

Note—Much trouble has been experienced in the irrigated potato sections, and in some no digger has yet been found that will give complete satisfaction. In irrigated districts our Climax Sr. has proven efficient and it will positively give as good or better service than any digger manufactured in light or heavy soils.

See other pages for prices on four horse eveners.

Climax Self-Feed Potato Planter

With or without Fertilizer. Will plant 5 to 7 acres per day. Self Feed. Disc Covers. Drops from 10 to 20 in.

$37.50

Without Fertilizer

Adjustable Cups on Self-Feed Elevator to Suit Size of Seed

Our Climax Potato Planter, under another name, would readily be recognized as one of the leading planters on the market, having had years of test and trial under practically all conditions. It is now offered to you with the assurance that there are none superior to it.

Our Climax is equipped with dropping device that automatically carries the potato from the hopper, where it is dropped into the seed tube. The carrying cups are properly spaced on an endless chain, giving accurate spacing in the row. Cups are adjustable so that they can be readily adapted to the size of the seed, insuring one seed at a time, and every seed in the right place.

Six different sizes of sprocket wheels are furnished to make adjustments to suit practically all conditions. The six sizes of sprockets will permit drops of 10, 12, 14, 16, 18, or 20 inches apart. The sprockets relieve the necessity of adding links or taking links off the elevator chain when a change of distance is desired.

Disc covers have concave discs, diameter 14 inches, and attached to heavy malleable disc arms, fastened to the main frame by means of double ratchets. Disc covers can be adjusted to any angle desired easily and quickly. A powerful tension spring holds discs in ground at all times.

A V-shaped furrow opener made of hardened steel is also supplied with a tension spring, thus insuring proper opening of the furrow to prevent seed from rolling or jumping.

Has marker that is adjustable to mark rows from 22 to 40 inches, and readily changed from one side of the machine to the other by hand lever convenient to the operator.

Climax Planters are constructed largely of steel and malleable iron, hopper being made of heavy sheet steel with capacity of 2½ bushels. A slope is in bottom of hopper to keep the automatic feeder supplied. Wheels are steel, diameter 30 inches; axle, 1¼-inch cold rolled steel. Shipping weight, 400 lbs. Doubletree or neck yoke not furnished. See other pages.

288B1815—Climax Potato Planter. Price.....**$37.50**

A fertilizer attachment with a funnel-shaped hopper, having a capacity of from 100 to 125 lbs. of fertilizer and distributing through spouts on each side of the planter shoe, can be furnished when so ordered. Shipping weight, 30 lbs.

288B1820—Fertilizer attachment on potato planter extra. Price.....**$6.95**

Shipped from factory near Chicago.

Climax Potato Sorter and Grader

Large growers invariably sort or grade their potatoes, as the extra prices obtainable pay them well for the work of sorting and grading. The Climax sorter is operated by a swing arrangement, handles being attached to each side of the hopper frame. The agitation is produced by the swinging of the hopper.

Hopper has two screens, one of 2-inch mesh, and one of 1-inch mesh, each of heavy round wire. Screens are placed at an angle and can be adjusted as desired by a series of axle sockets, both front and back, permitting raising or lowering at either end. Wings are furnished to guide the potatoes into receptacles that are placed on front platform. Platform is adjusted to suit the size of container. Length of screens, 6 ft.; width, 2 ft. 6 in. Height, 5 ft. 3 in.; width, 3 ft. 4 in. outside measure. The lower beams are 2x4's formed into skids. A bail is furnished to which a singletree can be attached to move about as desired. Frame is put together with bolts; made of selected pine. Sorter will handle all that a man can shovel into it. Is adapted for field sacking or store-house grading. Shipping weight, 225 lbs.

288B1825—Climax Potato Sorter. Price, at factory near Chicago.....**$19.50**

Climax Potato Cutter

Rapid and Accurate

$1.35

Climax cutter has three cross and one center blades made of knife tool steel, and bolted securely to sides of frame that is intended to fit over basket, box, barrel, etc. Blades are adjustable for large or small seeds from 1-inch to 1½ inches square, and potatoes can be cut, ranging from 2 to 7 pieces. Double the number of potatoes can be cut with this machine over a knife by hand, and the cutting will be much more accurate and uniform. Knife blades readily removed for sharpening. Frame made of iron. Presser is made of wood, with large knob end. Shipping weight, complete, 8 lbs.

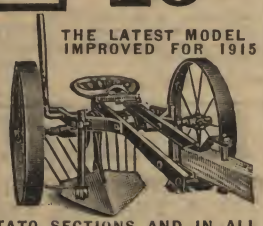
188B1830—Climax Potato Cutter. Price.....**$1.35**

Schofield Combination Potato Planter and Digger

Combined Planter and Digger

$23.75

Discs Adjustable for Hillside Work



Digger Only

$18.55

LEVER ADJUSTMENT

THE LATEST MODEL IMPROVED FOR 1915

Extra Strong Frame

IN SATISFACTORY USE IN ALL POTATO SECTIONS AND IN ALL KINDS OF SOIL. A BIG TIME AND LABOR SAVER. HEAVY CHANNEL STEEL FRAME, PRESSED STEEL SEAT.

A Combination Potato Planter and Digger that will do as good work in all kinds and conditions of ground as any other planter we know of, and at a lower price than any other combined tool of this kind. As a planter it marks, drops and covers all at the same time, and will plant, as desired, 13, 16 or 19 inches apart in a row by using different sized sprocket wheels which are furnished with each planter. **It will plant any depth desired** from 3 to 6 inches, **by raising or lowering the lever. The dropping is done automatically by the machine;** but a boy occupying the seat on the rear of the machine feeds the dropping device by hand, insuring more accurate dropping than can be done by the so-called self-drop planters. Covering discs are set to gather all the dirt thrown out by furrow opener, and can be adjusted to gather more or less dirt, or run deep or shallow. Wheels can be adjusted to suit different widths of rows. The other cut shows the tool arranged for digging, the digger attachment being mounted in the same manner. Can be set to run any desired depth and will not run too deep or too shallow. In digging, the operator rides and is in position to have perfect control over both team and digger. **Separator bars** allow the soil to pass through freely, raising the potatoes to the surface and leaving them in the best position to be picked. Hardwood tongue and hopper. Doubletrees or neck yoke not furnished. Shipping weight of the machine, complete, 255 lbs. Directions with each.

288B1835—Price Combined Planter and Digger.....**$23.75**

288B1837—Price of Planter without Digger. Shipping weight, 210 lbs.....**19.85**

288B1839—Price of the Digger only, without planter. Shipping weight, 205 lbs.....**18.55**

Shipped from warehouse near Chicago.

New Climax Shaker Potato Diggers

The combination vine lifter and distributor effectively distributes the vines on either side of the row and lessens weight on shaker. Well braced hardwood handles.

$10.40

Complete

No. 1—Single Beam Style will give satisfactory service when ground is not too wet to be handled by Shaker.

Our New Climax Shaker Diggers are excellent, low priced tools that are easily handled, and will give good service. Wrought steel beams, solid steel shovel.

The shaker at rear is flexible and keeps a continuous up and down motion while the digger is in operation. This motion screens the small particles of dirt through and holds up the potatoes to view. A paddle wheel under shaker bars agitates shaker. Works freely and satisfactorily, except when too heavily loaded by wet ground. Length of steel digger rods, 20 in., with hinge attachment, allowing free motion. The blade is made of crucible steel and will scour in any soil; handles have adjustable braces.

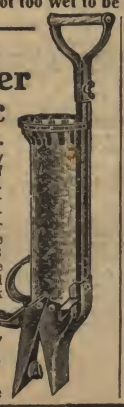
No. 2 Double Beam Style

$10.75

The No. 2 Double Beam Digger is especially adapted for sweet potatoes.

The gauge wheel truck makes easier to guide and less work for the operator and horses. Depth regulated on the gauge wheel attachment by adjusting side standards up or down. It straddles the hill and keeps the digger at uniform depth.

288B1846—No. 1 Single Beam Digger, complete with gauge wheel attachment. Shipping weight, 150 lbs.....**$10.40**



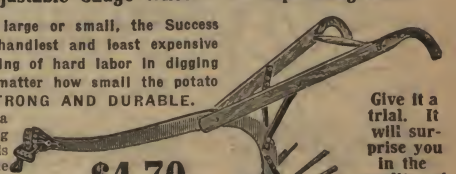
288B1848—No. 2 Double Beam Sweet Potato Digger. Shipping weight, 160 lbs. Price.....**$10.75**

Shipped from warehouse near Chicago.

New Steel Potato Planter

Saves much hard work. Plants quickly and uniformly. Adjustable Handle.

94c



This Planter is made entirely of steel with the exception of the hand hold which is wood. The beak is automatic or self-locking. The handle is adjustable and can be raised or lowered to suit the height of the operator. Diameter of tube, 3 in. It always deposits the potato at the proper depth and covers it uniformly. The beak is sharp and enters the ground easily. A well made planter in every respect. Shipping weight, 4¾ lbs.

188B1855—Price.....**94c**

Success Potato Digger

Extra Strong Beam. Adjustable Gauge Wheel. Six Separating Rods

Whether your potato patch is large or small, the Success will be found to be one of the handiest and least expensive tools. The low price and the saving of hard labor in digging by hand makes it desirable, no matter how small the potato field. EXTRA WELL MADE, STRONG AND DURABLE.

$4.70

Give it a trial. It will surprise you in the quality of its work.

Beam is of forged steel, extra strong and with high arch, avoiding any danger of clogging with weeds or potato vines. The shape of the point avoids a tendency to cut the potatoes and it throws them out of the ground in good shape for picking. **The handles are adjustable to height for deep or shallow planting.** Guides easily. **Gauge wheel** in rear can be adjusted to suit the depth. **The blade** is of hardened crucible steel, ground and polished; **the separating rods** are of wrought steel, reinforced in the center; adjustable clevis. Retails at $6.00 to $7.00. Shipping weight, 85 lbs.

188B1860—Price at Chicago warehouse.....**$4.70**

Every item in our Grocery List carries our guarantee of satisfaction

Detroit-American Riding Cultivators

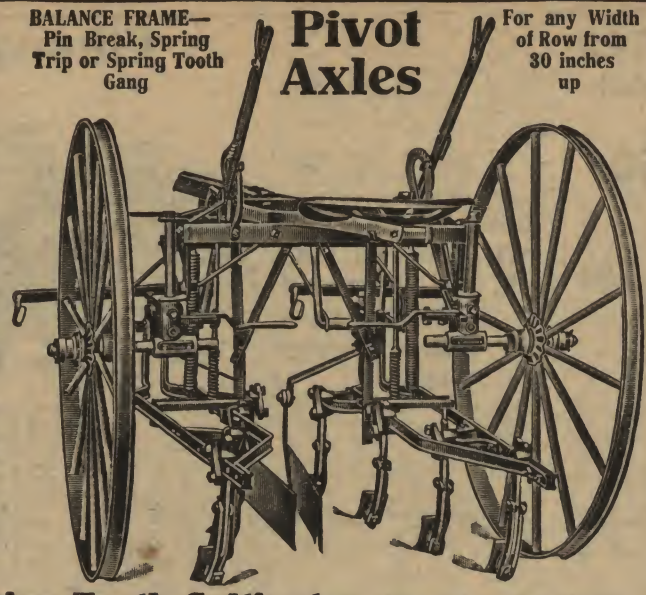
Formerly manufactured by the American Harrow Company, of Detroit. The well-known Detroit American Pivot Axle Cultivators are known in practically every state. They are adapted to all kinds of soil and cultivating conditions.

THE CONSTRUCTION is practically entirely of steel and malleable iron, the steel construction reducing the weight and increasing the strength.

THE PIVOT AXLE DEVICE is very simple. No complicated parts to get out of order. It is made with a small pivot base, which reduces the friction and makes the movement of the pivot shaft or axle very easy. The driver may give less attention to his team, as he automatically guides the machine through the pivoting or turning of the axles and wheels around any obstruction or irregularity in the row. Pressure of the feet on the short foot levers carries the wheels and gangs to the right or left, or brings them back in a straight line, as desired.

The pivot axle feature has great advantages in working crooked rows or turning around at the end of the row. It turns in a smaller space than rigid cultivators and makes it possible to cultivate closer to the fence. **Also adapted for hillside work,** as turning the wheels a little towards the hill the machine will hold closely in line. The frame may be locked rigid when desired.

THE FRAME is triangular shape, made of 2x⅝ in. steel. Nothing in the center of the frame to obstruct the view of the row.



THE LEVERS are of high carbon steel, 1½x⅜ in., and will not break. Lifting spring attached to the gangs gives a perfect balance and makes it easy to raise them or lower them into the ground.

The forward shovels are well in front of the axle, balancing the machine and making it easier to watch the row.

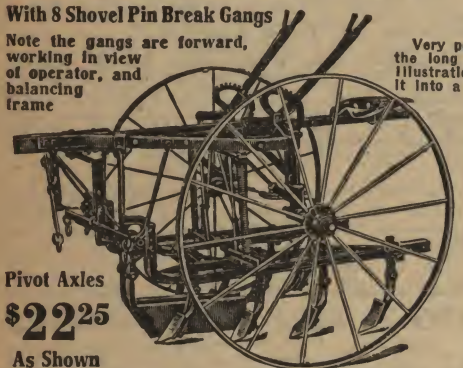
BALANCE FRAME—Pin Break, Spring Trip or Spring Tooth Gang

Pivot Axles

For any Width of Row from 30 inches up

We have secured the rights and privileges to market the Detroit-American Pivot Axle Cultivators. We will continue the high grade quality of material, the excellent construction and at lower prices than formerly asked by the American Harrow Company.

Either pin break or spring trip gangs with 4, 6 or 8 shovels, made of a high quality soft center steel. Shovels have swivel back so that they can be turned to throw the soil either to or from the row, or straight.



We recommend the 6 shovel spring trip gangs for all around work. The spring trip feature permits the shovels, when striking a root or stone, to spring back without danger of breaking the shovel or shank, and when it passes over an obstruction will spring again into place so that there is no need to get off the cultivator to adjust it.

The pin break gangs do the work equally well, except that they are more rigid, and when the teeth strike an obstruction that will not give, the wooden pin will break and necessitates putting in a new one.

The 8 shovel gangs will do excellent work in light soil where there is not much trash, but there is a little more tendency to clog up with trash than on the 6-shovel machine. Both the 6-shovel and 8-shovel gangs made either pin break or spring trip. Width of shovels on the 6-shovel gangs, 3½ in.; on the 8-shovel gangs, 2¾ in.

With 8 Shovel Pin Break Gangs

Note the gangs are forward, working in view of operator, and balancing frame

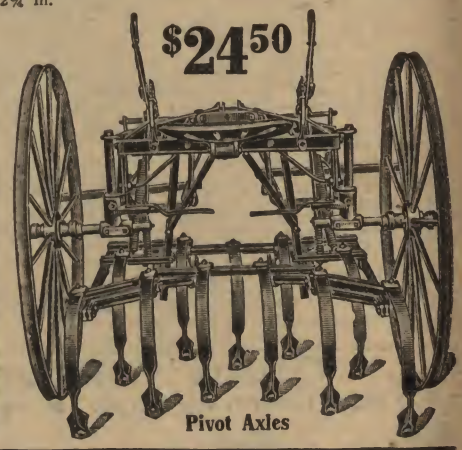
Pivot Axles

$22.25

As Shown

Spring Tooth Cultivator (Shown to the right)

Very popular in the Eastern States. Desirable in stumpy or stony ground, on account of the elasticity of the long spring teeth, permitting them to go over obstructions without damage to the teeth or machine. Illustration shows cultivator with two 4-shovel gangs and center section of three spring teeth, changing it into a spring tooth harrow. The center section is easily attached or removed, and when removed makes an excellent 8-shovel pivot axle spring tooth cultivator.



Wheels are steel, diameter, 48 in., with 2 in. channel steel tires. The width from outside to outside of wheels is adjustable and ranges from 45 to 57 in. The tongue is adjustable to height of team. The hitch and singletrees are of steel, without bolts or rivets, consequently nothing to wear out or break. Neck yoke and corn shields regularly furnished with each cultivator. The excellent balance on the machine will not permit the pole to fly up when sections are raised, and there is no neck weight on the horses. Seat is adjustable for height and distance from the foot levers. Average shipping weight of cultivator with pin break or spring tooth gangs, 410 lbs.; with spring trip gangs, 435 lbs.

For a more complete description of our D-A Cultivators, Diso Harrows, Spreaders, etc., write for our Detroit-American Implement Catalogue.

$24.50

Pivot Axles

Detroit-American Spring Tooth Cultivator

Made for Spring Teeth only. Not Furnished with Shovel Gangs

Exceptionally well adapted for level cultivation because there are five teeth on each one of the sections, with points set just tight enough to work all the surface. The teeth are positively controlled at all times by lock levers, because the gangs are movable on bails. Steel frame. Extra strong and durable. Nothing in the center of the frame to obstruct the view of the row.

The spring teeth work satisfactorily in light or heavy soils. Levers are high grade carbon steel, 48-inch steel wheels with 2-inch channel steel tires and dust-proof hubs. Pressed steel, adjustable seat. Oak singletrees and neck yoke and 8 ft. tongue, adjustable in height to suit team and weight of operator, giving perfect balance, and preventing neck weight. Gangs connected to front arch by malleable castings, allowing easy swing up and down or to the side. No tipping or twisting so that shovels run deeper on one side than on the other. Front coupling adjustable to any position of the front arch. Gangs may be spread by simple bolt and nut attachment, and easily done in the field with wrench which is furnished. Gangs moved from side to side by foot pressure in the stirrups. Each stirrup has upper and lower rollers, allowing easy gang guiding, thereby making it one of the "quickest dodge" corn plows. Sockets holding the corn arch are adjustable so that gangs can be set close together or far apart. Adjustable tension coil spring with lever connection permits easy lifting of gangs. Made in two widths, Narrow or Wide Model. The Narrow Model will not work good in rows less than 3 ft. apart, but does excellent work on rows from 3 ft. to 3 ft. 10 in. apart.

The Wide Model measures 64½ in. across tires with wheels set close to work rows 3½ ft. or more apart. With wheels extended to 84 in. across tires, will handle 3 rows of beans or other crops planted 28 in. to 30 in. apart, each gang working each full side of center row.

Narrow Model $21.60 Wide Model $21.75

288B1920—Detroit-American 10-Tooth, Spring Tooth Cultivator. For 3 ft. to 3 ft. 10 in. rows. Narrow Model. Shipping weight, about 415 lbs. Price..... **$21.60**

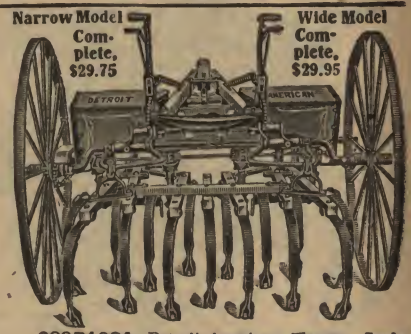
288B1924—5-Tooth center attachment to convert cultivator into 15-Tooth Harrow. Weight, 40 lbs. Price, extra..... **$2.70**

Detroit-American Combined Harrow, Seeder and Cultivator

A Combination 15-tooth Harrow, Seeder and Cultivator. Figure it out yourself. What would you pay for a good 15-Spring Tooth Harrow, a Broadcast Grain Seeder, and a 10-Tooth Cultivator? Then notice the price we ask for the machine complete with these attachments. A big saving to you.



The Force Feed Broadcast Seeder Attachment can be used on either the narrow or wide model Cultivator. Is fastened on the frame and does not obstruct the view from the seat. Is low down, so that the seed is discharged only a short distance from the ground. The indicator, showing quantity to be sown, and the lever regulating it are on the side next to the operator and can be set instantly for any desired amount. The feed mechanism is propelled by sprocket and chain driven from the left-hand wheel. The seed is discharged into four short spouts, each of which has at the bottom a convex-shaped plate, on which the seed falls and is thus scattered evenly over the surface of the ground. The seed is then covered just right by the spring teeth, the depth of which is determined by position of levers. Adapted for sowing wheat, oats, rye, barley, flax, peas, corn, etc., but not suitable for sowing grass seed.

To use as Cultivator, simply remove the center triple-tooth attachment, thereby converting the machine into a splendid Spring-Tooth Cultivator with Broadcast Seeder Attachment.

Furnished complete with tongue, singletrees and neck yoke, same as furnished with Spring-Tooth Cultivators.

For description of Narrow and Wide Models and of operating parts, see description of Spring-Tooth Cultivators.

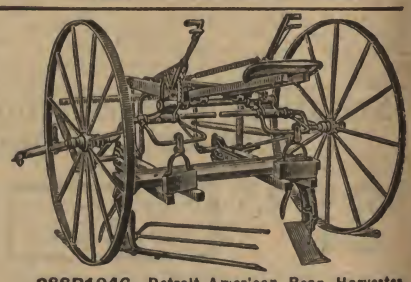
Detroit-American Bean Harvester



Does the Work of Several Men

Getting the bean crop harvested quickly, with the least possible expense and labor is of the greatest importance. Pulling beans by hand is a very slow, hard job, and very expensive; the beans must be harvested just when time is valuable and help scarce. With our **Bean Harvester** the problem is solved at a small cost.

By means of the rod on the patent flexible rolling dividers, the vines are gathered and brought together in a windrow at the rear, free from roots and dirt. The adjustment is simple, and may be easily operated from the seat, as to depth by means of the levers. Stone guards in front of the drive wheels.

For the convenience of those now possessing a Detroit-American Spring Tooth Cultivator, who may not desire to purchase a complete Bean Harvester, we quote the attachment separately. **It cannot be used with pivot axle cultivators.**

The Bean Harvester Attachment is easily and quickly put on in place of the spring-tooth gangs.

288B1946—Detroit-American Bean Harvester, complete. Ship. wt., about 465 lbs... **$20.50**
288B1948—Bean Harvester Attachment only. Ship. wt., 155 lbs..... **$9.50**

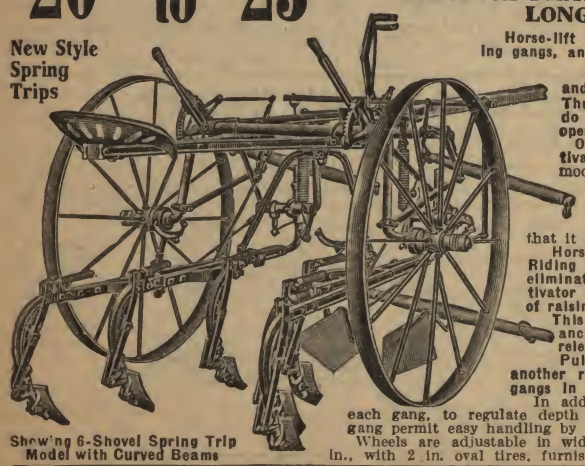
Pivot Axle Horse Lift



$20.50 to $23.75

New Climax Horse-Lift Riding Cultivators

BALANCE FRAME. ADJUSTABLE GANGS. LONG DISTANCE, OIL RETAINING HUBS.

SOFT CENTER SHOVELS. IMPROVED FOR 1915. STEEL FRAMES, AXLES AND BEAMS.

New Style Spring Trips

Showing 6-Shovel Spring Trip Model with Curved Beams

Horse-lift allows the horse to do the work of raising and lowering gangs, and balancing cultivator.

Not necessary for operator to raise one gang at a time, and then balance cultivator at the end of every row. Thumb latch releases balancing lever, and lets the horses do the work. One of the simplest, handiest and easiest operated balance frame Riding Cultivators.

Our New Climax for 1915 is a leader of Riding Cultivators. It has all the desirable features of the most modern cultivators, including horse-lift, balance frame, adjustable wheels, ease of operation, excellent construction and material, and at prices considerably less than the leading similar cultivators are sold for at retail. We feel that our New Climax will please you. We know that it embodies the most desirable features for cultivating.

Horse-lift feature, one of the most important in modern Riding Cultivators, is especially attractive to the operator. It eliminates raising the gangs one at a time, and balancing cultivator at the end of every row. The horses do all the work of raising and lowering the gangs, and balancing the cultivator. This is accomplished by releasing the thumb latch of balancing lever, placing the work directly on the horses. The releasing of lever saves three operations on other cultivators. Pulling the balancing lever back into place and starting another row, automatically balances the cultivator and places gangs in action again.

In addition to the balancing lever, a lever is furnished for each gang, to regulate depth of plowing. Strong, adjustable coil springs on each gang permit easy handling by the operator when in the ground.

Wheels are adjustable in width from 44 to 52 in. Diameter of steel wheels, 42 in., with 2 in. oval tires, furnished with long distance oil-retaining hubs.

Can be furnished with either curved or straight beams, as desired. Larger illustration shows curved beams with improved 1916 compound lever spring trip gangs, Smaller illustration shows straight beams with pin break gangs. We especially recommend our spring trip gangs, as our new style forward coil spring-governed shovels, with compound lever action, are, we believe, unsurpassed. Shovels are made of an excellent grade of soft center steel, and will scour in any soil. Each cultivator furnished complete with whiffletrees, neck yoke, shields and handles to use as a walking cultivator, when desired. Average shipping weight, 450 lbs.

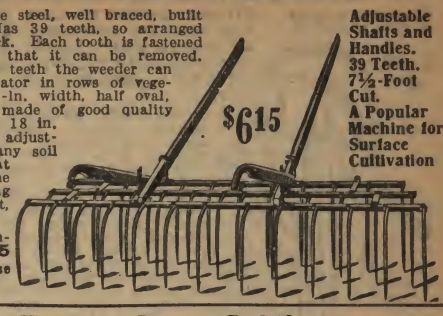
Showing Straight Beams, Pin Break Gangs

Read the Truth about Paints in our new Paint Book. Write now for copy

Superior Walking Cultivator



When cultivating, has no tension on the gangs; when raising, springs do the work. Adjustable to different width of rows and for varied depths of plowing. By the distribution of weight and the application of springs a balanced machine is produced. Furnished with either pin break or spring trip gangs. Spring trips are the new, improved style; forward spring coils and compound lever action, afford smooth action and high-lift over obstructions. Tension of spring coils is adjustable. Extra strong lever action. We believe that our new spring trip action is unsurpassed. Adjustable lock centers allow different settings of handles.

Complete with fenders, tool box, singletrees and neckyoke. Equal to cultivators usually retailed for $18 to $20. High quality, soft center steel shovels, adjustable steel wheels and arch; strongly braced steel frame. Ship. wt., 240 to 280 lbs.

Climax Steel Frame Weeder

Frame is made of angle steel, well braced, built light but very strong. Has 39 teeth, so arranged that the teeth do not track. Each tooth is fastened with a separate clip, so that it can be removed. By removing some of the teeth the weeder can also be used as a cultivator in rows of vegetables, etc. Teeth are ⅞-in. width, half oval, with round points, and made of good quality spring steel; height, about 18 in. Shafts and handles are adjustable. Can be used in any soil and will be found of great benefit in pulverizing the top crust around young plants. Shipping weight, 95 lbs.

288B2012—Price, complete.....**$6.15**
Shipped from warehouse near Chicago or factory in Ohio.

New Climax Surface Cultivator

Surface cultivation is fast becoming popular in all the corn growing sections. The blades do not cut the roots of the corn but work the top surface only, thoroughly pulverize it and keep it moist. The New Climax, we confidently believe, is the equal of any surface cultivator made. It is made entirely of iron and steel, very easy to operate, and has no neck weight. The gangs and arch are flexible, and adjustable to the different widths of corn. Arch is high and strong, and each gang is released with a lever operating on sliding ratchets, and within easy reach of the operator. Wheels, diameter, 42 in., with 2-inch oval tires, are adjustable from 42 to 46 in. width. Wheels supplied with dust-proof, oil-retaining boxes. Length of knives, 22 in. on cutting edge and 24 in. on outside. Made of high carbon crucible steel. Each knife can be set independently of the others, allowing them to be placed in any desired position. Knife castings are fitted with lugs, preventing operator from laying the lugs too straight. The levelers are the rake tooth pattern, with inner sheet guard, and are adjustable so that they can be regulated to the pressure desired, and at any angle to insure a level, pulverized surface, regardless of the kind of soil. Seat is adjustable to suit height or weight of operator.

The range of adjustment adapts our New Climax Surface Cultivator to all kinds of soils. It is easy on the team, easy on the operator, and its many adjustable features permit better work.

288B2014—New Climax Surface Cultivator. Complete with whiffletree, neckyoke and shields. Shipping weight, 430 lbs. Price.....**$21.90**
Shipped from warehouse near Chicago.

Superior Tongueless Cultivator

Always a favorite. We distribute hundreds of these little cultivators to our customers every season, at a saving of $4 to $5 each. **Has high, double wrought-iron arch,** 26 inch. steel wheels, with 3 in. tires, direct hitch and adjustable couplings. **The beams are adjustable** to different width rows and can be raised or lowered by reversing beam coupling casting. **The hitch** gives absolutely free motion to each rig, independent of the other, compelling each horse to do an equal share of the work. **Has four 5-in. soft center steel curved shovels,** which are interchangeable and adjustable to any desired pitch, so as to throw the dirt either to or from the corn, thus insuring good work. **Beams and legs made out of No. 1 seasoned white oak. Fenders, drag bars, singletrees and wrench included.** Retailers ask $14 to $15. Shipping weight, 180 lbs.

288B2016—Price, with four 5-inch shovels.....**$10.45**
Shipped from warehouse near Chicago.

Climax Corn Mulcher $6.45

For working between rows of corn. Especially desirable in sections where the top soil tends to cake or harden in dry weather. It destroys small weeds, makes a good dust mulch, leaves surface without furrows or ridges. Hand lever to adjust depth. The mulcher is an oval band of steel, with cutting edges on each side that can be reversed when one side becomes worn. Heavy hardwood frame, steel operating parts. Width of hoop in center, 30 in. Foot rest in front enables driver to guide machine. Two 8-inch rear wheels carry the weight. Front wheel used in transporting or turning corners. Shipping weight, 92 lbs.

288B2018—Price, complete, with singletree for one horse.....**$6.45**
Shipped from factory in Northern Indiana.

HAND AND HORSE CULTIVATORS

Mayflower No. 3 Cultivator

Adjusts from 10 to 26 inches in width

For Cultivator complete with 5 3-inch Shovels, Horse Hoes, Long Handle Braces and Lead Wheel

One-horse Lever Cultivator, complete, with 5 cultivating shovels, horse hoes, long handle braces and lead wheel.

The horse hoe attachment consists of a right and left hand hoe and a center shovel. The hoes can be set at different angles and can be arranged to throw the dirt to or from the plants. Steel frame is strong, rigid and full braced. Handles have the long braces as well as the V-brace. Shovel standards are steel, forged to shape and will not bend or break in the cultivation of the most stubborn soil. Width of shovels, 3 in., and are reversible, that is, can be turned when worn. Shipping weight, 60 lbs.

188B2020—Price, complete.....**$3.45**

Chicago, Jr., Single and Double Wheel Hoe, With Steel Plow, Cultivator, Rake and Weeder

Especially desirable for onion cultivation. Made entirely of steel and iron, except the handles, which are of oak. The arch frame is of steel; tool bars are adjustable in width as well as to any desired angle. **The arch** is high so that corn and other crops may be cultivated on both sides of row at same time until 22 in. high. Then, using the machine in its one-wheel form, crops of any height may be cultivated. The wheels are steel, height 16 in., with 1⅛ inch tires. **Handles** are attached to center of wheels, using all the power direct, and drawing the tools, instead of pushing them. We **furnish a full outfit of standard tools:** two plows for breaking, furrowing, covering, marking, and hilling; two 6-in. hoes (for general cultivation—more used than any other tool); two rakes (for fining, leveling and first cultivation); and six cultivator teeth (for deep work, also for cultivating between rows when hilling). Shipping weight, 40 lbs.

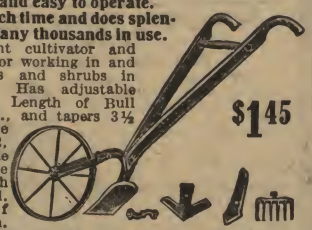
188B2022—Price.....**$4.20**
188B2024—Spring tooth weeder for above extra. Shipping weight. 8 lbs.... **.85**

Mayflower No. 2 Cultivator

Can be adjusted by use of the lever to suit the width between rows while the cultivator is in motion. The steel frame is strong, rigid and full-braced. The shovel standards are steel, forged to shape, and will not bend or break in the cultivation of the most stubborn soil. Width of shovels, 3 inches, double pointed, and can be turned when worn. Will scour in any soil. Long handle braces to make handles rigid and prevent wobbling furnished at extra charge. Shipping weight, 55 lbs.

188B2026—Price.....**$2.40**
188B2028—Long Handle braces. Shipping weight, 2½ lbs. Extra.....**15c**
188B2030—Lead wheel, shipping weight, 5½ lbs. Extra.....**30c**

Diverse Cultivator with Lever Expanders



Almost indispensable in the cultivation of corn, cotton, potatoes, etc. By throwing one lever forward and the other back, the cultivator is converted into a right or left side harrow for hill work. With center tooth removed, it will straddle the rows. Can be opened to a width of 33 inches. Equipped with 2-inch reversible shovels bolted to ends of the 7 teeth. Shipping weight, about 55 pounds.

188B2032—Diverse Cultivator. Price....**$3.70**

Dexter Cultivator

Light, strong and easy to operate. Saves you much time and does splendid work. Many thousands in use.

An excellent cultivator and garden plow for working in and around plants and shrubs in the garden. Has adjustable iron frame. Length of Bull tongue, 12 in., and tapers 3½ to 1 in. The sweep 8x12, turning blade 5x12. Rake and wrench also included. Diameter of wheel, 18 in. Shipping weight, 18 lbs. Retail price, $2.50.

188B2034—Price, complete.....**$1.45**

Climax Cultivator, Hoe and Plow

Body does the work. Hands guide the tools. Flexible tool frame. Light running Push bar drives and propels cultivator.

Being hinged at the axle and the frame, the cultivator can be shifted from right to left without changing the course of the wheel. Operator pushes the cultivator with the weight of his body, while his hands are free to guide the machine. Diameter of wheel, 18 inches. The attachments furnished are five spring steel cultivator teeth, one right hand hoe or weed cutter and one large right hand plow. Shipping weight, complete, 23 lbs.

188B2036—Price, complete.....**$2.15**

Challenge Garden Tool

21-in. steel wheel, all steel frame, bent hand holds, adjustable handles, power direct on axle, easy to handle.

Light, handy, convenient, adjustable all around cultivating tool. The power being directly on the axle, it guides easily, keeps to uniform depth better and requires less power than tools with handles connected to frame; high wheel aids materially in light running; Steel frame is light, but very strong. Attachments are turning plow, rake, calf hoe, 8 inch sweep, and wrench. Tools can be be adjusted on standards to the different heights for shallow or deep cultivating. Handles can be raised or lowered. Shipping weight, 20 lbs.

188B2040—Price, complete.....**$1.85**

5 in 1 Garden Tool

A great labor saver. Rear wheel gauges depth, steel frame, steel wheel. Much easier to guide than a single wheel tool.

Handles attached to front axle, have the effect of pulling on the tool frame. The attachments can be readily adjusted; diameter, front wheel, 18 inches, rear wheel, 14 inches. The attachments furnished are sufficient to cultivate almost any garden crop and include one reversible bull tongue, three cultivator teeth, one sweep, one turn-shovel, one rake and wrench. Shipping weight, 25 lbs.

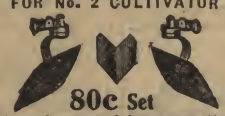
188B2042—Price, complete.....**$2.45**

Mayflower No. 4 Cultivator

Complete with 5 3-in. shovels, 3-horse hoes, lever wheels and rear wheel depth regulator.

Same cultivator as No. 2, except that it is fitted with ideal horse hoes; rear wheel depth regulator and outside handle braces. It can be set to the various depths by the wheel lever. This rear wheel depth regulator will relieve operator from all strain in holding cultivator and from running too deep. Used also for transporting from field to field. Depth may be regulated while in motion. Turns easily at the end of the row. By the lever expander the width also can be changed instantly from 10 to 26 inches. Complete with outside handle braces. Horse hoes can be set to throw dirt to or from plants. Adjustable to any angle. Especially adapted for hilling. Shipping wt., 85 lbs.

288B2038—Price, complete.....**$4.30**
Shipped promptly from stock at Chicago or from factory in Ohio.



CULTIVATOR SWEEPS

Will fit all Mayflower Cultivators. **For flat cultivation** and adjustable to run deep or shallow. **Made of high carbon crucible steel,** and will not bend with ordinary usage. Little Giant 14-Tooth Lever Harrow

It thoroughly pulverizes, but throws no dirt on the plants. It is also used as a smoother with the sharp points down in order to cut and level the surface. The teeth with shovel ends down are less liable to injure the plants. For very close work every other tooth can be removed. The teeth are diamond shaped, can be reversed, adjusted up or down and the slant changed as desired. Size teeth, ½x⅝x11 inches. Strong steel frome, steel handle braces. Can be adjusted in width from 10½ to 33 in. Shipping weight, 55 lbs.

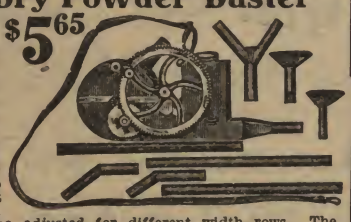
Climax Combination Sprayer

$3.60

Fits any pail or bucket and can be attached to barrel. Extra large air chamber gives almost continuous spray.

Very handy, inexpensive, general purpose sprayer. Lever handle makes easy operation. For whitewashing, fine or coarse spraying. **Will throw a solid stream 40 feet, horizontally.**

A good, medium, all around pump. A little lighter than the regular barrel pump, but just as effective. More powerful and more durable than a regular bucket pump. Its wearing qualities are of the best, as it is constructed almost entirely of brass. The lever handle works much easier than the plunger handle furnished on bucket pumps. Adapted for the various kinds of tree, bush, shrubbery or garden spraying, washing windows, whitewashing poultry houses, etc. Regularly furnished with removable malleable iron stirrup for use with bucket. Also connecting plate to use on barrel, 3 ft. of ⅛ in. hose and a combination brass nozzle for fine mist spraying, coarse spraying or stream. Has barrel plate to fit ordinary barrels. Directions for operating. Shipping wt., 11 lbs.



188B2106—Price, complete . . **$3.60**

188B2176—Bordeaux Nozzle, for whitewashing. Wt., 4 oz. **48c**

Geared Dry Powder Duster

Distributes any dry Powder, Paris Green, Hellebore, Dry Bordeaux Mixture, Bug Death, Etc. For Farm, Garden, Vineyard or Tobacco Fields.

$5.65

Will cover two rows at a time as fast as the operator can walk. Can readily be adjusted for different width rows. The reservoir holds over 1 quart of powder or 4 pounds of Paris Green. The duster is provided with an agitator producing a constant flow of powder, which is blown out by the fan; also a gauge for regulating the amount of powder to be used. Suitable for dusting trees when tubes are connected. The side arms and gear are made of cast iron and the gauge of brass. Balance of the machine is made of heavy tin, nicely painted. Regularly furnished complete with shoulder strap, three tubes, two nozzles, one Y and two elbows. Instructions with each machine. Net weight, 6 lbs. Shipping weight, about 10 lbs.

188B2108—Geared Dry Powder Duster. Price **$5.65**

Brass Bucket Spray Pumps

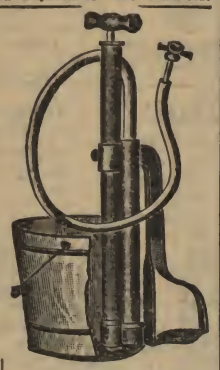
All nozzles are brass and have ¼-inch thread, unless otherwise stated.

No matter how little spraying you have to do, the brass bucket sprayer is the one for long and efficient service.

The American Pump is double acting; that is, it works on both the up and down stroke, giving a continuous spray or stream.

The Climax and Peerless Pumps are single acting, giving pressure on the down stroke only, the upper stroke taking the spray into the cylinder. They do not give as continuous a spray or stream as the double acting pump. The Peerless is made more powerful and durable, has heavier material, larger cylinders, additional hose, and is equipped with the celebrated Peerless nozzle.

The American and Climax are supplied with fire nozzle to throw a horizontal stream 40 feet. All have solid brass ball valves, and adjustable foot brackets.

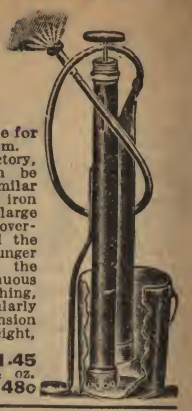


American
$2.05
188B2100

Has brass cylinder and plunger, double acting continuous spray or stream. 3½ ft. hose. For all kinds of spraying or for fire fighting. Combination fine and coarse spray nozzle; solid stream fire nozzle (see additional description above). Shipping weight, 5¼ lbs.

Climax
$1.95
188B2102

Double brass tubes. Single acting. Ball valves. Complete with 3½ ft. hose and Imperial combination nozzle for fine or coarse spray, or solid stream. (See additional description above.) Shipping weight, 6 lbs.



Peerless
$2.95
188B2104

1⅜ in. cylinder; agitator; 4 ft. of ½ inch hose. Nozzle for fine, medium or coarse spray. Very durable. Many in use 15 years, and still doing good work. (See additional description above.) Shipping weight, 8¾ lbs.

88E2176—Bordeaux Nozzle for Whitewashing. To use with any of our brass bucket pumps. Also suitable for general spraying. Easily cleaned and adjusted. Weight, 4 oz. Price **48c**

New Boss Bucket Sprayer

For general spray purposes, whitewashing, sprinkling, washing windows, vehicles, etc.

Has Imperial Combination Brass Nozzle for Fine or Coarse Spray and for Solid Stream.

One of the most economical and satisfactory, low-priced bucket sprayers made. Can be used in any pail, bucket or vessel of similar size. The main tubing of galvanized iron with top and bottom of brass. Has large air chamber and ball valves. Has an overflow that carries back into the pail all the liquid that gets above the plunger. Plunger is easily removed for cleaning. Due to the large air chamber the pump gives a continuous stream or spray. Excellent for whitewashing, as well as all kinds of spraying. Regularly furnished with 3 ft. of hose and extension pipe. Has steel foot stirrup. Shipping weight, 2½ lbs.

188B2110—New Boss Sprayer **$1.45**

88E2176—Bordeaux Nozzle, Weight, 4 oz. For whitewashing **48c**

American Sprayer and Fire Pump

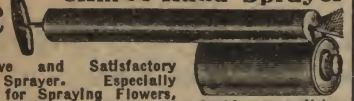
Will do all your Spraying and is always ready to fight fire. 4 gallon and 6 gallon sizes.

For whitewashing and general farm spraying. Will meet the different requirements satisfactorily.

For Fire Protection, with fire nozzle, throws a solid, horizontal stream 40 ft. The stream begins as soon as the pump is operated. Within ten seconds a stream can be turned on a fire.

Pump is double acting, forcing spray or stream on both up and down stroke. Has brass cylinders, brass ball valves and brass connections. Tanks are heavy galvanized steel or heavy gauge copper, as ordered.

Regular Equipment consists of tank and pump complete with two brass nozzles, one for fire purposes and one for fine, medium or coarse spraying. Spray nozzle screws on holder opposite hose connection when not in use.



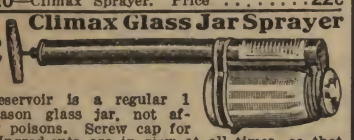
188B2112—4-gal. size, with galvanized steel tank and 3 ft. of hose. Shipping wt., crated, 12 lbs. **$3.00**

188B2114—6-gal. size with galvanized steel tank, 3½ ft. hose and 2 ft. extension pipe. Shipping weight, crated, 15 lbs. Price **$3.90**

188E2116—6-gal. size, with all copper tank. Shipping wt., crated, 14½ lbs. Price **$5.90**

Climax Hand Sprayer

22c



Effective and Satisfactory Little Sprayer. Especially Adapted for Spraying Flowers, Plants and Bushes. Extremely valuable as a disinfector in the house. Reservoir holds 1½ pints. Has screw top for filling. Its fine, mist-like spray covers a large radius. Made of heavy tin. Ship. wt. 20 oz.

88B2120—Climax Sprayer. Price **22c**

Climax Glass Jar Sprayer

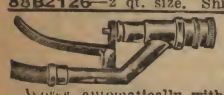
36c

The reservoir is a regular 1 quart Mason glass jar, not affected by poisons. Screw cap for filling. Ingredients are in view at all times, so that the operator can see just how they work. Has long air chamber with expansion plunger. Suitable for spraying plants, bushes, and young trees. Directions with each. Weight, 1¾ lbs.

88B2122—Price, each **36c**

Peerless Compressed Air Hand Sprayer

All parts easily removable for cleaning and adjusting. Two nozzles, for fine or coarse spraying. Two sizes.



For spraying bushes, plants, atomizing in homes, etc. Compresses the air, giving a continuous spray. 1 quart size, made of tin, painted red. 2 quart size, made of galvanized steel.

88B2124—1 qt. size. Ship. wt., 1¼ lbs. . . . **48c**

88B2126—2 qt. size. Ship. wt., 2 lbs. **74c**

Climax Lever Nozzle

No Liquids Wasted

Works automatically with hand and fingers. Will not clog, as obstructions are agitated and forced out simply by pressing lever. Made of brass, threaded to fit ¼ inch pipe. Weight, 12 oz.

88B2164—Climax Lever Nozzle. Price **85c**

Climax Angle Spray Nozzle

Made of Aluminum

An exceptionally good nozzle for general purpose spraying. Is very light. The angle curve readily enables user to get under leaves or reach difficult places. Has hard rubber whirl and two steel discs, one for coarse and one for fine spraying. Threaded for ¼ in. pipe. Weight, 2 oz.

88B2168—Price **55c**

Armstrong Brass Whitewash Nozzle

Two holes tapering towards each other, so that when whitewash or other fluid is flowing under pressure, one stream against the other, a broad, flat, brush-like spray is produced. If the nozzle becomes clogged, it is simply necessary to turn the lever key half way around, blowing out the sediment instantly. The stem is threaded to receive ¼ inch pipe. Wt., 5 oz.

88B2172—Price **30c**

New Bordeaux Nozzle

Brass

For whitewashing, cold water paints and spraying. Makes a flat fan spray. For ¼ in. pipe. Wt., 4 oz.

88B2176—Price, each **48c**

Vermorel Nozzles

Single Spray, threaded for ¼-in. pipe.

Brass. Easily cleaned by pressure on thumb cap while spraying. Two nozzle caps, for coarse and fine spraying. Wt. 4 oz.

Vermorel Nozzles

Double Spray. Made of brass, threaded for ¼ in. pipe. For wide spray. Each cluster has two caps, one for coarse and other for fine spraying. Weight, 8 oz.

88B2184—Price . . . **$1.00**

No. 66 Compressed Air Sprayer

Manufacturer's List Price, $7.25

Especially adapted for Whitewashing, Paris Green and Cold Water Paints. Non-clog nozzle, has needle cleaner points. Operated instantly by lever.

Brass Pump. Tank made of heavy galvanized steel with double seamed head. Capacity, about 3¾ gallons. Shoulder straps for carrying. Safety valve.

To our knowledge there is no similar sprayer of equal capacity superior to it. The brass lever nozzle alone retails up to $1.50. The workmanship is excellent, and with a little care this sprayer will give long and satisfactory service. We especially recommend it for light spraying and for regular home use. Has 2 feet of half inch hose, with brass connections, coiled spring on hose near tank. Connection prevents flattening and damage to hose. Carefully packed. Shipping weight, 9 lbs.

188B2188—Price **$3.20**

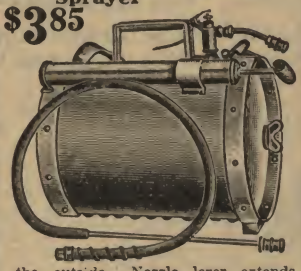
Armstrong Compressed Air Sprayer

3, 5 and 8 Gallon Sizes

Tank is made of galvanized steel. Riveted top and side seams. The powerful pump is seamless brass. When tank is two-thirds full, two operations of air supply will empty it. With tank one-third full of solution will spray from 10 to 15 minutes with one filling of air. Especially designed to thoroughly mix whitewash, cold water paints, Paris Green, etc. Furnished with spray nozzle and shut-off, with two tips, one for fine mist, and other for coarse, heavy spraying. Shoulder strap on each. One carrying handle on 3 gallon size; 2 handles on 5 and 8 gallon sizes. Capacities are actual, but tanks hold one-third more for air. Shipping weights, 12, 16 and 18½ lbs., respectively.

188B2128—3-gal., with 3 ft. hose **$3.30**

188B2130—5-gal., with 4 ft. hose **3.95**



188B2132—8-gal., with 6 ft. hose **4.60**

88B2172—Armstrong Whitewash Nozzle. Wt., 4 oz. **30c**

New Blizzard Compressed Air Sprayer

New, handy and effective small Sprayer

$3.85

Can be carried in the hand or on shoulder straps. Adapted for all kinds of spraying, except trees. Convenient and effective. Tank is made of heavy galvanized steel, with aluminum finish. Strongly riveted. Pump is on the outside. Nozzle lever extends through hand hole, so that it can be carried and the spray operated with one hand.

Equipment consists of pump of seamless brass tubing; 3 feet of ⅜ inch spray hose; 12 inch extension rod; brass lever valve; Imperial combination spray nozzle, for fine or coarse spraying; brass under-spray extension, for spraying under leaves; shoulder strap for carrying.

188B2136—Capacity of tank, 4 gallons. Shipping weight, 12¼ lbs. Each **$3.85**

Wizard Compressed Air Sprayer

Considered one of the best low-priced Compressed Air Sprayers. For Spraying Potatoes, Plants, Vines, Small Trees, Cattle; Sprinkling Lawns; Extinguishing Fires, Washing Windows, Buggies, Disinfecting Sick Rooms, Etc. Adapted for properly Spraying Whitewash when ordered with Whitewash Nozzle.

$2.10

Tank is made of brass or heavy galvanized iron, with convenient handle for carrying. Holds two gallons. Pump is on the outside, easy to get at for cleaning and adjusting. Plunger leather is provided with a patent spring expander. Will hold pressure from 10 to 12 hours. Has safety valve to prevent bursting. Furnished with rubber hose, length, 2 feet, and brass automatic shut-off spring nozzle. Will throw a continuous stream 15 ft. high, or a coarse or fine mist-like spray. **Directions for operating.** Shipping weight, 6 lbs.

100-lb. Drums shipped from factory in New York.

Standard Fly and Germ Killer

Protect your Cattle and Horses from the torture of flies during the Summer months. Invaluable at Milking time.

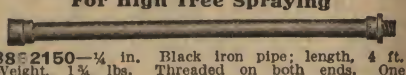
A liquid preparation for protecting stock from the torture of flies, and for exterminating germs and insects on poultry, hogs, and other stock. It is a thorough disinfectant and germicide, and harmless to the stock. Spraying lightly twice a day will keep flies off both horses and cows alike and relieve them from the worry of pestering insects. Directions for use with each can. Can be used with any of our sprayers. Put up in one gallon cans only. Not mailable.

88B2214—Per gal. can, boxed. Shipping weight, 10 lbs. . . **68c**

188B2220—6 one gal. cans in case. Shipping weight, 60 lbs. Price, per case **$3.65**

Spray Hose

Rubber hose for spraying purposes. Made especially to withstand action of poisonous solutions. We carry an excellent grade, and furnish any length desired.



88B2140—⅝ in., 3-ply hose. Will stand up to 100 lbs. pressure. Wt., 50 ft., 6 lbs. Price, per foot **7c**

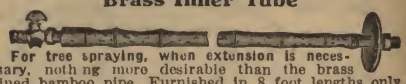
88B2142—½ in., 3-ply. Will stand up to 130 lbs. pressure. Wt., 50 ft., 9½ lbs. Price, per foot **9c**

88B2144—½ in., 6-ply. Will stand up to 250 lbs. pressure. Weight, 50 ft., 11½ lbs. Price, per foot **12c**

Pipe Extensions

For High Tree Spraying

88B2150—¼ in. Black iron pipe; length, 4 ft. Weight, 1¾ lbs. Threaded on both ends. One coupling. Price **20c**



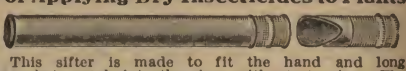
88B2152—¼ in. galvanized iron pipe; length, 4 ft. Weight, 1¾ lbs. Threaded on both ends. One coupling. Price **25c**

88B2154—Brass Rod Extension. ¼ in. Length, 3 ft. With coupling. Weight, 4 oz. Price **40c**

88B2156—Shut-off or Stop-cocks. Made of brass. Threaded at both ends to receive ¼ in. pipe. Wt. 5 oz. Price **35c**

Bamboo Extension Pipe

Brass Inner Tube



For tree spraying, when extension is necessary, nothing more desirable than the brass lined bamboo pipe. Furnished in 8 foot lengths only, complete with brass shut-off, nozzle connection at end, and drip plate, preventing drippings from the tree or nozzle from running down the rod. This feature is especially desirable. Standard ¼ in. thread. Shipping weight, 5 lbs.

188B2160—Price, 8 ft. size, complete **$1.90**

Climax Long Tube Sifter

For Applying Dry Insecticides to Plants

This sifter is made to fit the hand and long enough to reach into the vines without stooping. The perforated end is also a scoop. Can be removed and used to fill the tube with the dusting material to be applied to the plants. Made of heavy tin. Length, 26½ in. Capacity, dry powder, 1 pound. Shipping weight, 12 ounces.

88B2225—Tube Sifter. Price **40c**

Handy Blow Torch

For exterminating the Tent Caterpillar on fruit or shade trees. Made of solid Brass, including Brass Pump for compressed air. Operates with Gasoline.

Useful for many other purposes, such as soldering cans, pails, or other articles made of tin. The steady, hot blue flame can be controlled at the will of the operator and directed so accurately that worms' nests can be quickly cut out of trees, burned up entirely, or dropped to the ground where the worms may be crushed without injuring the trees. Set on a pole the torch may be carried to the highest limbs of trees. Holds 1 pint. Will burn for about 2 hours. No pole furnished. Shipping weight, 1½ lbs.

88B2230—Handy Blow Torch. Price **$1.95**

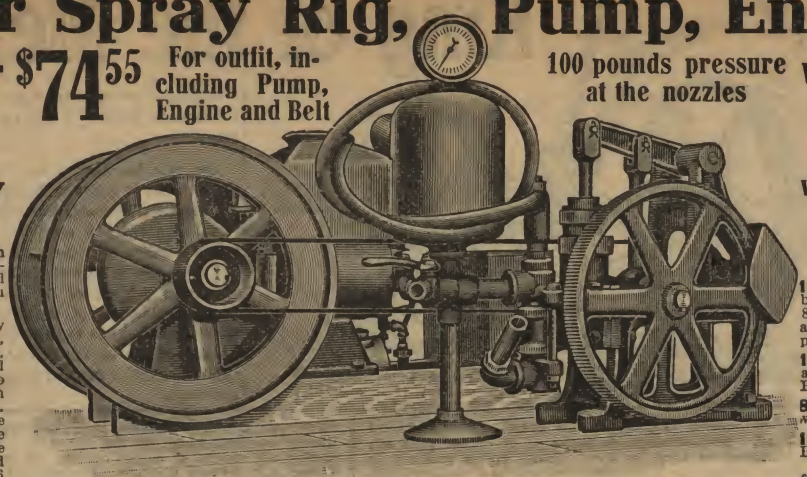
Funnel Strainer

Funnel and Strainer combined. For straining spraying mixture into barrel. The funnel is made of heavy block tin and the strainer of brass strainer cloth. Diameter at top, 9 in. Diameter at spout, 2 in. Depth, 7 in. Shipping weight, 1 lb.

88B2235—Price, each **60c**

Climax Power Spray Rig, Pump, Engine and Belt

A simple, sturdy outfit to be used with any tank



Can be mounted on any farm wagon

Nearly every buyer wants a spray rig fitted up his own way. With the Climax you can order hose, nozzles, extension rods and other accessories to suit your ideas, and fit up the Climax Power Spray Rig in just the way you want it.

PUMP SPECIFICATIONS: The Climax Power Spray Pump has a single acting cylinder, diameter, 2¼ in., stroke, 3½ in. The piston or plunger is a bronze casting, and is outside packed. It has bronze ball valves and bronze valve seats, both valves and seats being easy to get at by removing two bolts. The large air chamber can be removed for cleaning without the use of special tools. Main frame and gears are made of semi steel. Gears have machine cut teeth and run smoothly and with very little noise. Pump is equipped with a brass ball relief valve which returns excess liquid to the tank when the desired pressure is reached. Cast iron drive pulley, diameter, 6 in., face, 4 in. Pump is furnished complete with air chamber, pressure gauge, relief valve, 8 ft. of 1 in. suction hose, 5 ft. of ½ in. relief hose, and two-way discharge cock. Shipping weight, about 110 lbs.

$74.55 For outfit, including Pump, Engine and Belt

100 pounds pressure at the nozzles

Engine. The illustration shows our one horsepower, water cooled, Dairy Maid engine, which is sufficient to operate the pump and supply two large nozzles with 100 lbs. pressure. Engine weighs about 225 lbs. For complete description see engine pages. The outfit, as shown, measures: width, 34 in., height, 26 in., length, 5 ft. Shipping weight, complete, about 340 lbs.

With a one horse power engine, pump will supply two large nozzles and keep up a pressure of 100 lbs. at the nozzles

With a two horse power engine, pump will supply four large nozzles with 100 pounds pressure or two nozzles with 200 lbs. pressure

188B2300—Climax Power Supply Pump with air chamber; pressure gauge; relief valve; two-way discharge cock; 8 ft. of 1 in. suction hose; 5 ft. of ½ in. relief hose; and one 6 in. pulley. No discharge hose or nozzles. Shipping weight, about 110 lbs. Price **$46.00**

188B4975—1 H. P. Dairy Maid engine; shipping weight, about 225 lbs. Pulley, 4x4; speed, 500 R. P. M. Price **$27.75**

88B2303—8 ft. four-ply canvas belt; width, 3 in.; weight, about 4 lbs. Price **80c**

188B2305—Complete outfit, including Pump, Engine and Belt. Price **$74.55**

For discharge hose, nozzles, extension rods, and other fittings, see opposite page.

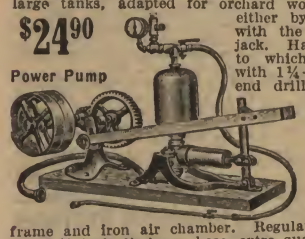
For 2-horse Engine to operate Pump with four nozzles, see Engine pages.

Shipped promptly from stock at Chicago.

Climax Hand and Power Pumps for Spraying

Hand Pump is surprisingly easy to operate. The long leverage of handle and convenient position enable operator to keep up pressure with less exertion than with many pumps not half so powerful.

Power Pump can be operated by any small engine of one horse power or more.



$16.75

Has 2¼-inch brass cylinder, 5½-inch stroke. Solid brass ball valves and removable brass valve seat. Large auxiliary iron air chamber. An excellent high pressure power pump for orchard work. Adapted for all kinds of spraying, whitewashing, etc. Will handle any kind of liquid that can be formed into spray.

A low priced and exceptionally powerful spray pump with large tanks, adapted for orchard work. Can be operated either by hand or belt power with the addition of a pump jack. Has extension on piston to which handle is attached with 1¼-inch wide slotted iron end drilled for ½-inch bolts, to which any pump jack with a stroke of 5½ inches or less can be attached. Handle is easily removed to use with power and replaced quickly.

$24.90

Has strong iron frame and iron air chamber. Regularly furnished with 10 ft. of ½-inch discharge hose, extra quality, that will stand a pressure of 300 lbs.; 3 ft. of spray pipe with shut-off cock; adjustable spray nozzle for fine or coarse spraying; one length suction hose, diameter, 1 in.; length, 5½ feet, complete with strainer; also 200-lb. pressure gauge. Complete directions for operating and for connecting the pump jack regularly furnished. Net weight, 70 lbs. Weight, boxed for shipment, 85 lbs.

188B2312—Climax Hand and Power Sprayer. Without pump jack. Price **$16.75**

188B2314—Climax Hand and Power Sprayer with relief valve. Complete with pump jack (as in large illustration) with base. Has 12-inch, tight and loose pulleys, mounted on wood platform. Wt., 170 lbs. Price **$24.90**

188B2316—Brass Two-Way Cock, to attach two leads of hose. Weight, 2 lbs **$1.70**

Climax General Purpose Sprayer

Whitewasher and Fire Protector

$5.50

For use with Barrel, Bucket, or any kind of Tank or Vessel not higher than a Barrel. For all kinds of tree and bush spraying. For whitewashing poultry houses, washing windows, etc. For applying cold water, paints or whitewash no better pump of its size to be had.

Has suction hose with strainer on end to spray from bucket, small tank or barrel. Has two extra strong iron legs with screw slot, so that it can be screwed to a small platform or plank on which the bucket or barrel rests, and can readily be moved about as desired. Made entirely of brass, except base, legs and handle. Has brass solid ball valves and brass valve seats. Exceptionally forceful and very easy of operation. Regularly furnished with 8 ft. of ⅜ in. discharge hose with shut-off cock; 6 ft. of spray pipe; 1 spray and 1 solid stream nozzle; 5 ft. of suction hose, with strainer and 1 follower wrench. Shipping weight, boxed, 28 lbs.

188B2336—Price, Complete Outfit $5.50

Climax Paint Sprayer

High Pressure. Adapted for various kinds of spraying, as well as paints

Will satisfactorily spray mineral, graphite, oxide, whitewash, or pure oil paints and flat colors

Will not spray lead paints

$6.80

Equally suitable for general farm spraying, including medium size trees, small fruits, field crops, disinfecting, etc. It will easily develop up to 100 lbs. pressure.

The pump cylinder is seamless brass tubing, diameter, 1¼ in. Brass ball valves and seats. All brass air chamber. Tank is 6 gallon size, made of heavy galvanized steel.

Regularly equipped with 10 feet of ⅜ inch discharge hose; shut-off cock; follower wrench; and spray nozzle. Especially adapted for paints and whitewash. For fine mist, bush and tree spraying the Vermorel and angle nozzles, quoted on opposite page, are recommended. Shipping weight, crated, 30 lbs.

188B2370—Price, complete $6.80

Climax Barrel Spray Outfit

Compact and durable spraying outfit for hand use that does as good work as many of the big power sprayers mounted on runners or wheels. Easily transported with one horse. The right outfit for small orchards. Low-down, high pressure hand pump outfit.

The Climax Outfit will do a great amount of spraying. Constructed to be practically free from trouble. The pump is on the outside. Outfit is exceptionally strong and durable. Built to give long service.

THE PUMP is double acting, with 3-in. brass-lined cylinder, brass valve-seats, brass piston rod, and packing nut. Tested to a pressure of 150 lbs. Can readily be removed to use for other purposes.

BARREL holds about 48 gal. Has galvanized steel mechanical agitator with dashers that actually churn the solution at the bottom of barrel so that there is no danger of sediment settling. **SLED AND TRUCK** are framed in and bolted together. The barrel is bound to frame at both ends with strong iron bands. Suction pipe extends down close to bottom of barrel and is fitted with copper strainer. Hose is ½-inch specially made for spraying purposes. With the 10 ft. extension pipe the tallest fruit trees can be thoroughly sprayed. The large capacity of the pump necessitates only a few strokes of the handle to put the solution under high pressure, and continues the spray several minutes after the pumping ceases.

$19.50 On Runners

$25.50 On Wheels

288B2320—Outfit mounted on runners. Complete, with 20-ft. hose; one each spray, sprinkler and solid stream nozzle; one 10-ft. extension pipe, with brass handle stop cock. Wt., 220 lbs. Price **$19.50**

288B2322—Outfit mounted on trucks in place of runners. Transported by hand or with one horse. Otherwise exactly the same as above. Shipping weight, 270 lbs. Price **$25.50**

Shipped from factory in Indiana.

Climax Heavy Work Barrel Sprayer

For big capacity, easy operation, continuous spray, you need our CLIMAX. Strictly high grade. New for 1916. Retails at $16.00. Price

$11.90

Brass Cylinder, 2¼ inch diameter, Brass Ball Valves and Valve Seats, Paddle Agitator, Combination Ajustable Base Plate, for Attaching to Either Side or Head of Barrel.

For Large or Small Orchards, Vineyards and Shrubbery, For Whitewash or Cold Water Paints

Our New Climax Double Acting Sprayer has proven a great favorite among the fruit growers on the Pacific Coast, who are the most critical orchardists, and insist upon having the best machines. Has all the elements of long-wearing construction. is easily cleaned. Double acting, making a continuous spray. Considering the large capacity, it is easily operated. Will readily supply two leads, or nozzles, and much easier than the big, cumbersome pumps that are made mostly of cast iron. Diameter of cylinder, 2¼ in. submerged, requiring no priming. By removing two bolts the valve is accessible, making the pump easily and quickly cleaned. The stroke on lever handle is adjustable by removing one bolt. Made almost entirely of brass, it will give long service. Sufficiently light to be easily handled.

Regular equipment consists of 15 feet of ½-in. high-grade hose; one brass Y, so that two leads can be used, if desired; adjustable base, or barrel plate, with removable cap for filling without removing pump, and to attach to either side or head of barrel; adjustable handle for long or short stroke, paddle agitator working on every stroke of the pump handle; and Vermorel nozzle, with long stem for coarse or fine spraying. (Bordeaux nozzle for whitewashing extra.) Shipping weight, complete, boxed, 76 lbs. (Barrel not furnished.)

188B2340—Price, complete, with one lead of hose **$11.90**

188B2342—Price, complete with two 15-ft. leads of hose and nozzles **14.60**

88B2176—Bordeaux Nozzle. For whitewashing, or cold water paints. Weight, 4 oz. Extra ..... **.48**

Climax Whitewasher and Sprayer

No. 1 Size. Capacity equal to 20 men with brushes.

No. 2 Size. Capacity equal to 10 men with brushes.

Will handle equally well whitewash, cold water paints, mineral oil paints, or any similar mixture except lead paints. For all kinds of spraying. No. 1 size, or larger machine, for big work such as orchard spraying, whitewashing or cold water painting, in factories, stockfarms, etc. No. 2 size, similar but smaller. Directions furnished.

No. 1 Size—(as shown in illustration). Has strong iron frame. Galvanized steel air chamber, 4½x18 inches. Brass cylinder, diameter, 2 inches; stroke, 3½ inches. Brass plunger rods, solid brass ball valves, and valve seats. Furnished with 200-pound pressure gauge; sieve for straining lime; 20 feet of half-inch five-ply discharge hose, with couplings; three feet spray pipe, with shut-off cock; one length of suction hose; one spray nozzle, with extra tip. Mounted on wooden platform.

188B2365—Shipping weight, 100 lbs. Price **$23.80**

No. 2 Size—Similar to No. 1, except has all brass air chamber, 3x16 inches. All brass cylinder, diameter 1¾ inches; stroke, 3½ inches. Ten feet of half-inch, five-ply discharge hose with couplings; three feet spray pipe.

188B2367—Shipping weight, 80 lbs. Price **$15.50**

Newcomer Barrel Spray Pump

Double-Acting, Brass Nozzles, Brass Cylinders, Brass Valves, Brass Valve Seat, Paddle Agitator. Easily and quickly attached to any barrel. Patterned after and with all the qualifications of high grade barrel pumps that sell at retail for $12 to $15.

$6.20 Complete with hose Prompt Shipment

For various kinds of spraying, including orchards, vineyards, shrubbery, or for whitewashing dairies, poultry houses, etc.

All working parts are submerged in a liquid and require no priming. The pump is made of heavy brass. All valves and valve seats are made of good quality brass and will not corrode or rust. It is fitted with a paddle agitator connected to pump rod and operates with movement of the pump handle. An excellent agitating device.

One lead of ½-in. hose furnished regularly.

Vermorel nozzle has two caps, one for fine and one for coarse spraying. (Two leads can be attached to pump by use of Y and extra hose.) Shipping weight, boxed, 42 lbs.

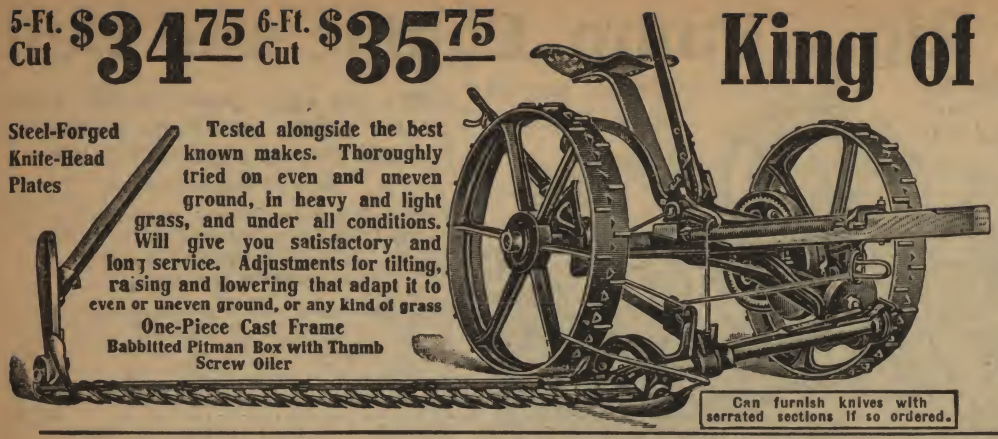
Climax Wheelbarrow Sprayer

Especially desirable for orchard, potato or field crop spraying, white washing, disinfecting, etc.

Capacity 10 gallons.

Our Wheelbarrow Sprayer is well balanced; light of construction, but strong; has a large wheel, diameter, 16 in., which permits of its being easily moved over rough or soft ground.

It is well adapted for florists' use. The width of the machine being but 15 in. at the widest point, allows it to pass through the narrow passageways of greenhouses.



Has 1¼ in. brass pump cylinder; bronze ball valves; valve seats, and all working parts, of brass; and iron air chamber, all securely bolted to a 10 gallon galvanized steel tank or liquid container. The machine is equipped with dasher agitator, which at each operation of the pump handle clears the suction strainer of any collection of sediment and thus prevents clogging. Furnished complete, as illustrated, with 8 feet of ⅜ in. discharge hose, and couplings; 3 feet of ⅛ in. iron extension pipe, and nozzle for fine or coarse spraying. Can be used for spraying whitewash without danger of clogging. Handles are steel, rigidly bolted to the tank. Shipped knocked down, but easily and quickly put together. Shipping weight, crated, 60 pounds.

188B2360—Wheelbarrow Sprayer. Price **$10.45**

King of the Meadow Mower

Steel-Forged Knife-Head Plates

Tested alongside the best known makes. Thoroughly tried on even and uneven ground, in heavy and light grass, and under all conditions. Will give you satisfactory and long service. Adjustments for tilting, raising and lowering that adapt it to even or uneven ground, or any kind of grass

One-Piece Cast Frame

Babbitted Pitman Box with Thumb Screw Oiler

Can furnish knives with serrated sections if so ordered.

When you purchase our King of the Meadow, you can be sure of a big saving over retail prices.

For over ten years there has been a continued effort to improve, and wherever possible to overcome, any objectionable or weak features. We are now convinced that our King of the Meadow will not take second place to any other mower in light or heavy grass, even or uneven ground, or in lightness of draft. Seat is behind the cut, convenient to the levers and placed so as to balance the weight on the wheels and not on the horses' necks. Seat is adjustable either forward or backward to suit the driver.

Our prices mean a saving to you of $10.00 to $25.00 over retail prices, depending on your location. This saving is easily accounted for in the expense of salesmen, canvassers and middlemen, which you pay when you purchase at retail. We eliminate all this expense. Only one profit. The mower comes from the factory to you. **The King of the Meadow** is not a new mower or an experiment in any way. There are over 18,000 of them in satisfactory use. We believe that it is equal to any other mower made, regardless of make or brand. When you purchase it, you can rest assured that it will satisfy you, that it will do as good work, under corresponding conditions, as any other mower.

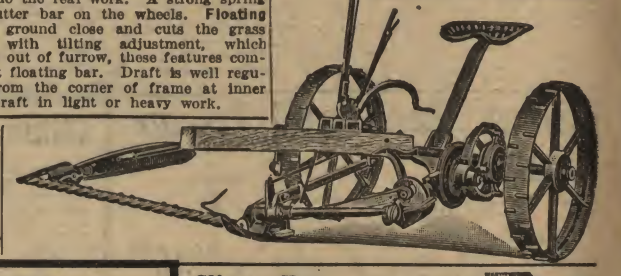
No mower made requires less renewals or repairs. Renewals or repairs can be had at any time. Do not let anyone mislead you on this point. We can furnish repairs promptly whenever needed.

Construction

The 30-Inch Cast WHEELS are very strong, but as light as can consistently be made and still retain sufficient strength. Width of face of wheels, 4¼ in., with anti-slip mud lugs. The main axle is cold rolled steel. Width between wheels, 41 inches.

FRAME is in one piece. Shafts cannot get out of alignment. Crank shaft has brass bushings at each end that can readily be removed, and replaced with new ones when worn. Pitman, made of clear, selected, seasoned hickory, will not bend or spring in heavy work, like a steel rod. Ball and socket connection at knife-head. Socket connections steel forged. **Malleable pitman box, with babbitt bushing and thumb screw oiler.** Pitman straps are forged steel.

The above combination has proven, on thorough test, to be the best wearing, strongest and most satisfactory combination in any mower. The babbitted pitman box will outwear a brass box, will not cut like brass and when worn can be replaced at much less expense.



MAIN GEAR has an outside guard. Other gears are enclosed. Ratchet wheel to throw in or out of gear can be operated by hand or foot. Gears, knives and wheels start at almost the same instant.

NO LOST MOTION. Outer shoes fitted with wheel, can be adjusted to cut high or low. Levers within easy reach of operator. Foot Lift, to raise bar without using hand lever. Serrated guard plates. Wearing plates and clips hold knife to proper position, insuring perfect cut and long life to the parts which do the real work. A strong spring carries the weight of cutter bar on the wheels. **Floating Cutter Bar** follows the ground close and cuts the grass close. Also provided with tilting adjustment, which permits it to ride in and out of furrow, these features combining to make a perfect floating bar. Draft is well regulated, the pull being from the corner of frame at inner shoe, eliminating side draft in light or heavy work.

Regular equipment consists of neck yoke, doubletrees, one extra knife, one extra section, one extra guard, wrench, one punch, one cold chisel and one oil can. Shipping weights, 5 ft., 645 lbs.; 6 ft., 665 lbs.

Shipped from Warehouse near Chicago.

Climax Windrower and Buncher

$8.60 to $11.00

Especially adapted for clover, flax, alfalfa, peas, etc. Will attach to any mower without boring a hole in cutter bar. For windrowing it delivers the cut crop out of the way of team for next round. Our Windrower and Buncher ought to be in the possession of every farmer raising clover, flax, alfalfa, peas, or any similar crop. A few days' use will easily pay for it. It gathers only the crop that the mower cuts, avoiding the dead grass and weeds that a rake picks up. Any crop can be bunched or windrowed as desired. The buncher gate is necessary for bunching. The gate is attached to seat spring and operated with a foot trip and can readily be removed entirely when windrowing. The gates are quoted extra as some farmers have no use for them.

Bunchers made of flat, high carbon steel rods adapted especially for this purpose. Attaches to the extra bar with three clips to the guard bolt. Space between rods is 3 inches. Made in four sizes, to fit 4½, 5, 6 or 7-ft. mowers.

	At Factory	At Warehouse

Climax Hay Loader, $43.00

The Old Reliable Rake Bar Style. For swath or windrow. Perfectly balanced. Automatic wagon hitch. Especially adaptable for swaths and light windrows, as it takes the hay clean from either, is smooth running, with gear drive. Draft beams are clear oak with yellow hard pine in other parts where strain is not so heavy. Has one piece crank shaft, the main axle encased in 4 in. wood casing full length, that prevents sagging or springing. Gear is always in proper mesh, with little danger of breakage. Frame is entirely of hardwood, thoroughly seasoned. Wheels have heavy tires with lugs that prevent slipping. Has 8 rake arms with 6-tine forks. Rake arms are adjustable to suit the quality or quantity of hay. Loads 8 feet in width.

No. 1 RAKE BAR

288B2434—Climax Hay Loader. Shipping weight, 1025 lbs. Price $43.00

Shipped from factory in Ohio.

Climax One-Horse Mower

$32.90

High Geared, 3½ Foot Cut. Three Motion Gear. Brass Bushings on Crank Shaft. Malleable Iron Babbitted Pitman Box. Easy Running. Balanced Frame

Hand and Foot Cutter Bar Lift

Our Climax One-Horse Mower is especially adapted for very small farms, for country clubs, golf links, parks, etc. It can readily be handled by one good horse under average conditions, where not too hilly.

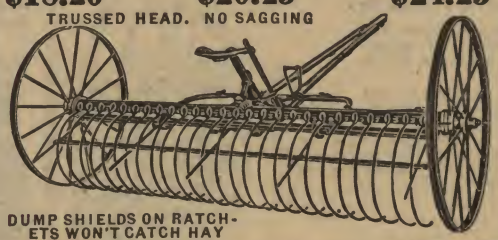
It is geared a little higher than the average mower, the sickle making 54 strokes to one round of the drive wheels, adapting it for use in light weeds, with very little danger of choking or clogging in regular grass cutting.

The three motion gear is a desirable feature that relieves and distributes the strain of sudden starting or stopping, greatly reducing the liability of breakage. It works on the principle of a block and tackle device and permits high speed of sickle without straining. Gears have teeth close together and strongly reinforced so that they respond instantly to the movement of the machine, practically eliminating lost motion.

Ratchet to throw in and out of gear operated by hand or foot. Hand lever lift, also foot lift to raise cutter bar. Crank shaft is fitted with brass bushings at each end. Hickory pitman with forged steel connection. Malleable iron pitman box with babbitted linings—longer wearing and less expensive to replace than brass.

Diameter of drive wheels, 30 in., with 3 in. face. Furnished with shafts and singletree for one horse. Made in one size only, with 3½ ft. cutting bar. Shipping weight, 550 lbs.

288B2440—Climax One-Horse Mower, 3½ ft. cut. Price $32.90



Shipped from Warehouse near Chicago.

Bob White Hay Rake

All Steel Double Hub Bicycle Wheels Self-Dump — Hand-Dump — Foot-Dump

8 Ft.	10 Ft.	12 Ft.
$18.20	$20.25	$24.25

TRUSSED HEAD. NO SAGGING

DUMP SHIELDS ON RATCHETS WON'T CATCH HAY

⅜ in. or ½ in. Teeth

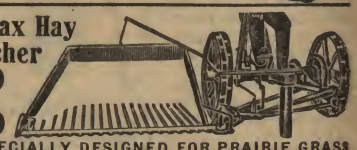
For one or two horses. Will do perfect work in either heavy, light or tangled hay, alfalfa or clover, and no other rake will do better in cornstalks.

WHEELS—Double-hub, 54-inch bicycle wheels, each with 16 half-inch staggered spokes, and with heavy 2-inch channel steel tires.

FRAME—Made of high carbon angle steel, thoroughly braced, bolted and riveted. Head is strengthened with a truss rod.

TEETH—Are high quality oil tempered, high carbon steel, with great strength and elasticity. Rakes listed below with ⅜ or ½ inch teeth. The ½ inch are recommended for extra heavy work, rough ground or corn stalks. Points are flattened sledge runner shape and do not tear up the grass or rake rubbish. Teeth are fastened to head by clamps. No holes to weaken head.

The labor of discharging the hay, as well as of gathering it, is done by the horse. To dump it, the driver simply presses his foot against the foot treadle and the teeth rise of their own accord, and discharge and return with an easy swing without jarring. Can also be dumped by hand lever.



Three sizes, 8, 10 and 12 ft. Fitted with combination pole and shaft so that you can use one or two horses. Can be easily changed in a few minutes.

Climax Hay Buncher

$5.50 TO $5.90

ESPECIALLY DESIGNED FOR PRAIRIE GRASS AND SUITABLE FOR BUNCHING ALL KINDS OF GRASS OR GRAIN. ATTACHES TO ANY MAKE OF MOWER WITHOUT BORING A HOLE. ADDS BUT LITTLE WEIGHT TO THE MACHINE. SPRING STEEL PICK-UP BARS.

Very popular in Western States, and largely used in cutting the very short hay which cannot be picked up with the rake, or where a windrower cannot be used. Many in use in the cattle ranching sections, to gather the short hay in bunches for stock to feed on during the Winter months. It avoids the lodged dead grass and weeds that a rake picks up, and the grass retains more nourishment and color than when gathered with a rake. Foot lever on hopper convenient for operator to easily dump. Light and easy to operate. Space between bars, 2¼ in.

288B2445—To fit 4½ ft. Mower. Shipping weight, 40 lbs. Price $5.50

288B2449—To fit 6 ft. Mower. Shipping weight, 50 lbs. Price $5.80
288B2451—To fit 7 ft. Mower. Shipping weight, 55 lbs. Price $5.90

Shipped from factory in Southern Minnesota.

Champion Overshot Stacker

$31.00

Made of Sound Seasoned Hard Pine

The kind used so largely in the Middle West:

Made after the patterns of the Original Champion type that has such great popularity and has given such excellent satisfaction. Superior to many other styles of overshot stackers, and one of the best of its type made.

THE CHAMPION makes a solid and nice appearing stack. The load is delivered to the center and the constant pounding tends to bind the center so that there is no settling afterwards, excepting at the ends, which tends to shape the stack.

THE LIFT at the start being nearly directly over load makes an easy start, and changing as the load rises keeps the pull at nearly right angles to the load at all times.

The pull rope being fastened in the center at the top makes a direct pull, reducing friction to a minimum. The extension rods extending from top of derrick to outside arm balance the load and prevent tipping where it is heavier on one side than the other. Also has side braces on the arms, which prevent swaying when the load reaches the top. Can be adjusted to elevate from 12 to 17 ft. in height. Has recoil spring, which gives the pitching effect when discharging the load on the stack, also serves the purpose of cushioning the stop and starting the head on its return trip to the ground. Shipping weight, about 730 lbs.

288B2474—Price $31.00

Shipped from factory in Missouri.

Climax Power Sickle and Disc Grinding Head

Will save lots of labor and repair bills on the farm—Can be operated by any small gasoline engine—For Mower Sickles, Harrow Discs and Tools.

Operates at 1600 rev. with ½ H. P.

Has Disc Holder for grinding Harrow and Plow Discs 14 to 18 in. diameter.

Bolts to bench or table. Simply constructed, and accurately machined. ⅝ in. main shaft is machined steel. Bearings slotted in rear to provide a take-up, and have oilers. Two disc or tool grinding wheels furnished, each 5½ in. diameter, 1¼ in. thick; one coarse grit; and one fine grit; also one bevel, or sickle grinding wheel, diameter in center, 6 in., tapering to 4½ in.; 3½ in. thick at the ends. Knuckle-jointed tool rests, may be set at any angle; a sickle, or mower knife holder and disc sharpening attachment. Diameter of pulley, 2 in., with 1⅝ in. face. Complete to do all your farm grinding. Ship. wt., 36 lbs. Complete with sickle and disc holders; two tool and one bevel stone.

188B2480—Price $6.75

Climax Foot Power Sickle Grinder

Will Sharpen Sickles, Harrow Discs and various kinds of Farm Tools. High Speed. Easy Operation.

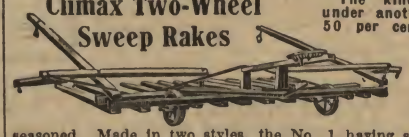
$5.30 All Around Farm Grinder

Each Grinder furnished complete with vitrified corundum grinding wheels, one bevel shaped, for sickle blades, one flat faced tool wheel, diameter, 4¼ in., 1⅜ in. face, one sickle blade or mower-knife holder and one disc-grinding attachment.

The bicycle-like system of gear and chain on our Climax Foot Power produces high speed and sickles, discs or other kinds of tools can be sharpened in very quick time. The sickle attachment allows any adjustment desired, and firmly holds the knife, regardless of width or thickness of knife backs. Spring clamp permits shifting the knife to any position while grinding. Disc attachment will handle any disc or wheel plow coulter, and sharpen it at any level. Grinding stones are made of vitrified corundum, harder, sharper and faster-cutting than other stones used on grinders. Frame is built from selected maple. Malleable working parts, steel shafts. Ship. wt., boxed, 56 lbs. **188B2485**—Price, complete $5.30

Climax Sickle and Tool Grinder

$2.25



Considered one of the easiest adjusted hand sickle grinders on the market. Grinding wheel revolves 25 times to one turn of the crank.

Adjustable clamp at bottom, to conveniently attach to wheel on harvester or mower, for sickles; and to bench or table, for grinding tools. Mower Knife Holder adjustable as desired, and firmly holds the mower knife with two guides or rests, adjustable for any width or thickness of knife backs. Spring clamp allows shifting of the knife to any position while grinding. The weight of knife is carried by the holder and the operator has full view, and easily controls the pressure and governs the grinding of nicks, gaps and any width or length of bevel.

Grinding wheels are vitrified corundum, one of the hardest, sharpest and fastest cutting materials. Price includes one sickle or bevel wheel, one tool wheel, diameter, 4½ in. face 1⅜ in., one tool rest and mower knife clamp. Shipping weight, boxed, 17¼ lbs.

188B2490—Price $2.25

Climax Two-Wheel Sweep Rakes

The kind sold by dealers under another name at nearly 50 per cent over our prices.

Non-springing pivot tongue. Metal pointed teeth. Made of carefully Selected hard pine throughout, carefully dried and seasoned. Made in two styles, the No. 1 having short steel axles and the No. 2 long tubular axles extending the length of rake. Both sizes are regular 12-ft. rakes measuring 11 ft. 8 in. across points of teeth Easily handled, well balanced, and will stand as much hard work as any similar rake. Ship. wts., No. 1, 350 lbs.; No. 2, 360 lbs.

288B2500—No. 1 with short steel axles and singletrees ... $13.25
288B2502—No. 2 complete with full length tubular axle, extra strong, well made steel wheels and singletrees. Price $16.20

Shipped from factory in Missouri.

Climax Four-Wheel Buck or Sweep Rake

Strong and durable. Excellent lever control. Full length pipe axle. Made of hard pine, well seasoned carefully selected teeth and frame. Fully equal in strength, durability, and easy lever operation, to any other rake you can buy. Used in nearly all of the alfalfa sections of the West. Superior to many well known makes, especially in the lever arrangement which allows the operator to handle the shocks with less labor on self and team. We recommend it especially in heavy crops. Has full length pipe axle; is mounted on 18 in. diameter main wheels with wide tires, caster wheels in rear. Removable boxing easily replaced when worn. Width, 12 ft., length of teeth, 8 ft., metal pointed. One extra tooth, singletrees and wheel shields furnished with each.

$24.25

288B2510—Price, complete. Shipping weight, 750 lbs. ... $24.25

Shipped from factory in Missouri.

The farmer's friend—our Lakeside Fence Plier. See Index.

Hay Handling Tools for Barn and Field

New King Large Mouth Hay Carriers

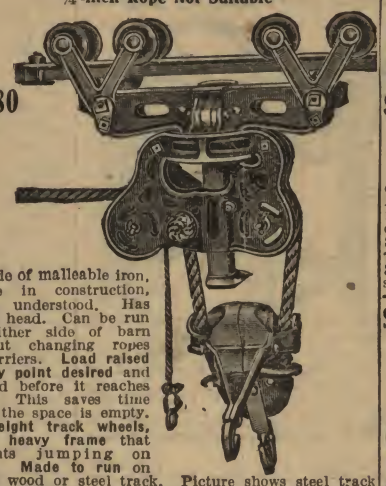
¾, ⅞ or 1 in. Rope can be used

$3.45

Will Take 1-inch rope.

Double Swivel. High-grade malleable iron. Can be used with 1-inch rope or smaller.

Special features of our New King: Large, open mouth, allowing fork pulley head to pass well up into car; strain of lock device placed where carrier is strongest, avoiding friction or twisting strain; fork being close to track permits filling space to high point. Large mouth insures receiving fork pulley with load instead of frequently missing, as happens with small mouth carriers.



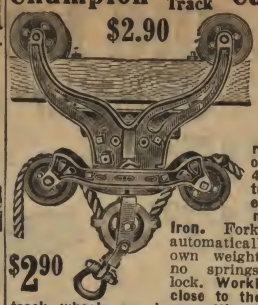
Rope Sheaves take ¾ in., ⅞ in., or 1-inch rope, but we do not recommend larger than ⅞-inch, on account of being less pliable and therefore added friction. Fork pulley has loop head, insuring sure lock, and clevis to attach fork. Made in two styles, for regular 4x4 in. dressed wood track, or to run on our Champion steel track. Carrier furnished with pulley for fork and stop. Without Rope. Shipping weight, 37 lbs. each.

188B2600—New King carrier for wood track . **$3.40**
188B2602—New King carrier for steel track . **3.45**
188B2622—Sling Pulley to use wagon slings. Shipping weight, 13½ lbs. **$1.60**

New Sampson Swivel Sling Carriers

For ⅞ or 1-inch Rope

¾-Inch Rope Not Suitable



$5.80

Made of malleable iron, simple in construction, easily understood. Has swivel head. Can be run on either side of barn without changing ropes on carriers. **Load raised to any point desired** and tripped before it reaches stop. This saves time when the space is empty. **Has eight track wheels, extra heavy frame that** prevents jumping on track. **Made to run on** either wood or steel track. Picture shows steel track carrier. Wood track carrier is exactly the same in construction, except longer top frame to accommodate 4x4 dressed wood track. Prices include pulleys and stop, but not rope.

188B2610—Steel Track Carrier. Shipping weight, 67 lbs. Price **$5.80**
188B2612—Wood Track Carrier. Shipping weight, 73 lbs. Price **$5.85**

Champion Wood Track Carriers

$2.90

Swivel Head, Automatic Trip, No Springs.

Made of Malleable Iron

$2.90

Swivel carrier to run on dressed 4x4 in. wood track. Made entirely of malleable iron. Fork trip works automatically on its own weight, requiring no springs. Positive lock. **Working parts are close to the track and track wheels are large with wide flanges, making them work easily under a load.** Will work either way from stop without drawing rope, by turning the swivel head. All carriers fitted and tested before leaving factory. Fork pulley with clevis and trip or stop always furnished. (No Rope.) Shipping wt., 32 lbs.

188B2616—Price, complete **$2.90**
88B2618—Extra wood track trip or stop . . . . . **.20**

Sling Pulleys

For our Champion or New King, steel, wood or cable track carriers. Used with our Western or Standard Hay Slings. No rope furnished. Positive lock with the heaviest loads. Shipping weight, 13½ lbs. Malleable iron.

188B2620 — For Champion Carriers. With rivet head as shown at the left. Price **$1.40**

188B2622 — For New King Carriers. With loop head as shown to the right. Price **$1.60**

Champion Cable Carrier

3 Track Wheels—Reversible

$2.90

Extra Strong. Trips Automatically. Sure Lock

For Stacking Outfits or in barns where a rod or cable is used in place of wood or steel track.

For stacking hay in the field. Is exceptionally strong, guides perfectly and the **THREE CABLE WHEELS** make it strong against rough usage as well as leveling the cable so that it never misses the stop. **Has the Champion automatic trip without springs,** is made of malleable iron and will work either way from the stop without turning on the cable. Furnished with stop to fit either ½, ⅝ or ¾ in. cable. (**Fork pulley with clevis always furnished.** (No Rope.) Shpg. wt., 30 lbs.

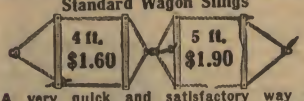
188B2625—Price, with trip or stop for ½-in. cable . **$2.90**

188B2627—Price, with trip or stop for ⅝ or ¾-in. cable (state which) **$3.00**

Champion Steel Track Carrier

Swivel Head, Positive Lock, Ready Trip

Made of Malleable Iron



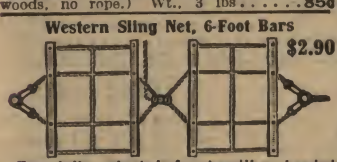
$2.95

Automatic Trip, No Springs to Get Out of Order

You will usually pay $4.00 at retail for similar carriers. **Made to run on our angle steel track.** Composed of two 1-inch high carbon steel angles coupled together and 2½ in. in width. **Made of malleable iron.** Weight properly divided. **No weak parts. No parts to wear out. No repairs. Works easily under a load,** on account of large track wheels and close working parts. Has automatic trip with no springs to get out of order; positive lock. **Easily understood and not complicated in any way.** Rope head works on swivel so that carrier will work on either side of stop without drawing the ropes. Fork pulley with clevis and stop or trip always furnished. (No Rope.) Shipping weight, 32 lbs.

188B2630—
Price complete **$2.95**
88B2632—Extra steel track trip or stop. Wt., 4 lbs. . **20c**

Standard Wagon Slings

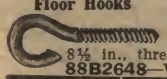


A very quick and satisfactory way of handling hay, straw, fodder, etc. Used in connection with our Champion or New King sling pulleys in place of hay fork. Cross bars are selected wood, good quality rope, with sure lock trip-lock. **The Eye Bolts clasp** around the rope instead of going through it. Lock trips easily.

Width of sling, 4 or 5 feet, and can be adjusted from 16 to 20 feet in length, if desired, by adding rope at the end rings.

188B2635—**4-ft. Sling.** Ship. wt., 18 lbs. Each **$1.60**
188B2637—**5-ft. Sling.** Ship. wt., 22 lbs. Each **$1.90**
188B2639—**Extra Trip Lock,** 1 lb. **.45**
88B2641—**Complete Set Sling Irons.** (No woods, no rope.) Wt., 3 lbs. **85c**

Western Sling Net, 6-Foot Bars



$2.90

Especially adapted for handling headed grain, short hay, sheaf oats, and regular hay in big quantities. The 5 crossed ropes on each section insure cleaner and more compact loads than the regular 2 rope Standard sling. Has **malleable iron center trip lock,** easily tripped; ropes attached to bars securely by hook bolts without weakening rope. Wt., 28 lbs.

188B2645—Price **$2.90**

Floor Hooks

For fastening pulleys to the floor. Wrought iron; ends pointed. Diam., ¾ in. Length, 8½ in., threaded, 4¼ in.

88B2648—Weight, 1 lb. Each **6c**

Knot Passing Pulley

Has extra large knot passing head with swivel, 6-in. maple sheave, **malleable iron frame** which will not spring. Rope cannot get between the frame and the sheave or be cut on the edge of the sheave. Wt., 3¼ lbs.

88B2651—Price, each **18c**

Hay Fork Pulley

Self-oiling after once greased. Has wood shell with inner steel frame and 5 in. maple sheave; wrought iron axle support; steel swivel eye. Very strong, durable and popular. Wt., 3½ lbs.

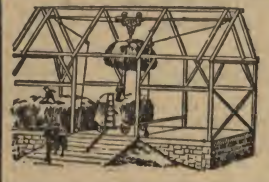
88B2654—Price **19c**

Hay Fork Pulley

Has removable center pin, swivel eye iron frame with a heavy rib which adds great strength; 6-in. hard maple sheave; 1-in. self lubricating pin. Weight, 3 lbs.

88B2658—Price **15o**

Clamps and Bolts



88B2780—No. 1. Double clamps for end loops for ¼, ⅜ or ½ in. cable. (State which.) Weight, 12 oz. Each **8c**
88B2872—No. 2. Post clamps to hold posts on stacking outfit. Wt., 12 oz. Each **10c**
88B2784—No. 3. 12-inch post bolts with 2 washers and 2 nuts to bolt posts together. Weight, 2½ lbs. Each **10c**
88B2786—No. 4. 15-inch eye bolts for tightening cable. Wt., 2¾ lbs **12c**

Galvanized Wire Cable

Used for guy ropes, signal cords, fencing, etc. Made of seven wires twisted together. Not pliable enough for use through pulleys. The ½ in. is the same used with our cable outfits. Sold only in lengths of 50, 100 or 150 feet, but longer lengths can be shipped from factory.

Art. No.	Diam. inches	Sh'p'g Wt. per 100 ft., pounds	Breaking Strain lbs.	Price per foot

188B2668	⅜	30	6,300	1½c
188B2670	¼	13	2,300	1c

Complete Barn Haying Outfits

Our Haying Tools are made in two of the largest hay tool factories in the world. Every article mentioned in connection with our outfits is standard—that is, just the same as sent out by these same manufacturers direct to jobbers and dealers all over the country.

We have arranged these outfits for the accommodation of our customers, not only to save them time and trouble, but also for those who do not know just what an outfit consists of. If you desire these changed in any way, be very careful to add to the price of the outfit, or deduct from it, as you change the number of items, otherwise your order must be held to write you further. We have, however, arranged them in the best possible manner, saving you as much as we possibly can, and at the same time giving you plenty of everything necessary. Larger rope than ⅞ in. cannot be used on Champion Carriers.

The brackets and the hanger hooks are furnished to be placed on every other rafter, 2 ft. apart, as used in most barns, except at ends and center, where you place more. You can place them closer if you so desire.

The steel track is made of 1-in. angle steel, 2 pieces held together with malleable clamps. Is cut in 10-ft. lengths with two 5-ft. pieces to each outfit to break joints at each end. The wood track should be 4x4 in. timber. We do not furnish the wood track timbers. Add 1c per foot for ⅞-in. in place of ¾-in. rope.

Steel Track Outfits—complete with steel track Champion steel track carrier 188B2630 and double harpoon fork 188B2710. 4 floor hooks and 3 knot passing pulleys, furnished with every steel track outfit.

Wood Track Outfits—without track. Champion wood track carrier 188B2616 and double harpon fork 188B2710. 4 floor hooks and 3 knot passing pulleys furnished with every wood track outfit.

For Prices on Manila and Sisal Rope of All Sizes, See Index for Pages

Climax Hay Rack Brackets

Makes strong, rigid racks on account of there being no bolt holes through the main timbers. It is unnecessary to dress materials to fit clamps on.

One of the best and least expensive rack sets. Clamp fixtures consist of broad cast bearing top plates which lie diagonally across top of timber. Bolts are secured to the top plate and pass down along the side of timbers where they are secured to the bottom cross timber by nuts against washer clamp. Also plates that go between the first and second timbers. Complete set with directions, all packed in box.

90c

188B2732—No. 1 size, with bolts for 14 in. rack. Shpg. wt., per set, boxed, 12½ lbs. Retail $1.25. Our price, per set **90c**
188B2734—No. 2 size, with bolts for 16 in. rack. Shpg. wt., per set, boxed, 13½ lbs. Price, per set **95c**

Hemm's Hay Rack Fixtures

We believe these are the strongest, most rigid and most popular hay rack brackets made

$1.95

With these fixtures any size or style of rack can be made. No vertical holes to bore. Every farmer can easily make his own rack, either narrow in front or square body. The top of rack can be readily taken off and body used for other purposes. By placing upright stakes in openings a stock rack can easily be made. Can be used for any width of timbers desired. No slip or tilt. They are flanged on the inside. When once put in place will remain firm. Made of malleable iron. A set consists of 8 fixtures, as shown in cut. Directions with each set. Shpg. wt., per set, fixtures only, 18 lbs.

88B2738—Price, per set of 8, without bolts **$1.95**

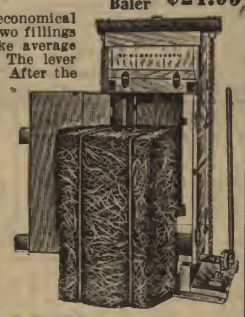
Hay Baler **$24.75**

Climax Hand Balers

Paper Baler **$24.95**



Improved for 1916. For Baling Hay, Flax, Waste Paper, Rags, Etc. One of the most economical durable and serviceable hand balers made. With oat straw, one man can make a 120 lb. bale in two fillings in 18 minutes. One man can, with one hand, operate the ratchet lever on our Climax and make average bales of 100 lbs. weight. Weight of bales vary according to condition and kind of hay baled. The lever acts on a ratchet and works backward and forward, gradually increasing the pressure as desired. After the bale is wired, a foot pressure pawl instantly releases the ratchet, and by raising the follower beam the press is ready for the next filling. Power is applied from both sides of press at one time. Operating parts are cast crucible steel.

Hay Baler

Especially desirable for the small farmer who does not raise sufficient hay or cannot afford to invest in the big expensive machines. Our hand baler will make bales of hay for market purposes almost as uniform as bales turned out by the most expensive balers. Two or three wires used to each bale; 9 ft. ties can be used for the regular, full sized bales. Body of press is select yellow pine.

Dimensions of baling chamber, 17x22x66 inches. Makes bales 17x22x36 in., the standard medium bale as adapted by the Hay Association. Has upper door hinged at side to allow feeding hay without raising to top of baler. Lower door unlocks after bale is made and releases bale. Back is removable.

Paper Baler

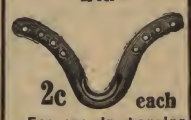
Properly baled paper commands from seven to ten dollars per ton, depending upon the market at the time. Has single door and the same heavy construction of the hay baler. Makes bales 17x24x27 in. Requires floor space 24x42 in. Height, 48 in., allows use in low room, cellars, etc. Will make bales of paper varying in weight from 125 to 140 lbs.

288B2744—Climax Hay Baler. Shipping weight, 300 lbs. Price **$24.95**
288B2746—Climax Paper Baler. Shipping weight, 250 lbs. Price **$24.75**

Shipped from factory in Central Iowa.

Write for prices on larger hay or paper presses of this pattern. We can also furnish screw-actuated presses, in 6 sizes.

Single Loop Bale Ties



Annealed steel wire. Sold only in bundles of 250 ties. 9-ft. ties are for 3-ft. bales from 14x18-in. or 16x18-in. presses. 9 ft. 6 in. ties are for 3-ft. bales from 17x22-in. press. 70 to 80-lb. bales require No. 16 gauge wire ties; 80-to 90-lb. bales require No. 15 gauge wire ties. Bales over 90 lbs. require No. 14 gauge ties.

Snatch Pulley Block

40c

Shortens one-half the travel of the horse. Requires more pull than direct coupling. Malleable iron. **Horse travels one-half distance hay is carried.** Rope can be thrown off. Weight, 5½ lbs.

88B2662—Price, without rope, singletree or small pulley **40c**

For field or garden—our shovels and forks are best and cheapest

Feed and Ensilage Cutters

Superior Power Feed Cutter

Powerful, fast-cutting feed and ensilage cutter that can be operated with very light power. Safety Fly Wheels. Reversible, Cutting Bars. For 20 to 40 Head of Stock. Safety Stop Levers.

Hardwood Bolted Frame

Knives are set spirally to make a downward shearing cut against a steel cutting bar, which is ground true after being tempered. Has four cutting edges. Knives are attached to knife heads by strong bolts and have adjusting screws. The feed gearing is a sliding cone easily moved to make any of the different lengths of cut. Feed gearing is controlled by a safety stop lever.

Safety fly wheel is very heavy and is set to the main shaft by a safety friction block. Should any foreign substance suddenly stop the machine the fly wheel will slip on shaft, protecting against breakage. Has solid fly wheel as shown in illustration. Furnished with 10x5 in. pulley; speed is 400 revolutions; capacity, 1 to 1½ tons dry fodder and 2 to 3 tons green fodder per hour.

Art. No.	Size	Knives	Cuts	H. Power Required	Ship. Weight	Price
288B2800	No. 11	4-11 in.	¼, ⅝, 1 in.	1 to 2½	435 lbs.	$20.45

288B2802—Crank to run by hand, extra 65c
288B2804—12 ft. swivel elevator for No. 11 cutter. Ship. wt., 200 lbs. $17.50
288B2806—Extension to increase elevator in 4, 8 or 12 ft. lengths. Ship wt., per ft., 12 lbs. Price, per foot 70c

Shipped from Warehouse near Chicago or from factory in Ohio.

Champion Feed Cutters

$17.90 or $17.95

HAND OR LIGHT POWER
Capacity, 500 to 1000 Pounds per Hour

A remarkably rapid and easy running machine. Hardwood bolted frame. Has heavy balance wheel to which the 2 curve edged knives are attached. This style machine is preferred by a great many on account of the ease with which it is run and its great capacity, being from 500 to 1,000 lbs. per hour, according to the condition of the fodder.

Cuts in two lengths, ⅝ in. and 1 in. Length of knife, 15 in.; width of throat, 8 in.; height, 3 in. Furnished with convex or concave knives. The convex knives are very easily sharpened while the concave knifes are much more easily sharpened than the knives used on many other style cutters. Shipping weight, 230 lbs.

288B2816—Price, with convex knives $17.90
288B2818—Price, with concave knives 17.95

When so desired we can furnish a short cut attachment with this machine which admits of several additional lengths of cuts, the shortest being ¼ inch.

288B2820—Short cut attachment, extra $2.25

Two cranks can be used on this cutter at the same time when so desired. Recommended where heavy or dry fodder is to be cut.

288B2822—Price of extra crank, wt., 5 lbs 75c
288B2824—Pulley, 10 in. diameter, 4 in. face, for light power to not exceed 350 rev. per minute, wt., 20 lbs $1.35

Shipped from Warehouse near Chicago.

Superior Hand Feed Cutters

Tempered Tool Steel Knives—Bolted Frame

Light Running
Two Knives

Run by hand. Has heavy balance wheels, which, with the shearing cut of knives, makes the machine very light running. Frame, made of heavy hardwood, strongly bolted together. Shaft is heavy, cold rolled steel. Knives are oil tempered tool steel and so constructed as to make a downward shearing cut. Feed Rolls are large and driven by expansion gearing which allows the rolls to open up when the machine is fed heavy and still gives a positive and uniform feed.

Length of Cut easily changed by cone gearing. Has safety lever so that feed roll can be stopped instantly while the machine is running.

When both knives are used the cuts on the smaller machine are ¼ in., ⅝ in. or 1 in. in length. On the larger machine ½ in., ⅝ in., or 1 in. in length. Cuts can be made twice as long by removing one of the knives. The feed table throat is designed to give ample room and to reduce the labor of feeding to a minimum.

Art. No.	No. of Knives	Lgth. in.	Cut In.	Capacity-Fodder per hr. Dry, lb.	Green, lb.	Sh'g Wt. Lbs.	Price
288B2834	2	8½	¼ to 2	150	300	150	$10.10
288B2836	2	10½	½ to 2	325	600	280	14.75

288B2838—Pulley, 10x3 in. for 288B2836 only, to run by light power. Wt., 18 lbs. Price $1.00

Shipped from Warehouse near Chicago or from factory in Ohio.

Chicago Feed Cutter

$6.80 and $7.20

AN EXCELLENT EASY-RUNNING CUTTER FOR A FEW HEAD OF STOCK. Knife is tempered tool steel, and makes a downward shearing cut. Is adjustable to cut from ⅜ to 1¼ in., and geared to make 3 cuts to one turn of the crank. Main-shaft is 1 15/16 in. cold rolled steel. Heavy balance wheel. Has a fluted roll that feeds to knife.

Capacity, per hour, about 150 to 200 lbs. of dry fodder, 300 to 400 lbs. of green fodder. Shipping weight, 160 lbs.

288B2870—Price at warehouse near Chicago. $6.80
288B2872—Price at factory in Ohio 7.20
288B2874—Extra Knife. Wt., 4 lbs 1.00

Shipped from warehouse near Chicago or from factory in Ohio.

Superior Hand or Power Feed Cutter

Pulley to run by power. Crank to operate by hand.
Especially adapted for Poultry account of its fine cut.
Three knives, length, 10½ inches.

Cuts ⅛, ¼ or ⅜ inch lengths.

$18.90

Heavy Hardwood Bolted Frame. Capacity for 10 to 20 head of stock, and sufficiently easy to run by hand, when a small amount of feed only is desired. Knife-head shaft is extended so that pulley and balance wheel can be placed on either side, but both cannot be on one side at one time. Has safety stop lever that stops the feed rolls instantly without interfering with the cutter head. Has friction balance wheel by which the wheel will turn on the shaft, should any hard substance stop the cutting head, thereby preventing the danger of breakage. Has sliding cone gear for changing length of cut. Feed rolls are driven by expansion gearing, and pressure is controlled by equalizer and spring board. Knives are detachable and adjustable. 1 to 1½ H. P. required at 300 to 400 R. P. M. Diameter, driving pulley, 10 in.; face, 3 in. Crank to run by hand, also furnished. Capacity per hour, dry fodder, 800 to 1200 lbs.; green fodder, 1200 to 2400 lbs. Shipping wt., 300 lbs.

288B2860—Complete, with pulley and crank . . . $18.90

Shipped from Warehouse near Chicago.

Banner Lever Feed Cutter

For 1 or 2 head of stock

The frame is strong, solid and durable. The knife is of carefully tempered steel. Has a gauge which regulates the length of the cut. Lever is fitted with a guard so that when the knife passes the cutting bar, this guard closes the throat to prevent the fodder from being pushed too far forward. Strong, hardwood frame, hardened, steel knife. Shipping weight, about 45 pounds.

288B2848 — Price at factory in Ohio $2.40
188B2850—Price at Chicago 2.55

Shipped from our store or from factory in Ohio.

Superior Ensilage Cutters with Blowers or Steel Elevators

Serviceable and economical Silo Fillers. Big, powerful, well constructed machines that have been thoroughly tried and tested. As strong, durable and easy running as any other machines of equal capacity. Made in three sizes, with either drop leaf or traveling self-feed tables and with or without enclosed steel elevator or blower. Suitable for all kinds of dry or green fodder, including corn on the cob.

Construction of Cutter

Frames are entirely of hardwood, very heavy, strongly braced, and put together with mortised and tenoned joints, and bolted. Tempered Steel Knives are spiral shaped, set to make a shearing, downward cut against steel cutting bar. Knives attached to heads by bolts and have adjustable screws to regulate each in relation to the steel cutting bar. Extra large hood over knives gives plenty of clearance with no danger of clogging; is also a protection against accidents. Main shafts on cutting head made of cold rolled steel, to which pulleys and balance wheels are attached. Either can be used on either side. Feed rolls have expansion gearing and pressure is exerted on an equalizer bar so that feed roll is raised the same at each end and there is no binding or undue friction in the boxes.

Safety patented, friction balance wheel will turn on shaft if any hard substance gets in with feed and suddenly stops knives. Safety stop lever, to immediately stop or start all working parts except the cylinder head.

Feed Tables

Either size furnished with either drop leaf or traveling self-feed table. Traveling self-feed table shown in both illustrations. We especially recommend purchase of the self-feed table for filling silos or for any work requiring the full capacity of machine. The fodder once placed on the table requires little attention. The feed table decreases the labor of feeding by one-third. It is sufficiently long to readily handle longest feed. The force feed device is a traveling apron that runs at same speed as feed rolls. Apron is controlled by safety lever same as feed rolls. Drop leaf table requires feeding by hand. One side leaf drops on a level with bottom of table giving a wide surface and is built low so that it is within easy reach of the operator.

Enclosed Steel Elevators

More easily operated and requires less power than a blower. For silo filling this method of elevating cut feed will be found exceedingly economical and satisfactory. It can be operated in nearly a perpendicular position. Made of 18 gauge galvanized sheet steel. Will stand the hardest usage, and is practically indestructible. All buckets are carried on a single heavy chain belt and there is no side strain. It is extremely light running and is driven direct from shaft head with belt connection. Has tightener pulley controlled by a spring. Operator can quickly release tightener to stop the elevator in the event of getting caught through accident. Base of elevator is arranged so that all cut ensilage drops directly into the elevator and is immediately elevated, eliminating congestion. The plain elevator, as shown, is all that is necessary when silage is delivered in a direct line with the window of silo. Hopper and distributor pipe for inside of silo are extra.

Easy to set up and operate

While our Superior Cutters are big, powerful machines, they are especially noted for their simplicity of construction and operation. They are not too complicated; neither do they require skilled mechanics to set up and operate. Each outfit is set up at our factory and thoroughly tested, so that by following the printed directions we send, the regular farm hands will have no trouble whatever in getting the parts together and learning the operation within a very short time.

Three Sizes

Size No. 1, suitable for general feed and ensilage cutting and for filling small silos.

Sizes No. 2 and 3, for filling medium and large silos.

Less power required for steel elevator than blower.

The following table of prices and specifications is for cutters only, without Elevators or Blowers.

Article No.	Size	Knives	Size of cut	Power Required For Cutters Only	Speed Rev. per Minute	Pulleys	Capacity per Hour: Dry Fodder	Capacity per Hour: Green Fodder	Shpg. Wts., with Drop Leaf Table	Shpg. 288B2904	No. 3	4-20 in.	¼, ½, ¾ in.	6-8 H. P.	500-600	14x6	6 -8 tons	12-16 tons	1200 lbs.	1400 lbs.		88.75

Unless otherwise specified on order, we will furnish regular Pulleys. To insure proper speed, state in your order the horse power of your engine, the diameter and width of face and the speed of the engine pulley. We will then furnish a pulley of correct size on the cutter, to run it at the proper speed.

Blower Elevator

Being closely connected with the cutter, and all mounted on one base, it takes up hardly any more room than the cutter alone, and operates as one machine with very little lost motion and vibration.

The improved method of driving the outfit from the blower shaft keeps the blower up to speed without the chance of fan losing speed on account of slipping belts or loose-fitting chains. Therefore, the danger of clogging is reduced to a minimum. The drive pulley is attached to fan opposite to side shown in illustration. The cutter head has sprocket chain connection to the fan shaft. A compact and close-coupled outfit.

The blower elevator is made of 16 gauge steel, with heavy, durable steel fan.

Straightaway Enclosed Steel Elevators For Superior Cutters Only. In figuring the length required, order about ¼ more than the height in feet of the silo. Horse Power Required For Cutters With Elevators—No. 1, 4 to 6 H. P.; No. 2, 6 to 8 H. P.; No. 3, 8 to 10 H. P.

288B2906—No. 1 Elevator for No. 1 Cutter. Length, 12 feet. Shipping weight, 285 lbs. Price $29.95
288B2908—Extra Extension for No. 1 Elevator. To increase length over 12 feet. Weight, per foot, 10 lbs. Per foot $1.00
288B2910—No. 2 Elevator for No. 2 Cutter. Length, 12 feet. Shipping weight, 300 lbs. Price $32.00
288B2912—Extra Extension for No. 2 Elevator. To increase length over 12 feet. Weight, per foot, 12 lbs. Per foot $1.10
288B2914—No. 3 Elevator for No. 3 Cutter. Length, 12 feet. Shipping weight, 565 lbs. Price $38.00
288B2916—Extra Extension for No. 3 Elevator. To increase length over 12 feet. Weight, per foot, 18 lbs. Per foot $1.25

All Elevators and Extensions shipped from Warehouse near Chicago

Hoods and Distributor Pipe in 4-Foot Sections. Heavy Galvanized Steel. Hood is necessary and any number of pipe sections can be attached. Sections telescope and fasten with snaps so are flexible and allow distributing Silage at any point inside the Silo. Sections easily detached as the filling of Silo progresses.

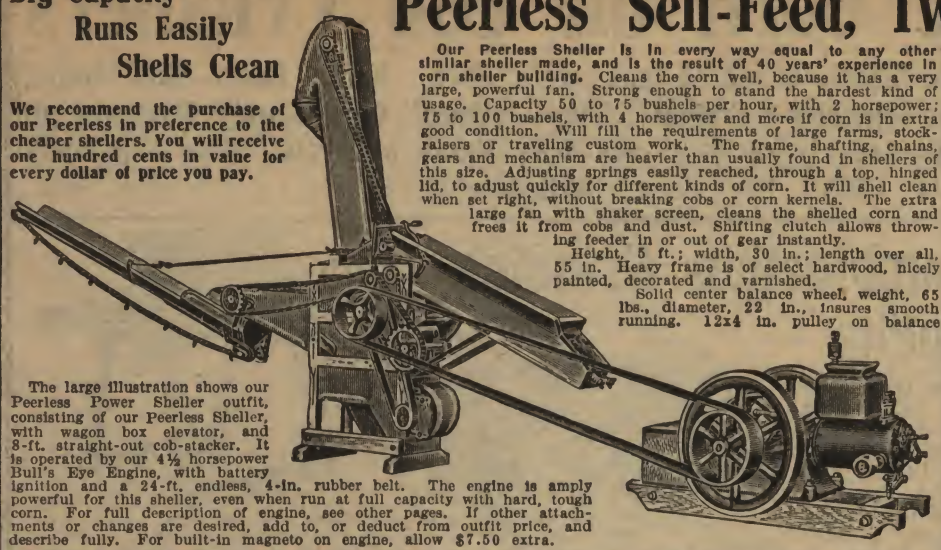
NOTE: 24-foot Silos require 5 Sections and hood; 30-foot, 6 Sections and hood; 36-foot, 8 Sections and hood.

288B2920—Hood for No. 1 Elevator. Ship. wt., 20 lbs. Price $4.60
288B2922—Hood for No. 2 Elevator. Ship. wt., 25 lbs. Price 4.75
288B2924—Distributor Pipe for Nos. 1 and 2 Elevators, in 4-foot Sections. Diameter at large end, 10½ inches, at small end, 9 inches. Complete with Snap connectors. Wt., 5 lbs. per ft. Price, per 4-foot Section $1.50
288B2926—Hood for No. 3 Elevator. Ship. wt., 30 lbs. Price 5.95
288B2928—Distributor Pipe for No. 3 Elevator, in 4-foot Sections. Diameter, large end, 12 in. Small end, 10 inches. Per section . $1.75

Hoods and Pipes shipped from Warehouse near Chicago.

Prices for Outfits Quoted Below are for Cutters Complete With Blowers, As Shown Above, With Collapsible Hood and Top Elbow. Galvanized Piping Is Extra. When Ordering Pipe, Order 5 Feet Less Than Height of Silo. Horse Power Required: No. 1 Outfit, 12 to 15 H. P.; No. 2, 15 to 20 H. P.; No. 3, 20 to 25 H. P.

288B2932—No. 1 Outfit. Consists of No. 1 Blower and No. 1 traveling self-feed table cutter. Ship. wt., 1,200 lbs. $88.75
288B2934—Blower Pipe for No. 1 Outfit. Diameter, 7 in. Weight, per foot, 3 lbs. Price, per foot 40c
288B2936—No. 2 Outfit. Consists of No. 2 Blower and No. 2 traveling self-feed table cutter. Ship. wt., 1,475 lbs $110.00
288B2938—Blower Pipe for No. 2 Outfit. Diameter, 8 in. Weight, per foot, 4½ lbs. Price, per foot 60c
288B2940—No. 3 Outfit. Consists of No. 3 Blower and No. 3 traveling self-feed table cutter. Ship. wt., 2,225 lbs $151.50
288B2942—Blower Pipe for No. 3 Outfit. Diameter, 11 in. Weight, per foot, 7 lbs. Price, per foot 80c



Blower Outfits and Pipe shipped from Warehouse near Chicago.

Our Portable and Stock Scales will pass State Inspection everywhere

Peerless Self-Feed, Two-Hole Corn Sheller

Big Capacity
Runs Easily
Shells Clean

We recommend the purchase of our Peerless in preference to the cheaper shellers. You will receive one hundred cents in value for every dollar of price you pay.

Our Peerless Sheller is in every way equal to any other similar sheller made, and is the result of 40 years' experience in corn sheller building. Cleans the corn well, because it has a very large, powerful fan. Strong enough to stand the hardest kind of usage. Capacity 50 to 75 bushels per hour, with 2 horsepower; 75 to 100 bushels, with 4 horsepower and more if corn is in extra good condition. Will fill the requirements of large farms, stock-raisers or traveling custom work. The frame, shafting, chains, gears and mechanism are heavier than usually found in shellers of this size. Adjusting springs easily reached, through a top, hinged lid, to adjust quickly for different kinds of corn. It will shell clean when set right, without breaking cobs or corn kernels. The extra large fan with shaker screen, cleans the shelled corn and frees it from cobs and dust. Shifting clutch allows throwing feeder in or out of gear instantly.

Height, 5 ft.; width, 30 in.; length over all, 55 in. Heavy frame is of select hardwood, nicely painted, decorated and varnished.

Solid center balance wheel, weight, 65 lbs., diameter, 22 in., insures smooth running. 12x4 in. pulley on balance wheel, should run 700 revolutions per minute. The small illustration shows the sheller with 8-ft., straight-out Cob-stacker and wagon elevator, total weight, 940 lbs. The weight indicates heavy construction. Light, cheap shellers cause trouble by breakage.

The mounting trucks priced below are the same as used with our Ensilage Cutters shown on another page, and are especially needed for traveling custom work, or when sheller must be moved about.

The large illustration shows our Peerless Power Sheller outfit, consisting of our Peerless Sheller, with wagon box elevator, and 8-ft. straight-out cob-stacker. It is operated by our 4½ horsepower Bull's Eye Engine, with battery ignition and a 24-ft. endless, 4-in. rubber belt. The engine is amply powerful for this sheller, even when run at full capacity with hard, tough corn. For full description of engine, see other pages. If other attachments or changes are desired, add to, or deduct from outfit price, and describe fully. For built-in magneto on engine, allow $7.50 extra.

288B3016—Peerless Power Sheller Outfit. Sheller with 8 ft., straight-out cob-stacker, wagon box elevator, 4½ horsepower Bull's Eye Engine, and 24-ft. 2-ply, 4-in. Rubber belt **$156.00**

Sheller shipped from warehouse near Chicago. Engine and belting shipping weights, 785 and 15 lbs., respectively, are shipped from warehouse nearest you. See Engine Pages for Warehouse locations.

Capacity
50 to 100 Bushels per hour

Ohio Two-Hole Corn Sheller

Complete with Cob Carrier, Fan, Feed Table, and 8-in. Pulley

For Hand or Power

Bolted Frame

Two Shipping Points Freight Saving

$11.40

For general farm use. Very well made. **FRAME** is heavy hardwood, firmly bolted. **The SHAFT** is heavy cold-rolled steel, and runs in iron bearings, which are bored through and bolted. **SHELLING WHEELS** are geared high, so as to give good capacity. **FEED SPOUT** is directly over the shelling wheel and the **Rag iron and Springs are adjustable, so that any size corn can be shelled. The COB CARRIER** separates the shelled corn from the cobs, delivering the cob at a distance from the foot of the sheller. **Also has a Fan which is very effective in cleaning the corn and putting it in a marketable condition. Furnished complete with Fan, Feed-Table, Crank and an 8-in. pulley.** When run by power the pulley on balance wheel shaft should make 300 revolutions per minute. Capacity, 20 to 30 bushels per hour. Shipping weight, about 250 lbs.

288B3020—Price, complete **$11.40**
Shipped from Warehouse Near Chicago.

288B3022—Price, complete **11.60**
Shipped from factory in Central Ohio.

Western Self-Feed Sheller

2-Hole, Big Capacity. Excellent Value, But We Recommend Our Peerless, Shown Above, for Greater Durability and More Satisfactory Work. 2 to 4 H. P. Required

Illustration shows Wagon Box Elevator and Cob Stacker attached. See prices for these attachments separate

400 to 425 R.P.M.

$31.50 Without Attachments

Fitted with Force Feed Throat and Large Fan Capacity. **Medium priced, well made, two-hole corn sheller,** recently improved, and equal in many respects to many of the higher-priced corn shellers on the market. **It is the kind that is usually sold at retail from $40.00 to $50.00.** Capacity, 50 to 75 bushels per hour of dry corn.

Furnished with self-feed table, and any of the other attachments as ordered. Pulley, 12 in. diameter, 3½ in. face.

288B3032—Western Sheller, with feed table but without other attachments. Shipping weight, 400 lbs. **$31.50**
288B3034—Cob Stacker. Shipping weight, 60 lbs. **4.90**
288B3036—8-ft. Wagon Elevator. Shipping weight, 118 lbs. **10.50**
288B3038—Sacking Elevator. Shipping weight, 75 lbs. ... **7.60**

Shipped from Factory in Central Ohio.

Farmer's Friend Two-Hole Power Sheller

An excellent sheller for the farm, mill, warehouse or stockman. Frame is hardwood, mortised and securely bolted. **The SHAFT is cold rolled steel.** Will shell either very large or very small ears of corn. The height of sheller frame is 3 ft. 4 in. It has a very heavy balance wheel, 27 in. in diameter. **It has an endless chain cob carrier, and makes a perfect separator, cleaning the corn thoroughly.**

Cut shows sacking elevator and rod attachment, which is furnished only when ordered and extra. **When ordered with rod attachment give speed of horse power and advise whether rod turns with or against horses.** Requires 1 to 2 horsepower, depending on the number of attachments. Pulley, 12 in. diameter, 3 in. face. Speed, 300 to 400 revolutions. Capacity, 25 to 40 bushels per hour.

$15.50 Without Elevator or Rod Attachment Extra Strong

Made by a Pioneer Corn Sheller Manufacturer

288B3042 — Price, with fan, feed table, crank, pulley and chain cob carrier. Shipping weight, 295 lbs. **$15.50**

288B3044 — Cob Stacker. Shipping weight, 58 lbs. Add **$5.10**

288B3046—Five-Foot Sacking Elevator. Ship. wt., 86 lbs. Add **$6.45**

288B3048—Eight-Foot Wagon Elevator. Ship. wt., 143 lbs. Add **$10.45**

288B3050 — Direct Chain Hitch for Tumbling Rod. Ship. wt., 50 lbs. Add **$5.15**

Shipped from Factory in Central Ohio

Mayflower Root Cutter

Strong Wood Frame. Large Hopper Cutting Disc on Crank Shaft. Easily Operated

$6.85

Slices roots and vegetables in long thin slices, at the same time separates the feed from clay, gravel, etc., by an iron grate at the bottom of the feed chute. Juices and nutritious qualities are retained. Capacity by hand 20 to 40 bushels per hour, by power 40 to 70 bushels per hour.

288B3060—No. 1 Hand Cutter. Shipping weight, 125 lbs. Price **$6.85**

288B3062—No. 2, same size with pulley for power and crank. Shipping weight, 140 lbs. Price **$7.85**

Shipped from Factory in Southern Michigan.

Climax Corn Sheller

Strong, Serviceable, Easy Running Sheller

Complete with Fan and Feed Table

$5.20

Hard Wood Frame. Cold Rolled Steel Shaft. Built Very Strong. Will Stand Hard Work and Give Good, Long Service.

FRAME WORK is hardwood, strongly joined together with mortised and tenoned joints. Gearing is placed outside of frame, so it cannot become clogged, and is protected by a hood or cover, avoiding danger. Crank on right side, making feeding convenient. **Is geared low and supplied with a heavy balance wheel, making it easy to operate.** Has large spout fitted with slotted holes by which it is adjustable for small or large corn. **Feed Table** is good size, attached to the large throat **Delivers cob on end.** Furnished complete with fan and feed table, or plain, as desired. Capacity about 10 bushels per hour.

288B3072—Sheller complete with fan, feed table, crank and balance wheel. Shipping weight, 120 lbs. **$5.20**

288B3074—Without fan or feed table, otherwise complete. Shipping weight, 105 lbs. Price **$4.90**

288B3076—8-inch pulley to run by power. Shipping wt., 12 lbs. **50c**

Shipped from Warehouse near Chicago

Buckeye Corn Sheller

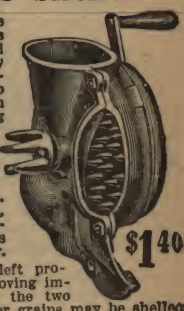
Bolted Frame, Wide Bearings, Round End

A Big Saving over Retail Prices

$5.80

Complete with Fan and Feed Table

THE FRAME IS MADE OF HEAVY HARDWOOD-WOOD, strongly bolted together, making every part of the machine firm and rigid. **Feed table is well made and of ample dimensions.** Spout is fitted with slotted holes, by which it can be adjusted to shell large or small ears of corn. The **RAG IRON,** and the spring which controls it, is adjustable, and when properly set, **any size of each may be shelled.** The shaft bearings are bored true, and are wider than on most shellers. **The shaft is cold rolled steel, the balance wheel large** and heavy. Capacity, from 10 to 20 bushels per hour.



288B3080 — Price, complete, with fan and feed table. Shipping weight, 142 lbs. **$5.80**

288B3082—Price, without fan or feed table, otherwise complete. Shipping weight, 130 lbs. **$5.40**

288B3084—Pulley, 8 in. diameter, to run by power. Shipping weight, 12 lbs. **50c**

Shipped from Warehouse Near Chicago.

Horatius Sheller

$1.40

Working parts are enclosed so grains cannot scatter. Steel shaft accurately sized to long machined bearing, to permit easy, smooth running, and long life. Long, large diameter coil spring, and three malleable links connect the sheller, disc and cover disc. This provides quick, automatic adjustment, and protects the hands from jar.

Tipper shown at left provides means for removing imperfect grains from the two ends, so fertile center grains may be shelled separately for seed. Especially desirable for seed corn, as it does not bruise or mutilate grains. Adjustable for large or small **ears of corn. No bolts furnished.** Wt., 16 lbs.

188B3094 — Price, complete, with tipper **$1.40**

Dandy Corn Sheller

46c

Surprisingly Good Worker. We Sell Thousands of These Little Shellers Every Season

There are a dozen or more kinds, somewhat similar in appearance, but there is considerable difference in the construction, material and the work they will do. The Dandy is adjustable to large or small ears of corn and does first-class work. It is made of the best material, very carefully fitted. **Has spring tension with thumb nut, large sheller wheel, is made strong and gives good satisfaction.** No bolts furnished. Weight, 8 lbs.

188B3104—Price **46c**

Never-Fail Corn Sheller

Big Capacity, 10 to 14 Bushels Per Hour

Made of heavy cast iron, black japanned finish, with strong teeth on the disc wheel. Can be quickly attached to any barrel or box by two strong clamps. Will deposit the corn in barrel or box on which it is mounted, and deposit cobs outside. Large thumb-screw adjustment, simple and accurate. Shipping weight, 13¾ pounds.

188B3140—Without Butting and Tipping Attachment. Price **$1.05**

188B3142—With Butting and Tipping Attachment. Price **$1.15**

$22.75

Climax Pea Huller

Strong, Durable, Easy to Operate. No Complicated Parts to Get Out of Order

Our Climax Pea Huller is acknowledged to be one of the best for threshing peas, beans, velvet beans, sorghum seed, kaffir corn, and garden seeds. The Drum and Cylinder are cone shaped. Cylinder length, 21 inches; smaller at one end than the other. Peas are fed in the hopper at the small end, and gravitate to the larger, thereby actually passing over more threshing surface than with a straight drum. The threshed peas and hulls pass out at the lower side of the larger end of the drum, where the draft from the fan carries out the hulls, leaving the peas clean.

The Frame, is hard, seasoned pine, with joints securely bound by draw rods, making it substantial and long lasting.

The Teeth, while strong, are thin, a particularly good feature as they will not break the peas.

No Balling Up. In some types of pea hullers, the bearings of axles often ball up, or gather shredded parts of pea vines, pods, strings, etc., and so obstruct the cylinder. The operator frequently has to stop and remove this rubbish, but the journals of the Climax are so protected as to entirely overcome this trouble.

It will hull and clean about 5 to 8 bushels per hour, according to the condition and kind of peas. Shipping weight, about 160 lbs.

288B3118—Pea Huller for hand power only. Price **$22.75**
Shipped from Factory in Georgia.

We Believe Our Methods Deserve Your Confidence

Our whole idea is to save you money; if we cannot do it, we do not expect your trade. We believe you should buy here because we believe you can buy best from our catalogues. You should buy in the cheapest markets, the same as others do.

Our methods meet many demands. We would quit business if we could not sell most men and women a second bill of goods. That is our only way of proving the correctness of our prices and methods. Unless our service, our prices and our way of doing business were satisfactory, we couldn't expect to hold our customers from year to year. To make friends of our customers, we must give a little bit more than we promise. We have many customer friends.

Climax Corn Slicer

Two-hole slicer for slicing up ear corn for feeding cattle, milch cows, calves, etc. Sliced ear corn provides the needed amount of roughness to promote digestion and perfect assimilation. **The frame** is made of oak. It is 3 ft. 6 in. high, 2 ft. 4 in. wide. Shaft is 1⅛ inch cold rolled steel. **Has two knives** 6 inches long, attached to very heavy cast arms which serve as a flywheel. The machine is geared so that the knives revolve twice to each turn of the handle and in cuts of ½ to 2 inches.

$12.20

Will slice, when run by hand, about 40 bushels per hour. Pulley to run by power at extra charge. When run by power the speed should be 200 revolutions per minute. Shipping weight, 215 lbs.

288B3150—Price, with crank **$12.20**

288B3152—Extra for pulley, 10 in. diameter, 3 in. face. Weight, 12 lbs. **90c**

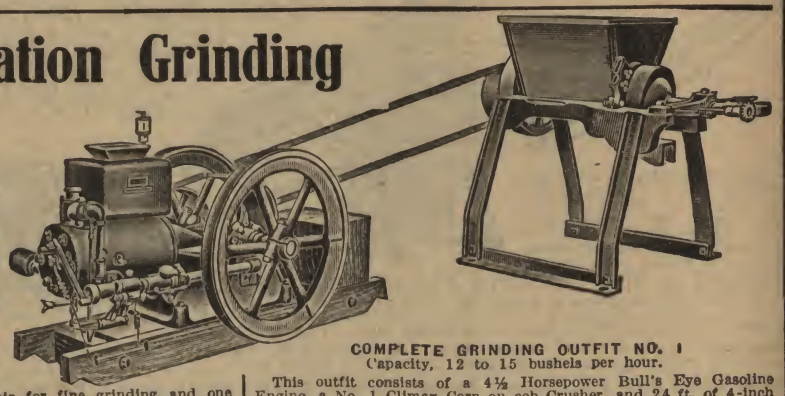
Climax Corn on Cob Crushers

One Piece Main Frame Insuring Alignment of Working Parts

$14.95 and $21.25



Large Basket Space Under Spout

Steel Frame Steel Hopper

Two Sizes—8 and 10 inch Burrs. Two Factories—Freight Saving—Built Entirely of Steel and Iron. WILL GRIND Ear Corn, Shelled Corn, Kaffir Corn, Milo Maize, Wheat, Oats, Barley, Rye, and all Kinds of Grain, Either Separately or Mixed.

Combination Grinding Outfits

Our Climax Corn and Cob Crusher and Grinder with Bull's Eye Engines and Belting. The Special Prices on these Combinations Represent a Distinct Money-Saving Opportunity for you.

Construction

The Main Frame is one casting, which insures the working parts of cob breakers and grinding burrs always being in line. The frame and grinding parts are designed to resist six times the ordinary strain.

The Cob Breakers are spiral concaves of hard chilled iron, bolted to the side and bottom of the main frame. On the main shaft are corresponding cob crushers, made in interlocking sections, and fastened to the shaft with safety break pin to prevent damage to the mill should any hard substances get into the grain.

Bearings are extra long, lined with high-grade babbitt metal, and fitted with large oil wells. Main shaft of heavy 1¼-inch cold rolled steel in the No. 1 Mill, 1½-inch in the No. 2 Mill. End thrust is taken up by anti-friction ball bearings.

The Grinding Burrs are made of hard white iron; will not heat the grain while grinding. Burrs are protected with a safety break pin from breakage or damage through any hard substance getting into the burrs with the grain. Burrs will not rub together when grinding or when running empty.

No wood used in the construction. Hopper is made of heavy 20-gauge galvanized steel with rolled top rim, with inserted ¼-inch steel rod. Hopper corners are riveted. Legs are channel steel with angle braces at bottom, and make a strong frame construction.

Two pairs of burrs furnished with each mill—one pair for fine grinding and one pair for coarse grinding. Burrs can easily be changed and regulated.

Capacities given are for corn in good condition. The capacities vary according to the power, the speed, the kind of grain and its condition, whether damp or dry and whether grinding fine or coarse. Oats is harder to grind in any small mill but will grind well, mixed with corn or small grain. **For crushing hard cobs easily without belt slipping we recommend the use of a 70-pound balance wheel.**

The No. 1, or 8 inch mill can be operated by 3 to 6 horse power at from 300 to 700 revolutions. Three horse power at 300 revolutions will give a capacity of 10 bushels; 4 horse power at 400 revolutions, 12 to 15 bushels, and so on, up to full capacity with 6 horse power at 700 revolutions.

The No. 2 or 10-inch mill requires 7 to 12 horse power at 400 to 700 revolutions; 7 horse power at 500 revolutions will grind up to 20 bushels per hour; 10 horse power at 600 revolutions, up to 45 bushels; and with 12 horse power at 700 revolutions, up to its full capacity of 60 bushels.

FLY WHEELS EXTRA CHARGE, NOT REGULARLY FURNISHED

Shipped from Factories in Southern Wisconsin or Central Iowa.

COMPLETE GRINDING OUTFIT NO. 1
Capacity, 12 to 15 bushels per hour.

This outfit consists of a 4½ Horsepower Bull's Eye Gasoline Engine, a No. 1 Climax Corn on cob Crusher, and 24 ft. of 4-inch three-ply standard rubber belting.
Shipping weight of Engine, 785 lbs.
Shipping weight of Mill, 190 lbs.
288B3222—Price of complete outfit $104.15

COMPLETE GRINDING OUTFIT NO. 2
Capacity, 20 bushels per hour.

This outfit consists of a 6 Horsepower Bull's Eye Gasoline Engine, a No. 1 Climax Corn on Cob Crusher, and 24 ft. of 5-inch three-ply standard rubber belting.
Shipping weight of Engine, 1,200 lbs.
Shipping weight of Mill, 190 lbs.
288B3230—Price of complete outfit $128.46

COMPLETE GRINDING OUTFIT NO. 3
Capacity, 45 bushels per hour.

This outfit consists of a 10 Horsepower Bull's Eye Gasoline Engine, a No. 2 Climax Corn on Cob Crusher, and 35 ft. of 6-inch three-ply standard rubber belting.
Shipping weight of Engine, 2,250 lbs.
Shipping weight of Mill, 320 lbs.
288B3238—Price of complete outfit $224.75

The Engine shipped promptly from stock at Chicago or from Warehouse nearest you. Mill shipped from the factory in Iowa or Wisconsin.

For prices on Grinder Balance Wheels, Elevators and extra Burrs, see description and prices in next column to the left.

Climax Vertical Feed Grinders

Nos. 30,31 and 32 Grinders

These grinders have several very important advantages. Being made vertical, the grain feeds evenly all around the burrs, thus all the grinding surface is used, the burrs wear evenly and last many times as long as burrs on horizontal mills. This feed gives uniform product and increased capacity, especially when grinding fine feed or small grain, because the burrs do not have to be forced together. The same burrs can be used for both coarse or fine grinding. The same burrs will grind ear corn, shelled corn, oats, etc., for feed either fine or coarse. Burrs easily changed by taking out three bolts. We do not recommend these mills for grinding fine meal for table use.

Hand wheel adjustment for grinding coarse or fine. Nos. 31, 32, 33 and 34 have a lever feed regulator, regulating the flow of grain to the burrs. Gearing is enclosed. All working parts are machined and finished, insuring smooth operation. The center shaft is supported at the bottom on a ball and socket bearing which runs in a bath of oil. Oiling is done from the center post with a spring oiler. Pulley shaft has long babbitted boxings and hard oil cups. Fly wheels inside pulley, with break pins. In case an obstruction gets into the grinder the pins break, allowing pulley to run loose. Steel subframes of angle steel, with riveted corner plate stiffeners, hold gears in perfect line.

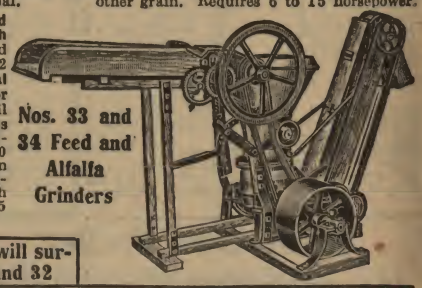
Force Feed Cutters and Inside Grinder on Nos. 31, 32, 33 and 34.

Large Capacity Mills for Grinding all Kinds of Small Grain, Kaffir Corn with or Without Shuck, Soft or Wet Corn.

The No. 30 Grinder has 11-inch burrs, 16x8 in. pulley, speed 200 to 700 R. P. M., and requires 4 to 10 horsepower. Grinds ear corn (without the shuck), either separately or mixed with small grain, shelled corn, oats, wheat, barley, etc. Has two sets of cast steel knives which cut up the corn and cob fine before it reaches the burrs. Capacity per hour on shucked ear corn, rye and oats, 15 to 30 bushels, all small grain 20 to 40 bushels, shelled corn, 50 to 75 bushels. Hopper holds one bushel of ear corn.

The Nos. 31 and 32 Grinders have special force feed for grinding ear corn with the shuck and kaffir corn and maize in the head. The No. 31 has two sets and the No. 32 has three sets of steel knives which cut up the shuck, cob and corn and kaffir stalks so fine that the work of grinding is half done. A special kaffir corn attachment, at extra price given below, can be also furnished with these two mills. This forces and feeds the heads faster. The No. 31 and 32 will grind new or old corn, wet or dry, shuck and all, so fine that the shucks can hardly be detected in the meal.

The No. 34 Feed and Alfalfa Grinder has 16-inch burrs with pulley, speed and capacities same as the No. 32 grinder, but also has a special fodder and alfalfa chopper, for fodder, alfalfa hay, etc. Will grind 600 to 1,200 pounds per hour of alfalfa hay, fodder, etc., or 1,200 to 2,400 pounds per hour of kaffir corn in head. Grinds fodder or alfalfa hay alone or mixed with grain. Requires 15 to 25 horsepower.



The No. 31 Grinder has 11 in. burrs and two sets of cast steel knives for chopping the feed up fine; 16x8 in. pulley; speed, 300 to 800 R. P. M., requiring 5 to 12 horsepower. Grinds ear corn with or without the shuck, kaffir corn in the head, shelled corn, oats and all small grains. Capacity, 15 to 25 bushels per hour of ear corn with shuck; 20 to 40 bushels corn and cob without shuck, or small grain; 50 to 75 bushels shelled corn; 600 to 1,500 pounds per hour kaffir corn in head.

No. 32 Grinder has 16-inch burrs, 14x10-inch pulley, speed 400 to 800 R. P. M., requiring 12 to 25 horsepower. Grinds ear corn in head with or without the shuck, kaffir corn in head, shelled corn, oats and all small grains. Capacity per hour, 20 to 50 bushels ear corn with shuck; 40 to 75 bushels corn and cob without shuck, or all small grain; 75 to 150 bushels shelled corn; 1,200 to 2,400 pounds per hour kaffir corn in head. Hopper holds 2 bushels ear corn.

The No. 33 Feed and Alfalfa Grinder has 11 in. burrs with pulley, speed and capacities same as the No. 31 grinder, but also has a special fodder and alfalfa chopper for fodder, alfalfa hay, etc. Grinds fodder or alfalfa alone or mixed with other grain. Requires 6 to 15 horsepower.

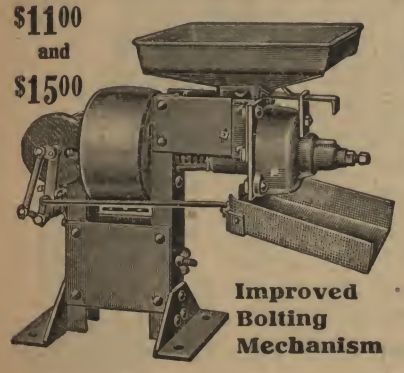
Shipped from factory near Kansas City, Mo.



Nos. 33 and 34 Feed and Alfalfa Grinders

Capacities are carefully estimated from work done but are not always exact as they depend on the speed and power, and the kind and condition of grain. Fine grinding at slow speeds gives less capacity than coarse grinding at high speeds.

When ordering, be sure to state the horsepower of your engine, diameter and width of face of engine pulley, and speed of engine per minute.

20th Century Flour and Meal Maker

$11.00 and $15.00

Improved Bolting Mechanism

New for 1916. Steel construction. The only steel burr mill of its kind for making bolted flour. Grinds wheat and corn for table use. Cracks corn and small grains for feed. An excellent all around farm mill. We will replace, without charge, any part of our 20th Century Mill that breaks in regular use. Frame made of heavy rolled structural steel, riveted and welded together.

The steel construction is lighter and of greater strength than cast iron mills. Designed with its strength in the line of the belt pull, having long bearings close up to the belt pulley on both sides. Spring cushions back of adjustable burr holder, to prevent burrs from damage, when nails or hard substances get into the grain. Automatic shaker for regulating flow of grain from hopper and auger worm feed, to force it to the burrs. Base plate, provided with holes to bolt to plank or platform.

The improved bolting mechanism makes the meal safe for family use, as it overcomes the necessity of running burrs too close together. Consists of sieves and a shaker attachment that keeps sieves in action when mill is running. The length of shake can be increased or decreased.

Made in two sizes, both with 5½ in. burrs, the No. 1 size having 1 pair of burrs, the No. 2 size having 2 pairs of burrs in the mill. The No. 2 mill has double grinding capacity and larger hopper. Two sets of burrs, fine and coarse, furnished with each mill. Speed, 300 to 700 revolutions per minute. Finer grinding obtained at slow speed. Full capacity coarse grinding at high speed. Capacity is not exact on oats alone.

Art. No.	Price	Size	Pulley	H. P. Required	Capacity Per Hr. (See Above)	Shipping Weight
288B3276	$11.00	No. 1	8x4 in.	2 to 4	4 to 11 bu.	90 lbs.

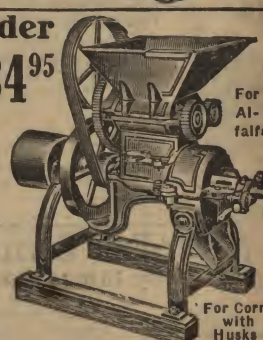
288B3280—Extra Burrs for No. 1 Mill, fine or coarse (state which). Weight, 2½ lbs. Price, per pair $0.75
288B3282—Extra Burrs for No. 2 Mill, fine or coarse (state which). Weight, 5 lbs. Per set of two pair 1.50



Shipped from Factory in Ohio.

For wet or soft corn no other burr mill will surpass our Climax vertical, numbers 31 and 32

Climax Combination Feed Grinder

Three Sizes. Will Grind Corn on the Cob with or without Husks, Sheaf Oats, Clover Hay, Alfalfa, Kaffir Corn, Cotton Seed, Soy Beans and all Kinds of Small Grain

$34.95

For Alfalfa

For Corn with Husks on

Has double grinding burrs, using two pair at one time. An Extra Set (4) Grinding Burrs Furnished With Each Mill. To the best of our knowledge there is no mill made superior to our Climax Combination Mill for all-around farm work. Will grind almost anything desirable for stock feeding, faster and more thoroughly than any two-burr mill made. Will handle ears of corn with the husks on, and other fibrous feed, such as alfalfa, kaffir corn, etc., almost as well as dry grains. **A heavy, three-knife roller in bottom of hopper,** through shearing or cutting, reduces cobs, husks, etc., to a condition well prepared for the grinders, to which a force feed worm crusher forces the mass. All materials can be ground coarse, medium or fine, as desired. The cast frame of bed plate is in one solid piece, which insures proper alignment of the main shaft. Hopper is cast iron. Constructed entirely of iron and steel, except wood skids under legs. Bearings are long, thoroughly milled out, and babbitted. Speed on all sizes, 600 to 1,000 revolutions per minute. Capacities depend upon speed and conditions of grain. **Less capacity on oats alone. We advise mixing oats with corn or small grain for grinding feed.**

Gets you up on time—the "Startler" Alarm Clock. See clock pages

Feed Grinding Mills

Iowa Small Grain Grinder

$7.80 Capacity 8 to 20 bu. per hour

Will Grind Meal Fine Enough for Table Use. Will Grind More, Last Longer, and Cost Less for Repair, than Many Other Mills of its Size.

A most successful mill for small power. It requires from 1 to 3 horse-power to grind from 8 to 20 bushels per hour, depending upon the speed and fineness of grinding. Will crack corn or small grains or grind table meal. Diameter of burrs, 5½ inches. Can be adjusted for either coarse or fine grinding. Burrs cannot run together when empty. Mill made entirely of iron and steel, all parts turned and faced. Pulley included. Nails, and other small, hard substances may pass between burrs without injury. The burrs are a special mixture of metals, and unexcelled for hardness and long life. They are self-aligning and flexible. **Two sets of burrs furnished with each mill,** one **Coarse set** for feed grinding, cracking corn, etc.; one **Fine set** for table meal. Diameter of pulley, 6½ inches; face, 4½ inches. Speed, 800 to 1200 revolutions per minute. Shipping weight, 90 lbs.

288B3401—Price, without balance wheel **$7.80**
288B3405—Balance wheel. Shipping weight, 20 lbs. Extra . **1.40**
288B3407—Extra burrs, fine or coarse (state which wanted). Shipping weight, 3¼ lbs. Price, per pair **60c**
288B3410—Mounted on iron legs, making a substantial frame support. Shipping weight, 30 lbs. Extra **$1.45**
Shipped from warehouse near Chicago.

New Model Grinding Mill

For all kinds of small grains. **Force feed. Flexible shaft prevents accident to burrs. End thrust, ball-bearing box, with chain oiler. Lever to separate burrs so mill can run empty without injury to grinding parts. Manufactured by one of the Largest and Best Known Mill Makers.**

The feed spout has a side shake, and is operated by an eccentric on the shaft, delivering the feed to a double worm, which draws the feed into the burrs, making the mill positive force feed. A sprocket wheel is placed on the main shaft, to be used for operating elevator when so desired. By means of a lever the burrs can be thrown together or forced apart while mill is running.

To avoid the friction caused by the end thrust of the shaft, a ball bearing box is arranged in such a manner that it has a chain feed, which keeps the box flooded with oil while the machine is running. **The pressure lever** at the end, to regulate the grinding, is provided with two spring rods and double springs which allow any hard substance, such as a nail, or piece of iron, to pass between the burrs without damage. **Each mill is furnished with three sets of burrs,** one fine, one medium, and one coarse. **These burrs,** together with the adjustment for regulating the grinding, will produce feed of any quality, from the finest to the coarsest. **The mills, however, are not intended for making table meal.** They should be speeded from 600 to 1,200 revolutions per minute, according to the power used. Made in four sizes: Shipping weight of No. 1, 112 lbs.; No. 2, 172 lbs.; No. 3, 230 lbs.; No. 4, 290 lbs.

Burrs—When ordering burrs only, state numbers on old burrs and whether fine or coarse are wanted.

Climax Jr. Small Grain Mill

For engines 1½ to 4 Horse Power. Speed, 150 to 400 revolutions per minute.

An excellent little mill for light power, taking up small space, and especially desirable where a limited amount of grinding is to be done. Main frame is in one casting, heavy and strong. Bearings are extra long and lined with high-grade babbitt. Shaft is 15/16-inch cold rolled steel, and will not spring. The flow of grain is supplied to the burrs with auger feed, which insures steady, even grinding. Burrs are 5½-in. diameter, of extra hard white iron, and very durable. The flow of grain to burrs, is regulated by opening or closing a slide in bottom of hopper. End thrust on shaft, is taken up by an anti-friction ball bearing, and will not heat. Large hopper of galvanized steel. Diameter of pulley, 12 in.; face, 3 in. Regularly furnished complete, with two pairs of burrs, coarse and fine. Shipping weight, 60 lbs.

Capacity, 6 to 20 bu. per hour, Corn or Grain; less of Oats.
288B3430—Price complete, at either factory **$6.25**
288B3435—Extra burrs, coarse or fine (state which). Shipping weight, 3¼ lbs. Price, per set **70c**
Shipped from factories in Southern Wisconsin or Central Iowa.

3 Sizes Daisy Sweep Mill 5 Styles

For Corn on Cob, Shelled Corn and all kinds of Small Grain

Two Factories—Freight Saving

Are made in three sizes, each size separate and distinct in capacity, weight and size of burrs. Size No. 1 can readily be operated by one strong horse; No. 2, by a light team; and No. 3, or largest size, by a medium or heavy team. Capacities vary according to the speed of the team and the condition of the grain and degree of fineness. Size No. 1 is mounted on box only, sizes No. 2 and 3 on either box or legs. **Burrs for all styles are made either coarse or fine.** We always ship the mills fitted with coarse burrs, unless the fine burrs are especially ordered. **Coarse burrs are intended for ear corn or shelled corn,** suitable for coarse feed, and fine burrs for shelled corn or other small grain for fine feed. Capacities given are for all grain excepting oats, but will grind half and half, oats and corn, or other hard grain, to capacities given.

Article No.	Price	Size	Mnt'd on	Diam. Inner Burrs	Capacity Dry Corn Per hour	Shp. wt., lbs.	From Factory in

288B3482— 3.30 No. 3 Mill on box, Fine or Coarse (state which). Shipping weight, 100 lbs.
Shipped from factories in Central Iowa or Western Ohio.

Big Four Sweep Mill

Triple Geared, Enclosed Gears

Ball Bearing, or Oil Groove Bearings.

Our Big Four is a big, strong, serviceable grinder, geared three to one; that is, burrs make three revolutions to each round of the horses. **The revolving strain is carried on a series of balls, reducing the friction.** Diameter of burrs, 16 in.; height, 3⅛ in.; made of white metal so hard, that with ordinary care one set should grind from 6,000 to 8,000 bushels of grain. With corn in fair condition, and team making 3½ revolutions per minute, will grind 12 bushels or 24 baskets of ear corn per hour, to a medium degree of fineness. Capacity for oats only is about one-half for corn, but half and half oats and corn, or other hard grains, gives good capacity. Made with coarse and fine burrs, the coarse for shelled and cob corn, the fine for shelled corn and small grains. Coarse burrs furnished regular. Shipping weight of mill, 630 lbs., burrs, 45 lbs.

288B3486—Big Four Ball Bearing Mill **$23.75**
288B3491—Extra burrs, coarse. Per set **2.50**
288B3493—Extra burrs, fine. Per set **2.55**
Shipped from factory in Western Ohio.
288B3498—Big Four Mill, anti-friction bearings **$23.65**
288B3503—Coarse burrs, per set **2.60**
288B3506—Fine burrs, per set **2.65**
Shipped from factory in Iowa.

Little Useful Home Mill

Easy to use—easy to clean—three in one. Will do more work and a greater variety than many other mills of equal weight.

The Women Folks' Favorite Mill. Will do the household grinding, make good graham flour, rice flour, corn meal; **will grind wet, oily, or fibrous materials, make meal from soaked corn, butter from nuts,** will grind orange and lemon peel, barks, herbs, coffee, spice, split corn for chicken feed or hominy, cube nuts for salads and cakes, etc. Clamp furnished to attach to edge of table or sink. Thumb nut regulates fineness. Extra parts and directions with each mill.

88B3521—Complete outfit to do everything enumerated above. Shipping weight, 8 lbs. Price **$1.95**

Wilson Hand Grist Mill

$2.95

Has few equals. Large Capacity. Easily operated. Extremely Durable.

The genuine Wilson Hand Grist Mill, with a reputation of many years' standing, as one of the best mills of its kind.

Will prove a most satisfactory purchase. The grinding burrs, are of extra hard material, ground true on emery wheels, and will last for years. Are adjustable to grind fine or coarse. **Especially adapted for grinding graham flour, corn meal for table use, peas, wheat, salt, bark, etc., crack corn for chickens.** Has large hopper. Shaft of hardened steel. Diameter of balance wheel, 20 inches. Shipping weight, 29 lbs.

188B3440—Price **$2.95**
88B3445—Extra burrs. Shipping weight, 3¼ lbs. Per pair . . . **55c**

Climax Family Grist Mill

For Grinding Poultry Feed

Our Price $1.80

Have Fresh Graham Flour, New Hominy, Cornmeal, etc. A Big Little Mill for the Price.

Every country home should be supplied with one of these little grist mills. It has removable hard metal burrs, ground true, which can be adjusted to grind to any degree of fineness. **Diameter of burrs, 4¼ in.** Has heavy balance wheel, making it run easy. **It will grind corn, wheat, rye, peas, salt, or any grain desirable to grind. Will not make fine bolted flour.** Can be bolted to a table or bench. (Bolts to attach not furnished.) Shipping weight, 24 lbs.

88B3511—Price **$1.80**
88B3516—Extra burrs. Shipping weight, 3 lbs. Per pair **35c**

New Climax Stand Grist Mills

Power Pulleys Extra.

Adjustable to grind either fine or coarse. Will grind all small grains, corn, wheat, oats; also coffee, salt, dry bones, dry shell, etc. Small size is suitable for kitchen use, grinding feed, cracking corn, etc. Second size, has larger burrs, and heavier balance wheel, giving much greater capacity. Larger size, is almost equal to a small power mill. Nicely finished. Pulleys for light power, to clamp to balance wheels, are extra. Shipping weight, about 7 lbs. each.

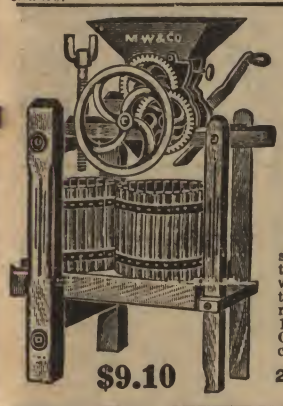
Prestige



—it's hard to define. It is something which makes you buy from a certain store; deposit your money in a certain bank; and so on. In business, you usually prefer to deal with the house that has **"prestige."**

A business house gains prestige by service, values, promptness, satisfaction. You feel confident in dealing with them because they have built up something more than what is usually expressed in **honest merchandising.**

We have prestige among our customers, or they would not continue to come to us year after year. A business house that has **prestige** may well be proud; it is an indication that its methods of dealing have been clean and trustworthy. On no other basis could any business endure.

Cider Mills and Presses

Arnold Junior Cider Mill

Two Shipping Points

Will save you freight by shipping from point nearest you.

Bolted Frame. 11¼ x 17¼ inch Hopper.

The frames are hardwood and bolted. Mill parts are iron and steel. Press screw is 1½ in. steel. Tubs are of hardwood slats, riveted to iron bands. Well made in every way. Two tubs; **you can press one while filling the other.** The grinding rolls are of large diameter and thoroughly crush either large or small apples so that the press will readily take out all the juice. Diameter of press-tubs, 12 in. Height, 10 in. Size of hopper, 11¼x17¼ in. Shipping weight, 200 lbs. Capacity, from 2 to 4 barrels a day. Sold by dealers throughout the country at prices ranging from $12.00 to $15.00.

288B3546—Price **$9.10**
Shipped from warehouse near Chicago or factory in Indiana.

Arnold Senior Cider Mill

Two Shipping Points. Means saving in freight.

Bolted frame, 16 inch. Crate Tubs, 15x19¼ inch. Hopper, 2 cranks.

Powerful, and made for long service. Capacity, 6 to 10 barrels of cider per day. The Arnold mill crushes the fruit thoroughly, thereby breaking all the juice cells, making it certain that the pomace will yield under the press, every drop of the cider or wine. **The Senior is made with two cranks,** one on each side, which enables two boys to run the machine. Heavy hardwood frame, firmly bolted; press screw 2 in. steel. Large size hopper. **Mill parts of best iron,** tubs of hardwood slats with steel bands. Diameter of press tubs, 16 in. Height, 14 in. Shipping weight, 420 lbs.

288B3566—Price **$15.90**
Shipped from warehouse near Chicago or factory in Indiana.

Arnold Senior Power Cider Mill

Our Senior power mill is built exactly like our regular Arnold Senior, and is fitted with a pulley, diameter, 18 in., face, 3 in. Diameter of press screw, 2 in. Cranks also furnished with this mill, so it can be used by hand, if so desired. When run by hand, it is double geared, the crushers revolving twice at one turn of crank. For power, pulley is placed on crusher shaft, making direct connection. Shipping weight 440 lbs.

288B3626—Arnold Senior Power Mill, for hand and power, with 2 cranks and pulley. Price . . . **$16.30**
Shipped from factory in Indiana.

Climax Force Feed Cider Mill

Unnecessary to Halve or Quarter the Apples

$6.85 WILL NOT CLOG

One of the very best single-tub cider mills made for family use. Grinds apples, large or small, without cutting, and will give entire satisfaction when fed steadily and not overcrowded. Roller crushes the apples in the best shape for pressing. Outside diameter, press tub, 13⅛ in.; height, 12 in. Capacity, one to two barrels per day. Strongly constructed of good materials. With proper care will give many years' service. Shipping weight, 145 lbs.

288B3576—Price at factory **$6.85**
188B3581—Price at our store **$7.15**
Shipped from Indiana factory or our store.

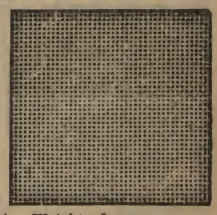
Hutchinson Cider Mill

Gather up the dropped apples and make them into cider at small expense.

Thousands of these mills in use; do good work; hopper enlarged, and grinding disc made heavier than on other styles of this mill. **Frame** is hardwood, very strong and substantial; working parts best grade of iron; **Screw** is 1¼ in. steel; large balance wheel makes it run easy. Diameter of tub, 12 in.; height, 11 in. Size of hopper, 7½x10 in. Capacity, 1 to 1½ barrels of cider per day. Shipping weight, 115 lbs.

288B3596 — Price at warehouse, **$5.25**
288B3606—Price, at factory **$5.20**
Shipped from warehouse near Chicago and factory in Minnesota.

Climax Wine Press



An Excellent Little Press Very Popular in the Grape Districts

Specially adapted for pressing grapes and other fruit that does not have to be ground. Has hardwood frame, strongly bolted together. Cross beams of heavy cast iron. Construction throughout will stand heavy pressure. Height of tub, 10 in. Inside diameter of tub, 11 in. Diameter of press screw, 1⅛ in. Crate is made of heavy hardwood slats, riveted to steel hoops. Shipping weight, 70 lbs.

288B3636—Climax Wine Press. Price **$3.65**
Shipped from factory in Ohio.

Cider Press Cloth

Made of 6-ply Cotton Cord, expressly for use in Cider Mill Tubs to Strain the Juice. Far better and stronger than cheese cloth. With proper care will easily last several seasons.

In three sizes, each size having stitched selvage on four sides. Made heavy and strong. All woven of 6-ply cotton cord. 3 sizes only.

88B3646—Size, 36x36 in. Weight, 6 oz. Price, each **$0.35**
88B3651—Size, 44x44 in. Weight, 8 oz. Price, each **$0.55**
88B3656—Size, 66x66 in. Weight, 20 oz. Price, each **$1.10**

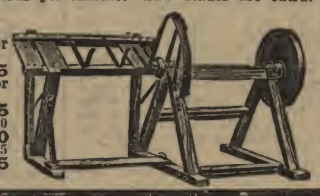
Saw Frames—Saw Blades—Saw Mandrel Sets

Tilting Table Saw Frame



Two Sizes. For Cord-Wood or Poles. 1⅛ Inch Cold Rolled Steel Mandrel. Bolted Frame. Extra Strong. Well Braced.

$10.80 $12.25

Tilting or swing table pattern. Made in two styles, for cord-wood only and with attachment so as to use for cord-wood or long poles. On the cord-wood saw the table is attached as shown in large illustration, and when used for poles the table is moved to the opposite side of saw and attached with an extension frame that we furnish so that the poles do not come in contact with the balance wheel. (See smaller illustration.) The frame is made of dry hardwood, full size, thoroughly ironed and braced. Bearings are long and well babbitted. Diameter of saw arbor, 1½ inches; length, 49 inches, cold rolled steel, turned down at end to fit saws with 1⅜ inch holes.

Belt pulley, diameter, 5 in. with 6 inch face. Heavy iron saw guard. Both sizes made the same, with the exception of balance wheel, one having 95 lb. wheel and other 60 lb. The 60 lb. wheel is very satisfactory to operate with gasoline engines that are equipped with heavy balance wheels. Suitable for saws 20 to 30 in. in diameter; not larger. Speed, 750 to 1,000 revolutions per minute. Saw blades are extra.

288B3700—Saw frame, with pole extension for cord-wood or poles, with 60 lb. balance wheel. Shipping wt., 300 lbs. Price **$11.75**

288B3702—Saw frame, with pole extension for cord-wood or poles, with 95 lb. balance wheel. Shipping wt., 335 lbs. Price **$12.25**

288B3704—For cord-wood only, as in large illustration; 60 lb. balance wheel. Shipping weight, 275 lbs. Price... **$10.80**

288B3706—For cord-wood only, as in large illustration; 95 lb. balance wheel. Shipping weight, 310 lbs. Price... **$11.65**

Shipped from warehouse near Chicago.

Climax Steel Frame Cord-Wood and Pole Saw Frames

$16.95

Style A

Unexcelled for safety, high service, durability. Frame made entirely of steel. For blades 20 to 30 in. in diameter. 1 9/16 mandrel. Superior to wood saw frames in durability, rigidity and strength. Frame is constructed entirely of angle and flat steel bars, securely riveted and bolted, and furnished with wood skids with stake holes to which the frame is bolted. Mandrel is 1 9/16 in. diameter, with arbor turned for 1⅜ in. saws. This gives a heavier shoulder for the arbor plates and prevents them working in on the threads to cut the shoulder.

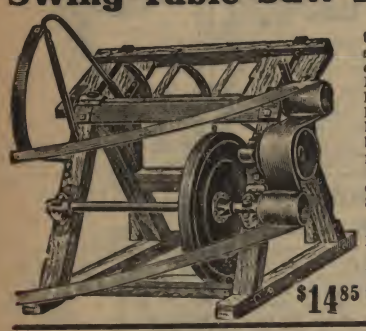
$19.90

Style B

Self-Aligning Babbitted Boxes

The long bearings work on pivots, aligning themselves with mandrel, preventing friction, even if saw frame is slightly strained, or not set level. Of exceptional value in any high speed work. Lower shaft bearings on style B frame are plain babbitted. Table is tilted pattern; also steel construction, with roller and guide. Saw guard has large hood, affording more protection than the small narrow ones generally furnished. Diameter of pulleys, 5 in., with 6 in. face. 90 lb. balance wheels. Shipped knocked down. Saw blades are extra.

Left hand illustration above shows style A, left hand, for cord-wood only. Right hand illustration above shows style B, right hand with 1½ inch cold rolled shaft with balance wheel under the table to handle poles of any length.



288B3716 — Style A. For cord-wood only. Shipping weight, 285 lbs.
Right hand price **$16.85**
Left hand price **16.95**

288B3720 — Style B. With low down balance wheel for either cord-wood or poles. Shipping weight, 330 lbs.
Saw blades not included but are extra. See below.
Right hand price **$19.90**
Left hand price **20.00**

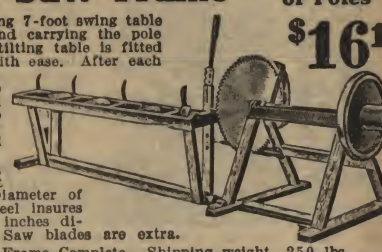
Shipped from warehouse near Chicago.

Swing Table Saw Frame

For Poles or Cord-Wood. Extra heavy and Strong. It will satisfy you.

The large sales of these outfits are due to superior features. The balance wheel is low down, is out of the way so as not to interfere with long poles, thus giving the machine a steadier motion than if attached to the mandrel. Frame is of extra strong construction. Made to give good, long service. Diameter of mandrel, 1½ in., cold rolled steel; length, 49 in., turned at arbor to fit saws with 1⅜ inch hole. Tightener pulley in center, hung on strong bracket box. Diameter of tightener pulley, 8 in. Diameter of shaft pulleys, 5 in., all with 6 inch face. All bearings babbitted. 95 lb. balance wheel. Works equally well with cord-wood or poles. Speed, per minute, 750 to 1,000 revolutions. Shipping weight, 400 lbs. Saw blades are extra.

288B3732—Right Hand. Wood drops to your right. Price **$14.85**



288B3734—Left Hand. Wood drops to your left. Price **$14.90**

$14.85 **Shipped from warehouse near Chicago or from factory in Southern Minnesota.**

7-Foot Swing Table Pole Saw Frame

For Cordwood or Poles

$16.10

Especially adapted for sawing long poles. The extra long 7-foot swing table is of great advantage in this kind of work, steadying and carrying the pole much better than an ordinary 4-foot swing table. The tilting table is fitted with 3 rollers, enabling one man to handle long poles with ease. After each cut the table is returned to position by a compression spring. A steel lever, fitted with dogs, holds the pole in place on the table. This enables the operator to hold the pole firmly in position and makes it impossible to twist or pinch the saw. The frame is all made of perfectly seasoned hardwood, is well braced and designed carefully throughout.

Bearings long and well babbitted. Diameter of mandrel, 1⅛ inches, cold rolled steel, turned down to 1⅜ inch at arbor to take sawblades with 1⅜ inch center holes. Diameter of pulley, 5 inches, with 6 inch face. 95 lb. balance wheel insures steady cut on large poles. Suitable for saws 20 to 30 inches diameter. Speed, 750 to 1,000 revolutions per minute. Saw blades are extra.

288B3754—Right Hand 7 foot Swing Table Pole Saw Frame Complete. Shipping weight, 250 lbs. Price **$16.00**

288B3756—Left Hand 7 foot Swing Table Pole Saw Frame Complete. Shipping weight, 350 lbs. Price **$16.10**

Shipped from warehouse near Chicago.

Sliding Table Saw Frames

For Cordwood or Poles

$17.95 and $18.00

One of the most Satisfactory Wood Saw Frames Made. Balance Wheel on Separate Arbor Below Table. Two Factories Time and Freight Saving.

One of the most desirable and popular styles of wood saw frames, having nearly all the good features of all others combined. Has greater durability on account of low down balance wheel relieving strain. It is the sliding table pattern, very strong. Balance wheel is on a separate shaft out of the way, allowing the sawing of poles as well as cord-wood. Belt tightener pulley on heavy bracket shaft box prevents belt slipping and insures even, steady motion. The frame is of seasoned hardwood, strongly bolted and thoroughly braced. Substantial safety hood over saw blade. Diameter of arbor and mandrel pulleys, 5 in., 6 in. face. 95 lb. balance wheel, all bearings well babbitted, 1½ in. cold rolled steel mandrel with 1¾ in. arbor. Speed, 750 to 1,000 revolutions per minute. Shipping weight, 430 lbs. Saw blades are extra.

288B3766—Right Hand Pole Saw Frame. (Cut-off wood drops to your right hand.) Price. **$17.95**

288B3768—Left Hand Pole Saw Frame. (Cut-off wood drops to your left.) Price **$18.00**

Shipped from warehouse near Chicago or from factory in Southern Minnesota.

Sliding Table Saw Frames

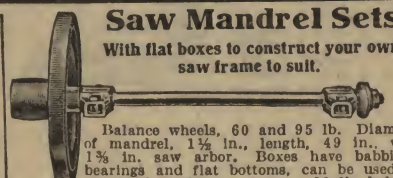
Strong, Durable, Well Made

$13.80

Two Factories Freight Saving. Especially Adapted For Cordwood. You Can't Buy Better.

Showing Right Hand Frame

Made of thoroughly dried hardwood, well bolted, strongly braced and intended to stand rough service. Table runs on roller slides and is easily moved back and forth when loaded. Length of mandrel, 49 inches, made of 1½ inch cold rolled steel turned at arbor to fit 1⅜ in. hole in saw. Heavy 95 pound balance wheel. Long bearings, babbitted. Diameter of pulley, 5 in., 6 in. face. For use with saws 20 to 30 in. diameter. Speed, 750 to 1,000 revolutions per minute. Saw blades are extra. Shipping weight, 370 lbs.



288B3778—Right Hand Saw Frame. (Cut-off wood drops to your right.) Price **$13.80**

288B3780—Left Hand Saw Frame. (Cut-off wood drops to your left.) Price **$13.85**

Shipped from warehouse near Chicago or from factory in Southern Minnesota.

Saw Mandrel Sets

With flat boxes to construct your own saw frame to suit.

Balance wheels, 60 and 95 lb. Diameter of mandrel, 1½ in., length, 49 in., with 1⅜ in. saw arbor. Boxes have babbitted bearings and flat bottoms, can be used on any kind of flat top frame. 60 lb. balance wheels suitable for operation with gasoline engines having heavy balance wheels.

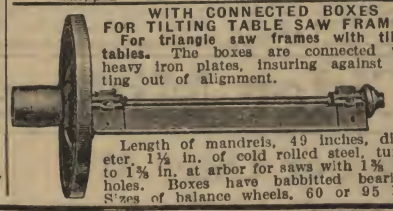
288B3790—Complete set, including mandrel, with arbor plates, flat babbitted boxes, 5 inch pulley with 6 in. face, and 60 lb. balance wheel. Shipping weight, 125 lbs. Price **$6.95**

288B3792—Complete set, as above, but with 95 lb. balance wheel. Shipping weight, 160 lbs. Price **$7.95**

288B3794—Mandrel only, with arbor plates. Shipping weight, 31 lbs. Price **$2.65**

288B3796—60 lb. balance wheel only. Price **2.10**

288B3798—95 lb. balance wheel only. Price **3.20**



288B3800—Flat babbitted boxes. Per pair **1.40**

288B3802—5 inch diameter, 6 inch face pulley. Price **$0.85**

Shipped from warehouse near Chicago.

WITH CONNECTED BOXES FOR TILTING TABLE SAW FRAMES

For triangle saw frames with tilting tables. The boxes are connected with heavy iron plates, insuring against getting out of alignment.

Length of mandrels, 49 inches, diameter, 1½ in. of cold rolled steel, turned to 1⅜ in. at arbor for saws with 1⅜ inch holes. Boxes have babbitted bearings. Sizes of balance wheels, 60 or 95 lbs.; diameter of pulleys, 5 inches, 6 inch face. Right hand or left hand (state which).

288B3840—Mandrel set, including mandrel, 60 lb. balance wheel, connected boxes and pulley. Shipping weight, 140 lbs. Price **$7.35**

288B3842—Mandrel set, including mandrel, 95 lb. balance wheel, connected boxes and pulley. Shipping weight, 170 lbs. Price **$8.20**

288B3844—Babbitted boxes, with connecting plates. Weight, 15 lbs. Per set, price **$1.80**

Shipped from warehouse near Chicago.

Cord-Wood Saw Blades

A very fine quality of steel. From one of the largest and best known manufacturers.

All sizes have 1⅛ inch arbor hole. Teeth are filed sharp with deep round gullets and set ready for use, also crated for shipment. To operate at full capacity requires about 2½ Horse Power for the 20 and 22 inch saws, 4 H. P. for the 24 in., 5 H. P. for the 28 and 30 inch, but less power if the operator does not try to cut too fast. If saw blades show defects, when kept with rounded gullets properly filed and set, they will be replaced. Speeds given are manufacturers' rating. We do not recommend more than 1,000 revolutions per minute. Weights, crated, range from 12 lbs. for 20 in. size to 32 lbs. for 30 in. size.

Art. No.	Diam.	Gauge	Speed	Price
188B3820	20 in.	13	1000 to 1400	$2.80

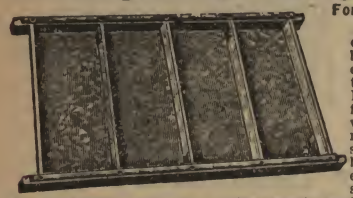
Shipped from our store, or with saw frames, from warehouse near Chicago, or from factory in Southern Minnesota.



Cane Mills and Evaporators

Write us for prices on Power Cane Mills and Complete Outfits

Ohio Evaporating Pans

$5.50 and up — 2 Skimmers With Each Pan

For Maple Syrup or Thin Juices

For either rocker furnaces or brick arch. Heavily bound, riveted and soldered. The sides and ends are turned up square and lapped, preventing the juice from coming in contact with the wood. Especially recommended for maple syrup, which is absorbed by unlined pans. No seams exposed to fire; the divisions between sections are 4 inches high and 15½ inches apart, so that the scum cannot pass from one section to another. Gate between each section by which the flow of the syrup can be regulated at will, enabling the operator to draw off the syrup in batches, one section at a time. Depth of pans, 4 inches. Galvanized pans are of 24 gauge steel. Copper pans are of 16 oz. cold rolled copper. Width of all pans, 42 inches. Two large skimmers and full directions with each pan.

Western Cane Mills

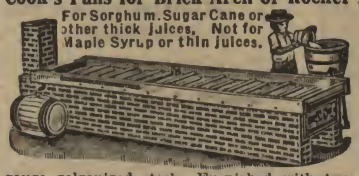
For Sugar Cane or Sorghum

Sweep Horse Power. Powerful and Durable

$16.35

Three-Roll Vertical

Have 3 vertical rolls, steel shafts and brass bearings. The cog gears are cast separate from the rolls, and made very heavy, with two clutches on each wheel, which fit two corresponding clutches in each roll, thus doing away with keys.



Top and bottom journals run in brass lined boxes, permitting the mill to work smoothly and easily. Steel shafts with turned bearings; turned rolls with serrated faces, enabling a regular and constant feed to be maintained. The main rolls are flanged at top and bottom, preventing the cane from passing either up or down. A feed guide comes with each mill, made so that the full length of the roll can be used; encased gearing prevents it from becoming clogged, thus making it entirely safe for the operator. Sweeps not furnished. Not intended for tropical cane. Write us for special prices on large tropical cane mills.

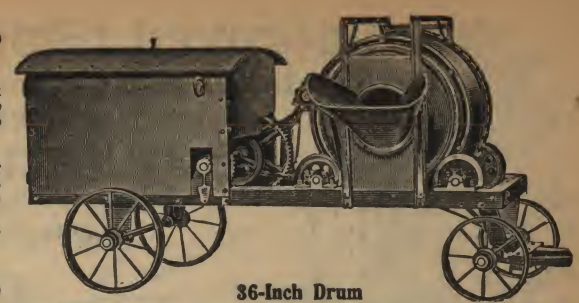
Climax Drum Cement Batch Mixer

Capacity up to 50 cubic yards per day
Standard Type, 5 ft. Batch, with practically all the Features of the well known mixers, including arrangement of paddles, dumping pockets, discharge spout, etc.

$169.00
Complete



Big Capacity

For the contractor or the farmer who has much work to do we not only recommend our Climax as equal in operation or construction to other similar mixers, but our price means a saving of from $40 to $50 over usual prices.

Frame is very strong, having 3½x4x⅜ in. steel angles, sufficiently heavy to carry double the weight. It has an extremely firm base that lessens the liability of the machine getting out of alignment. The roller axles are 1 11/16 in. cold rolled steel, heavier than is customary on this size mixer. Rollers are 10 inches in diameter and 2½ in. face. Set screwed to shafts. Mixing drum has cast-iron ends, with steel-center shell, all held in place by 6 rods.

Slop flanges are provided in both ends to prevent material from running over the side on the bearings. The loading end has 14 in. opening. Width of drum, 34 in. over all, diameter, 36 in. Discharge opening, 12 in. Belt-chain drive. No. 78 link. Three paddles in drum. Ten gauge drum shell. Discharge spout is controlled by a lever, which tilts the spout at different angles in mixing or discharging. Main drive shaft, 1 11/16-in. cold rolled steel. **(A full and complete detailed description of our Climax Drum Batch Mixer in our special Cement Machinery Book. Send for copy.)**

36-Inch Drum

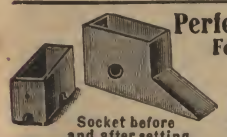
288B4000—Climax Drum Batch Mixer, complete with 2½ H. P hopper, cooled engine, engine housing, and otherwise, as above. Weight, 1,800 lbs. Price **$169.00**

288B4002—Climax Drum Batch Mixer, without engine or engine housing, but otherwise complete, including truck. Weight, 1,200 lbs. Price **$107.50**

Shipped from Factory in Southern Wisconsin.

Monarch Hand Concrete Mixer

$13.25



A satisfactory low priced batch mixer. Especially designed for farm use.

The Monarch is an exceptionally serviceable little mixer, with a capacity of three cubic feet to the batch, that will thoroughly mix in 8 to 10 revolutions. The drum is 14x14x30 in., made of cold rolled sheet steel, is square in shape, so that the material is carried well up to the top, and falls to the opposite side four times during each revolution. No obstruction inside of drum, so that it is easily cleaned. Three strong rods, running on outside the entire length, hold the drum perfectly secure. Cover is a slide that permits dumping entire length of drum. Frame is made of steel and on runners so that the mixer can readily be moved from place to place. Wheelbarrow or drum can run under frame, at end or one side, to receive the mixed material when dumped. Shipping weight, 240 lbs.

288B4012—Price **$13.25**

Shipped from Warehouse near Chicago, or from Factory in Central Iowa.

Perfection Iron Socket
For Concrete Floors

Socket before and after setting

Cast iron sockets to set in concrete floors to set studs in place of bolting wood sills on concrete floors. Make a more rigid connection than wood sills. While concrete is soft, the socket can be set as desired. Hole in the socket permits fastening the stud, to make it firm and rigid. Also hole for water drain.

Give a firm foundation to stud and make rotting practically impossible. No bolts needed.

			Each
288B4056—For 2x4 studs.	Shpg. wt., 3 lbs.		20c
288B4058—For 2x6 studs.	Shpg. wt., 4 lbs.		25c
288B4060—For 2x8 studs.	Shpg. wt., 5 lbs.		30c
288B4062—For 4x6 studs.	Shpg. wt., 6 lbs.		35c

Special Catalogue

For a complete description of our power cement mixers, brick machines and other cement machinery, write for our Special Cement Machinery Catalogue.

For large or small jobs. An Economical and Satisfactory Machine for the Farmer or Contractor. Equal to Many Block Machines on the Market that Retail at from $50.00 to $60.00.

Diamond Block Machine

$35.50 and $38.50

Made in Two Sizes for Building Blocks 8x8x16 in., 8x10x16 in., Extra Strong; Durable. Makes Blocks Face Down.

Lever Core; Face Down; Interchangeable Mold Boxes. **$35.50 and $38.50**

For economy, quick work, durability, big capacity and extra nice uniform blocks, we recommend our Diamond. Its great strength especially adapts it to the requirements of the contractor for continuous work, and its low price places it in reach of the farmer who has only occasional work to do.

A Face Down machine with Double Cores operated by lever. Each part carefully made, shaped and fitted to make as near perfect blocks as any other machine of its kind. Can be furnished for blocks 8x8x16 in., and 8x10x16 in. To make both sizes necessitates the purchase of only two extra molds that can be used over the same frame, with the same lever, face plates and cores. No bolts to attach or change plates. Mould boxes closed up perfectly square with self-locking hinges and can be instantly locked or unlocked.

STYLES OF BLOCKS THAT CAN BE MADE ON THE DIAMOND FOR WHICH WE CAN SUPPLY PLATES AND DOORS

Panel face. Rock face. Cobblestone face. Scroll face.
Plain face. Broken ashlar. Half rock and half plain face. Half panel and half tool face.

EQUIPMENT REGULARLY FURNISHED WITH EACH COMPLETE MACHINE

1 Plain Face for Whole Blocks.	1 L. H. Plain End Door.	1 Steel Plate for Gable Blocks.
1 Plain Face for ½ and ¼ Blocks.	1 R. H. Core End Door.	2 Joist Attachments.
1 Plain Face for ¾ Blocks.	1 L. H. Core End Door.	1 Steel Carrier.
1 Rock Face for Whole Blocks.	2 Core Plugs.	1 Steel Stripper.
1 Rock Face for ½ and ¼ Blocks.	2 Pallet Plugs.	1 Double End Tamper.
1 Rock Face for ¾ Blocks.	2 Dividing Plates for ½ and ¼ Blocks.	1 Sample Wood Pallet.
1 L. H. Rock End Door.	1 Graduating Bar.	1 Sample Iron Pallet.
	1 Steel Plate for Inside Corners.	

PRICES FOR COMPLETE MACHINE, WITH ONE SIZE OF MOLD-BOX

288B4020—Complete 8x 8x16 inch block outfit. Shipping weight, 450 lbs. Price, complete.. **$35.50**
288B4022—Complete 8x10x16 inch block outfit. Shipping weight, 480 lbs. Price, complete.. **38.50**

EXTRA MOLD-BOX OUTFITS

An 8x10x16 Inch Mold Box Outfit will fit 8x8x16 Inch frame

1 Rock end door.	2 Pallet plugs.	Plates for inside corner.
1 Plain end door.	Graduating bar.	2 Joist attachments.
2 Core end doors.	Plate for gable blocks.	1 Wood and 1 Iron pallet.

288B4024—8x 8x16 in. Mold-box Outfit; weight, 180 lbs. Price **$15.25**
288B4026—8x10x16 in. Mold-box Outfit; weight, 210 lbs. Price **18.75**

With the regular outfit we can furnish in place of the plain rock face plates, any of the styles listed above.

Extras

	288B4028 8x8x16	288B4030 8x10x16
Face plates for whole blocks; face plates for ½ and ¼ blocks; face plates for ¾ blocks. Any style face, plain, rock, panel, etc. (State which.)	$1.75	$1.80
Right hand end door or left hand end door	1.35	1.55
Silo block attachment for 12, 16 and 20 ft. diameter, 8x8, 8x10 or 8x12 in. blocks, with interlocking ends and reinforcement groove. State size. Weight, 70 lbs. Price, either size	6.90	
Adjustable bay window block attachment, any style face. Weight, 20 lbs.	3.25	3.65
Iron Pallets	.27	.34

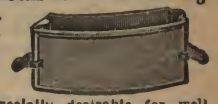
Complete Outfits, Extra Plates and Parts Shipped from Warehouse near Chicago.

Monarch Power Cement Mixer

$33.50

Suitable for moderately large work. Capacity of drum, 5½ cubic feet. Back geared. Tight and loose pulleys. Steel frame.

Our Monarch Power Mixer is constructed entirely of iron and steel, and will do as good work as other mixers of equal size that sell at double our prices. We recommend the purchase of a power mixer, where power is available, even though the work is very limited. One to two horse power will readily operate our Monarch, which will thoroughly mix a batch in 10 to 12 revolutions. Mixes 5 to 6 cubic feet per batch. The square shape of drum insures the material being carried well to the top, and is preferable to round drums that allow the mass to slide. Full length slide opening for dumping. Angle steel frame, with space underneath for wheelbarrow to receive the dumped material. Sprocket wheel and link belt chain drive. Drum, 20x20x36 in.



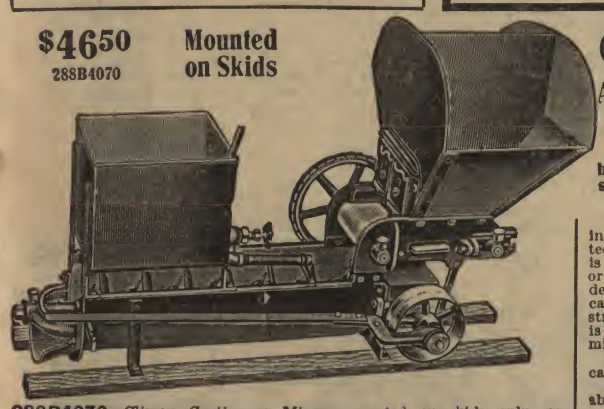
Tight and loose pulleys, 12 in. diameter, with 3 inch face. Shipping weight, 335 lbs.

288B4035—Power Mixer. Price..... **$33.50**

Shipped from Warehouse Near Chicago or Factory in Central Iowa.

Climax Well Curbing Mold

Extremely Simple, Durable and Easily Operated Machine for Making Blocks for Well Curbing. Also Adapted for Making Blocks for Water Troughs, and Small Culverts.



Concrete blocks are especially desirable for well curbing. They are very easily made in our Climax. The moulds consist of the front and back plates and 2 end plates held in place by 2 end latches. One end has a half circle, vertical groove and the other end in the form of a key, so that the blocks lock into each other when laid together. Make blocks for wells, water troughs or culverts from 3 to 10 feet diameter. All blocks 7¾ in. high, average length, 16 inches, 4 inches thick.

288B4040—For circle 3 ft. diameter. Shipping weight, 50 lbs. Price **$3.65**
288B4042—For circle 4 ft. diameter. Shipping weight, 56 lbs. Price **$3.85**
288B4044—For circle 6 ft. diameter. Shipping weight, 62 lbs. Price **$4.25**
288B4046—For circle 8 ft. diameter. Shipping weight, 75 lbs. Price **$4.50**
288B4048—For circle 10 ft. diameter. Shipping weight, 82 lbs. Price **$5.00**

Shipped from Factory in Southern Wisconsin

$46.50 **Mounted on Skids**
288B4070

Climax Continuous Mixer

Automatic Feed. Steel Mixing Blades. Especially Adapted for Block, Sidewalk and Foundation Work

A continuous mixer designed especially for the farmer and small contractor. It is big enough to handle up to 15 cubic yards of material a day, strong enough to withstand hard usage, and light enough to be easily moved about.

288B4070—Climax Continuous Mixer, mounted on skids only, as shown. Weight, 300 lbs. Price, at factory **$46.50**
288B4072—Climax Continuous Mixer, mounted on truck. Weight, 460 lbs. Price at factory **$59.50**

Shipped from Factory in Central Iowa

The body of the mixing chamber is heavy sheet steel. Gears carried in a heavy casing, which has long sand-proof bearings. Gears protected from sand and cement. Grease cups on all bearings. Hopper is divided into two compartments. One for cement, and one for sand or gravel. Each compartment has separate feed, so that any proportion desired can be obtained by adjusting feed slides. A continuous belt carries the material from the hopper, and feeds it in an unbroken stream. The feed belt automatically starts and stops, as the mixture is supplied. A lever works the clutch and belt pulley, so that the mixture can be stopped at any time independent of the power.

A water tank, with lever shut-off valve, is furnished. The material can be wet as desired.

Regularly furnished with 14-inch diameter driving pulley. Speed, about 250 revolutions of pulley. Two-horse power required.

A hand truck with 16-inch diameter wheels, 1½ inch steel axles, and channel steel frame, 8 ft. long, can be furnished when so ordered. The length of frame allows 4 ft. on which to mount an engine with mixer. Truck has long hand ball that can also be attached to rear of wagon for hauling about.

Mixing Shaft with Blades

Mixing blades are steel, 28 in all, that split the material like a hoe. 21 blades move it forward, while 7 blades reverse the material so that the 21 forwarding blades handle it the second time. In this way practically double mixing is obtained.

Lever that works the clutch on the belt pulley runs back to the rear end of the machine so it is handy to get at. You can start or stop machine any time independent of the power. It is also convenient if you desire to use wheelbarrows to cart away the mixed materials. Simply throw the clutch out and this stops material from coming until you get another wheelbarrow. Our Climax Continuous Mixer is one of the most economical to operate, as it is easy to move, can be kept close to the material and does not require much room. Easy to shovel into; durable, as the continuous feature relieves the hard usage that batch machines are subject to.

Bull Dog Cement Post Machines

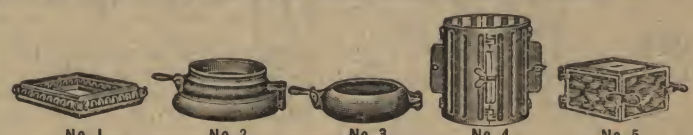
Make Your Own Posts. Won't Burn, Won't Rot, Won't Wear Out. No Replacing. No Repairs

OUR BULL DOG is regarded among post makers as a convenient, durable and satisfactory machine for quick work. **THE CORRUGATIONS** of our posts permit attaching any kind of wire fence, and add to the appearance of the post.

Our molds will make more shapely posts than many other similar machines. Frame is made of cold rolled Bessemer steel and end gates of clear gray iron. Corrugated sheets are of special grade steel that will not permit material to stick as on ordinary iron. Corrugations have rounded surfaces leaving no sharp corners to chip off. The improved automatic locking device to instantly lock and unlock the mold, permits one man to operate the machine satisfactorily. Double end tamper furnished.

With each mold, instructions are furnished for preparing and seasoning material, for operating machine and other information, assisting an inexperienced operator to make good posts. WE RECOMMEND MODEL NO 2 FOR ORDINARY FARM REQUIREMENTS.

288B4080—No. 2 Field Fence Molds, for posts 7 ft. long, 3½ in. wide, 5½ in. thick at bottom, 3½ in. thick at top, 4½ ft. corrugated. Shipping weight, 60 lbs. Price, at our store **$5.60**



288B4082—No. 3 extra large field fence mold for posts 7 ft. long, 4½ in. wide, 6½ in. thick at bottom, 4½ in. thick at top, 4½ ft. corrugated. Shipping weight, 70 lbs. Price, at factory **$6.95**

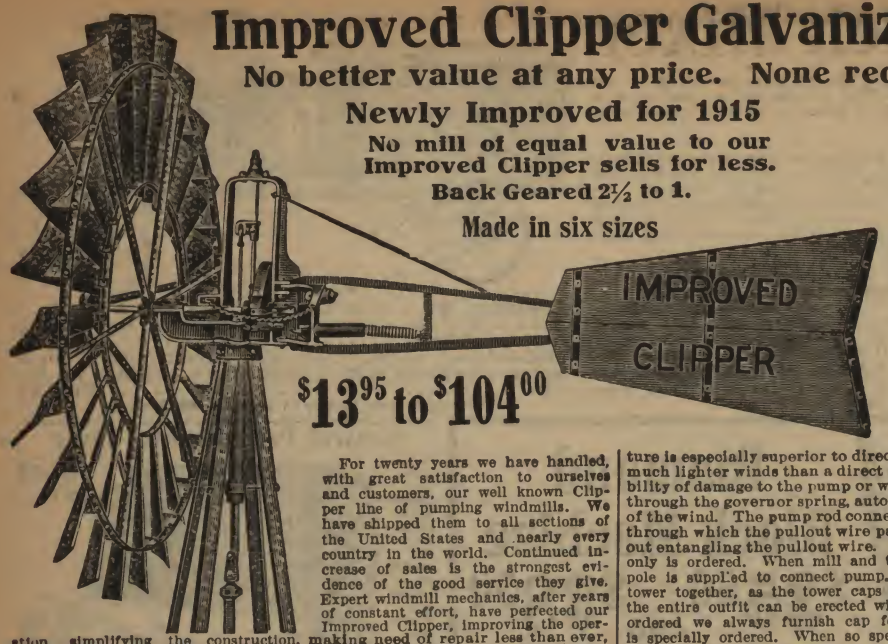
288B4084—Reinforcements of No. 9 crimped wires, 4 required to each post, length, 6½ ft. for 7 ft. posts. Price, per bundle of 50, Shipping weight, 18½ lbs **78c**

Shipped from our store or from Factory in Southern Wisconsin

Climax Porch Column and Pier Outfits

To make up the complete column, a complete set of molds, as shown here, is necessary. The square molds are made in four parts, the round in two parts, securely held together by a latch, easily operated. Each section of mold arranged to be easily removable without breaking off corners. Made of close-grained gray iron, and closely fitted, so they can be used for poured or semi-wet mixture.

No. 1 No. 2 No. 3 No. 4 No. 5



288B4094—Pier Cap Mold, No. 1. Is 12 in. square at bottom; 14 in. square at top. Shipping weight, 30 lbs. Price **$4.25**
288B4096—Column Base Mold. No 2. For 10-in. column outside. Diameter, 14 in. Shipping weight, 40 lbs. Price **$3.25**
288B4098—Ring Mold, No. 3. For 10-in. column. Outside diameter, 12 in. Shipping weight, 20 lbs. Price **$2.15**
288B4100—Column Mold, No. 4. For 10-in. column. Height, 12 in. Shipping weight, 45 lbs. Price **$3.90**
288B4102—Square Pier Mold Rock, No. 5. Panel, or plain face (state which), to make blocks 14x14 in. for 10-in. column. Shipping weight, 60 lbs. Price **$4.30**
288B4104—Complete Outfit, including all of above molds. Shipping weight, 200 lbs. Price **$17.25**

Single Molds or Complete Outfits Shipped from Factory in Southern Wisconsin

Improved Clipper Galvanized Steel Windmills and Towers

No better value at any price. None requires less repair.

Newly Improved for 1915

No mill of equal value to our Improved Clipper sells for less.

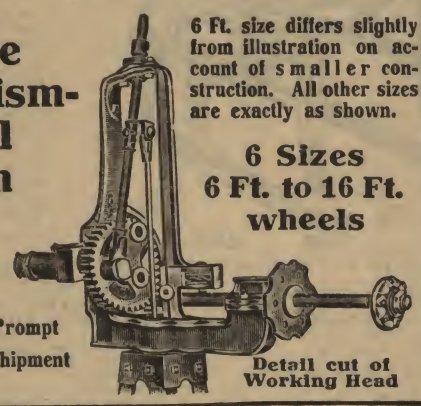
Back Geared 2½ to 1.

Made in six sizes

$13.95 to $104.00

For twenty years we have handled, with great satisfaction to ourselves and customers, our well known Clipper line of pumping windmills. We have shipped them to all sections of the United States and nearly every country in the world. Continued increase of sales is the strongest evidence of the good service they give. Expert windmill mechanics, after years of constant effort, have perfected our Improved Clipper, improving the operation, simplifying the construction, making need of repair less than ever, and perfecting small details of the old Clipper, which all combined warrants us in making the assertion that, **You cannot purchase a better mill at any price.**

WINDMILL GUARANTEE



The Improved Clipper Windmills and Towers are guaranteed to be carefully constructed of number one material throughout, and when properly erected and cared for, will pump as much water and require no more repairs than any other mill of equal size, under like circumstances. This guarantee is in force during one year from date of purchase.

It is easy to erect our windmills and towers, as it requires no mechanical training. By following the clear and concise directions that we supply, the regular farm hands can erect them without difficulty, skilled help is unnecessary. **Construction,** strength, durability and simplicity are fully demonstrated in the Improved Clipper. The materials used are such as are best adapted to the requirements, and are heavy enough to withstand all strains, yet not so heavy as to give the materials a clumsy appearance, or prevent them from being thoroughly effective. **Wind Wheel** is made up in six sections in all sizes except the 6 foot mill, which is made in four sections. Our 6, 8, 12 and 16 foot mills have four sails to each section; 10 and 14 foot mills have five sails to each section. Each section is rigidly supported by heavy, anchor steel braces. Sails are made of heavy galvanized steel and shaped to receive the full effect of the wind. Vane is made of heavy galvanized sheet steel and heavy steel bracing, and is provided with an effective spring governor, which, by its action on the vane, holds the wheel at the proper angle to develop only the required velocity for work in heavy winds and causing it to face lighter winds full and obtain the full effect. The governor is adjustable so the operator may readily set it to get the best results from the prevailing winds in his section. **The Working Head** is as simple as can be used on any windmill. It distributes the strain and wear equally, so there are no weak parts to give trouble, no need of frequent repairs. It is back-geared 2½ to 1, the wind wheel making 2½ revolutions to each up stroke of the pump. This feature is especially superior to direct stroke mills as the mill will operate in much lighter winds than a direct stroke mill, and in a storm there is less liability of damage to the pump or working parts. An effective brake, operated through the governor spring, automatically holds the wheel, when locked, out of the wind. The pump rod connection has a swivel joint through the center through which the pullout wire passes and allows the mill to turn freely without entangling the pullout wire. 32 feet of pump pole furnished when mill only is ordered. When mill and tower are ordered complete, sufficient pump pole is supplied to connect pump. We recommend the purchase of mill and tower together, as the tower caps to receive the mill are perfectly fitted, and the entire outfit can be erected with very little trouble. When mills only are ordered we always furnish cap for wood tower, unless the steel tower cap is specially ordered. When so specified, we can supply masked fittings with the mills in place of wood or steel tower caps. **Prices given below are for mills only, complete with tower cap, ready to set on tower. They do not include the short stub tower shown in the illustration.**

Article Number	Price	Size of Wheel	Length of Stroke	Shipping Weight
288B4200	$13.95	6 ft.	4 & 6 in.	280 lbs.

Galvanized Steel Clipper Towers

Extra heavy

Notice the weights

4 Posts

These Prices are for Towers only.

$13.90 For 20 ft.

One Section of Tower only showing Construction.

Made in three styles or weights, each properly proportioned for the mills they are designed to support.

A set of cross girts is provided for every 10 ft. section, the last set being close to the ground and just above the anchor post joints. Each 10 ft. section is firmly braced by four sets of round steel brace rods with an eye turned at each end so as not to reduce the size. Two rods on each side of the tower cross each other at a point near the center of the section, where they are clamped and can be tightened so that each pair of the rods bear the same tension, **making the tower rigid and firm.** Also have diagonal cross rods from corner post to corner post in every 10 ft. section, by means of which the tower is squared up. **Ladders** are made of steel, firmly riveted, making them safe to climb. Pull-out lever attached to left post is furnished when mills and towers are ordered together. **Anchor Posts** are made of the **best quality of angle steel.** Each tower furnished with platform.

Windmill Quadrants

No. 188B4250—Price, without Wires, each.....$2.85

Shipping weight, about 53 lbs.
For either pumping or power mills

$2.85

Used to transmit power from mill when mill is some distance from the pump. Two levers with two wires drawn tight by take-up bolts. Pump connection, 8 feet of wood pump rod, pivot plates and center bolts included.

188B4251—Quadrant galvanized wire for connecting.
Price, per rod.....4c

Clipper Windmill Regulator

188B4255—Price, $1.85

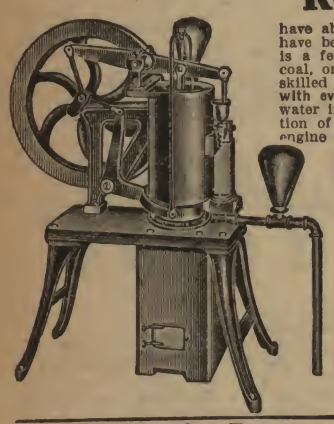
Shipping weight, 14 lbs.

When tank is empty the regulator lets the mill into the wind until tank is full. When full the regulator throws the mill out of wind. It starts mill when the water in the tank is lowered 8 inches. It can be attached to a 2x6 inch plank on either side of pump rod. Tank may be located a distance from the windmill. Wire furnished to connect to tank at tower; additional wire is extra. **Rack bar is made of steel,** balance of malleable iron. Directions with each. Float not furnished.

188B4256—Extra wire, per rod.....4c

Windmill Pump Spring

188B4260—Price, 65c



Shipping weight, 7¼ lbs.

A cushion spring, simple in construction and intended to connect between the wood and flat pump bar, or it can be readily changed to any joint on the wood rod, thus eliminating jars and jerks on pump and lengthening its life.

It fits all pumping mills. Is attached the same as any common pump connection. **Makes pumping easier and allows the mill to do more work in lighter winds.**

Reeco Hot Air Pumping Engines

have about a 35 years' unbroken record of success, during which time nearly fifty thousand have been distributed to all parts of the globe. The wonderful simplicity of hot air engines is a feature of the greatest value. Any boy or girl who can build a little fire of wood or coal, or who can light a gas jet or kerosene burner under the engine, can run it as well as a skilled mechanic. The cost of operation is so small as to be trifling. **Information required with every order.** The quantity of water needed per day. The depth of well. Usual depth of water in well in dry season. Diameter of well, or well tube. Vertical distance from foundation of engine down to water. Length of horizontal suction pipe. Vertical discharge above engine in feet. Length of horizontal discharge pipe. Kind of fuel to be used. Size of pipe.

Illustration shows our No. 5 engine which will work satisfactorily on a total lift of 50 feet from the surface of the supply water to the highest point of discharge, including friction in pipes, elbows and fittings.

Shipped from Factory in New York

$28.00 Gasoline Engine Pumping Outfits Complete $29.00

This outfit includes engine, pump jack and belt, ready to attach to any pump. The engine can be used for all kinds of light work. One horse power Dairy Maid, air-cooled or water cooled, as ordered. For specifications of engine and **Climax Pump Jack,** see other pages of this book. 16 feet of regular 2-inch 2-ply rubber belting. For short runs and shallow wells you should order the air-cooled outfit. For deep wells and long, continuous service the water-cooled outfit is the one to buy. **Equipment.** Battery Box, containing dry batteries, spark coil, switch, and necessary wiring. Sight feed oiler for cylinder. Oil pockets for main bearings. Oil shield totally enclosing engine crank case. Safety folding Starting Crank in the rim of fly wheel. Gasoline tank located under engine base. Carburetor, muffler and instructions. **No tools furnished.** Pump not furnished.

188B4331—Complete outfit as above, with air cooled engine. Total shipping weight, about 300 lbs.
Price $28.00

188B4333—Same as above, with water-cooled engine in place of air-cooled engine. Price.....$29.00

Electric Pump Outfit

$52.00

For use where vertical suction is not more than 20 feet. The pump and motor are mounted on a cast iron bed plate with legs, which raise them above floor level, making them accessible for oiling and attention and also keeps them free from dirt and moisture. The belt from motor to pump is a leather waterproof belt, kept at constant tension by an automatic spring idler, insuring a positive drive. Belt is noiseless. Outfit is designed to pump into open elevated tanks. Motors are furnished for either alternating or direct current, as ordered. **In ordering it is absolutely necessary to state voltage and whether current is direct or alternating, and if alternating whether 1, 2 or 3 phase and number of cycles.**

For Direct Current, 110 Volts

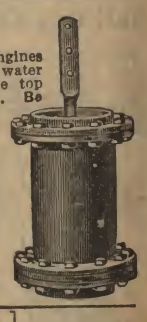
Working Head

With Double Rod Guide

A style of working head which is particularly adapted to the deep wells of the Southwest. May be used with windmills or any other power. Power attachment is hinged and arranged to fit the wood rod of windmills. A stuffing box adapts this working head for forcing water, the discharge being made below by a Tee in the suction pipe. The larger sizes are suitable for use with irrigation cylinders.

A coupling for regular wood sucker rods or standard iron pipe to be used as pipe rod is furnished with each Working Head.



In p' ing your order be sure to say what size and kind of rod will be used. If you do not give this information, there will be a delay in filling your order.

Irrigation Cylinders

Iron or Porcelain Lined

These are large capacity pump cylinders for use with windmills, engines or other power where it is necessary to raise large quantities of water for irrigation or other purposes. The attachments or flanges at the top are fitted for standard iron pipe or spiral riveted pipe, as ordered. **Be sure to state size and kind of pipe to be used, otherwise we cannot fill your order.** The bottom attachments or flanges are always fitted for standard iron pipe.

Cylinders are furnished either iron or porcelain lined

The porcelain lining is of the dry process such as is used in the manufacture of high grade sanitary ware. Be sure to state the size of pipe, also if standard iron or spiral riveted pipe.

Irrigation Cylinders are regularly fitted for standard iron pipe half the diameter of the cylinder. Example:
A 6x18 Cylinder is fitted for 3-in. pipe,
An 8x18 Cylinder is fitted for 4-in. pipe, and so on.
These are the maximum sizes that can be used, but when so ordered we will fit for smaller pipe without extra charge.

Power Pumps, Transmission and Accessories

Geyser, Sr. Power Pumps, 1915 improvements

Cylinder and Main Frame Separate.
Outside Valve Boxes.
Screwed-in Valve Seats.
Double-Guided Plungers.
Double Gears.
Suction from Either Side.
Discharge in One of Four Directions.
Babbitted Bearings.
Designed to Operate on Total Lift and Force Not to Exceed 175 Feet.

$32.00

Description—The Geyser, Sr. Power Pump is powerful, double acting, and designed with especial reference to durability, strength and capacity, with easy access to all parts.

Valves—Are rubber discs, resting on brass seats, and having brass wire springs to hold them in position.

Valve Seats—Are of brass, screwed into position, and unlike the old way, are not hammered in. This is a decided improvement.

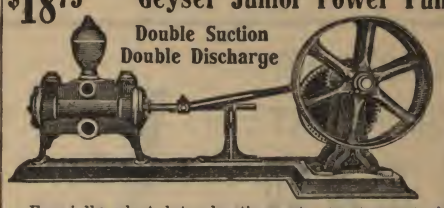
Plunger—The plunger has two crimps made of leather, especially treated for this use. The piston rod is steel, brass cased. Diameter of piston rod on the No. 2 and No. 3 sizes, ⅞ in.; on the No. 4 and No. 5 sizes, 1 inch.

Side Arms—So designed as to give a straight thrust from the crank pins to the cross head.

Crank Pins—Are constructed of the best grade steel, especially treated for this use.

All of these pumps have double gears, protected by guards.

Bearings—Are babbitted with high grade metal.



Lubrication—All bearings are provided with oil pockets. The side arms and gears are provided with oil cups.

$18.75 Geyser Junior Power Pumps

Double Suction
Double Discharge

For use wherever a Reliable Pump is needed

Especially adapted to elevating water to storage tanks, supplying water to residences, pumping oil, and all general pumping requirements. Mounted on heavy cast iron base.

Diameter of shaft, 1¼ in. All bearings are babbitted. The forked Pitman is malleable iron. Piston rod is brass covered. Pump is brass lined; has brass valve seats; and valve is rubber faced. Drain cocks to prevent freezing.

Fitted with 1½ in. suction and 1¼ in. discharge, on both sides.

288B4408—Pump, geared, 3 to 1. Diameter of tight and loose pulleys, 14 in.; face, 2½ in.; cylinder, 3x5 in. Shipping weight, about 200 lbs. Capacity, 720 gallons per hour. Price at factory..... **$18.75**

288B4410—Pump, geared 6 to 1. Diameter of tight and loose pulleys, 18 in.; face, 2½ in. Shipping weight, 210 lbs., otherwise same as above. Price at factory..... **$22.00**

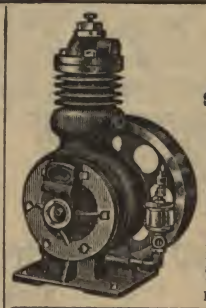
Shipped from factory near Chicago.

No. 3 Pump Jack

$5.80

Double Strength and Double Gears

Double Back Geared Pump Jack. Three strokes, 5, 7½ or 10 in. Back geared, 13 to 1, so that the pulleys make 455 R. P. M., while the pump is making 35 strokes per minute. Diameter of pulleys, 13 inches. You can belt direct from any small engine, without slowing the engine down or reducing its power. In this way you can use the full power of your engine on very deep wells, or a small high-speed engine can develop its full power and run the pump at the proper speed on shallow wells.



This is an excellent all-around jack to use with gasoline engines of all sizes. There are two sets of driving gears, giving the jack double strength.

Furnished complete with pump rod, pump yoke, grease cup, lag screws and bolts. Pump not furnished.

288B4415—Shipping weight, about 132 lbs. Price..... **$5.80**

Shipped from factory in Iowa.

Vertical High Speed Air Compressors

Small sizes suitable for pneumatic water supply systems, garages and all intermittent service on 125 pounds pressure, or less.

Simple, Durable, Compact, Inexpensive, Efficient

No suction valves to bother. One large everlasting steel-disc discharge-valve, under extra large plug. Removable with any monkey-wrench. Safety-valve adjustable to any pressure desired.

Three rings on air piston. Solid bronze connecting rod; heavy drop-forged crankshaft. Main bearings are renewable bronze bushings. Enclosed constant-level, splash oiling crank-case, fitted with breather ports. Oil will not be blown from crank bearings. Heavy drive pulley, fitted with sight-feed oil-cup, and oil-level gauge.

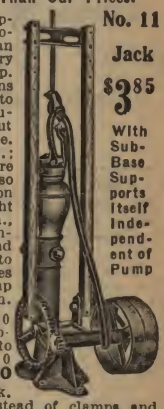
No. 10 New Climax Pump Jacks $3.30

With or Without Base. For Attaching to Ordinary Well Pump Standard

Many Others Ask 50 Per Cent More Than Our Prices.



Back-geared jacks, to operate by belt, with small gasoline engine or belt power. Can be attached to any ordinary pump with windmill top. Speed, 150 to 200 revolutions per minute. Back geared 4 to 1. With speed of 160 revolutions, pump will make about 40 strokes per minute. Three strokes, 5 in., 7½ in.; and 10 in. Pitman rods are vertical on up-stroke, so there is no side wear on pump bar. Diameter of tight and loose pulleys, 12 in., for 2-in. belt Furnished with clamp and bolts to attach to pump standard. Prices do not include pump shown in illustration.

288B4426—No. 10 Jack. With leg support, to clamp direct to pump. Shipping weight, 70 lbs. Price..... **$3.30**

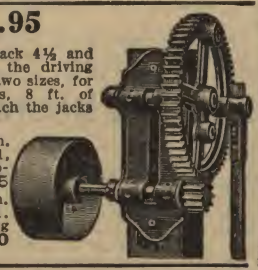
No. 11 Jack $3.85

With Sub-Base Supports Itself Independent of Pump

288B4428—No. 11 Jack. Same as above, except with sub-base, instead of clamps and bolts. Necessary where jack cannot be clamped to pump. Can be used on floor, wall or ceiling. Shipping weight, about 70 lbs. Price..... **$3.85**

Shipped from factory near Chicago.

Read Carefully



All goods listed as **388B** are made to order and will require an additional 10 days to make shipment. Unless we are in error in filling the order, and if we make the goods according to your specifications and descriptions, they cannot be taken back or exchanged. When ordering pulleys we must know diameter, width of face, size of bore and whether key-seated or with set screws. We cannot fill your order if either specification is omitted.

Accurate Measurements

Be very careful in taking measurements of your pulleys, shafts, journals, boxes, etc., as the variation of a small fraction of an inch will perhaps make the goods worthless.

Clipper Pumping Jacks, $4.95

For belt power connection to pump. Geared back 4½ and 5½ to one pump rod makes one stroke while the driving pulley makes 4½ and 5½ revolutions. Made in two sizes, for medium and heavy pumps. Pump connections, 8 ft. of pump pole and such bolts as are necessary to attach the jacks to posts.

288B4430—No. 1 Pump Jack with 10x4 in. pulley for ordinary pumps, back geared 5½ to 1, and with 6 in., 9 in., and 12 in. strokes. Shipping weight, 90 lbs. Price..... **$4.95**

288B4435—No. 2 Pump Jack with 12x5 in. pulley for large pumps, back geared 4½ to 1. Has 12 in., 15 in., and 18 in. strokes. Shipping weight, 150 lbs. Price..... **$10.50**

Shipped from warehouse near Chicago.

Rule for Finding Required Size of Driving Pulley

For Any Required Speed.

Multiply the diameter of the driven pulley by number of revolutions it should make and divide the product by the revolutions of the driver. The quotient will be the required size of driver.

To Find the Diameter of a Driven Pulley for a Given Number of Revolutions.

Multiply the diameter of the driver by its number of revolutions, and divide by the number of revolutions of the driven pulley. The quotient will be the proper size of the driven pulley.

Steel Split Pulleys

Diameter 6 in. and larger.

Diameter, 3 to 5 in.

Safe—Light Weight—Durable

Transmit more, require less power.

Prices are for pulleys complete, with bushings. **Be sure to state size of shaft.**

Intermediate sizes furnished at price of next larger size.

Badger Governor Pulley

For running cream separators. Made of cast iron with steel shaft. The pulley takes care of the variation in speed. Built on a substantial stand with long bearings at either end which are fitted with grease cups insuring smooth-running and uniform speed. Has hand wheel adjustment. When once set for any speed does not require readjusting. Length over all, 15 inches; size of engine pulley, 9 inches by 3 inches; size of large separator pulley, 4 inches by 2¼ inches; small separator pulley, 2½ inches by 2¼ inches. Weight, 35 pounds.

188B4700—Price of Governor Pulley, complete **$3.50**

Double Grip, Friction Clutch Pulleys

For Gasoline Engines

These friction clutch pulleys have friction surface at each end of the pulley hub. One friction plate is cast to the clutch sleeve and the other plate is secured on the sleeve by means of a feather key. The pulley has a flange cast on each end of the hub, and these flanges furnish the friction for the pulley.

Always shipped with hand wheel, unless otherwise ordered, but will be supplied with lever instead of hand wheel, when so ordered.

Separator Clutch Pulley

(PATENT APPLIED FOR)

388B4710—Weight, about 11 lbs. Price.$2.25

A Clutch Pulley, designed to operate cream separators by power. It is sensitive, and picks up the load gradually and evenly. Separator is started from rest and reaches its normal speed without jerks or jars. Simple in design. Easy to operate. Simply tighten the hand wheel to start it, and loosen wheel to stop it. Only four parts to the whole outfit. Can also be used on any kind of hand power machine built that doesn't make more than sixty turns a minute. Simply substitute the clutch pulley in place of the hand crank. Diameter, 14 inches; face, 2¼ inches.

When ordering be sure to state size of shaft.

Keyless Compression Coupling

A strong, smooth, safety coupling. Requires no key or set screw. When ordering, be sure to state size of shaft. A wrench furnished with each coupling.

288B4809

Water-Proof Magneto Spark Plugs and Wiring.
No Batteries Needed
Weight, about 250 Lbs.
Priming Cups
Control Levers

Speed Control from 300 to 1600 R. P. M.
Revolutions Per Minute

The Palm Beach Special Marine Engine was designed especially to meet the demand for a small four-cylinder, four-cycle motor, to give the user all the comforts and all the smoothness of the automobile. The boating public is calling for this type of motor, and we have brought out what we find is the proper size to meet all-around demands. This little, powerful motor purrs along with that pleasant smoothness that never fails to please the occupants of the boat.

The "no attention" feature is important—no oil cups to fill and adjust. Simply pour a supply of oil into the base reservoir, and the automatic oil pump handles the distribution to proper points.

The four-cylinder is the ultimate, natural type of motor to produce smoothness of operation, quickness of response, and absence of vibration. It can be completely muffled, to prevent noise from the exhaust.

The Berling Magneto Full Spark on Full Retard

The Berling Magneto delivers a "fat" hot spark under all conditions, even at a low speed. It produces a big flash every time. For smooth, easy starting, with spark retarded, it is unexcelled. It will throw an excellent spark 3/16 of an inch in length, at a speed as low as 75 revolutions per minute. It is water proof—oil proof—dirt proof.

AUTOMOBILE TYPE OF MOTOR.

In the past, Marine Motors have not kept pace with automobile practice; they have not been given attention regarding the finer points; but the latest designs show that the automobile type of motor is being rapidly adapted to boat use.

We are making a specialty of this one size and type, and have arranged for its manufacture by a factory with a complete equipment of special machinery. Every part is made to close limits, and is absolutely interchangeable. The material is the best obtainable. Bearings; high grade die castings; perfect water circulation; separate cylinder head; aluminum base; inlet and exhaust passages all cast in the main block, giving an attractive appearance.

General Dimensions

Four Cylinders—Bore, 2½ in.; stroke, 3½ in.
Speed, 300 to 1600 revolutions per minute.
Fly Wheel—Diameter, 12 in.; face, 2¼ in.
Width of Base—Between foundation timbers, 8½ in.
Width of Foundation—Outside, 12 in.
Length of Foundation—Without reverse gear, 20 in.
Length of Foundation—With reverse gear, 32½ in.
Height—From center of shaft to top of cylinders, 12 in.
Depth—From center of shaft to bottom of base, 5½ in.
Valves, one-inch with cast iron heads. Mayer Carburetor.
Berling Magneto—High tension; water proof.
Cam Shaft—One piece. Hardened.
Piston Pins—Hardened and ground.
Mushroom Valve Tappets—Hardened.
Oil Pump and Pipe—Complete in crank case; also oil gauge.
Main Bearings—Diameter, 1¼ in.; length, 2¼ in.
Steel Propeller Shaft—Diameter, ¾ in.; length, 6 ft.
Propeller—Diameter, 12 in.; pitch, 12 in. Three blades.
Stuffing Box and Stern Bearing—Brass. Rear Starter—As illustrated.
Weight, with Carburetor and Magneto, about 185 lbs.
Weight, with Reverse Gear, 260 lbs.

188B4827—Extra for aluminum crank case instead of iron	1.90

Hiawatha Row Boat Motor

Makes a Launch of any Row Boat in 5 Minutes

As Good as Any—Better than Many—Cheaper than All Others.

2 Actual Horse Power, at 1200 R. P. M.

$38.45 **Speed, 600 to 1200 R. P. M.** **$57.75**

All Under Water Parts Made of Bronze.

With Regular Battery Equipment — **With Bosch Magneto Equipment**

The Row Boat Motor has become as standard as the Motor Cycle or Bicycle.

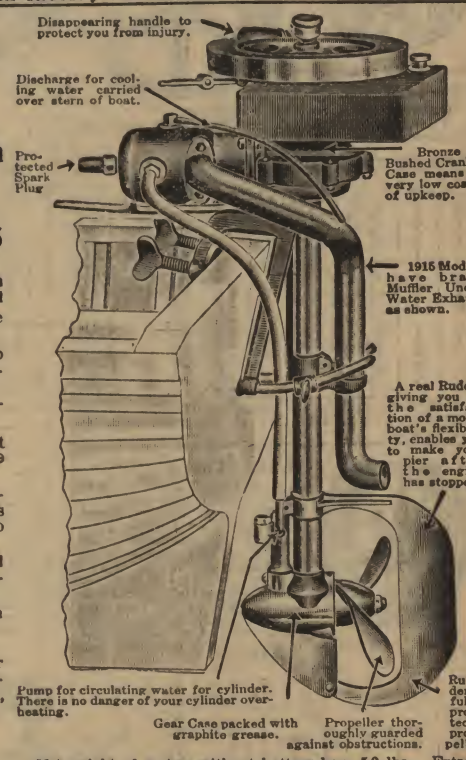
The only question to be decided is—which motor to buy? The Hiawatha Row Boat Motor has modern advantages which are worth considering.

It is built regularly with a brass muffler, or an under water exhaust. State which is wanted.

The steering gear may be **set in any position.** It is automatically locked, holding the boat on its course without requiring attention.

The rudder on the Hiawatha is a real rudder, enabling the boat to make a pier even after the engine has been stopped. It surrounds the propeller in a way to thoroughly protect it.

The Hiawatha is built throughout for strength and power, by the use of materials of great strength, however costly they may be.



It is a matter of only a few minutes to clamp it on the stern of any row boat.

It costs little to buy and little to operate.

The Hiawatha is so simple that any member of your family, old enough to row a boat, will be able to operate it. The Hiawatha comes to you thoroughly tested, and will give you perfect satisfaction.

SPECIFICATIONS AND DIMENSIONS

Bore, 2⅝ in.; stroke, 2⅝ in.
Diameter of Propeller, 9 in.; pitch, 16 in.
Minimum distance, top of stern to center of propeller shaft, 21 in.; maximum, 27 in.
Diameter of Fly Wheel, 9⅝ in.
Lubrication by mixing oil in gasoline.
Gasoline Tank holds 3½ quarts.
Battery ignition with 3 cells, and non-vibration, 3-terminal, high grade motor cycle coil.

Net weight of motor, without battery box, 52 lbs. Extra for battery box, complete, 8 lbs.

Box for shipment measures 14x19x38 in.

Shipping weight, about 115 lbs.

288B4860—Hiawatha Boat Motor. With battery equipment	$38.45
288B4865—Hiawatha Boat Motor. With Bosch Magneto	$57.75

You get economy in both cost and operation if you buy a Windsore Stove

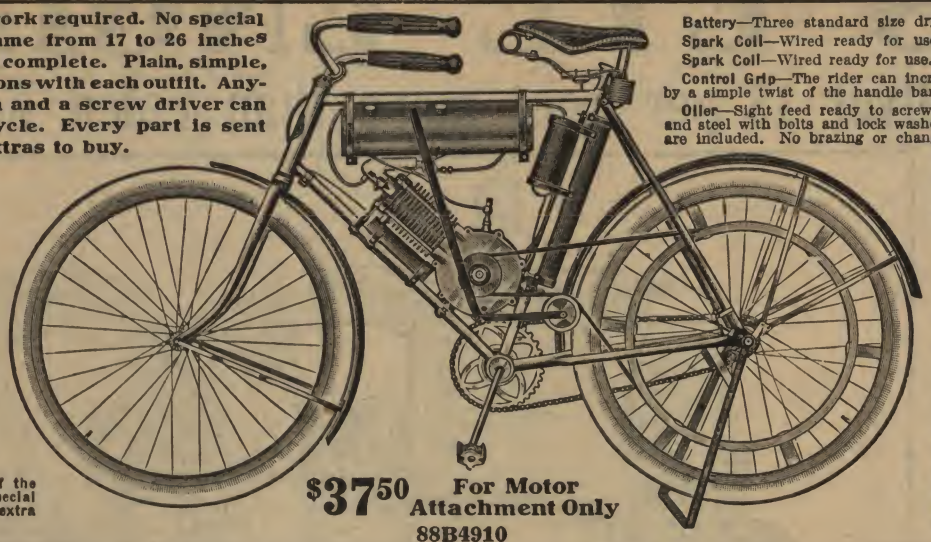
2½ H. P. Bicycle Motor Attachment, $37.50

Easy to attach. No expert work required. No special tools needed. Fits any frame from 17 to 26 inches inside. Weighs 48 pounds complete. Plain, simple, easy-to-understand directions with each outfit. Anyone who can use a wrench and a screw driver can attach this outfit to a bicycle. Every part is sent complete. There are no extras to buy.

The outfit consists of the following: 2½ H. P. single cylinder, 4 cycle motor all finished, assembled, and tested ready to be clamped on bicycle frame.

Carburetor—Lunkenheimer automatic mixing valve type; simple and reliable.

Muffler—With exhaust pipe bent to fit.



Idler—For keeping the belt properly tightened.

Belt—V-shaped. Made of special tanned tough and flexible leather, strong and durable.

Rear Pulley Rim made of steel.

Tank with gasoline and oil compartments. If your bicycle has double or truss bar, we will furnish a special tank for it without extra charge.

Battery Case—If your bicycle is of the three crown style we will furnish special clamps for battery case without extra charge.

$37.50 For Motor Attachment Only
88B4910

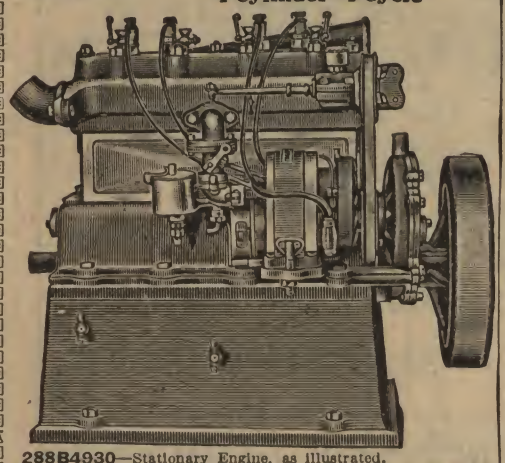
Battery—Three standard size dry cells put up in case and wired.

Spark Coil—Wired ready for use.

Spark Coil—Wired ready for use.

Control Grip—The rider can increase or decrease the speed or stop the motor entirely by a simple twist of the handle bar grip.

Oiler—Sight feed ready to screw into crank case. Full set of clamps made of brass and steel with bolts and lock washers to prevent working off. All pipes, couplings, etc., are included. No brazing or changing of frame is necessary. The parts are assembled as much as possible before shipment to save you any unnecessary work. Fuel tank holds sufficient fuel for a 90 mile run.



Specifications—The materials used in these motors are the best that we can procure. Cams, levers, and working parts subject to wear are case hardened.

Gears—Cut from solid steel, accurately fitted.
Cylinder—Close grained gray iron.
Piston Rings—Tough gray iron.
Crank Case—Light weight aluminum.
Crank Shaft—Special steel ground and polished.
Timer—Platinum contact points inside a dust-proof case.
Connecting Rod—Drop forged in one solid piece. Bronze bushed.
Valves—Poppet type. Drop forged and ground to perfect fit.
Lubrication—Automatic sight feed. Requires no attention after being adjusted.
Dimensions—2½ H. P. at 2,000 revolutions per minute.
Bore—2⅛ inches; stroke, 3 inches; height, 15 inches; shaft, diameter, 11/16 inch; bearings, length, 1 3/16 inches, bronze bushed. Crank case, diameter, 8 inches; width, 2⅞ inches. Weight of motor only, 24 lbs.

88B4910—Outfit complete as described, shipping weight, about 60 lbs. Price.. .....**$37.50**

6-Horse Power Stationary Engine

Throttle-Governor-Magneto
4-Cylinder—4-Cycle

288B4930—Stationary Engine, as illustrated. Price **$126.00**

Shipped from factory in Wisconsin.

Shipping weight, about 235 pounds.

This motor is the same in general design and construction as our Palm Beach Special, and Cycle Car Motor.

This motor is used for belt driven dynamos, centrifugal pumps, spray rigs, and all other classes of work requiring an engine with a sensitive governor to maintain a constant and unvarying high speed of from 400 to 1,200 revolutions per minute.

The engine is mounted on a substantial cast iron base, to be bolted to foundation or platform. The oil pump try-cock and base drain cock are brought out through the side of the base for convenience.

Gasoline and water tanks are not included in the price. Motor is fitted with thermo-syphon circulation, and must be connected to a watering tank.

Invincible Dynamos have frames cast from high grade electrical steel—not cast iron. The commutators are extra large to carry the large low-voltage currents. Windings are amply heavy to prevent excessive heating. All dynamos have ring-oilers for lubricating bearings. Dynamos are designed to give the extra voltage necessary to charge storage battery when battery is connected as in the Invincible System. Excessive speed not required to secure full service.

Electric Light Plants for Farm and Home

Own your own plant, have all the light you want, when you want it, where you want it. Safe, sanitary, simple, serviceable, automatic, economical, brilliant light. No experts needed to install it. Can be set up by anyone who can use a screw-driver and pair of pliers.

Invincible Switch Board

1915 Model

These boards are slate panels 1 inch thick with 1¼ inch bevel on front. Width, 16 inches. Height, 30 inches.

Each board is fitted with the following:

1 Ampere Meter.
1 Volt Meter.
1 Volt Meter Switch with 3 positions to show voltage of dynamo, battery and lighting circuit.
1 Single pole dynamo switch for closing dynamo circuit.
1 Double pole switch to control lighting circuit.
1 Ampere Meter switch for showing load on dynamo, or battery charging or discharging current.
1 New code fuse for dynamo.
2 New code fuses for service switch.
1 Automatic contactor for automatically opening and closing circuit between dynamo and battery on line circuit. Mounting of field regulator.

When Ordered Extra.

1 Counter Cell switch. } See prices below.
1 Starting switch to start engine. }

When counter cells and counter cell switches are used, the lights may be burning while battery is charging. Battery and dynamo may then be used together and the combined capacity obtained.

Invincible Storage Batteries are of the Faure or paste plate type in hard rubber jars with hard rubber covers. They are the same type as used in Electric Automobiles. One of the principal advantages is, that they are shipped fully charged and can be connected to service wires as soon as received—giving light immediately. Batteries may be used from three to five years without washing out.

Parts Included With Electric Light Plants

Dynamos—With each dynamo we furnish a sliding base to permit tightening belt, one pulley, not over 5 inches in diameter without extra charge. Larger pulleys will be furnished at additional cost.

Note—Always specify size pulley desired or state diameter of engine flywheel and speed of engine. If dynamo is to be operated from a shaft, give diameter and speed of pulley on shaft.

Switchboard—With each switchboard we furnish an angle iron floor stand with floor braces which will permit setting in any position, or wall braces to permit bracing from wall. State which is wanted.

Faure Batteries—With each set of batteries, we furnish one acid test set and one extra gallon of electrolyte. All necessary lead terminals with sleeve connectors which permit making all connections without any soldering. The only tools necessary are a screw driver and wrench.

Electric Light Plant No. 171

Capacity 20 15-Watt (12-Candle Power) Tungsten Lamps

288B4940—Shipping weight, 605 lbs. Price.....**$153.50**

Shipped from factory in Southern Wisconsin.

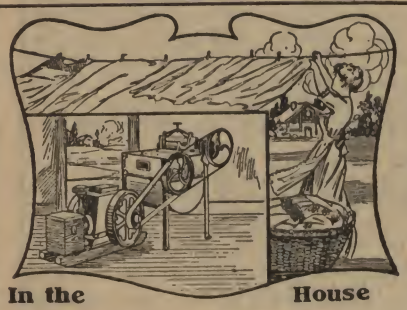
The following tables give the capacity of the Storage Battery for one complete charge, using Tungsten Lamps consuming 1¼ Watts per candle power:

16-Candle Power Lamps	12-Candle Power Lamps	8-Candle Power Lamps
15 Lamps for 8 hours	20 Lamps for 8 hours	30 Lamps for 8 hours
18 Lamps for 5 hours	24 Lamps for 5 hours	36 Lamps for 5 hours
25 Lamps for 3 hours	33 Lamps for 3 hours	50 Lamps for 3 hours
5 Lamps for 24 hours	7 Lamps for 24 hours	10 Lamps for 24 hours

Dynamo—Pulley, 4x2 inches. Speed, 1850 R. P. M. Capacity, 800 Watts, 20 amperes, 40 volts. Shipping weight, 125 lbs.

Dynamo will light without assistance from storage battery:
30, 20-Watt (16-candle power Tungsten lamps)
40, 15-Watt (12-candle power Tungsten lamps)
60, 10-Watt (8-candle power Tungsten lamps)

Switchboard—Invincible 1915 model. 30 amperes, 30 volts, type A. W. Size, height, 30 inches. Width, 16 inches. Weight, 75 lbs.



Storage Battery—Assembled in trays of 8 cells each. Shipping weight, 385 lbs.
16-cells 80 ampere-hours Faure type in sealed rubber jars.
Time required to recharge battery normal rate, 8 hours.
Time required to recharge battery high rate, 4 hours.
Power Required—A full 1½ horse power is required to drive dynamo at full charging and lighting capacity.

Extras

288B4941—Extra for 3 counter cells; weight, 65 lbs.....**$10.00**
288B4942—Extra for counter cell switch on switchboard..... **2.75**
288B4943—Extra for starting switch on switchboard..... **4.25**

Counter cells and counter cell switch are required only when lights are used while battery is being charged or when it is desired to obtain the combined lighting capacity of both battery and dynamo. The combined capacity of this plant for 8 hours is 60 12-candle power, or 45 16-candle power lamps.

For Engine suitable to run this outfit, ask for our Gasoline Engine Catalogue.
For prices on wire, sockets, cleats, lamps, etc., ask for our Electric Fixture Catalogue.

In the House

Dairy Maid Gasoline Engines

One Horse Power—Water or Air Cooled

Particularly adapted to WOMEN'S WORK. Equally useful for all small and light jobs on the farm. Enclosed crank case keeps out grit and dirt; also prevents splashing oil on floor.

Free from defective material or imperfect workmanship. We will furnish at any time, free of expense to you, a duplicate of any part that breaks and shows an original defect or imperfection. Dairy Maid Engines will do as much work as most engines sold for **one and a half horse power.**

Dimensions, Weights and Specifications

Cylinder bore and stroke, 3½x5 in. Normal speed, 500 revolutions per minute. Pulley, diameter, 4 in.; face, 4 in. Shipping weight, approximately, 225 lbs.

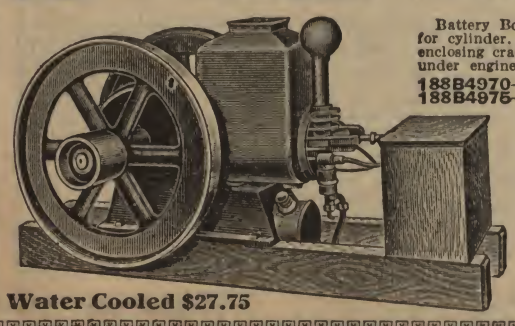
Equipment

Battery Box, containing Dry Batteries, Spark Coil, Switch, and necessary wiring. Sight Feed Oiler for cylinder. Full equipment of Oil Pockets and Grease Cups for all moving parts. Oil shield totally enclosing crank case. Safety Folding Starting Crank in the rim of the fly wheel. Gasoline Tank located under engine base. Carburetor, Suction Feed, Muffler, and Instruction Book.

188B4970—Air Cooled Engine. Shipping weight, 225 lbs. Price.....**$26.50**
188B4975—Water Cooled Engine. Shipping weight, 225 lbs. Price..... **27.75**

Shipped promptly from stock at Chicago.

Design and Construction, Proportion and Power

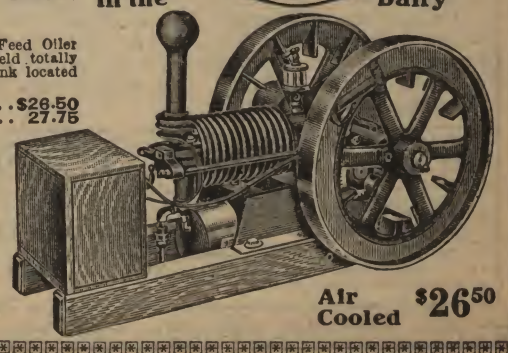


The Governor is extremely accurate and sensitive, therefore the speed may be controlled to a nicety.

The Dairy Maid is proportioned in the same liberal manner as the now famous Bull's Eye Engine. The cylinder is just the same size as other engines rated at one and one-half horse power; you will get the same extra power in the Dairy Maid as you will in the highest priced engine we build.

It is as simple to operate and as easy to take care of as a sewing machine.

Our low price makes it possible for every one to own one. The operating expenses are as low as could reasonably be hoped for and still get good results.



Dairy Maid can readily be utilized for innumerable jobs about the farm. The more that you can find for it to do within its capacity, the more profitable investment it becomes.

Water Cooled $27.75

In the Dairy

Air Cooled $26.50

We guarantee Riverside Tires for 3,500 miles. See our low prices

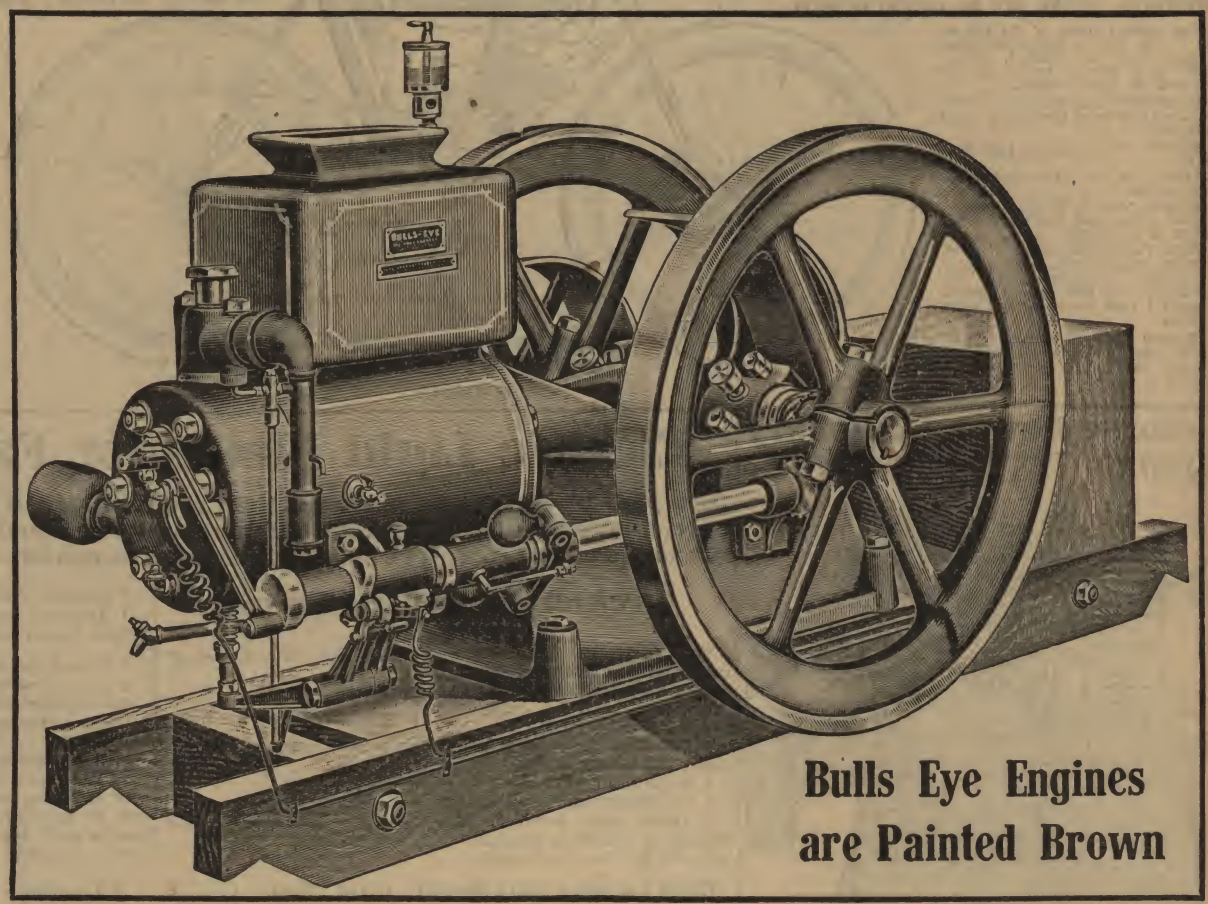
MONTGOMERY WARD & CO. CHICAGO 945

BULLS EYE ENGINES

Guaranteed to deliver 15 per cent more than rated horse power

NOTICE

Freight Saving and Quick Delivery



Nine Distributing Points
Improved Service
Low Freight Rates
Big Reduction in Prices
No Extra Charge for Storage

A big stock of Bulls Eye Engines, 2, 3, 4½, and 6 H. P. sizes carried in warehouses at each of the following points:

Fargo, N. D.	Chicago, Ill.
St. Paul, Minn.	Albany, N. Y.
Des Moines, Ia.	Harrisburg, Pa.
Columbus, O.	New York, N. Y.

Factory in Western Penn.

You pay the freight from the warehouse nearest you only. Prices are the same at any point.

Our Guarantee

We guarantee BULLS EYE ENGINES to run as well, to last as long, to give as great satisfaction, as other engines of the same size, regardless of price.

We guarantee that they will develop 15 per cent more than their rated horse-power, continuously, without over-heating, or causing any undue strains or stresses; and that no part will be damaged by such overload. We guarantee that they will run steadily under all conditions of weather, when operated according to the simple directions we furnish. We will duplicate, without charge, any metallic part that breaks on account of defects or imperfections, at any time during the life of the engine.

We further guarantee them to have as little vibration as any single cylinder horizontal engine, and less vibration than most other engines of any type.

The above is the wording of the written guarantee we furnish with all Bulls Eye Engines. Each Guarantee is filled in with the number of the engine it accompanies. Our Guarantee is not vague or indefinite in any respect. It is specific, and applies right to the engine you buy. This is a direct, positive Guarantee. A stronger one has never been written.

Weigh These Facts Carefully

Correct mechanical design is the only foundation on which a successful and reliable engine can be built. Bulls Eye Eugines are correctly designed.

Large cylinders and valves make possible the production of perfect power.

Liberal proportions, suitable materials, and correct workmanship, together with a moderate price, make the Bulls Eye Engine a profitable investment over a period of years.

A LARGE STOCK OF 2, 3, 4½ AND 6 H. P. BULLS EYE ENGINES AT NINE WAREHOUSES READY FOR IMMEDIATE SHIPMENT. These warehouses are all selected because of the desirable railroad connections and the elimination of transfer as much as possible. You pay only the local freight charges from the warehouse nearest you, and, in nearly all instances the freight charges will be a comparatively small item. This means to you a saving in freight charges. It is almost an insurance of speedy delivery. It means money to you both in the amount of charges saved, and in the time of delivery. It means that we are giving you just a little more value for your money. We are maintaining the same high quality as heretofore. We are reducing your expense in the transportation charges, lowering the former prices of Bulls Eye Engines, and providing means to get an engine to you as quickly as possible after receiving your order. The combined advantages of quick delivery, reduced freight charges, and our extremely low prices mean more value than your money will buy in an engine of similar quality elsewhere.

BE SURE THAT YOUR ORDER IS SENT TO MONTGOMERY WARD & CO., CHICAGO, ILL., and state in the order from which point you want your engine shipped. If you do not so state we will ship it from the warehouse located nearest you. With an occasional exception the engine ought to be in your hands within one week from the time we receive your order.

Do not send your order to any of the warehouses, as it would necessitate the order being referred to us at Chicago before shipment could be made, and possibly mean a delay of several days.

60 Days' Free Trial

Our 60-days' free trial removes all remaining doubt, if there is any. You may use the Bull's Eye for two whole months. That gives you plenty of time to find out just what it will do. There will be no one around to fix and adjust it. The Bulls Eye must impress you and win your confidence by its own merit alone.

Here's what we want you to do—send the price, and we will immediately ship the engine. Run it for 60 days. Look for the faults. Read our guarantee over again. See how the engine lives up to every particular. Set it up beside any other engine. That's what you have it there for. Be sure that you have the best engine value at the lowest price. Be convinced that you are satisfied.

If, after 60 days, the Bulls Eye fails, return it. If, for any reason, you are not absolutely satisfied, return it, if you reside in any part of the United States, proper. Your money will be promptly refunded, together with the amount of any freight charges you may have paid.

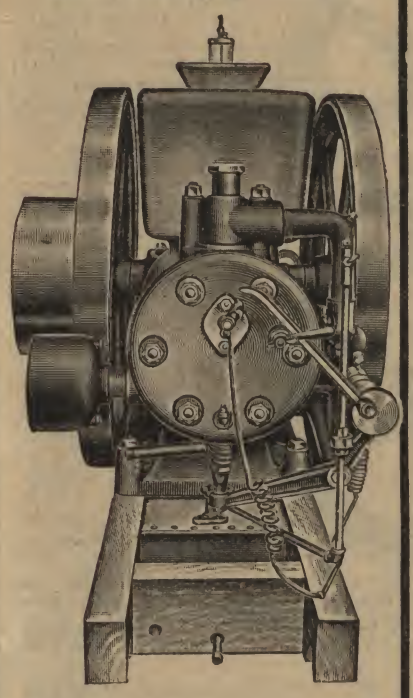
Perhaps you have never dealt with us before. Perhaps you have never experienced the advantages of our honest dealing. In that case, this offer may appeal to you.

Upon receipt of your order, we will ship the Bulls Eye engine in your name, to your shipping point.

A sight draft with the bill of lading attached will be sent to your banker.

When the shipment arrives, **deposit with the bank, the price of the engine,** with the understanding that it is to be **held 60 days.**

After paying the freight charges, the engine is yours to use and test for 60 days.



If, at the end of this time, you are not thoroughly satisfied, crate the engine carefully and return it to the freight agent. Present at the bank the bill of lading, showing the engine has been returned **to us in good order. Your money will then be returned to you on the spot.** Send us both bills of lading—the one we sent your banker and the one you receive from your agent. Whatever freight charges you have paid will be refunded to you immediately, if you reside in any part of the United States, proper.

This ends all doubt. You are absolutely protected against dissatisfaction. **YOUR OWN BANKER IS HOLDING YOUR MONEY.** Of course **you are just as safe if you send us the price in the first place.** But if you haven't dealt with us before, this offer may reassure you.

Now nothing further should prevent a trial of the Bulls Eye. That's all it needs. **A trial will convince you where words might fail.**

Safety Features of Bulls Eye Gasoline Engines

The Timing Lever

This shows a compact design, with the ignitor in the center of the combustion chamber, where the fresh gas, entering through the intake valve, passes across the face of the ignitor plug. This keeps the ignitor cool, and insures positive ignition.

A timing lever advances or retards the spark, as desired. It prevents a kick-back, when starting the engine, and prevents harm to the operator. This feature is considered absolutely necessary on automobiles, but few stationary or farm engines are so equipped.

This cut also shows the oil pipe for oiling the exhaust valve stem—a feature found only in the best engines. Also shows the drain pipe coming out to the side of the skids.

The side shaft, having a rotary motion, instead of a side push-rod, makes the entire mechanism run smoothly, and with very little wear or noise. Note that everything is get-at-able.

PORTABLE GASOLINE ENGINE LESS THAN 5 H.P.
INSPECTED BY
UNDERWRITERS LABORATORIES, INC.
No 1
INSTALL AND MAINTAIN THIS ENGINE IN ACCORDANCE WITH UNDERWRITERS' RULES. DO NOT TEST FOR LEAKS WITH MATCHES
KEEP MACHINE CLEAN

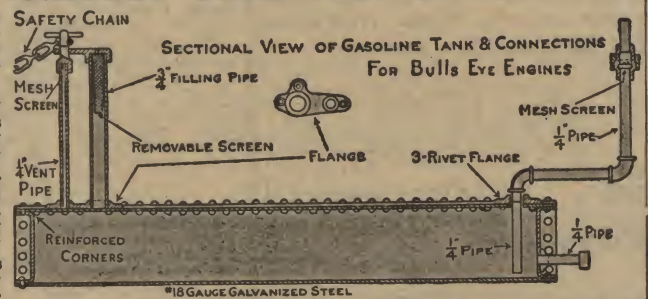
THE BULLS EYE was the first Portable Gasoline Engine to bear the Underwriters' Label. Every Bulls Eye Engine carries this endorsement. This cut is a facsimile of the first portable engine label ever issued; it went on a two-horse-power Bulls Eye.

LOOK FOR THAT LITTLE PLATE ON EVERY ENGINE. That's our endorsement of Montgomery Ward & Co.'s Bulls Eye. It's the label of the Underwriters' Laboratories (Inc.). They are under the direction of the National Board of Fire Underwriters.

The Bulls Eye portable gasoline engine is built according to all rules and regulations of the National Board of Fire Underwriters. The label on each engine signifies that that engine has been inspected and passed. It signifies that all requirements have been lived up to.

Furthermore, it means that the Bulls Eye is as near Fire Proof as it is possible to make a gasoline engine.

The Bulls Eye has been examined, overhauled and tested by the Underwriters' Laboratories. They have dug deep into every detail. The suction feed, the tight valves, the protected gasoline tank; in fact, every detail of construction and material was examined. Not until every part met their approval did their vigilance cease. Not until every requirement was filled was that label affixed.



That Label Means a Saving of Money and Worry to You. The chances of fire are decreased a hundred-fold. Show the label to your family. Tell them what it means.

Don't get an engine that doesn't bear this label. Don't get an engine which isn't as safe and simple as the Bulls Eye. Which means: Don't get any engine but a Bulls Eye.

The Gasoline Tank That is Safe

What you want is a gasoline tank that's safe. When you buy a Bull's-Eye Engine, you get a tank built according to the rules of the National Board of Fire Underwriters. It's passed and accepted by the Underwriters' Laboratories, Incorporated.

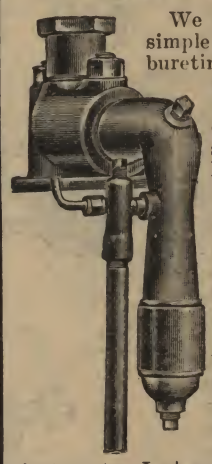
Our tank is made of three pieces of No. 18 gauge galvanized steel, riveted and soldered together. The fill and vent pipes are provided with fine brass wire screens. Fire cannot pass through them.

Crank Shaft Steel

The last analysis of the steel used in Bulls Eye Engine Crank Shafts showed the following:

Carbon	.33
Manganese	.58
Phosphorus	.013
Sulphur	.025

This is a fine quality of open hearth steel.

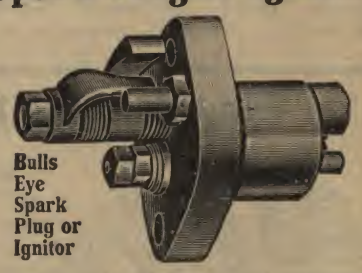


Bearing Metal

An analysis of the Babbitt metal used in Bulls Eye Engine bearings shows the following:

Tin	88.67%
Antimony	7.52%
Copper	2.81%

This is a high grade metal containing no lead.



Intake Pipe and Carburetor

We show here a most simple and effective carbureting system. There is absolutely nothing to get out of order. It is known as the Suction Feed system, and is approved by the National Board of Fire Underwriters. Gravity feed is strictly prohibited by the insurance companies.

Bulls Eye Carburetors have no springs or floats; no valves to clatter or break—no complicated adjustments. Just a simple needle valve to regulate the flow of the gasoline, and a ball check to hold the fuel at a constant level.

Spark Plug or Ignitor

Bulls Eye Spark Plug or Ignitor

Bulls Eye Engines are equipped with an electric ignitor of the make-and-break type. The electrodes are mounted in a cast iron plug, which may be removed from the cylinder for cleaning or adjusting by simply taking off two nuts. The electrodes are of the hammer type, and have renewable points.

The stationary electrode is held in place by means of high grade insulation especially made for that purpose. The complete ignitor is so situated as to bring the spark in the center of the combustion chamber.

The ignitor plug trip mechanism is very simple and positive in operation, and needs practically no adjustment during the life of the plug. The ignitor points are in contact only just long enough to "build up" the current and insure a good spark, thus obtaining maximum efficiency with minimum consumption of the battery current.

How Bulls Eye Engines Are Rated

Different methods are used by different firms in rating the horse power of the engines they manufacture. All methods used are correct under given conditions, and each method is used to determine some particular result or specific showing.

One method, or test, may show the Theoretical Horse Power. Another method or test may show the Maximum Horse Power that can be obtained by an expert, running an engine under ideal laboratory conditions. And still another test will show the power produced at the highest speed an engine will stand without flying to pieces. But the real question—the one you want answered—is: How much power will the engine produce in every-day service on the farm, running at normal speed, using ordinary gasoline and handled by You, and not by a mechanical expert or trained engineer?

You are interested in practical results—not theory. Experimental or consulting engineers are highly trained and honest gentlemen, but by virtue of their careful and complete training, they are taught to deal with the finest obtainable adjustments and results. They think in terms of efficiency raised to the highest degree. But such results mean nothing to you, because you are going to run your engine on the farm, not in a complete and specially equipped laboratory.

Bulls Eye Engines are rated by men who have had many years of experience with engines not only in the factory or testing room, but right out on the farm, where actual work must be accomplished. Bulls Eye Engines are rated at the horse power which you can get out of them, in your locality, with your fuel, on your load, at normal speed, ten, twelve or even twenty-four hours per day.

Our experts at the factory can, and have, produced as high as 8 2/10 Brake Horse Power, for four hours continuously, with a Bulls Eye Engine rated at 5 horse power. We have made relatively high showings with all sizes of Bull's Eye Engines under the same conditions. But you can't do it under every-day working conditions; neither could any other man, not even the best expert in our factory. And what is true of the Bulls Eye Engine is true of every other engine manufactured. Consequently we do not consider that we should rate our engines according to these results, because they are really overloads, and no engine could be expected to run continuously under such conditions.

We want to talk plainly to you, so there can be no misunderstanding. As you probably understand horses better than you know Gas Engines, we want to use horses as an illustration.

Rate at which a Horse Can Generate Energy

King says, in his "Physics of Agriculture," pages 498-490: "It is recorded that about the maximum walking draft of a horse is one-half of his own weight. Pulling with this intensity, and traveling at a rate of 2.5 miles per hour, the ability of

ONE 1,600-POUND HORSE WOULD BE:
5 1/3 HORSE POWER.

"It is not safe, however, to have a horse often repeat such strains as this, nor maintain them for long at one time. Even when a horse is pulling with an intensity of one-fourth its weight, this is too heavy for steady work, and represents:

For a 1,600-lb. horse	2 2/3 H.P.
For a 1,200-lb. horse	2 H.P.
For a 1,000-lb. horse	1 2/3 H.P.
For an 800-lb. horse	1 1/3 H.P.

"Indeed, it is commonly acknowledged that for steady and continuous work, 10 hours per day, at the rate of 2.5 miles per hour, a horse should not be made to pull more than one-eighth to one-tenth of its own weight. At this rate, the work of horses of different weight would be:

For a 1,600-lb. horse	1.06 to 1.33 H.P.
For a 1,200-lb. horse	.93 to 1.17 H.P.
For a 1,000-lb. horse	.80 to 1.00 H.P.
For an 800-lb. horse	.53 to .67 H.P."

From the above it will be seen that a 1,200-pound horse **can** develop 2 H.P., though its average rate of work is only 1 H.P.; or we may say a horse has 100 per cent surplus energy.

Under certain conditions, and for a short time, a 1,600-pound horse can test up to 5 1/3 mechanical horse power; but would you take such an animal and expect it to pull a three-bottom gang **plow?** Certainly not. You know the horse would not last long. Would you take a 1,200-pound horse and make it pull a two-horse mower, just because it can develop two mechanical horse power, when pulling one-fourth of its own weight? By no manner of means. Yet there are ratings of just the same kind given to some engines. **Here is something else:** Speed is one of the three elements of power. The faster an engine runs, the more power it will develop, but while speed is power, it is easy to consume all the power to produce speed and leave nothing for useful work. In other words, the higher the speed, the more power is required to run the engine itself.

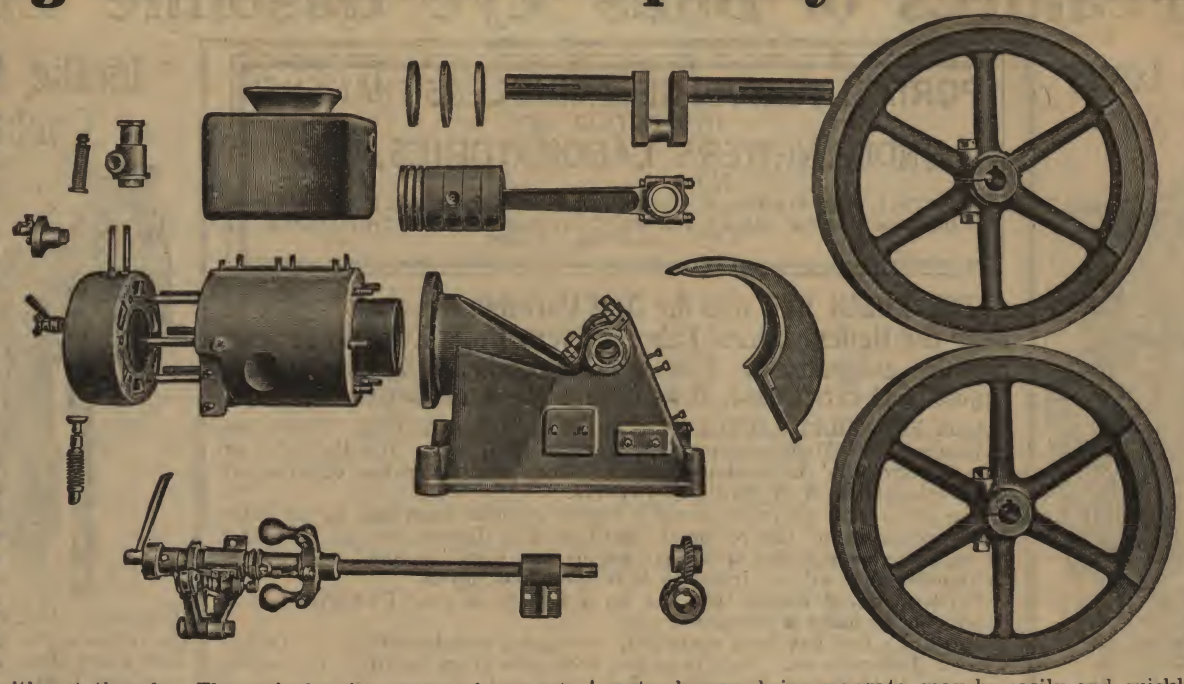
Critical Speed

Every engine has a speed at which it will develop the most power with the least consumption of fuel. This is the speed at which an engine should be rated—just as a horse should be rated or worked at that speed and load where it can produce the most energy for the longest time, with the least harm to itself.

Extremely high ratings have no **practical** value. When considering engines that are rated right up to the last ounce of power they can pull, remember it was the last straw that broke the camel's back. Working anything to its capacity means short life, premature breakdown. Too high steam pressure explodes the boiler. Floods in rivers carry away the bridges. All things have their normal working capacity and their limit of endurance. A man can walk further than he can run, because when he runs he gives out, on account of excessive, abnormal strain. Gasoline engines are no exception to the rule. They are governed by the same inflexible laws of nature as everything else.

A Mexican dollar has only half the purchasing power of an American dollar. So if you receive $1.50 in Mexican money, it would appear to be more, but in reality, would be less in value, or purchasing power, than one dollar of American money. It is a matter of rating. You can get two dollars in Mexican money for one dollar in American money. Two dollars for one looks like cheap money. But it isn't, not when the purchasing power of the two is no greater than that of the one properly rated American dollar.

Some engines are rated high to make them appear cheap. But their actual power, when measured under ordinary operating conditions, is no more, and sometimes even less, than those rated normally.



Bulls Eye Engines are not rated high to make the price low. When you buy a Bulls Eye Gasoline Engine—

You Pay For What You Get and You Get What You Pay For

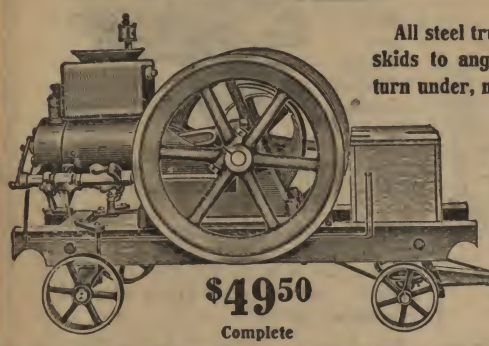
A Telephone is a mighty big convenience for the farm. See ours

Showing the Extreme Simplicity of the Bull's Eye

This illustration shows all of the metal parts of a complete Bull's Eye Engine, and not only makes clear the simple and sturdy construction, but also shows how easily any part may be removed, for inspection or cleaning.

Notice the arch and pyramid shape of the heavy base. Also notice the large counterweights in the rim of the fly wheels to balance them. Angle, main bearings, vertical valves, separate cylinder, cylinder head, and water hopper are features of the utmost importance.

Every part of the Bull's Eye Engine has been designed with a view to both simple construction and easy access. Should any part be broken by accident or otherwise, it is not necessary to replace a large part of the engine, as is the case with so-called one piece engines. There are no cap screws used in the construction of the Bull's Eye Engines. We employ only standard studs with cut threads. The main bearing caps and connecting rod bearings are all fitted with lock nuts, which hold them permanently in place and prevent any possibility of their working loose by vibration.



The cylinder head has a large water space which surrounds the combustion chamber, ignitor plug, intake, and exhaust valves. The intake valve is contained in a separate removable cage, which fits on top of the cylinder head.

The exhaust valve is directly below, and can be lifted out for inspection or regrinding through the opening for the intake valve. The ignitor plug goes directly in the center of the cylinder head and is in the path of the fresh, cool, incoming gas. This makes ignition more certain than where the ignitor plug is in a pocket or side chamber. The water hopper, being separate, may be easily and quickly replaced, should you allow the engine to freeze up and break this part. Both main bearings and connecting rod bearing, are fitted with die cast, babbitt metal bushings, with ample provision to take up wear. These bushings may be replaced in a few minutes at small cost.

These are all the parts which comprise the simple, dependable Bull's Eye Engine, with the exception of the skids, battery box, and gasoline tank not shown on this page.

Hand Portable Bull's Eye Engine

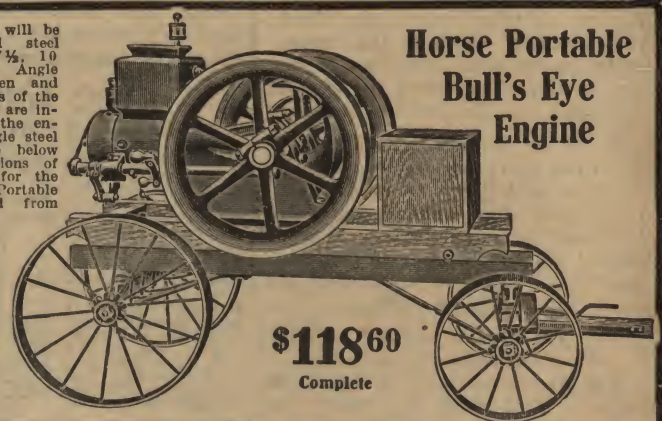
All steel truck, with 4 U bolts to clamp engine skids to angle steel truck beams. Front wheels turn under, making short turns possible.

$49.50
Complete

Bull's Eye Engines, in the three smallest sizes, 2, 3 and 4½ Horse Power are furnished as hand portables. The regular skids of the engine are reinforced and strengthened by heavy angle steel beams on the truck (not shown in the illustration).

Below are the general specifications of the different sized trucks. Wheels are furnished with steel spokes and tires, and will stand heavy hauling over rough ground, and hard roads without cracking. This is a great advantage over the common form of cast iron wheel, or steel spoke wheel with cast iron tire. For detailed description of engines see gasoline engine pages.

288B5101—2 H. P. Bull's Eye Engine and all steel hand truck. Height of front wheels, 14 inches. Height of rear wheels, 16 inches. Width of tires, 2 inches. Thickness of tires, ¼ inch. Axles, 1¼ inches, solid steel. Weight of truck, about 140 lbs. Price.....$49.50



288B5103—3. H. P. Bull's Eye Engine, and all steel hand truck. Height of front wheels, 14 inches. Height of rear wheels, 16 inches. Width of tires, 2½ inches, thickness of tires ¼ inch; axles, 1⅝ inches solid steel. Weight of truck, about 180 lbs. Price.....$66.80

288B5105—4½ H. P. Bull's Eye Engine and all steel hand truck. Height of front wheels, 14 inches. Height of rear wheels, 20 inches. Width of tires, 3 inches. Thickness of tires, 5/16 inch, axles, 1¾ inches solid steel. Weight of truck, about 240 lbs. Price.....$95.00

Engines shipped promptly from stock at Chicago, or from warehouse nearest you. Trucks shipped, knocked down, from factory near Chicago.

Horse Portable Bull's Eye Engine

Bull's Eye Engine will be furnished with all steel trucks, in 4½, 6, 7½, 10 and 13 horse power. Angle steel beams strengthen and support the wood skids of the engine. Four U bolts are included, which clamp the engine skids to the angle steel truck beams. Table below gives general dimensions of the trucks, suitable for the different engines. Portable engines are shipped from factory in Pennsylvania. Prices include neck yoke, single and double trees.

$118.60
Complete

Reliability is what you get in a Bull's Eye.

H. P. of Engine	Size Wheels	Size Tires	Size Axles	Length Angle Beams
4½	24-32	3x⅜	1½	6 feet
6	24-32	4x⅜	1⅝	7 feet
7½	24-32	4x⅜	1¾	8 feet
10	24-32	4x⅜	2	9 feet
13	26-34	4x⅜	2	9 feet

All axles are reinforced with 3 inch steel I beams.

All trucks are Standard 4 ft. 8 in. track.

Prices are for Engine and Truck complete as described and illustrated.

288B5106—4½ H. P. Bull's Eye Engine, mounted on all steel truck. Shipping weight, about 1,360 lbs. Price.....$118.60

288B5107—6 H. P. Bull's Eye Engine, mounted on all steel truck. Shipping weight, about 1,750 lbs. Price.....$141.95

288B5109 — 7½ H. P. Bull's Eye Engine, mounted on all steel truck. Shipping weight, about 2,235 lbs. Price.....$201.35

288B5111 — 10 H. P. Bull's Eye Engine, mounted on all steel truck. Shipping weight, about 3,140 lbs. Price.....$233.95

288B5113 — 13 H. P. Bull's Eye Engine, mounted on all steel truck. Shipping weight, about 3,415 lbs. Price.....$324.00

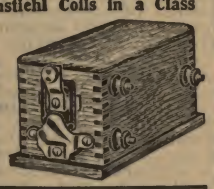
Shipped from factory in Pennsylvania.

For prices on magnetos and friction clutch pulleys, see preceding pages.

Invincible Magnetos

Make and Break, or Jump Spark

Invincible Magnetos are thoroughly good instruments, and will meet all ignition requirements, on single cylinder engines up to 15 horse power.



The friction governor pulley operates with great exactness. As near perfect as modern shop methods can make it. You can use the coil that you are now using with batteries with these magnetos. Shipping weight, about 18 lbs.

188B5119—Invincible Magnetos for make and break spark..$5.60
188B5121—Invincible Magnetos for jump spark..... 6.45

Pfanstiehl

Jump Spark Coils for Stationary and Marine Engines

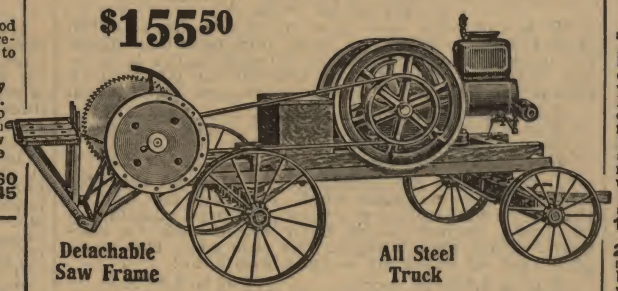
Their high efficiency has placed Pfanstiehl Coils in a Class by themselves

They are equipped with trouble-proof vibrator. Contact points are tungsten, making them the hardest, and most reliable contacts ever employed in work of this kind.

88B5123—Type 15, 1 cylinder box coil, weight, about 3 lbs. Price each....$2.90

Invincible Spark Plugs

Supplied in either ½ in. Standard or Metric thread.



A plain, common sense plug, correctly designed, made of good materials, with gas-tight joints.

This plug has a high-grade, porcelain insulator. The packing is a copper asbestos gasket, which makes a perfect gas-tight joint, and allows for expansion due to high temperatured porcelain. Core can be easily taken out, cleaned, and replaced in about 1 minute. Keep a couple extra ones on hand for emergency.

88B5130—Invincible Plug, Standard ½ in. thread..24c
88B5132—Invincible Plug, Metric thread.....24c
88B5134—Extra Porcelain Cores. Each.....15c
Shipping weight, 4 oz.

Complete Sawing Outfits

$155.50

Detachable Saw Frame

All Steel Truck

Bull's Eye Saw Rigs are furnished in two sizes, 4½ and 6 H. P. The 6 H. P. size is one of the most used, and meets all ordinary sawing conditions to the best advantage.

A complete Saw Rig includes engine, with standard battery equipment and sol'd pulley, an all steel truck, with tilting table saw frame attached. Rubber belt and saw blade, also pole for two horses, neck yoke, single and double trees.

The trucks are the same as those furnished with standard Bull's Eye Horse Portable Engines. They are strongly braced, and have angle steel beams, which reinforce the wood skids of the engines. Trucks have standard 4 ft. 8 in. track.

The 4½ H. P. outfit will handle soft wood, in medium sizes, and operate a 28-inch saw blade very satisfactorily. The 6 H. P. size will operate a 30-inch saw blade through ordinary wood, and keep a gang of six men busy. This is a first-class, commercial machine in every respect, with sufficient capacity to handle any ordinary contract of wood sawing in a short space of time. Trucks are all steel, properly bolted and braced. The outfits are complete in every respect.

288B5145—4½ H. P. standard equipment, 28-inch saw blade. Shipping weight, 1,800 lbs. Price.....$155.50

288B5147—6 H. P. standard equipment, 30-inch saw blade. Shipping weight, 2,200 lbs. Price.....$181.85

Shipped from factory in Pennsylvania.

Prices include neck yoke, single and double trees.

Magnetos and friction clutch pulleys, same price as for engines listed on page 946.

Climax Engine Truck

For Engines Not Exceeding 450 Pounds in Weight

$3.30

A handy, economical, and useful little truck for work about the farm. Especially adapted to portable gasoline engines, and serviceable for other kinds of light hauling. It is made exceedingly strong. Has wide iron wheels, so that it is easily handled. Diameter of wheels, 9 in. Width of tires, 1¾ in. Length of platform, 26 in. Width of platform, 16 in. By laying boards on top any width or length of platform may be obtained, as the wheels are under the platform.

Has strong hand tongue, and steel pipe axles. Strong turn table, allowing front wheels to turn under platform. Shipping weight, 55 lbs.

188B5150—Climax Hand Truck $3.30
Shipped promptly from Stock at Chicago

288B5155—Heavy Truck for Engines up to 1,200 lbs. Same construction as above, except larger. Length, 5 ft. Width outside of beams, 22 in. Diameter of front wheels, 9 in. Diameter of rear wheels, 14 in. Width of tires, 3 in. Shipping weight, 140 lbs. Price $6.65
Shipped from Factory Near Chicago.

Wheelbarrow Engine Truck

Fits any Small Engine

$2.75

Two Legs, Two Wheels, One Bolster, Two Handles

10-inch Wheels with 2-inch Tires

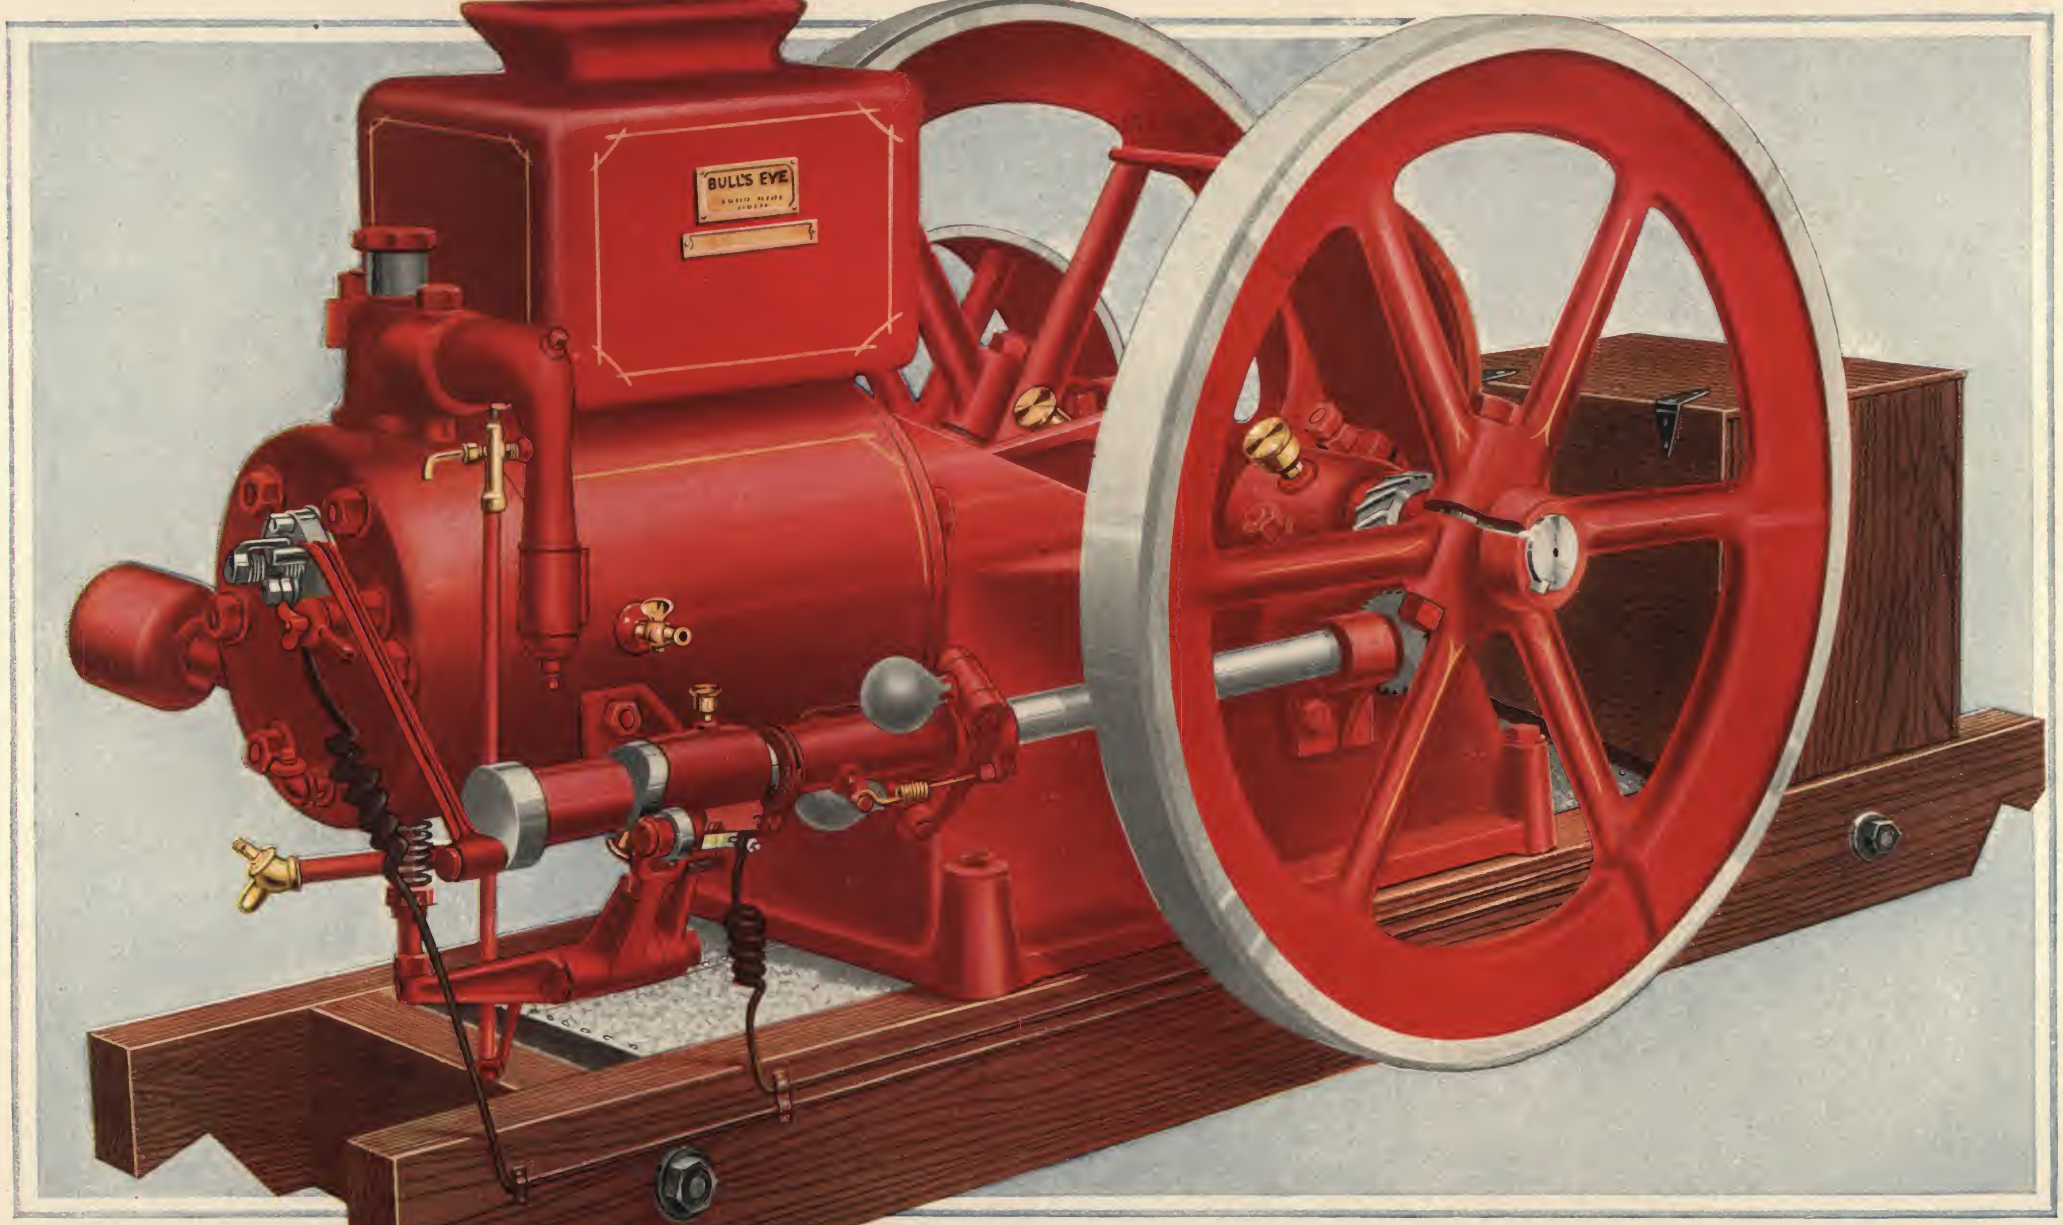
Suitable for engines up to 3 horsepower. Can be bolted to any engine skids. By using these fixtures, you can mount any small engine, making it portable. Lag screws can be placed in the feet, to make it stationary. Can be turned in its own length, and is much handier than a four wheel truck. The bolster can be located on engine skids to give proper balance. Plank shown in illustration is not furnished.

188B5160—Wheelbarrow Truck. Shipping weight, 35 lbs. Price $2.75

What a User Says

"I have been running gasoline Engines for the past 16 years, and have used a great many high priced Engines, but I have never used a better Engine than the Bull's Eye."

(Name and address furnished upon application.)



We sell immense quantities of belting. You should try ours.

2, 3, 4½ and 6 H. P. Engines

Carried in nine different warehouses.

Quick shipment from warehouse nearest you.
No increase in price.

BULL'S EYE GASOLINE ENGINES

Our Pumping Outfits save lots of farm work at very small expense

GOLDEN HARVEST CREAM SEPARATOR

The New Improved Golden Harvest HAND CREAM SEPARATORS

On this and the three following pages, we present for your consideration the New Improved Golden Harvest Cream Separator. All the important and necessary features are accurately shown. Study carefully the inner workings of this machine. You will find it simply, yet scientifically, designed; you will find its construction makes it easy of operation and dependable at all times. We believe that the New Improved Golden Harvest is the equal of any separator manufactured, regardless of name or price. We believe, if you will study it carefully, that the New Improved Golden Harvest Separator is the machine you will buy.

The only cheap feature about the New Improved Golden Harvest Separator is the price. Our one small profit is all you are asked to pay over and above the actual manufacturing cost. When you buy a New Improved Golden Harvest, you do not pay the salaries and profits of traveling salesmen, state agents, district agents, country agents, and local agents. The price of the New Improved Golden Harvest is low, because we have cut off the useless expense you would have to pay if it were sold in any other way.

The New Improved Golden Harvest Cream Separator is made of as fine materials, and costs as much to manufacture as other separators. If useless selling expense, which adds nothing to the value of the separator, were eliminated, there are few, if any, separators manufactured that could not be sold at our prices and yield the same percentage of profit over the actual cost of production.

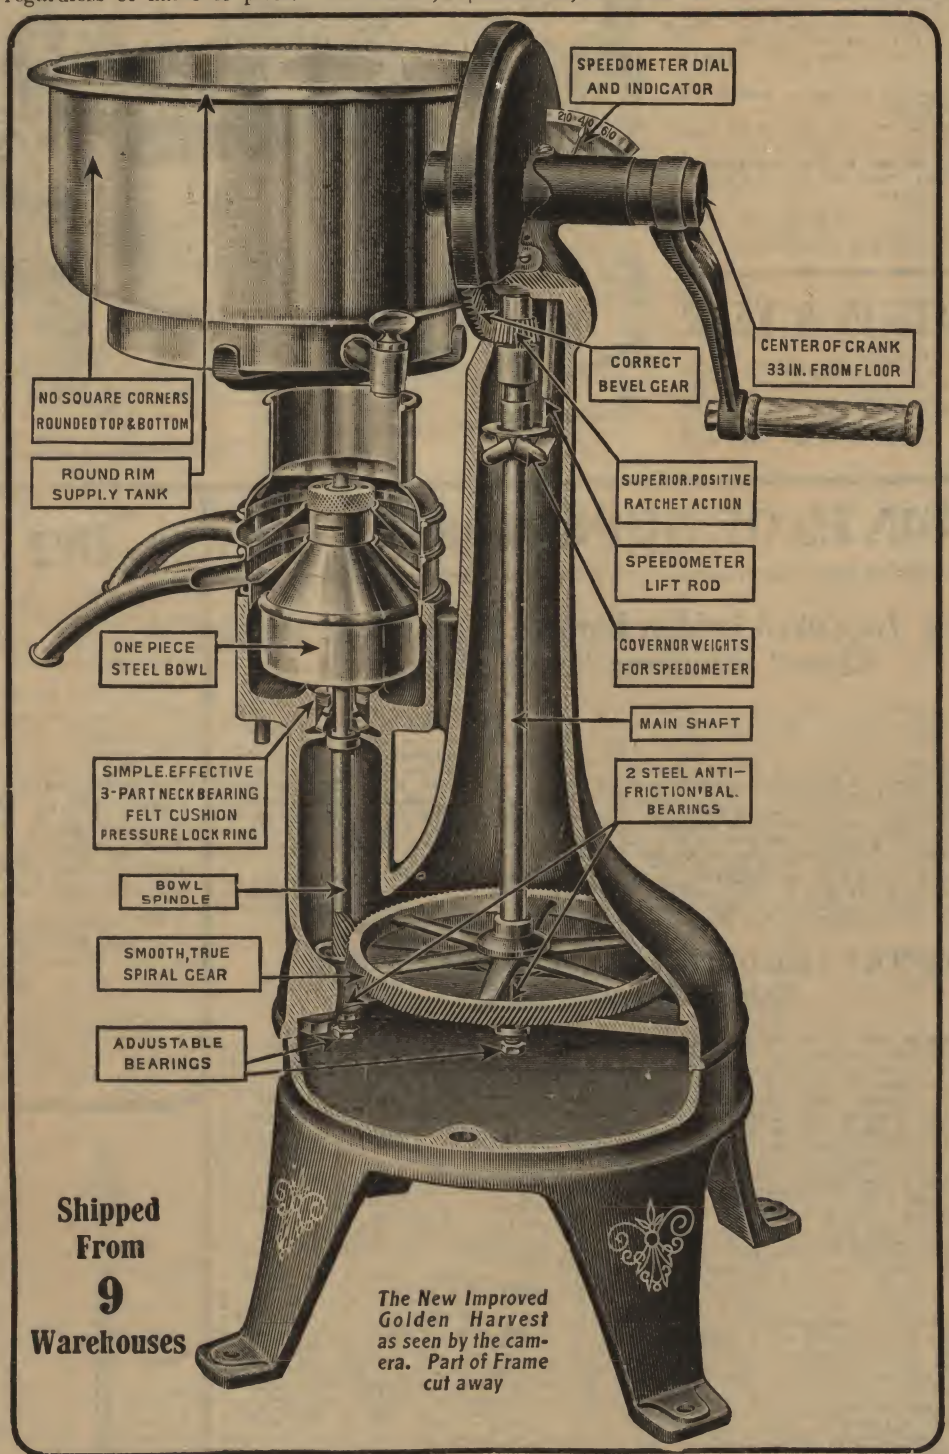
SPECIAL POINTS For You to Know

No square corners. The top and bottom of the tank are rounded. There are no corners for catching and retaining milk particles, dirt, or foreign matter. It is thoroughly sanitary, easy to get at, and easy to clean.

Steel Bowl. Pressed out of one solid piece of steel, with rounded corners. It is the best type of bowl used today. Made scientifically accurate, its action is perfect all the time. Easily removed and easily cleaned.

Simple, effective Neck Bearing. This is a point that has raised the New Improved Golden Harvest to a place beside those of the first rank in cream separators. Upon this neck bearing depends the accuracy of the operation of the skimming bowl.

Bowl Spindle. Made of hardened steel, accurately machined. It turns the skimming bowl so carefully and so truly that there is not the slightest vibration of the bowl itself.



Adjustable Bearings. It is easy to keep the bearings of the New Improved Golden Harvest in smooth, normal contact, so as to reduce the friction to almost nothing. These adjustable bearings do this accurately.

Center of Crank is 33 Inches from the floor. This will appeal to the housewife as being a most important feature. The height of the New Improved Golden Harvest permits a natural and easy position while turning the crank.

Correct Bevel Gear. This is made to meet the strictest requirements of simplicity, power and smooth and easy running action. No nest of cogs and slack chains is found in the New Improved Golden Harvest.

Main Shaft. While only a straight piece of continuous steel, yet it is an important part in the New Improved Golden Harvest. Here strength and firmness are combined. The enormous strain on this part in starting the bowl to revolving, makes it necessary that this very active part be absolutely perfect.

Anti-friction Ball Bearings. This is one of the newest improvements to the New Improved Golden Harvest. These pivot ball bearings have reduced the friction to such a large degree that to run the New Improved Golden Harvest is more like play than work.

Shipped From 9 Warehouses

Desirable Railroad Centers
To Give You
Speedy Delivery and Small Freight Charges

All sizes, with or without speedometers, in each of the following warehouses, ready for prompt shipment.

Fargo - No. Dakota
St. Paul - Minnesota
Des Moines - Iowa
Columbus - - Ohio
Lebanon - Indiana
Chicago - Illinois
Albany - - N. Y.
Harrisburg - - Pa.
New York - - N. Y.

Remember, you pay the small local freight charges from the warehouse nearest you only. Send your order to **Montgomery Ward & Co., Chicago,** and state from which warehouse you want shipment made. If not so stated we will ship from the warehouse nearest you with the idea of getting the separator to you in the shortest space of time, and secure for you as low freight charges as possible.

Remember, we have not increased the prices of our separators. The expense of storage and transportation charges from the factory to the warehouse is free to you.

Easy to Fill

Glance at the illustrations, the pictures that show a girl filling the supply tank of the New Improved Golden Harvest Separator, and then doing the separating. These pictures are reproductions of actual photographs, and there is nothing exaggerated or out of proportion about them.

The low supply tank is one of the features of this machine. Almost every farmer's wife and children notice it at once. The low-built design is attractive in the first place, and certainly convenient for the person who is going to do the work.

The top of the supply tank comes no higher than the waist line. This means that you do not have to stand on a chair or box to fill the tank. It means that you are not going to spill a lot of milk over yourself, which you would do if you had to lift the pail up to a level with your head, and then pour the milk in. A pail of milk is heavy, and the low tank means that your wife or daughter will not have to do any unnecessary lifting.

The pails which receive the milk and cream are set on the floor. There is no insecure shelf for them to be knocked down, or fall from.

The "Easy to Fill" feature of the New Improved Golden Harvest should commend itself to your careful consideration.

The New Improved Golden Harvest Cream Separator is so simply constructed that operating is easy.

The low-built design of this machine means a low handle, as well as a low supply tank. The handle may be turned with almost equal ease, whether the operator is sitting or standing. There is no push on the up-turn, to get the handle over at the top. There is no heave and pull at the bottom turn, to get the handle started on the up-stroke again. The handle turns within the sweep of the arm of the operator. No back-breaking stooping is necessary to keep the New Improved Golden Harvest running. Ball bearing spindles and perfectly cut gears make the New Improved Golden Harvest run so easily that it comes as near running itself as any machine can.

STOP YOUR SHARE OF THIS WASTE

In the United States last year, millions upon millions of dollars were fed to the pigs and calves, on hundreds of farms, in the form of incompletely skimmed milk. Not one penny of this money was saved; it is gone forever. You are losing part of this money, if you are feeding poorly skimmed milk to your calves and pigs. It would't be so bad if the wasted butter fat did the calves and pigs any good, but it doesn't. Warm, sweet, perfectly skimmed milk is just as good for them—just as nourishing, and just as strengthening. In fact, it is better in many cases. For fattening, a little corn meal or cotton seed meal added to the skim milk takes the place of 30c a pound butter fat, and is just as good.

There is always a demand for cream and butter at good prices. In years of crop failure, many a farmer would have gone under but for his cows. A good cow is the most productive thing on any farm; she will make good every time if given a chance. A Cream Separator is not a luxury. It is a necessity, if the farmer or dairyman wants to get full value from his cows.

Here are the facts: Forty and one-half pounds of butter are left in the skim milk from one cow in one year, if you separate the cream by the water dilution method, that is by adding cold water to the milk to make the cream rise quicker. With butter at 30 cents a pound, this means a loss of $12.15 per cow in the year.

Twenty-six and two-tenths pounds of butter are lost by the shallow pan method of skimming, per cow, in one year, or $7.86.

Ten and one-tenth pounds of butter are lost per cow, per year, by the deep-setting method, or $3.03.

Only one and two-tenths pounds of butter are lost by the hand separator method, or 36 cents per cow, per year. These figures are furnished by the Agricultural Experiment Station of Purdue University.

How do you separate your milk? Whatever the method, take the figures above, multipiy by the number of cows you milk, and you will know how much of this annual waste of millions of dollars is yours. **Can you afford it?**

WILL PAY FOR ITSELF IN A YEAR

The New Improved Golden Harvest Cream Separator will perhaps pay for itself within one year. It may even pay a profit, depending on your present methods of separating. The New Improved Golden Harvest will get practically all the cream, all the time. It will increase your dairy profits anywhere from $3 to $15 per cow per year. The New Improved Golden Harvest pays for itself in the cream it saves you; and once paid for, it will go on making money for you year after year. **The New Improved Golden Harvest is a money-saver and a money maker.**

A FEW POINTS OF SUPERIORITY

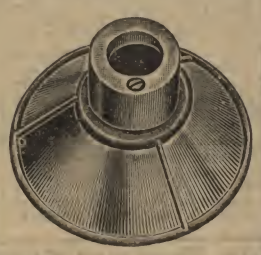
The New Improved Golden Harvest Bowl is One of the Closest Skimming Bowls Made

The bowl is the most important part of the separator, as the entire separation takes place within it. The bowl does all the work for which the separator is built.

The New Improved Golden Harvest Bowl is a wonderfully close skimmer, due to special patented points of construction which many other disc bowls do not possess. Every square inch of skimming surface of each disc does its proportion of skimming, thus giving the greatest possible capacity and cleanest skimming for the number of discs used. The whole milk is fed through the center tube down to the three distributing openings machined in the center tube, and then flows downward between the center stem and the disc holder, to the bottom of the bowl. Then the whole milk is fed equally to every disc at its outer edge, so that each disc gets its part of the whole milk, and all the discs do equal work in skimming. Thus there are no idle discs or corners in the New Improved Golden Harvest Bowl. Bowls, which feed the whole milk into the discs through slots cut in the wings of disc holder, do not show full capacity, nor skim as clean, because the upper discs get too much whole milk, the lower discs do not get enough, and so the upper discs, being overfed, do not skim cleanly. The result is loss of cream in the skim milk.

The New Improved Golden Harvest Bowl, however, skims to the last trace, because all the discs skim equally, no discs are overfed, and, therefore, there is no loss of cream.

Superior Construction of the New Improved Golden Harvest Bowl



The bowl body, or shell of the bowl is drawn from thick, flat plates, of high tensile strength, steel, in giant presses. They are annealed, or heat treated, like the finest automobile parts, to retain the original toughness and strength of the steel. Then these parts are machined perfectly smooth, inside and outside, and heavily double tinned, so that they will not rust. Notice that the Bowl is separate from the spindle, or shaft. The spindle fits into a lock socket in the bottom center of the bowl. The bowl spindle, or shaft, always remains in the machine. Bowls with solid spindles cannot be washed right, as their spindles are oily, and they will not fit in the supply tank when it is used for washing the bowl parts. The New Improved Golden Harvest Bowl has a concave bottom, and the spindle supports it at its center of weight. Flat bottom bowls have all their weight above the spindle, are very top heavy, and easily thrown out of balance. The New Improved Golden Harvest Bowl is actually centerbalancing, very compact, not top heavy, and therefore, is superior to many disc bowls in construction and convenience of handling. Since all the discs do equal work, a New Improved Golden Harvest Disc Bowl has fewer discs for a certain capacity, weighs less, and so runs easier than disc bowls of other types.

Actual separation of the cream from the milk takes place between the discs. When the bowl is turning at full speed, each layer of milk between each pair of discs is subjected to centrifugal force, caused by the rapid revolution of bowl. The butter fat globules, or cream, which are lighter than the liquid part of the milk, then separate from this liquid, and travel toward the center of the bowl, along the upper or outer surface of each disc. The liquid, or skim milk, being heavier, is thrown outward against the under or inner surface of each disc, and travels to the outer edge of the bowl. The cream travels up the center, and comes inside the cream cone. Then it comes out of the hole in the cream screw set in the top of the cream cone, as shown in the illustration below, and then is thrown out from two holes in the bowl nut, into the cream spout. The skim milk travels up between the cream cone and the bowl top, and flows out of the three skim milk openings machined in the neck of the bowl top, into the skim milk spout. Notice that all parts have smooth surfaces; are easy to get at, and easy to clean. Notice especially that the disc holder is smooth inside and outside, and that there are no slots or fine holes cut in it, as in other disc bowls, which are hard to clean and very unsanitary. The entire New Improved Golden Harvest Bowl can be washed in three minutes, using the special disc cleaner holder for the discs.

The New Improved Golden Harvest Bowl is one of the most sanitary disc bowls made. There are no slots or corners, or pin holes, that cannot be cleaned readily, as there are in many disc bowls, and in bowls with complicated skimmers that cannot possibly be cleaned thoroughly. The New Improved Golden Harvest discs are pressed in heavy presses from strong, tough steel, and heavily double tinned. They are stiff and strong, will not bend out of shape at any speed of the bowl. All the bowl parts, the discs, the spouts, the float, and the tank, are heavily double tinned. Bacteria, or germs, develop in bowl parts that cannot be cleaned perfectly. Such parts hold dirt and contaminate the cream. There are no tubes inside the bowl cover. The cream cone of the New Improved Golden Harvest bowl takes their place, and is smooth inside and out. It can be brushed or wiped perfectly clean. For all these reasons we believe, and users of New Improved Golden Harvest separators say, that the New Improved Golden Harvest is equal to any separator on the market. That is why we offer it on a 60-day trial, in actual use side by side with any other separator made.

The Cream Screw

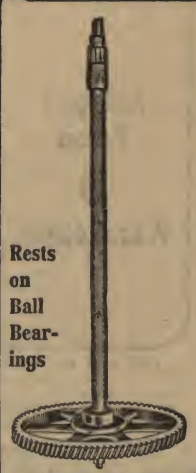
The cream screw of the New Improved Golden Harvest bowl is simply a bronze screw, with a slot cut in one side. It fits in the head of the cream cone, and is made of bronze. Being made of a different metal than the cream cone, it can never rust nor stick tight. Difference in the thickness of cream is obtained by simply turning the screw so that the hole of the cream screw turns closer to or further away from the center of the bowl. The various positions of the cream screw permit the cream to flow freely, or by holding it back, make it thicker. A small screwdriver for the cream screw is furnished with each separator.

The Cream Screw

We Ship the Golden Harvest Cream Separator from 9 Warehouses

Our Guarantee

WE GUARANTEE that every article sold will be as illustrated and described in our Catalogue; will arrive in good condition; will serve its intended purpose; and will be satisfactory to you.



You may always exchange for other articles or have your money back, including, in either case, the transportation charges which you have paid.

We guarantee the New Improved Golden Harvest Cream Separator against defective material for Twenty Years. We will duplicate, absolutely free, freight charges included, any metallic part that breaks, owing to defective material or imperfect workmanship, at any time during the twenty years following date of purchase.

We guarantee that it will skim as close, run as easy, last as long and give as much efficient service as any other Cream Separator of the same size, regardless of price.

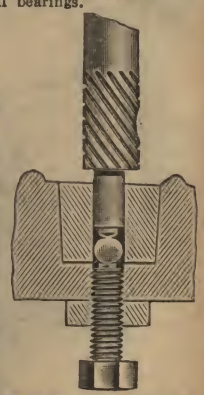
It is our desire to make trading with us so easy, so profitable, and so satisfactory, that you will be pleased not only with the goods received, but also with our service and our entire method of dealing.

Ball Bearing Spindle and Driving Gear

The easy-running feature of a separator is just as important as ease in filling, and ease in cleaning.

You will be agreeably surprised when you run the New Improved Golden Harvest. It is so well balanced and light running that the weight of the extended handle is sufficient to spin the empty skimming bowl. The ball bearings with which the Separator is fitted are chiefly responsible for this.

Ball bearings are to machinery what castors are to furniture. They stand for ease of operation. They make work easy that would otherwise be hard. The more ball bearings used on a machine the easier it runs. That is the reason why we have fitted both the driving gear and spindle with ball bearings.



Two reasons why the new Improved Golden Harvest runs easy:

The Driving Arrangement is simple. There are only a few gears. They do the same work that requires several gears, and often a chain, in less modern Separators.

The Gears are so accurately cut on an automatic machine that no two will vary in size more than one thousandth part of an inch. They are carefully fitted, and will not rub or bind.

Now, to these easy running factors, add this last one: The center of the crank is 33 inches from the ground. You won't have to stoop way over on the forward turn. A separator that is otherwise easy running, is still hard to operate if the crank is not at the proper height.

Summing it all up, isn't this the kind of Separator you would like to have? If so, read our 60 Day Free Trial Offer, and see how easy it is to get it.

High Quality
Quick Service
Low Prices

Shipped from 9 Warehouses
You Save Freight and Get Quick Delivery

Improved Service. No Advance in Prices. No Extra Charge for Storage

A big stock of Golden Harvest Separators in all sizes, with or without, speedometers, carried in warehouses at each of the following points:

Fargo, N. D.	**Columbus, Ohio**	**Albany, N. Y.**
St. Paul, Minn.	**Lebanon, Ind.**	**Harrisburg, Pa.**
Des Moines, Ia.	**Chicago, Ill.**	**New York City**

You pay the freight from the warehouse nearest you only. Prices are the same at each point.

It means to you a saving in freight charges. It is almost an insurance of speedy delivery. It means money to you both in the amount of charges saved and in having the ordinary time of delivery cut in two. Just a little more value for your money. We are giving you the same quality as heretofore. We are reducing your expense in the transportation charges, and providing means to get your Separator to you as quickly as possible after placing your order. Combining the advantages, time saving, reduced freight rates, and our extremely low prices. means, we believe, greater value for your money than you could possibly obtain elsewhere.

We Carry a Large Stock of All Sizes, With or Without Speedometer, at All the Warehouses Listed Above, Ready for Immediate Shipment

These warehouses are all selected because of the desirable railroad connections. You pay only the local freight charges from the warehouse nearest you. In nearly all instances there is a warehouse so near you that the freight will be comparatively a small item.

Be sure that your order is sent to Montgomery Ward & Co., Chicago, and state in the order from which point you want your Separator shipped. If you do not so state, we will ship it from the warehouse located nearest you, and almost without exception the Separator will be in your hands within one week from the time we receive your order. Do not send your order to any of the warehouses, as it would necessitate the order being referred to us at Chicago before shipment could be made, and that possibly would mean a delay of several days.

60 Days' Free Trial

Upon receipt of your order, we will ship the Separator in our name to your shipping point, and send a sight draft to your banker with a bill of lading attached. Just give us the name and address of your banker.

When the shipment arrives, deposit the price with your banker, who has been requested to hold the purchase price for 60 days.

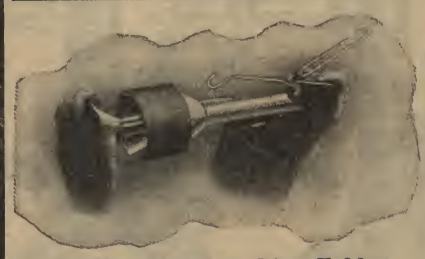
Upon receipt of your deposit the banker will give you the Bill of Lading. Go to the freight depot, pay the freight charges and get a receipt from the agent for the amount paid. Take your Separator home. Use it for 60 days and if satisfactory, notify your banker to send the money to us.

If the Separator does not prove entirely satisfactory, box it carefully and return it to the freight agent, who will give you a Bill of Lading showing the Separator consigned to us at Chicago. Present the Bill of Lading to your banker, who will refund your money. Then send us your expense bill, showing the amount of freight charges you paid and we will return the amount to you immediately.

Automatic Oiling Neckbearing

If the bearings are not properly oiled, they will soon be ruined; if you have to stop the machine to oil them yourself, the bowl will slow up and its efficiency will be lessened — cream will be lost.

Our automatic oiling device solves this problem.



In the illustration here shown, A is the frame; B the pressure lock ring; C the felt cushion, from which the oil is conveyed by means of groove E, through hole F, and then to the shaft.

Before setting the bowl in the spindle, squirt a small amount of oil on the neck bearing. This oil is absorbed by the felt cushion C, which will hold enough oil to last for an even one hour continuous run. Spring neck-bearings cannot hold the oil and feed it to the bearing, where it is needed; and springs frequently break, especially in cold weather. Notice that the frame above the lock ring B is cupped to hold an extra amount of oil to be fed to the felt cushion C. The New Improved Golden Harvest neck-bearing can never cut, because the oil is right where it is needed, and there is plenty of it.

Tools Needed

Here again the simplicity of the New Improved Golden Harvest construction proves its superiority. To set up the New Improved Golden Harvest—to put the parts together for separating, you need your two hands, and an ordinary screw driver and monkey wrench. Nothing else. And should you ever want to take it apart, the same tools will meet all your needs. If the separator is not cleaned immediately after using, the skim milk and cream that clings to the inside of the bowl will dry, and this may cause the bowl nut to stick too tightly to be loosened by your fingers. A special bowl wrench is necessary to loosen it in such a case. We furnish this wrench with the separator, so you have it, if wanted. A Book of Instructions is sent with each separator, showing just how to assemble the machine and start it off. Follow the instructions and you will never have trouble with a New Improved Golden Harvest.

This is the Women's Section

Putting Discs on Disc Holder

The purchase of a Cream Separator is a matter which concerns the women folks as much as the men. Most men are more interested than women in machinery of any kind, and the first things a man wants to know are, how is the machine made—how does it run—what will it do? These questions are right and proper; they are questions that should be answered, and we have gone into the construction of the New Improved Golden Harvest Separator, showing how it is built, and why.

Women have an interest in a separator beyond its construction. They are interested in how that construction affects their work. Three-fourths of the actual separating is done by women, and they do all the cleaning. A separator, to do good work, must be cleaned each time after using. It must be thoroughly cleaned. Nothing will breed bacteria quicker than particles of milk left clinging to the inside parts of the bowl. Untainted cream and pure, sweet butter are only possible where the separator is kept as clean as a surgeon's instruments.

Cream and butter that are **clean** and known to be clean, always command top prices. Cleanliness means more money—better dairy profits. Whether or not a separator is easy to clean is a feature that should receive due consideration before purchase. And in this, as in all other respects, the New Improved Golden Harvest is second to no separator manufactured.

Easy to Clean—Few Parts—Easily Removed

A New Improved Golden Harvest lessens your cleaning work, no matter how you have been dairying. Cleaning the parts of this Separator is decidedly easier than washing an endless number of crocks and pans. It is also easier than trying, by twist or turn, to get at the inaccessible parts of a poorly designed Separator.

See how simple and easy it is to clean the New Improved Golden Harvest. Just slip the discs on the holder—they can go on in one way only. Then put your disc holder and bowl in warm water with a little washing powder in it. Rinse with boiling water and dry them, and air till next separating time.

Isn't that easy?

Compare it with other Separators which have complicated, colander-like cylinders, with thousands of tiny holes to be cleaned with a wire.

The solid turbine - disc type is another.

Separators having skimming bowls of these types are to be avoided as dangerous, because it is impossible to clean the many crevices and recesses of the bowl. The germs lurk there and your cream is soon tainted and your product becomes worthless.

It is no trouble at all to keep the New Improved Golden Harvest sweet and clean. Five minutes' work twice a day, keeps it in perfect condition.

Showing How Discs Are Washed

Send for this Book

If you keep cows you should have a copy of our new Dairy Book. This book contains complete and detailed description of the Golden Harvest Hand Separator, showing the inside workings, the high grade construction and giving full information covering all details of hand separator.

Besides the separator, the book lists a complete line of dairy supplies such as milk cans, milk pails, milk bottles, churns, butter molds, dairy brushes, etc. It also shows a line of conveniences for your cow barn such as litter carriers, stanchions, feed cutters, cow ties, and other items too numerous to mention. Simply drop us a postal card saying, "Send me your Dairy Book," and we will send it at once, postage paid.

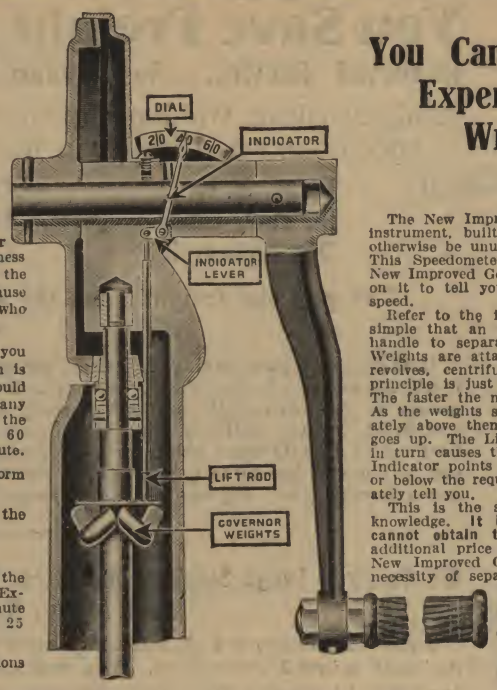
Rubber gloves—all sizes—the long wear kind—See Drug Section

Our New Improved Golden Harvest Speed Indicator

A Speedometer Ought to be on Every Separator. Will Save Its Price in the Saving of Cream in a Very Short Time

To get the best results from any Separator, it must be run at the exact speed for which it is built. A variation of the speed will mean a variation in the closeness of skimming. In a great number of cases when a Separator fails to satisfy the purchaser, who concludes there must be something wrong with the machine because it does not skim as it should, the trouble is found to be with the operator, who thought he was running the machine at the proper speed.

Should you drop off five revolutions of the crank handle during the minute, you have lost 700 revolutions of the bowl. And it is in the bowl that the cream is separated. In the New Improved Golden Harvest Cream Separator you should turn the crank handle just 60 times to the minute. Decreasing the speed of any separator is what makes the loss. The work is not done efficiently if during the first minute you turn 50 times to the minute, the second minute you turn 60 times to the minute, and the third minute you drop down to 25 turns per minute.



These two rules must be accurately observed if you want cream of uniform thickness.

1st—Turn the Separator handle 60 times per minute, every minute, during the separation.

2nd—Maintain the same speed at each skimming.

In order to have the separation as nearly 100 per cent perfect as is possible, the Separator Bowl should run at a certain number of revolutions every minute. Exceeding or diminishing the speed revolutions above a certain number per minute permits a consequent waste of the cream, sometimes amounting to as much as 25 per cent.

The average number of revolutions in all Separators is about 140 revolutions of the bowl to one turn of the crank handle.

You Cannot Afford to Guess. It is too Expensive for You When You Guess Wrong, Even Though You are Only Slightly Wrong

The New Improved Golden Harvest Speedometer, or Speed Indicator, is a small instrument, built into the Separator at the factory. It occupies space that would otherwise be unused, and takes away nothing from the appearance of the machine. This Speedometer works on a very simple principle. There is nothing about the New Improved Golden Harvest Speedometer to get out of order, and you can depend on it to tell you at all times whether or not you are separating at the proper speed.

Refer to the illustration, and see how simply the Speedometer works. It is so simple that an explanation is almost unnecessary. When you begin to turn the handle to separate, the main shaft begins to revolve, of course. The Governor Weights are attached to the main shaft, with the lower parts free. As the shaft revolves, centrifugal force causes the Governor Weights to straighten out. The principle is just the same as that which acts on the governor balls of an engine. The faster the main shaft revolves the more the Governor Weights straighten out. As the weights straighten or fly out, they naturally lift the sliding collar immediately above them. On this collar the Lift Rod rests, consequently the Lift Rod goes up. The Lift Rod acts on the Indicator Lever, as you can see, and the lever in turn causes the Indicator to move forward on the face of the Dial. When the Indicator points to 60, you are separating at the proper speed. If you run over or below the required number of revolutions per minute, the Indicator will immediately tell you.

This is the simplest and lowest priced Speedometer of which we have any knowledge. **It is furnished with the New Improved Golden Harvest only; you cannot obtain this Speedometer with any other Separator manufactured.** The additional price of a New Improved Golden Harvest Separator, equipped with a New Improved Golden Harvest Speedometer is only $3.50; considering the vital necessity of separating at the proper speed, if you are to get all the cream, the Speedometer is worth many times this low price.

NOTE—As these Speedometers are built into the Separators at the factory, they cannot be attached to New Improved Golden Harvest Separators already in use. A large stock of Speedometer Equipped Separators always on hand.

No Advance Price is the Same at Either Warehouse

Which Size Will You Buy?

Shipped from Nine Warehouses

When you buy any implement for your farm, it is better to buy one that has a larger capacity than you have occasion to use at the time of purchase. In choosing your Separator, it is wise to carefully consider your requirements. How many cows have you now; and do you intend increasing your herd? Even if you do not intend keeping more cows, you may change your mind some day, and a larger size than actually specified for a certain number of cows is the one to buy. Because of its greater skimming capacity it is worth the difference in price, simply as a time saver.

If you should increase your herd at any time, you will be in a position to take care of the increased output of milk, if you buy a larger size than you need now. Otherwise if you increase your herd, you must buy another separator. Even if you buy another small one, you have two separators to run, and two to clean after separating is done. This is double work all round—a waste of valuable time. It is more than a waste of time—it is a waste of money, for two small separators, even the smallest size, will cost more than the largest size. Two of our Size 3 Separators would cost $12.60 more than one Size 9, and yet the capacity of the two small ones would be 200 pounds per hour less than the one large one.

We have not suggested the larger size because we desire to get a larger order from you. Frankly, if you bought a small size now and another small size later, we would make more than if you bought a larger size in the first place. We want to do more than make a sale—we want to please you, and believe it is to your interest to provide for future requirements and buy a large size separator first.

Average Weight, Boxed for Shipment, 175 Pounds

Size 3—Capacity, 350 Pounds per Hour

Article No. 288B5200—Price, without Speedometer, $29.80

Article No. 288B5201—Price, with Speedometer, $33.30

Shipped Promptly from Wareshouse nearest you.
This is the Smallest Size of the New Improved Golden Harvest Cream Separator. Its skimming capacity is 350 pounds of milk per hour. It will skim any less amount, from one gallon to 175 quarts of milk per hour. This size is adapted to skim the milk product of from two to six cows. In its mechanical features it is a duplicate of the larger machines. It is a smooth running and close skimming separator. If you are sure you are not going to increase the number of your cows, this size will give satisfaction in every respect.

Size 5—Capacity, 500 Pounds per Hour

Article No. 288B5202—Price, without Speedometer, $35.00

Article No. 288B5203—Price, with Speedometer, $38.50

Shipped Promptly from Warehouse nearest you.
This is the Next Larger Size of the New Improved Golden Harvest Cream Separator. Can take care of the milk products of a dairy of from two to ten cows. It skims 500 pounds, or about 250 quarts of milk per hour, and is a very capable and efficient machine. It is made in the same high class manner as the larger sizes. The price of this machine is only a little higher than the No. 3, and the larger capacity of this machine over the No. 3 makes it safer to get this size. Then should you wish to increase your herd, you have a separator of sufficient size to take care of the increase.

Size 6—Capacity, 650 Pounds per Hour

Article No. 288B5204—Price, without Speedometer, $42.00

Article No. 288B5205—Price, with Speedometer, $45.50

Shipped Promptly from Warehouse nearest you.
This is One of Our Most Popular Sizes of the New Improved Golden Harvest Cream Separator. Is one we can recommend for use in any size dairy. It will skim from one gallon to 325 quarts, or about 650 pounds of milk per hour. It is built of the best materials, and according to the Golden Harvest standard of excellence. It is a big capacity, fast skimming separator, bound to give satisfaction. We recommend that you purchase this machine in preference to the smaller sizes. To the busy housewife the increased skimming capacity per hour of this size will mean considerable time saved in the course of a year.

Size 9—Capacity, 900 Pounds per Hour

Article No. 288B5206—Price, without Speedometer, $47.00

Article No. 288B5207—Price, with Speedometer, $50.50

Shipped Promptly from Warehouse nearest you.
This is the Largest and Best of the New Improved Golden Harvest Cream Separators. It is one of the finest separators made. No better in quality than the other sizes, but the fastest skimmer we sell, and is adapted to any size herd up to 36 to 40 cows. It will skim 900 lbs., or about 450 quarts of milk per hour. This is an easy running machine, and as easy to clean as the smaller ones. In a few months the time saved in skimming, as compared with the smaller sizes, will pay for the difference in price. The owner of this size will practically be able to add to his herd indefinitely.

THE AUTOMATIC
Power Cream Separator

Remember!
While you are milking, the Automatic is separating

Only separator made that skims while you rest

No other cream separator made will skim any great quantity of milk without constant attention. Someone is needed all the time to attend to it, and see that the milk supply is regular and that the speed is kept up to the proper limit. All this attention is unnecessary with the Automatic. The speed of Engine and Bowl is set at the factory and requires no adjustment by the operator other than to keep the belt at the proper tension—the Automatic will skim to a trace without further watching while you can be doing something else, or resting. The Automatic is the only successful combination cream separator and gasoline engine made. Every feature has been tested and proved satisfactory before finally being adopted by us. All the superior points are covered by broad patents in the United States and many foreign countries.

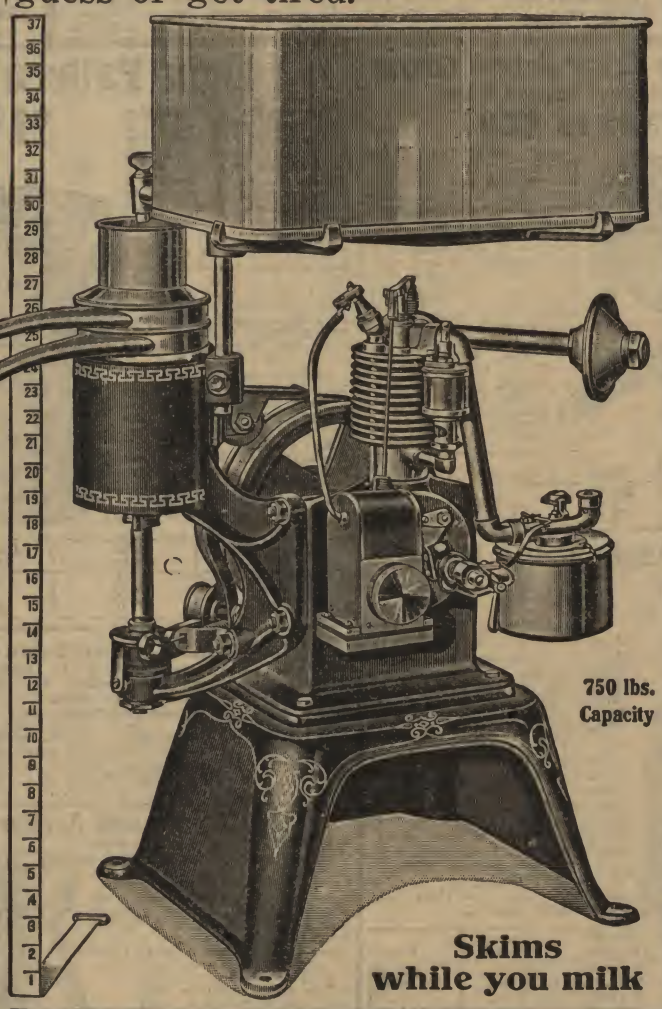
Outskims the four best known hand separators on low temperature test

The big feature of the Automatic is that it skims to a trace under any condition where it is possible to skim milk at all. In a number of tests, the Automatic has successfully outskimmed the best known hand cream separators, especially at low temperature. At low temperatures, the hand separators choked up at different stages of the test. None of them were able to finish the required quantity of cold skimming to complete the test. The Automatic skimmed its batch of milk perfectly without choking or hesitating in any way, and then turned around, and skimmed the left-over milk, which the hand separators could not handle.

Remember, these were the four best known and highest priced hand separators made. We have full proof of the authenticity of these tests.

Its very simplicity is a strong point in its favor

The Automatic is simplicity itself. It is designed to be simple. Aside from the engine, it has fewer parts than any other separator made. This means that there is just so much less chance of the mechanism getting out of order. The Automatic is both crankless and gearless. And since only one size and one model is made, the few parts are exactly standardized—interchangeable. They are machined and fitted with an accuracy and finish seldom met with in farm implement manufacture. The essential parts do not vary by a 1,000th of an inch. Every complete machine is entirely like every other. Corresponding parts, down to the smallest, are exactly alike. This is an advantage to the user if new parts are ever needed, and enables us to stand back of every Automatic with an unlimited guarantee.



Gentlemen—I have one of your Automatic Separators and beg to say that I am well pleased with same, and as to its efficiency of skimming, that I have some herd of cows and on shorter feed—and in one week's skimming under the same conditions with the hand power or crank separator, **my gain on the cream product was $5.70.** I consider this remarkable and at that rate the Automatic would not owe the farmer one penny at the end of one year. I can recommend this machine to my brother farmers.

Yours truly,
(Name and address on application.)

Let us send you our Automatic Cream Separator circular.

(Sent on request.) Send us a post card with your name and address and we will send you at once one of the most interesting dairymen's circulars obtainable. It gives you a complete history of our Automatic Cream Separator, with testimonials from users who claim they would not be without it at any price. It also gives the results of tests and trials, made by state agricultural colleges, that were amazing to the faculties, and indisputable evidence of the merits of the Automatic, the separator that always runs at a uniform speed. If you keep cows you should have a copy of this circular.

Whether on a small farm, big ranch or in the creamery, the Automatic beats them all. Correct and uniform speed insures getting all the cream. The little engine doesn't guess or get tired.

750 lbs. Capacity

Skims while you milk

30 Days' Trial

We have so much confidence in this new Automatic that we are glad to send it to you on 30 days' trial so you can test it out in your own dairy. You can send us our regular price in advance, or you can deposit the money with your local banker. We will then send you the separator. Try it out for 30 full days. Try every skimming test you can think of within reason. See how easily it starts; how smoothly and evenly it runs; how closely it skims; how economical and "self-running" it is. Do all this and more—convince yourself fully that it will do everything we say it will. Then, if everything is satisfactory, you keep the machine under our guarantee that it will continue to operate satisfactorily if run according to instructions. You take absolutely no risk, even if you send us your money first. If you are not perfectly satisfied at the end of the 30 days, we will cheerfully take back the machine, pay the transportation charges, and the price you paid. In case you deposit the price with your banker, and you don't want to keep the separator, just tell him at the end of the thirty days that the trial has been unsatisfactory. Give him the receipted freight bill showing that you have returned the machine to us. He will then return your deposit, and, when you send us the freight receipt, showing how much freight you paid, we will pay you the freight charges.

Can we make you a fairer offer? Could we prove our faith in the Automatic in any stronger, more convincing way? We are offering you the Automatic on its own merits. If, inside of 30 days, it doesn't please you well enough to keep it, the risk is all ours. You do not risk a penny.

The inside workings of the Automatic

The Automatic Separator is a highly perfected cream separator into which a gasoline engine has been built as one solid unit, built into one solid base. There is absolutely no opportunity for vibration or needless friction, as the separator itself is driven direct from the engine shaft, without a single gear or other transmission mechanism.

The speed of the engine being controlled by a throttle governor, it is practically self-regulating, and will not race if left running without any milk going through the separator. The carburetor is automatically regulated so that the throttle opens or closes to conform to every condition and every requirement. In fact, every feature has been so carefully worked out that the complete machine is not only remarkably simple, but wonderfully efficient. Not a single nut, bolt, or screw has been put on that is not necessary. On the other hand, nothing has been omitted to make the Automatic a perfect machine. Bear in mind, the Automatic is not a combination of cream separator and gasoline engine, but **is a Cream Separator and Gasoline Engine in one.**

Prices

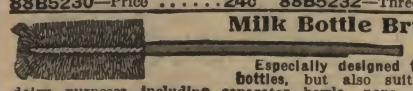
One size Separator for any size Dairy

You can't feed the milk too fast or too slow. This 750 pound capacity size will take all the milk and skim it faster than ten men can milk. One Automatic will do for any herd, whether it is a half dozen or a half hundred. The bigger your dairy, the more valuable the Automatic. The bigger your herd, the more time and effort the Automatic saves you.

There is no vibration. The Automatic is as smooth running as the finest hand separator. The engine is in perfect working harmony with the separator itself. There is no long train of gears to cause vibration and lost motion. The direct shaft drive transmits the power first hand, insuring a smooth, even, easy drive. When you are tempted to buy a hand separator, keep in mind the hundred and one big advantages of the Automatic. Then remember that the Automatic costs you no more (engine, separator and all, complete) than you would have to pay the agent for a good hand separator. No dairyman can afford to be without a good separator.

Dairy Brushes

Milk Can Brush



Brush has curved head by which every part of the inside of milk can may be reached easily. Also suitable for cleaning milk pails, ice-cream cans, pans, etc.

Made of selected Palmyra fibre, woven through double strands of heavy galvanized wire. Has rounded wooden handle, length, 10 in. Length of brush proper, 7 in. Width, 5 in. Total length, 17 in. Weight, 6 oz.

88B5230—Price .....24c **88B5232**—Three for 68c

Milk Bottle Brush

Especially designed for cleaning milk bottles, but also suitable for various dairy purposes including separator bowls, pans, etc. Has black bristles woven into double strands of galvanized wire, with wood handle extending clear through center. Extra stiff fibre points at tip of brush for getting into corners, etc. Total length, 16 in. Length of brush proper, 5 in. Width, 3 in. Weight, 3 oz.

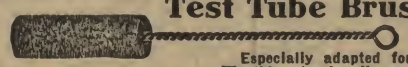
88B5240—Price 7c

Milk Jar or Bottle Brush

Extra quality stiff bristles, interwoven into double galvanized wires. One of the most satisfactory brushes in use for cleaning milk bottles and other dairy vessels. Will give long service. Total length, 14 in. Length of brush proper, 5½ in. Width of brush, 2¼ in. Wt., 3 oz.

88B5245—Price 14c
88B5247—Three for 35c

Test Bottle Brushes

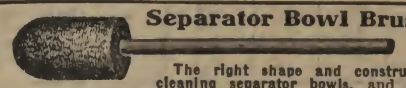


Twisted wire brushes with white bristles. Designed for cleaning test bottles. Made in two sizes. Smaller size for 10 per cent Milk Test Bottles. Total length, 11 in. Length of brush head, 5 in.; largest diameter, 1⅜ in. with ¼ in. neck and tuft tip. Weight ¾ oz.

88B5250—Price 6c
88B5252—Three for 15c

Larger size is for 40 or 50 per cent Cream Test Bottles. Total length, 11 in. Length of brush head, 5 in.; largest diameter, 1½ in., with ½ in. neck and tuft tip to clean bottle bottom corners.

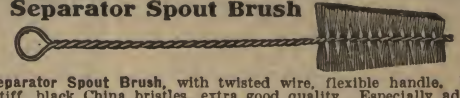
88B5254—Weight, 1 oz. Price each.....8c
88B5256—Three for 20c



Test Tube Brush

Especially adapted for Test Tubes. Flexible wire handle, and good quality of white bristles. Total length, 8½ in. Length of brush, 2¾ in. Diameter of brush, ⅝ in. Weight, ½ oz.

88B5260—Price 4c
88B5262—Six for 20c



Separator Bowl Brush

The right shape and construction for cleaning separator bowls, and especially adapted to this purpose. Can, however, be used for milk bottles, jars, etc. The brush is of black bristles of good quality, round, to clean on all sides, and is rounded at point. Has four double wires in which the bristles are securely woven. Diameter of brush, 3 in. Length of brush, 5 in. Total length, including handle, 14 in. Weight, 3½ oz.

88B5266—Price 15c
88B5268—Three for 40c

Separator Spout Brush

Separator Spout Brush, with twisted wire, flexible handle. Made of stiff, black China bristles, extra good quality. Especially adapted for cleaning separator spouts. Total length, 16 in. Length of brush head, 4 in. Brush tapers from 3 to 1¾ inches. Weight, 1½ oz.

88B5272—Price 8c
88B5274—Three for 22c

Hand Dairy Brush

For scrubbing milk cans, pans, crocks, etc. Of solid wooden back and good quality white Tampico bristles, 1¼ inches long, outside of block. Length of wood back, 4½ in. Fibres flare at ends to reach corners, seams, etc., A very desirable brush in the dairy. Wt., 4 oz.

88B5280—Price 9c
88B5282—Three for 25c

Be warm in zero weather—see Heating pages in this book

$4.65 American Churn

Strong, rigid frame, legs bolted through frame, made of white ash, varnished natural wood finish, adjustable steel hoops and rods. Simple and durable—A rapid butter maker—geared 3 to 1. Removable lid.

The dashers have a rotary motion, constructed to agitate the cream violently without breaking the grain of butter. Churn is well constructed and strengthened by adjustable steel bands and rods.

Churning is one of the most laborious operations the housewife has to contend with. It will be materially lessened by the use of the American Churn. Experience has taught us that there is no more dependable churn of this type to be had. Stands about 30 in. high.

Article No.	Price	Size Gal.	Shipping Wt., Lbs.	Length In.	Width In.	Height In.

One of the first needs of a well regulated dairy is a good gasoline engine. There's a use for it every day—almost every hour. The effort, the time and the energy it will save you will pay for its cost in a few months. In fact, gas engines have become a real farm necessity. Look over our line of engines in this book.

Hawthorne Oak Barrel Churn

$2.75

Churn made of clear oak, stand of hardwood. Tongued and grooved oak staves. Average height from floor to center of crank, about 20 in. Directions with each churn.

188B5310 — Six-gallon Hawthorne Barrel Churn, for one to three gallons of cream. Diameter, 12 inches. Shipping weight, 28 lbs. Each $2.75

188B5312 — Ten-gallon Hawthorne Barrel Churn, for 1 to 5 gallons of cream. Diameter, 14 inches. Shipping weight, 33 lbs. Each $3.15

188B5314—Fifteen-gallon Hawthorne Barrel Churn, for 2 to 7 gallons of cream. Diameter, 15½ inches. Shipping weight, 36 lbs. Each $3.55

188B5316 — Twenty-gallon Hawthorne Barrel Churn, for 3 to 10 gallons of cream. Diameter, 18 inches. Shipping weight, 43 lbs. Each $3.85

188B5318—Twenty-five gallon Hawthorne Barrel Churn, for 4 to 12 gallons of cream. Diameter, 19 inches. Shipping weight, 55 lbs. Each . $4.90

188B5320—Thirty-five gallon Hawthorne Barrel Churn, for 5 to 16 gallons of cream. Shipping weight, 65 lbs. Each $5.75

Churn Pulley Sets.

188B5324—Tight and Loose Power Pulley Set with Gudgeon shaft. Pulleys, each, 12x2¼ inches, for 6, 10, 15 and 20 gallon churns. Shipping weight, 24 lbs. Price $2.25

188B5326—Tight and Loose Power Pulley Set with Gudgeon shaft. Pulleys, each 18x2¼ inches for 25 and 35 gallon churns. Shipping weight, 38 lbs. Price $3.75

Climax Power Barrel Churns

Superior to many and equal to the best Power Churns made. Have oak staves, varnished barrels, rust-proof, painted hoops, extra strong frames; have 12x2 inch tight and loose pulleys and crank extra, or 14 inch pulleys furnished on special order. Directions for operating furnished with each churn.

Up-to-date farmers and dairymen are always ready to adopt new ideas that will lighten their work. Engine Power can do the work in less time than you can.

If desired with single 12x2 pulley only, deduct 50c from regular prices, and so specify in ordering.

Extra heavy stands, 50c extra. For roller bearings extra, fitted to extra heavy stands only, for any size, allow 50c extra.

Cedar Cylinder Churns

Easy to turn. Four paddle dashers agitate cream violently to produce butter quickly

Made from high quality clear cedar. Lock and crank made of cast iron, heavily tinned. Has a four paddle dasher and the crank is locked to the churn with a clamp and thumb-screw, which prevents leakage. The top is large and dasher easily removed. Lower rests removable. The hoops and metal parts are galvanized and will not rust.

No. 1 holds 3 gallons. Churns 2 gallons.
No. 2 holds 4 gallons. Churns 3 gallons.
No. 3 holds 7 gallons. Churns 4 gallons.
No. 4 holds 10 gallons. Churns up to 6 gallons.

Steel Top Cedar Barrel Churns

Tongued and Grooved Staves

$2.35 to $2.95

Our Steel Top Cedar Barrel Churns are standard in size and construction, and the galvanized steel head ring and cover have made them great favorites. Have welded heavy steel wire hoops with one flat hoop at each end. The clear red cedar used in barrels is excellent for dairy purposes. Staves and bottom have tongued and grooved joints. Will churn ½ capacity.

The Patent Steel, Drop Pressed Covers cannot warp or break. The Stands are all hardwood, bolted together and extra strong.

Elgin Pattern Railroad Milk Cans

$1.70 to $2.60

One of the most popular cans sold. Made of heavy double-tinned steel plate with all seams heavily soldered. Have special lock joint where breasts join necks. Body and bottom are solidly riveted to bottom hoops. (See illustration.)

The handles are strongly riveted. The breast and bottom are fully rounded, therefore very easily cleaned. There are no open seams to hold milk or dirt. Our Elgin cans are sanitary, strong and very smoothly finished. The best cans are the cheapest in the end.

Notice the special lock joint connecting can breast to neck. The breast and neck cannot pull apart. Our cans will never leak at this joint. When cans are piled up, all the weight comes on the neck joint. Ordinary cans give out here first. Although our Elgin cans are so superior in construction, our prices are exceedingly low.

Climax Home Churn and Butter Maker

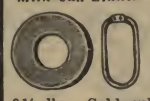
This Butter Maker, Batter Mixer, and Cream Whip is a handy article in the kitchen. A big improvement over the old wooden churn. An exceptionally useful little machine for home butter making. With one pound of commercial butter and a pound of ordinary sweet milk, in one minute it will transform the whole into two pounds of wholesome table butter. Has patented dasher which mixes thoroughly.

Also adapted for kitchen purposes, such as renovating or restoring old butter to freshness; a cake batter mixer; a cream whip; ice cream freezer; to make buttermilk and to utilize small amounts of butter and cream which otherwise might be wasted.

The jar is made of heavy flint glass, with capacity of one gallon and churns 2 to 3 quarts. Inside diameter, 6¼ in.; height, 8½ in. Cover and working parts are of cold pressed steel, accurately made, light running. All metal parts heavily nickel plated to prevent rusting. Will give long service. Cover fits snugly over jar without screwing. Pamphlet of directions or instructions covering many other uses sent with each churn. Weight, packed for shipment, 7¼ lbs.

88B5380—Price $1.45

Two Minute Butter Maker



85c to $1.65

Makes butter in two minutes from sweet or sour cream, at 52 to 60 degrees Fahrenheit. Whips cream in one minute. Beats eggs to froth in less time. Makes ice cream or fruit ices like a freezer. Recommended by "The Good Housekeeping Institute." Cover screws on tightly. The body of the glass jar is square, thus aiding churning by preventing the cream from turning with the dasher. Has double gearing, giving high speed to dasher. Dasher is clear cedar, easily cleaned. Metal parts nickeled to prevent rusting. Made in 4 sizes, churning ½ to 2/3 capacity. Jars are clear flint glass, easily cleaned.

Article No.	Capacity of Jars	Shipping Weights	Price
88B5390	1 quart	6 lbs.	$0.85
88B5392	2 quarts	7 lbs.	1.00

Milk Cooler and Aerator

Takes all animal heat and odor out of milk by cooling and aerating milk as it flows over the cooling drum in fine streams from small perforations all around the bottom edge of upper milk tank. Inlet and outlet water connections for rubber hose, milk outlet from lower trough. Tinned agitator furnished to stir ice mixtures inside drum. Can be used with running water, well water or ice. Complete directions furnished. Cooling drum made of heavy XXX tin with lower tin milk trough with wire roll rim. Bottom plate of heavy galvanized steel. Furnished with cheese cloth strainer and spring pins to hold cloth.

Iowa Pattern Railroad Milk Cans

Very popular in many sections. Built for service and will stand hard usage. Have full rounded breast and special lock-joint neck, same as our Elgin cans. Handles are strongly riveted and are fully rounded, affording good hand grip. Body made of smooth double tinned stiff steel plate with rounded bottom hoop. All rigidly riveted together. Smoothly finished inside and outside. No cracks or corners in which milk can collect and sour. Our Iowa cans have many desirable points of construction.

Crown Cream Separator and Aerator

Will keep cream absolutely cool, pure and sweet. The inner tank is made of pure charcoal tin and coated with aluminum outside. The inner can has a water tube connecting with the outer can, which allows free circulation of water and a large cooling surface. When through straining, wash strainer, turn lid over and put on the perforated disc in place of strainer cone. This allows all impure odors to escape. Inner tank is removable. Gauge glasses in both cans show depth of cream. Full direction with each outfit.

For 5 Root Danzenbaker White Pine Hives 10 Frames

Complete with sections and starters. Metal covers. Outside dimensions are the same as our regular dovetailed 10-frame hives, except in depth. There are ten frames in the brood hive, depth, 7½ in., reversible and with closed ends. The reversible feature is an advantage, as by turning the combs upside down, the bees will fill up all empty spaces. The closed ends of the frames practically constitute a double wall, saving the heat of the cluster and favoring brood raising. Depth of supers, 5⅝ in., with eight section holders, nine fence separators, two end wedges and springs and thirty-two 4x5x1⅜-in. plain sections with inch starters. This is an excellent comb honey hive, the sections averaging a full pound of honey when stored under ordinary conditions. Cover has inner cover and is roofed with lead coated roofing tin with telescoping sides. Thickness of inner cover, ⅜ in.; with metal ends. Bottom board is reversible, one side giving ⅜ in. space under frames, other side ⅞ in. Bee entrances can be varied by the detachable alighting board. By ordering extra brood chambers hives can be enlarged to 2 or 2½ stories and can also be used as supers for extracted honey by using honeyboards between the upper and lower stories.

188B5670—Crate of five 1½ story 10-frame hives. Shipping weight, 195 lbs. Price $9.95

188B5672—Crate of five 10-frame Hive Supers. Shipping weight, 57 lbs. Price $3.65

188B5674—Crate of five 10-frame Brood Chambers. Shipping weight, 58 lbs. Price $3.40

188B5676—Single 1½ story Hive complete with cover and bottom board. Shipping weight, 40 lbs. Price $2.35

Bee Hive and Bee Keepers' Supplies

Our line of bee hives and beekeeper's supplies is of the highest quality in material, finish and fit.

We handle white pine hives only, made by the largest and most prominent makers of hives. Due to our purchasing power, we are able to offer the very best hives at reasonable prices.

Bee hives are generally shipped knocked down, except single hives, which we quote as "Set Up, Nailed and Painted," also listed as "Knocked Down." The illustration shows how five complete 1½-story hives are crated for shipment. The larger crate contains five lower hive bodies with covers, bottoms, frames and small parts inside. Three hive bodies are nailed together, and the other parts are packed inside. The small crate consists of two of the supers nailed up with the other three supers, parts, sections, etc., inside. Anyone can easily set up the hives in a few minutes' time. Complete instructions for setting up are packed in each crate with enough nails to set up.

1½-story hives are the standard and popular size, but by ordering extra supers or bodies known as brood hives, you can make hives 2 or 2½ stories high to take care of an extra heavy honey flow season.

We carry a full stock of hives and other supplies at Chicago, but when of advantage to customers we will ship direct from our eastern warehouse.

Write us for prices on any style hives or supplies not shown on this page.

$8.45 For Five Standard Root White Pine Hives

Complete With Sections and Starters.

With Supers and Sections for Comb Honey. Have Excelsior covers and reversible double surface bottom boards. Illustrations show a complete set up, 1½-story hive, and an 8-frame super, depth 4¾ in., fitted with 6 scalloped section holders, 5 scalloped separators, 24 4¼x4¼x1⅞ in. scalloped sections, 24 one-inch foundation starters with adjustable follower boards and 2 flat Super Springs. 10 Frame Supers have 7 section holders, six scalloped separators, 28 sections and foundation starters. Depth of first story or Brood Chambers, 9½ in., fitted with Standard Hoffman Frames.

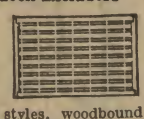
88B5762—Junior Smoker, diameter, 2½ inches. Weight, 1½ lbs. Price 49c



Parker Foundation Fastener

Hand-operated. For fastening comb foundation into honey section boxes.

88B5790—Parker Foundation Fastener. Weight, 12 ounces. Price 22c

Honey Boards or Queen Excluders

Mostly used in extracting hives between the super and the brood chamber to keep the Queen below to prevent breeding above. Made in two styles, woodbound with perforated zinc and wood cleats, or woodbound with wood cleats and wire spaced openings. Weight of 8-frame boards, about 1½ lbs., 10-frame, about 1¾ lbs. each.

88B5782—8-Frame Zinc Honeyboard. Price, each 21c
88B5784—10-Frame Zinc Honeyboard. Price, each 23c
88B5786—8-Frame Wire Spaced Honeyboard. Price, each 28c
88B5788—10-Frame Wire Spaced Honeyboard. Price, each 32c

Doolittle Division Board Bee Feeder

For feeding in winter. Permits feeding without smoking or exposing the bees. Holds 3 pints, is tightly nailed and coated inside with paraffine wax.

88B5778—Division Board Bee Feeder. Weight, 1 pound. Price 28c

The A B C and X Y Z of Bee Culture

By A. I. Root. Latest Edition. An Encyclopedia of beekeeping for experts and amateurs. 717 pages, over 1,000 illustrations. The beekeepers' bible. Cloth bound.

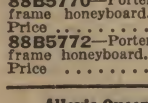
88B5780 — Weight, 3¾ lbs. Price $1.92

Coggshall Bee Brush

A whiskbroom with long, pliable strands. Will not injure bees nor comb. Better than bristle brushes which become sticky.

88B5712—Length, 12 in. Weight, 5 oz. Price 15c

Porter Bee Escape



Used in center of honeyboard under supers. Placed in position at night. Bees cannot return till escape is removed.

88B5768—Porter Bee Escape, without honeyboard. Weight, 2 oz. Price 12c

88B5770—Porter Bee Escape, with 8-frame honeyboard. Weight, 1¾ oz. Price 26c

88B5772—Porter Bee Escape with 10-frame honeyboard. Weight, 2 lbs. Price 29c

Alley's Queen and Drone Trap

Used to exterminate drones when too numerous and prevents loss of swarms. Front and back are covered with perforated zinc, allowing workers to pass through the holes which are too small for drones and fertile queens. Weight, 1 lb.

88B5774—Queen and Drone Trap. Price 39c

88B5776 — Wire Spaced Queen and Drone Trap. Made same style but entrance has smooth, round wire bars in place of perforated zinc. Weight, 1 lb. Price 44c

Globe Bee Veil With Springs

Net made of French Cotton Tulle with silk face piece. Veil kept from face by five spring steel bars, which button to studs on veil neckband. Absolutely beeproof.

88B5716—Globe Bee Veil. Weight, 5 oz. Price 88c

Swarm Catcher

An excellent, simple swarm catcher. Four sided conical wire basket with hinged cover and pole socket to be attached to a long pole. Pole is not furnished.

88B5766—Swarm Catcher. Weight, 8 pounds. Price 88c

Honey Shipping Cases

Very smoothly finished and fitted. Honey in attractive cases brings 1 or 2 cents per pound better prices than when shipped in rough, rusty looking, home made boxes. Have leak-proof corrugated manila paper floor and follower board to keep sections tight together. Width of front glass, 2 inches, fitting in grooves. Each case takes 24 scalloped sections, size 4¼ x 4¼ x 1⅞ inches. Sold only in lots of ten complete cases. Shipped knocked down.

188B5792—Crate of ten Honey Shipping Cases. Weight, 40 lbs. Price $1.80

Hand Section Press

Hand operated, for setting up one piece section honey boxes. Presses the dovetailed ends of section together without breaking corners.

88B5794—Hand Section Press. Wt., 1¼ lbs. Price 47c

SECTION HONEY BOXES

Our No 1 sections, also known as "A" grade, are made of clear basswood, smoothly polished, perfectly finished and free from defects. Made in plain (no beeway) or scalloped styles. The scalloped, or two beeway sections are 4¼x4¼x1⅞ inches and as shown above. Plain sections come in two sizes listed below. No. 2 or "B" grades are slightly darker and have slight imperfections. They are used where a clear white section is not required.

Sections are sold only in quantities as listed below. **Be careful to order the proper style and size for your hives.** Ship. weights: 100 sections, 8 pounds; 250 sections, package, 18 pounds; 500 sections, crated, 35 pounds.

Litter and Feed Carriers—Cow Stanchion

Climax Adjustable, Rake and Lower and Feed Carrier Outfits and Parts are offered to our customers in the belief that there are no other litter or feed carriers that can be purchased at our prices equal to them. Our familiarity with many well-known makes of carriers on the market has proven to our satisfaction that no matter what prices you pay, there is none, to our knowledge, that has more good features for the easy and convenient handling of feed, litter, silage and other materials.

Either style Climax will operate on all rod track, all steel rail track, or combination rod and steel rail track. We especially recommend steel rail track for general use.

Owing to the different sizes of barns and varied conditions, very few outfits require the same parts. We have listed each part separately, enabling the purchaser to readily select just what will be required.

If in doubt as to the exact outfit required, write to us, sending a rough pencil sketch of your barn and yard. Give width and length of each alley or driveway. Tell how you wish to run the tracks and give length and kind of each track. Show how far apart the joists are from center to center and how they run above each track. We will send you a complete estimate with drawing, listing the parts needed and showing exactly where they will be placed.

Climax Automatic Adjustable Carrier with Brake

288B5801
$11.65

Roller bearings in wheels. Ball bearings in swivel hangers. Safety guards to hold wheels on track. Galvanized steel round bottom boxes. Two sizes, 5 or 6 bushels capacity.

Have the same steel boxes and double lock at ends, with ball bearing swivel hangers and roller bearing wheels, as our Raise and Lower Carriers. The ball bearing swivel hangers permit carrier to go around curves with least possible friction.

Has double lock, or one lock on each end of box. The box readily dumps when tripped. The bail is made of heavy channel steel and braced at each top corner, preventing end play. Double locks are adjusted by bolts.

Diameter of wheels, 5½ in. Track guards make it almost impossible to jump track. The box is made entirely of 20 gauge galvanized steel, with angle steel rim, thoroughly riveted. Will outwear several wooden boxes. Will hold all fluid. Rounded bottom insures dumping clean. Steel-lined ends with two thicknesses of ⅞-in. hard pine at each end, all solidly fastened together. Wooden ends are painted with red oil paint. Suitable for small barns. While adjustable 6 in. high or low, they are not as convenient to load as our Raise and Lower Carriers, which lower 2 ft. or 5 ft., when more chain is added. Length of 5 and 6 bushel boxes, 44 in. Width of 5 bushel box, 23 in.; depth, 13 in. Width of 6 bushel box, 25 in.; depth, 14 in.

Total height of carriers, both sizes: 3 ft. 9 in.

288B5801—Climax Adjustable Carrier. With 5 bushel box and one trip. Weight, 100 lbs. Price $11.65

288B5806—Climax Adjustable Carrier. With 6 bushel box and one trip. Weight, 110 lbs. Price $12.50

Shipped from Warehouse Near Chicago.

Climax Automatic Raise and Lower Carrier

288B5810
$15.95

Made in three sizes: 5, 6 or 10 bushels.

Boxes made of 20-gauge galvanized steel reinforced with angle steel rims. 5 and 6 bushel boxes have steel lined ends with two layers of hard pine. 10 bushel box has extra steel stiffener end plates riveted to inside end plates.

Ten roller bearings in each wheel. Diameter of wheels, 5½ in.

Hangers are swivel style with ball bearings. Upper frame constructed entirely of steel and malleable iron. Diameter of chain wheel, 10 in. Length of hand chain, 8 ft. Chain winding shaft and hand chain shaft are ⅞ in. cold rolled steel. Trip bolt has adjusting nuts. Double lock on all boxes. Will lower 2 feet and chain shafts will hold 3 feet extra chain if needed. All castings are malleable iron and are heavily japanned.

Balls made of heavy channel steel. Have lugs with trip chain guides. Length of 5, 6 and 10 bushel boxes, 44 in. Width, 23, 25 and 26 in., respectively. Depth, 13, 14 and 17 in., respectively. Total height, all sizes, from track to box bottoms, 3 ft. 9 in.

288B5810—Climax Automatic Raise and Lower Carriers, 5 bushel capacity, with one trip. Weight, 140 lbs. Price $15.95

288B5814—Climax Automatic Raise and Lower Carrier, 6 bushel capacity, with one trip. Weight, 155 lbs. Price $16.90

288B5816—Climax Automatic Raise and Lower Carrier, 10 bushel capacity, especially adapted for large barns and rigid track. Weight, 175 lbs. Price $19.75

Shipped from Warehouse Near Chicago.

Climax Ten Bushel Feed Carriers

$18.60

Especially adapted to carrying feed. This carrier is made with either adjustable or raise and lower heads similar to the heads used on our Climax Litter Carriers. Has roller bearing wheels, ball bearing swivel hangers with track guards and heavy channel steel bails. Each bail bolted at the bottom end to a heavy steel brace which passes under the box.

$14.75

Outside measurements of feed boxes are: Length, 70 in.; width, 24 in.; depth, 16 in.; with 1¾ in. iron bound wood sides, and heavy galvanized steel bottom and ends. Sides are made of two thicknesses of ⅞ in. clear hardwood, running lengthwise, with joints overlapped. All wood parts painted with red oil preservative paint. Steel ends shaped to fit shovel. Distance between centers of wheels and bails, 36 in. Distance from track to bottom of boxes in running position, 45 in. Adjustable Feed Carrier has two adjustments for lowering a total of 8 in. Raise and Lower Carrier lowers 2 ft., but 3 ft. of extra chain can be added to increase the drop. Either end of box can be tipped by a short rope with 2 hooks connecting the opposite end with upper frame.

288B5820—No. 1 Adjustable Feed Carrier. Weight, 160 lbs. Price $14.75

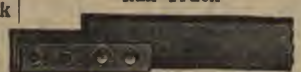
288B5824—No. 2 Raise and Lower Feed Carrier. Weight, 220 lbs. Price ..... $18.60 Shipped from Warehouse Near Chicago

Rod Track

Soft, tough, pliable steel.

Can be twisted and looped cold. Our 13/32 in. diameter, track is used with 5 and 6 bushel carriers. The 15/32 in. heavy track is used with heavy loads with our 10 bushel carrier and with light loads on extra long track lines, with spring suspenders. Order each length separately.

288B5828—Rod Track. Thickness, 13/32 in. Weight, per ft., 1/3 lbs. Price, per ft. 2c



288B5830—Heavy Rod Track. Thickness, 15/32 in. Weight, per ft., ½ lb. Per ft. 2½c

288B5832—End Loop Clamps. Weight, 2 lbs. Price 15c

288B5834—Cross Track Tie. Wt., 1⅛ lbs. Price 30c

Shipped from warehouse near Chicago.

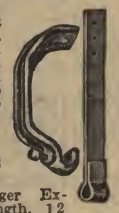
Rail Track

Made of tire steel, round edged. Thickness, ⅜ in. by 1⅝ in. Can be bent cold over a wagon wheel or any curved surface to any curve desired. 6 or 12 ft. lengths only. Track joint coupling with each length of track. Weight, per ft., 2 lbs.

288B5840—Steel Rail Track, per foot 9½c

Shipped from warehouse near Chicago.

Post Loop



Made of 15/32 in. rod track. Total length, 20 ft., with loop to go over post and plain end to attach to anchor rod or bolt. Weight, 18 lbs.

288B5845—Post Loop .. $1.10

Shipped from warehouse near Chicago.

Track Hangers and Extensions

Made of malleable iron with set screw to hold rail track securely. Have ⅜x1⅛ in. slot in upper end for lag screws to attach directly to joists.

288B5850—Rail Track Hangers. Weight, 2 lbs. Price ... 22c

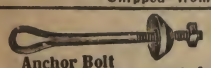
288B5852—Hanger Extension. Total length, 12 in., to lower hangers from 1 to 8 in. Weight, ¾ lb. Price 6c

288B5854—Hanger Extension. Total length, 18 in., to lower hangers from 6 to 12 in. Weight, 1 lb. Price 9c

288B5856—Lag Screws, 5/16x5 in., to attach hangers to joists. Price, each 1c

Shipped from warehouse near Chicago.

Steel Rail Track Gate

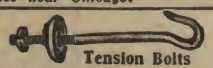


Removable gate for steel rail cross tracks. Also for doorways where sliding doors are used. Length, 24 in., made of our regular steel rail track. Complete with track joint couplings and bolts.

288B5898—Steel Rail Track Gate. Weight, 4 lbs. Price 60c

Shipped from warehouse near Chicago.

Anchor Bolt

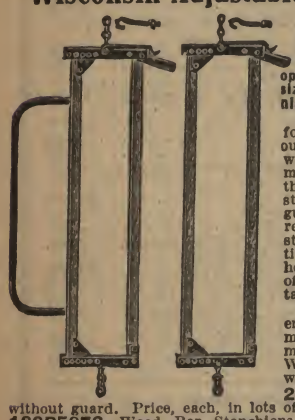


Intended to go through log buried in ground to anchor outer post. Length of bolt, 6 ft.; diameter, ⅝ in.; threaded 8 in. Complete with heavy cast washer and nut.

288B5903—Anchor Bolt. Weight, 10 lbs. Price 85c

Shipped from warehouse near Chicago.

Tension Bolts



288B5908—Post Tension Bolt. Diameter, ⅝ in. Length, 30 in., with washer and nut. Used at outer posts to draw up cable tight to overcome sagging. Weight, 5 lbs. Price 50c

288B5912—Barn Tension Bolt. Diameter, ⅝ in. Length, 24 in. One needed at barn end of main tracks and at each end of inside barn cross tracks. Weight, 4 lbs. Price 40c

Shipped from warehouse near Chicago.

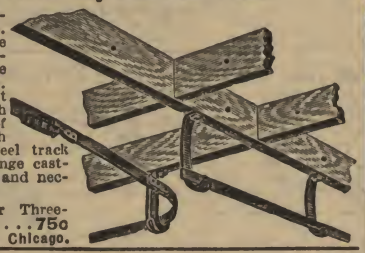
Wisconsin Adjustable Wood Bar Stanchions

Oil Seasoned Hard Maple Bars. Pressed Steel Ends. Malleable Iron Latch.

Adjustable to 5, 6, 7 or 8 in. opening. Can be used for a fair-sized calf or the largest cow. Furnished with or without guard.

To those who have a preference for wood bar stanchions, we offer our Wisconsin in competition with any similar one. The latch is made of malleable iron, surelock, the balance of heads are of pressed steel. Furnished with or without guard as shown in illustration. We recommend the purchase of the stanchions with guard as it practically insures the cow placing her head in the right opening. Length of eye-bolt, 6 in., furnished to attach stanchion at top.

The short length of chain at each end of the stanchions gives them much more flexibility and is far more desirable than the pivot style. Weight, without guard, 16 lbs., weight, with guard, 18 lbs.



288B5970—Wood Bar Stanchion without guard. Price, each, in lots of 5 or more $1.04

188B5972—Wood Bar Stanchions without guard. Price, each, in quantities less than 5 ..... $1.08

288B5974—Wood Bar Stanchions with guard. Price, each, in lots of 5 or more $1.30

188B5976—Wood Bar Stanchions with guard. Price, each, in quantities less than 5 ... $1.35 Orders for 5 or more shipped direct from our warehouse near Chicago. Orders for less than 5 shipped from our store and can be included with other goods.

Plain Two or Three Way Steel Rail Switch

This plain switch is low-priced, simple and reliable. Used where hangers can be attached to joists or cross-pieces put in to support the tracks leading to the switch. Ends of tracks can be bent to curve over to switch with 4 in. space between ends of two or three tracks. Switch is a 2 ft. piece of rigid steel track with socket casting, pivot hinge casting, steel top track coupling and necessary bolts. Weight, 6 lbs.

288B5858—Plain Two or Three-Way Switch. Price 75c

Shipped from warehouse near Chicago.

Drop Switches

Length of curve, 5 ft. Made of ⅝x1⅝ in. rigid steel track, shipped flat, but easily bent cold to any curve required. Right hand switch has turnover end for rod track turned to the right, supported by a hanger in the center as shown, or by a hanger with rope running through a staple fastened in ceiling. Weight, 13 lbs.

288B5890—Right Hand Drop Switch with Hanger. Price $1.40

288B5894—Left Hand Drop Switch with Hanger. Price 1.40

Shipped from warehouse near Chicago.

Two and Three-Way Track Switches For Rail Track

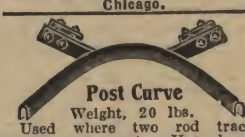


Illustration shows two-way. Three-way constructed similarly, but with three-track connections. Has heavy frame to bolt to joists. Chain adjustment to change switches.

288B5867 — Two-way Switch. Wt., 28 lbs. Price ... $2.65

288B5870 — Three-way Switch. Wt., 36 lbs. Price $2.90

Shipped from warehouse near Chicago.

Post Curve

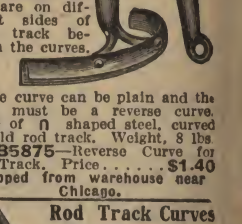
Weight, 20 lbs.

Used where two rod tracks run to same post. Has clamps to hold curve firmly to rod tracks.

288B5885—Price $2.10

Shipped from warehouse near Chicago.

Splice Connections



Made of steel rail. Length, 4 ft., with turnover front end and hinged at rear by bolt to U shaped joint coupling. Right hand splice connection has front end turned over to the right to fit over rod track.

288B5863—Right Hand Splice Connection 90c

288B5865—Left Hand Splice Connection 90c

Shipped from warehouse near Chicago.

Reverse Curve

Used where two curves are in the same rod track line, whose centers are on different sides of the track between the curves.

One curve can be plain and the other must be a reverse curve. Made of ∩ shaped steel, curved to hold rod track. Weight, 8 lbs.

288B5875—Reverse Curve for Rod Track. Price $1.40

Shipped from warehouse near Chicago.

Rod Track Curves

$1.15

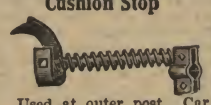
For any angle from 20 to 60 degrees. Can be bent cold. Made of ∩ shaped steel with riveted center clamps and 4 feet of rod track.

Weight, 7 lbs.

288B5880—Rod Curve. Price $1.15

Shipped from warehouse near Chicago.

Trip Blocks

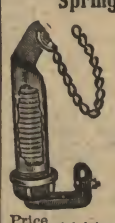


For use with any of our Climax carriers. We furnish one trip with carrier. Required where two lines run to one post outside or on separate rod line to spreader or manure pit. Wt., 3 lbs.

288B5916—Trip Blocks. Price, each 40c

Shipped from warehouse near Chicago.

Cushion Stop



Used at outer post. Car strikes spring, eliminating sudden jar. Also serves to help start car back. Clamps to track. Especially adapted for dumping into spreader. Weight, 4½ lbs.

288B5921—Cushion Stop. Price 90c

Shipped from warehouse near Chicago.

Spring Suspender

Used near door inside barns longer than 50 ft., or if rod track line is 100 ft. or over. Strongly constructed of malleable iron with strong steel spring and heavy suspension chain. Weight, 5½ lbs.

288B5926—Spring Suspender. Price $1.25

Shipped from warehouse near Chicago.

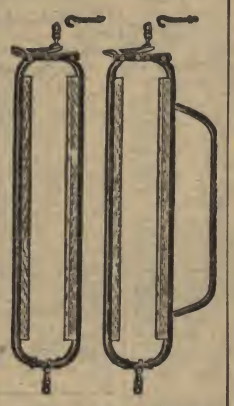
Plain Stop

To attach to ends of rail track inside barn to prevent carrier running off. Fastens to track with bolt. Weight, 1¼ lbs.

288B5931—Plain Stop. Price 20c

Shipped from warehouse near Chicago.

Cross Rod Track Curve



⅝x1⅝ in. rigid steel track with turnover ends which fit over cross tracks. Heavy bent cross bar with clamps to hold switch to tracks. Removable to allow carrier to run on either track. Weight, 18 lbs.

288B5936—Cross Rod Track Switch. Price $1.75

Shipped from warehouse near Chicago.

Wisconsin Adjustable Steel Stanchions

Made of Steel and Malleable Iron. Oil Soaked Maple Wood Linings.

Adjustable to 6½, 7¼ or 8 in. opening. For large or small cattle. Chain hanging. Positive lock. Gray enameled. With or without guard.

We firmly believe there is no other stanchion on the market superior to our Wisconsin. The simple construction, No. 1 workmanship, close fitting parts and sure-tight latch are pleasing features.

There is no spring in the latch and none required. It is indirectly attached to the top chain and the weight of the stanchion serves to hold the lock tight and to snap lock quickly. Chain hanging, having short length of chain on each end and furnished with one eye-bolt, length, 6 inches, for fastening at top. Furnished with or without guard. The guard practically insures a cow putting her head in the right place. Is inexpensive and answers the purpose in a very satisfactory manner. Each stanchion has extension arm to keep it from swinging when open. Weight, without guard, 17½ lbs. Weight, with guard, 19½ lbs.

288B5950—Price, each, without guard, in lots of 5 or more $1.33

288B5952—Price, each, complete with guard, in lots of 5 or more $1.55

188B5954—Price, each, without guard, in quantities of less than five $1.36

188B5956—Price, each, complete with guard, in quantities of less than five $1.60

Lots of five or more shipped direct from warehouse near Chicago. Lots of less than five shipped from our store with other goods.

Durham Steel Stanchions

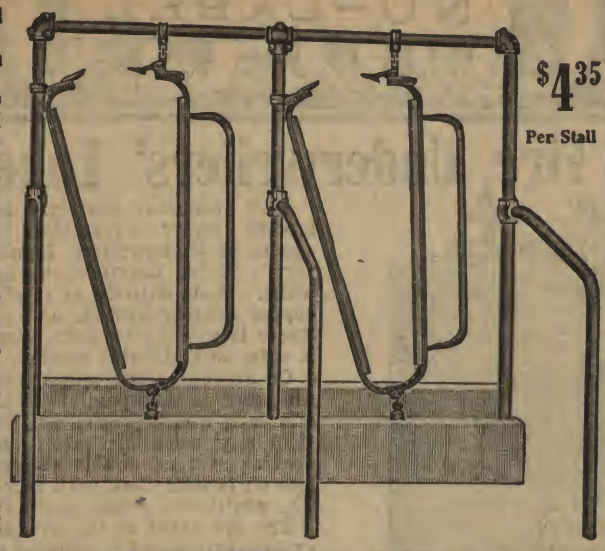
$1.20

Wood Lined—Heavy T Steel Frame—Steel Latch.

Durham Stanchions have opening 6¾ in. adapting them for all ordinary cattle, excepting very small or very large cows. They are made in one size only. Not adjustable to any other width, but have many other qualities, including simplicity and great strength. A large, loose link at top and several links at bottom gives all the flexibility of the chain hanging stanchions. The top link is indirectly connected to the latch so that when the stanchion is hung the tension on the latch makes it snaplocked very quickly and holds it firmly locked. Does away with the need of springs of any kind that frequently give trouble.

The elimination of the adjustable feature which requires many parts, bolts, holes, etc., appeals to a great many of our customers. We ship the Durham stanchions to you fully understanding that our recommendation protects you. Average weight, 18 lbs.

288B5942—In lots of 5 or more. Price, each $1.20



188B5944—Less than 5 to an order. Price, each 1.25

Lots of 5 or more shipped direct from warehouse near Chicago. Orders for less than 5 shipped from our store and can be included with other goods.

Don't buy ordinary tools. Put your money in our Lakeside tools

Wisconsin Steel Stalls

Galvanized or Painted Complete with Steel Wood Lined Stanchion with Guards

$4.35 Per Stall

Galvanized steel stalls are rust-proof, do not require painting. For dimensions of stall frames and tubing, read description of stalls shown at the right. Measurements of steel partition: Height, 36 inches from floor; length, 3 feet 3 inches from frame. Malleable iron clamps are used to connect all joints. Each stall consists of one cross head to which stanchion is hung, one upright center tube, one stall partition with connections and one steel stanchion complete with maple wood lining, cow guard and attachment on stanchion to prevent swinging when the stanchion is open. Stalls made in galvanized steel, or black steel painted with gray enamel. Regularly furnished to be used in concrete floors but if wanted to go on wood floors extra flanges are necessary to go on ends of tubing to screw or nail to wood floors.

288B6000—Painted steel stall, complete with steel, wood-lined stanchion and cow guard. Shipping weight, about 65 pounds. Price, each . **$4.35**

288B6002—Galvanized steel stall, complete with steel, wood-lined stanchion and cow guard. Shipping weight, about 65 pounds. Price, each . **$5.30**

288B6004—End section, painted, including one upright and one stall partition for finishing row. Shipping weight, 25 pounds. Price **$1.55**

288B6006—Galvanized steel end section, including upright and one stall partition for finishing row. Shipping weight, 25 pounds. Price . . **$2.45**

288B6008—Malleable iron flanges for stall or partition when used on wood floors. Weight, 1½ pounds. Price, each **20c**

Shipped from Warehouse near Chicago

Wisconsin Steel Stalls

Galvanized or Painted. With Wood Bar Stanchion, Complete with Guards

$3.95 Per Stall

These stalls are the same as the ones shown to the left, the difference being in the stanchion. The stanchions are shown and fully described at bottom of opposite page.

Entire height of stalls at head, 5 feet 6 inches, a portion of which is to be imbedded in concrete. Stall partition, length 3 feet 3 inches; height, 3 feet. Tubing is 1⅝ inch and furnished either in galvanized or painted steel. We recommend the galvanized on account of its long wearing qualities and its being practically rust-proof. The stanchion is adjustable to 5, 6, 7 or 8 inch opening, adapting it for all sizes, from a fair-sized calf to largest cow. The guard attached to stanchion insures cow going in the right opening. An attachment is provided that prevents stanchion from swinging when open. Width of stalls regularly 3 feet 6 inches. A variation of a few inches either way can be made when so specified on order, without extra charge. Be sure to provide the extra end section to complete the row on the end where stalls do not extend to the wall. Price includes one cross frame, one upright post, one partition and one complete stanchion.

288B6020—Painted steel stall, complete with wood bar stanchion. Shipping weight, 63 pounds. Price, each **$3.95**

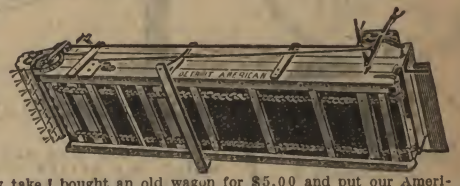
288B6022—Galvanized steel stall, complete with wood bar stanchion. Shipping weight, 63 pounds. Price, each **$5.45**

288B6024—End section, painted, including upright and stall partition. Shipping weight, 25 pounds. Price **$1.55**

288B6026—End section, galvanized, including upright and stall partition. Shipping weight, 25 pounds. Price **$2.45**

288B6028—Malleable Iron Flanges for stall or partition when used on wood floors. Weight, 1¼ pounds. Price, each **20c**

Shipped from Warehouse Near Chicago.



Detroit-American Box Spreader

Ratchet Feed, Uniform Spread

Width, 38 Inches **$40.50** Sprocket and Chain Drive

Width, 42 Inches **$43.75** Long Leaf Yellow Pine Body

Spreader Mechanism Can Be Removed and Box Used as an Ordinary Wagon Box

Endless Conveyor

Variable Feed Controlled from the Seat

The D-A Box Spreader has the sprocket and chain drive that has made Detroit-American Manure Spreaders so satisfactory. To put the spreader into operation, simply lower the sprocket chain with the lever until it comes in contact with the sprocket wheel. There are no gears or clutches to bind and make the draft heavy.

The Box Spreader has adjustable feed seat lever control mechanism, and the quantity of feed can be changed instantly without stopping the team. The driver controls all movements of the machine directly from the seat.

The Endless Conveyor, consisting of heavy link chain and angle steel cleats, conveys the material uniformly to the beater.

The Cylinder has long, square, sharp teeth, which thoroughly pulverize and evenly distribute the manure.

The Seat swings forward out of the way for reloading.

The spreading apparatus can be removed, and the box used for ordinary purposes if desired.

To the man contemplating the purchase of a Manure Spreader, we strongly recommend the purchase of one of our complete Detroit-American Spreaders, described on another page.

At the same time we know there are many farmers who have only a small quantity of manure to spread, who have a suitable wagon gear, and therefore wish to invest as little money as possible. The Detroit-American Box Spreader is intended to meet these requirements. This Box Spreader is made in two widths to fit bolsters 38 inches and 42 inches between stakes of your wagon. Length of box, 10½ feet. Depth of box, 15 inches. Bolted, cleated and braced, making it very strong and substantial.

You can put it on your truck in place of your regular wagon box. No changes or extra parts are needed for the wagon, not even clamps to hold the Box Spreader in place. It is complete in itself, and always ready for work. Simply take off your wagon box, put the Box Spreader in its place, attach the sprocket wheel, and you are ready to spread the manure. Bolsters shown in illustration are not furnished with spreader.

The difficulty in moving a spreader box on or off gear makes the complete spreader desirable. See other pages for full description.

Read below some of the many testimonials written by users of the Detroit-American Box Spreader. (Names and addresses furnished upon request.)

HE SAVED $75.00

Dear Sirs—We are well pleased with our Spreader. Here is where the small farmer gets ahead of the big farmer, by buying a Handy Box Spreader. We bought an old wagon for $5.00 and put our American Handy Box Spreader on and now have a complete Spreader for less than $50.00. Worked better than our neighbor's $125.00 Spreader that they kept in barn all winter, and could not use on account of wheels slipping on soft ground, i and snow.

WAGON BOX SPREADER O. K.

Gentlemen: The Wagon Box Spreader I got of you is O. K. I have hauled 50 loads on it. The first load I hauled I was perfectly satisfied with it. All who have seen it say it's the only Spreader for this rough country, and I think you will get orders from this neighborhood in the near future.

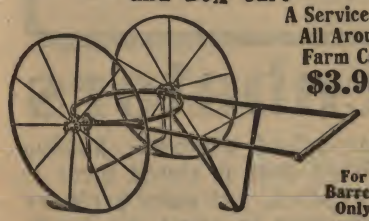
With proper care I think one would last a life time. It does the work as you want it, thick or thin, and all who want a good Spreader at a price that any man can buy, should get Detroit-American.

LIGHT DRAFT IN SIX INCHES OF SNOW

Gentlemen: Received the Handy Box Spreader in good condition. I have used it for the first time with a full load in about six inches of snow and I can truthfully say that I think that it is the lightest draft Spreader on the market. It looks to me to be made simple and durable. I am very much pleased with it.

To furnish proper size drive sprocket, we must know the diameter of wheel and width of tires on rear wheels of your farm wagon, also the number and diameter of the spokes and whether the rear wheels are steel or wood. Also state the distance between rear bolsters on your truck. Be sure to give this information in your order; otherwise we will have to delay the order while we write and ask for the information.

288B6050—Detroit-American Box Spreader. For 38 inch bolsters. Capacity, about 50 bushels. Shipping weight, about 800 lbs. Price . . **$40.50**



288B6052—Detroit-American Box Spreader. For 42 inch bolsters. Capacity, about 60 bushels. Shipping weight, about 850 lbs. Price **$43.75**

Shipped from warehouse near Chicago.

Daisy Combination Barrel and Box Cart

A Serviceable, All Around Farm Cart

$3.95

For Barrels Only

Can use barrels of different sizes, without any fittings or attachments. Also adapted for box, basket or rack. Axle is heavy steel, cranked, on which the barrel rests. The barrel is held in position by the malleable iron frame, which is also bent to use as handles. The frame is strongly braced with steel support. The box is easily attached or detached in a moment. It is made of selected hardwood; width, 24 inches; length, 42 inches, and depth, 6½ inches, very nicely painted and finished. We do not furnish the barrels.

288B6062—Shipping weight, without box, 75 lbs. Price **$3.95**

Shipped from warehouse near Chicago.

$5.60

Showing cart complete with box

288B6064—Shipping weight, complete with box, 105 lbs. Price **$5.60**

Shipped from warehouse near Chicago.

Climax Hand Carts $4.90

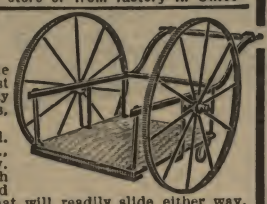
Light Running, Extra Strong. Steel Wheels. Removable End Gates. Frame of Malleable Iron. Body of Hard Pine

Strongly constructed. Light enough to be easily handled by one man, and strong enough to hold all two men can push.

Light-running; easy to handle with an ordinary load. Bodies neatly painted and striped. When hauling lumber, both end gates can be removed.

The sides are supported by box straps, as used on a farm wagon bed. Sides and ends bound on top with strap iron.

The steel wheels are very staunch and durable, of the double spoke pattern, with 28 spokes to each wheel, made of 3/16-inch steel wire.



The great number of spokes prevents denting of rim or tire as is probable with a less number of spokes.

288B6080 — Climax Cart No. 5, with steel wheels, body 32 inches long, 20 inches wide and 9 inches deep, outside measure; wheels, 30 inches in diameter, with 1¾x5/16 half oval steel tires. ⅞-inch steel axles. Shipping weight, 70 lbs. Price **$4.90**

288B6082 — Climax Cart No. 6, with steel wheels, body 40 inches long, 24 inches wide, 10 inches deep; wheels, 36 inches diameter, 28 spokes, 1½-inch half oval tires. ⅞-inch axles. Shipping weight, 92 lbs. Price **$6.70**

Shipped from our store or from factory in Ohio.

Climax Pickup Cart $5.30

A strong, durable cart, for which retailers ask as high as $8.00. One of the handiest articles about the farm. One of the handiest and most popular low down Carts. Its labor-saving qualities make it a necessity on every farm. It is handy for milk cans, slop barrels, water barrels, carrying tools, moving bee hives. **As a sprayer cart it is excellent.**

Frame is constructed of heavy, flat steel, strongly bolted and braced. All steel except platform. Length of platform, 32 in., width, 28 in., and height from ground, 6½ in. Carries 4 ten-gallon milk cans easily. Height of wheels, 36 in., with 1¼-in. tire cranked steel axle ⅞-inch diameter. By the use of a few boards it can readily be transformed into a very serviceable box cart. Platform has runners at handle end that will readily slide either way. Shipping weight, 95 lbs.

288B6120—Price **$5.30**

Shipped from warehouse near Chicago.

Climax Spring Cart

$4.90

Steel Wheels—Leaf Springs—Light and Strong. Capacity, 500 lbs. The hardwood body is neatly painted and striped. Width, 20 in. Length, 37 in. and depth, 8¾ inches; **set on double-leaf steel springs.** The rim of box strapped with flat box steel. The side and end boards are detachable for carrying lumber, etc. The axle is made of ¾-inch steel. **Wheels are 26 inches high, with heavy hubs and rims and steel wire spokes.** The pushing braces are made of heavy band steel, strongly braced. Shipping weight, 62 lbs.

188B6100—Price **$4.90**

Climax Steel Frame Barrel Cart $2.85

An excellent barrel cart for farm purposes. Especially adapted to use with barrel sprayers. Very quickly and easily attached to any ordinary barrel. 36-inch steel wheels are **EXTRA STRONG, WITH 1¼ INCH TIRES.** The frame of the cart is made of 1¼-inch **flat steel, and fitted with hardwood handle.** The axle castings and frame **can be solidly bolted to the sides of barrel.** Has iron foot rest to attach on front at bottom edge of barrel, as shown in cut. Price does not include barrel, but barrel attachments. Shipping weight, 58 pounds.

188B6150—Price **$2.85**

Garden and Delivery Cart $2.85

A Handy Little Cart in the Garden. Easier to Handle Than a Wheelbarrow

An economical and handy cart for light delivery purposes, for garden work, hauling feed, etc. Has helical coil springs that absorb the least jar, so that fragile articles can be hauled on rough roads with little danger of breaking. The wheels have staggered steel spokes, double hub pattern, light, but extremely strong. Axle is of ½-inch round steel, with heavy rod top and rim. Steel body, frame and wheels. Made in two sizes.

188B6170—Size No. 1. Length of body, 22 inches; width, 14 inches; depth 6 inches. Diameter of wheels, 14 inches, with ¾-inch tire. Capacity, 200 pounds. Shipping weight, 26 pounds. Price **$2.85**

188B6172—Size No. 2. Length of body, 28 inches; width, 18 inches; depth, 7 inches. Diameter of wheels, 18 inches. 1-inch tire. Capacity, 400 pounds. Shipping weight, 30 pounds. Price **$3.50**

Climax Hand Cart Wheels

Two Sizes **Staggered Spokes**

Strong, durable and inexpensive wheels for those who desire to construct their own carts. Have cast iron hubs with wrought steel spokes and tires, and are sufficiently strong to easily carry up to 600 lbs. per pair. Made in two sizes, 30 and 36 in. diameter, each size having twelve ⅜-in. round staggered spokes and hub 4⅜-in. long, bored to fit ⅞-in. round axle.

188B6190—Wheels, 30 in. Shipping weight, per pair, 30 lbs.

Price, per pair **$1.85**

188B6192—Wheels, 36 in. Shipping weight, per pair, 36 lbs. Price per pair **$1.98**

Climax Ensilage Truck

Holds 14 Bushels

A handy and labor-saving method of distributing feed. Useful for handling silage and distributing feed in horse or cow barns. Height of box on outside, 33 in., height from floor, 42 in. Length over all, 60 in., width, 33 in. Sufficient capacity to feed 20 to 24 cows at one time. Box is all riveted together, and bound with heavy iron. Heavy galvanized sheet steel lining in bottom making a smooth surface for shoveling. Body made of seasoned white pine. Two large 14-inch side wheels, 2¼-in. face, which do not project from sides. 7-inch caster wheel on end. Shipping weight, 200 lbs.

288B6200—Climax Ensilage Truck. Price **$15.95**

Shipped from factory near Chicago.

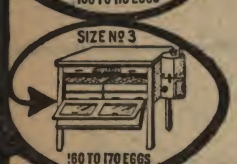
UNDERWRITERS' LABORATORIES, INC. INSPECTED INCUBATOR № 0000

Fac-simile of brass label on every Nu-Label Incubator

INCUBATORS

NU-LABEL ALL METAL



Bearing Fire Underwriters' Label

$13.95 AND UP

When you purchase a metal Incubator from us you are buying as good a hatcher as it is possible to secure for the money. You are buying years of incubator satisfaction and the first hatch will convince you of its superiority.

Hot Water Heating System Made of Copper

Long Lasting, No Warping Checking or Cracking Account Steel Construction

Each incubator examined and labeled under supervision of agents of Underwriters' Laboratory. Metal construction, hot water heat, triple walls. Made entirely of steel, with the exception of copper heating system and press fibre center wall. There is nothing to burn, warp, check, or wear out. A safe, sure, durable hatcher.

On account of its metal construction it is as near fire-proof as it is possible to make it. Its durability and long-wearing qualities make it more desirable than any wood incubator. Because of its reliable heating system, double air spaces, and triple walls, less oil is used than with incubators of other makes. The ventilators allow plenty of fresh air.

The Nu-Label is the product of several years of experimenting and is believed to be practically a perfect hatcher.

THE CONSTRUCTION is of galvanized steel, inside and outside, and between the two steel walls is another wall of 3/16-inch pressed fibre, allowing two ⅜-inch air spaces between the steel walls. This construction is on all four sides, also on the top and bottom of the incubator, making it a strictly three-wall machine throughout, providing just double the utility and service of the regular double wall machines with one air space. The **TWO AIR SPACES** hold an accurate temperature in the machine, even though there is considerable change outside, and the machine can be heated to a hatching degree and made ready for the eggs within two or three hours. The **HEATING SYSTEM** is made entirely of copper, and is the three-tube pattern, by which the heat is carried to the outer parts of the chamber all around, and the water returns to the heater through the center tube. The heat passes from the lamp through the center of the tank, then over the entire top and returns down the outside and heats the whole outside surface. **THE LAMP** is encased completely and cannot cause damage, allow the lamp house to fall to the floor, or if, through carelessness, the lamp should for any reason catch fire, the fire cannot get outside of the heater jacket.

THE REGULATOR is the double-wafer pattern, the most sensitive and best obtainable; is self-regulating, easily adjusted, and when properly set can be relied upon to keep the heat uniform.

Proper ventilation is important. The foul air must be driven out, and clean pure air admitted to raise healthy chicks. It is just as important that cold air should not be permitted to enter direct to the egg chamber and suddenly chill the eggs. The system used in our Nu Label allows the fresh, raw air to circulate in the air passages and be properly warmed before entering the egg chamber. The air passes through air space in the bottom, traveling between the walls to upper air space in front, and then into the egg chamber.

Screened openings, will shut-off slides, provided at outlets and inlets.

A large nursery, with nursery tray underneath egg tray, provides plenty of room for the newly hatched chicks.

10 REASONS WHY OUR NU LABEL, ALL METAL, IS A BETTER VALUE THAN MANY OTHER INCUBATORS.

1st—It bears the label and approval of the Fire Underwriters, conforming to their rules and regulations, which insure quality, durability and protection.

2d—Built entirely of metal, with the exception of the pressed fiber inner walls and lining. As near fire-proof as possible.

3d—The double air spaces on all sides, also top and bottom, insures accurate and uniform temperature and permits the machine to be heated and ready for the eggs within two or three hours.

4th—Being built entirely of steel, there are no joints to open up, no shrinking of the walls, no chance for direct access of cold air on the eggs, or openings to let the heat out.

5th—They are sanitary, one of the most important features in successful hatching. No wood to absorb bad odors, no cracks or openings where filthy particles may become lodged.

6th—The long-wearing, long-lasting qualities, in comparison with all wood or part wood incubators, means double or triple value for your money.

7th—The simplicity of construction, and ease of regulation due to the double air spaces and triple walls, insure better results with less care.

8th—Side regulators leave the entire top clear for setting trays, and are out of the way.

9th—The "three copper tube" hot water system forces the hottest water to all outside walls, returning in center tube back to the heater, insuring even, uniform heat throughout.

10th—The metal construction is such that it will retain its good appearance for years. No varnish to wear off, no warping, shrinking or checking of wood parts.

Note—Our 400 to 420 egg size incubator has two complete heating systems, including two complete lamps and lamp houses. All other sizes have one heating system, with graduating sizes. All sizes have double doors, the inner with glass panels and the outer all metal.

Equipment

Our Nu Label Incubators are regularly furnished with copper heating system, safety lamp, enclosed lamp house, side regulator with thumb screw adjuster; excellent thermometer with thermometer rack; all metal egg trays; metal frame nursery drawers; screened ventilators, with slide shut-offs; metal frame, glass inner door; all metal outer door; moisture retainer; and book of directions containing complete instructions for raising poultry.

Notice

Kerosene Oil used must be of good quality to insure successful hatching in any incubator. A low grade oil produces large quantities of soot that sticks to flues, necessitating double or more than the regular amount of heat to produce the correct temperature in hatching chamber. It also forms large crusts on wick, that retards the flame and lowers the temperature. Each heating system on our Incubators and Brooders is carefully and scientifically constructed and tested, and in each case, where trouble was experienced in heating, it was due to inferior oil. **Oil quoted below will give satisfaction.**

Perfect Brand Kerosene Oil

High Grade Incubator Oil

Double Refined Water White

Gravity 48-49 Fire Test 150

Our Perfect Brand, double refined, Kerosene Oil, an excellent grade for use in lamps, oil stoves, etc., and especially recommended for use in incubators, as the wick can be turned higher, creating more heat and a uniform heat without charring the wick excessively or causing the lamp to smoke. **You will find our Perfect Brand Kerosene very satisfactory.**

199B6400—Wooden Barrels, containing 50 gallons. Per bbl. . **$6.75**

Steelshell Hot Water Incubators

Galvanized Sheet Steel over Wood Frame with Fiber Wall between, Hot Water Heat, Side Regulator leaving clear top. Self Regulating.

Copper Heating Systems

Durable and efficient low-priced hatcher. Nothing to burn or catch fire. When door is closed there is no inflammable material exposed. All outer parts are metal, no warping or checking to affect the hatch. No joints to open up.

They are more durable than any all-wood incubator, and while not to be compared with our Nu Label, all-metal line, they are serviceable and dependable low-priced incubators.

THE CONSTRUCTION is a combination of wood and galvanized steel and angle steel legs. Inner frame is entirely of wood, ⅞-inch stock, dressed, clear-seasoned lumber and is entirely covered with galvanized sheet steel outer frame on all sides top and bottom, and when door is closed there is not a single piece of wood or other inflammable material exposed, and consequently practically no danger of destruction by fire, exposure or usage. **Between the wood and steel is a wall of asbestos, insuring heat conservation.** Circular glass in center of door.

THE STEEL SHELL CASE is strictly a case in itself, carefully fitted to the wood inner frame. **REGULATORS** are on side, leaving a clear top for the setting trays or other purposes.

THE HOT WATER SYSTEM is very similar to that used on our Nu Label All-Metal Incubator, and is made of 10-oz. sheet copper. **THE VENTILATION** has been carefully arranged, both the inlets and outlets provided with shut-off slides. Under the egg tray is a spacious nursery for the young chicks. Each machine furnished with accurate thermometer and book of instructions for operating. **Made in four sizes, the first and second sizes having one tray each; third and fourth sizes having two trays each;** and each size with copper heating system.

We believe there are no incubators made at the price that will compete with them in close regulation, durability and successful hatching.

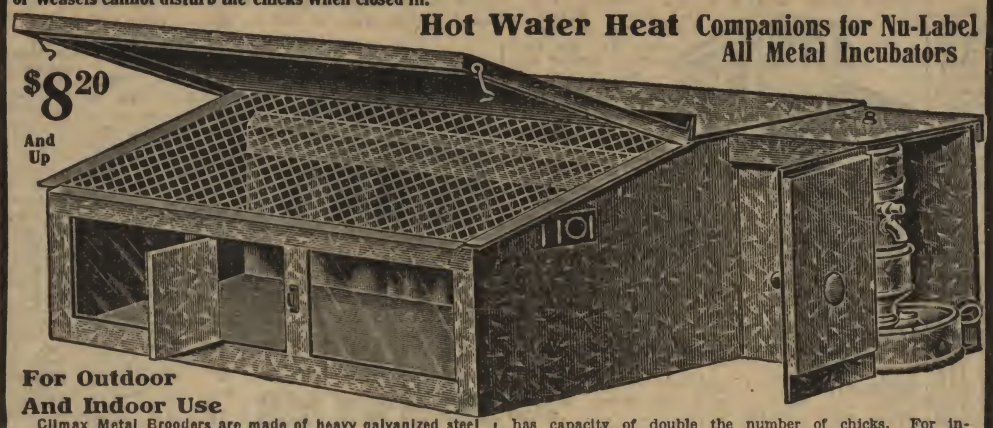
Metal Covered Incubator—Hot Air Heat

An excellent little hatcher for the money. Galvanized Steel Outer Cover. Seasoned Wood Inner Frame. Protected Heater. Self-Regulating.

An exceptionally well-made and low-priced incubator that will give good service.



Hot air heat. Top-heat pattern. Small fire risk on account of its metal construction. A combination of wood and galvanized sheet steel. The inner construction is of sound, seasoned lumber, completely encased in steel shell, and covered on all sides, top, and bottom. When the door is closed, there is no exposure of any parts that are inflammable. The heater is protected by a metal shield, so that the heat regulation is not subject to sudden changes on account of light draughts, etc. Nursery space for the young chicks underneath the egg trays. Furnished complete, with top regulator, lamp, hot air return heating system, thermometer, and instructions. The 50 and 100-egg sizes have one tray each; and the 150-egg, two trays.

Climax All Metal Brooders

No wood or inflammable materials used in their construction. As near fire-proof as it is possible to make them. One of the most serviceable and durable brooders for indoor or outdoor use ever produced. They will 'prove their worth many times over any wood brooders made. Will satisfy you in every particular. No chance for rats to gnaw through; skunks or weasels cannot disturb the chicks when closed in.

Hot Water Heat Companions for Nu-Label All Metal Incubators

$8.20 And Up

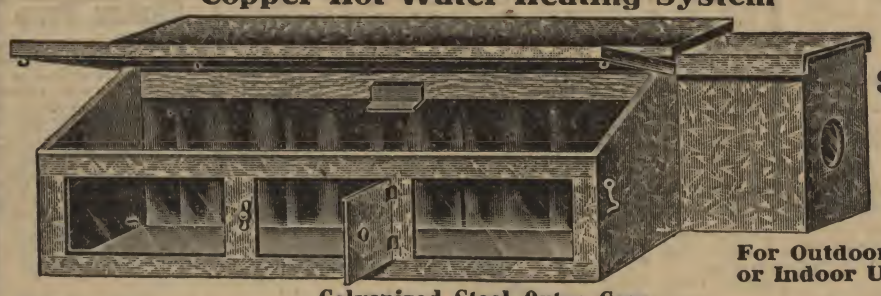
For Outdoor And Indoor Use

Climax Metal Brooders are made of heavy galvanized steel with pressed fibre linings and are fit companions for our Nu Label All-Metal Incubators. They possess the requisites of fire prevention, cleanliness and everything necessary to the protection and development of strong, healthy chicks. Runway door in center with large glass panels in each side. Double fleeced flannel curtain divides the inner or warmer chamber from the outer. The inner chamber is a hover, the outer an exercising chamber. Has screen top for air and sunlight, solid rainproof door to close tight, steel floor throughout.

Hot Water Heat

The heating system, made of heavy 10 oz. sheet copper, is similar in construction to our Nu Label Incubators except that two in place of three pipes are used. Adjustable slide ventilator with screen at side provides fresh air without danger of draughts.

The Safety Lamp is entirely enclosed, the lamp house being all metal having a door with spring catch. Each size has capacity of double the number of chicks. For instance, the 75-chick size will hold, in all, 150 chicks, but it is divided into two compartments by a soft flannel partition, each compartment holding 75 chicks. A metal frame screen is furnished that can readily be put in place or removed.



A reliable thermometer and instructions with directions for operating, furnished with each. No. 6 or 400-chick size has two complete heating systems; other sizes have one.

Steelshell Hot Water Brooders

Copper Hot Water Heating System

$7.75 And Up

For Outdoor or Indoor Use

Galvanized Steel Outer Case

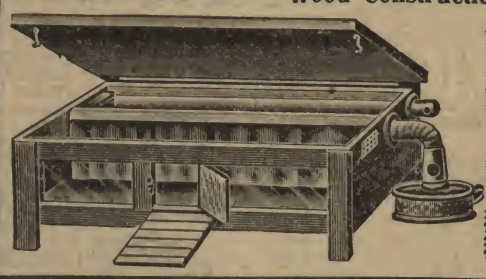
Our Steelshell Brooder with Steelshell Incubator makes a combination that can't be beaten. A protection from rats, as they cannot destroy the appearance or effect entrance by gnawing through.

Purchase our Steelshell Hot Water Heat Brooder for indoor use or outdoor use, give it a test alongside and compare it in every way with any all-wood brooder of equal size, no matter what price, and if our Steelshell does not appeal to you as being the best machine for the protection and development of young chicks, you are under no obligations to keep it.

It is practically a three wall machine. The inner part is a complete wood brooder in itself. It is covered entirely with an outer shell of galvanized steel that protects it from rain or sun warping, prevents openings due to warping or checking of wood. Free from cracks, no danger of destruction by fire and will outwear any three all-wood brooders made. Steel floor throughout. Between the wood frame and steel case is a wall of pressed Fibre. This combination can't be beat for keeping out cold and retaining heat.

Made in four sizes, each size sufficiently large to contain double the number of chicks for which they are rated. For instance, the 60-chick size will hold 120 chicks, but it is divided into two compartments, the inner chamber or hover holding 60 chicks, and the outer chamber or runyard holds 60 chicks.

The compartments are divided by a partition of soft flannel and the inner compartment containing the heating system is an excellent hover in cool weather.



The lamp is entirely protected by the metal lamp house. On each side of the runway door are large glass panels, affording plenty of light. Either size can be used indoors or outdoors, as the lamp house affords protection from unusual draughts, and there are no wood parts of the brooder exposed to the lamp. Thermometer and directions for operating containing valuable information for poultrymen with each brooder.

None Better at the Price — Indoor Brooders — $3.30 to $5.20

Wood Construction. Hot Air Heat.

Our Indoor Hot Air Brooders, while exceptionally low in price are well constructed and have every facility for housing and protecting young chicks, and are equal to many similar brooders that are sold at higher prices. The return tube heating system will give double the amount of heat with the same amount of fuel used in brooders with single heater tube. Each size is divided into two compartments, and each compartment will hold the number of chicks for which it is rated, allowing the entire brood to hover in the warm or inner compartment in cold weather. Between the compartments is a partition of soft flannel. On each side of the runway door is large glass panel, giving plenty of light.

Climax Jar Fountain

Thousands sold every season. An economical and satisfactory Poultry Fountain. Intended to fit an ordinary Mason jar, pint, quart or half-gallon size. Diameter of pan is 6 in. Made of heavy galvanized steel. Will last a long time. Jar easily removed for filling or cleaning. Price does not include jar. Weight, 3 oz.

88B6615—Price. One only. Each . . . 9c
88B6617—Price. Per dozen 90c

Two-Piece Drinking Fountain

Made of Galvanized Steel. Holds 3½ Quarts

An excellent and inexpensive device for watering poultry. When tank is filled with water, it flows into the trough only as the chicks drink it. A great many chicks can drink at one time, as the trough extends clear around. The tank is made entirely separate from the pan or trough, for convenience in filling or cleaning. Diameter of pan, 8⅛ in. Total height, 9½ in. Weight, 1¼ lbs.

88B6630—Price 22c

Climax Wall Fountain

Made of Galvanized Steel. Three Sizes.

Has top lug, with holes to attach to wall in coops or poultry yard. Can be placed high enough so that dust or scratchings will not blow into the water trough. When tank is filled it automatically feeds water in trough as chicks drink it. Ten to twelve chicks can drink at one time. Drinking trough is hinged at back, and has spring catch in front. Readily opened for cleaning, and for refilling tank. Each

Blue Ribbon Poultry Fountain

To Attach to Barrel or Tank

Will give your poultry clean water. Trough fills automatically as needed. Attach to barrel, tank or large pail. Very easy to keep clean; has float and automatic valve that prevents overflow. Made of heavy galvanized steel with connecting nipple. Size, 6x7 in.; trough, 3x6 in.; Wt., 1½ lbs.

88B6710—Price 56c

Winter Fountain and Heater, $1.15

An excellent little water fountain, complete with lamp, that prevents water freezing in the winter. Consists of body of heater, water tank and lamp. The water tank is made of galvanized sheet steel and holds two gallons. It allows the water to feed in the drinking fount as the chickens drink it and will not overflow; nor waste. In summer the lamp can be dispensed with. Weight, 6 lbs.

188B6715—Price, complete $1.15

Climax Poultry Fountain and Heater

Keeps Drinking Water Warm in Your Hen House during Cold Weather. Tank holds 8 Gallons of Water. Chickens can drink all around. In Warm Weather Can Be Used Without Heater.

Supplies fresh, warm water during the cold weather, and of sufficient capacity for a flock of 60 to 75 hens. Made entirely of heavy galvanized steel. Tank or reservoir holds 8 gallons of water. Supplies water automatically. Is sanitary, and water in trough is always fresh. The trough extends clear around the tank so that a dozen or more chickens may drink at one time. Tank is filled through screw plug in top. Heater Lamp has a large brass burner, especially adapted for this outfit. Reservoir of lamp holds three quarts of oil, and has ½-inch flange around its top edge to fill with water, absolutely preventing any danger of lamp exploding. Our Climax Poultry Fountain and Heater not only heats the water but helps to keep the hen house warm. Directions for operating with each outfit. Shipping weight, crated, 17 lbs.

188B6746—Price complete $2.95

Perfection Drinking Fount for Poultry

Tip-top Feed Hopper

Made of Galvanized Steel. Has Lugs to Hang on Wall. Especially Adapted for Dry Mash.

Has large capacity and automatically delivers the feed to the trough which is large enough for any variety of fowl to eat out of conveniently. A number can feed at one time. The screen in front of feed prevents scratching or raking out. Rat and mouse proof. Hopper holds 12 to 15 lbs. of feed. Outside height, 18⅛ in., length, 12 in., depth, 6½ in. Shipping weight, 7 lbs.

188B6780—Tip-Top Feeder.

Price 82c

Climax Poultry Feed Hopper

Made entirely of Galvanized Steel—Worth three of the kind with wood ends and sides nailed on.

Made entirely of steel including ends. A valuable article in your poultry yard. Saves feed, keeps it clean, and carries sufficient to last several days. Each full compartment holds 3 pints of feed.

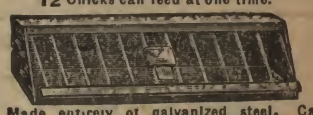
The hinged cover of hopper slopes down, preventing chickens roosting on top.

Nailholes in back to hang hopper against wall. Weight 2, 3 and 3½ lbs. Each:

88B6625—No. 1, 2 compartments . . 40c
88B6627—No. 2, 3 compartments . . 48c
88B6629—No. 3 4 compartments . . 56c

Hen House Feeder

Made of Galvanized Steel. Sanitary and Saving.



Feeder consists of a long pan, 5 in. wide, with a sliding cross bar top that can easily be taken off, for filling or cleaning. The bars on top prevent scratching or scattering of feed. Exceptionally low priced, and very popular. Made in two sizes.

88B6635—Length, 18 in.
Wt., 1½ lbs. Each 26c
88B6637—Length, 23½ in.
Wt., 1¾ lbs. Each 38c

Climax Wall Feed Hopper

12 Chicks can feed at one time.

Made entirely of galvanized steel. Can be attached to wall of poultry house or yard. A sanitary feed saver, that can be set any distance from ground to accommodate large or grown chicks, and to prevent scratchings being mixed with feed. Holes can be punched in back and hung on nails, as desired. Has hinged door, with slide fastener, and can be raised for filling. Is 24 in. long, 6 in. wide, and 6 in. high. Weight, 2½ lbs.

188B6654—Wall Feeder. Price 68c

Climax Dry Mash Hopper

For dry mash or any other kind of feed. The door is hinged and covered with 1-inch diamond mesh screen, and falls inward to accommodate the amount of feed in the box; can also be locked at the outside, to prevent gorging, or to keep out rats, weasels, etc. The screen door prevents scratching or scattering the feed. Length, 23½ in.; width, 8 in.; height at back, 8 in. Wt., 4 lbs.

88B6670—Climax Dry Mash Hopper. 76c

Climax Poultry Feed Trough

$1.10

23 in. long—8 in. wide

A dozen Chickens can feed on each side at one time. Feed can be mixed or fed separately. Three-compartment feed box. Top and sides are hinged and can be turned back to fill feed trays.

Any kind of feed may be fed without danger of waste or loss on account of dirt, or filth. Made of galvanized steel, the roof or top having an extension on each side so that the feed is entirely protected, even if the chickens roost on the top of it. Easily cleaned. Hand bail on top to carry. Shipping weight, 10 lbs. crated.

88B6690—Price $1.10

Climax Automatic Feeder and Exerciser

The exerciser helps increase egg yield 20 to 30 per cent. Made of galvanized steel. The hanging feeder with bail or handle may be hung from ceiling of poultry house. The stand feeder has three wood legs set into sheet steel sockets on sides of hopper. Pecking at the bars starts the grain to flow. Bar can be adjusted to any height for small or large chicks. Feed box also has attachment adjustable for different kinds of feeds, in large or small quantities.

188B6730 — 12-quart Hanging Feeder and Exerciser. Shipping weight, 8½ pounds. Price, with bail $1.25

188B6732 — 12-quart Stand Feeder and Exerciser. Shipping weight, 10 pounds. Price, with legs $1.55

Climax Chicken Houses

Climax Steel Poultry House

Made of galvanized steel. Shipped knocked down. Sanitary; durable; portable; easily cleaned; rat, weasel and skunk-proof.

Made of 28-gauge galvanized steel. The front, sides, back, top and bottom are all separate. Six pieces makes the entire house. Supported inside by V-crimped braces, riveted to inner walls and roof. When set up it is very rigid. Large hinged door with hasp and staple. Width, 2 ft.; height, 6 ft. Glass windows, 2 ft. square swung on pivots. Door for chicks is 10 by 12 in. and can be placed as shown, or on either side or back. Lugs inside to attach wood roosts. Always shipped knocked down. For a more complete description, write for our Poultry Supply Catalogue.

Climax Round Brood Coop

Made of galvanized steel. Triple doors. Ventilator at top.

Keeps chicks dry and warm, free from vermin. Is proof against rats, weasels, skunks, etc. Being round, there are no dark corners for young chicks to be crowded into.

Ventilator is at extreme top and consists of a number of holes under top roof, allowing all foul air to pass out. Rain cannot enter. Has three individual hinged doors. One door allows small chicks to pass out, but keeps hen inside. One door is a screen, keeping the hen and small chicks in, but allowing plenty of air. The third door is tight fitting, to protect from cold and storm. Shipped knocked down in a small package, and easily set up. Have lock seams, making them very rigid and tight. Can be collapsed into small packages, to put away during winter, or when not used. Will last many seasons. Easily outwears several wood coops. Crated and sold in lots of 2 or 6 only. Made in two sizes. Shipping weight of crates of two No. 1 size, 32 lbs.; No. 2 size, 105 lbs.

Automatic Feeder, Water Fount and Chick Protector

A Handy and Valuable Article in any Poultry Yard

Protects the feed for the little chicks. The large chickens cannot get at it. Made of galvanized iron. Positively sanitary. Will feed and water 150 chicks at one filling. Can be changed instantly to a hen feeder and fountain by removing the protector around body of reservoir. Easily feeds and waters 500 chicks. Keeps the feed and water clean and pure.

Made of 28 gauge galvanized iron. Height of large can, 14 in., diameter, 12 in. The small chick protector roof extends three-quarters way around can; height of roof at can, 8 in., at eaves, 6 in. Water can holds two gallons of water; feed can holds one-half bushel. There is 3 in. of air space around the water can, which is fitted with a tight lid, thus keeping the water cool. Water automatically feeds into trough, only as chicks drink it. Shipping weight, crated, 28 lbs.

188B6974—Price, complete.....**$3.75**

Climax Trap Nests

Made of galvanized steel. Of great aid in improving the flock, as it enables you to determine which hens are doing the most laying.

Also very serviceable as a laying nest, especially for hens that have a tendency to leave the eggs for a great length of time. When the hen passes through the first compartment going into the nest, the slotted door automatically closes. When she is ready to leave the nest, the large opening in the trap door permits her to put her head out and is a notice to the attendant.

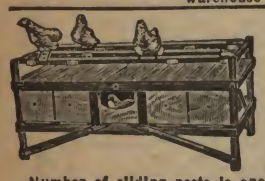
The nest is 14 inches square. The trap is hinged to the nest and can be turned around to put in fresh straw, to clean, etc. Nests are practically vermin-proof. Shipping weight, 16 lbs.

188B6982—Climax Trap Nest, complete. Price.....**$1.85**

Steel Nests

For Laying and Setting. TWO IN ONE. Made Entirely of Galvanized Steel

Has two compartments. Each compartment is 11 inches square, inside, with 8-inch back, and 5-inch front. Back has holes to hang up on wall. Shipped knocked down, in flat crates. Easily set up. Stove bolts furn shed to put together.



188B7086—Crates of two (4 nests). Shipping weight, about 10 lbs. Price.....**$1.10**

188B7088—Crates of six (12 nests). Shipping weight, about 30 lbs. Price.....**$3.00**

288B7090—Crate of twelve (24 nests). Shipping weight, about 60 lbs. Price.....**$5.60**

Crates of two or six shipped from our store. Crates of twelve direct from warehouse near Chicago.

Climax Portable Hennery Outfit

Clean, light, handy, sanitary, portable. Consists of three parts. Vermin Trap Roosts, flat drop boards and elevated nesting system. The nest boxes are dark enough to just suit the nature of the hen to lay in. This will prevent the egg eating habit, also the hens cannot fight from one nest to the other. Made of No. 1 lumber. Width of nest boxes, 12½ in., length, 16 in., depth, 10 in., and pull out like a drawer. A 4-perch, 6-ft. hennery, occupies floor space, 50 inches by 6 feet, and stands 34 inches high.

Number of sliding nests is one less than the length of the outfit in feet. For instance, an outfit 6 ft. long would be equipped with 5 nests. All outfits shipped knocked down, substantially crated and are easily and quickly set up by following the directions furnished.

$6.60

Has four knives, each 6¾ in. long. Knives are readily removable for sharpening. Cutter head makes 5 revolutions to each turn of crank, giving 20 cuts to each revolution of crank. Flexible feed rolls, deliver feed uniformly to knives. Furnished with three short legs, to bolt on box or bench, of any height desired.

Built entirely of Iron and Steel

288B7100—Shipping weight, 60 lbs. Price **$6.60**

Shipped from Warehouse near Chicago

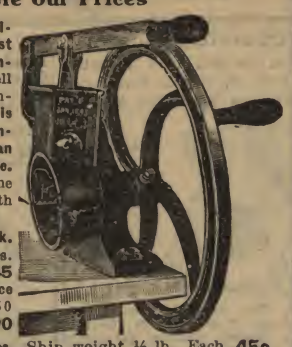
Humphrey Clover Cutter

$9.45

Reduces clover or alfalfa to ½-inch lengths, for poultry feeding.

The cutting knives have five edges, give forty cuts to each revolution of the fly wheel. Has steel shaft and rollers, extra large, which eliminate spring-ing. Bearings are so fitted as to take up wear. Table knife is made reversible, giving two edges on one cutter.

288B7105 — Complete with stand. Shipping weight, 108 lbs. **$9.45**



288B7107 — Humphrey Cutter only, without stand. Shipping weight, 85 lbs. Price... **$7.45**

Wilson Green Bone Cutter

Equal to Many Cutters That Retail at Double Our Prices

From the celebrated Wilson factory. The very best material is used in its construction and it is as well built as skilled workmanship can make it. It is fitted with two well tempered steel knives which can be replaced at any time. Follower lever to feed bone to knives. Furnished with crank or balance wheel.

188B7112—With crank. Shipping weight, 33 lbs. Price **$5.45**

188B7114—With balance wheel. Shipping weight, 50 lbs. Price **$5.90**

88B7116—Extra knives. Ship. weight, ½ lb. Each.. **45c**

Humphrey Green Bone Cutter

Fast cutting and easy running

$11.00 and up

The Hopper is always open, whether the machine is filled or empty, allows the bone to be dropped direct into the hopper without first breaking or cutting the bone into pieces. The gearing is so made as to give the greatest leverage and cutting speed possible. Cutters are made of the best tool steel, tempered very hard and made tough by cooling in oil. The cutters have corrugations on the cutting edge, which cut up the chip of bone so that it readily breaks apart. There is no possibility of cutter-head clogging.

288B7120—No. 1 Hand power. Shipping weight, 120 lbs. **$11.00**

288B7122—No. 2. Small power. Shipping weight, 120 lbs. **$12.50**

288B7124—No. 2½. Hand and power. Shipping weight, 135 lbs. **$14.00**

Shipped from Warehouse near Chicago

Jewel Bone and Shell Grinder

For Poultrymen

Will grind dry bones, crush oyster shells, crack corn and grind small grains, adapting itself especially for poultry feeding. Easily adjustable for fine or coarse work, and while smaller, and of less capacity than our Wilson, for a small flock of hens it will prove very serviceable. Has capacity for crushing 7 lbs. oyster shells, or cracking 7 lbs. corn in five minutes; and 3 lbs. dry bone in the same time. Has large balance wheel. Shipping wt. 24 lbs.

188B7135—Price **$1.85**

Wilson Dry Bone and Shell Mill, $3.10

The Celebrated Wilson that retails up to $5.00

For grinding dry bones, shells, all kinds of grain, gravel, etc., but not adapted for cutting green bone. Has very simple adjustment for coarse or fine grinding. Is a splendid machine for the housekeeper for grinding stale bread, cracker dust, roots, barks, spices, etc. Diameter of balance wheel, 20 inches. Shipping weight, 33 lbs.

188B7130—Price..... **$3.10**

ROOT AND VEGETABLE CUTTER FOR POULTRY... $3.40

Cuts all roots and vegetables, such as beets, carrots, turnips, cabbage, potatoes, etc., into fine pieces. Green and succulent food, though good at all times, produces the best results in winter. Feeding roots thus prepared saves about 50 per cent of the grain feed. Cutter turns easily and cuts rapidly. Has adjustable knives. Cannot choke. The feed is left in long, thin strips. Shipping weight, 45 lbs.

188B7145—Price **$3.40**

Climax Poultry Feed Mill 65c

A corn and wheat crusher. Can be screwed onto a wall, fence or post. It cracks the grain up into small pieces but makes very little meal. Can be adjusted to crack in small or large pieces. Suitable for feeding poultry. Regular retail price, $1.25. Holds about one quart. Shipping weight, 6 lbs.

88B7140—Our price **65o**

X-Ray Electric Egg Tester

Practically unequalled for brilliancy of light and adaptability for quickly testing large quantities of eggs

Has 6-volt Mazda Lamp with brilliant Reflector and Triumph Dry Battery. With ordinary use will give long service. Tray holds 6 eggs. Tray is moved through the tunnel, across the light. Pressure of the button while testing insures no drain on the battery when not in use. Box is made of oak. Tunnel and operating part are made of metal. Furnished complete, with one tray and 5-cell Triumph battery, and directions for operating. Shipping weight, 6 lbs.

188B7150—Price **$3.20**

88B7152—Extra batteries, each ..... **.60**

Chicken Lice and Insect Destroyer

One of the Most Valuable Articles in the Poultry Yard. The most successful Lice Killer of its kind.

For Grown Chickens Only

To operate, fill small reservoir at back with either fluid or powder, as desired, raise the lid, place fowl's wings in wing holder on lid, put neck in slot, and let fowl down in tank with head protruding through cover. One to three strokes of the pump is enough to apply material, the air and pressure from the pump ruffles up the feathers, allowing the substance to penetrate close to the skin. Made of galvanized steel. Shipping weight, 10 pounds.

88B7160—Price **$1.80**

Climax Poultry Punch

A handy little tool for making hole through toe webs of fowl. Fits the hand nicely. Made of steel. Nickel finished. Weight, 4 oz.

88B7175—Price **15c**

88B7171—Composition Disinfectant Nest Egg. Keeps nests sanitary. Drives out lice. Sold in packages of 1 dozen only. Shipping wt., 3½ lbs. Price, per dozen..... **45c**

Climax Steel Silo Roofs

$13.90 to $51.00

End view of Lock Seam

Made of 20 Gauge Galvanized Steel, with or without Dormer. For Wood, Cement or other kinds of Silos. No roof frame necessary. Will not check, dry out or warp. Less expensive than wood tops.

As rigid and easy to assemble as any other galvanized steel silo roof made. Shipped knocked down in sections, and when put together there is no danger of sagging, as the ribs stiffen it, giving much more strength than required to support it. Each rib has six thicknesses of metal, and is constructed as shown in small cut. The sides of each section are flanged inward, with two channel supports, one on each side, locked together with a sliding cap, that strengthens and draws the sheets tight together, and prevents rain from entering. The seam caps are superior to bolts, as they slide on. The roof can be put together in one-half the time required for bolted tops. The rigidity of the ribs eliminates the use of framework supports inside. Two cleats on the under side are supplied to attach to silo. On wood silos, these cleats can be screwed or nailed and bolted on cement silos. Each roof is made 16 inches larger in diameter than the inside diameter of silo. For instance, a 10 foot silo roof measures 11 feet 4 inches across. Ventilator at extreme top. Furnished with or without dormer. When furnished without dormer a small filling door is supplied inside. Dormers are made to take standard size 17½x17½ inch windows. (Glass windows not furnished.)

On concrete silos, where the thickness of wall exceeds extension of silo top, we recommend ordering the next size larger to insure it being large enough. For prices on Silo Hoops, Door Lugs, Take-up Lugs, Doors and Guy Ropes, write for our Dairy Book.

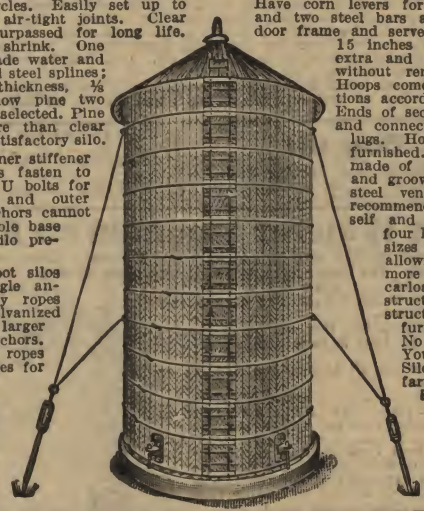
Ratchet Silo Wrench

Especially adapted for tightening hoops on silos. Made of malleable iron and furnished with two sockets to fit hexagon nuts, one for ⅝ in. hexagon hoop nuts and one for ¾ in. hexagon hoop nuts. If you have a silo, be sure to get one, as it relieves the hard work in tightening hoops with a monkey wrench. The ratchet feature allows keeping the socket on the nut while working the handle back and forth to tighten the nut. Not necessary to remove this wrench with every turn. Does the work in one-fourth the time required by an ordinary monkey wrench. Length, 11 in. Weight, 2 lbs.

88B7290—Price, complete with two sockets. **65c**

New Climax Stave Silos



Made of Clear Fir, in One or Two Piece Staves or in Yellow Pine, Two Piece Staves

All staves 2x6 inches, tongued, grooved and beveled to proper circles. Easily set up to fit perfectly. With air-tight joints. Clear Washington Fir, unsurpassed for long life. Does not warp nor shrink. One piece staves, joints made water and air-tight by galvanized steel splines; width, 2 inches, thickness, ⅛ inch. Long leaf yellow pine two piece staves, carefully selected. Pine absorbs more moisture than clear fir but makes a very satisfactory silo.

Half round steel inner stiffener hoop at top of silos fasten to every second stave. U bolts for anchors bolt inner and outer hoops together so anchors cannot pull loose. Adjustable base anchors with every silo prevent shifting.

10, 12 and 14 foot silos have three long single anchors, cables or guy ropes made of 7 strand galvanized wire. 16 foot and larger silos have four anchors. All anchors or guy ropes have steel turn buckles for tightening.

These prices are for silos without roofs, with single high anchors and without door hinges. Roofs, door hinges and double anchors are extra as priced below.

Doors are air tight, with beveled edges. Have corn levers for tightening in position and two steel bars across each door stiffen door frame and serve as ladder steps, about 15 inches apart. Door hinges are extra and allow lifting doors out without removing a bolt or pin. Hoops come in two or more sections according to diameter of silo. Ends of sections threaded 7 inches and connected by heavy malleable lugs. Hoop staples and wrench furnished. Conical wood roofs made of 1 inch cypress, tongued and grooved and with galvanized steel ventilator. We especially recommend club orders by yourself and neighbors for three or four large, or five or six small sizes to make up a carload, allowing each party to save more on freight charges at carload rates. Complete instruction for foundation construction and silo erection furnished with every silo. No skilled help needed. You can erect any Climax Silo yourself with ordinary farm help.

For fuller description of our Climax Silos, large and small ensilage cutters, blowers, elevators and everything needed by the dairy farmer or stock raiser, write for our Dairy Book.

Climax Portable Corn Crib

$3.80

Made of heavy hardwood slats, height, 4 ft. The slats are securely woven and fastened between six pairs of No. 12 galvanized steel wire, slats being about 1¾ in. apart. Each crib consists of two sections, height, 4 ft.; one to set above the other, making total height 8 ft.

To the outside of the bundle which is intended for the lower section of the crib, are attached three heavy wires. These fasten the inside of the door opening to prevent the crib from spreading when the door is opened. In figuring capacity, we allow 2 cubic feet to the bushel when set in circle. Can also be set square or oblong around posts but such setting does not give as great capacity as a circle. Shipped in bundles rolled up.

Peerless Grain Bins

Made of Galvanized Steel

Rat-Proof Fire-Proof Rain-Proof Thief-Proof

Makes an excellent smoke house or tool house when not used for grain.

Made of 20 gauge U. S. Standard steel heavily galvanized, very rigid. Shipped knocked down with side wall rolled up as one piece thus taking low freight rate. Easy to set up.

Covers are furnished with a center elevation from 1 to 3 feet fitted with ventilator and 15-inch round manhole with hinged cover. Width of doors on all sizes, 30 inches, height, 6 feet, strong wood frame lined with galvanized steel inside. Inner grain door has tight-fitting boards that fit in a galvanized steel frame. In one of these boards an outlet spout is fitted, which can be placed at any height desired. Spout has lever and slide for opening and closing outlet. Furnished complete, with cover and bottom. Directions with each.

You can pay more money but not get a better stove than a Windsor

For Hog Raisers

New and Profitable Devices

Cast End Steel Hog Troughs

Body Made of No. 20 Gauge Galvanized Steel Cast Iron Ends

Very Popular Among Big Hog Raisers.

They are far superior to wood troughs in cleanliness and durability. Have round bottoms, making them easily cleaned. The cast iron ends are slotted, so as to be readily bolted to platform or planks, to prevent being tipped over. Body is made of 20 gauge galvanized steel. Has cross bars placed 1 ft. apart in all sizes, which prevent hogs shoving along in the trough. All lengths are: Width, inside, 9¾ inches; depth, 4¾ inches.

Article Number	Single Orders	Each in lots of 6	Length	Shipping Weight
188B7400	$1.05	$0.98	2 ft.	12 lbs.

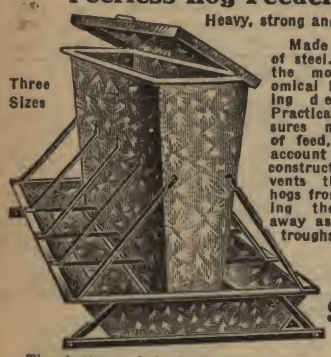
Orders for lots of 6, shipped from warehouse near Chicago. When less than 6 of a size are ordered, shipped from Chicago at single prices.

Climax Cast-Iron Hog Trough

Made Entirely of Cast Iron and Practically Wear-Proof, Easily Cleaned.

$1.00 to $2.85

Economical, as they are long-wearing and durable. Have round bottoms so they can be easily cleaned. The inner surface is exceptionally smooth. Made of a good quality of close grained iron, and sufficiently heavy so they cannot be readily tipped over. The 2-foot size is especially adapted for use in breeding pens. The 4 and 6-foot sizes have cross bars to prevent the hogs from shoving along in the trough.



Recommended for long-wearing qualities. One worth many wood or very light sheet metal troughs. All troughs: Width, 12 in; depth, 4½ in.

Art. No.	Length	Ship. Wt.	Each

288B7420	6 feet	80 pounds	2.85

Shipped from factory in Southern Michigan.

Peerless Hog Feeder

Heavy, strong and durable

Three Sizes

Made entirely of steel. One of the most economical hog feeding devices. Practically insures no waste of feed, and on account of its construction, prevents the large hogs from crowding the others away as in open troughs.

$10.40

The bottom of feeder consists of a large pan with hopper in the center, so that the feed is distributed on each side, allowing a large number to feed at one time. The heavy cross braces serve to support and strengthen the feeder and also prevent the hogs from nosing along in the trough, the cause of so much waste feed. Any kind of dry foods will feed into the trough from the hopper as it is eaten, but capacity for liquids is only to the amount the feeding trough holds.

20-gauge, galvanized sheet steel used throughout. Frame of heavy black steel. Three sizes.

288B7430—Size, No. 1—Length, 4 ft. Capacity, 10 bushels. Shipping weight, 110 lbs. **$10.40**

288B7432—Size, No. 2—Length, 6 ft. Capacity, 15 bushels. Shipping weight, 160 lbs. **$13.50**

288B7434—Size, No. 3—Length, 8 ft. Capacity, 20 bushels. Shipping weight, 210 lbs. **$16.95**

Shipped from warehouse near Chicago.

Climax Hog Feeder

Made of 20-gauge Galvanized Steel

4-Foot Size, $4.65

Recommended to every hog raiser. Saving of feed alone, will pay for itself in a short time.

Width of hopper at top, 12 inches.

Width of hopper at bottom opening, 3½ inches.

The bottom of feeder consists of two troughs, one on each side, each with cross bars dividing it into compartments. The bars prevent the hogs shoving along in the trough, or scattering feed. Little danger of the feed clogging or arching in the hopper.

Dewey Hog Waterer

A most successful and satisfactory Hog Waterer. Easily attached. Won't Rust, Leak, Freeze or Clog.

$1.20

Won't Rust

There are more Dewey Stock Waterers in use than any other one kind, and none of this kind that gives better satisfaction. Doesn't get out of order. Needs no repairs. Is very easily attached to tank or barrel. Cast-iron Trough holds 1 gallon. The valve is on the inside of barrel in the water, and is governed by a brass float, which will not rust, leak, freeze or become clogged. Furnished complete, with rubber gaskets, strainer, directions and wood blocks for barrel attachment. Shipping weight, 14 lbs.

188B7450—Price, complete $1.20

For Hog Raisers

Climax Farrowing House

Invaluable to Hog Raisers. The protection afforded little pigs saves its price in a very short time. Made of 28-Gauge Galvanized Steel.

$9.95

An excellent protection from sun, rain and storm. The great loss of pigs during farrowing time is usually due to lack of good shelter. The old style wooden covering will warp and crack, and allows the rain and dampness to get inside. Made of galvanized steel with tight seams, will not warp or allow damp or cold air to chill the young pigs. The slant roof shape is a great protection to the young in preventing the old mother pig from laying on any of the litter, as it allows the corners for escape where the large pig cannot go.

Shipped in knocked down form, put together with sliding seams and stove bolts. The bolts are fastened through a cap or saddle that leaves no opening for rain or wind. Easily knocked down when not in use. Each house is furnished with a slide ventilator at each end. Made in one size only. Size of hinged door, 20x24 in. Length, 6 ft.; width, 6 ft.; height, 4 ft. Shipping weight, 120 lbs.

288B7455—Price at warehouse **$9.95**

Shipped from warehouse near Chicago.

Combination Farrowing House

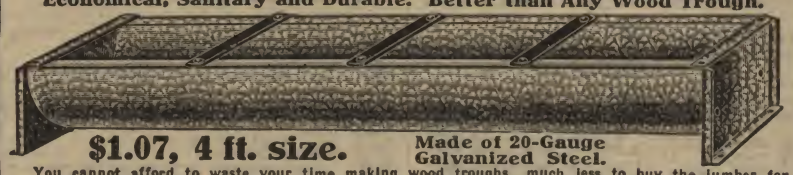
Wood Frame. Cover. 24x30 Door. Size, 5 ft. high.

Price $8.30

Galvanized Steel Swinging 6x6 ft. Bottom; Slide Ventilator at Each End

More satisfactory than the home-made wooden house and is proof against the weather.

The Combination has a strong wood frame. The roof and ends are nailed to frame but none of the wood is exposed, so that its wearing qualities are almost equal to the all steel.



Outer covering is of 28 gauge galvanized steel. The two roof sides being corrugated, add to the stiffness or rigidity. Ends are plain. Door in one end 24x30 inches, hung on hinge at top. Swings in or out. Slide ventilator at each end near the top. Our Climax is better value on account of being entirely of steel; it is easily collapsible and takes up small space. Our Combination at the price, is an exceptional value. Shipped in knocked down form. Shipping weight, 110 pounds.

288B7460 — Combination Farrowing House, price at warehouse **$8.30**

Shipped from warehouse near Chicago.

Galvanized Steel Hog Troughs

Economical, Sanitary and Durable. Better than Any Wood Trough.

$1.07, 4 ft. size. **Made of 20-Gauge Galvanized Steel.**

You cannot afford to waste your time making wood troughs, much less to buy the lumber for them, considering the low prices at which we are offering our all-steel sanitary troughs, in sizes from 2 to 8 feet, inclusive. The 2-foot size is especially desirable for breeding pens and farrowing houses. The 4, 6 and 8 foot sizes are popular in the hog yards. Where longer troughs than 6 and 8 feet are desired, we recommend purchasing two, on account of the unwieldy larger sizes. Have rounded bottoms for easy cleaning. Will not rust. Freezing cannot affect them, and sun can't dry them up. Cast iron cross bars, one foot apart, prevents the hogs shoving along in the trough.

Article Number	Single orders	Each in lots of 6	Height	Width	Length	Shipping Weight
188B7465	$0.70	$0.68	6 inches	9¾ inches	2 feet	7½ pounds

Single orders, or orders for quantities of less amount than six, can be shipped from Chicago stock with other goods. Six or more in one order, of either one or assorted sizes, shipped direct from warehouse near Chicago.

$6.95 Climax Hog Greaser and Rubbing Post,

An Oiler and Disinfector that Ought to be in Every Hog Yard. Hogs do the Oiling Themselves, do it Effectively, and Save Time and Work. Adapted to Use Crude Oil.

HOGS CAN RUB ON ALL FOUR SIDES OF POST

FAR SUPERIOR TO POSTS WITH ONE OR TWO RUBBING BARS

Our Climax is shipped under our assurance not only to give satisfactory service, but to be equal to any other similar greaser made, regardless of price.

288B7480—Price, complete, at warehouse $6.95

Shipped from warehouse near Chicago.

The upright post has automatic brass valves, four in all, one on each side, so the hogs can rub from any side. The upright post effectually distributes the oil on sides and back. The lower valve at end effectively distributes the oil on all the under parts of body that come in contact with it. Valves open and close automatically, the pressure from the hog opening them, and when the pressure is released the spring tension immediately closes them. The reservoir holds 6 quarts, and is made of heavy black steel. Hopper and also valves, removable for cleaning. Scratching bars and base are made of gray iron and will stand rough usage. Base lugs and slots for lag screws, and four lag screws are furnished with each to fasten to platform. Especially adapted for using crude oil. Total height, 4 ft. Ship. wt., crated, 70 lbs. **Platform not furnished.**

Do not overlook the special advantage in having four rubbing bars. This insures proper oiling, regardless of how hogs rub on posts and insures far better results than 2 or 3 bar posts.

Climax Hog Oil

For use with Climax Greaser and Rubbing Post. A refined, medicated oil that is far more effective than crude oil for killing lice and vermin on hogs.

188B1782—1 Gal. Can, jacketed. Price 38c

188B1784—5 gal. Can, jacketed. Price $1.45

188B1786—30 Gal. wood barrel. Price $6.90

Climax Hog Waterer Mounted on Runners

One of the Most Economical, Durable and Satisfactory Hog Waterers Made. Big Capacity. The Hogs can drink all around. The Water feeds automatically to the Trough. No Dirt or Waste.

Sled attachment is provided with draw bar at each end having center hole for clevis to hitch horse and draw about, as required. 30 to 120 gallons.

Where there is no running water, this method of supplying fresh, clean water to the hogs is fully appreciated only by those who have tried it.

Note that the hogs can drink all around and a dozen or more can drink at one time.

The tank and trough are in one piece and made of heavy, 20-gauge, galvanized sheet steel. The tank can be filled to the top, and feeds the water into the trough only as the hogs drink it. Will not overflow. Keeps water clean and pure. Partitions prevent hogs from shoving around in the trough. The trough extends clear around the tank, so that a dozen or more hogs can drink at one time. The head of tank has high flange all around, so that no funnel is necessary for filling, just remove the filling plug and pour the water on top of tank. Plug at the bottom of tank near the trough shuts off air while the tank is being filled, and after filling, the plug is removed, allowing the water to automatically fill the trough.

Easy to Fill

$7.95 And up Complete

The sleds or runners are made of steel, except draw bars, which are hardwood. Have clear space at cross bars of 4 inches. The bottom of trough is 5 inches from the ground, sufficiently low for small pigs to drink from. Made in three sizes. Furnished with or without sled.

Climax Pig Feeder

$3.95

Especially Adapted for the little Pigs. Made of Cast Iron.

Has eight compartments, each holding 2 quarts, so that eight pigs can feed at one time. Has wrought iron dividing bars, to prevent rooting around. Made heavy to avoid being easily turned over. Filled through opening at top that distributes to all compartments. Shipping weight, 92 lbs.

288B7500—Price, at factory $3.95

Shipped from factory in Southern Michigan.

Sanitary Stock Fountain

To attach to Barrel or Tank

75c

Water always ready and no overflow. Simple, easy to arrange, easy to keep clean. It is made of galvanized steel with heavy wood ends and fitted with an automatic valve and metal float. The whole is bolted together, making a trough that cannot be broken by freezing or hard usage. The valve is absolutely mud-proof and will not leak. No part is concealed or is within the barrel or tank. The cover can be removed in a moment and the working parts easily examined. Furnished with connecting tube. Length of fountain, 12 in. Shipping weight, 7 lbs.

188B7505—Price 75c

Built for Service and Satisfaction

Hog Dipping Tanks

Made of 20-Gauge Galvanized Steel

Especially adapted for hog dipping. Both ends being inclined, makes it easy for hogs to go in and walk out. Cleats furnished on going-out end, so that hogs can readily walk out without slipping back. Made narrow at bottom, to avoid a surplus of the dip. Should be set in ground up to top angles. Drain or drip boards furnished extra. Made of 20 gauge galvanized steel. Width at bottom of all sizes, 20 in. Weights range from 110 to 225 lbs.

288B7518—Dripping Board. Consisting of sheet of galvanized steel. Length, 8 ft., and the proper width for tank ordered. Price **$1.40**

Shipped from factory in Northern Indiana.

Holdfast Hog Catcher

ONE PULL ON THE LEVER CATCHES ANY SIZE HOG—APPRECIATED BY THOUSANDS OF HOG RAISERS

$3.50

A strong, light and simple device for catching and holding hogs. Hog's head is in a perfect vise. He cannot move a particle while operating it. Lever locks at any point you quit pulling. Can readily be attached to barn door, gateway, or corral, by attaching to post. Frame in stanchion bars made of pine, thoroughly bolted, and steel braced. Hand lever with ratchet to open or close stanchion. Made in one size only, suitable for all size hogs. Frequently used for cattle dehorning. Shipping weight, 42 lbs.

188B7525—Price $3.50

Climax Hog Catcher and Holder

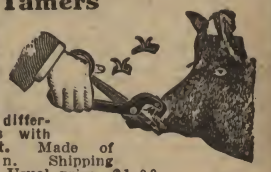
SHOULD BE IN THE HANDS OF EVERY HOG RAISER. NO MATTER HOW HARD THE HOG PULLS OR PUSHES, THE "CLIMAX" WILL HOLD HIM. WON'T LET LOOSE; MAKES RINGING EASY.

78c

With our Climax you can catch and hold any hog with one hand. Whether the hog pulls or pushes, it cannot shake itself free. It must be released before it can get free. A simple arrangement, made of malleable iron, with a spring ratchet that firmly locks the holder. The more pressure on the handle, the tighter the noose fits over the snout. Pressure on dog with one finger releases. Length, 28 in. Operator can stand off from three to four feet, so that no matter how big or wild the hog, you can get him. Give it a trial. Shipping weight, 4¼ lbs. **78c**

188B7530—Price 78c

Hog Holder



83B2655—Hog Tongs or Holders. Made of malleable iron. Indispensable for holding hogs when ringing, etc. Shipping weight, 2 lbs. 25c value. Each **17c**

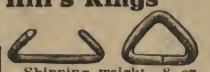
Hog Tamers, 53c

83B2630 — Made of Malleable Iron, with three steel knives, for nose cutting or ear marking. The knives can be quickly changed by removing the thumb screw. The wood block is reversible and the spring is enclosed. **Finished in dull nickel.** Length, 10 in. Shipping weight, 1¼ lbs. Each **53c**

Hog Tamers

83B2632— Dr. Miller's Hog Nose Cutter will prevent the hog from rooting. Does away with the rings and ringers. **Two different size cutters with each instrument.** Made of malleable iron. Shipping weight, 1½ lbs. Usual price, $1.00. **Each, complete, with 2 cutters** **70c**

Ear Marking Attachments



83B2633—To be used with Miller's Hog Tamer. Made in three styles and used for marking animals' ears. Full size of dies, ¾ in. Shipping weight, 2 ounces. Each (state style wanted) **20c**

Square deal buggies—made of the best materials we can buy. They last.

Feed Cookers—Tank Heaters

Farmers Choice Feed Cooker

and up

Big Value—Big Capacity
Built extra heavy and durable

The bottom of the furnace extends the full length covering ash pit. All joints are perfectly made, so that the boiler can be set up in any frame building just as safely as a stove. These boilers will ordinarily do much more work than other styles of same capacity, and with equal amount of fuel. Boiler and cover are made of 18-gauge galvanized steel. Bottom edge of boiler has 1-inch flange projecting below bottom, so that the boiler sets down over the upper edge of the furnace. The upper edge of the boiler is supported with 1-inch angle steel, making it very rigid and durable. The fire box has a heavy cast iron grate and back wall. Will burn wood, coal or cobs. All boilers are made removable. One joint 6-inch pipe furnished.

Lightning Feed Cooker

$15.95 and up

A Fuel Saver. Large Capacity. Quick Heater. The kind for big work—Saves Time and Fuel. Good for Boiling Lime-Sulphur Spraying Mixture. Double Return Draft

The Lightning is especially recommended where large capacity is desired, and it will cook more feed with a smaller amount of fuel than most styles of cookers. Also useful for boiling sorghum, sap, water for washday, scalding hogs, etc. Boiler is made of 18-gauge galvanized steel. Cover is hinged and flanged, fitting tightly. Boiler has 1-inch angle steel rim on upper edge and will not spring. Fire box is in center and has double return draft, which throws heat full length of both ends of the cooker. Made of 14-gauge steel. Has heavy cast iron grate and back wall. Fuel door and ash door also made of cast iron. Steel bottom ash pit. All joints tight and fireproof. The grates regularly furnished, suitable for coal, wood or cobs, are 14x26 inches. One joint of 6-inch stove pipe with each cooker.

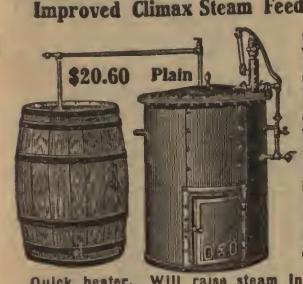
Quick Heat Feed Cooker

$6.10

For Complete Outfit, Furnace, Boiler, Cover Pipe and Damper.



In two separate compartments, the boiler setting directly on top of the furnace and made with a flanged bottom which drops down around the upper edge of the furnace, making a close fit. **The boiler is made of No. 20-gauge galvanized steel.** Furnace is made of No. 16-gauge steel. **The doors and frames are made of heavy cast iron.** The lower door opens to the ash pit and the upper door to the fuel chamber. For coal a grate is necessary, furnished at an extra charge. Grate is 22 inches; diameter, 1 in. thick. One joint of 6-inch stove pipe, elbow and damper furnished.

288B7718—Cooker complete, with 25 gallon boiler. Shipping weight, 100 lbs. **$6.10**
288B7720—Cooker complete, with 35 gallon boiler. Shipping weight, 110 lbs. **$6.70**
288B7722—Cooker complete, with 50 gallon boiler. Shipping weight, 125 lbs. **$7.30**
288B7724—Coal Grate for either size. State size of cooker. **$1.15**

Shipped from Factory in Northern Indiana.

Improved Climax Steam Feed Cooker

Thoroughly tried and tested. Will give good service for many years. Burns coal, cobs, or up to 30-inch cordwood. Water reservoir holds 33 gallons and is made of heavy cast iron and cannot burn or rust out.

Quick heater. Will raise steam in a few minutes. It is easy to operate. Simply fill the reservoir with water and place a fire underneath. For burning coal a grate can be furnished at an extra charge. Furnished with or without pump for filling reservoir. A plug in top permits filling without use of pump, but if continuous service is desired, we recommend a cooker complete with pump, so that the water can be put in, even with a pressure of steam. Regularly furnished complete with safety top valve, 2 ft. hose, gauge, cock, faucet for drawing off water to use for other purposes or to drain to prevent freezing. One set pipes for cooking barrel. Barrel not furnished. Every steamer tested to 20 lbs. pressure. New improved heavy coal grates, shipping weight, 150 lbs. Will last practically a lifetime.

288B7775—Improved Climax Steamer without pump or coal fixtures. Shipping weight, 340 lbs. Price **$20.60**
288B7777—Pump for filling reservoir. Shipping weight, 15 lbs. Price **$3.35**
288B7779—Extra heavy coal grate. Shipping weight, 150 lbs. Price **$3.95**

Shipped from Factory in Central Iowa.

$3.60 Steel Jackets and up

All Sizes

All made of No. 16-gauge steel. Height, 28 in. Can fit all size caldron kettles from 64 in. to 116 in. in circumference. **Measure kettles around the outside, about 1 inch from top, under flange.** For odd sizes not listed, prices will be the same as the next higher quoted. Prices include elbow, one 2-ft. joint of 6-in. pipe, with damper.

$4.40 and up — Climax Stock Feed Cookers

No more durable and popular style of feed cooker made, for cooking feed for hogs, poultry, cattle, horses or sheep; also invaluable on farm for heating water, rendering lard, making soap, scalding hogs and innumerable other uses.

When you purchase our Climax and compare it with any other similar feed cooker made, it will prove all you expect, or more.

Experiments made by feeding a number of hogs with cooked feed and an equal number with uncooked feed all from the same drove, and otherwise exactly the same conditions, except feeding, show from 15 to 25 per cent better returns for the cooked feed. It has also been established, where hogs regularly receive a portion of cooked feed, they are practically immune from cholera.

The already large and ever-increasing demand for our Climax cookers indicates that farmers, especially hog raisers, are realizing the benefits in the upbuilding of stock, as well as the increased value **they return by feeding them regular rations of cooked feed.**

Progressive hog raisers not only cook their winter feed, but find it profitable to feed warm, well-cooked, palatable feed in summer. The Climax Feed Cooker is not only adapted for cooking feed for hogs, but is equally desirable for cooking feed for horses, cattle, sheep, poultry, etc. **Cooked feed for your young pigs and for fattening hogs, especially in winter, is an insurance of healthful thriving and a big saving of feed.**

Elliott W. Stewart, in his book, "Feeding Animals," cites among other experiments the following: "I conclude that 9 pounds of pork from a bushel of corn fed in ear, 12 pounds from raw meal, 13½ pounds from boiled corn, **16½ pounds from cooked meal,** is a moderate average which the feeder may expect to realize from a bushel of corn under ordinary circumstances of weather, with dry, warm and clean feeding pens."

He further says: "I find if I take 10 bushels of meal and wet it in cold water and feed 25 hogs with it, they eat it well, but if I take the same quantity and cook it, it doubles the bulk and will take the same number of hogs twice as long to eat it up, and I think they fatten twice as fast in the same length of time. By cooking, you double the bulk and value of the matter."

The jacket is made of one continuous sheet of cold rolled steel, which leaves no joints to open up and take in air, and is supported at bottom with a heavy wrought iron band. The kettle is made of smooth cast iron and can be removed from the casing easily. The inside arrangement includes a cast iron flame deflector set so that the fire and smoke pass around the kettle before going into the smoke pipe, thus bringing the entire bottom of kettle in direct contact with the heat and fire. Height, of all sizes, 28 inches. Coal grates are extra. Elbow, one joint of 6-inch pipe and damper are included.

Climax Cookers with White Porcelain Enameled Kettles. For rendering lard, cooking feed, heating water for washing, etc. Well worth the extra cost. Very easy to clean. Bathtub enamel finish. The kettles of these cookers are enameled inside with white porcelain enamel. The enamel is baked on under intense heat and will not scale off nor crack in ordinary use. The jackets and kettles are the same sizes, as those of regular cookers shown above. Each cooker furnished with pipe, elbow, and one 2-ft. joint of 6-in. pipe, with damper. Dimensions same as regular cookers. Shipping weights average 4 to 8 pounds more than weights of regular cookers, due to the enameling. Coal grates and covers, extra as priced above for plain cookers.

Climax Hog Waterer and Heater

One test kept water from freezing and took chill off at 15 degrees below zero.

Equally suitable for hogs, calves, sheep, or other small animals. The water feeds automatically to the trough as the hogs drink it. Made of 20-gauge heavy galvanized sheet steel. Tank is filled at the top and feeds water to the trough only as used. Will not overflow. Keeps water clean and pure.

Heater has large square oil reservoir fount; capacity, 1 gallon kerosene oil or coal oil, sufficient to last 36 hours at one filling. Flue through center of tank or body heats the water and allows exhaust for burned gases. Heat deflector under tank passes heated air from the heater flame to the water in the trough first, then passes upward through the center flue. This system, producing a down draft like a locomotive boiler, gives the greatest possible heating effect with the least amount of fuel. Heater removable through door in base. Special lock on door.

288B7786—30 gallon size. Shipping weight, 53 lbs. Price . . . **$ 9.35**

Climax Improved Caldron Furnace

A Most Serviceable small feed cooker for general farm use.
Very popular among butchers for rendering lard.
Full Capacity. Two Factories afford time and freight saving.

$7.80 and up

An excellent boiler for cooking feed, heating water, etc. Can also be used for rendering lard. Made with a steel drum, light, strong, durable and superior to those of thin cast iron that are so easily broken and expensive to replace. The kettles are made from best pig iron, very smooth and carefully tested. Price, includes furnace and kettle but no pipe. (Require 6-inch pipe.) Coal grate fixtures are extra.

Excellent for heating water for wash day.

Climax Self-Sinking Tank Heaters

Weight, 140 lbs. $4.55 and $5.65

Ash Pan.

Coal Grate

Compare our weight with cheaper heaters. **The Climax, at our prices, means a whole lot for your money. Made of heavy cast iron. Never floats, never leaks. Can be used in steel, wood, cement or other kinds of tanks. Draft tube on outside, giving full space of heater on fuel. Sets on ¾-in. legs to let water under heater. Self-sinking. No holding-down rods required.**

Our Climax Self-Sinking Heaters are made in two sizes, each of heavy cast iron, to sink on its own weight. The body of heater, including a draft tube, is solid cast iron in one piece. It will remain in any place in tank in which it is set. Ash pan is full size and has carrying bail so that it can be lifted out. Grate, or fire-pot, also furnished with bail and readily removed. Will burn any kind of fuel. Has cast elbow at top, to which smoke stack is attached, so that cover is moved independently of the smoke stack. This is very desirable where used in tanks having covers, as the heater can readily be refilled and removed without disturbing the smoke pipe. Each heater furnished complete with grate, ash tray, 2-ft. stack, damper, hood and poker. Two shipping points—mean a saving to you in time and freight.

288B7768—Heater with elbow and stationary smoke pipe. Diameter, 12 in.; height, 24 in. Shipping weight, 140 lbs. Price **$4.55**
Above shipped from Factory in Southern Michigan or Central Iowa.

288B7770—Heater, with elbow and stationary smoke pipe. Large size, big capacity. Diameter, 14 in.; height, 24 in. Shipping weight, 185 lbs. Price **$5.65**
Above shipped from Factory in Southern Michigan

Monarch Tank Heater

With Coil Pipe

$3.70 and $3.95

Heats with one-half the fuel required by heaters without the coil pipe. Width, 14 in.; length, 22 in.; height, 24 in.

Heavy cast grate, 9½x9 inches, 1-inch thick, made to dump, and suitable for coal, wood or cobs.

Has half-inch coil gas pipes on the inside of the firepot. Circulation of water through the coils causes it to heat quickly and evenly. Additional pipe can be attached and the hot water carried some distance from tank if desired. Made of galvanized iron with cast-iron top, galvanized iron pipe, also damper, spark arrester, stay rods and shovel. The ashes are removed with long handled shovel through the air chamber. Partition divides air and fire chamber. Weight, 50 lbs.

288B7830—Price at factory, Southern Michigan **$3.70**

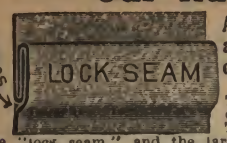
Daisy Tank Heater

Malleable Iron Cover

$2.55 and $2.75



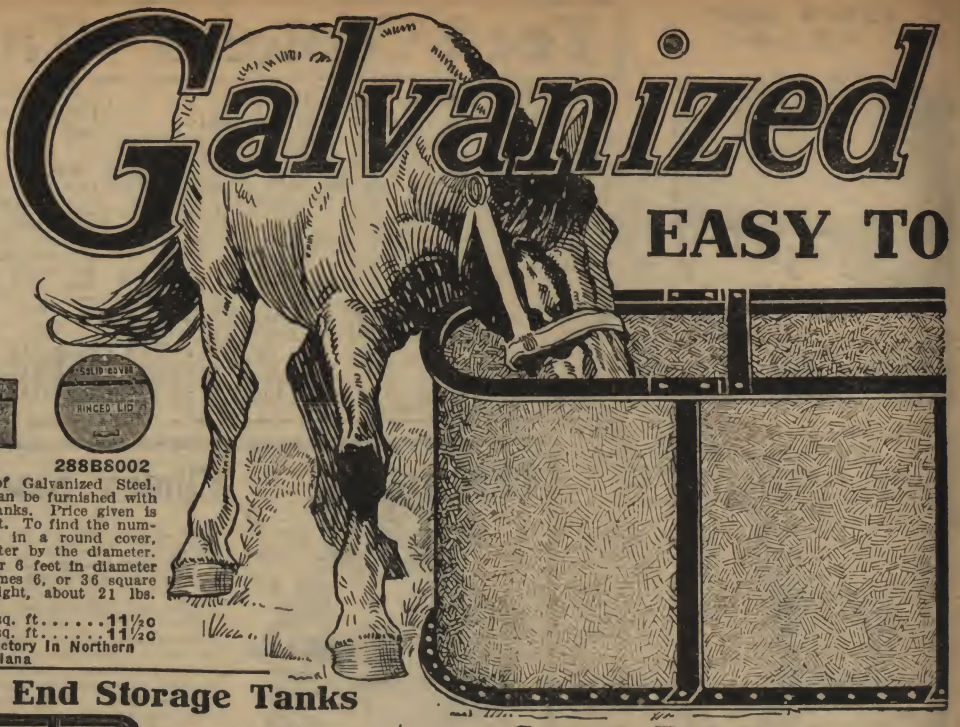
The Daisy, filled with wood or coal morning and evening will keep a tank of 30 barrels of water from freezing with the thermometer at zero. **Made of galvanized steel,** except top, which is of malleable iron frame, which is of cast iron. The grate is 14 in. diameter, 3½-in. deep, basket shaped, fitted with bail for lifting and will burn wood or coal. The top is made to slide to one side, and as the basket is made full size of heater it can be lifted out easily and heater cleaned. **Has spark arrester, draft door, damper and holding down rods.** Diameter, 15 in.; height, 24 in. Shipping weight, about 45 lbs.

288B7920—Price, at factory, Southern Michigan **$2.55**
188E7924—Price at our store **2.70**

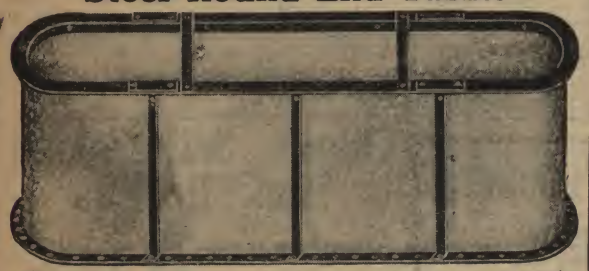
Shipped from our store or from Factory in Southern Michigan.

Modern home heating simplified in our Heating Catalogue

Our Rust-Proof Lock Seams



And riveted seams having tinned rivets, make our tanks as near rust-proof as they can be made, because water does not come in contact with any black iron.



The factory that makes our tanks was started 22 years ago. The first tanks they made are still in use on farms throughout the country and do not show any material signs of wear. The reason for this is that all the smaller tanks are made with the "lock seam," and the large round tanks and others made of 16 or 18 gauge, have tinned rivets in the riveted seams. This means that no water, milk, oil, or any other contents ever reach the black iron used in the outside bracing, so there is no chance for the tank to rust. Some tanks will rust around the seams, a fault which makes ordinary steel tanks short lived.

Hundreds of our tank customers tell us that they prefer our tanks to others because ours don't rust, and have at all times proved so satisfactory. **All Tank Measurements are Outside Measurements. Capacities are Standard Ratings, Based on Outside Measurements.**

Galvanized EASY TO

Steel Round End Tanks

Shipped set up if not ordered knocked down. A popular stock watering tank. Made of No. 20 U. S. Standard gauge steel. Side sheet is flanged out 1 inch and riveted with the bottom sheet between two bands of steel each ⅛ inch thick.

Tanks 4 and 6 feet long, have one angle brace across top and on each side; tanks 8 feet long, have one brace across top and two on each side; on tanks 10 feet long, two braces across top and three on each side; on tanks 16 feet long, three braces across top and five on each side. Braces are 1-inch angle steel.

All tanks measured on the outside.

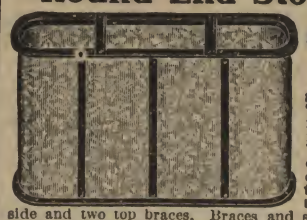
Hinged Covers

288B8000



288B8002

Hinged Covers of Galvanized Steel, like illustrations, can be furnished with any of our steel tanks. Price given is for each square foot. To find the number of square feet in a round cover, multiply the diameter by the diameter.

Example—A cover 6 feet in diameter would contain 6 times 6, or 36 square feet. Shipping weight, about 21 lbs. per square foot.

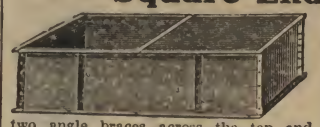
Round End Storage Tanks



Made of 20-Gauge Galvanized Steel

For 18-gauge in place of 20-gauge, add 20 per cent to price. They are excellently constructed for storage purposes, the bracing giving them great strength. Will go through much smaller openings than round tanks of equal capacity. The 8-foot tanks have two sides and one top brace; 10-foot tanks have three side and two top braces. Braces and special bottom joint same as on round stock tanks. **Always Shipped Set Up.** We recommend 18 or 16 gauge in the larger sizes. See extra prices for 18 or 16 gauge shown under round end tanks at left of this description.

Shipped from Factory in Northern Indiana

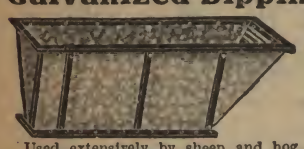
In shipping these tanks knocked down, they are all first put up in the shop and as much of the work finished as possible. All holes are punched. It is seldom that more than two joints are put together at destination. Solder and rivets, also full instructions, accompany each tank, so that it is simple and easy to set them up. We quote both No. 18 and 20 gauge steel, but on the larger sizes we do not recommend less than No. 18. Pipe connections, covers and faucets, extra, same as for round end stock tanks.

Round Stock Tanks $3.85 and up

Always Shipped Set Up if Not Ordered Knocked Down



Made regularly of No. 20 U. S. Standard gauge galvanized steel. When used for ordinary stock watering, this weight steel is sufficiently heavy in any of these sizes.

Shipped from Factory in Northern Indiana.

Galvanized Dipping Tank

Always shipped set up
Made of 20-Gauge Galvanized Steel

$7.30 and up

Used extensively by sheep and hog raisers. It is placed in the ground so that the animals can be driven in and out. Every tank is thoroughly supported, having heavy angle iron braces running from top to bottom. The incline allows the animals to walk out quickly and easily. 6 foot tank has 1 side brace; 8 foot, 2; and 10 foot, 3 braces, like picture. Special bottom joint constructed same as our round end tanks.

All sizes: Width at bottom, 1 ft.; width at top, 2 ft., except 288B8206, which is 2¼ ft. wide at top. Tank 288B8200: Length at bottom, 4 ft.; all others 6 ft.

Round Sheep and Hog Watering Tanks

Made of 20-Gauge Galvanized Steel.

Use shallow tanks for your small stock and eliminate danger of drowning.

Four, five and six-foot diameter tanks will be shipped set up unless ordered knocked down; 8-foot diameter tank shipped knocked down.

Shallow tanks especially adapted for sheep and hog watering purposes. Heavy angle steel rim around top makes them rigid and strong.

Royal Low-Down Tank Pump $5.35 or $9.75

Double acting. Draws water on each stroke. Capacity, 2,000 gals. an hour. For thresher tanks, watering stock, irrigating, etc.

Diameter of cylinder, 5 in. Stroke, 5 in. Opening for suction and discharge, 2 in. The spout attached to top of pump is reversible. Has an easy capacity of one barrel per minute, and powerful force that will throw water 60 feet from point of nozzle. Valve seats are of brass and are practically indestructible. Check valves are metal and faced with rubber. Handle connects at either end. Shipping weight, plain, 87 lbs.; complete, 117 lbs.

188B8490—Price, plain, including strainer, handle and hose connection, but no hose **$5.35**

188B8492 — Complete, with 20 ft. of 2 in. suction hose and 10 ft. of 1 in. discharge hose, nozzle and clamps **$9.75**

Climax Steel Barrels

Made of black and galvanized steel. Especially adapted for farm use for storing and shipping oils.

They are strongly made so as to stand rough usage. Very carefully constructed. All seams welded. No solder used in their construction. No danger of leaking. Will stand an interior air pressure of 10 lbs. to the square inch. Each tank furnished with brass draw-off faucet, attached to underside of bung in shipping.

The Storage Barrel is especialy desirable for storing oils or transporting oil by wagon. The Shipping Barrel has ¼ in. thick rolling ring reinforcements, adapting it for hardest kind of usage or railroad shipment.

3-in-1 Oil Storage Tank

Combination Reservoir, Funnel and Strainer

The handiest and most convenient tank that we know of for lubricating oil, kerosene or gasoline. Has tight fitting cover that can be lifted entirely off. Under the cover is a large funnel, which is part of the tank. A very fine brass wire strainer is set into the funnel and is removable. Under the strainer is an air-tight screw cap, preventing evaporation of gasoline. A one-inch wood bottom, under the metal bottom, makes the bottom rigid and strong. Has draw-off faucet at bottom, with lock lever handle and staple for a padlock.

Made of 26 gauge galvanized steel and nicely painted red. Shipped strongly crated.

Steel Wagon Tank

$6.35 and up

Always Shipped Set Up

A Strong, Durable Tank for Water Hauling, Made of No. 20 U. S. Standard Gauge Steel

The cover is made water-tight and provided with manhole, diameter, 14 inches, and a raised flange, which prevents the water from splashing over the tank. A bulk head or splash board, inside. Four-foot and six-foot tanks furnished with one side brace; eight-foot, two braces; and ten-foot, three side braces on each side. One inch exhaust hole, fitted with lock nuts and nipple for attaching hose or pipe at rear. Bottom and sides are flanged together and riveted between two pieces of heavy iron, the rivets being 3 in. apart. Must be set on planks from bolster to bolster. Have special bottom joint same as on our Round End Tanks. Four-foot and six-foot sizes are also desirable for spraying.

288B8412—For 18 in place of 20-gauge steel, add to above prices, 20 per cent.

Shipped from factory in Northern Indiana.

Round House Tanks Complete With Covers

$2.15 and up

The sides and bottoms are double seamed together, all seams locked and securely soldered. Made of No. 20, Standard Gauge, galvanized steel, which is unusually heavy material for tanks of this kind and insures durability, wear and long life. Covers, with center handle, included with each tank. On account of the light weight we recommend ordering two or more, or adding other styles of tanks to increase weight so as to make a more profitable shipment. Always shipped set up.

Climax Sanitary Cooling Tank

Running Water Refrigerator. Made of No. 20 Gauge Galvanized Steel. Inexpensive and most satisfactory method of keeping vegetables, butter, milk, meats or other supplies, cool in warm weather.

$7.20 and up

To be used in connection with running water from a spring, pump house or flowing well. The water is piped into the upper end of tank, keeping the small compartment full of water all the time. This compartment is especially adapted for cooling bottles or closed vessels that the water can run over. The water runs from the small compartment into the large compartment, and remains at a depth of 4 inches. A galvanized steel rack is furnished that slides to any position desired, or can be removed entirely. Supplies are set on rack and the continual flow of water underneath has the cooling effect of a refrigerator. Pipe connections at outlet end keeps water at 4 inch level in large compartment all the time. Has close-fitting cover, with handle and hasp for locking. Size of small compartment is about one-fifth the size of the entire tank.

Underground Gasoline System

Complete Outfits $15.95 and up

Powerful Double Acting Brass Pump—Continuous Flow

If you are a user of gasoline you need one of these systems. The tank is intended to be buried in the ground, outside the building. We furnish with each outfit, two 4 ft. lengths, one 1 ft. length and one 2 ft. length of ¾ inch galvanized suction pipe, two ¾ in. elbows and one ¾ in. coupling, all galvanized. The pump can be placed inside the building and, by means of the hose attachment gasoline can be pumped directly into any receptacle. **The Pump** is double acting, giving a continuous flow, very powerful, and made entirely of brass, except pump base, which is cast iron, enameled. Has ¾ inch solid brass ball valves; outer cylinder, diameter, 2 in.; inner cylinder, 1⅛ in.; both made of 18-gauge brass. Pump can be detached at base, making it easy to clean and to use for other purposes. Spout has ¾ in. brass faucet with hose connection.

Tanks are made in four sizes and in four gauges of steel. We recommend the heavier gauges, especially, if for city use, or if the tank be close to surface. Heads and seams are riveted and soldered. The filler pipe is 2 inch black iron pipe, length, 2½ ft., painted with asphaltum, and extends above the ground. The filler pipe has a riveted staple and a cast iron cap, with hasp, so it can be padlocked to prevent tampering with the gasoline. A small ventilator hole in the filler pipe cap relieves any vacuum caused by drawing off the oil. Inside of filler pipe is a strainer to strain the gasoline, when tank is filled. Strainer readily removed for cleaning. Suction pipe extends down to within ¾ inch of tank bottom, and will drain the tank down to about 1 gallon. Shipping weights range from 90 to 250 lbs.

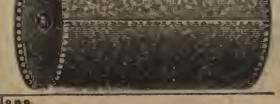
Shipped from warehouse near Chicago

The above outfits do not come under inspection of Board of Underwriters. If they must pass local inspection, be sure to order proper size and proper gauge steel in tank. If this is done, we can have the outfit approved by, and have labels of the National Board of Underwriters attached at an extra charge as priced below. Outfits bear two labels, one on tank and one on pump.

288B8578—Extra for approved and labeled outfits, in place of regular, add **$3.90**

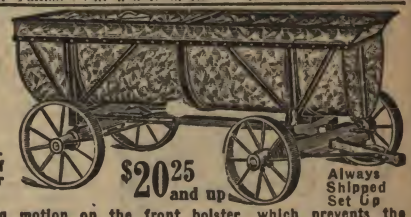


Underground Gasoline Tanks

Made of No. 18-Gauge Galvanized Steel

Built expressly for the purpose of storing gasoline underground. Soldered and riveted with greatest care. Made of the **best quality of galvanized steel and of first class workmanship.**

Furnished with three pipe connections, two on top and one in the end. All to connect to one-inch pipe. We can furnish other size connections up to 2-in. at a charge of 15c extra, if so specified in order, otherwise 1-in. will be supplied.



For 16 gauge instead of 20 gauge steel, add 20% to regular prices.

Thresh-ermen's Wagon Tank

$20.25 and up

Always Shipped Set Up

For the transportation of water or other liquids.

Has a rocking motion on the front bolster, which prevents the strain and twisting of the tank over rough roads. The truss or frame bears the full weight of the tank and thoroughly braces it against sudden jars. The part of the truss resting on the bolsters is a 4-inch channel of heavy steel, lapping down 2 inches over each side of the bolster. Braced and banded with heavy steel bands. The upper edge of tank is a 6-inch high extension, bound with 1-inch angle iron, forming a carrier space the full size of tank. The front part may be used for hauling fuel. Manhole is regularly placed about 3 feet from rear. It is 14 inches in diameter, extends upward 6 inches and is fitted with a movable cover. **One-inch threaded pipe connection or outlet furnished in rear,** to attach pipe or hose. Made of 20-gauge steel. **Prices for tank complete with truss frame as described.** Does not include running gear.

Climax Steel Culvert Pipe

Made of Corrugated galvanized steel. For any kind of road. For private or public roads, an economical and satisfactory Culvert

We especially recommend the use of our **Climax Culvert Pipes** as an aid to the farmer in keeping his roads in good condition. They will pay for themselves many times over. They are equally desirable for public roads. Tests have proven them sufficiently strong and durable to supersede wooden and stone culverts in every progressive locality. Made one-piece, in any length that can readily go in a box car. Longer lengths will be furnished in sections, complete with couplings to attach. Made from No. 1 material, carefully galvanized and riveted. Prices given are per foot of culvert.

Gasoline Wagon Tanks

16-Gauge Steel

For Transportation on Wagon or for City Delivery

$7.65

Especially for hauling gasoline or any kind of oil on wagons. Made of No. 16-gauge galvanized steel. **Seams are all riveted** with tinned rivets, closely set. The heads are flanged and riveted in the same manner. Has 2-inch lock nut, with plug, on top for filling; 1-inch faucet at end for drawing off contents. If greater capacity is wanted, use two tanks instead of one.

NOTE—We can also ship the four smaller sizes from our store, with other goods. If wanted from our store, add 20c to the price of either of the four sizes you select.

Our Riverside Tires hold a front place in the world's record races

Built to Pass Inspection

Portable and Stock Scales

Inspectors will Approve them

All Portable and Stock Scales quoted here are made in compliance with recently enacted laws governing weights and measures in effect in New York, Ohio, Indiana, Wisconsin and Minnesota. In effect in other states in a short time, and possibly in all states in the near future. The requirements necessary to comply with these laws insure durable, accurate scales, combining the following features: All bearing edges of hardened steel. Tool steel pivots. Platform easily movable, and not binding on frame. Levers on wagon scales protected from dirt falling through edge of platform. Balance ball constructed so that it can be moved only with a screwdriver or other mechanical device and various other conditions tending toward correct weighing.

Shipped you under our assurance that inspectors will approve them. Variations allowable are from 7 to 14 oz. on 600 to 1200 lb. scales, fully loaded, or 2½ to 5 oz., loaded to one-fourth capacity. Stock scales must not vary more than 6 lbs. on 3-ton scales when loaded to full capacity, and up to 18 lbs. on 10-ton scales. When loaded to one-fourth capacity, the variance allowable is 1½ lbs. on 3-ton scales, up to 10 lbs. on 10-ton scales.

All our Portable and Stock Scales are built to meet the State law requirements, and compliance with these laws insures to the purchaser an accurate scale, durably and strongly built. Our sales in wagon, stock and portable scales represent nearly the entire output of one of the oldest and most reliable factories. For fine adjustment, accurate bearing, sensitiveness to the lightest weights, they are equal to any other scales, including the leading and much advertised brands. On each of our scales the sliding poise weight, also each loose weight is tested and made to correspond with the weights and the standard of accuracy established by the U. S. Government. Each pivot on levers made accurate to withstand the test with U. S. standard weights.

High-Grade Standard Scales

Complying in every particular to recent exacting laws in several states. (See explanation above.)

We know of no better at any price. Solid Brass Beams Graduated from ½ lb. to 100 lbs. Brass Sliding Poise with Thumb Screw. Made by one of the best Scale manufacturers, whose name on the scale would nearly double the price. Considered to be the best make of Portable Farm Scales.

The Scale to Buy for Farm, Factory, Market, or Dairy

Will outwear two cheap scales. Will stand rough usage and when you purchase our High Grade Standard you do so with the understanding that if found inferior in any way to any other high-grade scale made, advise us and we will give instructions for its return and refund you full purchase price.

They are as well made and accurate as any scale on the market, including the much advertised and well known brands.

High Grade Creamery Weightless Scales

Will Pass Inspection. Made in Compliance with Recent Laws.

No Loose Weights. Tare Beam—Brass Beams and Sliding Poise

$19.95

We ship our Climax High Grade Creamery Scales in competition with any similar scale made, regardless of make or brand and you are under no obligations to keep it, if not equal to any other make in every respect. Built to pass inspection under the recently enacted laws governing weights and measures. Made in one size only, 600-lb. capacity, with platform 16x25 inches. **Weighing Beams** are made of brass, the upper beam graduated in ½ lb. to 100 lb. marks. The center or tare beam is graduated the same as upper beam. Lower beam is graduated in 100-lb marks up to 500 lbs. There are no loose weights to become separated or mislaid. Beams are on a level with the eye, and much easier read than the low weight beam. Shipping weight, 190 lbs.

288B8930 — Climax 600-lb. Creamery Scale. Price, at factory..... **$19.95**

Shipped from factory near Chicago.

All scales on this page are regularly equipped with beams to weigh in pounds. Can furnish METRIC or KILO beams in place of pound beams at extra charge of $1.00 up, depending on the kind of scale and number of beams.
Will also ship with beams graduated in pounds unless the kilo beam or metric system, such as used in southern foreign countries, is specially mentioned on the order.

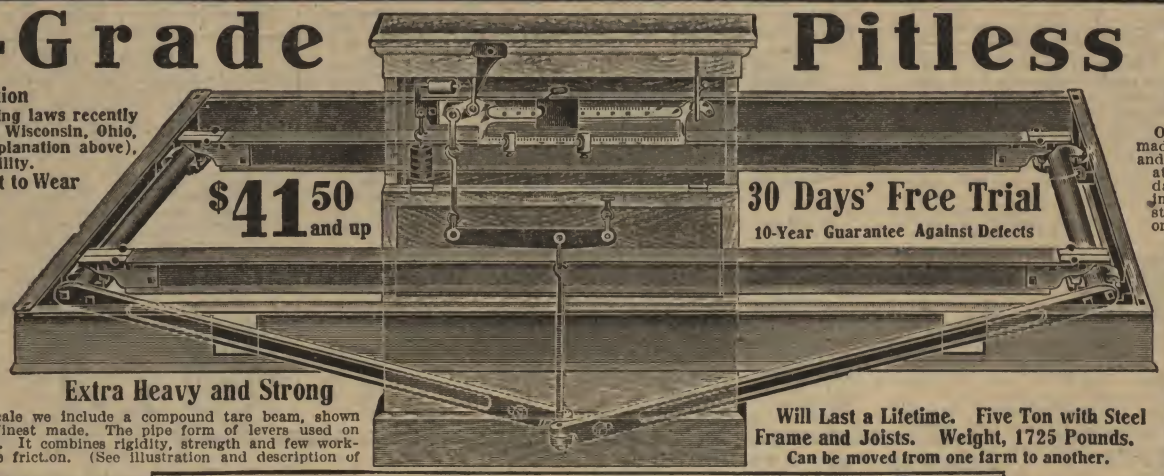
Peerless Portable Scales

Will Pass Inspection
Full Capacity Beam
No Loose Weights

Accurately marked. No loose weights. Scale beam on a level with eye. No bending necessary to see weight.
Rapid weigher. Easily operated. Delicately Sealed. No Weights to get lost, stolen or altered.

$10.90 to $13.25

Easily Balanced



The handiest and most suitable portable scale for farm, factory or store requirements. There are no loose weights to get lost, as the full capacity of the scale is shown on the brass beam; beam on a level with the eye, the weight is readily distinguished on either side of scale without bending. Hard chilled bearings. Tool steel pivots. Brass beam with brass sliding poise on upper bar. Enameled Iron Poise on Lower Bar. Accurate balancing ball.

Shipped you under our assurance that it will weigh accurately, when properly set up. We will replace, within a period of 10 years from date of purchase, any part, showing defect in material or construction.

Article No.	Price	Capacity lbs.	Size of Platform	Shipping weight

High-Grade Pitless Scale

$41.50 and up

30 Days' Free Trial
10-Year Guarantee Against Defects

Extra Heavy and Strong

Will Last a Lifetime. Five Ton with Steel Frame and Joists. Weight, 1725 Pounds.
Can be moved from one farm to another.

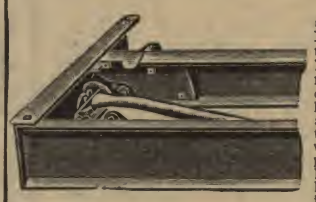
Will Pass Inspection

Made in compliance with exacting laws recently enacted in Minnesota, New York, Wisconsin, Ohio, Indiana and other States (see explanation above), all tending to accuracy and durability.

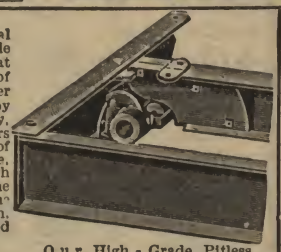
Your Money's Full Worth. Built to Wear

For durability, accuracy, strength and appearance, Our High-Grade Wagon and Stock Scale cannot be beaten. You will find it hard to buy a better pitless scale at any price. It is constructed with the smallest possible number of working parts. Has no unnecessary joints or bearings. The rigid levers run direct from the beam box. Has small number of working parts, accurate and finely finished compound beam, combined with careful workmanship and high grade material.

With our High-Grade Pitless scale we include a compound tare beam, shown in small illustration, one of the finest made. The pipe form of levers used on our High-Grade is the best known. It combines rigidity, strength and few working parts. No fifth lever to cause friction. (See illustration and description of corners.)



The end bearing supports are of heavy iron bolted to the platform end frames and extending down in a solid support to the bottom. A pitless scale must be heavy to be durable. Be sure to compare weights when buying.



Wood Frame with Wood Joists

A moderate priced scale with all of the fine working parts and accuracy of our best pitless, including the levers, bearings, beam, and in fact, all of the working parts. Simple directions for making good serviceable joists and frame out of timber. Approximate shipping weight of this scale, 4 ton size, 650 lbs.

Wood Frame with Steel Joists

In this style of scale, frame is not furnished. We supply the same joists as are used with full steel frame scale. These joists are heavy I beams made stiff and strong enough to easily sustain more than the rated capacity of the scale. The bearing supports, bearings, and other working parts are the same as those supplied with the full steel frame High-Grade scale. Directions for making frame of wood, are furnished. The working parts of this scale weigh about 650 pounds and joists and frame 370 and 400 pounds in the 4 and 5 ton capacities.

These illustrations show sectional and corner view of our High-Grade Pitless Wagon Scale. Note that the rocker bar levers, instead of hanging on clevis, as in other makes of scales are supported by oscillating chairs, with a heavy, hardened steel seat. These chairs are bolted to the lower flange of the end channel of the frame, which insures the greatest strength possible, and being oscillating, the hardened bearings conform to the knife-edged pivot to its full length, insuring strength, accuracy and durability.

Our High-Grade Pitless Scale has a compound weightless beam with tare poise. The upper poise runs on rolls, and has latch, which locks the poise directly on graduated marks. The upper beam has brass face-plate, with large figures stamped plainly on face. The lower beam and poise are solid brass, highly polished. The capacity is graduated on the beams into fractional figures reading down to 2 lbs.

Compound Beam

High-Grade Pitless Scale.

Equal to any of the well-known makes, regardless of price

Our High-Grade Pitless Scale is made of carefully selected materials and we agree to replace free of charge at our factory within 10 years from date of sale any part which proves imperfect. This scale is full U. S. standard and will weigh accurately on all corners of the platform.

You can buy cheaper pitless scales, but you cannot purchase more quality, for your dollar.

Your Satisfaction Assured

Our High-Grade Scales, are equal to any similar scales made by any other firm—we bar none. We invite comparison with the well known, much advertised and leading makes. Please note carefully the weights of our scales, which not only insure accurate weighing, but wearing qualities for years to come. There are many light scales on the market that perhaps will weigh fairly accurately at first, but are too light for long service. We consider any of our High-Grade Scales worth two of them. Remember, you are under no obligation to keep any of our scales, if for any reason they prove unsatisfactory, or not all that we claim for them.

Steel Frame with Steel Joists

The frame of this scale is constructed of 8 and 9 inches solid steel channels with openings for lever only. (This is one of the important requirements of recent state laws which specify that open frames cannot be used.) The sides are made of heavy steel channels bolted to the end channels at each corner and tied together with cross girts, giving a stiff, strong construction. In this particular scale the first cost is the last cost, since there are no parts which can decay and no liability of rust. The shipping weight is approximately 1,700 pounds, of which the working parts weigh 650 pounds and the frame and joists 1,050 pounds. Price does not include wood platform.

It does not require an expert to erect our scales. By following the plain directions, it is an easy matter to put them up correctly. We do not furnish the wood platform, but instruction sheet tells clearly how to construct an 8x14 ft. platform for this scale.

Article No.	Price	Capacity—Style	Size Platform Feet	Shipping Weight, Lbs.
288B8800	$41.50	4-ton wood frame, wood joists	8x14½	650

10-Year Guarantee Against Defects

High Grade Pit, Wagon, and Stock Scales

Made in compliance with requirements of recent laws in New York, Minnesota, Wisconsin, Indiana and Ohio

Note the weights. Heavy material insures long service. Will pass inspection.

Our High Grade is not only the best we can offer you, but it is one of the best Pit Scales known. It is constructed of carefully selected material. The iron from which the castings are made is of a special composition, giving the greatest possible strength and wearing qualities. The workmanship is high grade and the construction the best for accurate and durable weighing. You can pay more for a scale, but no other will weigh more accurately or give you better service.

Beam Box is full size, built extra strong and substantial. All pivots in the box are fitted with steel guards which avoid friction where the beam comes in contact with the loop which supports it.

Double Beam is of very heavy solid brass. The graduations are accurately spaced and the figures and markings are stamped in so there is no possibility of the figures becoming marred or obliterated.

Lever and Truss construction is unusually strong. A scale lever truss if placed in the center has little effectiveness. The levers are trussed so as to give greatest support where the most strain occurs.

Erecting. The very complete and simple instructions sent with scale tell you just how and where to place the various parts, how to adjust each piece for the frame and how to construct the frame and the platform. The pit for this scale is dug only 18 in. deep, which is quite a saving over other scales which require a much deeper pit.

Complete bill of lumber is supplied, telling the number and sizes of timbers which it is necessary to purchase for the construction of the frame and platform.

Article No.	Price	Capacity	Shipping Weight	Size Platform
288B8850	$46.25	3 tons	650 lbs.	8x14 ft.
288B8855	52.00	4 tons	700 lbs.	8x14 ft.

Climax Stump Pullers $14.45 to $53.75

Sweep out of Gear

Free Trial Offer

Send us your order, accompanied by cash, for the size of puller you require. Put it to work and within 20 days from the date you receive it, if it does not work to your satisfaction, and if upon notice from you, we cannot correct any trouble you may have with it, or if in competition with other pullers, you do not find it up to requirements in every way, notify us and we will give you instructions to return it.

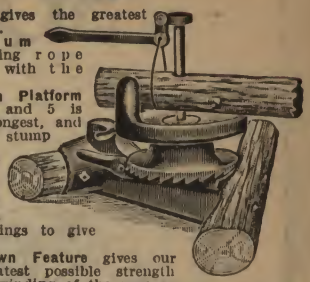
Simplicity is one of the greatest features of our Climax. Few working, therefore, few wearing parts.

Light Weight is another factor that increases the value of our Climax over similar stump pullers. Easily and quickly shifted so that a greater amount of work can be done in a given time than with most other makes.

V-Shaped Iron Drum winds the rope like thread on a spool and preserves its life so that it cannot chafe as rope would on a grooved drum. The first three coils act as a bed, equalizing the pressure to the next three coils. There is no flattening or breaking of the wires. One rope on our V-shaped drum will outwear two ropes on many other styles of stump pullers.

The Low Down Feature of the Climax

Coupled with its semi-steel construction, its two part bearing and its compact form, insures greater power and greater strength than any other similar machine made for clearing land.



Climax Stump Pullers

Will clear land, acre for acre, at about one-half the cost of most stump pullers. **An Illustrated Book** of directions, showing different methods of pulling stumps and instructions for setting up and operating our stump pullers, furnished with each machine.

The sweep can be instantly adjusted to any length by shifting the center shaft, to shorten the sweep to gain speed in light work, or to lengthen it to gain power for heavy work.

Automatic Ratchet Pawl is made of one piece, with no springs or traps to become disengaged. Its action is automatic and positive. It bears on the side of the Platform where the whole machine must resist the load. Far superior to the so-called double safety ratchets on other machines.

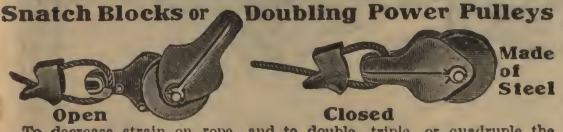
Showing Puller with Sweep in Gear

Low Down; gives the greatest leverage possible.

V-Shaped Drum keeps the winding rope always in line with the anchor.

V-shaped Iron Platform on sizes 3, 4 and 5 is the lightest, strongest, and handiest form of stump puller base.

Drum Ratchet engaged by pawl that works automatically by its own weight without any springs to give trouble.



The Low Down Feature gives our Climax the greatest possible strength and insures the winding of the rope so close to the ground that a team can cross over it under the most severe strain. It is the seat of power in the machine, giving the greatest leverage possible.

The Sweep Lift for throwing the machine in and out of gear has lever connection to the sweep, and a slight pressure ungears it. Furnished on all sizes except No. 1.

Pivoted Anchor Platform insures equilibrium of the machine under all conditions. The Climax Stump Puller will not roll or tip forward when under a heavy strain.

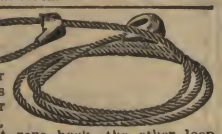
Patent Drum Flange is one of the most important improvements on any stump puller. It makes a perfect winding drum, insures winding of rope coils in regular layers on the drum, and prevents the rope slipping off the drum.

Snatch Blocks or Doubling Power Pulleys

Open Closed

Made of Steel

To decrease strain on rope, and to double, triple, or quadruple the power according to the number used. Have hitch rope with slip hook on one end, and a rope hook on the other. Heavy steel frames.



288B9020—No. 1 for puller ropes up to ⅝ in. diameter, complete with 12 ft. ¾-in. hitch rope; weight, 60 lbs. Price **$8.45**

288B9023—No. 2 for puller ropes up to ¾ in. diameter, complete with 15 ft. ⅞-in. hitch rope; weight, 80 lbs. Price **$12.20**

288B9025—No. 3 for puller rope up to 1 in. diameter, complete with 15 ft. 1-in. hitch rope; weight, 110 lbs. Price **$16.45**

Shipped from factory in Southeastern Minnesota.

Anchor Ropes $4.90

Used to anchor machine to a stump or tree, allowing space for the horses to pass between the machine and anchor stump or tree, for scattering timber, willow bunches, moving buildings, etc. One end has patent rope hook, the other loop coupling, and can be instantly attached or detached. Length of ropes, 25 ft., of high grade steel strand.

Article No.	Size Anchor Rope	Weight	Price
288B9040	⅝ in.	30 lbs.	$4.90
288B9041	¾ in.	40 lbs.	6.40
288B9042	⅞ in.	55 lbs.	7.90
288B9043	1 in.	70 lbs.	9.50

Shipped from factory in Southeastern Minnesota.

Cluster Ropes

For Use in Thick Growth of Trees, Brush, Stumps, and Grubs.

Made from our best steel wire rope. Four 10 ft. lengths, each with a rope hook at one end, babbitted securely in the cluster anchor casting. They are light, handy, and save considerable time and labor by pulling four stumps at one time.

288B9063—Rope Cluster made of ⅝-in. rope, length of each rope (4 in all), 10 ft.; weight, complete, 70 lbs. Price, **$10.90**

288B9066—Rope Cluster, made of ¾-in. rope, length of each rope (4 in all), 10 ft.; weight, complete, 90 lbs. Price **$13.95**

Shipped from factory in Southeastern Minnesota.

The Climax Pullers

Are made in five sizes ranging from the smallest to the largest work. Sizes of trees are given for your guidance and are intended to cover moderate conditions. If your grubbing is unusually difficult, we recommend that you purchase a size that is liberally large, as it will be found easier to operate and the wear will be less than on a smaller size, taxed to its capacity. **If in doubt, write us,** giving condition of your ground and kind of roots you have to pull and we will advise you what machine is best suited to your requirements. **We especially recommend the use of snatch blocks as they increase the power and prolong the life of the rope.** Prices do not include sweep, cross blocks or any wood parts. Rope Shortener or take-up comes with each outfit.

288B9001—No. 1 Climax Stump Puller can be used by hand or is suitable for one horse. Furnished complete with 5 ft. dia. anchor loop and 45 ft. of ½ in. steel pull rope. **Suitable for trees up to 6 inches through.** No sweep lift furnished. Weight, 185 lbs. Price **$14.45**

288B9003—No. 2 Climax Stump Puller, suitable for either one or two horses, complete with 6 ft. dia. anchor loop and 50 ft. ⅝-in. steel pull rope. **Suitable for stumps up to 8 in. diameter.** Weight, 240 lbs. Price **$20.25**

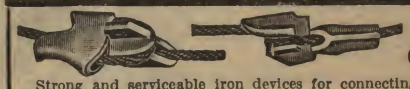
288B9006—No. 3 Climax Stump Puller, suitable for one or two horses, complete with 25 ft. ¾ in. anchor rope and 50 ft. ¾-in. steel pull rope. Suitable for trees up to 15 in. diameter. Weight, 375 lbs. Price **$23.90**

288B9009—No. 4 Climax Stump Puller for one or two horses, complete with 25 ft. ¾ in. anchor rope and 75 ft. ¾ in. steel pull rope; **suitable for trees up to 24 in. through where** snatch blocks are used; weight, 460 lbs. Price **$39.75**

288B9012—No. 5 Climax Stump Puller for two horses, suitable for the lightest or heaviest work, complete with 25 ft. ⅞ in. anchor rope and 75 ft. ⅞ in. steel pull rope. By using our snatch blocks **this puller will handle the largest kind of work.** Weight, 600 lbs. Price **$53.75**

Shipped from factory in Southeastern Minnesota.

Rope Shortener



A labor and time saving device. With it you can take up the slack in the pull rope at the stump instead of winding it on the drum. Can also be attached at any point on the pull rope. One furnished with every complete stump puller outfit. Made of Cast Iron.

288B9070—Size No. 1, for steel rope up to ⅝ in., weight, 10 lbs. **$1.85**

288B9072—Size No. 2, for steel rope up to ¾ in., weight, 15 lbs. Price **$2.75**

288B9074—Size No. 3, for ⅞ and 1 in. steel rope; weight, 27 lbs. Price **$3.80**

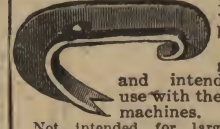
Shipped from factory in Southeastern Minnesota.

Rope Couplings

Strong and serviceable iron devices for connecting ropes. A coupling set consists of a hook connection for one rope end and a slip loop coupling for the other. Can be attached or detached instantly. Prices are for the coupling sets only, without rope.

Article No.	Couplings for size	Weight,	Price
288B9030	½ in. Rope	10 lbs. Per Set	$1.45
288B9031	⅝ in. Rope	12 lbs. Per Set	1.80
288B9032	¾ in. Rope	18 lbs. Per Set	2.25
288B9033	⅞ in. Rope	24 lbs. Per Set	2.60
288B9034	1 in. Rope	30 lbs. Per Set	2.95

Shipped from factory in Southeastern Minnesota.



Stump Puller Rope

From one of the largest and best known manufacturers of high grade ropes. After fairly testing nearly every make of Standard Steel Rope, both domestic and imported, because of its quality and durability, we have selected the steel rope supplied with our stump pullers as the rope best suited for clearing land. One grade only, especially tempered for the purpose, and made of carefully assorted wires of No. 1 steel. Furnished any length, 10 ft. or over, but prices do not include couplings or fittings. See prices for couplers above.

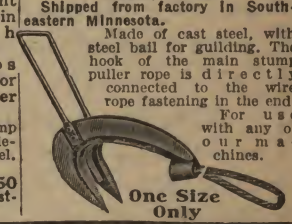
Article No.	Diam. Rope	Wt., Per Ft.	Price Per Ft.
288B9047	½ in.	39 lbs.	10c
288B9049	⅝ in.	62 lbs.	14c
288B9051	¾ in.	89 lbs.	18c
288B9053	⅞ in.	120 lbs.	24c
288B9055	1 in.	158 lbs.	28c

Shipped from factory in Southeastern Minnesota.

Double Point Root Hooks

Especially adapted for light work in brush and grubs and intended for use with the smaller machines.

Not intended for large stump pulling, except where roots are decaying. One size only, of cast steel. Weight, 30 lbs.

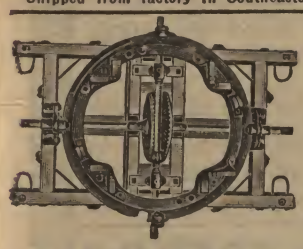


288B9080—Price **$4.50**

Shipped from factory in Southeastern Minnesota.

Twin Root Hooks

288B9085—Price, $10.50. Weight, 80 lbs.



Shipped from factory in Southeastern Minnesota.

Made of cast steel, with steel bail for guilding. The hook of the main stump puller rope is directly connected to the wire rope fastening in the end. For use with any of our machines.

One Size Only

Climax Sweep Horse Powers, $23.45

Each power has two speeds. The high speed is on the long shaft, which is squared at both ends, one end turning with the horses and the other end turning against the horses. Both of the short shafts turn with the horses and both have the same slow speed, therefore only one is squared for coupling. Illustration shows 4 horse power, other sizes are similar, except the 2-horse has no stake lugs. Two steel tumbling rods, three knuckles, rod block, foot board and stakes furnished with each power. The 2 H. P. has 2 sweeps and two lead poles, making 32 revolutions on the high speed and 10½ on the low speed, to one round of the horses. Length of tumbling rods, 11 ft. Shaft and rods squared to 1 inch. The 4 H. P. has two sweeps and two lead poles. Makes 51 revolutions on the high speed and 11 revolutions on the low speed to one round of the horses. Length of tumbling rods, 10 and 12 ft. Rods and shafts squared to 1⅛ inches.

We do not recommend our horse powers for use with threshing machines.

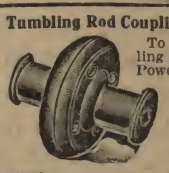
The 6 H. P. is exactly the same as 4 H. P., except with four sweeps and chain equalizers. The 8 H. P. has four sweeps without lead poles, makes 65 revolutions on the high speed and 12½ revolutions on the low speed, to one round of the horses. Length of tumbling rods, 10 and 12 ft. Rods and shafts squared to 1⅛ in.

	Ship. Wt. about lbs.	Price
288B9090—2 H. P. with 2 sweeps.	760.	$23.45
288B9092—4 H. P. with 2 sweeps.	1,080.	31.90
288B9094—6 H. P. with 4 sweeps.	1,170.	34.40
288B9096—8 H. P. with 4 sweeps.	1,450.	49.50

Shipped from factory in Southeastern Minnesota

Bevel Gear Jacks

$5.90 and $8.10



For use with horse powers. Made in two sizes, light and heavy. Illustration shows the heavy jack. The lighter jack, while frame differs slightly, is practically the same. Bed frames are made of seasoned hardwood, shafts of steel and gear wheels of excellent quality close grained cast iron. Boxes babbitted.

288B9110—Light Bevel Gear Jack for 2 H. P., with 12x4 in. pulley, geared 2½ to 1, shaft squared to fit 1 in. coupling. Shipping weight, 90 lbs. Price **$5.90**

288B9112—Heavy Bevel Gear Jack for 4, 6 or 8 H. P., with 15x6-in. pulley geared 3 to 1, 1¼-in. shaft squared to fit 1⅛-in. coupling. Shipping weight, 170 lbs. Price **$8.10**

Shipped from factory in Southeastern Minnesota

Tumbling Rod Couplings 56c to 58c

To connect tumbling rods on Horse Powers and Speeding Jacks. Iron. Will not heat or cut. Has no pin to wear. **Greatly reduces the friction.** Carried in stock to fit, 1, 1⅛, or 1¼-in. squared shafts. Ship. wt., 14 lbs. each. Price

188B9116—For 1 -in. shaft **56c**

188B9118—For 1¼-in. shaft **57c**

188B9120—For 1¼-in. shaft **58c**

Ormas Hot Air Fruit Dryer

For Cook Stove $3 10

For drying fruit, berries, corn, beans, etc. Light, lasting, clean and fly-proof. Has four trays. Made of galvanized iron, tin and wire cloth. Size, 12x20 in. Wt., 20 lbs. Capacity, 1 to 3 pecks per day.

188B9140—Price **$3.10**

Shipped promptly from stock at Chicago

Stutzman Fruit Evaporators

Stutzman evaporators are made of galvanized steel; durable, simply constructed and easily operated. They are well known throughout the country, having been on the market for a number of years. **They have not only given universal satisfaction, but are conceded to be the best evaporators of this kind now built.** Made in two sizes. Directions with each.

Size No. 2. Capacity, 3 to 4 bushels per day. This size is used mostly by farmers. Has 16 trays, 12x24 in., with all latest improvements. **Made of excellent galvanized iron with galvanized wire cloth trays.** Weight, 175 lbs.

288B9123—Price, complete with grate **$16.75**

Size No. 3. Capacity, 4 to 5 bushels per day. This size is made expressly for large family use and small orchards, where a portion of the fruit is sold in the market; has 20 trays, 12x24 in. **The latest, improved frame, made of excellent galvanized iron, with galvanized wire cloth trays.** Weight, 225 lbs.

288B9125—Price, complete with grate **$20.75**

Shipped from factory in Indiana

Stutzman Hot Air Cook Stove Driers

To be used on any style cook stove or range. **$5.00 to $6.20**

Made in two sizes.

Cook stove shown in illustration not furnished.

Size No. 1. Capacity from two to four pecks per day. Height, 25 in.; width, 26 in.; depth, 11 in.; has 6 wire trays, 21x10½ in. Weight, 40 lbs.

288B9130—Price at factory. (Dryer only.) **$5.00**

288B9132—Price at Chicago. (Dryer only) **5.20**

Size No. 2. **Capacity from one to two bushels of green apples per day.** Height of dryer, 31 in.; depth, 11 in.; width, 26 in.; has 10 trays, 21½x10½ in. Made of galvanized iron. Set on the back part of cook stove. Wt., 50 lbs.

288B9135—Price at factory. (Dryer only) **$6.00**

188B9137—Price at warehouse. (Dryer only) **6.20**

Shipped from warehouse near Chicago or factory in Indiana

Challenge Portable Scales

Two Sizes, Capacity 600 or 1000 Lbs.

Made so that inspectors will approve them. Will weigh anything from ½ lb. to full capacity. Equal in construction, durability, quality of material and appearance to scales that retail at from $10 to $12. Every scale tested, carefully fitted, sealed under U. S. Standard Weights. Every part handled by skilled scale-makers. The weighing beam is of solid brass, carefully and plainly graduated from ½ lb. to 100 lbs. The sliding poise is brass, and will weigh correctly on any corner as well as in the center. Diameter of wheels, 5 in. The frame of platform and base are made of close-grained, soft, gray iron, and will stand rough usage. Tightly boxed.

188B9145—Challenge 600 lb. scales; platform, 15x21 in. Shipping weight, boxed, 100 lbs. **$7 35**

188B9148 — Challenge, 1,000 l b. scales; platform, 17x23 in. Shipping weight, boxed, 120 lbs. **$8.90**

Shipped promptly from stock at Chicago

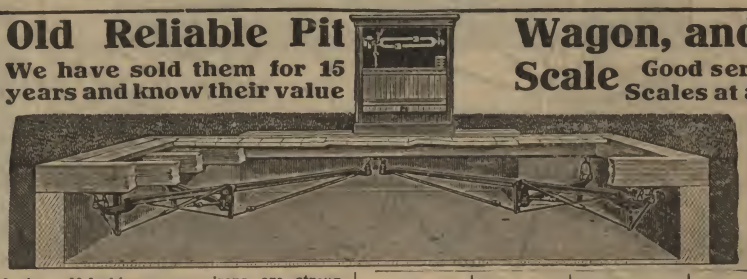
600 lb. $7 35

1000 lb. $8 90

At Chicago

Tool Steel Pivots Extra Hard Chilled Bearings

$33 50 TO $39 90



Complete Directions for Setting Up

The double brass beam is accurate and nicely finished. The beam box is of good quality and durable. The suspension bearings of this scale and the self-locking corner irons are strong and substantial and will retain their accuracy for many years. I beam cast levers, strengthened by truss rods suitably placed combine to make this a thoroughly reliable scale. Only a shallow pit is required. We give dimensions of the pit necessary. Prices are for scales complete with beam box, but do not include the timbers or platform. These timbers can be easily procured from your lumber dealer. We furnish a list of timbers necessary.

Old Reliable Pit Wagon, and Stock Scale

SQUARE DEAL VEHICLES

Ask for What You Want

We have endeavored to make our descriptions cover all the points, but if there is any additional information which you desire, don't hesitate to write for it. We will give you the benefit of our many years of experience in buggy building.

Perhaps you would like to have something a little different than we show here. By having our own factory we are able to make many changes to suit your individual taste or need. Tell us in your own way what you want, and no doubt we will be able to furnish it and can advise you immediately just what it will cost.

Our Vehicle Guarantee

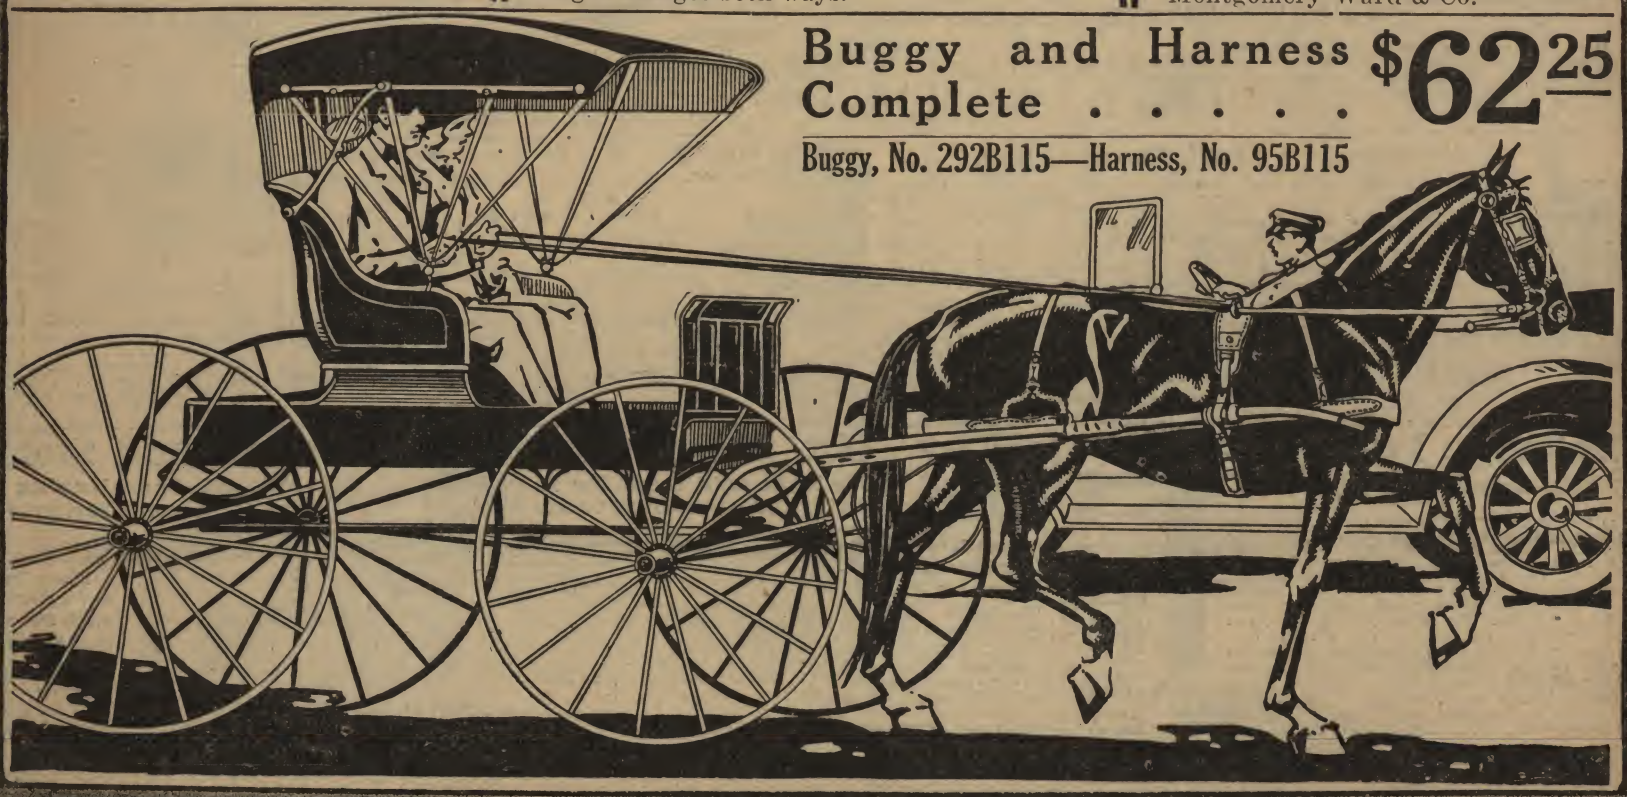
WE GUARANTEE that every vehicle sold by us will be as illustrated and described in our Catalogue; will arrive in good condition; will serve its intended purpose, and be perfectly satisfactory to you.

You may always exchange for other articles or have your money back, including, in either case, the transportation charges which you have paid.

That every vehicle sold by us will be free from all defects either in material or workmanship and that the style and finish will please you.

It is our desire to make trading with us so easy, so perfect and so satisfactory that you will be pleased, not only with the goods received, but also with our service and our entire method of dealing.

60 Days' Trial



Order a "Square Deal" buggy. Use it for 60 days. If at the end of that time you are not thoroughly satisfied with it return it to us and we will refund full purchase price together with freight charges both ways.

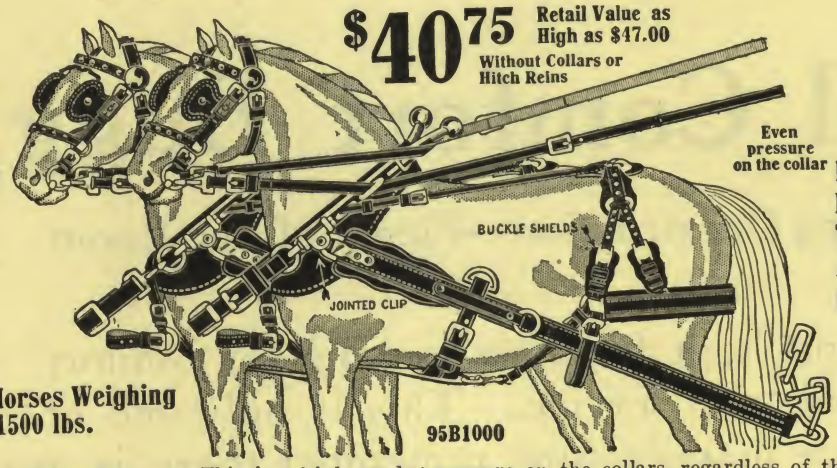
Our Factory

Perhaps nothing permits of more deception than a buggy. The best expert cannot tell what is under the paint unless he saw the buggy made.

For that reason we found it necessary years ago to manufacture our own buggies. We have been compelled this year to nearly double our capacity, and while doing so have added the very latest improved machinery and every facility that would make the buggy better and the cost less.

The above illustration shows our factory. at Chicago Heights, Ill., owned and operated exclusively by Montgomery Ward & Co.

Buggy and Harness Complete $62.25



Buggy, No. 292B115—Harness, No. 95B115

A POTATO-MASHER made of gold and studded with diamonds would not serve its purpose so well as the one of honest wood which we sell for seven cents. LOW PRICED merchandise is not necessarily CHEAP merchandise. If you have been in the habit of paying exorbitant prices for the things you need, don't make the expensive mistake of thinking that the merchandise listed here is CHEAP merely because it is LOW IN PRICE.

Cooper Jointed Clip Harness

A Sample Value from Our Large and Complete Harness Line Shown in This Book

$40.75 Retail Value as High as $47.00
Without Collars or Hitch Reins

Free Movement of Traces in All Directions Possible

Suitable for Horses Weighing Up to 1500 lbs.

95B1000

Our C. J. C. Farm Harness. This is a high grade harness, made strong and durable, cut from the best tanned leather. Has the Patent Cooper Clip attachments (as shown in illustration), eliminating possibility of traces ripping or breaking at hames, and allowing a free movement of the traces in all directions. The joint in the Cooper Clips allows an even pressure on the collars, regardless of the position of the traces when horses are pulling. Note the ring in the hip straps. This is a feature worthy of consideration, as a hip strap made in this manner fits the horse nicely; and should you have an accident, can be repaired easily.

Full Description and Prices

Bridles, ¾ inch, box loop, short check, brass spotted nosebands, round winker braces, sensible blinds, short flat checks to check over hames, brass spotted fronts; brass rosette. **Lines,** 1 inch, length 18 feet, with snaps. **Breast Straps,** 1½ inch, with snaps and slides. **Martingales,** 1½ inch collar straps. **Hames,** Iron Clad, red, brass ball, illustrated as style 95B2046 (see hame page). **Hame Straps,** 1 inch. **Traces,** 1½ inch, length 6 feet, double and stitched, fastened to hames with Cooper's jointed clips, six link heel chains sewed on. **Bellybands,** folded, 1¼ inch buckles. **Breeching,** folded, 1¼ inch layers. **Back Straps,** 1 inch, double, running to rings in hames. **Hip Straps,** 1 inch, three-ring style, double with brass spots, and brass buckle shields. **Side Straps,** ⅞ inch, with snaps. Made up with brass trimmings and Japanned (black) buckles. Suitable for horses weighing up to 1,500 pounds. Weight, boxed for shipment, about 75 pounds.

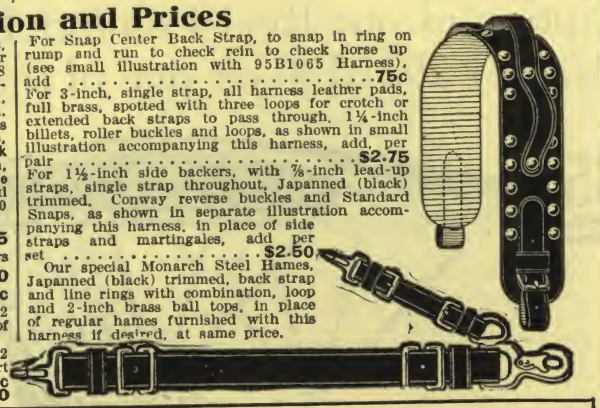
95B1000—Price, without collars and hitch reins, per set... **$40.75**

95B1001—Same style with 1¾-inch traces. Price, without collars and hitch reins, per set..... **$42.50**

For ⅞-inch Short Cheek Bridle in place of ¾-inch, add..... **50c**

For ¾-inch Long Cheek Bridle, same style as shown in 95B1182 Harness (see another page of Harness Section), furnished in place of short cheek at same price.

For ⅞-inch Long Cheek Bridle, same style as shown in 95B1182 Harness (see another page of Harness Section), in place of Short Cheek, add..... **50c**



For Round Side Checks, add..... **$1.50**

For Snap Center Back Strap, to snap in ring on rump and run to check rein to check horse up (see small illustration with 95B1065 Harness), add..... **75c**

For 3-inch, single strap, all harness leather pads, full brass, spotted with three loops for crotch or extended back straps to pass through, 1¼-inch billets, roller buckles and loops, as shown in small illustration accompanying this harness, add, per pair..... **$2.75**

For 1½-inch side backers, with ⅞-inch lead-up straps, single strap throughout, Japanned (black) trimmed, Conway reverse buckles and Standard Snaps, as shown in separate illustration accompanying this harness, in place of side straps and martingales, add per set..... **$2.50**

Our special Monarch Steel Hames, Japanned (black) trimmed, back strap and line rings with combination, loop and 2-inch brass ball tops, in place of regular hames furnished with this harness if desired, at same price.

YOU wouldn't go to a world's fair to see ONE BUILDING—nor would you buy an absorbing novel to read ONE CHAPTER. In our great stock of merchandise there are interesting and appealing offerings for the house, barn, shop and garage, for the parlor, bedroom, diningroom, kitchen and pantry, for the man, the woman, the child, and for every conceivable service. Then why should you not "take in the whole show"—why not get FULL BENEFIT from the book?

Which Way Will You Buy?

A simple question—but a mighty important one. And, much depends on the way you answer it. Answer it right and you are money ahead. Answer it wrong and you will go on finding it harder and harder to make both ends meet.

Our way—one small profit and close prices—is the right answer to the "Lower Cost of Living" question.

That this is so is proven by the fact that more than two million families give us this answer in the steadily increasing stream of orders they send us.

Let this be your answer and you will see your bank account thrive.

The Home Tool Chest

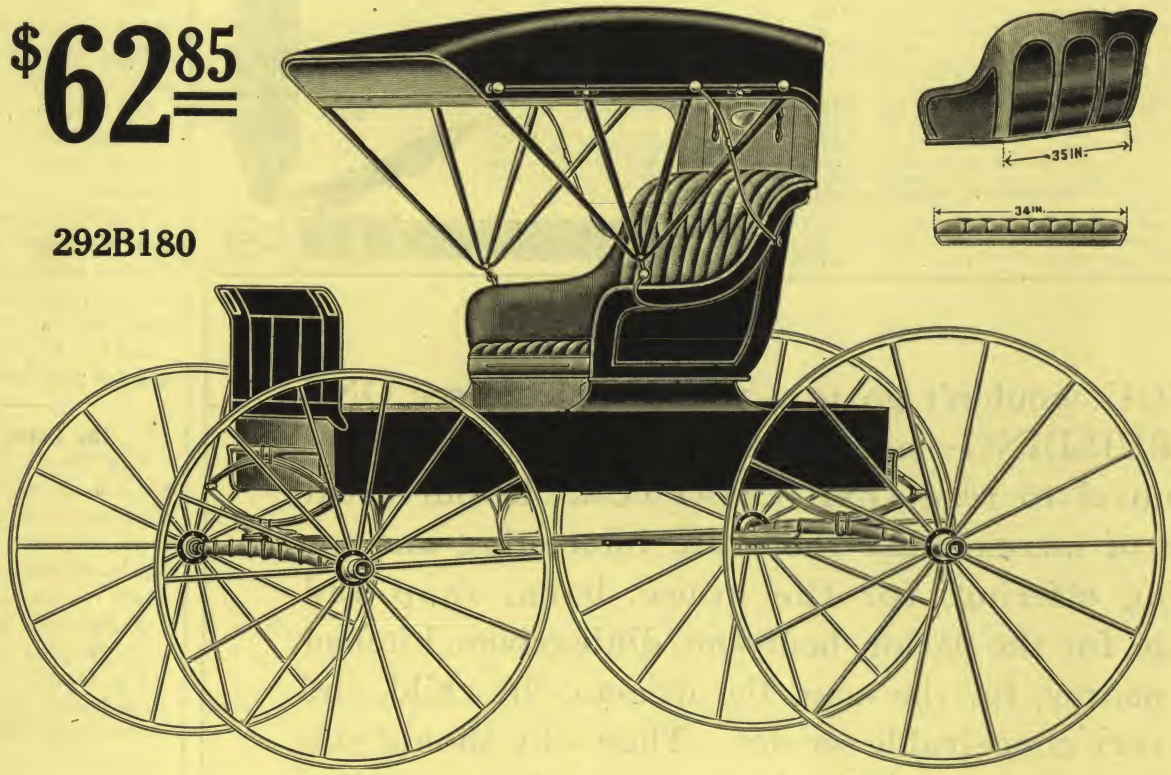
The "handy man" around the house needs handy tools. A little tinkering here, a little puttering there, will often prevent expensive repairs or stop wear and tear that might run into a big job.

A few tools will do wonders—if they're good. A home tool chest is a good little thing to invest in; it will save its cost many times over; comes handy in many an emergency; costs little when you buy it here.

If you're of a mechanical turn of mind, you'll find the completest kind in our hardware pages; from the cheapest that can possibly be good to the very highest quality goods made.

IF you were going to South America — and wanted to get there quickly, and at the least possible expense — you wouldn't go by way of London, Paris, Jerusalem and Johannesburg. You'd go direct, and make as few stops as possible — for every stop would mean delay and extra expense. Our merchandise doesn't go thru many jobbers' and middlemen's hands — BUT TRAVELS THE DIRECT ROUTE — when you buy from these pages. We collect it from the producers and send it direct to you in convenient form. And for that real service you pay but one fair profit.

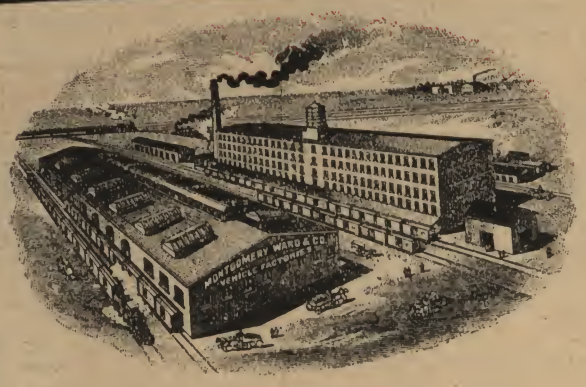
Our Real Comfort Buggy



Wide Seat—Strong Construction—Plenty of Leg Room

DESIGNED and built for those looking for comfort as well as style and service. This is only one of the many styles we manufacture, remember there is a Square Deal Buggy for every purpose.

You will find all of these desirable features listed in the description of our Real Comfort Buggy (illustrated below) Number 292B180 on one of the following pages.



$62.85

SQUARE-DEAL-BUGGIES

Montgomery Ward & Co.

MANUFACTURERS OF

Buggies, Surries, Carts and Cutters.

Chicago Heights, Ills.

CHICAGO

Dear Friend:-

Of course you want to save from $15.00 to $25.00 on the next buggy you buy, but it is only natural that you want to be perfectly sure that you are actually saving it and that it is not taken out of the quality.

But have you really taken the time to thoroughly investigate just where and how your "cold cash" can do the most for you? Perhaps the statement given below of the cost of a buggy will help you.

An ordinary piano body buggy, as you will see, costs $36.35. Yet - this same buggy must and does sell at retail for from $60.00 to $65.00, and no one is getting any exorbitant profit at that.

What is wrong? Simply that there is too much expense and too many people, none of whom are adding one cent in actual value, trying to get a profit out of one buggy.

SQUARE DEAL BUGGIES are made in our own factory and are sold direct to you, with only one small profit added to the manufacturing cost, so that we are enabled to sell this same buggy to you for $39.85 - an actual saving of $20.00. It is simply a matter of economy in our method of doing business.

No one can dispute these figures - no one will question our responsibility, and if the buggy, itself, does not prove our statement, send it back and we will refund full purchase price together with freight charges both ways.

Yours truly,

MONTGOMERY WARD & CO.

Our "Premier" Buggy $55.50

A Popular Buggy at a Popular Price

In the Premier we believe that you will find the ideal of your vehicle desires. Every item that should go into a quality buggy has been carefully worked out by our factory. Every effort has been put forth to give you all you could get in a more expensive buggy and yet hold the price down as low as possible. We have not overlooked one single particle of quality. The Premier has the earmarks of quality that you will find on all "Square Deal" vehicles.

Built-in Quality

The same care and attention has been given the making of the Premier as to the better grades of vehicles we sell. The material is of the very same grade in a great many respects, and represents, beyond question, one of the best values that we have ever made in a buggy.

To fully appreciate its grace and style it is necessary for you to see the vehicle. We would like to have you seat yourself in the big, roomy seat and feel how the upholstery gives, and fits the body. Insures the greatest amount of comfort and ease when riding.

Assured Wear and Service

The name "Square Deal" has for years stood for all that went to make up a buggy. The great number that are today in use, and have been giving satisfactory service for years, is the best proof. The method of construction has, it is true, a great deal to do with the service a buggy will give you. But we have gone farther, and know from actual road tests just how enduring and serviceable the Premier has proven. Look over the detailed description to fully appreciate the true value of this conveyance.

Your Choice of Two Seat Styles

We offer the choice of the two following seats. Be sure to state your preference when ordering. Will ship "Limousine" Style No. 1 unless otherwise specified.

Limousine Seat Style No. 1

Three Panel Auto Style No. 2

Features of Our Fore Door Auto Buggy

New, Novel, Yet Practicable—A Sensible, Serviceable Vehicle

We are proud to claim the Fore Door as a product of our factory. Designed and built exclusively by us, with many brand new features that have proven popular with every buyer, and made this the greatest hit that we have scored in years. The great number of orders received has made this one of the greatest sellers we ever built.

Already a great favorite with the young and old. It has that novel, nifty, "up-to-the-minute" appearance that every young man likes, and the roomy comfort and convenience that is pleasing to the older members of the family. The doors keep out the cold winds and mud and dust from around the feet. There is plenty of room for extra seat for small child, with no danger of the child's falling out.

Detailed Specifications

GEAR — 15/16 inch long distance axles. Selected hickory axle beds, cemented and clipped to axles with extra clips. Selected hickory reaches, ironed full length. Four-leaf front and rear, French head, diamond-point, oil tempered springs, length 37 inches. Also 12-inch fifth wheel.

BODY—"Fore" door "Auto" construction with Cowl Dash and Roadster Boot. Width, 26 inches. Length, 55 inches. Hardwood frame, with extra heavy sills and heavy iron rocker plates. Metal Panels.

WHEELS—Sarven patent, selected second growth hickory. Have ⅞-inch screwed rims. Heavy steel tire, bolted between spokes. Height, in front, 39 inches; rear, 43 inches. (Rubber tires extra.)

SEAT—Metal Limousine style. Upholstered in "Textileather" (better material than cheap leather). Plain divided pattern, with overstuffed roll, spring back and cushion.

TOP—"Auto" skeleton style, covered with "Non-Leak" Auto material. Shifting rail. Large celluloid light in back curtain. Lights in side curtains.

PAINTING—Body and seat regularly painted black, with body belt to match gear. Gear painted Auto red, or Brewster green, neatly striped. We can paint any color desired, but will require about 10 days extra time for shipment.

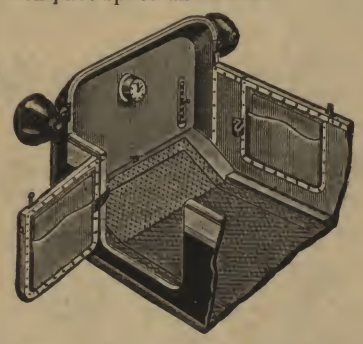
SUNDRIES — Nickel trimmed electric side and tail lights. Nickel-plated clock. Storm front. Full length rubber mat. Nickel trimmings.

TRACK—Narrow, 4 feet 8 inches, or wide, 5 feet 2 inches, according to territory. In ordering be sure to specify width of track desired.

Shipping weight, about 600 pounds.

292B105 "Fore" Door "Auto" Buggy. Price complete, as described above, with shafts and steel tires, gear painted either Brewster Green or "Auto" Red. $79.75

(Be sure to state which color you desire.)



Extra for ¾-inch guaranteed Rubber Tires..... $8.00
Extra for Pole in place of Shafts..... 2.00
Extra for both Pole and Shafts..... $4.85

Shipped from our own factory in Chicago Heights, Ill.

New Storm Front

A large, waterproof storm front is supplied free of charge with every Fore Door Buggy. Is easily and quickly attached or detached and converts the rig into a most comfortable, satisfactory storm buggy. Makes the ideal conveyance for all seasons of the year. Bad weather has no terrors for the man who drives a Fore Door. When not in use folds into small. compact space under seat.

Fore Doors and Cowl Dash

We have adapted the Fore Doors and Cowl Dash to the buggy in a most pleasing way with all their new and novel features. Notice the nickel clock and ventilators.

The standing toe board is most comfortably arranged to lift up so that side curtains and storm front can be carried out of the way, and yet remain always at hand.

Notice the extra heavy sills, with heavy rocker plates to strengthen the body, so that the doors will work perfectly. Doors are fitted with lever locks and pocket.

New Auto Seat and Boot

The new auto seat that we show is the latest design known to the buggy industry, and is the last word in the vehicle makers' art. On the Fore Door we give you all that is new and desirable in a buggy. The materials used are the best for the purpose as you can readily see by the illustrations. They show clearly the care in construction, and the extra little finishing touches that add to the quality and appearance of the Fore Door Buggy.

$59.85

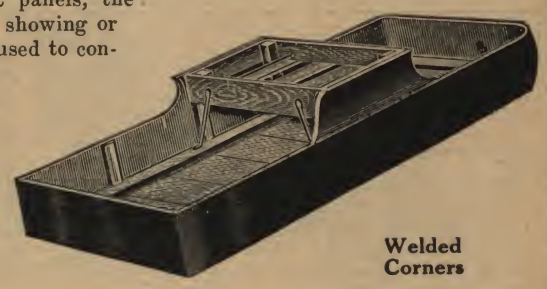
No Improvement which would make this a Most Substantial Buggy Has Been Overlooked

292B110
$59.85

We endeavor to build right into our Leader all the quality and new features of the high-priced vehicle. The result is an unusual rig at a remarkable price. The Leader contains all the worth-while features of high-grade buggy making and yet sells at a price that all can afford to pay. We are proud to offer this vehicle to our customers as one of the best values on the market in a first class, up-to-date conveyance.

Some Special Features of Our Leader

Steel Seat and Skeleton Auto Top



Notice this picture of the seat and top. The seat is of the latest automobile style made of special steel. The metal is heavy, yet not too heavy, and is comparatively indestructible. It is strongly braced and will not rumble, rust, warp nor crack.

The top is of a late design and is considered one of the most stylish and serviceable tops on the market today. Is of four bow skeleton auto type, with bent sockets. If preferred will furnish leather quarter top at no extra cost.

Solid Steel Body Welded Corners

Nearly all trouble with vehicle bodies is caused by split panels, the opening of corners, or the showing or falling out of wood plugs used to conceal screw heads. All possibility of this is overcome in the steel body with welded corners. Holds the paint and lustre. Will not rattle and will outlive several ordinary wood bodies. Painted black only. Upholstered in Genuine leather.

Note the Strong Bracing

Welded Corners

Your Choice of Three Styles of Seats When Shipped From Our Factory

Limousine Style No. 1

Steel, width 31½ inches across top of cushion. A deep, roomy and comfortable seat of the latest style. Finished with the regular "Square Deal" care and attention to small details.

Triple Panel Auto Style No. 2

This is the seat that is regularly shipped unless you state just which one you prefer.

Made of steel in an up-to-date design. See the description below for full details.

Shell Pattern Style No. 3

One of the very latest auto styles. Made of steel. A very graceful and desirable seat. Will prove comfortable, and ride easy on a long hard drive. Width 31½ in. across top of cushion.

If no style number of seat is given we will ship Triple Panel Style number 2.

Regular Description

GEAR—15/16 inch Long Distance Axles. Two-inch arch, with hickory bent axle caps, cemented and full clipped. **Fifth Wheel.** 12-inch wrought Steel, Rear King Bolt. Double Hickory Reaches, ironed full length, and braced. French head Elliptic Springs, length 37 inches, and four leaf front and rear. A strong and high class gear. **Wrought Steel Body Hangers.**

WHEELS—Selected hickory, Sarven patent. Height, front 39 inches, rear 43 inches Have ⅞ or 1 inch screwed rims, and 5/16 inch round edge steel tires, full bolted between spokes.

BODY—Width, 24 inches. Length, 56 inches. Made of steel, with strong hardwood frame, round rear corners. Hardwood floor. Unusually strong and practically indestructible.

SEAT—Latest design Triple Panel Automobile style, No. 2. Made of steel. These metal seats have proven, after years of use, to be much more satisfactory than wooden seats. They are heavy steel, without seam or joint, and are practically indestructible. Width across top of cushion, 31½ inches.

UPHOLSTERING—High grade, genuine leather. Spring cushion and spring back. Tufted and padded ends, and all covered with genuine leather or green cloth.

PAINTING—Body and seat black. Gear, rich Auto red (shown in colored illustration as near as printer's ink could reproduce it), or dark (Brewster) green, attractively striped. Give color preferred.

TOP—4-bow skeleton automobile style. Auto style bent sockets. Covered with "Non-Leak" long grain double texture auto top material. Reinforced side curtains, with lights. Outside extension joints to back bows. Two oval back curtain lights. Top easily removable so as to make open runabout.

SHAFTS—Selected hickory, triple braced, with Bradley Ball-bearing, quick shifting couplers. Trimmed with round straps, and 36-inch points.

SUNDRIES—Patent Leather Dash, padded and braced. Wood panel **Boot**, with metal edge and covered with rubber. Full length body Carpet. Large **Storm Apron. Wrench** and **Washers.**

TRACK—Narrow, 4 feet 8 inches.

Shipping weight, crated, under 34 inches, about 525 pounds.

Shipped from cities given below, or from factory. This buggy can be shipped from factory at Chicago Heights, Illinois, with almost any changes or specifications that may be wanted; but, such shipments will require about ten days' extra time, and prices will be on cars at factory.

EXTRAS THAT WILL BE FURNISHED IF SHIPMENT IS MADE FROM FACTORY

Wrought Steel Anti-Slip Fifth Wheel

Notice the flange on upper circle of our improved Fifth Wheel, which prevents slipping out of line and adds very materially to its strength. This Fifth Wheel is made from high quality, flexible wrought steel, with full 12-inch bearing. Furnished on all Square Deal Buggies when Wrought Steel Fifth Wheel is specified.

Parallel Reach Flexible Buggy Gear

Without question the best gear ever put under a buggy

This gear has been thoroughly tried out for over three years, and has proven to be a great improvement over the old style double reach gear, adding much to the flexibility and strength of the buggy, as well as to the general appearance.

Can Also be Furnished on Any Piano-Body Buggy or Driving Wagon Shown in This Catalogue, at an Extra Cost of $2.50.

Triple Wrought Braced Shaft

Our own make

Furnished on all Square Deal Buggies and Runabouts shown in this Catalogue. Made of selected whalebone hickory, ironed with extra heavy and extra long irons, and 20th Century style of truss braces. Exceptionally well painted and trimmed.

Your horses need protection this winter. See our Stable Blankets

SQUARE-DEAL SPRING WAGONS

Our Standard Spring Wagon

$48.85

A sturdy, well-built wagon that will give you life-long service. Made in our own factory in the "Square Deal" way.

We have endeavored to place in the "Standard" all the desirable features of a spring wagon selling at a higher price, yet hold the price down to a point that every man can afford to pay. Read the following description to fully appreciate the merit of this Spring Wagon.

292B300

Steel Clad Body and Climax Gear

THE BODY

The end gate is protected on all edges by angle steel, riveted and screwed to the panel. Front and hind ends are protected by angle steel, preventing warping or sagging of bottom boards. Note illustrations of Body Ironing.

CLIMAX GEAR

This illustration shows our famous Climax Gear. We believe that this is the strongest and most flexible gear construction on the market today.

For use in all styles of carriage heaters, foot warmers, and automobile heaters. In packages of 20 Kake-Ettes. Length, 3½ inches; width, 2½ inches; thickness, 1¼ inches; each Kake-Ette will burn from nine to ten hours. Full directions with each package. Weight, 6 pounds.

92B780—20 Kake-Ettes. Per package 65c

Coal, 44c

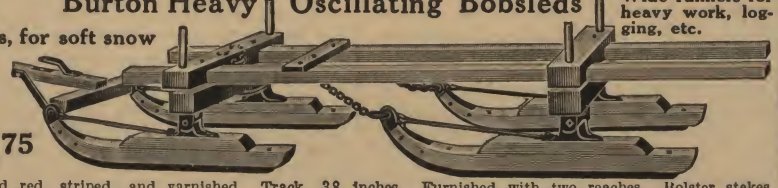
Gives steady, uniform heat without odor, flame, smoke or gas. Length of cakes, 7½ inches; width, 2½ inches; height, 1¼ inches. In boxes of one dozen cakes. **Will fit heaters of standard make.** Each cake will burn 12 to 15 hours. Can be extinguished and relighted. Weight, per box, 7 pounds.

92B790—Price, per box 44c

Large stock, immediate shipment from warehouse.
St. Paul, Orange Painting: from Ohio, Red Painting

Heavy Mandt Oscillating Bobsled, with Hound

$17.00 5-Foot Runners — **$18.50** 6-Foot Runners



The most popular type of bobsled ever made. Is largely taking the place of all other kinds. Made of hardwood throughout, very strong, and has large capacity. The hounds on rear bob, and swivel castings, together with the steel knees, give perfect oscillation. With the long reach, the bobs can be lengthened out or shortened, as desired. The tongue is heavily braced and ironed. Heavy cast iron shoes. Made in two sizes.

292B820—Runners made from 2x4-in. and 5 ft. long. Weight, 300 lbs. Price **$17.00**
292B821—Runners made from 2x4-in. and 6 ft. long. Weight, 350 lbs. Price **18.50**
Extra for 42 in. bolsters instead of 38 in. between stakes . . . . . **.75**
Extra for special width track, 10 days additional for extra work **4.00**

Shipped from warehouse at St. Paul or in Ohio.

Burton Heavy Oscillating Bobsleds

Wide runners, for soft snow — Wide runners for heavy work, logging, etc.

Painted red, striped, and varnished. Track, 38 inches. Furnished with two reaches. Bolster stakes 38 inches apart. Iron knuckles on each runner. Shoes full width of runner. 1 inch center rib. Double reach track, 3 feet 2 inches.

OUR NEW "Climax" FARM WAGON

NO BETTER WAGON AT ANY PRICE

There Is No Other Wagon Like It

Read the Specifications carefully. Compare them with the Highest Grade Wagons on the market. You will not find any other wagon at any price that has all of the splendid features illustrated on the opposite page.

$52.50 This wagon has been designed, and is being built entirely after our own specifications. The very best material and workmanship was our first aim, but experience has taught us that while these are essential, they are not all that is necessary to make a good wagon.

We have incorporated all the good features found in other wagons, but it has been our belief that there was still much to be learned from the farmer who uses them, and the country blacksmith or wagon maker who repairs them. We have gone to them to learn where so many wagons fail; what the objectionable features are; why they do not give the satisfaction that one has a right to expect.

We have worked out each and every one of these weak spots—strengthening the ironing, using a little heavier wood stock, or improving the construction wherever it has been necessary; and to these we have added many new and convenient features. **$52.50**

Good paint and good finish not only add to the appearance, but preserve the wagon as well, so that this feature has been given particular attention.

The result is the "**Climax,**" which manufacturers have aimed at, and for which farmers have hoped for a great many years. It is a farm wagon for the farmer. It will save you money not only on the original purchase, but many times as much more in the long and satisfactory service that it will give you.

Detailed Description

WHEELS—All wood used in the wheels is carefully selected, and thoroughly air dried. The **Rims** and **Spokes** are White Oak. The **Hubs** are Oak (not birch). **Tires,** steel, full regulation width and thickness, bolted to the rims. **Sectional Rims** will be furnished regularly. **Bent Rims** riveted at side of each spoke without additional cost. Wheels are saturated with boiled linseed oil before being ironed. Regular height, 44 in. front, and 52 in. rear. We can furnish 38 in. or 40 in. front, and 44 in. rear when wanted, at no additional cost.

AXLES—Selected hickory, thoroughly air-seasoned, properly fitted to skeins. Seamless **Skeins,** extra heavy, with large throat. Steel skeins furnished when wanted, at extra cost, as given below. Skeins are set with red lead. Axles are thoroughly saturated with boiled linseed oil before being ironed. Square hound gears are furnished regularly. Bent round hounds can be furnished when wanted at no additional cost.

GEAR—All gear woods are carefully selected and thoroughly air-seasoned. Nothing but choice oak used in any part. All parts are dipped in boiled linseed oil before being ironed. Gears are clipped instead of bolted, thus greatly strengthening every part.

Both front and rear hounds are double braced. Iron wear box on rear axle, to prevent reach wearing bolster and axle. Large turn-table bolster plate on front bolster, to prevent king bolt wearing, and bolster tipping. Front and rear axles trussed with heavy truss rod.

TONGUE—The tongues on Climax Farm Wagons are carefully selected oak, strongly ironed and braced. Drop tongue is furnished regularly. Stiff or coach tongue can be furnished on square hound gear when wanted, at no additional cost.

Strap end singletrees have full back plate, adding very materially to their strength, and protecting them from wear on wheels. Doubletree and neckyoke are heavily ironed.

BOX—Yellow pine tongued and grooved floor. Doubled over front and rear bolster, with oak bolster cleats at rear riveted to bottom. One-piece, wide box boards for sides and ends. Five hardwood cross sills. Comstock patent end gate. Tool box under toe board. Extra heavy box rods, tie rod at each side supporting bottom and holding top box down; tie chain to prevent spreading. Cut-under wear irons, eight box cleats, with two straps to each cleat. Metal grain cleats. Stake wear irons, to prevent chaffing sides. Mountain type spring seat included.

PAINTING—Climax Wagons are hand painted throughout, with the highest quality of materials, and with sufficient coats to make a first-class job. Box is painted green, striped and ornamented. Gear red, neatly striped.

TRACK—Narrow, 4 ft. 6 in. or wide, 5 ft., measured from center to center of tire on ground. Be sure to state width of track wanted.

Prices quoted are on board cars at factory.

"DETROIT-AMERICAN" MANURE SPREADERS

$69.25 AND UP

All Steel Cylinder

Wooden bars warp, crack and break. The steel cylinder cannot warp or crack, and there hasn't been one broken yet.

We use nine cylinder bars of 1¼x1 7/16 inch steel. These are bolted firmly to large cylinder heads forming an open drum or beater, 23 inches in diameter, measuring from the point of teeth on one side to point of teeth on the opposite side. These teeth are 7/16 of an inch square and 4 inches long outside the bar, with sharp chisel point; they are made of 30 point carbon steel, which gives the right degree of stiffness. The end of the tooth which sets into the cylinder bar is threaded, and after being firmly bolted to place, is tapped, to prevent the nut from ever working loose.

These long, sharp teeth will cut into, and shred the heaviest and toughest manure. They will take hold of and tear up manure that a cylinder, equipped with short, round teeth, would stall in. The steel cylinder bars also help in breaking up frozen chunks, packed sheep manure, corn stalks, and all other tough materials.

The ends of the cylinder bars run close to the inside line of the box, and as the outer teeth are set close to the ends of the bars, they cover the whole width of the machine. No portion of the load is left untouched by these long, square, sharp-pointed teeth.

288B9801—No. 0.—50 Bushel, Narrow Model. (A good size for hilly farms.) Wooden wheels. Front wheels, diameter, 28 inches; rear wheels, diameter, 44 inches. Tires, width, 4 inches. Price $86.00

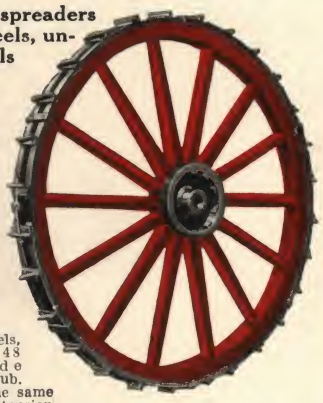
288B9809—Wheel Brake for either spread r, extra **4.90**

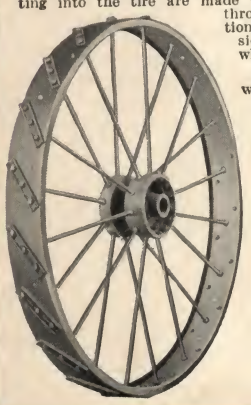
Shipped from warehouse near Chicago.

All Steel Rake



The rake teeth, of spring steel, are sharp pointed and assist the cylinder in tearing up the manure. Each tooth is furnished with a spring of 16 pounds' tension and works independently of the others. The result is that a frozen chunk of manure, a brick, or any hard substance, will be let out by the rake tooth with which it comes in contact, without raising all the other teeth, and letting chunks pass over the entire surface of the cylinder, as in some spreaders. Being made entirely of steel, our rake is not only efficient, but a rake that knows no breaking. Length of teeth, 16½ inches. Width, 1½ inches.

A Complete Set of Eveners with Each Spreader



Wood or Steel Wheels

We furnish all spreaders with wood wheels, unless steel wheels are ordered.

The wood wheel has an iron hub. Spokes and felloes are second-growth white oak. With wood wheels we furnish a traction band, for one rear wheel. It is not necessary, or desirable, to use the traction band, except when the ground is unusually soft, muddy, or covered with snow. It is easily put on or taken off.

The steel wheels, diameter 28 and 48 inches, are made with a large iron hub. All spokes are of the same length, so that the tension on each is the same. The rims, or tires, are flanged about an inch on each side, so as not to cut into a meadow, as a flat-tired steel wheel will do. The ends of the spokes setting into the tire are made with a shoulder, and are set through both, the tire and traction lugs, and riveted on the outside. Traction lugs are on rear wheels only.

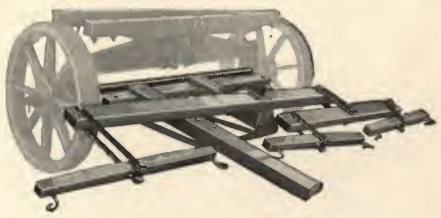
The illustrations of the wheels give a view of the inside of the hubs, showing how they supply power. There is a large clamp, or clutch casting key, seated on the axle, right next to each of the wheels. The heavy pawls on these clamps, slip into large notches on the inside of the hub, and turn the axle with the wheel. The wheel hub does not get any wear, and therefore, will never become too large for the axle. **Remember, wood wheels are always furnished, unless steel wheels are specified in your order.**

Easy Running, Roller Bottom Endless Apron

The apron is carried on rollers, one at each end and one in center of each slat on the wide machines, and one at each end on the narrower sizes. An adjustment at front end of each sill takes any slack out of the bottom. Lower part of apron runs below the bottom of box sill, so that it can be easily cleaned out when necessary. The bottom begins to move the load directly the machine is put in operation.

WE have secured the privilege of marketing the well known Detroit-American Manure Spreaders, having a reputation for durability, ease of operation and light draft. Their equal cannot be purchased anywhere else at our prices.

Detroit-American Spreaders have a greater proportion of steel in their construction, than any other spreader, giving greater strength, with less weight. Have fewer working parts, not a single gear, and less mechanism all around, than others, which means less friction, lighter draft, ease of operating, and less chance of breakage.



THE BODY or box of the Detroit-American is made of hardwood, is strongly put together with bolts, and sides are iron bound on top. The box is comparatively low, being only 48 inches from ground to top of box at rear, making it very easy to load, even by a boy or short man. The frame of box will stand the hardest kind of service. It has no nails, screws or mortises, but everything about the frame is solidly bolted together. Removable spring seat.

FRONT AXLE and bolster sets far back under the body, dividing the loads instead of allowing the rear wheels to carry all of it, as many others. The front trucks on each of our spreaders, will turn around short, under the machine. The fifth wheel, or circle arm, is 15 inches in diameter, made of steel and will stand the heaviest load and roughest usage without breakage.

Rear Axles are made of 2-inch cold, rolled steel, and front axles 1½-inch cold rolled steel, heavy enough to carry a much larger load than can be placed on the machine.

Complete, with oak pole, neckyoke and doubletrees.

Tongue Connection

Two or three horse evener can be used on the Detroit-American Spreaders, as desired. The simplicity and great strength of our tongue connection, is one of the features of our spreaders, and must appeal to the farmer who finds it necessary to spread under varying conditions. Illustration shows the off-set tongue and three-horse evener, for using three horses, two on one side of tongue and one on the other. The short stub tongue is in the center, and the pull with three horses comes directly on the short stub. This permits the use of an ordinary three horse evener, and does not require an equalizer, which frequently fails to equalize the draft.

When used with two horses, the stub tongue is removed and the long tongue set in center, in place of stub tongue, making the pull directly in the center of the two-horse evener. A strong steel frame under the tongue wood gives great strength and connects directly to the axle.

SPROCKET AND CHAIN DRIVE—This method furnishes the greatest amount of power with the least draft. It does away with the need of gears, allows a slack for starting, eliminating sudden strain on other parts. Drive chain is raised and lowered on a solid arm, and when lowered onto drive sprocket, it locks into position and cannot jump or slip, no matter how heavy the load.

Equipped for changes of feed, allowing the load to be spread as light top dressing or be put on as much heavier as desired. Change is controlled by a lever at driver's seat. Two eccentrics on the beater shaft working with a feed arm, move the ratchet wheel, giving a steady continuous movement to the apron.

I have used spreader a year, have tested it in every way, and find it far better than other makes of spreaders around here. Mine is the only Detroit-American in this locality. But there will be others bought this year by farmers who have seen this one pulled with a team of light horses.

Name and address furnished on request.

$43.70 The "Whitewater" Farm Wagon A Real Value $48.70

Without Seat Doubletree, Neckyoke or Singletrees

Immediate Shipment—Large Stock at Warehouses in St. Paul, Minn., and Near Evansville Indiana

With Seat Doubletree, Neckyoke and Singletree

We have endeavored for years to embody in a farm wagon all the features that practical use have demonstrated to be worth while. In the "Whitewater" you will find *the same superior dollar for dollar value* as in our higher priced wagons. You will find that nothing has been skimped, or slighted. We have built the "Whitewater" to meet the demand for a low priced high-grade farm wagon of dependability. A trial of this remarkable wagon will convince you beyond question that it is one of the best values that has ever been offered in a farm wagon.

Read the specifications carefully and compare them with other wagons. The "Whitewater" will stand any test you care to make.

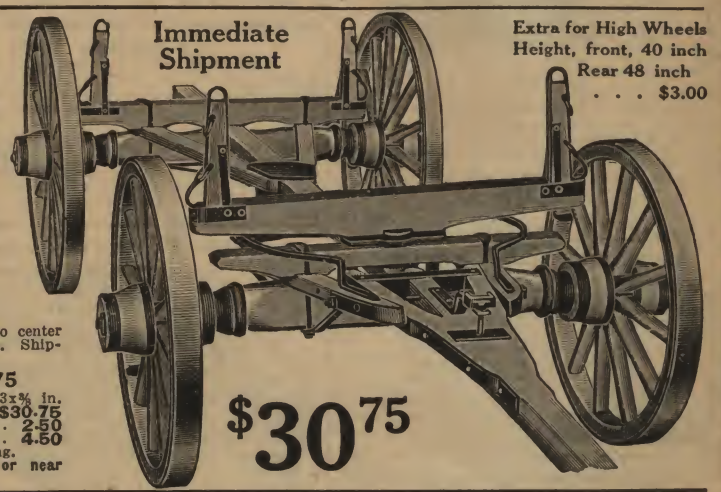
$30.75 Low Wood Farm Truck $30.75

The great demand for this popular farm truck in the past year has led us to make arrangements for better and quicker shipping facilities for our patrons. We now carry a large stock at St. Paul, Minn., and at the warehouse in Southern Indiana, so that your order can be shipped without any delay. Give the point nearest you and get the low freight rate.

The truck is well and strongly built of good grade materials, with the usual care and attention given to the construction of all our wagons and buggies. Nothing that would make the truck more serviceable and valuable to you has been omitted.

Description and Prices



Years of use at the hardest kind of farm work have proven this style of truck to be successful, and that it will last you a life-time with ordinary care. The average retail value of a truck like this is around $45.00. Our own method of selling direct from the factory to you enables us to give you the additional quality and better material at the low price. This truck is made of good material, and will give excellent service and satisfaction. Wheels, height, 3 feet front and 3 feet 8 inches rear; tires, 3x⅜ inches. Gear, axles hounds and bolsters are good material, free from defect. Steel hound drop tongue front gear furnished regularly. Well painted and finished deep orange with black stripes and varnished. Track narrow 4 feet 6 inches or wide 5 feet from center to center of tires. Give track wanted. Capacity, 4,000 pounds. Shipping weight, 650 pounds.

Low Steel Wheel Farm Truck

There are cheaper Steel Wheel Trucks, but we do not offer them because we can not recommend them.

$21.25

PAINTING—Gear red, wheels black. All varnished.

This steel truck is furnished with different heights of wheels. When wheels are 26 in. front and 32 in. rear, the tops of bolsters are only 26 in. from the ground, making it very convenient for loading. Axles are selected hickory; bolsters, reach and tongue are selected oak. Stakes are oak, bound with iron, and braced. Length of reach is 9 ft. 4, but if ordered will be furnished 12 ft. without extra charge. Front and rear hounds are angle steel, almost unbreakable. No better wheels are made. Spokes and tires are wrought steel. Will not break or become loose. Hubs are cast iron around the spokes, so they cannot become loose. On account of broad tires, this truck is especially adapted for use in the fields and on soft roads. Track, narrow, 4 ft. 6 in. or wide, 5 ft. **Be sure to give track wanted.**

4,000 lbs. capacity trucks have 3¼x10 in. skeins, and tires ⅝ in. thick.

6,000 lbs. capacity trucks have 3½x11 in. skeins, and tires ½ in. thick.

8,000 lbs. capacity trucks have 4x12 in. skeins, and tires ⅝ in. thick.

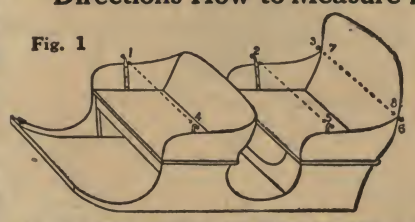
Directions How to Measure for Tops, Cushions and Backs

Fig. 1



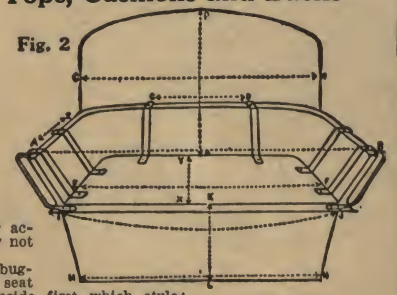


Fig. 2

All extra Tops, Cushions and Backs are made to order according to your measurements and being special goods may not be returned except on account of our error or defect.

When Ordering Top. There are three kinds of seats on buggies—"Common Buggy" seat, like Fig. 2, "Phaeton Style" seat like rear seat on Fig. 1, "Automobile Style" seat. Decide first which style seat you have. If first or second mentioned, give measurements called for. If you have an Auto Style seat write for instructions. Measurements on buggy seat must be from center to center of holes in seat irons (See Letters A and B, Fig 2). Do not confuse these with "goose necks" indicated by figures "2 and 5" on rear seat of Fig. 1. On Phaeton Style seat give measurements from goose neck to goose neck (See figures "2 and 5" Fig. 1). If seat is not ironed give measurements across the top and at the points indicated by the letters "A and B" or figures "2 and 5." We cannot furnish irons for seats. Be sure to state whether you want three- or four-bow top.

When Ordering Seat Cushion give measurements called for on Fig. 2. State whether with or without fall. If with fall give measurements. If "End Pads" are wanted send pattern, ask for quotation.

For Buggy Tops

Give distance from "A to B," "C to D."

For Seat Cushion

Give distance from "E to F," "X to Y."

For Falls on Seat Cushion

Give distance from "I to J," "N to M," "K to L."

When Ordering Back Cushion determine whether your seat is fitted with lazy back (narrow wood strip), or a full panel wood back. Give measurements per instructions. We ought to have a full size paper pattern of the wood panel.

For Solid Wood Panel Backs

Give distance from "G to H," "P to O," "C to D."

For Phaeton and Buggy Tops on Phaeton Style Seats

Give distance from 2 to 5, 5 to 6, 2 to 3, 7 to 8.

For Lazy Back, Regular Drop Back

Give distance from "C to B," "A to B," "O to O."

When Ordering Extension Top for Surrey Body be sure to note points indicated by figures "1 to 8" and give all measurements called for in list below.

REMEMBER THAT WE CANNOT FURNISH IRONS FOR SEATS

For Extension Tops

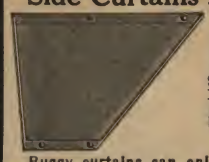
When body is not ironed for top, give measurements from points on seats where irons will be placed and state on order "body not ironed."

Give distance from 1 to 4, 2 to 5, 4 to 5, 1 to 2, 5 to 6, 2 to 3, 7 to 8.

Give distance from seat bottom to goose neck at 5.

Which is the highest, and how much, 5 and 6.

When Ordering Extension Top for Spring Wagon Body give all of the first seven measurements called for below.



Give distance from seat bottom to goose neck at 4, at 5.

State which goose neck, 4 or 5, is the highest from a level, and how much.

State which goose neck, 5 or 6, is the highest from a level, and how much.

Read Carefully

After All — It's What Our Customers Say That Counts

Tooting your own horn pays—sometimes. But after all, the foundation of any business is built on satisfied customers. This business has been built up as much through the good words of thousands of satisfied customers as through our own efforts to make every transaction satisfactory in every respect. If we please you, tell your friends—if not, tell us.

High Grade Hickory, Extra Braced Shafts

For Buggies, Surreys and Spring Wagons

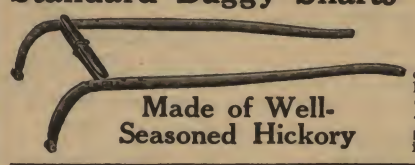
$2.30 Regular $4.00 Quality

Our Own Make

NO STRONGER BRACED SHAFTS BUILT. Strong where ordinary shafts are weak, in bend of heel. Worth a dozen of the break-easy kind.

Many not as good sold for $4.00 and upwards.

THESE SHAFTS HAVE NO WEAK POINTS.



Brace follows bend of heel. Stronger than straight brace and looks better. **Just the shaft you've been looking for. Selected hickory.** Have 1-in. eyes and 7/16-in. holes, and measure 44 in. out to out of eyes, which is regular width. **Prices for unpainted** are for shafts finished and ironed complete. **Prices for painted shafts** include 24 in. points and straps and are ready for use. Fitted with common eyes for bolts or Bradley Coupler eyes as ordered. See illustration.

Buggy Shafts, size 1⅜x2 inches, with sword end singletrees. Weight, about 30½ lbs.

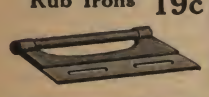
Bolster Plates

25c

Cup and saucer pattern. Made to fit 3¼ in. wagon axle. Malleable iron. Weight, 3 pounds.
92B3350 — Price 25c

The "Perfect" Adjustable Brake

$3.50 $3.90



For heavy buggies and spring wagons

It is composed of two Half Beams which are coupled together in the center by a sleeve with set screws. This gives necessary adjustment to fit all widths of track. It also enables you to adjust the shoes to the wheels, insuring an equal bearing on each. The Beam Lever is movable and can be adjusted to fit any width of body. Iron shoes are fitted in such a manner that they adjust themselves to the wheel, with or without load. The Foot Lever locks itself when thrown down, and prevents the shoes from rubbing on the wheels. The Pull Rod can be adjusted to give any desired tension. On account of the adjustment it can be put on in less time and in better shape than any other type of brake made. Weight, about 30 lbs.
192B3325—Iron Shoe. Inside Foot Lever .. **$3.50**
192B3326—Iron Shoe. Outside Hand Lever. **3.90**

Rub Irons

19c

92B3310 — Roller rub irons for elliptic spring buggies having full length body loops, are length 5 in., width 2½ in. Weight, per pair, 1½ lbs.
Price, per pair **19c**

Rub Iron

92B3315 — Buggy Rub Irons, made of rolled steel, width 2½ in. over all, length 6 in., with holes countersunk for screws. Weight, per pair, 1½ lbs.
Price, per pair **12c**

Sleigh Shoe Bolts with Nuts

Made of best wrought iron with countersunk heads; threads long and true. 16 bolts to a set. Average weight, per set, 4½ pounds.

Article No.	Per set of 16	Length Inches	Diam. Inches
92B3355	33c	4½	7/16
92B3356	36o	5	7/16

92B3360	48c	7	7/16

Doubletree Evener Plate

10c

Wrought steel, a great improvement over the old style plate. Does away with boring holes in trees. Simply attached with screws. Strengthens the trees and makes better appearance. Width, 1⅞ in., length 8 in. Fits any doubletree. Weight, 1 pound.
92B3365—Price, each **10c**

Critical mechanics rely on our hand saws and other tools

Wood and Metal Vehicle Wheels, Parts and Repairs

Regular Grade Wheels Per Set $6.95 and up

Our Wheels are Graded

Our Special Grade Wheels Are Well Known for Their Lasting Qualities

Big Stock on Hand. Quick Shipment

Seasoned hickory. Usual quality. Well made. Suitable for repairs, and cheap new work. As good as can be obtained anywhere for the price. We recommend our Special Grade Wheels for good work, and long and satisfactory use.

There is commonly 4 inches difference in height of front and rear wheels. Order the height you want.

Low sizes are, front, 36 inches, and rear, 40 inches.

Usual sizes are, front, 40 inches, and rear, 44 inches.

We will send usual sizes, 40 and 44 inches, unless other sizes are given on the order.

Any other heights, 34 to 48 inches, will be furnished to order for 25 per cent additional. Shipment will be made in two to three weeks from factory in Indiana.

16 Spokes to each Wheel. Primed with a coat of boiled oil. Full Bolted. One bolt after every spoke.

Good, Strong Wheels One of Our Main Hobbies

Special Grade Wheels Per Set $9.35 and up

Selected seasoned hickory. Good quality. Carefully manufactured. Will give good service, prove entirely satisfactory. Suitable for high grade repairing, and new work.

We carry three heights of wheels in five different widths. Height, 36, 40 and 44 in. Sizes, ⅞, 1, 1⅛, 1¼ and 1½ in. There is no difference in price on account of height. You can order four wheels of any of the above heights—36, 40, or 44 in., at price given for set of size wanted; or you can order one wheel at one-fourth price of set.

If wheels are wanted with boxes in them, new axles must be ordered with the wheels.

If axles are ordered with wheels, we will set the axle boxes in the hubs for $1.00 per set extra.

THESE WHEELS WILL BE PAINTED ANY STANDARD COLOR TO ORDER. OR ACCORDING TO SAMPLE FURNISHED, FOR $3.00 PER SET OF FOUR.

Setting boxes or painting will delay shipment 5 to 10 days and goods will be forwarded separately from any other items included in the same order.

We cannot set boxes to fit old axles. If wheels are wanted with boxes set, new axles must be ordered with the wheels.

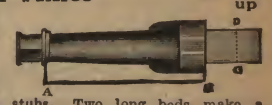
Wood Farm Wagon Wheels

Prices furnished on request.

Farm wagon wheels are made in so many different sizes that it is impossible to quote all sizes in our Catalogue. However, we shall be pleased to quote prices to you, if you will give us the following measurements: Width of rim; width of tire; height of wheels; length of hub; size of skein.

Long Distance Axles $1.30 and up



Oil-retaining, self-lubricating "Collenge Collar" Long Distance Axles, with fantail beds. Highest grade steel axles; cast iron boxes. The shoulder and bell collar prevent grit from working over the rear collar. We consider the Collenge axle the best long distance axle on the market. A set consists of four axles. Weights range from 50 to 85 lbs. per set.

Size Inches	Stubs Number	Stubs Price	Long bed Number	Long bed Price

Wagon Skeins or Thimbles $1.36 Per Set and up

Cast Skeins

Our cast iron skeins are the standard pattern, made of the best material and carefully trued. They have the plain round shoulders. Not intended for use with truss rods.

Our steel skeins have extra long sleeves with large opening near shoulder and are reinforced at collar, **making them extra strong at the point that requires the most strength.** A set of either style consists of four skeins, two right and two left. We can furnish ½ set at ⅓ the price of a full set. Price includes boxes for wheels, also nuts. Weight, per set, 40 to 70 lbs.

Wide Tread Metal Wheels

$2.05 Per Set and Up — Regular Grade Wheels

Standard Wide Tread Metal Wheels are made with tires ⅝ in. thick, guaranteed to carry 4,000 lbs. per set. Half inch thick tires will be furnished on all sizes for 20 per cent extra, and are guaranteed to carry 5,000 lbs. per set. We recommend ½ inch thick tires for longer service where brake is used. If measurements are carefully taken according to instructions, we will be responsible for wheels fitting.

Prices are for one wheel with ⅝ in. tire. Plain tires, not grooved, will be furnished without extra charge when so ordered. Grooved tires are stiffer and add years to life of wheels.

Article Number	Height	Tire 3 in. Wide	Tire 4 in. Wide	Tire 5 in. Wide	Tire 6 in. Wide	Av. Weight per wheel

Shipped from factory in Western Illinois.

Easy Running—Low Priced

No repairs. Outwear wooden wheels. Especially for farm use and soft ground. Hubs cast to fit skeins or spindles. Spokes oval wrought steel, so securely locked in hubs that they will not come loose. Spokes vary in number, according to size of wheel. Rims are wrought steel, grooved in center to prevent wear on ends of spokes. Always made to order, according to sizes furnished. Require about 12 days for making. **Shipped from factory in Western Illinois.**

Directions for Ordering Metal Wheels

To Make Sure Your Wheels Will Fit, Read the Following

The hubs of our metal wheels are cast to fit your skeins. So it is **absolutely necessary** that we have accurate measurements to assure the wheels fitting correctly. They will be made according to your measurements, and may not be returned, except on account of our error or defect.

Fig. 1

Fig. 2

How to Measure

Using calipers is the best way to measure your skeins, but if you have none, cardboard can be used. First: Cut a slot to fit over the **shoulder** of skein at point indicated by letter "A" on diagram (Fig. 3).

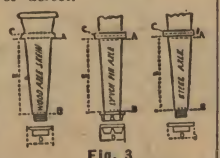

Fig. 3

Then measure the opening in cardboard (See Fig. 1). Now do the **same in taking point measurement** "B" (See Fig. 2)—**collar** measurement "C"—**nut** measurement "D." Then turn the nut tight on axle, take your rule and measure **length**—"E" from collar to nut.

$3.50 Per Set and Up — Extra Strong Wheels

Extra Strong, Wide Tread Metal Wheels have larger spokes, heavier hubs, and are stronger throughout than regular wheels. Made to fit any skein or axle. Especially good for heavy hauling, logging, etc. Extra strong wheels are made regularly with ½ in. thick tires, and are guaranteed to carry 8,000 lbs. per set. We recommend ⅝-inch thick tires for longer service, and also when brake is used. Capacity, 10,000 pounds.

Prices are for one wheel with ½ in. tire. If ⅝ in. tires are wanted, add 10% to prices. Plain tires (not grooved) will be furnished without extra charge, when so ordered. Grooved tires are stiffer, and add years of life to wheels.

Superior Trace Springs

75c Pair

No more sore shoulders. These springs have been sold for many years and are great favorites with team owners everywhere. Relieve strain on horses' shoulders when drawing heavy loads and are great help to team in starting load. Loop on one end of spring to take single tree hook and Norway iron hook on other end. **Easily fitted. Stand pull of 8,000 lbs.** before reaching full length of springs. Weight, 3 lbs. 9 oz. per pair.

92B4055—Price, per set, 4 springs for 2 horses **$1.35**
92B4056—Per pair, 2 springs for 1 horse .. **.75**

Wagon Tongue Support

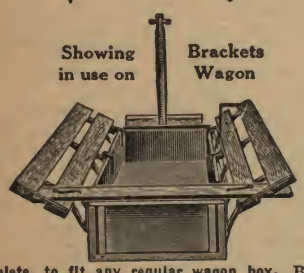
A powerful coil spring with attachment for bolting on to bolster and tongue. Tongue casting (shown in illustration), furnished on supports.

85c

92B4095—**For ordinary farm wagons.** Weight 7 lbs.
Price **85c**
92B4096—**For heavy farm wagons.** Weight, 8 lbs.
Price **98c**

Wagon Tongue Support, 88c

Made of steel and all in one piece, no extra parts. Will fit any farm wagon. Holds tongue in any position desired. Made in 2 sizes. Weight, 11½ and 15 lbs.



192B4105—¾ in. round spring steel **$0.88**
192B4106—⅞ in round spring steel **1.30**

Hay and Stock Rack Brackets

Brackets Only $5.95 per set

Brackets Sold Without Boards Only

Complete, to fit any regular wagon box. Brackets are made of malleable iron and have been tested to over 4,000 lbs. They are supplied with anti-spreader chains, which relieve box of all strain. They will fit any regular wagon box, and any width box. Six brackets to set, with chains and bolts to make up rack. Simply reversing brackets on wagon box makes rack for hauling hogs, sheep, etc. Weight, 60 pounds. Capacity, 3,500 pounds.

192B4165—Brackets only, with fixtures. Complete for making rack, weight, about 60 pounds
Price **$5.95**

Farm Wagon Box and Rack Irons

$1.40

For making wagon box, hay rack, hog rack and wood rack, and enough for all four. Best malleable iron. Strong and durable. Set consists of 8 complete brackets. Made up of 8 top pieces; 24 5/16 bolts, length 10½ in. for 2x8 side pieces; and 8 5/16 bolts to fasten hay rack. No nails need to be used. One set in box, with directions how to build. Make your own box and rack and save money. Weight, set, 15 lbs.

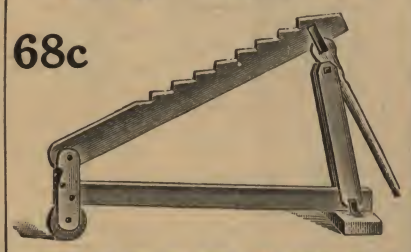
192B4220—Per set **$1.40**

You Can Put It Down That When We Say Anything is Good, It is Good. We Will Not Misrepresent Anything Knowingly

You can rely on the statements we make in our Catalogue. We say nothing we do not mean. Whatever we put into our catalogues we are prepared to stand by. Occasionally some mistake may creep in, but not knowingly. We do not purposely give you information that is not exact and accurate. We breed confidence in ourselves and our business by establishing a reputation for sticking to facts. Our Catalogue is built on a foundation of truth. You can rely on what we say; if you see it in any of our catalogues, it is so.

Standard Malleable Iron Wagon Jacks

55c

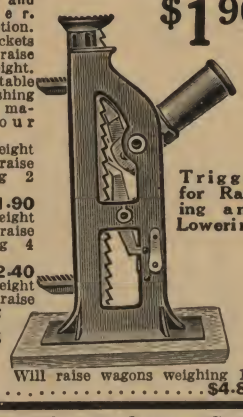


Easily adjusted to height and can be raised 2½ in. by pulling down the handle which locks after passing center. For a continuous lift, may be worked like a pump handle and raised 2½ in. at a time. To lower operation is simply reversed. Handy for raising machinery, drawing fence posts, etc. Range of lift, 24 in. Made of malleable iron and wood handle and base.

192B4025 — For vehicles weighing one ton. Wt., 5½ lbs. Price **55c**
192B4026 — For vehicles weighing two tons. Wt., 9 lbs.
Price **85c**
192B4027 — For vehicles weighing 3 tons. Wt., 13 lbs.
Price **$1.25**

"Chicago" Wagon Jack

68c



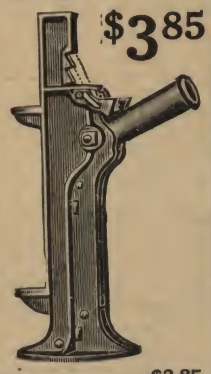
One of the best low priced Jacks made; easy to operate, self-locking, light and easy to handle. Made from hardwood with steel braces and provided with a wheel in front, making it easy to shift jacks from one place to another. Weight, 14 to 20 lbs.

192B4035—For light wagons. Price ... **$0.68**
192B4036—For heavy wagons. Price ... **.85**
192B4037—For heavy trucks. Price ... **1.10**

Combination Auto, Buggy and Wagon Jack

Most Practical Jack Made

$1.90



Great leverage and immense power. Simple in operation. Two lifting brackets on standard to raise load from any height. Heavier sizes suitable for raising threshing machines, heavy machinery, etc. Four sizes.

192B4065—Weight 9 lbs. Will raise wagons weighing 2 tons.
Price **$1.90**
192B4066—Weight 12½ lbs. Will raise wagons weighing 4 tons.
Price **$2.40**
192B4067—Weight 28 lbs. Will raise wagons weighing 8 tons.
Price... **$3.45**
192B4068—Weight, 39 lbs. Will raise wagons weighing 10 tons. Price **$4.85**

Heavy Wagon and Implement Automatic Trip Jack

$3.85

Adapted for all general work up to 10 tons. The leverage is on the same principle as a pinch-bar, one stroke of the lever raising or lowering 1 in. The weight can be raised from 2 in. above the ground to 31 in. By turning the top pawl back, the weight can be lowered notch by notch, or can be dropped instantly by pulling the lever lower. Made of six plain pieces of best grade malleable iron, with no springs or hooks to get out of order. Furnished with wood handle, length 28 inches. Weight, 30 pounds.

192B4075—Price **$3.85**

Double Bolster Springs, $3.72 to $9.15

A large stock carried on hand for immediate shipment. The finest oil tempered steel and seasoned wood used.

Never Strike, have the elasticity of a regular elliptic spring. Give distance between stakes on bolster, as we make them for both wide and narrow track wagons. A set consists of two complete springs for two bolsters, painted red. Our regular stock lengths, narrow track 38 inches, wide track 42 inches. Prices for larger sizes on application.

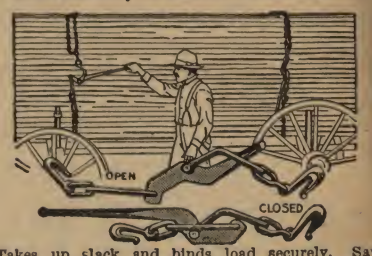
Iron Wagon Shoes

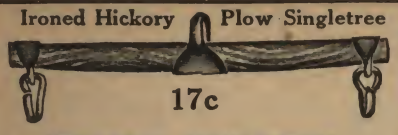


68c

This style Wagon Shoe is the most commonly used, and gives the best general satisfaction. A great many of them are in use in all parts of the country where it is more or less hilly. A great many prefer them to a brake, as a brake wears the tires, and injures the wheels considerably. By the use of a shoe any load may be easily held descending the steepest hill, without the slightest injury to wagon.

192B4200—For wagon with 1½ and 1¾ in. tires. Each **68c**
192B4201—For wagons with 2½ and 3-in. tires. Each **85c**
Shipping weights, 25 and 30 lbs.

Boomer Chain Tightener, Load Fastener, Fence Stretcher



Takes up slack and binds load securely. Saves time and accidents. Successfully binds lumber, logs, poles, pipe, hay or any load held with chain. Fits any chain up to one-half inch. Hand forged from fine tool steel. Has a spread of 24½ inches when open and contracts to 18 inches, takes up a slack of 6 inches. Used singly or in pairs. Every teamster and farmer needs a pair. Weight, 8 pounds each.

192B4240—Load fastener. Each **$1.75**

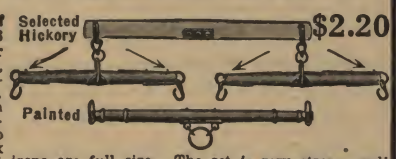
85c

192B4680—Price, per set (regular $1.25 value) **85c**

Leader Wagon Set

$1.86



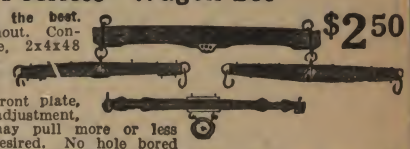
Our "Leader" Wagon set includes doubletree, singletrees and neckyoke, all made of full sized clear hickory stock. Doubletree, 2x4x48 in. Has malleable screw pin clevises. Singletrees, 2⅝x36 in. Has steel back pull hooks and ferrules. Neckyoke, 2½x40 in. Steel ferrules and center. Finished in varnish. Weight, per set, 34 lbs.

192B4690—Price, per set (usual $2.50 value) **$1.86**
192B4691—Same as above except painted red **2.06**

Strap End Wagon Doubletree Set

Set consists of Doubletree, 2x4x48 in., with center plates, ends riveted, and screw pin clevises. Neck yoke, 2⅝x40 in., with heavy rings and ferrules. Two strap end Singletrees, 2⅝x 36 in. over all. All irons are full size. The set is very strong, well finished, and painted bright red. Weight, 32 lbs.

Selected Hickory $2.20



Painted

192B4700—Price, per set **$2.20**

"Peerless" Wagon Set

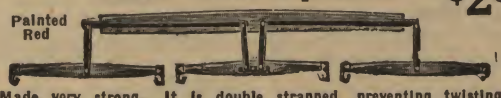
The latest and the best. Tough oak throughout. Consists of doubletree, 2x4x48 inches, with lock pin steel clevises and stay chain rings. Malleable front plate, with 3 holes for adjustment, so either horse may pull more or less of the load, as desired. No hole bored in center of doubletree. Singletrees, 2⅝x36 in., with full back strap end irons. The full back strap irons making them nearly unbreakable and serving as rub irons for wheels. Neckyoke 2⅝x40 in. Painted red and striped. Light as wood but strong as steel. Weight, 35 lbs.

$2.50

192B4710—Price, per set (usual $3.00 value) **$2.50**

$1.89 Two and Three Horse Evener

Varnished



For two or three horses. Hardwood. Has patent double strength clevises. Patented singletree center clips. Length of evener-bar, 40 in. Length of eveners, 30 in. Length of singletrees, 28 in. Weight, 30 lbs. Easily changed for two horses.

192B4720—Price, per set (regular $2.50 value) **$1.89**

Three Horse Equalizer

$2.30

Painted Red

Made very strong. It is double strapped, preventing twisting or breaking. Can be used on sulky or gang plows or harrows or any implement without tongue. Oak and steel throughout. Extreme length, 88 inches. Wood evener, length 54 in. Weight, 30 lbs.

192B4730—Price (usual $3.00 quality) **$2.30**

Four Horse Equalizer

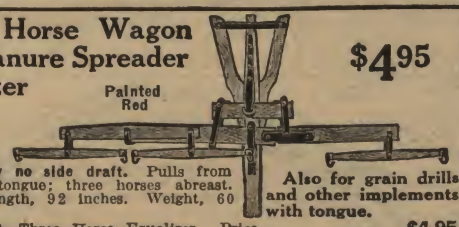
Painted Red $4.75

The only Four-Horse Equalizer without side draft. Works 4 horses abreast on sulky or gang plow with one in furrow and three on unplowed ground and all pull equally. Coupled 40 per cent shorter than any other equalizer made, therefore reduces draft more than any other. Extreme length, 115 in. Weight, 63 lbs.

192B4740—Four-Horse Equalizer. Price **$4.75**

"Boss" Four Horse Equalizer

$2.20 Painted Red



The Boss is especially made so as to distribute the strain and draught equally among four horses when attached to a binder or harvester, and is considered the best for this purpose. The material is tough hardwood thoroughly air-dried. **Can be reversed to work three horses either side of tongue.** The doubletree and clevises shown in cut are not furnished with the Equalizer. Length, 73 in. Weight, about 40 lbs.

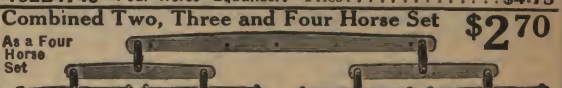
192B4750—Price **$2.20**

Three Horse Wagon and Manure Spreader Equalizer

$4.95

Painted Red

Absolutely no side draft. Pulls from center of tongue; three horses abreast. Extreme length, 92 inches. Weight, 60 pounds.



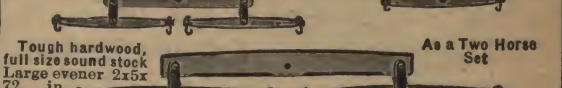
Also for grain drills and other implements with tongue.

192B4760—Three Horse Equalizer. Price **$4.95**
Also made heavier throughout for heavy hauling. Weight, 63 lbs.
192B4761—Heavy Three-Horse Equalizer. Price **$6.25**

Combined Two, Three and Four Horse Set

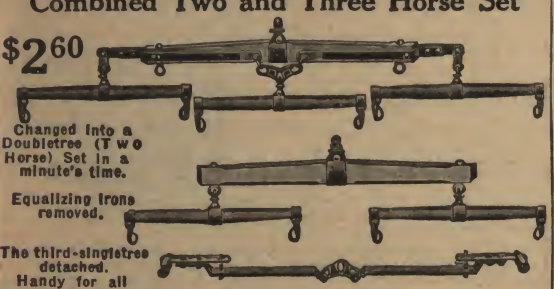
$2.70

As a Four Horse Set



As a Three Horse Set

Tough hardwood, full size sound stock Large evener 2x5x72 in. Small evener, 1¾ x 3½ x 36 in. Singletrees, 1½ x 2½ x 28 in. Ironed with steel straps and 1¼ in. malleable ferrules and steel hooks. Weight, per set, about 50 lbs.



As a Two Horse Set

192B4770—Price, complete, Four Horse Set **$2.70**

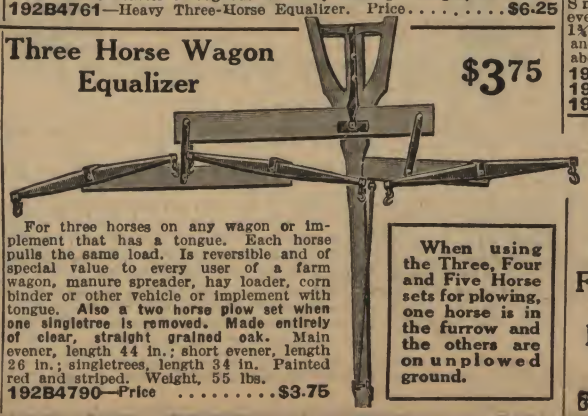
192B4772—Price, Two Horse Set only. Weight, 13 lbs.... **.75**

Combined Two and Three Horse Set

$2.60

Changed into a Doubletree (Two Horse) Set in a minute's time.

Equalizing irons removed.



The third-singletree detached. Handy for all around farm use.

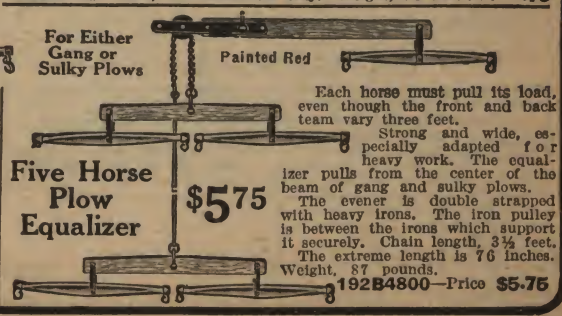
Can be easily and quickly changed to a two-horse set. Evener, 2x4x46 in. Total length, with extension irons, 56 in. Singletrees, 2¼x28 in. Weight, 33 lbs.

192B4780—Price, per set **$2.60**

Three Horse Wagon Equalizer

$3.75

For three horses on any wagon or implement that has a tongue. Each horse pulls the same load. Is reversible and of special value to every user of a farm wagon, manure spreader, hay loader, corn binder or other vehicle or implement with tongue. **Also a two horse plow set when one singletree is removed. Made entirely of clear, straight grained oak.** Main evener, length 44 in.; short evener, length 26 in.; singletrees, length 34 in. Painted red and striped. Weight, 55 lbs.



192B4790—Price **$3.75**

When using the Three, Four and Five Horse sets for plowing, one horse is in the furrow and the others are on unplowed ground.

Five Horse Plow Equalizer

$5.75

For Either Gang or Sulky Plows — Painted Red

Each horse must pull its load, even though the front and back team vary three feet.

Strong and wide, especially adapted for heavy work. The equalizer pulls from the center of the beam of gang and sulky plows.

The evener is double strapped with heavy irons. The iron pulley is between the irons which support it securely. Chain length, 3½ feet. The extreme length is 76 inches. Weight, 87 pounds.

192B4800—Price **$5.75**

You Should Buy in the Cheapest Market, the Same as Others Do

Our whole idea is to save you money; if we cannot do it, we do not expect your trade. We believe you should do your buying from us because our Catalogue is a good market for you to buy from. It is a market where everything is priced reasonably and rightly. It is made up of over 100,000 distinct and separate opportunities to secure your needs at a saving. We couldn't expect your business if we were not prepared to give you unusual service, both in values and in quality. We would not be entitled to your orders unless you were getting something more than the average for every dollar you spent here.

HARNESS AND HORSE GOODS

Prompt Service—Quality and Satisfaction Guaranteed

We Want to Please You

The constant and steady growth of our Harness Department proves that we are giving the quality that you demand. If you don't get it here, you will elsewhere. Therefore it is imperative that we offer you only the best to be had, and at prices lower than you would have to pay elsewhere.

Quality Our Motto

Every harness that we sell is made for a full sized horse. Every piece of leather and trimming used must be the right kind. Every stitch must be in the right place and there must be plenty of them. These are conditions that we make the manufacturers live up to. We absolutely refuse to sacrifice quality.

We Win Confidence

Only hastily made harness and saddlery, made of poor materials can be offered at a low price. Our harness is made of the best materials, by expert workmen who have taken ample time to produce a first-class job. Made in this manner, your harness will last longer, will give better satisfaction, and in the end, will prove much cheaper than a lower-priced inferior article. We invite the closest comparison, inspection, and study of harness values.

How to Save Money

Our goods are made in enormous quantities, by fast, perfect machinery, and expert workmen. Our cost to produce is low. We deal direct with the factories, and buy our goods at lowest prices. In many cases we control the entire output of the factories, and thus enable them to work on a smaller margin of profit. No middlemen are getting their usual share of profits which add greatly to the price, but not a bit to the quality. Our policy, strictly adhered to, is and always has been, "Quality first—price afterward."

Test Them

We want you to see our goods, inspect and compare them with others. Put them on your horses and use them, just to satisfy yourself. **We do not consider the deal closed unless we do satisfy you.**

Your Wants Are Ours

The wants of every horse owner and farmer have been considered. Every variety of modern harness and saddlery. Standard patterns of proven worth to meet all demands. A choice to suit the taste and purpose of every man. You will find many features in these pages that you will not find elsewhere.

Free Harness Dressing

With every set of single Harness we give a quart can, and with every set of Double Harness a half gallon can of our famous Circle Brand Harness Oil. The best oil on the market for preserving the life of leather and keeping your Harness in good condition. Saves you many dollars in harness and possible accidents from broken straps. Should you wish to order some of this Oil refer to index on blue pages.

Every harness user will find it a big saving, to oil his harness twice a year with our high grade harness dressing. This will prevent the stitches from rotting and the leather from drying up, cracking or becoming water-soaked. You owe yourself the few minutes it will take.

Harness to Suit You

Notice that all harness is listed without collars and hitch reins. This allows you to select any style of collar, hitch rein, etc., that you may prefer. We also quote numerous changes which you can have on any set of harness. In this way we enable you to buy a harness which will meet with your own particular idea of what you want.

Steel Tree Gig Saddle

All single buggy harness that we list (excepting numbers 95B90 and 95B95 are fitted with our Special Steel Tree Gig Saddles or buggy back bands). The old style of back band was usually the first part of a harness to wear out. Owing to the substantial way in which our Steel Tree is fitted in, proves our Gig Saddles are by far the most economical.

All through the line you will notice that, wherever we could add some improvement which is going to be of greater benefit to you, we have done so.

Our Guarantee Protects You

With all these good features our harness costs you no more than you would ordinarily have to pay for a cheaper grade. We do not expect you to keep any item which is not entirely satisfactory.

Illustrations and Descriptions

The illustrations of Harness and strap work shown, are in many instances slightly magnified in order to show details of buckles, snaps, spots, stitches, workmanship, style and finish.

The detail description following each illustration gives you exact size, widths, lengths, etc.

After reading these descriptions you can order with full assurance that there are no misstatements or exaggerated claims.

If you want something made to order, tell us what it is and we will promptly give you exact information regarding costs, etc.

Cutting Your Horses' Hair Means Cutting Your Veterinary Bills

A horse with a heavy coat of hair sweats quickly and too freely.

Horse Clipper Complete with Grinder

$8.95

The grinder, which is included with the machine, is one of the chief improvements. It can be operated with the same driving gear when placed on the machine by an attachment as seen in the illustration. A wire holder is supplied for holding the cutter properly when grinding it. This grinding plate operates in a horizontal position, which is much easier to use than the perpendicular plate. The surface is corrugated by fine hair lines and is convexed to maintain in the cutter that concave surface that makes it the most efficient cutting head. By moving the cutter back and forth across the plate it is perfectly sharpened.

Horse Clipping Head and Plates
Weight, 18 oz.
95B15
Price.....$3.50

Illustration shows accurate picture of grinder in operation, showing correct position and method of holding plates on the wheel. Read carefully full directions included with each grinder before sharpening plates.

Be sure to keep every part of machine properly oiled. This will prevent friction and possible breakage. An oil can is supplied with every machine.

195B24 — Price, Separately .. $2.00
Shipping Weight, about 12 lbs.

A hair-cut gives a horse more vim and vigor. It improves his working capacity and consequently his earning power. Clipping your horses' hair improves their appearance.

For $8.95, and a little energy, you can have your horse as clean-cut and fit for work as any horse in your neighborhood. If you own two or more horses, you will save far more than the modest cost of the clipper, by putting them in better working and driving condition. You can rent the clipper to your neighbors, and earn its cost in a very short time. The Improved Lakeside is an easy-running, durable machine. When properly operated and cared for, can be used indefinitely, without fear of breaking. Order one now. Inspect it and try it.

There is no better on the market at the price we ask. The tremendous number that we sell each season enables us to offer our Lakeside Improved Clipper to you at a price so reasonable that you cannot afford to do without one. The easy-running Horse Shearing Attachment admits of a wide range of movement. The power is transmitted from the driving gear through the flexible tube to the clipping head by means of a chain.

The Sheep Shearing Arm is simply constructed, and made to avoid the faults found in most machines. The cogs are so constructed that they are in contact, no matter what the position of the shafts at elbows. The enclosed driving rods work without noticeable friction, and should be kept well oiled.

The enclosed Driving Gears are made of the best steel. They run in oil in a removable case, and are so accurately fitted that they are almost frictionless.

The heads for both the Horse Clipping and Sheep Shearing Machines are as efficient and durable as any made. In our Improved Lakeside the manufacturers have overcome a great fault by separating the cutter from the plate, and making both slightly concave. The cutter works like the knife on a mowing machine, and seldom needs resharpening.

Sheep owners who clip their animals by hand should learn about the money, time and energy saving advantages of the Improved Lakeside. It saves you money for four reasons:

You get more and longer wool, because it shears closer than you can by hand. The wool nearest the skin is the finest; consequently you get top price for it. You cannot cut your sheep, and lose them from infection. You save more than half in shearing cost.

You can get a half-pound, and frequently two pounds more wool by machine than you can by hand. The shears go so close to the skin that even an amateur can obtain more wool with them than an expert can by hand-clipping. Any handy man, with the aid of an assistant to turn the machine, will soon become expert.

The shearing plates easily pass through the thickest and dirtiest wool, and work without vibration. Even if you have only a few sheep, you can readily understand that the Improved Lakeside will mean an immediate and lasting increase of profit. To stock men, sheep shearers and ranch owners who have large flocks of sheep, or 25 or more head of horses, we recommend our **Lakeside Power Shearing Machines. Ask for our special Catalogue describing it.**

The tripod piece and the 2-piece upright are well made of metal throughout and have a good appearance; height, 42 inches set up, and comes complete with one set of knives.

195B10—Improved Lakeside Horse Clipping Machine, complete with grinder. Shipping weight, 50 lbs. Price, each **$8.95**

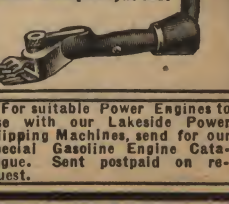
195B24—Price of Grinder only, packed and shipped separately (shipping weight, 12 lbs.).....**$2.00**

Complete instructions for setting up, ready for use, included with each machine.

Sheep Shearing Machine Complete with Grinder

$11.20



For the benefit of customers who prefer having plates resharpened at our factory. Instead of purchasing the grinder illustrated, or who for any reason whatever cannot properly sharpen the plates, send them to us by mail. Packed securely against breakage, and we will do the work at a minimum cost of comb and cutter for sheep shear, per set, 25c; horse clipper, per set, 50c. Be sure to include the necessary return shipping charges.

Sheep Shearing Attachment with 4 Combs and 4 Cutters

$7.75

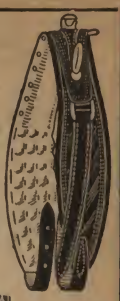
Weight, Boxed Complete, 15 lbs.

For suitable Power Engines to use with our Lakeside Power Clipping Machines, send for our special Gasoline Engine Catalogue. Sent postpaid on request.

Latigoe-Lined Single Strap Harness

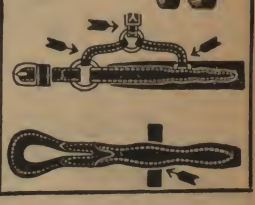
$16.98

95B50



An Extra Strong Harness Made Especially for Hard Usage

CUT FROM FIRST CLASS, WELL TANNED HARNESS LEATHER, reinforced with latigoe rawhide (Indian tanned) leather tanned especially for Montgomery Ward & Co. THE LATIGOE LEATHER USED IN THIS HARNESS IS NOT THE IMITATION OR CHEAP KIND, but is tanned in a careful manner from especially selected hides. THIS LEATHER HAS VERY STRONG fiber, is very pliable, does not need oil and is extremely strong. It has been proven by actual test to be 40 per cent stronger than harness leather.



All parts of this harness that are subject to extra strain and wear are reinforced with this especially tanned stock, making a harness that is exceptionally strong and cannot be beat for wearing quality. If you have not already used one of our latigoe harnesses buy one and be convinced that there is none better in the harness family; it is reinforced where the arrows point on the large and small illustrations.

BRIDLE, ⅝ in. box loops, patent leather blinds, round winker stay, five buckle overcheck with nose band, leather front, and rosettes; LINES, 1 in. spring billets, 1⅛ in. hand parts, length 13 feet, extra heavy; SADDLE, swell pad with beaded edge housing, unbreakable steel tree. Metal bearer loop, heavy bearers lined with latigoe. (See full description of our special steel tree saddle as described under 95B6209.) BELLYBAND, single strap, Griffith style with heavy straps to wrap around shafts, SHAFT TUGS, 1 in. with box loop. BREAST COLLAR, extra wide single strap. V-shaped with neck strap tugs reinforced with latigoe rawhide; NECK STRAP, scalloped point; TRACES, 1¼ in. extra heavy single strap sewed to breast collar, scalloped and raised points, heel of traces reinforced with extra heavy latigoe rawhide; BREECHING, 1¾ in. heavy single strap scalloped, points reinforced with latigoe rawhide; SIDE STRAPS, ⅞ in.; BACK STRAPS, ⅞ in. scalloped, heavy round crupper sewed on, reinforced with latigoe rawhide where hip-strap passes through; HIP STRAP, ¾ in., cut from heavy stock. Made suitable for average horses weighing up to 1,300 lbs. Weight, boxed for shipment, about 25 lbs.

Laced Saddle

Arrows Indicate Latigoe Lining

Leading Styles in Single Strap Buggy Harness

"Monarch" Single Strap Buggy Harness

$16.75

95B105

Special Features Are Round Loop Neck and Hip Straps and Round Loop Open Bridle

Constructed to meet the demand for a high grade Buggy Harness at a popular price. Is neat, stylish and serviceable throughout, and a decided improvement over other styles. Round neck and hip straps slide through the loops and readily adjust themselves to the horse. Extra wide single strap neck strap, has 1-inch layer and Jug Eye line rings. **BRIDLES,** ½-inch, double round cheeks, loop through crown extension. Has 3-buckle interchangeable overcheck, with nose band. Double and stitched front. Double and stitched layer on crown. **BREAST COLLAR, extra wide "V" shaped.** Made of select bark tanned leather. Box loop lead-ups. Round forks on neck strap to slide through loops. **TRACES,** 1¼-inches wide. Single strap, with neat scalloped fronts stitched to breast collar. Double and stitched at rear ends. Has 3 dart holes. **BREECHING,** 1⅝ inches. Has scalloped and stitched points. Wide single strap hip strap, with scalloped layer point on each side. Round hip strap forks, to slide through loops. Has ⅞-inch turn back with stuffed crupper sewed on. **SIDE STRAPS,** ⅞-inch. Smooth, round edge finish. **SADDLE,** 3 inches. Has swell leather bottom. Patent leather jockey. Extra heavy, single strap, harness-leather skirts. Double and stitched swinging shaft bearers. Bellybands, Griffith style. Single strap, with long wrap strap. **LINES,** ⅞-inch fronts. With spring billets. 1⅛-inch hand parts, length 13 feet. Furnished with either nickel, brass or imitation rubber trimming. This particular harness is exceptional in finish and workmanship; much better than the average at the price. Made from carefully selected bark tanned leather; cut from A-1 stock. Strong and substantial. **Suitable for horses weighing up to 1,300 pounds.** Weight, boxed for shipment, about 30 pounds.

95B105—Nickel trimmed. Price, less hitch rein. Per set **$16.75**

95B106—Imitation Rubber trimmed. Price, less hitch rein. Per set **$16.75**

Our Peerless Model, Light Driving Harness

Leather used in this Harness Bark Tanned, cut from No. 1 Selected Packer's Steer Hides

$16.95

95B125

Latest Cut, Fine Stitching. A Custom Made Harness

If you are looking for a stylish harness, one that will set off your horses to advantage—give you excellent service, and one you will be proud to show your friends, this is the set for you to buy. Can be used with any buggy but is particularly adapted to light runabouts. Easily worth $20.00 to $25.00.

Notice the long, tapered points used in this harness throughout. You will find them on **Breast Collar, Traces, Breeching, Turn Back and Line Laps.** All straps smooth-edge finish, and the last word in **up-to-the-minute workmanship and style.**

BRIDLE—½-in. box loop, patent leather, three-row stitched, half track blinds, round winker stay, layer on crown; overcheck fork, ⅞-in. tapered to ¾-in. in rear, with ⅜-in. fancy scalloped split; swell shaped noseband, double and stitched front; neat pattern rosettes. **LINES,** ⅞-in fronts; Spring billets, 1⅛-in. hand parts, length 13 feet. Laps made with long, tapered points. **SADDLE,** flexible, 2½-in. single strap, Half K style pad, with chrome leather lining, fancy stitched patent leather jockey, and our **Special Steel Tree. BELLYBANDS,** Griffith style, ¾-in. wrap strap, to wrap around shafts. **SHAFT TUGS,** ⅞-in. fancy box loops; finely stitched, neatly raised style, top and bottom. **BREAST COLLAR,** 2¼-in., neat V-shaped, cut from fine stock, and strictly hand finished. **TRACES,** body 1⅛-in., single strap. Long, finely-tapered points, 9 and 10 stitches to the inch, raised layer on outside, three dart holes, as shown in illustration; raised long-tapered trace points, stitched to breast collar. **NECK STRAP,** 1⅛-in., tapered to ½-inch. Reverse buckle and slide loops on both sides. Dees latigoed into breast collar. Smoothly finished, to prevent lines from catching on neck strap. **BREECHING,** 1½-in., scalloped long, tapered, raised points; body, single strap, extended, forming safe under breeching ring. **SIDE STRAP,** ¾-in. **BACK STRAP,** ¾-in, fronts tapered. Long points finely stitched to ½-in split crupper forks. Heavy, round, long point crupper, sewed on. **HIP STRAPS,** ½-in., one side stitched to breeching ring and the other side reversed, buckle and slide loops to breeching stay ring. Breeching stays neatly shaped, sewed and finely finished. A job we are proud of, an exceptional value at the price we ask. Made suitable for average horses weighing up to 1,300 pounds. Weight, boxed for shipment, 23 pounds.

95B125—Brass trimmed. Price, less hitch rein, per set **$16.95**

95B126—Genuine rubber trimmed. Price, less hitch rein, per set **$18.95**

For line rings in neck strap, add ..... **.40**

For beaded lines, russet or black, add .. **2.00**

For russet hand part lines in place of black, add **35c**

For lace saddle in place of single strap, furnished at same price.

Open bridle, our 95B5222 or 95B5223, in place of blind bridle, furnished at same price.

Extra Heavy and Large Harness

$17.95

95B110

For Large Horses up to 1400 lbs.

BRIDLE, ¾-inch box loop cheeks, fine patent leather blinds, round winker stays, double and stitched solid leather front, overcheck with noseband, layer on crown, neat rosettes; **LINES,** 1-inch fronts with spring billets, 1⅛-inch hand parts, length 13 feet, heavy. **SADDLE,** 3-inch heavy swell pad with beaded edge housings, leather bound, fancy stitched patent leather jockey, heavy single strap skirts. **Latigoe rawhide lined bearers with metal dee** and heavy metal loop, allowing free movement of bearers and preventing bearers from pulling out; heavy swedge terrets and button check hook, pad screws; made on our **Special Steel Tree; BELLYBAND,** Griffith Style with heavy wrap straps to wrap around shafts, **SHAFT TUGS,** 1-in. heavy, with box loops; **BREAST COLLAR,** 3¼-in. wide, V-shaped extra heavy single strap with box loop lead-ups for neck strap, reinforced with **Latigoe rawhide; NECK STRAP,** heavy; **TRACES,** 1⅝-inch, extra heavy single strap with scalloped and raised points stitched to Breast Collar, lined and stitched heel; **BREECHING,** 1⅞-inch extra heavy single strap with scalloped and raised layer, three ring stay with box loop lead-ups for hip strap, reinforced with **Latigoe rawhide; SIDE STRAPS,** 1-inch, heavy; **BACK STRAP,** 1-inch, heavy, round crupper sewed on; **HIP STRAP,** ¾-inch, heavy. 95B110—Nickel trimmed, less hitch rein. Per set **$17.95**

95B111—Brass trimmed, less hitch rein. Price per set **17.95**

Our "Ajax" One-Piece Stay Harness

Note Our Special 1-Piece Reinforced Stays where arrows point

$14.95

95B120

A crackerjack harness with us this year which has as special features one-piece stays. Dees firmly reinforced with Latigoe leather on breeching and breast collar. You will find these improvements strengthen the harness greatly and make a very neat appearance. **They are far less liable to pull out than the old style, being made in the following manner:**

The stay proper is cut from one piece of selected stock harness leather, doubled and stitched, continuous from end to end. Upper portion of the stay forms a firm, clean, safe fixture with box loops attached for neck and hip straps to pass through. Dees lined with latigoe between trace layer and breast collar.

This style eliminates the stay-ring entirely, and is a very decided improvement over the ordinary common stays used. The set throughout is first-class in grade of stock used as well as workmanship. It is a typical harness for everyday road use, and one that you would have to pay at least $17.00 for at retail without the special reinforced stays and special steel tree saddle we give you.

BRIDLE—⅝-in box loops; patent leather blinds; round winker stay; layer on crown; overcheck with noseband; **LINES,** ⅞-in. fronts; spring billets; 1⅛-in. hand parts, length 13 feet; **SADDLE,** 3-in. single strap. **Our special steel tree.** Heavy pad, with full sewed bottom and Dee bearer; **BELLYBAND,** Griffith style, with long billets for shafts. **SHAFT TUGS,** 1-in. with box loops. **BREAST COLLAR,** V-shaped, extra heavy, and wide, with ¾-in. box loop lead-ups and our new continuous reinforced breast collar, stay, lead-ups and safe in one piece; double and stitched, extra heavy and strong. **NECK STRAP,** 1⅛-in. tapered point. **TRACES,** 1¼-in. scalloped and raised long point, stitched to breast collar. **BREECHING,** 1⅝-in. bodies, raised long scalloped point, with continuous reinforced breeching stay, lead-up and stay, in one piece, as described above. **SIDE STRAP,** ⅞-in. **BACK STRAP,** ⅞-in., scalloped round crupper, sewed on. **HIP STRAP,** ¾-in., made suitable for average horses weighing up to 1,300 pounds. Weight, boxed for shipment, about 25 pounds.

95B120—Nickel trimmed. Price, less hitch rein. Per set **$14.95**

95B121—Imitation rubber trimmed. Price, less hitch rein. Per set **$14.95**

95B122—Brass trimmed. Price, less hitch rein. Per set **$14.95**

"Premier Special" Utility Single Strap Buggy Harness

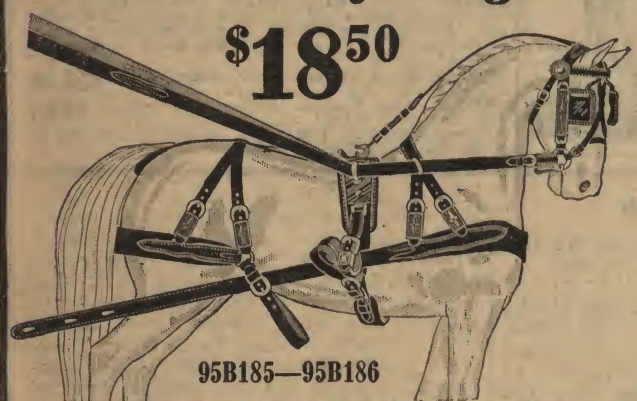
$16.75

A Harness of Class and Style as well as Serviceability

95B175—95B176

Note the **Special Features**—line ring attachment in the neck strap, and also in the hip strap. This feature alone makes the harness far more attractive in appearance, and also gives you just what you desire for keeping lines in proper position and out of the way of the horse's tail. These special parts are made of **solid brass.** Note also that the set throughout is full **brass or nickel trimmed,** with **neat half-side swedge buckles.** Either finish set off the harness to advantage. We have spent special effort in building this particular set to give you a harness of excellent grade, as well as attractive appearance.

The grade of leather used in the set throughout is A-1 in quality.



If you want something out of the ordinary that will give your horses a classy appearance and one that you will be proud to show your friends, buy this set. Read the detailed description carefully and note the value we are offering you. **BRIDLE,** ⅝-inch box loops; patent leather blinds; round winker stay; double and stitched front; layer on crown, fancy rosettes; Over-Check with nose band. **LINES,** ⅞-inch, spring billets; 1½-inch hand parts, length, 13 feet. **SADDLE, Flexible Steel Tree,** 3-inch, single strap, swell patent leather jockey, long beaded edge housings; harness leather skirts, heavy, Dee bearer with metal loop; leather bottom sewed pad. **BELLY BANDS,** Griffith style, with long billets; ⅞-inch wrap straps for shafts. **SHAFT TUGS,** 1-inch, with box loops. **BREAST COLLAR,** V-shaped, extra heavy and wide. **TRACES,** 1¼-inch scalloped, and raised long point, with box loop lead-ups, stitched to breast collar. **BREECHING,** 1⅝-inch, raised long scalloped point, with box-loop lead ups. **SIDE STRAPS,** ⅞-inch. **BACK STRAPS,** ⅞-inch, scalloped **round cruppers, sewed on. NECK STRAPS,** ⅝-inch, sewed into special combination line ring and Dee. **NECK PIECE,** folded with layer, sewed into ring where arrows point. **HIP STRAPS,** ⅝-inch, sewed into special combination line support, and ring with ¾-inch double and stitched **connecting hip strap,** through back strap from ring to ring. Made suitable for average horses weighing up to 1,300 pounds. Weight, boxed for shipment, about 30 pounds.

95B2009—Concord hook hames (see hame page) add **$1.10**

Extra Heavy Chain Harness

The value of this style of harness is well understood by those using it. It fills the demand for a harness for general farm use which will withstand hard usage, and which does not cost a great amount of money. This style we offer here is an unusually good value for the money. Made well from good leather, chains and hardware. By selling large quantities we can make the exceptionally low price of $30.45. Read the description carefully; see the length of the trace piping, which is 42 inches, and other features.

We will allow you to use this harness 30 DAYS and if the trial does not prove to you that it is a good value, you may return it and we will refund your money; also pay the freight both ways.

Bridles, ⅞ inch short cheek, sensible blinds, round winker braces, double and stitched fronts with spots, spotted nose bands, flat side checks, large nickel rosettes. **Lines,** 1⅛ inch, length, 20 feet, buckle and billet ends with snaps. **Breast Straps,** 1¾ inch with roller snap. **Martingales,** 1¾ inch, with ring in bellyband loop. **Hames,** steel bound Concord hook, style 95B2009 (see hame page). **Hame Straps,** 1 inch. **Trace Chains,** length, 7 feet, 8 links to the foot, made from heavy 5/16 inch iron. **Chain Piping,** length, 42 inches. **Bellybands,** 1½ inch, single strap, buckle on one side. **Back Straps,** 1 inch, double, running to rings in hames. **Hip Straps,** 1 inch double. **Breeching,** heavy folded, with layer. **Lazy Straps,** 4 inch. Side Straps, ⅞ inch, to snap into martingale ring. **Mountings,** XC metal (white), made suitable for horses weighing up to 1,500 pounds. Weight, boxed for shipment, about 85 pounds.

95B1057

This is the same harness that we have been selling for years. If your neighbor has one, ask him about it, and he will tell you that it is the best harness he ever bought for the money. We have decided that it does not pay to list a cheaper harness of this style, simply to make an attractive price, as it does not give the customer satisfaction. Our improved process of manufacturing and increased sales, make it possible for us to sell an excellent harness at these prices. We are convinced it will please you at the price. This is one of the greatest values we ever offered for a low priced, reliable Team Harness of this style.

Bridles, ¾ inch, with round side checks and gags, round winker stays, sensible blinds, long cheeks with noseband. **Hames,** black iron over top. **Spread Straps,** ⅞ inch. **Traces,** 1½ inches; length, 6 feet, doubled and stitched, clip cockeyes. **Pads,** full leather, hook and terret, with metal dee and adjustable market straps. **Back straps,** 1 inch. **Hip Straps,** 1 inch. **Lines,** 1 inch; length, 18 feet, with snaps. **Breast Straps,** 1½ inches, with slides and snaps. **Martingales,** 1½ inches. **Bellybands,** folded, 1¼ inch buckles. **Mountings,** XC metal (white). Weight, boxed for shipment, about 65 pounds.

These styles also supplied with Low Top Hames, or Open Bridles at same price.

Adjustable Pad Slip Tug Harness

$31.75 Without Collars and Hitch Reins

Average Retail Value, $37.00

Adjustable farm harness cut from good stock, and a first class set in every respect. Have given satisfaction to purchasers. The back bands have adjustable skirts, with which you can control the traces to prevent them from pulling too high or two low. This is a feature appreciated by horsemen who like a back band harness. Always neat, and can be adjusted to fit like a glove. **Bridles,** ¾ inch, short cheek, harness leather, Concord winkers, flat nose band, round winker braces and side checks. Spotted leather fronts and large oval rosettes. **Lines,** 1 inch by 18 feet, with safety reverse buckles, with nubia and brass finish; standard snaps. **Breast Straps,** 1½ inch double, with loops, snaps and slides. **Martingales,** 1½ inch. **Collar Straps,** ⅞ inch. **Hames,** black clip iron over top XC metal (white) trimmed, quoted as style 95B2022 (see hame page). **Hame Tugs,** 1½ inch, solid double and stitched, two-loop, with scalloped safes and Champion trace buckles. **Traces,** 1½ inch, double and stitched, with clip cockeyes, length, 6 feet 6 inches. **Pads,** turtle-back, hook and terret style, with dee ends; 1¼ inch adjustable skirts, with extra long, heavily reinforced loops, where traces pass through. **Bellybands,** folded, 1¼ inch buckles. **Back Straps,** 1 inch, with trace carrier sewed on, cruppers to buckle. **Hip Straps,** 1 inch, sewed in trace carrier with fancy spots, and wide trace loops. Made to fit horses weighing up to 1,350 pounds. XC metal (white) mountings. Weight, boxed for shipment, about 70 pounds.

PRICES

95B1127—Price, without collars and hitch reins. Per set **$31.75**

Moeller Adjustable Tug Pad Harness

We have sold thousands of sets of this Harness with unvarying satisfaction to the user. "There's a Reason!" Quality and workmanship—popular price. Note adjustable trace feature.

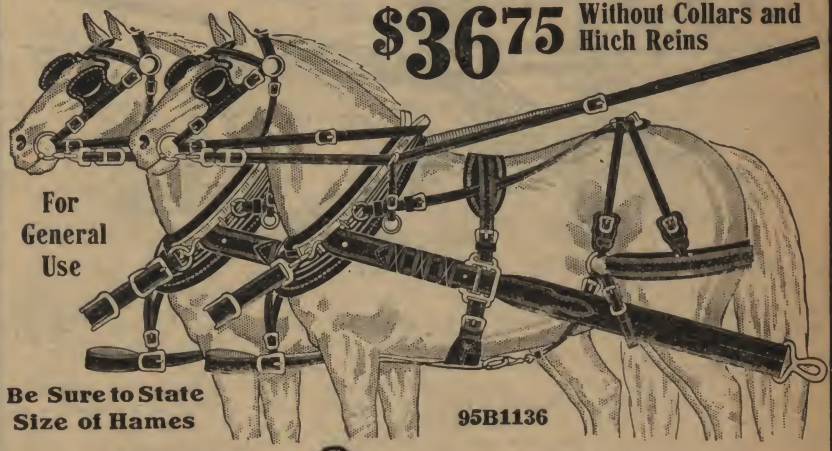
$31.75

The Quick Shift Harness is made with **Moeller Patent Hame Tug,** a very desirable feature when it becomes necessary to change length of traces, as it can be done quickly; no annoying delays, no trying to get buckle tongue out of trace, no loops to tear out of Hame Tugs; no ends dangling; always neat in appearance. This harness has also the patent Cooper Jointed Trace Attachment, allowing a free movement of the traces in all directions, eliminating possibility of traces ripping or breaking at Hames. **Bridles,** ¾ inch, short cheek with nose bands, round checks and winker braces. Spotted fronts and rosettes. **Lines,** 1 inch, length, 18 feet, with snaps. **Breast Straps,** 1½ inch, double with slides. **Martingales,** 1½ inch; ⅞ inch collar straps. **Hames,** red, ball top bolt, quoted ast style 95B2030 (see Hame page). **Hame Tugs,** Moeller Hame Tug Plates, with Cooper's Concord Bolt Clips; 1¼ inch Bellyband Billets. **Traces,** 1½ inch, double and stitched, clip cockeyes. **Pads,** flat, with pinked edge, felt lined and 1¼ inch Billets, drop hook and terrets. **Bellybands,** folded, 1¼ inch buckles. **Back Straps,** 1 inch. **Hip Straps,** 1 inch, with fancy spots. **Lug Straps,** 1¾ inch. **Spread Straps,** ⅝ inch.

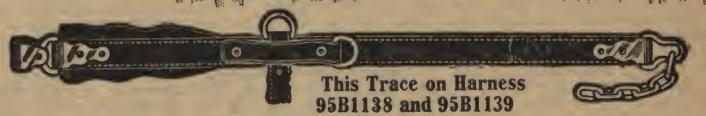
This harness made up with XC metal (white) or Japanned (black) mountings; trimmed hames, suitable for horses weighing up to 1,350 pounds. Weight, boxed for shipment, about 75 pounds.

95B1117—Harness with XC metal (white) buckles and nickel trimmed bridles and hames with 1½ inch traces. Price, without collars and hitch reins, per set **$31.75**
95B1118—Same harness as 95B1117, with 1¾ inch traces. Price, without collars and hitch reins. Per set **$33.25**

95B1119—Harness with Japanned (black) buckles and brass trimmed bridles and hames, with 1½ inch traces. Price, without collars and hitch reins, per set **$31.75**
95B1120—Same harness as 95B1119, with 1¾ inch traces. Price, without collars and hitch reins, per set **$33.25**



EXTRA LARGE HARNESS



95B1121—Same harness as 95B1119, made extra large for horses weighing up to 1,600 pounds, with 1¾ inch traces, hames brass ball, quoted as style 95B2046 (see hame page). Lines, 1 inch by 20 feet. Price, without collars or hitch reins, per set **$36.75**

Cooper Jointed Clip Harness

$40.75 Without Collars and Hitch Reins

Retail Value as High as $47.00

Suitable for Horses Weighing Up to 1350 Lbs.

Free Movement of Traces in all Directions Possible

95B1000

Our C. J. C. Farm Harness. This is a high grade harness, made strong and durable, cut from the best tanned leather. Has the Patent Cooper Clip attachments (as shown in illustration), eliminating possibility of traces ripping or breaking at hames, and allowing a free movement of the traces in all directions. The joint in the Cooper Clips allows an even pressure on the collars, regardless of the position of the traces when horses are pulling. Note the ring in the hip straps. This is a feature worthy of consideration, as a hip strap made in this manner fits the horse nicely; and should you have an accident, can be repaired easily. **Bridles,** ¾ inch, box loop, short cheek, brass spotted nosebands, round winker braces, sensible blinds, short flat checks to check over hames, brass spotted fronts; brass rosettes. **Lines,** 1 inch, length 18 feet, with snaps. **Breast Straps,** 1½ inch, with snaps and slides. **Martingales,** 1½ inch collar straps. **Hames,** Iron Clad, red, brass ball, illustrated as style 95B2046 (see hame page). **Hame Straps,** 1 inch. **Traces,** 1½ inch, length 6 feet, double and stitched, fastened to hames with Cooper's jointed clips, six link heel chains sewed on. **Bellybands,** folded, 1¼ inch buckles. **Breeching,** folded, 1¼ inch layers. **Back Straps,** 1 inch, double, running to rings in hames. **Hip Straps,** 1 inch, three-ring style, double with brass spots, and brass buckle shields. **Side Straps,** ⅞ inch, with snaps. Made up with brass trimmings and Japanned (black) buckles. Suitable for horses weighing up to 1,500 pounds. Weight, boxed for shipment, about 75 pounds.

95B1000—Price, without collars and hitch reins, per set.....**$40.75**

95B1001—Same style with 1¾ inch traces. Price, without collars and hitch reins, per set.....**$42.50**

For ⅞ inch Short Cheek Bridle in place of ¾ inch, add.....**50c**

For ¾ inch Long Cheek Bridle, same style as shown in 95B1182 Harness (opposite), furnished in place of short cheek at same price.

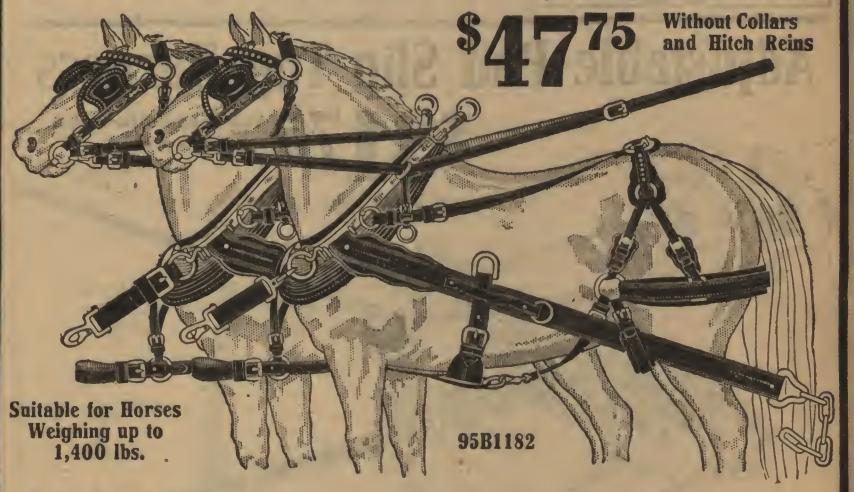
For 3 inch, single strap, all harness leather pads, full brass, spotted with three loops for crotch or extended back straps to pass through, 1¼ inch billets, roller buckles and loops, as shown in small illustration accompanying this harness, add, per pair.....**$2.75**



For 1½ inch side backers, with ⅞ inch lead-up straps, single strap throughout, Japanned (black) trimmed, Conway reverse buckles and Standard Snaps, as shown in separate illustration accompanying this harness, in place of side straps and martingales, add, per set.....**$2.50**

Our special Monarch Steel Hames, Japanned (black) trimmed, back strap and line rings with combination, loop and 2 inch brass ball tops, in place of regular hames furnished with this harness if desired, at same price.

Samson Lumber, Truck or Heavy Farm Harness

$47.75 Without Collars and Hitch Reins

Suitable for Horses Weighing up to 1,400 lbs.

95B1182

Samson Truck or Heavy Farm Harness embodies all the strength that the name implies. This harness is especially adapted for heavy work. All straps are cut out of extra heavy stock; the traces are of the best three-ply leather with heavy chains sewed in; built throughout for hard usage. If you have a team of good pullers, buy this harness; it will hold them. **Bridles,** ⅞ inch with harness leather Concord winkers and round winker braces, short flat side checks to check over hames; spotted fronts, rosettes, and spotted face pieces, Japanned (black) ring bits. **Lines,** 1 inch, length 18 feet, with snaps. **Breast Straps,** 1¾ inch with roller breast strap snaps. **Martingales,** 1¾ inch with 1 inch collar straps. **Hames,** red bolt with brass, dandy balls, illustrated as style 95B2046. (See hame page.) **Spreader Straps,** ¾ inch. **Hame Straps,** 1 inch. **Traces,** 1½ inch, length 6 feet, short, safe, double and stitched with six link heel chains. **Bellybands,** folded, 1¼ inch buckles. **Back Straps,** double, 1 inch running to hames. **Hip Straps,** 1 inch, double three ring style, sewed in ring on rump. **Breeching,** folded, with 1¼ inch layer, and 1 inch stays with safes. **Side Straps,** 1 inch, running under horse to snap into Martingales. **Lazy Straps,** ⅞ inch. **Mountings,** Japanned (black), and brass. Made strong and substantial from the best tanned leather. Made to fit horses weighing up to 1,400 pounds. Weight, boxed for shipment, about 85 pounds.

95B1182—Price, without collars and hitch reins. Per set.....**$47.75**

95B1183—Same style as 95B1182, with 1¾ inch traces. Price, without collars and hitch reins, per set.....**$49.50**

LUMBER HARNESS

95B1184—Same harness as 95B1183, with the following changes: It has **Lumber Traces,** 1¾ inches, length 4 feet 10 inches, heavy, double and stitched three rows with heavy hooks, dees and 3-foot stage chains on butt, made for bolt hames. **Hames,** No. 6 Oiled Concord bolt, illustrated as style 95B2052 (see hame page). Price, less collars and hitch reins, per set.....**$49.75**

Short Cheek Bridles, same style as shown in 95B1000 Harness, furnished at same price.

For Round Side Checks, add.....**$1.50**

For Center Check Straps, as in small illustration, with 95B1065 harness, running from ring on rump to check rein to check horses up, add.....**75c**

For Collar prices, see collar page. (Be Sure to State Size When Ordering.)

For 1½ inch side backers, with ⅞ inch lead-up straps, single strap throughout, Japanned (black) trimmed, Conway reverse buckles and Standard Snaps, as shown in separate illustration with 95B1000 Harness, in place of side straps and martingales, add per set.....**$2.00**

Our Special Monarch Steel Hames, Japanned (black) trimmed, back strap and line rings, with combination, loop and 2 inch brass ball tops (see small illustration), in place of regular hames furnished with the harness, if desired, at same price.

The Bull's Eye Engine develops 15 per cent extra power continuously

Competition Back Band Team Harness

$22.50 Without Collars or Hitch Reins

A Good $27.00 Value

Be sure to state size of Hames

95B1190

Constructed to meet the demand for a low priced Team Harness which will give satisfactory service

Suitable for horses weighing up to 1250 lbs.

In this harness we feel that we are presenting an unequaled value. Rivets have been used wherever practicable, sewing only such parts as are subject to hard wear and great strain. By this method we have reduced the labor cost very materially, but have not in any way impaired the wearing qualities of this harness, and we are enabled to offer it at an unusually low price. We have given special attention to the Traces, Hame Tugs and other parts that are subject to hard wear and these parts will stand as hard service as many harnesses that sell at considerably higher prices. Bar buckles throughout. **No Changes.** Do not ask us to make changes in this style as we contract for large quantities made just this way, by so doing we can make this low price. The factory cannot make changes on this style, without a considerable increase in cost and the low price we offer this set for is possible solely because of the fact that this harness is made up complete on a large quantity basis in order to obtain a rock bottom price.

Bridle, ¾ in. cheeks, sensible blinds, flat winker braces, flat side checks, with gags, XC metal (white) ring bit. **Lines,** ⅞ in., length, 18 feet, with snaps riveted on. **Breast Straps,** 1½ inch, riveted, with snaps and slides. **Martingales,** 1½ inch, bar buckle riveted. **Hames,** iron over top, clip. **Hame Straps,** ⅞ inch, iron loop. **Hame Tugs,** 1½ inch, double and stitched, iron loops, with 3 loop Champion trace buckles; 1¼ inch bellyband billets. **Traces,** 1½ inch, length, 6 feet, double and stitched, with clip cockeyes. **Pads,** flat, shaped with 1¼ inch layers and billets, check hook for side checks, no line terrets. **Bellybands,** 1¼ inch single straps. **Back Strap,** ⅞ inch, with metal trace carrier riveted on, folded cruppers to buckle. **Hip Straps,** ⅞ inch, riveted to trace carrier, with ⅞ inch lug straps. **Mountings,** XC metal (white); made suitable for horses weighing up to 1,250 pounds. Weight, boxed for shipment, about 65 pounds.

95B1190—Price, without collars and hitch reins. Per set **$22.50**

Fancy Brass-Trimmed Truck Harness

$47.85 Without Collars or Hitch Reins

Good Value at $50.00 to $55.00

Be sure to state size of Hames

95B1196

A very attractive harness, well made from the best selected leather, handsomely trimmed, and of good weight stock throughout

Suitable for horses weighing up to 1500 lbs.

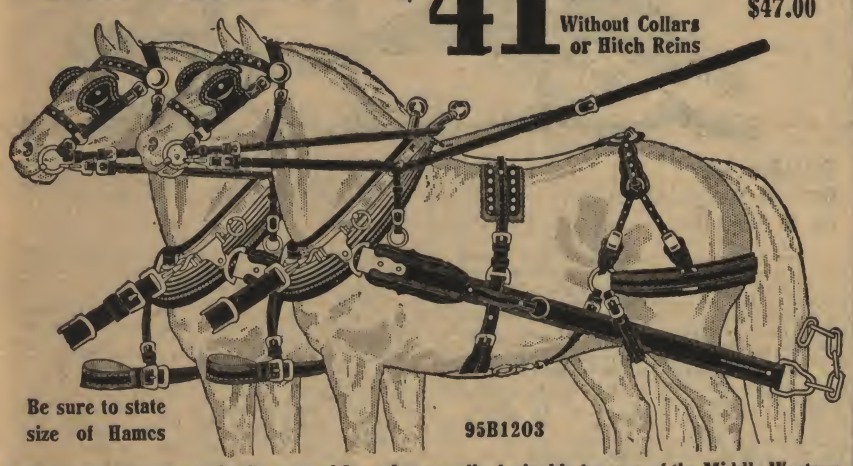
Bridles, ¾ inch short round checks to check over hames with Brass Gag Runners, round winker stays, wide front with rows of brass spots, nosebands with brass spots, sensible blinds. **Lines,** 1 inch; length, 18 feet, with snaps. **Breast Straps,** 1½ inch, with snaps and slides. **Martingales,** 1½ inch, with ⅞ inch collar straps. **Hames,** Dandy Red Bolt Brass trimmed, illustrated as style 95B2037. **Hame Straps,** ⅞ inch. **Traces,** 1½ inch; length, 6 feet double and stitched, six link Dee heel chains. **Pads,** flat harness leather; leather lined, four rows of brass spots, 1¼ inch layers. **Bellybands,** folded, 1¼ inch buckles. **Back Straps,** 1½ inch single strap running from ring on rump to hame strap. **Hip Straps,** ⅞ inch, sewed in brass ornaments. **Breeching,** folded, 1 inch layer. **Side Straps,** ⅞ inch with snaps. **Tug Straps,** ⅞ inch. **Mountings,** Japanned (black) buckles. Brass trimmed hames and brass buckle shields. Made in one standard size for horses weighing up to 1,500 pounds. Weight, boxed for shipment, about 80 pounds.

95B1196—Price, with 1½ inch Traces without Collars and Hitch Reins. Per set **$47.85**

95B1197—Same style with 1¾ inch Traces. Price, without Collars and Hitch Reins. Per set **$49.75**

Price, for two Hitch Reins, with brass spots on each end, add **$1.25**

For prices on Horse Collars, see Collar page.



Our special Monarch Tubular Steel hames, bolt style, instead of regular hames, quoted with this harness (as shown in special illustration with 95B1210 harness below), furnished at same price, if desired.

For our special 1½ inch Single Strap Side Backers, with ⅞ inch lead-up straps to hames, Conway reverse buckles and Standard snaps, Japanned (black) trimmed throughout (see large illustration with 95B1210 harness), in place of Martingales and side straps listed with this harness, add per set **$2.50**

Iowa Extended Back Strap Farm Harness

$41.50 Without Collars or Hitch Reins

Value $47.00

Be sure to state size of Hames

95B1203

A Harness very popular in the state of Iowa but equally desirable for any of the Middle Western States. For general all around use—trucking, hauling or plowing. A set that ordinarily sells in this particular section at prices considerably higher than here offered.

Suitable for horses weighing up to 1500 lbs.

This is a high-grade harness made strong and durable, cut from the best of Oak Tanned Leather. Has the Patent Cooper Clip attachments, eliminating possibility of Traces ripping or breaking at Hames and allowing a free movement of the traces in all directions. The joint in the patent clips allows an even pressure on the Collars, regardless of the position of Traces when horses are pulling. (Note the Ring in the Hip Straps). This is a feature worthy of consideration, as a Hip Strap made in this manner fits the horse nicely and should you have an accident, can be repaired easily at a small cost. This harness combines all the features which go to make a first-class team harness. Is an exceptional bargain at the price. Read the description carefully and note the different ways we can supply this harness. **Bridles,** ¾ inch box loop short cheeks, with fancy spotted nosebands and fancy spotted double and stitched fronts, round winker stays, sensible blinds, flat checks to check over hames. **Lines,** 1 inch; length, 18 feet, with snaps. **Breast Straps,** 1½ inch with snaps. **Martingales,** 1½ inch with Collar Strap. **Hames,** Ironclad, Red Brass Ball Top Bolt, illustrated as style 95B2046 (see Hame page). **Hame Straps,** 1 inch. **Traces,** 1½ inch double and stitched; length, 6 feet, attached to Hames with Cooper's jointed clips; 6 link heel chains sewed in. **Back Bands,** flat lined, brass spots, 1¼ inch billets. **Bellybands,** folded, 1¼ inch buckles. **Back Straps,** 1¼ inch single, running through loop on pad to top hame strap. **Hip Straps,** ⅞ inch double, 3 ring style, with brass spots above and below ring with brass buckle shields. **Breeching,** folded, 1½ inch layers. **Side Straps,** ⅞ inch with snaps. Made up with brass trimmings and Japanned (black) buckles. Suitable for horses weighing up to 1,500 pounds. Weight, boxed for shipment, about 80 pounds.

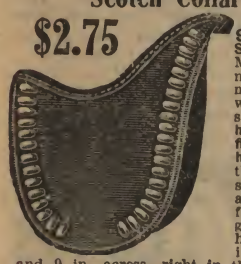
Our "Illinois" Farm Harness



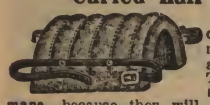
$31.98

For this Special Moeller Hame Tug and Trace with 95B2016 Bolt Hames Order No. 95B1175-1½ in., or No. 95B1176-1¾ in., as desired

Scotch Collar Housings

$2.75

95B2100—Our Large Scotch Collar Housing. Made of heavy black harness leather and ornamented around the edges with large brass peanut shaped spots. **These housings are intended to fit over the top of the horse collar** but under the hames and top hame straps. These housings are well made and perfectly shaped and will give tone to any work harness. Size, height, 9 in. right in the center and 9 in. across, right in the middle. Price, each, for 1 horse **$2.75**
Weight, each, about 1 lb. 4 oz.

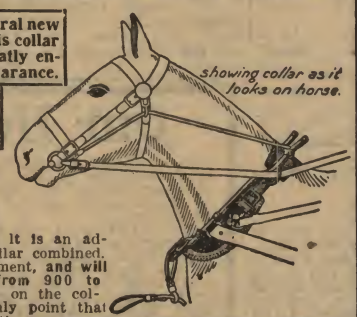


95B2106—Large Hame Housings, made of black leather, bound at top, leather lined; **two rows of stitching all around the edge.** Made exactly as shown in illustration. Size, 12x16 in., on each side. Weight, each, 3½ lbs. Price, each, for one horse. **$3.99**

95B2112—Extra Large Brass Trimmed Collar Housings for heavy case or dray collars. Made of heavy harness leather with large brass peanut spots on each edge. Size, 8¼ by 15 in. Weight, each, about 12 oz. Each **$1.65**

Curled Hair Collar Pads

Made only of pure, cleaned horse mane hair of natural black color and antiseptically treated. These pads are both **humane** and **sanitary. Humane,** because they will not gall a horse; on the contrary, they will help relieve a sore neck. **Porous,** the air is constantly passing through the housing or collar pad. **Sanitary,** because they can be easily cleaned by rinsing in hot or cold water. We carry these pads in three styles and different sizes. See index for housings.



CURLED HAIR COLLAR PADS

Made of curled hair with four rows of stitching, with strap on each end. Size, width, 7 in.; length, 10 in. Weight, about 5½ oz.
95B2118—Price, each **38c**

"Our 20th Century Perfection Adjustable Humane Horse Collar"

We have added several new improvements to this collar the past years, greatly enhancing its appearance. Easy adjustment and serviceability. The acme of comfort for a work horse.

A new collar which we have had designed and manufactured expressly for us, to fill a long felt want. Note that it is an adjustable hame and collar combined. Very simple in adjustment, **and will fit any size horse from 900 to 1800 lbs.** The draft on the collars is really the only point that touches the horse with any pressure. Note the open throat and top collar pad feature. Your horses will never have sore necks with this collar. We have tried them for many months on our own teams and find them satisfactory from every standpoint. We furnish also the top and bottom hame straps, and attachment to fasten your tugs to the hames, no matter what style you use—bolt, clip, or hook for chain tugs. The hames are made of tubular steel pressed into the right shape, very strong, and made to stand the hardest kind of work. The draft part of the collar is made of superior grade collar leather, and stuffed with high grade, clean rye straw. Remember when you buy this collar you eliminate the use of sweat pads and hames, and when you consider the cost of these, which must be added to the cost of ordinary collars, you will see that our special Perfection Collar is really as cheap in price as the ordinary ones. We can furnish, at a very small price, any part that breaks after constant wear. Remember they will fit a thin, light mule, or the thick neck of an 1,800 lb. horse, equally well, and are easily and quickly adjusted. Each collar complete. Weight, 14 lbs.
95B2365—Price, each (for 1 horse) **$6.50**

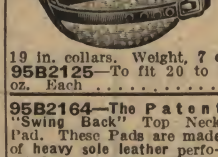
Sweat Pads

Regular standard quality, made of good drill, **brown duck back, and white face.** Width 10 in. four rows of stitching and three hooks; filled with M. W. & Co.'s high grade sweat absorbent, regular 30c seller; sizes 17 to 25 in. State size. Weight, 2 lbs. 4 oz.
95B2139—Per doz. . . . **$2.85**
Price, each . . . . . **.25**

Old Gold Sweat Pads

Made from all yellow drill, has the Red Felt Edge; 4 hooks, 5 rows of stitching. Width, 12 in. and runs full sizes, stuffed with **a high grade sweat absorbent;** a regular 40c value. Sizes, 17 to 25 in. State size. Weight, 2 lbs., 5 oz.
95B2145—Price, per dozen **$3.00**
Price, each . . . . . **.27**

Felt Sweat Pads



95B2151—Sweat Pads or Sweat Collars, made of **heavy yellow felt with scalloped edge;** one piece of felt in each pad, no stitching or splicing; **two hooks on each side** to hold pad securely in position under the working collar; sizes, 18, 19, 20, 21, 22, 23. Price, each (State sizes) **$0.38**
Price, per dozen (State sizes) **4.25**
Weight, each, 11 oz.

Our new Sampson Sanitary Non-Galling Sweat Pad. Strength and cleanliness assured. It is made of carded wool, extra thick fabric, double reinforced, making stretching or pulling out of shape impossible. The material is very smooth, thick, heavy and compact, very porous and perfectly ventilated, making an ideal protection against chafing under the collar.

The use of this pad will prevent gall sores, and while it costs a little more than the ordinary pad, in the long run you will find it to be a pad of great economy. Double row stitched all around the edges. Four hooks, 10 in. draft. A most durable and sanitary pad we offer. Sizes, 18 to 24 in. State size wanted. Weight, each, 14 oz.
95B2152—Price, each, **45c;** three for **$1.25;** per dozen **$4.90**

Collar Pads

"Perfection" Zinc Collar Pads. Highest grade quality. Suitable for all ordinary horse collars. Made of galvanized steel and heavily plated with zinc. With straps to attach to collar as shown in illustration. Made in two sizes.
95B2124—To fit 17 to 19 in. collars. Weight, 7 oz. Each **30c**
95B2125—To fit 20 to 23 in. collars. Weight, 8 oz. Each **35c**

95B2164—The Patent "Swing Back" Top Neck Pad. These Pads are made of **heavy sole leather** perforated in the center, flexible and self-adjusting. The perforated part is clear of the neck of the horse; **avoids all friction, allows a free current of air,** and chafing or soreness on the top of a horse's neck. Weight, each, 11 oz. Price, each **41c**
effectually prevents any

95B2158 — Collar Pads made of heavy harness leather, lined with deer skin, tanned with the hair on. Width 6 in., length 12½ in.; two ⅝-in. straps, length 18 in., to buckle around collar. Weight, each, 7 oz. Each **68c**

Hames

Our **Hames** are the leading makes. The wood used is the best seasoned timber, bent in a manner that allows a perfect fit to the collar. The hardware or trimming is the highest grade, smooth in finish, and without flaws or defects. The painting is done by hand (not dipped) with paint of durable quality, giving a smooth and lasting finish. We could use cheap hames and reduce the cost of our harness, but the Montgomery Ward & Co. policy is to use the best. Remember our liberal selling methods.

Remember

We must have size of collar before shipping. Be sure you state exact size wanted, on your order

Our Horse Collars

OUR HORSE COLLARS have been improved from year to year until we now have the best quality, best fitting, and most serviceable collars obtainable. High grades at low prices.

TNE LEATHER is the highest grade obtainable; the patterns are the latest, designed by men who have made a life study of the Horse Collar business and know what is needed to make first class collars. OUR COLLARS ARE STUFFED WITH THE BEST GRADE OF THOROUGHLY SEASONED RYE STRAW, moulded over the most modern collar blocks, giving each collar a smooth, even surface, with ample hame space, eliminating possibility of hames pulling off. THEY FIT LIKE A GLOVE, will not hurt the horse, and are sure to give satisfaction. Many makers use cheap fillers in collars, ONLY THE BEST GRADES USUALLY HAVE SEASONED RYE STRAW. We use rye straw exclusively. If you have not purchased collars from this catalogue you do not appreciate the quality nor the values we are now offering at prices which would lead one to believe our Collars were of inferior grade. DON'T BE MISLED BY THESE LOW PRICES. OUR COLLARS ARE HIGH GRADE. You take no chances when buying from us, as you are protected by our liberal guarantee. Pick out the collars that suit you, from the following styles; after they arrive, inspect them, fit them on your horses, and you will agree with us that you have obtained a decided bargain—first class collars at a good saving in price.

See Instructions for Measurements

Illustration shows style of Buggy Collars 95B2340 to 95B2357 inclusive

95B2357—Coach weight. Each **3.75**

Instructions for Measurements

(See Illustration)

The size or length of a collar is found by measuring the length in inches from top (A) to bottom (B), on the inside, as shown in the illustration. The draft of a collar is found by measuring the circumference in inches at the heavy part of collar (C), and (D), as illustrated in cut. Measure clear around the collar here, from (C) around to (C). By following the instructions closely, you can make comparisons which will be of value and can insure getting a fit for your horses when you write in your order. Our Collars stand the closest inspection inside and out. Comparisons with the so-called "Just as Good" grades in fullness, size and quality will prove to you that ours are not only exceptionally high grade but extremely low in price. Be sure to state size of collars wanted.

Our "Lakeside" Humane Cotton Collar

This collar is made of heavy white duck and stuffed with clean cotton fibre, antiseptically treated by a patented process which makes a collar that will not gall and will greatly assist in healing **galls or sore shoulders.** The filling in this collar will not pack or lump up and should not be confused with the ordinary straw-filled, cotton collar. Made with wear leathers at draft and terret. Draft about 15 in. Solid top, open bottom only. Sizes 17 to 22 in. Weight, about 6½ lbs.

95B2269—Sizes, 17 to 22 in. Each 75c

Our Plow Collars;

good heavy weight; made with black leather back and rim, cotton duck face, buckle top. Draft, about 14 inches. **This is a much better quality than is usually sold at this price** and is a bargain for those desiring a cheap collar for plowing and similar work. Weight, about 5½ lbs.

95B2275—Sizes, 16 to 22 inches. Each 87c

Farmers' Irish Collar. Black Grained Leather Back and Rim—Thong Sewed throughout. Double ticking Face forming Pocket, with layers of curled hair. Outer seam of collar re-enforced with strong leather welt where thong passes through ticking, making this an extra strong feature where most collars are weak. **Extra heavy wear leathers.** Buckle top, re-enforced throat with extra throat piece. Draft, about 16 inches. Average weight, 7¾ lbs.

95B2281—Sizes, 17 to 22 inches. Each $1.95
95B2282—Sizes, 22½ and 23 inches. Each $2.25

Compare Our Collars With Those Offered By Others

We are offering you a Big Saving on every horse collar shown on this page. You can well afford to take advantage of our exceptional bargains.

Collar, heavy thong sewed, heavy stock, cowhide throughout russet face, black back and rim. **Extra wear leather on back, reinforced with extra throat piece.** Note extended face to edge with extra row of stitching. Buckle top. Draft, about 15¼ inches. Average weight, about 8½ lbs.

95B2288—Sizes, 17 to 22 in. Each $3.45

95B2289—Sizes, 22½ and 23 inches. Each $3.95

Heavy Full Russet, Throatless Collar. Extra heavy cowhide back and rim. Face extended to edge of back with extra row of stitching. The flexible throat is made with layers of cowhide stitched together and thong sewed to rim, making it **impossible to break rim;** buckle top. Draft, about 15 inches. Average weight, about 8½ lbs.

95B2295—Sizes, 17 to 22 in. Each $3.25

95B2296—Sizes, 22½ and 23 inches. Each $3.60

Boston Truck Collar. Extra heavy Concord casing, cut from extra heavy cowhide. Solid back and rim, black. Rims are heavy with ample hame space. The russet face is double, forming a pocket with a layer of curled hair. Thongs are ⅝-inch wide. Concord (blind) stitching; collar pads sewed in with rawhide thongs. **Has collar cap and buckle top.** Draft, about 17 inches. Average weight, about 11 lbs.

Sizes, in.	Each

CHICAGO TRUCK COLLAR. Black kangaroo calf face, velvet finish (**comfort to the horse**), ⅝-inch rawhide ribbon thonged, full solid russet back and rim, bar pad, high peak, faced with layer of curled hair. Patent easy-opener top buckles. Our fine quality collar, built for service. Draft, about 17 inches. Shipping weight, about 11 lbs.

95B2315—Sizes, 18 to 22 inches. Each **$4.95**
95B2316—Sizes, 22½ and 23 inches. Each **$5.50**
95B2317—Sizes, 23½ and 24 inches. Each **$5.98**

Throatless Collars, black leather back and rim, russet kip face, with extra wear leather on back. The throat is made flexible, **reinforced with layers of leather stitched together,** making this collar exceptionally strong. Leather thong sewed. **This style is easy on a horse.** Buckle top. Draft, about 14 inches. Average weight, about 8½ lbs.

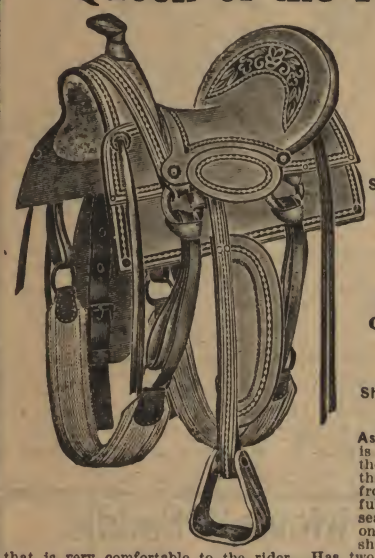
95B2325—Sizes, 17 to 22 inches. Each **$2.15**

Special Chrome Tanned Muleskin Faced Collar. Black leather back and rim, wear leather on back where hame clips rub. Buckle top, heavy rim. Draft, about 15 inches. **This makes a very strong and serviceable collar.** Average weight, about 5¾ lbs.

95B2332—Sizes, 17 to 22 inches. Each **$1.98**

95B2333—Sizes, 22½ and 23 inches. Each **$2.25**

SADDLES



THESE ARE ALL GOOD SADDLES, HONESTLY MADE AND CORRECTLY DESCRIBED. When we say a saddle-tree is hide-covered we do not mean sheepskin covered, BUT REAL, GENUINE HIDE, such as you would wish to have on the saddle you buy. THESE SAME HIGH-GRADE SADDLES ARE COMMONLY SOLD AT MUCH HIGHER PRICES THAN WE ASK, and are seldom offered at the low prices we quote, quality considered. The large variety of styles also speaks for itself. We carry these in stock ready for immediate shipment. WE ALSO CALL YOUR ATTENTION TO OUR LINE OF HIGH GRADE RIDING BRIDLES, BITS, SPURS, CHAPAREJOS AND ACCESSORIES.

All Saddles carefully packed in Wooden Boxes.

The Greatest Value We Ever Offered in a "Stock" Saddle

A $30.00 Retail Value for $23.95

95B2593

$23.95

95B2593

A well made, high grade Saddle at the price you want to pay

High Grade Material and Workmanship insure long and satisfactory service

For general utility and all-around use this saddle is a real bargain. It would ordinarily sell for not less than $30.00. Will stand roping and hard usage. We have contracted for a large quantity, and you reap the benefit of a timely purchase. This is a new model, made exclusively for us by the best saddle workmen in the country. Note the many special features and points of superiority which show the great care and attention given to the making of this saddle.

TREE—14½ inches, hide covered; Arizona swell front, 13½ inches wide bulge. Interlocked construction in cantle, genuine rawhide bound cantle, gullet and braided horn, insuring long life and service on these points most subject to wear.
SKIRTS—23½ inches. Pure oak tanned, California skirting. Our famous, non-galling or nonchafing, ventilated hair-lined skirts. Latigoe tie strings, brass star conchas, leather covered rings.
GIRTHS—Width, 4 inches. Soft hair braided with leathered ends.
STIRRUP LEATHERS—Width, 2 inches. Fancy stamped. Lined points. Rawhide lace strings.
FENDERS — Standard size. Fancy border stamped.
TIE STRINGS—Width, 1⅜ inches. Have 1⅝-inch buckle straps on off side.
STIRRUPS—Width, 2 inches. Wood ox bow, California pattern. Weight, 24 pounds. Shipping weight, 34 pounds.
95B2593—Price, each $23.95

95B2586—Plain Stirrup $15.98
95B2587—Leather Covered Stirrups 16.75
Weight, 21 lbs. Shipping weight, 31 lbs.

Built for every-day use, on the farm, and as a general knock-about. Extra full seat, and deep cantle, which makes it easy riding. The skirts are lined with our new non-galling, woven hair lining which is most sanitary and cool on the horse's back. Would retail for at least $18.00.

TREE—14-in., La Platte, steel fork.
SKIRTS—21½-in., ventilated, hair-lined.
STIRRUP LEATHERS—2-in., lined at points, full standard size fenders.
TIE STRAPS—1¼-in.; 1½-in. buckle straps on off side.
GIRTHS—15 and 20-strand cotton Texas.
STIRRUPS—Wood Ox bow pattern.

Solid seat, and jockey in one piece. White latigoe lace strings. The leather in this saddle is dark, glazed, russet skirting, excellent in appearance and in wear.

A Complete Riding Outfit for Every-Day Use

$19.50 At a Price You Would Ordinarily Pay for the Saddle Alone

95B2614 **Complete Outfit** $19.50

Not a cheap outfit, but one we have selected to give our customers satisfaction. Each article in the outfit has been chosen because of its reliability, finish, and workmanship. Each article is described separately, and sold at a very close price. The price is still lower when you buy the complete outfit (3 pieces).

95B3220 **Saddle Blanket,** made from pure gray, soft woven, curled hair, that makes a soft, springy pad on the horse's back. Very sanitary and cool if kept dusted and clean, and will shape itself to the horse's back. We recommend it highly also for preventing saddle galls and sore backs. An excellent blanket for hard, everyday wear. Size, 27x36 in. Ship. wt., 3 lbs. Price, each $1.00

95B3520 **Riding Bridle, Montana style,** 1-in. russet leather checks; loose crown, buckling in center; extended lap; ⅞-in. reins, length, 6½ feet; nickel buckles and rosettes with short cheek port bit. Well made and cut from good stock. Shipping weight, each, 34 oz. Price, each $2.25

95B2613 **Our Famous Improved Glory Saddle,** western style, made of oiled russet skirting leather. **Tree,** 14½-in. Colorado steel fork, rawhide covered. **Skirts,** 22½-in. full width, wool sheepskin lined. **Seat,** solid leather, with steel strainer; beaded roll cantle; fancy raised and stamped flower design on jockeys. **Stirrup Leathers,** 1⅝-in. to lace with good, full size fenders attached; raised and stamped flower design on fenders to match jockeys; gullet, raised and beaded, over rigged. **Tie Straps,** 1¼-in. rings, leather covered. **Latigoe Straps,** 1½-in. to buckle. **Cinchas,** 20-strand, California White Angora hair. **Stirrups,** heavy wood, California pattern. Leathered Bar and Bottom. Weight, about 25 lbs. Price, each $16.95

95B2614 **Special price of outfit complete** (three pieces), as shown in illustration 19.50
Weight, packed for shipment, 32 lbs.

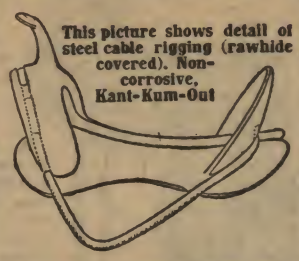
Our "Hercules" Cable Rigged All Western Stock Saddles

"Hercules" Single Rigged, 20th Century Stock Saddle



95B2715

$42.75

Wide Bulge Genuine Beef Hide Covered "Hang on Tree" with Free Cut-a-Way Leghold

Full Rawhide Covered Steel Cable Rigging

This picture shows detail of steel cable rigging (rawhide covered). Non-corrosive, Kant-Kum-Out

One of the strongest and best stock saddles ever constructed. For durability, service, comfort and easy riding they are unsurpassed. **Note the Special Features.** Both numbers have exactly the same tree and construction, the only difference being one is single and the other double-rigged.

TREE, 15-in. genuine beef hide covered, Western "Hang-On" style, heavy swell bulge front, with free cut-away leg hold and rawhide braided horn.

FORK, Sampson (in-lock) construction, can't pull out. Full seat and jockey in one piece. Erect bound cantle. Swell bound and stitched roll-front.

BUCKLE STRAPS, 2-in., with 1¾-in. tie straps on near side.

STIRRUP STRAPS, width, 3 in. to lace, lined and stitched at points, with fenders, width, 10 in., length, 17 in., attached. Fancy scalloped stamping, as shown in illustration.

STIRRUPS, wood, California, Ox-bow pattern, wood, bolted, brass-bound, leathered top and bottoms. **The Double Rigged Saddle** has skirts 28x14¼ in., sheep skin wool lined, laced to tree with heavy latigoe rawhide lace strings. Thirty-strand heavy fish cord, front cinch. Extra heavy, 4 in. web rear cinch, both cinchas leather covered, with wool chafes and connecting straps. The **single rigged saddle** has skirts 26x14¼ in. sheep skin wool lined, laced to tree with latigoe lace strings and girthed with one extra wide, 30-strand, extra durable, California hard hair cinch, with wool-lined latigoe, trimmed leather chafes, as shown in illustration. Leather throughout on both saddles, highest grade selected California russet oak saddle skirting. You must see these saddles to appreciate their real value. They are positively the best saddles that can be made for broncho busting, roping steers, hard riding and rough wear. The special cable rigging will withstand a strain of over 5,000 lbs. direct pull. Entirely eliminates the old style rings. Nothing to pull out or break. The cable is especially prepared to avoid rusting, and where exposed, is full rawhide covered. Duplicates of these saddles would cost you from $50.00 to $75.00 at retail. Weight, packed for shipment, 40 lbs.

Weight, 29 lbs. Shipping weight, 39 lbs.

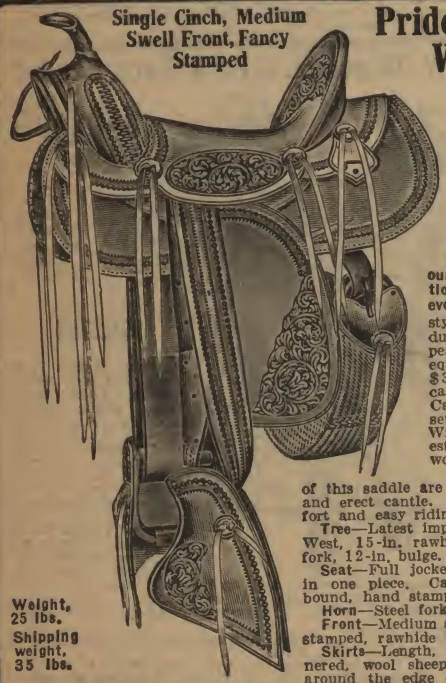
Built to stand hard riding and hard service. Will stand roping and ranch work. Built to please the man who has to spend most of the day in the saddle. You would pay from $5.00 to $10.00 more for the equal of this saddle at retail.

Tree—M. W. & Co.'s New Sterling. 15-in. Hide covered. **Front**—Size, 14-in. Swell fork. Laced. The round bulge front in this saddle gives the rider a strong knee hold, and prevents him from being thrown against the horn.

Seat—Full jockey seat and cantle in one piece. Cantle erect. Rawhide bound. Invisible seam.

Horn—Steel. Rawhide braided, covered on horn. Rawhide bound front.

Skirts—Width, 13-in. Length, 27-in. Sheepskin wool lined. Embossed stamped border. Sewed around edge of skirts. Fastened to tree with heavy lace strings.



Stirrup Leathers—2¾-in. to lace. Lined points. Fancy embossed stamping. **Fenders**—Width, 9-in. Length, 45-in. Attached to stirrups. Fancy border stamped. **Tie Straps**—1½x4½ ft. Cut from our fancy Indian sumach tanned latigoe rawhide. **Buckle Straps**—Are 1¾-in. on off side. **Rings**—Leather covered. **Cinchas**—Connected. Front, 20-strand white Texas cotton, with fancy leather chafes to buckle. **Flank**—Has 3½-in. heavy web belting, with leathered ends to buckle. **Stirrups**—Turner's metal. Fancy leathered, and laced with latigoe tie strings.

Pride of the West

Single Cinch, Medium Swell Front, Fancy Stamped

95B2740

$28.75

Weight, 25 lbs. Shipping weight, 35 lbs.

Built according to our own specifications, and A-1 in every respect. For style, construction, durability and appearance, cannot be equaled for less than $35.00. Made from carefully selected, California oak russet skirting leather. Will stand the hardest kind of range work.

Additional features of this saddle are its full seat room and erect cantle. A dandy for comfort and easy riding.

Tree—Latest improved Pride of the West, 15-in. rawhide covered. Steel fork, 12-in. bulge.

Seat—Full jockey, seat and cantle in one piece. Cantle erect, leather bound, hand stamped.

Horn—Steel fork, leather covered.

Front—Medium swell, all over hand stamped, rawhide lacing.

Skirts—Length, 25 in., round cornered, wool sheepskin lined. Sewed around the edge of skirt. Fastened to tree with heavy lace strings. Fancy border stamped.

Stirrup Leathers—2¾-in., lined and laced at points.

Girth—20-strand California angora, leathered ends, 1¾-in. buckle strap, 1⅝-in. tie straps.

Stirrups—Wood, Oxbow pattern with large monkey nose pattern, fancy stamped, leather tapideros, trimmed with leather rosettes and latigoe lace strings.

The additional features of this Saddle are its full seat room and erect cantle. Just what you want for comfort and easy riding.

Wyoming Stock Saddles

Riverside Tires and Tubes are built for mileage and service

A Large Line of Fly Nets at Very Low Prices

"Wear-Well" Water-Shed Fly Nets $1.98

For Buggy or Work Horses

Color, all black. Extra length cotton cord lashes. Something new with us. Made of heavy, hard-twisted Seine Cord. Thoroughly water-proofed by a special process, which effectually prevents rain or sweat from penetrating and rotting the cord. They should last you at least two full seasons. With reasonable care they will wear well, and not rot out. The ends are wire-fastened, to prevent unraveling. 70 or 75 cotton cord lashes, hand braided with strings braided through the bars, so that they cannot pull out.

95B4100—70 lash. Bars, length, 4 feet 9 inches. For buggy horse. Weight, each, 2 lbs. 4 oz. Each, for one horse **$1.98**

95B4101—75 lash. Bars, length, 5 feet 4 inches. For work horse. Weight, each, 4 lbs. 4 oz. Each, for one horse **$2.50**

Body and Breast Buggy Net $2.00

Black Leather Fly Nets for Buggy or carriage use, standard grade and good quality, 5 bars, body and breast piece. **The lashes are well rounded, are good length,** and the nets are made with substantial leather stays on each end. Will wear well and give good service.

95B4105—With 60 lashes. Weight, 28 oz. Price, each (for 1 horse) **$2.00**

95B4109—Neck pieces with 30 lashes to be used in connection with above nets. Price, each **50c**

$1.60 Cotton Cord Team Net

Heavy Braided Cord Bars. Lashes Woven into Bars

Hoosier Cotton Team Nets, body and breast; 5 double woven bars; 55 yellow colored heavy cotton cord lashes and a breast piece. The body bars are yellow, length, 5 ft., and the lashes are full length, 8 ft. The lashes are woven into the bars, making the bars very strong, but flexible. **The lashes cannot slip in the bars.** Woven stays on the front end; breast piece opens in the center. Weight, each 2¼ lbs.

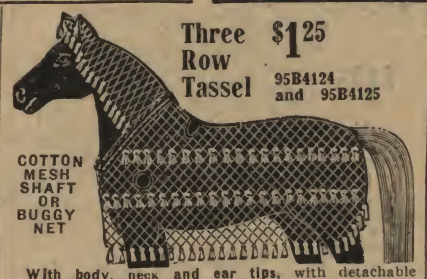
95B4113—Price, each, for one horse **$1.60**

95B4114—Same net as 95B4113, **but with 70 Rich Dark Brown Lashes and Golden Yellow Bars.** Weight, 3 lbs. 8 oz. Price, each, for one horse **$1.90**

95B4115—Same pattern as 95B4113, but with 100 3-ply hard twisted cotton cord yellow lashes. Length, 8½ ft. Bars, length, 5½ ft. **Just the Net for large Horses.** Weight, 4 lbs. Price, each, for one horse **$2.45**

A New Idea in a Leather Fly Net $1.37

Color, deep russet
Weight, each, 3½ pounds; per pair, 7 pounds



Adjustable to different size horses. Just the net for use with team harness. Superior to a cotton cord net in wear and appearance. Will stand service, and always look well. Meshes are strongly bound together with steel staples. Has 50 lashes in body, with 16-lash reinforced breast piece. The leather is uniform, good grade throughout. Adjusts to length from 5 to 8 feet.

95B4119—Price, per single net for one horse, $1.37

95B4120—Price, per pair, two nets for two horses 2.50

Three Row Tassel $1.25

95B4124 and 95B4125

With body, neck and ear tips, with detachable neck piece. Strong cord; 1½ in. meshes; three rows fancy tassels; three colors in each net. These nets are of good quality and very attractive. Length, 7 feet with neck fringe. Weight, 18 oz.

95B4124—Black, lemon and green; black, white and red tassels.
Price, each (for 1 horse) **$1.25**

95B4125—Green, red and lemon; white, navy blue and black tassels. Weight, 18 oz.
Price, each (for 1 horse) **$1.25**

Queen Ely $1.50 Mesh Net

95B4129 and 95B4130

VERY ATTRACTIVE PATTERN

These nets are made with fancy cotton cord, 1-in. mesh, with very pretty designing, attractive patterns, body and head with ear tips. **Body and neck can be separated.** Braided scallops on body, and fancy tops; made in two colors. Length, 7 feet with neck fringe. Weight, 20 oz.

Stable and Storm Blankets

Why it will pay you to buy your Blankets From Us

First: Because we take mill outputs in large quantities, thus getting the lowest price.
Second: We eliminate for you the jobbers' and dealers' profits.
Third: Because our motto always has been and still is, "Not how cheap, but how good for the money."
All the styles listed are cut full size, shaped to fit the horse properly and made under expert supervision in the best manner possible at the price. Ours are reinforced where many blankets are weak. The sizes are marked plainly on each blanket. **Stable blankets,** size 72 in., for horses weighing up to 1,000 lbs.; size 76 in., for average horses weighing up to 1,300 lbs.; size 80 in., suitable for horses weighing up to 1,500 lbs.; size 84 in., for average horses weighing up to 1,700 lbs. There are points about these goods that we cannot describe with pictures and words. We want you to buy our blankets, compare them with others, then you will know we can save you money. **Remember, our liberal selling methods protect you fully against any defective article.**

Horse Blanket Sizes: Read Before Ordering Blankets

Our Stable Blankets are cut full size and shaped to fit the horses perfectly. The sizes are marked plainly on each blanket. Size, 72 inch, suitable for horses weighing up to 1,000 lbs. Size, 76 inch, suitable for average horses weighing up to 1,300 lbs. Size, 80 inch, suitable for horses weighing up to 1,500 lbs. Size, 84 inch, suitable for average horses, weighing up to 1,700 lbs.

High Grade Materials Proper Cut and Fit

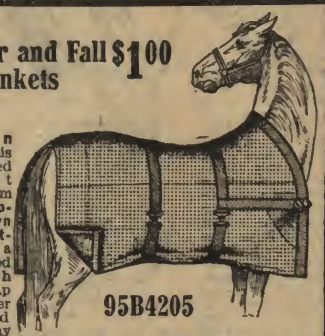
OUR STABLE BLANKETS ARE CUT FULL SIZE, and SHAPED to FIT the horse properly. All styles listed here are made under expert supervision in the best manner possible at the price; all are reinforced where many blankets are weak. **All Stable Blankets sold by us have a special leather reinforced fastener on front—the best obtainable.** The front, as all users of blankets know, is the weak point in an ordinary blanket. Our Blankets are built on the plan of HOW GOOD, not HOW CHEAP, for the money.

M. W. & Co.'s "Fit-well" Wide Surcingle Stable Blanket

$1.69

95B4200

Our new Fit-Well wide Surcingle Blanket—just what the name implies. Well shaped, and fits the horse properly.



It is a leader with us—a blanket of quality and merit. Retail value as high as $2.50 for a blanket of this style and grade. To sell large quantities, we are quoting them at especially attractive prices. The blanket is made of extra quality quilted burlap, mangled finish. Full-lined with superior quality brown kersey fabric, very strong, and really the best blanket to put on a warm horse, as it will absorb the perspiration and dry him thoroughly. Eight rows of stitching, bound neck and front, with two 3½ inch wide adjustable web surcingles, and extra wide stay to second surcingle. Strong leather strap, and snap fastener sewed on and riveted. A strong, warm and durable blanket to give excellent satisfaction. Made in two sizes.

95B4200—Length, 76 in. Weight, about 7½ lbs. Price, each (for 1 horse) . . . **$1.69**

95B4201—Length, 80 in. Weight, about 8 lbs. Price, each (for 1 horse) **$1.78**

Summer and Fall Blankets

$1.00

95B4205

Brown Duck. This unlined Blanket is made from heavy Sampson brown duck sheeting, has a reinforced front with heavy snap fastener strengthened with a stay to surcingle and two web surcingles. Weight, about 1¾ to 2¼ lbs., according to size.

Peerless "Stay-in-Place" Plaid Kersey Fabric Stable Blanket

$1.75

95B4217

Made by the most improved methods. The Fabric lining and outside of the blanket are woven together, with a center lining of best quality, finely woven burlap, making a blanket that is heavy and warm. This is a special pattern made only for us, and is really just what the name implies. Made to fit like a tailor-made garment, and when properly girthed will not come off. A beauty in appearance and fit, and will wear well. The pattern is a neat, square block plaid, in two-tone brown colors. The neck, front, bottom and rear of the blanket are bound all around with 2-in. boot web trimming, which makes a very attractively finished blanket. Long stay to second surcingle. Two wide 2-in., heavy boot, web surcingles. Extra reinforcements on the front where the front fasteners are attached. Retail value as high as $2.50 for a blanket of this grade and character. We have sold thousands of this pattern with unvarying satisfaction to the user, and you will find it a bargain at the price we offer it. Made in two sizes only.

95B4217—Length, 76 in. Weight, about 5¼ lbs. Price, each (for 1 horse) **$1.75**

95B4218—Length, 80 in. Weight, about 5¾ lbs. Price, each (for 1 horse) **$1.85**

Our "Leader" Brown Duck Blanket

$1.45

95B4222

Our Leader Brown Duck Blanket. Made from special brown duck. Full lined with a durable tan color kersey lining, flat bound around neck and down front, two adjustable web surcingles and stay, substantial snap and dee front fastener. We offer this as a leader and feel sure it cannot be duplicated for the price. Made in two sizes.

95B4222—Length, 76 in. (for 1 horse). Weight, about 5½ lbs. Price, each **$1.45**

95B4223—Length, 80 in. (for 1 horse). Weight, about 6 lbs. Price, each **$1.57**

Old Hickory Blanket

98c

95B4227

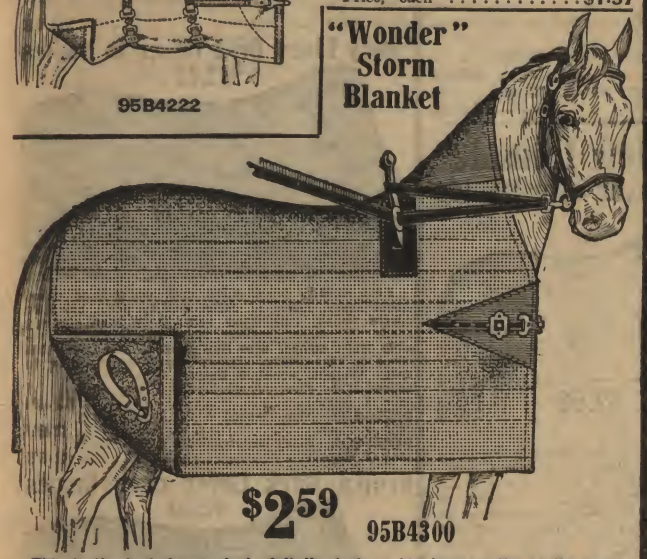
Extra Value Plaid Fabric Blanket. Made of high grade burlap to which the Fabric Face and Lining are woven, making a blanket that is warm and serviceable, and at a low price. Assorted color Plaid Pattern, two adjustable surcingles and reinforced snap fastener in front.

95B4227—Length, 72 in. Weight, about 3½ lbs. Price, each (for 1 horse) **98c**
95B4228—Length, 76 in. Weight, about 4 lbs. Price, each (for 1 horse) **$1.15**

Our Ironside Blanket

$1.75

95B4232



Our Ironside. 12-row, stitched and quilted. Brown Duck Stable Blanket. Made from heavy brown duck, full lined throughout, with extra quality wool, kersey fabric lining, reinforced breast piece. Two extra wide heavy adjustable boot web surcingles. Substantial snap and dee front fastener. This is a very practical, warm and durable stable blanket, of excellent quality, and a blanket we are offering you at an exceptionally low price. The average retail price to you on a duplicate of this blanket would be at least $2.25. Made in three sizes.

95B4232—Length, 76 in. Weight, about 5¼ lbs. Price, each (for 1 horse) **$1.75**

95B4233—Length, 80 in. Weight, about 5¾ lbs. Price, each (for 1 horse) **$1.85**

"Wonder" Storm Blanket

95B4300

$2.59

This is the best, brown duck, full lined storm blanket we offer at the price. A regular $3.00 value, but by our one-profit method, we are able to make you the unusually low price of $2.59 and $2.75 quoted here. **Made of heavy brown duck outside** and full lined with fancy gray striped blanket lining, turned up and hemmed on bottom edges. **Hame leathers, heavy trace straps** and adjustable strap on front. **Gore inserted for neck on front end, twenty rows of stitching.** A remarkable value offering in blankets of this character.

95B4300—Width, 80 in.; length, 80 in. Weight, about 8½ lbs. Price, each (for 1 horse) **$2.59**
95B4301—Width, 80 in.; length, 84 in. Weight, about 9 lbs. Price, each (for 1 horse) **2.75**

Our Roped Edge Blanket

$1.98

95B4238

Roped Edge Stable Blanket. Made from extra heavy brown duck, full lined throughout with fine quilted brown kersey fabric lining, twenty rows stitching, well reinforced at neck and breast, roped edge neck with two rows stitching, two heavy 3½ in. web allover surcingles, leather strap and snap fastener sewed on and riveted. This is an extra strong and durable blanket and one which will give satisfaction. Made in two sizes.

95B4238—Length, 76 in. Weight, about 7 lbs. Price, each (for 1 horse) **$1.98**
95B4239—Length, 80 in. Weight, about 7½ lbs. Price, each (for 1 horse) **$2.15**

Our Big Offer Blanket

89c 95B4243

A blanket that will wear well and give the user good service. We have placed a very large order with the manufacturer of this special blanket, and by so doing are in a position to sell you a blanket that would regularly retail for prices at least one-third higher. **A burlap stable blanket,** made from 10-oz. mangled finish burlap, ¾ lined with gray mixed wool blanket lining, two adjustable web surcingles, with stay to surcingle, substantial reinforced leather snap and dee fastener on front, where many blankets are weak. An exceptional value, made in the following sizes:

95B4243—Length, 72 in. Weight, about 3¾ lbs. (for 1 horse) **$0.89**
95B4244—Length, 76 in. Weight, about 4¼ lbs. (for 1 horse) . . . . **.98**
95B4246—Same as above, full lined. Size, 76 in. Weight, about 4½ lbs. (for 1 horse) **1.15**
95B4247—Full lined. Size, 80 in. Weight, about 5 lbs. (for 1 horse) **1.25**

Army Khaki Duck Stable Blanket

$2.75

95B4255

A new one, and a blanket of exceptional merit. The duck in this blanket is a beautiful old gold color, known as 10-oz. double-filled Army Duck. Genuine mineral fast khaki color, having the water repellent finish, and is mildew-proof. We have selected this article from a large variety of stable blankets, on account of its serviceability and pleasing appearance. Full lined to edge with extra quality, fancy printed fabric lining. Trimmed with two 2-inch navy blue boot web surcingles; long stay to second surcingle; web binding neck and front; substantial metal front fastener; 18 rows of stitching; reinforced breast piece. A blanket that will always look well, hold its shape, and made to stand hard usage. A stable blanket costing more than others but worth much more. We carry it in three sizes only.

95B4255—Length, 76 in. Weight, about 7¾ lbs. Price, each for 1 horse **$2.75**
95B4256—Length, 80 in. Weight, about 8¼ lbs. Price, each, for 1 horse **$2.96**
95B4257—Length, 84 in. Weight, about 8¾ lbs. Price, each, for 1 horse **$3.15**

Our Universal Stable Blanket

$2.57

95B4250

Practically a new blanket with us. A blanket that answers three purposes. In reality, it is a first-class Stable Blanket, but it can be used also as a kidney cover in wet weather, and is warm and heavy enough for a storm blanket. This is constructed from a dark gray covert cloth, with heavy dark gray, mixed wool blanket lining, scarlet and green striped. These two layers of fabric are waterproofed, and attached to each other by a rubber composition, giving the effect of one piece of fabric. Close woven, exceptionally warm and durable. A 2-inch boot web binding neck and front. Long stay, and two 2-inch boot web surcingles, all-over reinforced front, and strong metal breast fastener. You will make no mistake in the purchase of this blanket, as it will not show wear readily. The coloring is a quiet tone effect, does not show the dirt easily, and is a blanket of exceptional merit in wear. We have it in 2 sizes.

95B4250—Length, 76 in. Weight, about 7¼ lbs. Price, each (for 1 horse) . . **$2.57**
95B4251—Length, 80 in. Weight, about 8¼ lbs. Price, each (for 1 horse) . . **$2.75**

Fancy Striped Burlap Special

The Proper Shape—Covers The Horse—Kan't-Kum-Off

Our "20th Century Fit-well" Model Stable Blanket

$1.57

Our most popular stable blanket—a dandy in appearance. Built for service. A blanket that will show off your horses to advantage, keep them warm, and wear well. **It is our leader and a value** at the low price at which we offer it. Retail value, $2.00 to $2.50 for this style and grade. Extra quality, mangled burlap outside, in a neat and attractive striped pattern; full roped edge around neck and breast, with patent non-slip fastener, and reinforced breast piece. Two navy blue adjustable web surcingles, with patent fasteners. Will girth the horse properly, as shown in illustration. The blanket has a strong kersey fabric lining, which readily absorbs perspiration and prevents the horse from catching cold. You will make no mistake in ordering this pattern. The illustration gives a faithful reproduction of the style and fit of the blanket, and you will find it a very desirable pattern, as well as one that will give you excellent service. We have it in two sizes only.

95B4261—Length, 76 in. Weight, about 6¼ lbs. Price, each, for 1 horse **$1.57**
95B4262—Length, 80 in. Weight, about 7¼ lbs. Price, each, for 1 horse **$1.69**

Our line of barn hardware is durable and offers big savings

Our New "Blizzard-Prince" Weather-Proof Horse Blanket

The Storm Blanket for All Kinds of Rough Weather

$4.50

95B4311-12

This blanket is practically a new style and product originating with us, and in our estimation is really the **best true storm blanket** made, being extra serviceable against dust, wind, rain, sleet or snow. The outside of the blanket is constructed from an extra heavy quality 10-oz. army duck. Chemically treated, so as to make the fabric practically water-repellent. It is not an oil treatment, but a chemical process treatment, which serves to strengthen the life of the cotton fibre in the duck. It is absolutely pliable under any and all conditions; will not get hard or stiff, and will not crack in the coldest weather. It is not sticky in warm weather, as ordinary oiled, water-proof covers are, yet it is porous to the extent that it permits the passage of air through the material. You will find while in use that it sheds rain like water running off a duck's back, and the fabric is very firm and close woven, making it durable and warm. To this fabric is sewed an excellent quality, substantial fancy striped bed blanket lining. It is a blanket that will prove to be desirable in most any climate, and sure to keep your horses warm and dry. It must not be confounded with cheap grade blankets, as it is intended for folks who desire one that will last and give good service for several seasons. For this reason, it costs more than most blankets do, but you will find it **worth much more.** We believe the average horse owner is willing to pay a little more money for an exceptionally good article, which will keep his horses well and healthy, rather than take chances on a cheap article, that would probably cost you more in the long run. We have had this blanket made for this particular class of customers and believe the purchaser will agree that after constant service, he has received exceptional **value.** The blanket is trimmed with adjustable buckle and billet front fasteners, with steel snaps, reinforced breast piece, trace carriers and hame leathers, as shown in illustration. We carry it in two sizes only.

95B4311—Size—Width, 80 in.; length, 80 in. Weight, about 8 lbs. Price, each (for 1 horse) **$4.50**
95B4312—Size—Width, 84 in.; length, 84 in. Weight, about 8½ lbs. Price, each (for 1 horse) **4.75**

Iceberg Storm Blanket $3.50

95B4316-17

Our Iceberg Triplex Lumberman's Storm Blankets. Made of extra heavy dark gray covert duck cloth, with excellent quality gray mixed wool, scarlet and green striped blanket lining. These two layers of fabric are water-proofed, and attached to each other by rubber composition, giving the effect of one piece of fabric. Close woven, exceptionally warm and durable, rain and wind-proof. Special attention has been given to the construction of this blanket, to make it both warm and serviceable. Fitted with substantial harness leather, hame leathers and trace straps, and strong metal front fastener. Made in 2 sizes.

95B4316—Width, 84 in.; length, 84 in. Weight, about 10 lbs.
Price, each (for 1 horse) **$3.50**

95B4317—Width, 90 in; length, 90 in. Weight, about 12 lbs.

95B4406—Size, length, 5 ft. 6 in. Each (for 1 horse) **2.65**

"New Ironside" Cover to Head

$2.95

2 Leading Values in Rain-Protector Covers

Entirely unlike the ordinary covers which are generally saturated with oils, paraffines or greasy products that are neither cleanly nor sanitary. The duck used in these covers is known as 12 oz. sail duck, **very durable and close woven.** The water-proofing is a chemical process by which every fibre of the cloth is rendered water repellent. The treatment tends to make the fabric stronger, if anything, than the original duck. The cover finished in a deep tan color, like **Army Khaki.** The fabric remains pliable under any and all conditions; will not get hard or stiff in the coldest weather, yet is porous. Very sightly in appearance and will stand hard wear. It is just the cover for you to use in the spring and fall months, as aside from its water-shedding qualities, the duck in the cover is strong enough, and heavy enough to keep out cold and dampness. We carry only two covers of this kind, one to head at $2.95, and the other to hame at $2.50, as shown in illustration. The best water-repellent cover we offer. Extra strong hame leathers with line rings, leather trace carriers with snaps, reinforced breast piece, line pocket, and adjustable front straps. Suitable size for average horses.

95B4340—Cover to head. Weight, 4¼ lbs. Length from ears to tail, 7 ft. 6 in.; and from tail to breast fasteners, 6 ft. 6 in. Price, each (for 1 horse) **$2.95**

95B4341—Cover over hames. Weight, 3¾ lbs. Length from top to tail, 5 ft. 6 in.; and from tail to breast fasteners, 6 ft. 6 in. Price, each (for 1 horse) **$2.50**

"New Ironside" Cover over Hames

$2.50

Brown Duck Cover over Hames $2.50

Extra oiled, fine brown water-shed duck hame horse cover, made of 10-oz. standard quality brown duck, and **thoroughly water-repellent. In the natural color, with hame leathers,** trace straps, and adjustable front strap; **also line pocket.** Suitable for average size horses. **This cover is of fine appearance, durable and an excellent value.** Made in one size, 5 ft. 3 in. from collar to tail.

95B4420—Weight, 6¾ lbs. Length, 5 ft. 3 in. Price, each (for 1 horse) . **$2.50**

White Duck Covers Over Hames

Extra quality, plain white, 14-oz. sail canvas hame horse cover. Width, 66 in.; length, 76 in., **with hame leathers, trace straps, and adjustable front strap, also line pocket.** This cover is made of plain white, extra quality sail canvas, soft and pliable, and **will give considerable service.**

Fancy Striped and Plaid Square Blankets

Showing Exact Patterns in Their Actual Colors.

Our Blanket Values are Based on Quality First, Price Afterward. The description and illustrations are accurate, and state exactly what the Blankets are. All our Blankets are full size, extra heavy, and of exceptional quality for the price at which they are sold. They are of standard grade, such as we have sold for a great many years in large quantities, with unvarying satisfaction to the user. Double woven, strong and durable, hard twisted cotton warps, mixed Blanket fabric stock-filling. Our Blankets are built on honor. They are constructed to a high standard, not down to a low price.

Buy a Sheepskin lined coat for driving and forget the cold weather.

Plush, Fur, and Imitation Fur Lap Robes for Wet or Cold Weather

Black Galloway Robes

95B4850—Black Galloway Fur Robes, large size; first quality, natural black color; made from selected cattle hides and well tanned. They are well furred, flexible, but tough, and will wear as well as a genuine buffalo robe; green plush lined; scalloped border. Size, 54x66 in. Weight, about 9½ lbs. Each $19.50

95B4851—Same as 95B4850, but larger size, 60x70 in. Weight, 10½ lbs. Price, each $23.95

Our New Alaska Lambskin Robes

These Robes are new with us. Made from whole sheep pelts of the best selection, and dyed a beautiful sable brown color. Good quality, plain black plush backs. They present a very pleasing appearance. Are extra warm and will give you splendid service in use. Made in two sizes only.

95B4855—Size, 54x66 in. Weight, 10½ lbs. Price, each $11.95

95B4856—Size, about 60x70 in. Wt., 13 lbs. Price, each 13.75

Buffalo Fur Cloth Robes—Cold, Wind, Rain and Moth-Proof

The best imitation of the genuine buffalo fur to be had, and costs much less than any good fur. Does not wear bare in spots. No seams to crack or rip. Odorless, very pliable, and easy to wrap around the body. Made of three seamless parts, viz.: The face, of all wool fur cloth with heavy back. Interlining, of genuine rubber drill of superior quality, which does not get hard and crack in cold weather; the back, or lining, made of the best Astrakhan cloth, handsome and serviceable. Will not slip off the lap like plush, wears much longer. The inter-lining, of Genuine Rubber Drill, makes these robes wind and waterproof. The border is a double row of high-grade felt. These robes are made in two qualities. Our "Norway," or second quality, is the equal of many sold as first quality. Our "Storm Blizzard," or first quality, is made of the best materials.

$11.75 Imitation Russian Cub Bear Robes $14.95
High Grade, Serviceable, Robes of Quality

Our Black Imitation Russian Cub Bear Robes. Made from very fine selection of Japanese goat skins, are top dyed a rich glossy black. Perfect imitation of a real bear skin. They are free from dye, the leather is very strong, the seams are strongly sewed.

95B4860—Black Imitation Russian Cub Bear Robes. Extra large size. Lined with a superior quality of plain plush and finished with double scalloped felt border. Size, about 54x66 in. Weight 10 lbs. Price, each $11.75

95B4861—Same as 95B4860, but double extra large size, about 60x70 in. Weight, about 12 lbs. Price, each $13.95

95B4862—Black Imitation Russian Cub Bear Robes; largest size, best quality. Full lined with best quality fancy medallion figured plush, double scalloped borders. These robes are a rich, glossy black, largest size and extra heavy. Size, about 60x70 in. Weight, 12½ lbs. Each $14.95

Imitation Brown Russian Cub Bear Robes. These robes are made from a first selection of Japanese goat skins with long hair, closely furred and strong leather. They are a rich dark brown in color and resemble bear skins so closely that expert furriers are often deceived. The pelts are free from dye and the leather is sound and perfect. We have secured a large supply, as these robes are such excellent value that they are in great demand all over the country. Our robes are lined with a superior quality of plain brown plush instead of the common cloth usually used in robes of this style. Double scalloped brown borders to match. Made in two sizes.

95B4866—Size, about 54x66 in. Wt., 10 lbs. Each $11.75

95B4867—Size, about 60x70 in. Weight, 11 lbs. Each 13.95

$4.98 Gray Fur Robes $13.25

All our Gray Fur Robes, made especially for us from selected imported Oriental goatskins. Seams strongly sewed, skins well covered with good long hair. Every effort is put forth to have each robe thoroughly cleansed and free from odor.

95B4875—Gray Fur Lap Robes; Oriental goat robe, lined with fancy felt cloth, scalloped border. Size, 47x59 in. Weight, 5¼ lbs. Each $4.98

95B4876—Gray Fur Lap Robes; Oriental goat fur robes lined with heavy blanket lining, single border. Size, 48x60 in. Weight, 6¼ lbs. Each $6.50

95B4877—Gray Fur Lap Robes; standard size; Oriental goat fur robes, lined with extra heavy plain plush, scalloped borders in fancy colors. Size, 48x60 in. Weight, 7½ lbs. Each $7.95

95B4878—Gray Fur Lap Robes; large size; Oriental goat fur robes, deodorized, lined with heavy blanket lining, scalloped felt border. Size, 54x66 in. Weight, 8½ lbs. Each $8.45

95B4879—Gray Fur Lap Robes, large size; Oriental goat fur robes, deodorized, lined with extra quality plain plush and trimmed with scalloped felt border. Size, 54x66 in. Weight, 9½ lbs. Each $9.75

95B4880—Gray Fur Lap Robes, extra large size; deodorized Oriental goat fur robes, lined with super quality plain plush, fancy double scalloped borders. Size, 60x70 in. Weight, 12 lbs. Each $11.50

95B4881—Gray Fur Lap Robes, extra large size; Oriental goat fur lap robes, deodorized, lined with the best quality of fancy plush robe lining in figures or medallion patterns, double scalloped borders, extra weight and extra quality. Size, 58x68 in. Weight, 12½ lbs. Each $13.25

$7.98 New Plush Auto Muff Robe
Comfortable—Warm—Inexpensive

95B4930

Twentieth Century Automobile, Carriage or Wagon Robe. The newest and most up-to-date weather-proof lap robe we offer. A robe we had made especially for us, combining, in our judgment, the chief essentials and serviceable qualities that a robe should have. Made with two pocket muffs as shown in illustration. The face of this robe is an extra quality mohair plush in rich, shaded, brown tone effects; plain black, extra quality, plush back with an all around double scalloped felt border. Extra quality rubber interlining. A robe that will give you the acme of service and warmth in wear. It is practically wind, rain and cold proof. Size, 54x66 inches. Weight, about 14 pounds.

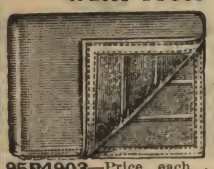
95B4930—Price, each $7.98

Our Frost King Weather-proof Robe

The same quality robe as 95B4922, but finished all around with a double scalloped felt border in the same manner as the better grade of fur robes. Made with a heavy rubber cloth interlining, making it three-ply. Extra large size, 54x72 in. Weight, 10¾ pounds.

95B4918—Price, each $6.75

Water-Proof Plush and Rubber Robes



Water-proof Lap Robes, extra quality heavy "Goodyear" rubber cloth on one side, good, rich, fine quality plain green plush on the other side; two rows of stitching all around the edge. Dust, wind and waterproof. High grade material throughout. Retails for $3.50. Made in two sizes, as follows:

95B4898—50x60 in. Weight 5¼ lbs. Each $2.95

Water-proof Lap Robes, extra large size, extra quality, heavy rubber cloth on one side, plain green raised plush on other side.

95B4899—54x66 in. Weight, 7½ lbs. Each $3.75

Water-Proof Cloth Robes

Made from specially treated, good quality cloth. Wind and waterproof. Gray color cloth on outside, dark color, fancy plaid back. Will not show mud stains, nor become wet through. Protects against wind and rain. Size, 52x60 in. Wt., each 5 lbs. $1.65

95B4903—Price, each $1.65

Plain Double and Single—Plush Robes

Western Single Plush Lap Robes, single bodies. Plain green color. Bound all around the edges. The best single plush robe that is being offered at the price. This is an excellent quality in this style robe. Size, 50x60 in. Weight, 3¼ lbs.

95B4908—Each $1.75

Plain Double Plush Robes, M. W. & Co.'s Special "Pacific" Grade. The most popular style and quality of plush robes ever sold. Fine, firm, close and warm. Good quality plain green plush face with the nap well raised; plain black plush back, hemmed all around the edge. This is the lowest price that has ever been made on a robe of this quality, size and weight. Retail value at least $3.00 each.

95B4909—50x60 in. Weight, 5½ lbs. Price, each $2.85

Plain Double Plush Robe, extra heavy, extra quality; green plush face with nap well raised, plain black plush back.

95B4912—50x60 in. Weight, 6 lbs. Price, each $3.25

Plain Double Plush Robe, extra large and extra heavy. Extra quality green plush face, well raised nap; plain black plush back.

95B6189—Price, each $1.34

Single Strap Steel Tree Gig Saddles

Our Special Steel Tree Gig Saddles (or buggy back bands,) that we are using in our single harness, are the best that are made. The trees in our Special Gig Saddles are heavy tempered steel plate. (See small illustration style "A") eliminating the possibility of breaking. You know you always have trouble with the old style sooner or later. The pads are full leather, sewed all around the edge (not tacked to pasteboard), and stuffed with hair (see small illustration style "B"). The Bearers (or shaft holders) are heavy, double and stitched, sewed into metal loop, this loop being attached to heavy piece of metal held in place with pad screws and line terrets. The Skirts are cut from heavy, single strap harness leather, with billets for bellybands sewed on.

The Bearer Loop before mentioned allows a free movement of the bearer in all directions; no old style loops to tear out; no bearer pulling loose and causing an accident.

Gig Saddle single strap harness leather skirts, STEEL TREE, leather lined, sewed straight pads with dee bearers, 3 in. saddles with 1 in. shaft bearers straps and ⅞ in. bellyband straps. Prices do not include shaft tugs or bellybands. Weight, 2¾ lbs. Made in the following trimmings.

"Our Economy Automatic Lock-Stitch Sewing Awl Repair Outfit"

The simplest and most practical harness and shoe repairing outfit on the market. Contains all the necessary tools for doing any kind of leather repairing. Especially desirable and a money saver for farmers, teamsters and livery men. The outfit contains one lock-stitch automatic wax thread sewing awl, one needle for heavy stitching and general repairing, one small needle for light stitching, one curved needle for sewing patches on shoes, one collar awl for repairing and sewing sweats in collars, lacing up belting, etc. Two spools of our special linen thread No. 3 and No. 5 all ready twisted and prepared to wax, one collapsible clamp or stitching horse, one ball of wax, one extra bobbin, one wrench, all put up in a neat wooden box with complete set of instructions. The awl will stitch the heaviest tug or the lightest glove. With it you can repair shoes, harness, belts, rugs, carpets, tents, awnings, canvas of all kinds, mittens, saddles, buggy tops, etc. The awl carries a grooved needle, such as is used in all lock-stitch sewing machines and the thread is carried from a bobbin inside of the handle, where it is protected and out of the way. It is so simple any one can use it and you will find it will save you many dollars during the course of a year. Weight, packed for shipment, 25 oz.

Order **95B8100**—Outfit complete as shown, price **60c**
Order **95B8101**—Lock-stitch Sewing Awl with three needles and one reel of thread. Price each, weight, 2 oz. **25c**

Add extra for needles, curved or straight, **5c** each; per dozen **50c**
Add extra for thread, per spool **5c**
Add extra for beeswax for waxing, per cake, **5c**. Per dozen cakes **50c**

Oak Harness Leather

OUR STERLING ACORN BRAND OAK

Our Sterling Acorn Brand Oak Bark Tanned Leather, carefully selected by our leather expert who has spent a life-time in the leather business. The leather we offer you is **"Genuine Oak Leather," tanned in the old fashioned way from Oak Bark.** Far superior to most leather now being offered under Union, English or German Tannage brands. Ours is the best we can possibly obtain, and leather that will give you satisfactory service. It is strong and durable. Its quality is such that it costs more than the average brands of leather now on the market, but while it costs you no more, **remember it is worth more.** We are certain no one can offer you the selection of quality leather we do at the low prices named.

We sell harness leather in whole sides only, as we do not cut sides.

Prices on leather are subject to market changes without notice.

95B8105—Harness Leather for repair purposes. The leather sold under this number is what is known as belly leather, being the lower part of the side from which the back has been cut for single strap harness. The leather comes from various sources, but **is of the best tannage and no selection will be made other than weight.** The pieces will weigh from 4 to 7 lbs. each. We will not cut them, but sell them as they are. Per lb. **31c**

195B8106—Oak Tanned Black Harness Leather. Selected "B" grade, whole sides only. Sides weigh from 15 to 22 lbs. Per lb. in full sides **45c**

195B8107—No. 1 Oak Tanned Harness Leather. Our Sterling Acorn Brand Extra Quality, black. Weight, per side, from 15 to 22 lbs. Per lb. in full sides **49c**

95B8108—No. 1 Oak Tanned Russet Skirting or Saddle Leather. Sides weigh from 12 to 15 lbs. each. We do not cut sides. Per lb. **87c**

Sheepskins

95B8180 — Russet Leather Sheepskins, good large size, for blacksmiths' and lumbermen's aprons, etc. Weight, each, 24 oz. Each **$1.35**

95B8181—Sheepskins, tanned, with wool on, used for lining saddles and harness, large size. Weight, each, about 2 lbs. Each **$1.75**

Myer's Famous Lock Stitch Sewing Awl

This Awl is designed for speedy stitching, particularly for farmers' use, and will be found a **time saver** in nearly every household. Its simplicity makes it a practical tool for all kinds of repair work, even in the hands of the most unskilled.

With this tool you can mend harness, shoes, tents, awnings, pulley belts, carpets, saddles, buggy tops, suit cases, dash boards, or any heavy material. You can sew up wire cuts on horses and cattle, therefore the veterinarian and stock man finds it indispensable.

The Awl, proper, is grooved to contain the thread or waxed end, and the point, being diamond shaped, will go through the toughest leather, any thickness. It is the best Lock Stitch Sewing Awl we have ever seen, and we know from actual test that it is the most practical awl and sewing machine for general use ever devised. This awl is not a novelty, but a necessity, and has been proved by our enormous sales to be a labor saver to every user.

The awl comes packed complete with one straight and one curved needle, one reel waxed thread, small wrench and screw-driver combined, and complete set of directions for use. Weight, about 3 ounces.

95B8113—Price, each **$0.65**
95B8114—Price, per dozen **7.00**
Add for extra needles (curved or straight) **5c** each; 6 for . . . . . **.25**
Add extra for one-quarter pound tubes of thread for filling spools, price per tube, **39c.** Add extra for beeswax for waxing thread, per cake, **5c;** per dozen cakes, **50c.** Add extra for reels filled with thread. Each **15c**

ZIG-ZAG HARNESS MENDERS

95B8119—Zig-Zag Harness and Belt Menders and Shoe Sole Savers. Used in place of rivets or sewing. Put on with a hammer. Cheap, strong and practical. **Each package contains three dozen menders, assorted in three sizes.** For putting on buckles, snap rings, mending lines and other strap work, and for increasing the wear of shoe soles. Regular retail price, 25c per package. Weight, per package, 6½ oz.
Our price, per package **$0.19**
Per dozen packages **2.00**

Price, without jaw strap. Each **$2.75**
195B8274—Jaw Strap (weight, 6⅛ lbs.), add **35c**

Improved Circle Brand Harness Oil

A superior oil for preserving harness leather. It keeps the leather soft and pliable. Prevents warping and cracking, thus avoiding scratching and cutting. A few applications will give an old harness a fine black gloss, just like new. Sweat and rain do not affect harness treated with Circle Brand Oil. Not only does it preserve the leather itself, but it prevents the threads from cracking, hardening, or rotting, thereby lengthening the life of the harness considerably. This oil, applied whenever necessary, will make your harness look better and last much longer. Contains only the highest grade stock, properly compounded. The addition of Neatsfoot and Kid Oil keeps the leather soft and pliable, and entirely water-proof. There is no better harness oil made. Can be used to good advantage on any similar leather surfaces exposed to weather and hard usage. Buy Circle Brand Harness Oil.

95B8331—Half gallon cans. Weight, 4½ lbs. **Price, per can** **25c**

Per dozen **30c**

Need a good Saddle? Wonderful values on our Saddle pages. See Index

TEAS

With our immense yearly purchases, we gain first choice of the most fragrant teas. Our volume gives our buyer first call in the world's markets. From the millions of pounds imported each year, we select, grade for grade, some of the finest teas sold in America. According to your taste, you are always sure of the very finest, most fragrant quality—we offer you the very cream of the teas shipped out of the Orient.

The better, finer flavor of the higher priced teas more than makes up for the extra cost. You really make the greatest savings by buying the grades we quote at from 40c to 60c. Of course, our lower grades are very good values for the price, too.

Tea loses its flavor if it is not carefully and quickly handled. As soon as it is picked, sorted, and fired, it is packed in sealed lead tea chests. Many plantations are far inland. The tea is transported to the seaports in ox-carts, and sometimes on the backs of elephants. From these seaports the tea is shipped to our warehouse, where it is packed in the form in which it reaches you. The flavors are never allowed to evaporate—they are kept closely sealed up, to delight you with their full fragrance at your table.

Our full line of Teas is shown in our Grocery List issued every 60 days

TEA PRICES SUBJECT TO MARKET CHANGES

When this catalogue went to press we did not look for any decided change in the Tea Market. However, we reserve the privilege of following the market in the case of any extraordinary changes, should the present unsettled condition result in a tax on Tea or Coffee, or otherwise seriously affect the market on these commodities. We do, however, guarantee to give our customers the benefit of any reduction in price, and will protect you in every way.

JAPAN TEAS

Uncolored Japan Tea

(Short Green Leaf)

Uncolored Japan Tea is a short, tender green leaf, formerly known as Sun Dried Japan. Draws a delicately flavored, light-colored liquor, that is most pleasing to the palate. The most popular tea in our list. Three grades in this Catalogue:

Good Quality		Fine Quality		Fancy Quality	
40 Cent Retail Value		60 Cent Retail Value		70 Cent Retail Value	
99B264—1-lb. canister	$0.30	99B276—1-lb. canister	$0.42	99B282—1-lb. canister	$0.45
99B262—3-lb. canister	.87	99B274—3-lb. canister	1.23	99B280—3-lb. canister	1.32
99B261—5-lb. caddy	1.40	99B273—5-lb. caddy	2.00	99B279—5-lb. caddy	2.15
199B260—10-lb. caddy	2.70	199B272—10-lb. caddy	3.90	199B278—10-lb. caddy	4.20

Basket-Fired Uncolored Japan Teas

(Long Olive Green Leaf)

Basket Fired Uncolored Japan Tea is a wiry needle-shaped olive-green leaf, commonly called Uncolored Japan. The leaves are a darker green and longer than the Sun Dried variety. Draws a beautiful, clear liquor; mild, delicate flavor. Three grades to choose from in this Catalogue.

Good Quality		Choice Quality		Fine Quality	
40 Cent Retail Value		60 Cent Retail Value		70 Cent Retail Value	
99B288—1-lb. canister	$0.30	99B294—1-lb. canister	$0.42	99B300—1-lb. canister	$0.46
99B286—3-lb. canister	.87	99B292—3-lb. canister	1.23	99B298—3-lb. canister	1.35
99B285—5-lb. caddy	1.40	99B291—5-lb. caddy	2.00	99B297—5-lb. caddy	2.20
199B284—10-lb. caddy	2.70	199B290—10-lb. caddy	3.90	199B296—10-lb. caddy	4.30

To get the finest flavor and most delicate aroma from teas, fresh water should be heated to a point where it boils furiously. Then, after scalding the teapot, put in a level teaspoonful of tea for each cup of tea you wish to make. Pour on the boiling water and let it steep from 5 to 6 minutes.

Young Hyson Teas (Short Green Leaf)

Young Hyson Tea is a short, curly uniform green leaf. Draws a light, clear liquor, with a rich, full flavor. We list two grades only in this Catalogue.

Good Quality

40 Cent Retail Value

Our Coffee Department

Coffee Prices Subject to Market Changes

When this catalogue went to press we did not look for any decided change in the Coffee Market. However, we reserve the privilege of following the market in the case of any extraordinary changes, should the present unsettled conditions result in a tax on coffee, or otherwise seriously affect the market on this commodity. We do, however, agree to give our customers the benefit of any reduction in price and will protect you in every way.

You are all very particular about the quality and flavor of the coffee that you drink, and, no doubt, are anxious to buy it as cheaply as possible. We take great pride in the fine drinking merits of our various grades and blends. The extensive line that we offer enables you to select the grade of coffee you want, while our prices show you a substantial saving for that grade. We are direct importers of coffee and buy the finest selections from the various coffee-growing countries of the world. Our coffees are carefully blended and roasted. We employ a coffee expert to watch the roasts and to test the many grades and blends. You can feel assured when you order our coffees that they will be the finest obtainable for the grade, and the flavor will always run uniform. Another thing to be considered is the useful containers in which our coffees are packed. They serve a double purpose, for not only do they keep the coffee crisp and fresh, but they can also be used, when emptied, for many useful purposes.

Our coffees are packed fresh from the roaster into 100-lb., 50-lb. and 25-lb. heavy metal drums, and 5-lb. and 2-lb. moisture-proof containers (as illustrated); also some special containers, not all listed here. The drums are extra heavy and will be found useful in many ways after being emptied.

The coffees listed on this page are but a part of the complete line shown in our Grocery Price List. Place a trial order for a drum or carton from this list and at the same time request a copy of our complete Grocery Price List.

Shipping Weights: 100-lb. drums, 115 lbs.; 50-lb. drums, 60 lbs.; 25-lb. drums, 30 lbs. Every drum and carton well packed to insure safe shipment.

Golden Rio Coffee—Roasted

30 Cent Retail Value

Our Golden Rio is popular for its richness and aroma. It is smooth, making it very pleasant to the taste; and still it is heavy, full flavored, very satisfying in every way, as our sales indicate, it being the largest seller in our Roasted Coffee list. Customers find it better than the retailer's 30-cent grade.

Contents quoted are full weight.

Genuine Java and Arabian Mocha

Fresh Roasted Coffee

This is the finest coffee you can procure. A blend of genuine Mocha from Arabia and genuine Java from the Dutch East Indies. This combination, together with the proper aging of the green coffees, and our daily roasting, produces a coffee that will make a beverage that for flavor, body and deliciousness, is unexcelled. Shipping weight, 5-lb. can, 6 lbs.

99B11—5-pound canister, full weight **$1.90**

199B12—Six 5-pound canister, full weight **$11.10**

O. G. Brand Coffee—Roasted

35 Cent Retail Value

When we find a coffee with a "body," which means a heavy coffee, we have a foundation for a blend of true merit. Next is added a coffee with flavor and smoothness, to tone up the "body;" and last, one with acid, a pungent coffee, which rounds up all the other qualities, holds the "body," the flavor and smoothness in unison. In other words, makes the blend "stand up in the cup."

Contents quoted are full weight.

99B76—2-pound canister	$ 0.56
99B75—5-pound canister	1.38
199B73—25-pound enameled metal drum	6.87

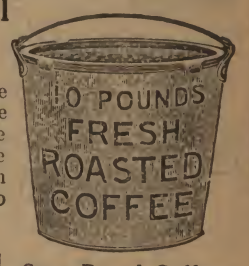
A Cooling Pail with 10 Pounds Fresh Roasted Coffee

This pail is one of the most practical containers we have ever offered with coffee. Made of heavy tin plate; height, 13¾ inches, diameter, 8½ inches; holds 14 quarts and has deep slip cover. Will be found very useful in the dairy or kitchen for cooling milk, cream and butter, or for holding water.

Retail value, 50 cents. Every pail is packed in corrugated shipping carton. **Shipping weight, 14 pounds.**



Golden Rio Coffee
Roasted
30 Cent Retail Value.
Our most popular seller. Rich and aromatic.

199B14—10 pounds (in cooling pail) **$2.40**
Shipping weight, 15 pounds.

O. G. Brand Coffee
Roasted
35 Cent Retail Value
A high grade blend of special merit.

199B15—10 pounds (in cooling pail) **$2.75**
Shipping weight, 15 pounds.

14 Quart Galvanized Iron Pail With 10 Pounds Fresh Roasted Coffee

The heavy, galvanized iron pail that we use to pack ten pounds of coffee in, under these three offers, is a substantial 14-quart size pail. It will be found very useful around the house or barn. The lid is separate, and can be detached without injury to the pail. No lettering on pail we send you.

Shipping weight, 13 pounds.

Golden Rio Coffee
Fresh Roasted
Our Fresh Roasted Golden Rio is our most popular coffee, because of its richness and delightful aroma. It is smooth and very pleasant to the taste, still it is a heavy, full-flavored coffee. Equal to the average 30c grade at retail.

199B16—10 lbs., packed in pail .. **$2.40**

O. G. Brand Coffee
Fresh Roasted
This is our famous Fresh Roasted O. G. Brand Coffee. Very popular and recommended as fully equal to the retailer's 35c grade. A delicious blend that has the right body, flavor and smoothness for making a mellow, pleasing coffee.

199B17—10 lbs. packed in pail ... **$2.75**

Snap Brand Coffee
Fresh Roasted
Our Fresh Roasted Snap Brand Coffee consists of the small beans separated from high grade coffees. Could not be equaled at retail without paying several cents per pound more than this price. A trial will convince you of its exceptional value.

199B19—10 lbs. packed in pail **$2.15**

Merrill's Special Selection Coffees

Selection No. 1

40-Cent Retail Value

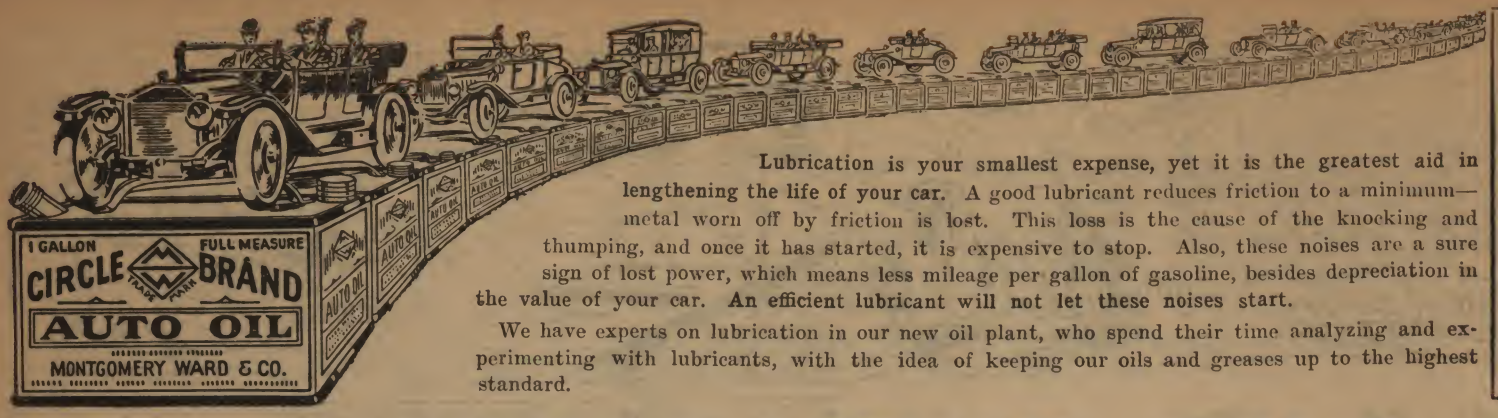
Rich, heavy, full flavored and smooth, with the Java aroma. Some of the best coffees that grow are used in this blend. Several months' supply of green coffee always on hand insures its uniformity.

99B30—5-pound pail **$1.50**
199B31—25-pound canister **7.38**
Shipping weight, 25-pound canister, 35 pounds.

Selection No. 2

38-Cent Retail Value

An excellent blend. Rich, heavy and full flavored, but not as smooth as Selection No. 1. Many coffee houses offer this grade as their best.



99B32—5-pound pail **$1.40**
199B33—25-pound canister **6.88**
Shipping weight, 25-pound canister, 35 pounds.

Selection No. 3

35-Cent Retail Value

A delicious, sweet blend, much milder than either the Number 1 or Number 2 Selection. Has a delightful taste. We suggest ordering this grade if you like a coffee that is not heavy or pungent.

99B34—5-pound pail **$1.30**
199B35—25-pound canister **6.38**
Shipping weight, 25 pound canister, 35 pounds.

Lubrication is your smallest expense, yet it is the greatest aid in lengthening the life of your car. A good lubricant reduces friction to a minimum—metal worn off by friction is lost. This loss is the cause of the knocking and thumping, and once it has started, it is expensive to stop. Also, these noises are a sure sign of lost power, which means less mileage per gallon of gasoline, besides depreciation in the value of your car. **An efficient lubricant will not let these noises start.**

We have experts on lubrication in our new oil plant, who spend their time analyzing and experimenting with lubricants, with the idea of keeping our oils and greases up to the highest standard.

Our Grocery Price List Will Be Mailed To You Every 60 Days If You Will Request It

LUBRICATING OILS

Transmission Oil

5-Gallon Can, $1.60

Gravity	Flash	Fire	Cold
21.3	480	600	30

Viscosity 165 at 210

A heavy, dark green oil. Very suitable for use in transmission or differential gear cases. Preferred by some to transmission grease. Will not gum or corrode from use and will maintain its fluidity.

99B7458—	1 gallon can	$ 0.37
199B7457—	5 gallon jacketed can	1.60
199B7482—	30 gallon (steel)	9.30
199B7456—	30 gallon (wood)	8.40
199B7455—	50 gallon (wood)	12.50
199B7481—	50 gallon (steel)	15.00

Transmission Grease

A semi-fluid grease for use in transmissions of either sliding gear or of selective types where a grease may be required, and when case will not retain oil. Can also be used in differentials, housings.

199B7524—	10-pound tin	$0.70
199B7525—	25-pound tin	1.60
199B7526—	50-pound tin	3.00

Linoleum Preservative M. W. & Co.'s Brand

Will add to the wearing qualities of linoleum and floor oilcloth. Makes it much easier to clean, and will help to preserve pattern and colors. Will not crack, neither will heat nor cold affect it. A quart covers about 160 square feet.

99B8301—Pint can	$0.25
99B8300—Quart can	.45

Automobile Oil (Pale Straw Color)

Gravity	Flash	Fire	Cold	Viscosity
27	390	440	5	225 at 100

A pale, straw color oil for lubrication by gravity, force feed or splash system, of all styles and types of motors operated under ordinary compression and mechanical conditions.

This is a strictly pure mineral oil and is redistilled from the crude to obtain the highest possible fire test consistent with other needed qualities to insure a perfect automobile lubricant.

The oil is then subjected to low temperatures by refrigeration and the congealed paraffine waxes removed by hydraulic presses. The resultant oil is thus given the needed cold test.

The oil is thoroughly filtered through Fuller's Earth to remove all traces of Free Carbon. You may pay more for extensively advertised brands, but it would be hard to improve on the quality.

Use freely on all wearing points as well as in the cylinder. Recommended for Motor-boats, Motorcycles, Electric Vehicles, or in fact any high speed machinery.

99B7468—	1 gallon Lithographed squat can	$0.38	
199B7467—	5 gallon square Lithographed can	1.65	
199B7466—	30 gallons (wood)	$ 8.10	
199B7480—	30 gallons (steel)	9.00	
199B7465—	50 gallons (wood)	12.00	
199B7479—	50 gallons (steel)	14.50	

Automobile Oil (Heavy, Ruby Color)

Gravity	Flash	Fire	Cold	Viscosity
26.5	410	475	25	270 at 100

A non-carbonizing, heavy-bodied oil for air-cooled motors and motorcycles having force feed of the Indian type, and two cycle motors when lubrication is had by mixing lubricating oil with gasoline. Also on all cars where through long service the compression is bad, and wherever mechanical conditions require a heavy oil.

99B7438—	1-gallon can	$0.45	
199B7437—	5-gallon can	1.75	
199B7436—	30-gallon (wood)	8.70	
199B7440—	30-gallon (steel)	$ 9.60	
199B7435—	50-gallon (wood)	13.00	
199B7439—	50-gallon (steel)	15.50	

Castor Transmission Grease

10-Pound Tin, $1.25

This is a special high grade transmission grease. Nothing but deacidized materials enter into the composition of our transmission and cup greases, special high grade Fats are employed in the manufacture of our castor transmission grease. A uniform consistency twelve months in the year. Same quality sold under proprietary brands at just about double what we ask.

99B7462—	10-pound tin	$1.25
199B7463—	25-pound tin	2.60
199B7464—	50-pound tin	4.75

Fibre or Sponge Transmission Grease

10-Pound Tin, 90 cents

Considered by experts to be the coming transmission lubricant.

Its spongy, fibrous nature causes it to cling close to the moving parts. Changes of weather temperature, even the highest, do not affect it. It does not leak or drip from the casing, and is therefore a reliable and economical grease to use.

99B7459—	10-pound tin	$0.90
199B7460—	25-pound tin	2.00
199B7461—	50-pound tin	3.80

Silent Transmission Grease

10-Pound Tin, $1.40

For use where cars have been long in service and the transmission or differential gears are worn. While lubricating thoroughly, it reduces the noise to a minimum.

99B7470—	10-pound tin	$1.40
199B7471—	25-pound tin	2.75
199B7472—	50-pound tin	5.25

MACHINE OILS

Machine Oils

Harvester Oil

The Friend of the Farmer

The Heavy Oil without a "String"

Gravity, 24; Flash, 410; Fire, 460; Cold, 25; Viscosity, 700 at 100.

This oil is preferred by the agricultural trade to the so-called castor or castor machine oils. Our compounded Harvester Oil is made especially for the use of farmers and threshers. Wears longer than any castor machine oil made. Used from a squirt can it cuts off without a "string." Thick, but not ropy. One of the best oils for the purpose on the market. Absolutely will not gum nor corrode from use.

99B7408—	1 gallon can	$ 0.33
199B7407—	5 gallon jacketed can	1.40
199B7406—	30 gallon, wood	6.60
199B7410—	30 gallon steel	7.50
199B7405—	50 gallon, wood	9.50
199B7409—	50 gallon, steel	12.00

Summer Black Oil

A crude oil, with the exception of having some of the higher distillates removed. This does not injure any of its qualities for the purposes it is intended, and makes it less dangerous to handle. Is intended for use in warm weather. It is used as a lubricant and is very desirable as an exterminator of vermin on hogs, when used in our hog greasers.

99B7478—	1 gallon can	$0.21
199B7477—	5 gallon jacketed can	.85
199B7476—	30 gallon, wood	3.60
199B7484—	30 gallon, steel	4.50
199B7475—	50 gallon, wood	4.50
199B7483—	50 gallon, steel	7.00

Winter Black Oil

This oil is the same as our Summer Black Oil, with the exception that it has been subjected to a cold test. This oil is intended for use in cold weather and will not solidify only under extreme conditions. Used for the same purposes as Summer Black Oil.

99B7488—	1 gallon can	$0.22
199B7487—	5 gallon jacketed can	.90
199B7486—	30 gallon, wood	3.90
199B7490—	30 gallon, steel	4.80
199B7485—	50 gallon, wood	5.00
199B7489—	50 gallon, steel	7.50

Soap Paste M. W. & Co.'s Brand

For removing grease and oil from the hands. Motorists, machinists and everyone working where there is grease, will find this a most satisfactory soap to use. Packed in lithographed 1 and 2 pound, full weight tins.

99B6321—	3 one pound tins	25c
99B7315—	3 two pound tins	39c

Machine Oil (Medium)

5-Gallon Can, $1.40

Gravity, 25.7; Flash, 350; Fire, 400; Cold, 15; Viscosity, 150 at 100.

A medium bodied oil, adapted for use on all kinds of farm machinery, light bearings, door hangars, oil stones, etc. A good serviceable oil for all general purposes.

99B7378—	1 gallon can	$0.35
199B7377—	5 gallon can	1.40
199B7376—	30 gallon wood	6.60
199B7380—	30 gallon steel	7.80
199B7375—	50 gallon wood	9.50
199B7379—	50 gallon steel	12.00

Machine Oil (Heavy)

5-Gallon Can, $1.55

Gravity, 24.4; Flash, 360; Fire, 410; Cold, 15; Viscosity, 270 at 100.

A heavy-bodied, high viscosity oil for farm machinery, heavy bearings, pumps, mills, etc., wherever a high grade machine oil is required.

99B7368—	1 gallon can	$0.38
199B7367—	5 gallon can	1.55
199B7366—	30 gallon wood	7.20
199B7370—	30 gallon steel	8.10
199B7365—	50 gallon wood	10.50
199B7369—	50 gallon steel	13.00

Machine Oils

Extra Castor Machine Oil

5-Gallon Can, $1.40

A thick, stringy gelatinous Oil with good cold test. Adapted to slow-running machines, shafting and farm implements in general. For open bearings, where a lighter oil would run off. A good lubricant and in general use for purposes stated.

99B7398—	1 gallon can	$0.34
199B7397—	5 gallon jacketed can	$1.40
199B7396—	30 gal., wood	6.60
199B7400—	30 gallon, steel	$7.50
199B7395—	50 gallon, wood	9.50
199B7399—	50 gallon, steel	12.50

No. 1 Castor Machine Oil

5-Gallon Can, $1.25

Similar to Extra Castor Machine Oil, except that it is lighter in body.

99B7401—	1 gallon can	$0.31
199B7402—	5 gallon jacketed can	$1.25
199B7403—	30 gallon, wood	$5.70
199B7404—	50 gallon, wood	$8.00

Sewing Machine Oil

A very high grade oil for use on sewing machine—absolutely stainless.

2-Ounce Bottles

99B7520—	2-oz. bottles	$0.05
99B7521—	12 bottles	.50

4-Ounce Bottles

99B7522—	4-oz. bottles	$0.08
99B7523—	12 bottles	.85

Lubricating Oil for Oiling Bicycle Bearings

Hawthorne Brand Lubricating Oil, a very fine preparation put up by us for our use exclusively, nothing better made for oiling bicycle bearings.

4-Ounce Cans

99B7529—	One can	$0.10
99B7530—	12 cans	1.10

8-Ounce Cans

99B7527—	One can	$0.14
99B7528—	12 cans	1.52

ENGINE OILS

Dynamo Engine Oil

5-Gallon Can, $1.80

Gravity, 26; Flash, 375; Fire, 420; Cold, 15; Viscosity, 225 at 100.

Here is an Oil especially prepared for high speed engines, dynamos, motors and generators with ring oilers. A fair trial of this oil will prove its value.

99B7418—	1 gallon can	$0.41
199B7417—	5 gallon jacketed can	$1.80
199B7416—	30 gallon, wood	$ 8.10
199B7420—	30 gallon, steel	9.00
199B7415—	50 gallon, wood	12.00
199B7419—	50 gallon, steel	14.50

Golden Engine Oil

5-Gallon Can, $1.15

Gravity, 27.6; Flash, 320; Fire, 370; Cold, 15; Viscosity, 112 at 100.

Under our new system of handling oils, we have improved on the quality of this brand of oil, at the same time reducing the price. A good general utility oil, where too much is not expected for the money.

99B7428—	1 gallon can	$0.28
199B7427—	5 gallon jacketed can	1.15
199B7426—	30 gallon, wood	5.40

LUBRICATING OILS AND GREASES

Harness Oils

Circle Brand Harness Oil

5-Gallon Can, $2.45

This brand of Oil is a valuable combination of oils which preserve and soften the leather. It helps to keep the harness soft and pliable and prevent cracking, and lengthens the life of harness. It is free from ingredients that oxidize and become rancid. Buggy tops that show a disposition to crack should be well oiled, then gone over with a clean cloth to remove the surplus oil that has not been absorbed by the fibres of the leather that are to be lubricated.

99B7351—1-gallon can **$0.54**
199B7350—5-gallon jacketed can..... **2.45**

Climax Brand Harness Oil

5-Gallon Can, $1.85

Made from the same high grade stock as our Circle Brand Harness Oil, but carries a smaller percentage of Neatsfoot and Kid Oils.

99B7358—1-gallon can ..... **$ 0.42**
199B7357—5-gallon jacketed can..... **1.85**

Signal Oil

Expressly for burning in lanterns. Will not harden. Gives a good light. We sell a very high grade oil under this number.

99B7508—1-gallon can **$0.61**
199B7507—5-gallon jacketed can..... **2.80**

Oil and Gasoline Tanks

We cannot ship tanks filled, as railroads will not accept them when filled.

199B7635—Family Oil Tanks. Capacity, 60 gallons. Diameter, 25½ inches. Height, 31 inches. Force pump diameter, 1½ inches. Will hold full barrel of oil and 10 gallons to spare. Made of No. 26 galvanized iron in body and bottom. Wood bottom under metal. Tin hood, portable pump, which can be taken out and used for pumping oil from barrel into tank. Painted. Crated for shipment, 50 pounds.
With pump complete.... **$3.40**
199B7636—Oil Tank. Same material as above, with pump. Capacity, 110 gallons. Crated for shipment, 65 pounds **$5.75**
199B7637—Transfer Pump. For pumping from barrels into tanks. This should be ordered in connection with 199B7638 unless you have one. Crated for shipment, 7 pounds..... **$0.85**
199B7638—Gasoline Tank. Holding 60 gallons. Has 4-inch screw top, ½-inch brass faucet, without pump. Made of same material as oil cans described above. Crated for shipment, 50 pounds.
Price **$3.25**
199B7639—Gasoline Tank. Same material as above. Capacity, 110 gallons. Has 4-inch screw top, ½ inch brass faucet, without pump.
Each **$5.65**
Weight, crated for shipment, 65 pounds.

Description of the Steel Barrels Used for Our Lubricating Oils

Not a drop of solder used in any of our steel barrels. All our steel barrels for lubricating oils are provided with a brass faucet. When shipping, the faucet is attached to inside end of the large plug. To use faucets, remove the large plug, detach the faucet from inside end, replace the plug, then remove small plug and replace with faucet.

Our Special Heavy 50-Gallon Barrels are 16-gauge best open-hearth steel. Our 30-Gallon Steel Barrel is made of 19-gauge open-hearth steel, welded seams, and rolled chimes.

We advise the use of White Lead or Soap on threads of faucet to prevent leakage.

For prices on empty steel barrels, refer to index on blue pages in back of this catalogue.

A Pleased Customer is an Asset

We always endeavor to look at your side of any dealings you may have with us, no matter whether your purchase be large or small. We are not content with merely satisfying you but we want you to be pleased, so pleased that you will tell your friends and neighbors. This is the way our profits are realized, not on your purchase nor your neighbor's, but on all of your purchases, millions of them, from people throughout the world. When we built our new oil house, it was your side of the purchase we had in mind just as much as our own.

We appreciate the fact that when you buy a new machine or engine, you do not want to be continually handing out good money for unnecessary repairs and the like, caused by inferior oils.

To overcome any possibilities of this being the case with any of our oils or greases, we have installed modern facilities to thoroughly test all ingredients that enter into their manufacture. You may rest assured that if any of these do not come up to our high standards, they will not be sold to our customers.

When you next need oil or grease, order from our pages. Any oil you may order, will be exactly as described. When used for the purposes designated, our oils will prove most efficient.

Let us have your next order—we want you to try our products.

CYLINDER OILS

Gasoline Engine Cylinder Oil

A Most Efficient Oil for Gasoline Engines

5-Gallon Can, $1.65

Gravity	Flash	Fire	Cold	Viscosity
25	360	420	15	270 at 100

We have been able to make a notable reduction in the price of our high grade Gasoline Engine Oil, preserving at the same time its admirable qualities. This we have been able to do on account of our increased facilities enabling us to get this article direct from our refiners in tank cars. It is a free-flowing, rich, wine-colored oil, has good cold test and high fire test. You get the maximum of power with the minimum of gasoline by using this oil. Nothing better on the market. Same quality usually sold at 50 cents per gallon.

99B7578—1-gallon can **$0.38**
199B7577—5-gallon jacketed can..... **1.65**
199B7576—30 gallons (wood)..... **7.50**

Steam Cylinder Oil

(Extra Valve)

For High or Low Pressure Cylinders

Gravity, 22.1; Flash, 485; Fire, 535; Cold, 25; Viscosity, 160 at 210.

A high grade, dark amber colored Oil, adapted for use in either high or low pressure cylinder. This oil is so compounded, that steam at high pressure will not wash it off the cylinder. A thin coat of oil remains between the moving parts, preventing friction and consequent loss of power. Oil of this character usually sells at 60 cents to 65 cents per gallon.

99B7558—1-gallon can ..... **$ 0.48**
199B7557—5-gallon jacketed can **2.15**
199B7556—30 gallons (wood) **10.50**

199B7559—50 gallons (steel) **18.50**

No. 1 Cylinder Oil

For Steam Pumps, Stationary or Portable Engines

Gravity, 21.5; Flash, 485; Fire, 600; Cold, 35; Viscosity, 160 at 210.

A heavy, dark green Oil of very good fire test. This brand of oil is preferred by many to the light-colored cylinder oils. Nothing better, regardless of price, for steam pumps, stationary or portable engines. Will not clog lubricators. A very good, economical oil to use. A fuel saver.

99B7568—1-gallon can **$0.46**
199B7567—5-gallon jacketed can..... **2.05**
199B7566—30 gallons (wood)..... **9.60**

Oil Tractor Cylinder Oil

For Oil Tractors

Gravity, 26; Flash, 410; Fire, 475; Cold, 30; Viscosity, 760 at 100.

An Oil Tractor that is expected to deliver its maximum power with the minimum of fuel requires efficient cylinder lubrication as one of the first requisites.

Many oil concerns being under the impression that the tractor cylinder lubrication requirements are similar to the ordinary gas engine, automobile or steam cylinder needs, experiment at the expense of the user. This is costly and unsatisfactory to the consumer.

Ruby color and of syrup consistency. It is the result of careful preparation. Absolutely safe. Reduces friction. Saves oil.

99B7628—1-gallon can ..... **$ 0.47**
199B7629—5-gallon jacketed can..... **2.10**
199B7630—30 gallons (wood)..... **9.60**
199B7633—30 gallons (steel)..... **10.50**
199B7631—50 gallons (wood)..... **14.50**
199B7632—50 gallons (steel)..... **17.00**

XX Cylinder Oil

For Threshers and Stationary or Portable Engines

Gravity, 21.3; Flash, 480; Fire, 600; Cold, 30; Viscosity, 160 at 210.

A very good medium priced cylinder oil. Gives satisfaction to threshers and those using stationary or portable engines. Dark in color.

99B7588—1-gallon can ..... **$ 0.40**
199B7587—5-gallon jacketed can..... **1.75**
199B7586—30 gallons (wood)..... **8.40**
199B7590—30 gallons (steel)..... **9.30**

199B7589—50 gallons (steel)..... **15.00**

SEPARATOR OILS

Hand Separator Oil

5-Gallon Can, $1.80

Gravity, 28; Flash, 340; Fire, 390; Cold, 15; Viscosity, 112 at 100.

It is a non-viscous, neutral oil and has been scientifically compounded to meet the requirements of the various hand separators on the market. It is particularly valuable for spindle lubrication, and will, under no circumstances, thicken and gum from use. It has a high fire test; flows freely and is practically stainless.

99B7548—1 gallon can ..... **$ 0.39**

Power Separator Oil

5-Gallon Can, $1.75

Gravity, 27; Flash, 350; Fire, 400; Cold, 15; Viscosity, 135 at 100.

Here is an Oil especially compounded for use in creameries and large dairies, where power is employed. Pale lemon color. This is a very good oil for general use about the creamery, where power of any kind is used. Adapted for high speed engines, dynames, motors, as well as a general lubricant.

Explanation of Terms

The Fahrenheit Scale is used in all our Tests

In describing our oils, the following technical terms are used:

Gravity means the weight of oil as compared with water. It is usually expressed in degrees. The higher the degree, the lower the gravity, or "body" of oil. An oil of low gravity, or heavy "body" is usually desirable as a lubricant.

Flash. The determination of the burning point is essential, as it furnishes information as to the amount of lighter oils present; oils having too low a Flash point are dangerous to use.

Fire Test establishes the degree of heat at which an oil will burn. At this point the oil begins to decompose, and soon loses its lubricating qualities and value.

Cold Test of an oil shows the lowest degree of temperature at which it will flow at all. It does not affect the lubricating quality of the oil, but an oil of Low Cold Test is sometimes more convenient for use in Winter. Oil starts to cloud and thicken about 10 degrees above the congealing point.

Viscosity is the degree of fluidity of an oil, or its internal friction.

An ideal lubricant is an oil with high viscosity, one that has the greatest adhesion to surfaces.

The viscosity test is the most important one in determining the wearing or "lasting" quality of an oil. The test is usually made by comparing the length of time in which a given quantity of oil will flow through a certain orifice at a temperature stated and is expressed in seconds of time.

Axle Greases

Graphite Axle Grease

For wagons, buggies, bearings, pumps, farm machinery, windmills, etc.

25-Pound Pail, $1.00

Manufactured in our Oil House. A careful blending of some of the best oils obtainable, combined with Graphite or Plumbago. We believe it will last as long as any grease on the market. Will not gum or run off the spindles in the warmest weather. You will find it very economical for buggies and light or heavy wagons. Equally good for all kinds of bearings, pumps, farm machinery, windmills, conveyors, hay loaders, saws, etc. In heavy galvanized iron pails.

Full weight in every pail.

Our Grocery Price List is issued every 60 days and will be mailed to you if you request it. It contains prices of high grade kerosene of a quality that is unsurpassed for incubator use or for lighting purposes.

Stock and Poultry Feeds and Tonics

Pilgrim's Stock Tonic

An Efficient Conditioner

25-lb. Pail, $1.95

The 25-pound package is a heavy galvanized pail. This pail serves to preserve the natural oils and strength, and is very useful after contents have been used. The 100-pounds are packed in a grain bag.

Mr. Stock Owner: Do you fully realize the benefit that your stock derives from a good conditioner? During the short winter days your stock naturally does not get the exercise or the green grass that is so beneficial. Pilgrim's Stock Tonic, when fed with the regular rations, will assist in the thorough digestion of the foods and help the different organs to perform their proper functions. It may be used with good results in cases of loss of appetite, roughness of the hair or coat, stoppage of water or bowels, coughs, colds, inflammation of the lungs and bowels, swelling of the glands of the throat, distemper, etc.; in fact, there is hardly a disease among stock where this excellent remedy could not be used to some advantage. But use it in time. Do not wait until your stock is sick, but give it to ward off sickness. It contains only pure, fresh ingredients that have been approved by veterinarians and have been successfully used.

Pilgrim's Poultry Tonic

Will Make Your Poultry Thrifty

25-lb. Pail, $1.85

Don't neglect your poultry. If they are worth raising they are worth keeping in good condition. If not kept in good condition, they are not likely to pay for their keeping, let alone being profitable. Pilgrim's Poultry Tonic is a proper blend of pure ingredients that assists in keeping poultry in a strong, healthy condition. It helps young chicks to grow and safeguards them from disease. It will help to prevent, and in most cases relieve, chicken cholera. It is unsurpassed for roup, gapes and other diseases in the flock, and will increase the quantity of eggs at all seasons.

Moulting fowls will be assisted through the moulting season and will lay much earlier than otherwise. Will keep your turkeys, geese and ducks in good condition.

Made of egg-producing materials; pure, and apportioned scientifically.

The 25 pounds are put up in a substantial galvanized iron pail, the 100 pounds are packed in a grain bag.

Stock Food Molasses

Perfection Brand

55-gallon Barrel, $8.55

For horses, cattle and hogs. Regulates the bowels, helps assimilate foods, and insures good digestion. When fed continually to cattle it increases the flow of milk. Especially recommended for fattening hogs, being superior to cornmeal for this purpose. Should be thoroughly mixed with or poured over the grain or hay. The average daily portion for a light horse is about one pint; for a draft horse, from one to two quarts; for cattle, one to two quarts; for hogs, about same proportion as cattle. Barrels only of 55 gallons each. Shipping weight, 680 lbs.

299B7110—Barrels, 55 gal. **$8.55**

Shipped from factory in Chicago.

Digester Tankage

100-pound Sack, $2.70

Contains 60 per cent protein, 8 per cent fat, and 6 per cent phosphates. It develops bone and muscle in young pigs, and helps to prevent rheumatism, thumps and rickets, and strengthens the system against all kinds of disease.

199B7060—100-pound bag **$2.70**

Pilgrim's Feeds

We believe the best results will be obtained by following directions given. These feeds were compounded for specific purposes. The different elements required by the animal or fowl for their betterment, that were not found in large enough quantities in every day feeds, were embodied in Pilgrim's Feeds.

For Calves

Pilgrim's Calf Meal
The Great Milk Substitute
Contains:
24 per cent Protein,
5 per cent Fat

25-pound Sack, 90 cents

Every pound makes one gallon of perfect milk substitute, equal to whole milk in raising calves. Raises veal calves at less than the cost of fresh milk. No filling. No mill feed.

Every ounce just the best, wholesome nutriment. Prepared and sold ready for use without cooking. Prevents scouring, and insures early maturity.

Feeding directions in every bag. One pound mixed with skimmed milk according to directions, will make 9 pints of gruel as rich as fresh whole milk, at considerable less cost. Heat or cold will not affect it and it will keep indefinitely.

199B7025— 25-pound bag **$0.90**

For Piglets

Pilgrim's Pig Meal
The Nourishing Milk Substitute for Young Pigs

25-pound Sack, 90 cents

During weaning time change gradually, by feeding Pilgrim's Pig Meal, until they can be fed the regular rations or pasturage. The basis of Pilgrim's Pig Meal is our famous Calf Meal, with the addition of other nourishing ingredients, which are necessary to little pigs. Contains the right percentage of vegetable protein, fat, moisture, ash, etc., in its analysis, to grow bone and muscle. A pound, mixed according to directions, makes a gallon of rich, nourishing gruel, which takes the place of the sow's milk.

199B7024— 25-pound bag **$0.90**
199B7028— 50-pound bag **1.75**
199B7029—100-pound bag **3.38**

For Chicks

Pilgrim's Milk Mash
The Ideal Food for Little Chickens

25-pound Sack, 80 cents

Feed your chicks Pilgrim's Milk Mash and they will grow rapidly. Will be healthier, plumper and better, and will sell at the highest prices. The principal part of this mash is Pilgrim's Calf Meal, the perfect milk substitute, combined with dry milk, barley meal, cornmeal, oatmeal, and other nourishing ingredients. The analysis shows 18 per cent protein and 4 per cent fat. Feeding directions with every bag. Give this mash a trial. Full weight in every bag.

Our Grocery Price List

In our Grocery Price List, issued every 60 days, we quote a more extensive line of tonics and feeds.

This list will be mailed to you on request.

Beef Meal may be fed to a good advantage, when used to balance hog's rations

Quality—Saving—Service

These three factors are always foremost in our transactions. Each plays an important part in any of our purchases.

When manufacturers offer us their products **QUALITY** is the first consideration. If their products meet with our approval, the cost is then considered.

Buying large quantities, sometimes the entire output of a factory, we secure very attractive prices. This buying power represents an ultimate **SAVING** for you.

SERVICE is the last, but not least, point considered. That we have the goods delivered to us in time to fill our orders, without any delay is of the utmost importance.

The fact that the majority of our orders are packed ready to ship within 4 hours from the time the order leaves our office is a point you should consider when placing your orders.

Perfection Brand Stock Food Molasses is an efficient food and flesh builder, when fed with the regular rations.

Send For Our GROCERY LIST

Quality Teas and Coffees

Our coffee and tea expert has selected some choice grades that offer you a treat in flavor and cup qualities. If you're not a regular buyer of our teas and coffees, now's a good time to let us prove our claims.

U. S. Inspected Meats

Smoked, sugar-cured, canned, and preserved meats, make many a hearty meal. Our meats are all of fine quality, government inspected, and always fresh from the big packers.

Flour Dollars

are good dollars to save. That's where we step to the front. Our Sunset Brand is made of hard wheat. You pay us less than you have been in the habit of paying for advertised flour that is not superior to, if as good as, our brand.

Oils and Greases for Many Purposes

Our Grocery Price List contains prices of a wide variety of oils. An oil for almost every purpose, and at a price that's less than you've paid elsewhere. If you have any sort of machinery, then our oil quotations will interest you.

Save on Canned Foods

Keep a variety of our canned fruits, berries, vegetables, etc., always on hand. They're wholesome and delicious. They afford a pleasant change of menu, and are really economical, at our prices.

From Sea and Lake to You

We go right to the biggest fish dealers for our supply. Pack, pickle and brine them in our own Fish Packing Department. Whether you buy by the pail, can or box, our prices save you money.

Candy's a Year Round "Goody"

Let the children eat it—good candy won't hurt them. Our Bitter Sweet Chocolates equal the 60c retail kind—our price is little over half that. Keep wholesome candies in the house always—our candy pages quote an abundant variety.

Stock and Poultry Tonics and Feeds

A necessity for the farm, ranch, dairy, or poultry yard. Good feeds and tonics cost little here, and they help you to keep up your profits by keeping your stock in good condition.

You Should Save —Start Here

If you don't already know, you actually owe it to yourself to find out how much you can save on our quality groceries. No matter where you buy now, send for our Grocery Price List—issued every two months—and see for yourself that this is the place to start saving.

Ours are Quality Foods

Long before many of the present Federal, State and Municipal pure food laws were enacted, we adopted certain high standards of inspection. We have believed throughout our forty-three years of business life that Quality should dominate. Some people even say we have gone to extremes in insisting upon the kind of quality we demand. You know—one brand of food may be pure enough to pass all written laws laid down, but another brand of the same food may be equally pure or purer and in addition possess more **quality.** We always insist upon **Purity plus Quality**—and we get it.

You'll find no better quality pure-food insurance than our Grocery Price List. It should be your groceryman, year in and year out. Form the habit of consulting our Grocery Price List, no matter where you buy now. Heavy groceries, such as canned tomatoes, peas, beans, or sugar, syrup, etc., are the very things to order with light wearing apparel and household articles. You can easily make up a mixed order of this kind, which will weigh 100 pounds, and save money on freight, as it costs just as much to ship less than 100 pounds by freight as it does a full hundred pounds.

Our Grocery Price List Makes You Remarkable Savings on all Your Table and Kitchen Needs

It isn't enough for us to tell you that we can serve you well and save you money. We believe in "heaping the measure," and in sticking to the "spirit" of our agreements, even though conditions might sometimes justify us in not doing so.

We call our savings **remarkable** because they **are** out of the ordinary. Our grocery business is so big and we purchase in such large quantities, that we can afford to sell you foods for less than almost anyone else.

When you buy groceries from us you have a right to expect unusual values. Our business is built on the idea of giving you the greatest value for the money. We receive, during the year, many letters from our customers, telling us of the high quality of our foods and our prompt service. The fact that we get these letters proves many people have been **extra** well pleased with our products.

We want you to send for this Grocery Price List, because we think it is a price list you really need. We issue a new one every two months. If you will do us the favor to ask for it, we will gladly mail it to you.

Little Expressions from Satisfied Customers

"Was very much pleased with the grocery order I made with you in 4th ultimo. The flour was excellent and as for the other groceries, their value in quality can not be excelled by anyone.

"I saved at least (⅓) on the order after paying the freight charges.

"Thanking you for the promptness of the order."

"I am enclosing a grocery order. Perhaps a word of commendation for your service in the past, will not be amiss. After several years' dealing with you, I think we have yet to be disappointed at the quality of your goods. It seems to me that your pre-eminence is your willingness to let your customers always have the benefit of a decline in price."

"The order I received from you a short time ago was in good condition and every article is excellent. We don't need to use nearly as much Sunset Brand of flour as any other brand of hard wheat flour.

"I make a bigger saving by buying of you than I would have saved if I had bought here."

Names and addresses on request.

Dried Fruits

Here's where we excel. Partly because we buy in such big quantities that we get first call in the big markets; partly because we have a standard of quality that's a little better than usual. Prunes, peaches, apricots, raisins, and so on, are all handy, delicious to keep and serve. Economical, especially if you buy them by the box. Our volume insures freshness; our prices insure you a substantial saving; the quality will prove a treat.

Prompt Shipments

Every Order Has Got To Go

Prompt shipment is one of the big ideas in this big institution. *It is a subject we never stop thinking about.* We know its importance and we keep it with us day and night. There isn't an officer in this organization who hasn't burned up a lot of brain power trying to solve the problem to the very last detail.

We know you want your goods at the earliest possible moment. We know you are entitled to them. And we want you to have them *when you want them.* In order to give you this satisfaction we have studied every shipping system in America that is worth studying and put in the most elaborate and costly machinery invented to make the Montgomery Ward & Co.'s Shipping System the promptest in the world.

Almost every order we receive is filled and shipped on the day of its receipt. Many of them are filled in four or five hours. Today we stand at the head of the list in the business world for prompt filling of orders and equally prompt shipments. Shipping most of our orders the day they are received—*lots of them in four or five hours*—is part of our *Good Service* idea, and means a lot to you.

Around Christmas and after Holidays we may stumble a bit but we believe we have well earned a good name for prompt shipments.

Whenever you come to Chicago we want you to see this system in operation. We hope you will drop in to see us. This prompt shipment system, and the way it is done, will show you the wonderful development of the business world and give you the *surprise of your life.*

You are entitled to prompt service—We can give it

These Letters from Customers Prove It

Names and Addresses on Request

Shipment by Return Mail

"I sent my last order on Monday A. M. and had my order home at 2 P. M. Thursday, and it was a mixed order at that. Now that beats all records. A short time ago I ordered a pair of shoes of you and had them, as I requested, by return mail.

Show Mr. Curtis this, as it is record time for anyone. We figure 10 days and up to get an order elsewhere."

Record Time

"Your shipment came to us in record-breaking time and was very handsome (the five pieces of furniture) and in time for the birthday that we wanted it for. More than that, in the quickest time we ever had a shipment come from Chicago, and we have dealt with your firm a good many years."

102 Hours, Start to Finish

"Regarding above order, allow me to compliment you on your service in this instance. I have always found your house to be prompt and the most pleasant of any to deal with, but this order deserves a compliment. It was exactly 102 hours—four days and six hours—from the time the order left my hands till the goods were received. And, considering that it was a special order, time had to be allowed for engraving.

In whole, this order was better, quicker, more satisfactorily attended to than any other house I have ever dealt with, and handled quicker by your house than ever before, due, I should think, to your latest improved methods. And lastly, the article itself would cost at least 100 per cent more here."

Best—Promptest—Most Satisfactory

"Your concern is known in our community as the best, promptest and most satisfactory of concerns, and to be sure I recommend your concern above all others."

From a Railroad Agent

"It appears that your shipping documents are always correctly made out and it also appears that your goods are received in perfect order. I have never heard any complaint whatever about your shipments, which is a sure proof that when goods are packed right and shipped right they will arrive in good condition."

Never So Prompt

"I want to tell you that I am so pleased with my groceries. I never had goods delivered so promptly; I thank you and ask that you send me the next Grocery List."

SPECIAL SERVICE DEPARTMENT

Conducted By John A. Hall

MR JOHN A. HALL is manager and buyer of our Furniture Department. He has served in that capacity for 26 years. By virtue of a thorough knowledge of the most artistic, the most refined, the most elegant, the most desirable offerings of the world's leading merchants, Mr. Hall is enabled to select for you articles that will please the most critical taste. A personal letter to Mr. Hall, in which you state your desires, will at all times receive careful and immediate attention.

For People with Out-of-the-Ordinary Wants and the Means to Supply Them

When you want something entirely outside of the range of ordinary merchandise, use the services of this Department. When you want, for instance, a costly vase, an oil painting, costly furniture—or some other rich, elaborate or elegant article—Mr. Hall will assist you, with a connoisseur's judgment, to select the article, and procure it for you at the lowest possible price. For your ordinary, every day wants, you will find liberal quotations on every line of merchandise in this Catalogue. But for the very special thing—a rich tapestry, an oriental rug, a lawn fountain, gold and silver plate, or an aeroplane—let the Special Service Department help you find what you want.

Write to Mr. Hall personally, telling of your special desire. He will give your wishes prompt attention—offer you expert advice, if you wish—and procure for you, at least possible cost, the very article that you so greatly desire.

This Department is by no means a profit-maker for us. It is conducted merely to fulfill our desire to give full and complete service to our customers. The idea of having such a Department as this is not original with us. It was suggested by many of our customers—and we have instituted this service for you. It has now been in operation for three years and from a service standpoint has proven a complete success—increasing in popularity day by day. It will be greatly to your advantage in every way to let this Department help you find the very special thing that you want. Write fully of your wishes to Mr. Hall and he will serve you promptly, competently, and judiciously.

If You Want any of the articles mentioned below, or any other merchandise of this character, we will get it for you. **Our Paris Office** is especially equipped for securing many of these items.

Through this office we keep in touch with the style trend—for Paris makes the styles—is making them today, in spite of the War. Our Paris Office, through Mr. Hall, is at your service. We give here a few suggestions on special merchandise which may interest you now, or perhaps will in the future.

Fine Dinnerware—Gold, silver or china—your own design, or the most elegant French, Italian or other imported ware.

Gold or Silver Table Service—In sets small or large—the world's most exclusive and exquisite patterns.

Cut and Engraved Glass—Of American or European manufacture, in the most beautiful designs, and the most brilliant and most skillfully cut glass.

Jewelry—Precious stones, set in precious metals—rings, brooches or pendants of exquisite design and finish—from the offerings of the leading and exclusive dealers.

A Costly Watch—Jewelled—with the finest Swiss, French or German movement.

A Jewelled Toilet Set—Sets that would be acceptable in the dressing rooms of royalty.

Jewelled Apparel—Suspenders, garters, shirt studs, etc.—gold, silver or platinum settings, of perfect quality.

Exquisite Perfumes—Or toilet waters. The costly perfumes of Arabia, or the redolent bouquet of French manufacture.

Statuary—A beautiful marble, onyx or other stone—carved anaglyph, bas relief or in statue form—to beautify a finely furnished living room or hall.

Tapestries—Imported, of rich texture and pattern—for decorative or other purposes.

Fine Curtains and Draperies—Beautiful designs and tints, in costly and elegant laces, for a door, a window or some cozy corner.

Oriental Rugs—Elegant products of the Levant—WE WILL BE GLAD TO SEND FIVE OR TEN RUGS, FROM WHICH YOU MAY MAKE YOUR SELECTIONS.

Oil Paintings—Of any dimensions, or by any artist. If they are to be had, we will get them. Mr. Hall will be glad to assist you in the selection of a painting, to harmonize with the interior decoration of your home.

Embroidery, Carvings, Etc.—Of Japanese, European, African or South American origin. Mr. Hall will procure them for you, and help you make selections.

Ornaments—Beautiful vases, piano lamps—heavy gold, brass or silver—rare chinaware.

A Fine Home or Country Place—We will draw up plans or secure them, and procure for you the materials to build with.

A Lawn Fountain—or similar decoration for your front lawn or driveway. We will have made for you a perfect sculpture of brass, alabastine or bronze.

A Scheme For Decorating or Furnishing Your Home—Mr. Hall will study your requirements, suggest plans, and from us you can procure materials, such as old oak rafters, wainscoating, etc.—everything to make your home beautiful.

Lighting Fixtures—Specially designed La Vallieres, chandeliers and art lamps, of exquisite design and manufacture.

Elegant Bathroom Outfits—Marble tubs, wash basins, lavatories—stands with nickel finishings—porcelain walls.

Women's Fine Imported Underwear—Silk—the finest American and European weaves—found in only the most exclusive shops.

French Gowns and Millinery—Specially designed—the latest modes, as seen only in the most exclusive circles—the handiwork of the world's leading tailors and milliners.

Complete Wardrobe For a Man—A complete and elegant outfit, from head to foot, for street or evening wear.

Outfits For Traveling—Complete—such as traveling bags, suitcases, and trunks, and every accessory, of the most elegant manufacture.

Expensive Musical Instruments—Stradivarius violins, grand pianos, string and wind instruments, made by expert foreign manufacturers.

De Luxe Editions of Books—Rare volumes and elaborate editions of great authors for the book lover.

Special Sporting Goods Equipment—Such as the best golf clubs and accessories—equipment of special design made to your order—fishing accessories—all luxuries of the sporting world.

Special Harness and Vehicles—For people of luxurious tastes in this line. Harness sets and equipages made to your order.

Furniture—The Most Modern Designs or Reproductions from Classic Periods

—White enameled furniture, so popular for bedrooms and children's rooms. We can furnish all the modern designs. In the classic period furniture, you may choose from the following: **Louis XIV-XV-XVI Period; Gothic Period; Italian Renaissance; Elizabethan and Jacobean Periods; Queen Anne Period; Empire; Chippendale; Sheraton; Modern German and English Styles; L'Art Nouveau; Colonial Designs; Mission Designs; and the light, dainty reproductions from the Adam Period.**

Remember that all furnishing of the room should be of the same period, such as draperies, color schemes, pictures, mirrors and all ornaments. We will attend to every detail. We can furnish the highest class of furniture that is made in regard to modern designs in the highest class cabinet work construction. The most select stock is used, such as quartered oak, which can be finished in a high polish or dull golden, weathered, Early English, and fumed finishes. Birch finished mahogany in the high polish or dull finish. Bird's-eye maple, in the high polish finish; mahogany, in the dull or high polish finish, also the natural mahogany finish; Circassian walnut, in the dull wax finish.

NOTE: If you wish Mr. Hall to furnish your home complete, and will send him a diagram showing the shape, size and number of the rooms and windows, stating approximately what amount of money you wish to spend, he will submit to you illustrations and prices on the furniture required and the necessary window shades, curtains, rugs, etc., as well.

A Message of Confidence from the Faraway Philippines

Transmitted by the War Department through the Bureau of Insular Affairs

The letter reproduced below from an official of the U. S. Government in the Philippine Islands is interesting as well as flattering to us.

It is interesting to learn that our Government is succeeding in its efforts to improve the condition of the native islanders and that no methods are considered too trivial to follow.

It is interesting to learn that agricultural education and the promotion of sports are now considered necessary elements in promoting peace and contentment among natives previously without such obvious advantages.

It is gratifying to learn the part our institution performs in this faraway work and especially agreeable to know that our government has extended its confidence to us.

The fact that our business is appreciated and patronized by peoples in remote corners of the earth is a decided argument for the advantages we extend to our own people at home.

If people in China, Africa, Java, and other foreign lands find it advantageous to send orders and pay freight charges of startling size—the advantage to our home trade must be apparent on a moment's reflection.

THE GOVERNMENT OF THE PHILIPPINE ISLANDS

Department of the Interior

Manila

Jan. 22, 1915.

Montgomery Ward & Co.,
Chicago, Illinois.
(Through the Bureau of Insular Affairs)
Gentlemen:

You may be interested to learn that some of the so-called wild tribes in the Mountain Province have advanced so far in civilization that one of the Igorots is now using a chicken incubator bought from you.

There is also a great interest in baseball and other athletic sports, which has progressed so far that the Igorot baseball team was victorious in the inter-provincial meet at Vigan recently.

In order to assist the inhabitants of this province to purchase to advantage agricultural implements, school materials, domestic utensils, sporting goods, clothes, musical instruments, and other articles, this office would be pleased if you would send to the Lieutenant-Governor of Benguet, Baguio, P.I., some of your catalogs for distribution. Arrangements will be made to facilitate the issue of money orders.

Very respectfully,

C. B. Batchelder
Delegate of the Secretary of the Interior.

WAR DEPARTMENT, BUREAU OF INSULAR AFFAIRS
Washington D. C., MAR 3 1915
Respectfully transmitted.

INSULAR BUREAU,
MAR 2 1915
13379
-60-
WAR DEPARTMENT
Bt

Letter from the Government of the Philippine Islands Manila

This letter we consider a decided compliment to an American firm. It means that a good name will find its way to the remotest sections of the world.

Montgomery Ward & Co.

Steel Lawn Swings

The Strongest, Finest and Best Swing Made

With Canopy **$9.60**

Without Canopy **$8.50**

Noiseless Bearing

We consider this the strongest, finest and best Swing made. Made of high carbon steel. Iron corner posts are made of heavy angle iron, thoroughly braced with bars and angle steel making the strongest frame. The frame and hangers are finely painted with heavy coats of lead paint, dark green color. The canopy, with its bright colors, makes it very attractive, and serves as a shelter from the hot sun. Seats are wide and roomy, 32 in. wide, 29 in. high, large enough for four adults and have extra high backs. Floor space, 8x5 ft. Height, 8½ ft. This swing is far superior to other makes being sold at a higher price. We know that our swings are strong, durable, safe and reliable. The price we quote on same is far below regular retail price. Shipping weight, 150 pounds.

Do You Need Any of These Special Catalogues?

These complete books have been prepared to display lines of goods which cannot be shown fully in our big General Catalogue. The mere fact that we have prepared a special catalogue on a line does not indicate that its showing in our General Catalogue is not extensive enough to buy from. We simply offer you the special catalogue in case you require more detailed information or want articles which you cannot find in the big book.

If you need goods of the kind shown in any of these special catalogues and do not find sufficient information in our General Catalogue, write for the books you wish. We will send them to you postpaid.

However, in many instances you will find that you can order just as well from the pages of the big book without waiting for a special catalogue to reach you, thus saving time.

In preparing all our Catalogues we have tried to make it pleasant, easy and profitable for you to buy from them.

Groceries

We get out a Pure Food List—a new one every two months. In it you will find a complete showing of dainty and toothsome delicacies of high quality, as well as the staple foods—flour, sugar, etc. This book is a big help to the housekeeper in making up her menus—it contains many new recipes and attractive ideas that are sure to please the whole family. Such low prices are shown throughout, that many dishes usually considered luxuries, have become inexpensive to prepare.

Paints

A handy book for the home painter. You should have a copy of it for reference. It shows a complete line of paints, varnishes, oils, finishes, paint brushes and all other paint supplies. It also includes about 150 color cards, showing actual colors. Buy your paints from this book. This book also tells you how to figure out the amount of paint you'll need for any job; what paint is best suited to your needs and how to paint and varnish to obtain best results.

A Word About Your Requests for These Special Catalogues

Whenever our customers ask for any of our catalogues, we usually send them at once.

Occasionally, however, requests pour in on us faster than we can print books—and once in awhile, when we announce the publication of a new catalogue, we get a lot of requests before the books are out. Ordinarily, though, you can expect your catalogues by return mail.

Wall Paper

Nearly 100 actual wall paper samples. Latest patterns and thoroughly dependable papers at prices ranging from 3 to 50 cents per double roll of 16 yards. This book will show you how to order just enough paper for each room and how to paper your home yourself. You will find that you can buy better papers and more attractive patterns at lower prices from this book than you can in the usual way. This book offers two opportunities for saving: First, by buying your paper here at our low prices; second, by hanging it yourself, thus saving all labor bills.

Plumbing

Whether you are planning entire new equipment or only fixing up it will pay you to get this book. Fixtures and supplies are quoted at money-saving figures. Compare these prices with those asked by the exclusive plumbing supply houses, plumbers, dealers, etc., and you will see what we mean by saying that you will lose money if you buy any plumbing supplies without first consulting our special Plumbing Catalogue. Be your own plumber! Our instructions make it easy to install plumbing yourself. We even loan you the tools.

Heating

Our book on Modern Home Heating answers practically any question that may arise in connection with the heating problem. It will help you decide whether a Steam, Hot Water or Warm Air Plant will best suit your needs. It explains our system of furnishing the material and tools and complete instructions for doing the actual work of installation yourself—thus saving all costly labor bills. It tells how our expert heating engineers design your system according to your requirements, and explains how our "Factory to You" proposition offers you unusual savings.

Tombstones

The prices quoted in our 128-page Tombstone Catalogue will mean big savings for you. You will be surprised to find how much larger and finer a stone you can buy here for the money you are willing to spend. The exceptionally complete showing of unusually fine marble and granite monuments represents the most popular and tasteful designs in every price range. We also send full instructions for setting them up. Let us send you this book if you are interested.

Lighting Fixtures

Is your home pleasantly and efficiently lighted? It adds immensely to home enjoyment to have plenty of light supplied from tasteful and appropriate fixtures. This book shows a complete line of gas and electric fixtures, supplies and general lighting fixture equipment, all quoted at prices which mean a saving to you of 25 to 50 per cent over usual prices. It also includes complete, simple instructions for putting up these fixtures yourself. If you are thinking of fixing up the lighting equipment of your home, or putting in new equipment, it will pay you to get this book. **Write for it.**

Auto Supplies

We have a special catalogue of Auto Supplies that is a ready-reference money-saver for the car owner. Everyone who owns or drives a car should have a copy. It shows a complete line of automobile fittings, supplies, etc., as well as our famous Riverside Tires and Tubes. Pages of remarkable values, offering goods of quality equal or superior to what you buy from your local dealer, and quoted at prices that will generally mean a saving to you of from 15 to 40 per cent. This book also contains some valuable hints on the operation of automobiles, care of tires, inflation, etc.

Detroit-American Farm Implements

A complete showing of this well known line. Strictly high grade—leaders for 32 years—offered at prices that are the lowest possible consistent with the high quality of the Detroit-American products. **Enduring** success is built upon quality only, and the thousands of testimonials from enthusiastic users throughout the country will convince anyone that the success of this line is based upon the service to be had from it. If you are in need of farm implements, send for this book today. It will save you money.

Dairy Book

Are you getting all possible profit out of your dairy? This valuable book tells about our complete line of Golden Harvest Cream Separators, as well as our big line of dairy supplies. It explains the principle of cream separators, and explains how each part of the Golden Harvest is made and fitted into the others to make a smooth-working, profit-producing machine, and as we believe, the best separator value to be had. Whether you milk two cows or two hundred, you ought to have this book.

Poultry Book

There is big money in poultry. The chief requirements are good shelter, proper food and up-to-date supplies. Our Poultry Book shows a complete line of the very latest poultry supplies, incubators, brooders, books on poultry, poultry houses, etc. Don't waste your time on old-fashioned methods and profit-losing supplies. Send for this book, get started with clean, sanitary, food troughs, drinking fountains, etc., and you will be surprised how soon your increased profits will pay for the expense of the up-to-date equipment.

Gas Engines

Our attractive Gas Engine book tells what a prospective engine-buyer should know **before placing his order.** It gives specific instructions for testing a gas engine to determine its horsepower, tells the important points on which the genuine value of an engine depends, and informs you of the weaknesses to look out for in selecting an engine. It also gives interesting facts with regard to our Bull's Eye engines. It shows our gasoline and kerosene engines at prices from $27.50 up, also a complete line of engine fittings, accessories, etc.

Building Material

Going to build? Or are you planning to remodel your present home? In either case you will need our book of Building Material. Over 100 pages of high grade materials, supplies, plumbing, fixtures, etc., together with hints on building plans, how to order mill work, and dozens of other things that will prove of enormous value to the prospective builder. The low prices mean a big saving. If you are in the market for any building material, you ought to have this book, as it will enable you to become posted on the genuine value of these supplies.

Book of Homes

Save 20 to 40 per cent on the cost of that home you are planning. Our Book of Homes contains about seventy-five suggestions for bungalows, cottages and other homes as well as garages, etc. The cost of material and general specifications for each is listed. You will actually be surprised at the kind of homes a comparatively small outlay of money will buy when you order the material from us. This book also contains the details of our Building Plans Offer. The prices we quote show in pleasing contrast to the figures the prospective homebuilder would pay if he bought his material in the usual way.

Pianos

Going to buy a piano? Don't do it—until you get our Windsor Piano Book. It contains valuable information for the guidance of those who want a good piano. It will prove helpful in the purchase of a piano whether your final selection is a Windsor or some other make; it will show you how a first class instrument should be made. The illustrations are reproductions of actual photographs, and picture each important feature exactly as it is. It shows our line of Windsor Pianos and Player-Pianos, and describes each one in detail.

Typewriters

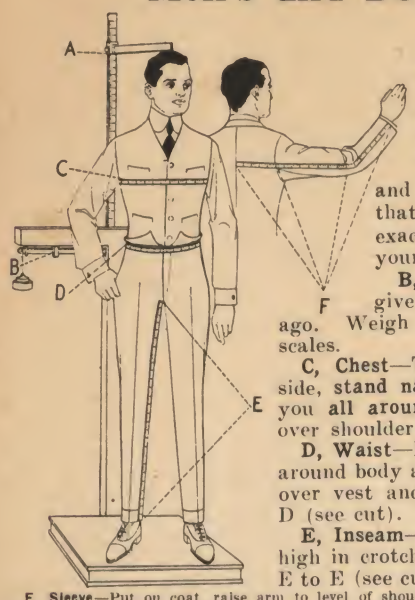
Our book of Reliance Typewriters will tell you about the typewriter that is standard in every way except price. $48.50 buys the new, improved model—a machine that embodies the most desirable features of the widely advertised, high priced typewriters. A good typewriter is extremely valuable in the home, the office, on the farm, or any place where there is writing to be done and where neatness, legibility and speed are desirable. Don't pay the price asked for most standard typewriters. Send for this book and find out what an excellent machine $48.50 will buy.

Pattern Book

A book that should be in the hands of every home dressmaker. With it at hand you will be surprised to see how easily you can make women's and misses' dresses, waists, kimonas, etc. A sure way to save money. This book contains the latest fashion plates and lists the patterns from which they are cut. It also displays a complete line of dress goods, trimmings, laces, findings, etc., and our improved dress forms. This book will prove the means of increasing the wardrobe of any woman at very moderate cost.

Made-to-Measure Clothing

Have your clothes made to your measure. It is easy to have someone take the necessary measurements. It is gratifying to select, from 112 actual samples, the goods from which you wish to have your clothes made, and to wear suits that are **built for you** and which give you perfect fit and individuality. It is economical when you consider the actual clothes value you receive and compare our low prices with the figures you would have to pay in most places for ready-made suits. Send for this book today.



Ready-to-Wear Clothing

Ready-to-Wear Clothing that is ready to wear—clothing that will give you a full measure of clothes satisfaction at rock bottom prices. There are 156 samples of the latest and most attractive fabrics, in this attractive book, also illustrations of the suits and trousers made from them. You may select your suit from as wide a variety and from as up-to-date materials and models as if you took the trouble to come here personally. Our prices will save you money on every suit you buy. Write for this book and study our remarkable clothing values.

HOW TO MEASURE

Men's and Boys' Suits

A, Height—Stand against a wall and have someone hold a ruler or a hard covered book against the wall at the top of your head. Mark the wall where the lower edge of the ruler or book touches it and measure the distance from that point to the floor to get your exact height. Always measure your height **with your shoes on.**

B, Weight—Don't guess, nor give what you weighed some time ago. Weigh yourself **now,** on accurate scales.

C, Chest—Take off coat, drop arms to side, **stand natural,** have someone measure you **all around** the body at C (see cut), over shoulder blades and over your vest.

D, Waist—Have your waist measured all around body at top of hip bones, **two ways;** over vest and under vest over trousers at D (see cut). Send **both** measurements.

E, Inseam—Measurement in inches from high in crotch to bottom heel seam of shoe E to E (see cut).

F, Sleeve—Put on coat, raise arm to level of shoulder and bend forearm slightly, measure from center seam at middle of back to shoulder seam, then to point of elbow, and then to wrist joint, as shown at F (see cut). Send all three measurements.

Give actual measurements. Don't make allowances—we shall take care of that. Mention any particular trouble you may have experienced in getting suits to fit.

Always mention first and second choice, it will save time and trouble in case we happen to be out of the suit you order.

Men's and Boys' Overcoats and Coats

Overcoats, Fur and Fur Lined Coats, Rubber Coats, Cravenettes and Slip-ons—Give chest measure in inches taken over vest as for suit. (Fig. C in cut.)

Sheep and Blanket Lined Work Coats and Mackinaws—Give chest measure in inches taken over vest as for suit (Fig. C in cut). Made to wear without under-coat and be comfortably loose. If desired tight, order smaller. If to be worn over suit or sweater coat, order larger.

Men's Miscellaneous

Bath Robes—Give chest measure in inches.
Collars—Give neck measure in inches.
Night Shirts—Give neck measure in inches.
Pajamas—Give chest measure in inches.
Shirts—Give neck measure in inches.
Sweater Coats—Order two inches larger than chest measure taken over vest.

Men's Underwear

Shirts—Give chest measure in inches.
Drawers—Give waist measure in inches.
Union Suits—Give chest measure in inches.

Men's and Young Men's Trousers

Dress Trousers, Work Pants, and Overalls—Give waist measure in inches (Fig. D in cut). Inseam measure in inches (Fig. E in cut). When ordering cuff bottom trousers, inseam measurement should be 1 to 1½ inches shorter than for plain bottoms.

Boys' and Youths' Miscellaneous

Blouses—Order size by giving age. State whether large or small for his age.
Shirts—Give neck measure in inches.
Collars—Give neck measure in inches.
Night Shirts—State age and whether large or small for his age.
Pajamas—State age and whether large or small for his age.
Sweater Coats and Jerseys—Chest measure in inches taken over vest or blouse.
Junior Sweater Coats and Jerseys—State age and whether large or small for his age.
Boys' Brownie Overalls—To be worn short—shoe-top length. State age and whether large or small for age.

Hosiery Sizes

If you know your shoe size, you can always determine your correct stocking size from the table below. The upper line in each table shows the shoe size; the lower line shows the stocking size that should be worn with that shoe.

Scale of Sizes:

Men

Size of Shoe	5½-6	6½-7	7½-8	8½-9	9½-10-10½	11
Size of Sock	9½	10	10½	11	11½	12

Women

Size of Shoe	1 to 2	2½ to 3½	4 to 5	5½ to 6	6½ to 7	7½ to 8
Size of Hose	8	8½	9	9½	10	10½

Infants and Children

Size of Shoe	1½ to 2	2½ to 3½	4 to 5½	6 to 6½	7 to 7½	8 to 8½	9 to 10
Size of Hose	4	4½	5	5½	6	6½	7
Size of Shoe	10½ to 12	12½ to 2	2½ to 3½	4 to 4½	5 to 6	6½ to 7	
Size of Hose	7½	8	8½	9	9½	10	

About Shoe Measurements

Space on this blank does not permit of our showing a scale of shoe sizes, but if you do not know the size you need, you will find a complete scale of sizes on the introductory page to the shoe section of this Catalogue.

How to Measure Head for Correct Hat Size

Measure head, as illustrated. Compare measurement with table. Then give size. For example: If your head measures 22½ inches, you wear a 7⅛ hat.

Size Hat	6⅛	6¼	6⅜	6½	6⅝	6¾	6⅞
Head, Inches	19¼	19¾	20¼	20¾	21	21½	21⅝
Size Hat	7	7⅛	7¼	7⅜	7½	7⅝	7¾
Head, Inches	22¼	22½	23	23⅜	23¾	24	24½

Women's and Misses' Coats, Suits, Dresses, Kimonos, etc.

It is very important to locate the natural waistline. This can best be done by tying a string or tape around the waist. Take all measurements over a tight fitting waist, making no allowances for seams, etc. Be sure your tape measure is correct.

For Coats, Suits, Waists, etc.

BUST MEASURE—Take your bust measure at A. (See figure.) Run the tape clear around body over fullest part of bust.

Skirt Measurement

WAIST—Take your waist measure at B. (See figure.) Run tape clear around waist at smallest part.

LENGTH—Front, measure at E. (See figure.) From center of waist in front, straight to bottom of skirt.

Women's Vests, Drawers, Union Suits, Gowns, Etc.

Vest—Give your bust measure in inches. Bust measure to be taken the same as for a waist. See A on figure above.
Drawers—Give your hip measure in inches. Hip measure to be taken over fullest part of hips. See D on figure above.
Union Suits—Give your bust measure in inches. Bust measure to be taken the same as for a waist. See A on figure above.
Women's Gowns—Give your bust measure in inches. See A on figure at top of page.
Princess Slips—Give your bust measure in inches. See A on figure at top of page.
Women's Skirts—Give length at E. See figure at top.
Women's Combinations—Give your bust measure in inches.
Women's Chemise Drawers—Give your bust measure in inches.
Child's or Misses' Muslin or Flannelette Gowns, Princess Slips or Drawers—Give age in years and state if large or small for age.
Child's Skirts—Give age in years and state if large or small for age.
Misses' Skirts—Give length at E. See figure at top of page.
Women's Pajamas—Give your bust measure in inches.
Child's Vests and Pants—Give age in years and state if large or small for age.
Child's Union Suits—Give age in years and state if large or small for age.

Corset Sizes

How to Order Corsets

Under each illustration, you will find the measurements for that particular Corset. Read these very carefully. Where we state "Height of bust" we measure from the waistline to a point directly under the breast.

BACK LACE CORSETS

In ordering, give your **Corset size,** if you know it. If not, take your waist measure, tight over your dress. If you are ordering back lace corsets **subtract four (4) inches.** This allows for the lacing. Thus, if your waist measure is 25 inches, for back lace corset, order size 21.

FRONT LACE CORSETS

Take your waist measure tight over your dress. If you are ordering front lace corsets, subtract two (2) inches. Thus, if your waist measure, over your dress, is 25 inches, for a front lace corset, order size 23.

Brassieres—Give your bust measure in inches.
Corset Covers—Give your bust measure in inches.
Child's Waists—Give child's age and state if large or small for age.

How to Measure for Baby Bonnets

To insure a perfect fit, measure in inches, as shown in illustration, from under the cheek around side of face, over forehead, and around to the other side under the cheek. Do not measure underneath the chin—only to the neck in a straight line. The number of inches indicates the size.

How to Measure for Gloves, Gauntlets or Mittens

If you do not know your glove size, place your hand flat on a table, and measure around the knuckles with a tape line or a narrow strip of paper, closely, but not too tightly. Do not include the thumb. The number of inches your hand measures, indicates your glove size. Misses' and Children's gloves should always be ordered by age, although they are marked in manufacturer's scale. State whether child is large for its age. Please mention this in your order, so that we can give you the proper size.

How to Measure for a Ring

Cut a narrow strip of paper, wrap it around the large joint of the finger on which you wish to wear the ring. With a pair of scissors cut the paper off so the ends just meet. Enclose this paper with your order or lay it on the scale above so that one end of the slip just covers the black line at the left end of the scale; the figure at the other end of the slip will be the ring size you need. If the end of the slip falls between two numbers, you should order a half-size larger than the smaller of the two numbers. If you order a plain wedding ring or an engraved band ring, ask for a size one-quarter larger than the measure indicates.
